The University of Michigan, as an Equal Opportunity/Affirmative Action employer, complies with applicable federal and state laws regarding nondiscrimination and affirmative action, including Title IX of the Education Amendments of 1972 and Section 504 of the Rehabilitation Act of 1973. The University of Michigan is committed to a policy of nondiscrimination and equal opportunity for all persons regardless of race, sex, color, religion, creed, national origin or ancestry, age, marital status, sexual orientation, gender identity, gender expression, disability, or veteran status in employment, educational programs and activities, and admissions. Inquiries or complaints may be directed to the Senior Director for Institutional Equity and Title IX/Section 504 Coordinator, Office of Institutional Equity, 2072 Administrative Services Building, Arbor, Michigan 48109-1432, (734) 763-0235; TTY (734) 647-1388. University of Michigan-Dearborn inquiries may be addressed to the Dearborn Institutional Equity Officer, Office of Institutional Equity, 1020 Administration Building, Dearborn, Michigan 48128-2406, (313) 593-5320 or 593-5190, TTY (313) 593-5430, fax (313) 593-3568.

This Catalog of UM-Dearborn is a fundamental source of information concerning academic opportunities, policies, regulations, and procedures. It is each student's responsibility to become familiar with the information contained herein.

Information in this Undergraduate Catalog is as of March 2011. Every care has been taken to insure its accuracy; however, the University cannot be responsible for errors and reserves the right to change programs, requirements and policies at any time after the publication of this Catalog. Current information is available through Unit and Departmental Offices.

How to Use the Undergraduate Catalog

This Catalog is divided into five sections:

- General Information
- College of Arts, Sciences, and Letters
- College of Business
- College of Engineering and Computer Science
- School of Education

This Catalog of the University of Michigan-Dearborn is a fundamental source of information concerning academic opportunities, policies, regulations, and procedures. It is each student's responsibility to become familiar with the information contained herein.

WHERE TO FIND INFORMATION

The General Information section of this Catalog is divided into seven main areas:

- Admissions
- Financial Aid
- Registration and Records
- Policies and Procedures
- Special Programs
- Campus Services
- Student Rights and Responsibilities

The College of Arts, Sciences, and Letters, College of Business, College of Engineering and Computer Science, and School of Education sections contain: specific regulations and procedures which may be unique to that academic unit; information regarding programs, degrees and courses offered; and a plan for electing courses to fulfill undergraduate degree requirements.

KEY TO COURSE LISTINGS

The heading for each course listing contains the following information.

Discipline and Course Number

Courses are numbered in accordance with a University-wide numbering system: courses numbered 100 to 199 are introductory; courses 200 to 299 are intermediate; courses 300-499 are advanced (upper division).

Course Title

The bold face course title follows the course number.

Credit Hours

Credit hours at the University of Michigan-Dearborn are based on semester hours. The number of credit hours for each course is listed below the title.

Prerequisite

Prerequisites to the course normally appear below the title and credit hours, although they may sometimes be included in the course description. They should be completed before the course is elected.

Concurrent Courses

Courses listed in the prerequisite section with an asterisk (*) indicate those that may be taken concurrently with the course listed.

FREQUENCY OF OFFERING

The following abbreviations are used to denote the frequency of offering: (F) fall term; (W) winter term; (S) summer term; (F, W) fall and winter terms; (YR) once a year; (AY) alternating years; (OC) offered occasionally
The University of Michigan-Dearborn

The University of Michigan-Dearborn is one of the three campuses of the University of Michigan operating under the policies of the Board of Regents.

The campus, located the former estate of automotive pioneer Henry Ford, was founded in 1959 as a senior-level institution offering junior, senior and graduate-level courses and degrees. In 1971, UM-Dearborn became a comprehensive university campus offering four-year degree programs in liberal arts and sciences and graduate programs at the master's degree level.

More than 8,700 highly selective students, representing a wide range of academic interests and diverse backgrounds, are currently enrolled at the UM-Dearborn.

As part of the University of Michigan, UM-Dearborn enjoys an association with a large multi-university and the advantages of moderate size. Through expanded evening course offerings, professional development programs and cooperative education programs, UM-Dearborn continues to respond to the educational needs of commuting students from the Detroit metropolitan community.

Mission and Values

The UM-Dearborn is an interactive, student-centered institution committed to excellence in teaching and learning.

We offer undergraduate, graduate, and professional education to a diverse and talented student body. Our programs are responsive to the challenging needs of society; relevant to the goals of our students and community partners; rich in opportunities for independent and collaborative study, research, and practical application; and reflective of the traditions of excellence, innovation, and leadership that distinguish the University of Michigan.

We accomplish this mission by:
- Providing a strong foundation in the liberal arts and sciences;
- Providing the knowledge and skills essential for career and personal success;
- Integrating teaching, research, and service in ways that enhance the learning experience;
- Promoting internships and cooperative education;
- Providing a dynamic environment where innovation, openness, and creativity are fostered;
- Using advanced technologies to meet changing educational needs and establish links with the global community; and
- Forging partnerships with business, industry, educational institutions, and government agencies.

We strive to be the institution of choice in southeastern Michigan for individuals and organizations that value accessibility, flexibility, affordability, diversity, and preeminence in education.

Goals for the Undergraduate Experience

Undergraduate education at the University of Michigan-Dearborn is based on the belief that the benefits of academic work are enhanced when classroom and intellectual rigor interact with community engagement and experiential learning. The University of Michigan-Dearborn is uniquely situated to address the complex challenges facing the metropolitan region by offering students rigorous academic offerings as well as the opportunity to apply that knowledge in real-world situations. Our goal is to graduate students who are able to apply theoretical and discipline-specific knowledge to discover creative solutions to problems and to successfully communicate those ideas both individually and as a part of a collaborative effort.

Undergraduate programs at the UM-Dearborn provide students with the opportunity to develop particular skills and abilities; to think critically and creatively to solve problems; to cultivate an appreciation of aesthetic and ethical values; and to acquire both breadth of knowledge and the depth of understanding gained through the study of one or more academic disciplines. The UM-D faculty has a common commitment across units to provide students with foundational knowledge through content-specific courses, extra-curricular activities, and community-oriented experiences. Each of these goals corresponds to Association of American Colleges and Universities (AAC&U).

The goals for undergraduate student learning and experiences at UM-Dearborn are:

- Core Knowledge
- Communication
- Cultural Understanding
- Critical and Creative Thinking
- Collaboration
- Citizenship

GOALS

1. Core Knowledge
   Undergraduate student learning goal #1, “Core Knowledge,” acknowledges that, each discipline at the University of Michigan-Dearborn, requires students to gain knowledge of and experience with their chosen academic discipline. Although the content-area goals within each discipline will likely be unique, all degree programs share fundamental educational values that include:
   - acquiring rigorous, discipline-specific inquiry skills.
   - learning to apply theories to and construct models for addressing real-world problems.
   - discussing and producing intellectual work using discipline-specific conventions for writing, research and communicating.

2. Critical and Creative Thinking
   Undergraduate student learning goal #2, “Critical and Creative Thinking,” acknowledges the students’ need to gain experience in problem solving, and to engage in analysis, synthesis and evaluation in creative ways using an ethical framework. Development of such habits of mind will be demonstrated by:
   - the ability to seek information and use inquiry to systematically explore situations, collect and analyze evidence, and make informed evaluations.
• the synthesis of knowledge within and across courses and programs and the integration of theory and practice.
• the ability to use qualitative and quantitative reasoning to develop a clear understanding of the problem being studied.
• the generation of creative solutions to problems through original, imaginative, innovative, or artistic effort.
• the ability to use ethical reasoning to generate meaningful solutions to problems.

3. **Communication**
Undergraduate student learning goal #3, “Communication,” recognizes that there are a wide variety of modes of communication, including written and oral communication that are continually being shaped and expanded through rapid changes in technology. Student mastery of these myriad ways of communicating ideas and intellectual products will be demonstrated through the development of:
• the ability to communicate clearly and effectively to an identified audience both in writing and orally.
• the creation of communication that demonstrates content knowledge, deep reflection, creativity and critical thinking.
• the appropriate use of technology in maximizing the clarity, impact and accessibility of student ideas.

4. **Collaboration**
Undergraduate student learning goal #4, “Collaboration,” acknowledges that collaborating with peers, faculty and community members is an important part of the learning process in all disciplines. This element in the University’s educational plan for students will be promoted by providing students the opportunity to:
• work actively and effectively as a part of a team to answer questions and solve problems.
• develop the ability to critically and effectively evaluate the collaborative products and processes.
• grapple effectively with differences and diversity and resolve conflict that occurs in collaborative efforts.

5. **Cultural Understanding**
Undergraduate student learning goal #5 “Cultural Understanding,” acknowledges that appreciating global and cultural diversity within historical, artistic, and societal contexts is critical to individual and societal success in both professional and personal areas of life. Student achievement in this realm will be gained through:
• reflecting on experiences with diversity to demonstrate knowledge and sensitivity.
• demonstrating awareness of how diversity emerges within and across cultures.
• developing the ability to collaborate in a global setting through awareness of language and cultural differences.

6. **Citizenship**
Undergraduate student learning goal #6, “Citizenship,” recognizes that engagement occurs in many ways for students, and manifests itself in different ways for each academic program and discipline. Active meaningful student involvement in course, community and societal affairs will also encourage student lifelong learning by providing the opportunity to use their skills, abilities and knowledge in a variety of roles and environments. Acquisition of these skills will be promoted through:
• engagement in case-study, scenario analyses and problem solving activities.
• participation in curricular and co-curricular work integral to the metropolitan mission of UM-D.
• exposure to the diversity, strengths and challenges of the metropolitan community.
• experience in engaging in activities that emphasize the habits of lifelong learning.

**GENERAL EDUCATION REQUIREMENT AND THE GOALS FOR UNDERGRADUATE LEARNING**

One component of the undergraduate experience is the required coursework (called “distribution requirements” or “general education requirements”) taken by students in preparation for more focused and sustained work in their fields of choice. General education courses incorporate the six goals for undergraduate learning while focusing on building skills in written communication, critical thinking, quantitative reasoning and problem solving so as to prepare students for later coursework in their core disciplines. Each academic unit has developed the most appropriate mix of general education requirements and options for its own students.

**Written Communication.** Because writing plays a role in both the construction and transmission of knowledge, learning to write effectively about ideas is fundamental to undergraduate student learning. At the introductory level, students who complete general education requirements are expected to be able to use writing as a means of critical inquiry and as a way of engaging significantly with the kinds of texts typical of college-level courses. Students are also expected to be able to construct a structured and focused argument, to revise and edit their work in the light of particular audience demands, to draw on the insights of others and incorporate the results of research into their own writing, and to apply appropriate conventions of genre and voice. Introductory writing objectives include using basic computer-mediated expression as a form of communication.

**Critical Thinking.** General education courses help students to see relationships, similarities and differences among ideas, objects and phenomena; to identify central issues and assumptions in an argument; to make inferences from data; to deduce conclusions from information or data provided; to determine whether conclusions are warranted on the basis of the arguments and data given; and to recognize faulty reasoning and applying ethical standards. In addition, general education courses prepare students to determine the various implications that follow from accepting particular arguments and data, and to assess arguments in light of their own beliefs and values. Finally, these courses provide guided practice in strategies for accessing information effectively, and for analyzing, synthesizing, and applying it in new situations.

**Quantitative Reasoning and Problem-Solving.** Together with logical and critical reasoning skills, the ability to work with algebraic, geometric, logical and/or statistical concepts is essential for the study, advancement, and application of many fields of knowledge. General education coursework in quantitative disciplines help students to develop the ability to think logically using symbolic expression as well as deductive and inductive reasoning. Courses meeting this requirement also provide a disciplined introduction to build student skills in manipulating and presenting quantitative information.
The Campus

The UM-Dearborn campus was established in 1956 through a gift from the Ford Motor Company. The gift included approximately 196 acres of land, the Henry Ford Estate, and funds for the construction of four buildings totaling 226,770 gross square feet. The campus has grown considerably over the past 38 years and now includes the following facilities:

<table>
<thead>
<tr>

The Mardigian Library offers a student-centered environment that fosters learning by providing access to authoritative sources of knowledge and information and by helping students learn critical information literacy skills and concepts. It gives faculty and students access to sources and knowledge via modern information technology, and our librarians teach students how to find their way in the ever-expanding universe of information and knowledge. The four-story Mardigian Library houses a 340,000-volume collection and provides web-based access to a multitude of research resources, including an online journal collection of 18,000 titles, 200 online research databases and over 9,000 online books and approximately 1,200 student study stations. The facility also contains computer, audiovisual, and education laboratories, and a television studio. Librarians are accessible, either online or in person, to help students with their research needs.

The Alfred Berkowitz Gallery, located on the third floor of the Library, features changing exhibitions throughout the academic year. The gallery functions as a program laboratory, extending and supplementing other University programs, and as a showcase for exhibitions with broad public appeal.

Spaces for recreational, intramural, and varsity athletics, as well as health and physical education classes, are provided in the Fieldhouse/Ice Arena and attached Wellness Center.

The Administration Building, the University Center, and the Campus Support Services building currently house support services for the campus.

The Professional Education Center houses professional and continuing education programs.

The Henry Ford Estate is a major center of campus activity for meetings, cultural activities, and conferences. Having been designated a National Historic Landmark, it is open for public tour year-round.

Three cottages, part of the original Henry Ford Estate, have been converted to a Child Development Center. In addition, a modular building houses a kindergarten program.

Capsule History of the University of Michigan-Dearborn

The first movement toward what was to become The University of Michigan-Dearborn began with some studies in the middle 1950’s of manpower supply conducted by Archie Pearson, director of training for Ford Motor Company. Convinced that serious shortages were looming for the Company in qualified, college-trained engineers and junior administrators, he made discreet inquiries of educational institutions in the Detroit area concerning their willingness to adjust their programs to meet these needs.

Pearson was particularly interested in a program with a cooperative education component that would provide several periods of full-time work experience, alternating with regular terms of professional academic study. However, his inquiries and those of his associates did not strike the responsive chord they were looking for until they were put in touch with members of the top administration at the University of Michigan. Thus in late 1955 began the negotiations between Pearson, his associates, and University of Michigan officials that led to the establishment of the Dearborn Center of the University of Michigan. During 1956, the details of the proposed campus were worked out by a Special Committee involving top administrators at both Ford Motor Company and the University of Michigan. The announcement on December 17, 1956 of a gift of land and capital development money from the Company to the University made it obvious that the focus of the agreement between the two was the building of an upper-division and master’s level campus of the University which would adopt the cooperative work-study requirement as a part of its regular degree program in
During this period there was a scramble just to supply the courses and facilities needed to accommodate the soaring student population. New faculties were added at the rate of 10 to 20 per year, and the face of the campus changed as a new set of buildings (the former University Mall now remodeled as the University Center, the Fieldhouse, and the Library) was planned and constructed to the south of the original four buildings. By April 1981, when the new library building was dedicated, the population center of the campus had shifted to this newly developed area. Ironically, however, these years of expansion also ushered in a period of severe retrenchment, when the debt burden of the new structures coincided with a recession and cuts in state aid to the campus. Dr. William Jenkins, appointed as UM-Dearborn's second Chancellor in 1980, took the helm at the beginning of what may be called the institution's "Years of Consolidation."

The early 1980's at UM-Dearborn were, as in the state of Michigan as a whole, a period of severe financial crisis. From 1979 through 1982, over a million dollars of funds allocated to UM-Dearborn by the state had to be recalled. During that same time, faculty and staff salaries were cut and student tuition rose 44 percent in three years. Nevertheless, student enrollment, after a slight drop from 1982 to 1984, resumed its steady rise that has continued to the present. A new surge in capital fund-raising was instigated as a result of the campus's fiscal problems, and it bore early fruit in 1984 when Ford Motor Company announced the biggest capital gift to UM-Dearborn since its founding: $800,000 to build a computer-aided engineering facility, now known as the Manufacturing Systems Engineering Laboratory (completed in 1988). By the end of the decade, capital funding from the state (delayed during the recession) resulted in one major new building (the Social Sciences Building, formerly the School of Management Building), an addition to the Science Building (Computer Wing), and extensive renovations to one of the original campus buildings to provide much-needed additional office space for both faculty and administrators.

Several developments in campus organization, administrative personnel, and academic offerings have highlighted what might be called the "Years of Redirection," from about the time of the inauguration of Chancellor Blenda Wilson (1988) to the present. At the center of this "redirection" has been a program of strategic planning, initiated in the summer of 1990 and reinforced by planning retreats for the whole campus in the fall terms of 1990, 1991 and 1992. A new campus mission statement arose out of the first retreat which rearticulates UM-Dearborn's commitment to providing an experience of academic excellence for a diverse body of students from the metropolitan Detroit area, encouraging full community attention to the traditions of free intellectual inquiry, critical thinking and ethical behavior through interactive teaching, research, creative and applied scholarship, and service. From the second retreat emerged the principal points of a set of learning goals for undergraduate students.

In consonance with these statements of institutional purpose, organizational changes were made to strengthen the funding base for the campus, to consolidate and streamline academic programs, and to coordinate and strengthen student services under a new vice chancellor for student affairs. In July 1991, Dr. Robert Simpson took office as provost and vice chancellor for academic affairs, succeeding Dr. Eugene Arden. Provost Simpson energetically promoted the identification and implementation of those measures of academic improvement that are most appropriate to the newly stated purposes of the campus. Under his leadership, a new statement of UM-
Dearborn's Goals for the Undergraduate Experience was completed in 1993; a new fiber optic cable was laid for a campus computer network, with the Director of the Mardigian Library being given oversight of Information Technology Services; and, after a self-study (1991-93) using the campus's strategic plan as the focus, UM-Dearborn was officially reaccredited by the North Central Association in March 1994.

After Chancellor Wilson resigned in the summer of 1992, Dr. James C. Renick was appointed as the fourth chancellor of UM-Dearborn in January 1993. As one of his first responsibilities, he solidified the capital campaign and established a goal of $24 million over four years (1992-1997). Chancellor Renick emphasized the importance of making UM-Dearborn a fully "interactive campus" with the southeastern Michigan community it serves.

Several other important developments took place in 1993 and early 1994: 1) a new set of Campus Bylaws was instituted which provided for a Faculty Senate for the first time in the campus's history; 2) approval by the State Legislature of capital outlay for a new building to house faculty offices, general purpose classrooms, and a 350-seat multi-purpose auditorium; 3) institution of a new Engineering Management degree in 1993, administered jointly by the Schools of Engineering and Management; 4) implementation of a new, second-generation automated library system (WIIZARD) which substantially increases faculty and student access to local, regional and national bibliographic databases.

The University purchased the facility now known as Fairlane Center North and South from Ford Motor Company. In January 2004, the Schools of Education and Management completed their move into Fairlane Center South. SOE and COB courses were offered in this new location starting Winter 2004. The Computer and Information Science Department will occupy the space vacated by SOE and the Department of Social Sciences together with other administrative offices will move into the former School of Management building, now called the Social Sciences Building.

Under Chancellor Little, the strategic planning effort initiated by Renick was continued. The campus community reaffirmed its intention to pursue doctoral programming, to explore the possibility of on-campus housing, to review undergraduate programs and to focus attention on diversity. The most recent self-study for continuing accreditation by the Higher Learning Commission (formerly the North Central Association) focused on each of these areas and provided summaries of the current status of each of these ongoing efforts. UM-Dearborn was accredited for ten years in 2004 and was authorized to offer doctoral programming.

In 2009, UM-Dearborn welcomed its fourth Provost and Vice Chancellor for Academic Affairs, Dr. Catherine A. Davy. Two new buildings, the Science Learning and Research Center (just west of the Science Building) and the Institute for Advanced Vehicle Studies will be operational.

Source of information up to 1984: A Gift Renewed, written by Professor Elton D. Higgs.

Accreditation

The University of Michigan-Dearborn is fully accredited by The Higher Learning Commission and a member of the North Central Association of Colleges and Schools. Accreditation has also been awarded to various UM-Dearborn engineering programs by the Accreditation Board of Engineering and Technology, Inc. AACSB, the Association to Advance Collegiate Schools of Business has accredited programs in the College of Business. The School of Education is a member of the American Association of Colleges for Teacher Education, the Michigan Association of Colleges for Teacher Education, and the Teacher Education Council of State Colleges and Universities. In 2001 its certification programs were approved through the periodic review of the Michigan Department of Education.

For information regarding the accreditation status of the University, either of the following may be contacted:

The Higher Learning Commission
North Central Association of Colleges and Schools
230 South LaSalle Street, Suite 7-500
Chicago, IL 60604-1413

Campus Visits/Tours

Visiting campus is the best way to explore what we offer you! The Office of Admissions and Orientation offers multiple visit options. Choose the one that best fits your schedule by visiting our website at umd.umich.edu/visit.

Campus Visits
• Go Blue Friday: A special all-inclusive visit for high school students
• Transfer Advantage: Designed especially for students interested in transferring.
• Daily Campus Tours: Forty-five minute walking tours are given by current students at various times throughout the week. Call 313-593-5100 to make a reservation.
• Individual Appointments: If you prefer a one-on-one meeting with an admissions counselor, appointments are available Monday through Friday. Walk-in counseling is available on most Saturdays.
• Group Visits: Group visits (10 or more students in 8th grade or above) can be arranged to include an Admissions informational session and a 45-minute walking tour led by current students. Other campus offices are available to provide information by request. Please request a group visit at least two weeks in advance. A request form is available online at umd.umich.edu/visit.
## Degrees Offered

## Freshman Student Admission

### ADMISSION PROCEDURES

UM-Dearborn welcomes applications from prospective freshmen. The admission of all students is on a selective basis; admissions officials consider many factors in reaching individual decisions for admission.

Sources of information used in evaluating a candidate's qualifications include the secondary school record (GPA, rigor of curriculum and trend of grades), comments of the secondary school counselor or principal, scores achieved on either the Scholastic Aptitude Test (SAT) or the American College Test (ACT), and any evidence of special abilities.

Freshmen are expected to present a final official high school transcript as proof of graduating from an accredited high school or preparatory school. The requirement of high school graduation may be waived for adults, provided there is evidence that they are likely to be successful at the University. This evidence will in most cases take the form of the General Educational Development (GED) test results. The minimum GED test score for admission consideration is 550.

### APPLICATION DEADLINE

It is recommended that students apply for admission online and are eligible to do so as soon as they complete their junior year in high school.

The application deadline for preferred scholarship consideration is December 15 of the student’s senior year in high school. The official application deadline date for any semester is the first day of class of that semester.

The application fee is $30. If you apply online (umd.umich.edu/apply), the application fee is waived and you can check your application status online. Paper applications may also be obtained in the Admissions Office, online, or by writing to the Office of Admissions and Orientation, University of Michigan-Dearborn, 4901 Evergreen Road, Dearborn, Michigan.
48128-2406 or calling 313-593-5100. If you submit a paper application, you must include payment (check or money order) for the $30 non-refundable application fee.

Official high school transcripts are needed at the time of application for freshman admission to UM-Dearborn. Students seeking admission to UM-Dearborn from other institutions of higher learning must also submit official transcripts of all previous coursework. Official corrections made to transcripts by previous schools, whether high schools, colleges, or universities, must be submitted to the University no later than six months after the first day of classes. Students whose transcripts are not received will have a hold placed on their student account which prevents course registration for future semesters.

The Admissions counseling staff welcomes the opportunity to meet prospective students. Appointments should be arranged in advance by calling the Office of Admissions and Orientation at 313-593-5100.

ADMISSION REQUIREMENTS

Students interested in enrolling at UM-Dearborn should have completed the Michigan Merit Curriculum as established by the State of Michigan. Students graduating from a high school outside of Michigan should pay close attention to the requirements listed below.

A strong high school background in basic academic subjects is important in a student's preparation for college study. The following college preparatory high school curriculum should be followed:

- **College Preparatory English:** Minimum four years required.
- **Mathematics:** Minimum four years required (at least two years must be in college preparatory mathematics).
- **Biological and Physical Sciences:** Minimum three years required with four years recommended.
- **History and Social Sciences:** Minimum three years required.
- **Foreign Language:** Minimum two years strongly recommended.
- **Computer Science:** At least one semester is required; one year recommended.
- **Electives:** Additional work in any subjects offered for high school credit to bring the total for the four high school years to the equivalent of at least 15 units.

SPECIAL RECOMMENDATIONS

Students who intend to pursue their college work in business administration, computer science, engineering, or physical and natural sciences are encouraged to include the following subjects in their high school preparation:

- **Mathematics:** Coursework should include two years of algebra, one year of geometry and at least one semester of trigonometry.

- **Biological and Physical Sciences:** Coursework should include one year of chemistry and at least one year of physics or biological science.

Applicants intending to pursue a college program in science or engineering who have not completed the recommended mathematics and chemistry units may still be admitted if they satisfy the general admission requirements. However, they will be expected to establish proficiency in these areas during their freshman year.

TEST REQUIREMENTS

UM-Dearborn requires all prospective freshmen to submit scores from at least one standardized test: the Scholastic Aptitude Test (SAT) or the American College Test (ACT). The student should make certain that the test results are forwarded to the UM-Dearborn Office of Admissions and Orientation (SAT code #1861; ACT code #2074). The results of standardized achievement tests in specific subject areas are not required as part of the application process. However, all new students enrolling at UM-Dearborn, freshmen and transfers, must take the UM-Dearborn English Composition Examination; the Mathematics Placement Examination must be taken by all new students who plan to take Pre-Calculus or Calculus I. These exams are for diagnostic and placement purposes. Placement exams are normally administered prior to each registration period.

ADVANCED PLACEMENT (AP)

A prospective student who has exhibited outstanding scholarship in a particular subject area and has participated in the College Board's Advanced Placement Program (AP) may be considered for advanced college placement and credit. Such applicants should arrange to have their Advanced Placement Examination reports sent (use our college code of 1861) to the Office of Admissions and Orientation, where they will be reviewed in accordance with the regulations of the various academic departments. Advanced Placement credit will not be granted when the AP Exam is taken after the student’s official date of high school graduation. For information on the college credit AP practices, visit umd.umich.edu/advancedplacement.

INTERNATIONAL BACCALAUREATE

UM-Dearborn grants credit to students based on their IB scores. Students who participated in the IB program in high school should request that their scores be provided to the University for evaluation. Scores of 4 and above are considered for credit.

ENROLLMENT DEPOSIT

In order to guarantee a space in the respective semester, a $50 enrollment deposit should accompany the student's affirmative reply on the Enrollment Verification Form, which is sent to the student at the time of admission. The applicant may confirm at any time. For the fall semester, the deadline for deposit is May 1. Upon registration, this deposit will be applied to tuition/fees for that semester. The $50 enrollment deposit is not refundable after May 1 for fall semester admitted students regardless of when the deposit is submitted.

For the winter semester, the deadline for deposit is December 1. For the summer semester, the deadline for deposit is April 1. The deposit is not refundable after the deadline dates. Online payment of the deposit can be submitted at umd.umich.edu/deposit.

BRIDGE PROGRAM

Students denied admission to the University may choose to enroll in the Bridge Program, a partnership with Henry Ford Community College. Students can enroll at HFCC for the first one to two years of college to plan a degree program, earn college credit, and develop the skills and knowledge necessary to succeed in academics. For more information, visit umd.umich.edu/bridge.
Transfer Student Admission

ADMISSION REQUIREMENTS

The requirements for admission to UM-Dearborn depend upon the particular program of study to be followed. Admission is based on preparation, ability, and probability of success. All applicants should be in good standing and eligible to return to their previous institution.

Each of the four academic schools and colleges of the University has its own admission criteria:

- CASL: 2.50
- COB (BBA): 2.70*
- CECS: 2.75**
- SOE: 2.75

*Students must also have a 2.70 in the eight specific courses (COMP 105, 280; ECON 201, 202; MATH 113 or 115; BA 100; ACC 298, 299) required for BBA admission.

**Students must also have a 2.75 recalculated math GPA and 2.75 science GPA.

PRE-ADMISSION COUNSELING

Admissions counselors are willing to explain the educational opportunities available at UM-Dearborn to prospective students. It is urged that, whenever possible, persons interested in enrollment arrange a one-on-one appointment. This includes students in college or high school or anyone wishing to return to school.

ADMISSION PROCEDURE

Prospective transfer students are required to submit an application for admission and an official transcript from each college or university previously attended. Failure to list all schools attended on the application may result in revocation of admission. To be considered, official transcripts must come directly from the previous college/university to UM-Dearborn’s Office of Admissions and Orientation or must be received in a sealed envelope with the issuing college/university’s stamp/signature over the seal. Official corrections made to transcripts by previous schools, whether high schools, colleges, or universities, must be submitted to the Office of Admissions and Orientation within six months of the first day of classes of the term of admission. The prospective student is responsible for contacting each previous school attended to request that official transcripts be sent. While all transcripts are required for admission, only courses taken at an accredited college or university will be considered for transfer to the University of Michigan-Dearborn. UM-Dearborn uses the Transfer Credit Practices published by the American Association for Collegiate Registrars and Admission Officers (AACRAO) as a guideline to determine transferability of courses based on accreditation status and other criteria. A list of accredited U.S. and Canadian colleges and universities can be obtained from infoplease.com/edu/colleges/index.html or from the American Council on Education at acenet.edu/nationalguide/.

The application fee is $30. If you apply online (umd.umich.edu/apply), the application fee is waived and you can check your application status online. Paper applications may be obtained in the Admissions Office, online, by writing to the Office of Admissions and Orientation, University of Michigan-Dearborn, 4901 Evergreen Road, Dearborn, Michigan, 48128-2406 or calling 313-593-5100. If you submit a paper application, you must include payment (check or money order) for the $30 non-refundable application fee.

When the application and official transcripts have been received, they will be evaluated and the student will be notified regarding admission status.

TRANSFER OF CREDITS

Students transferring to UM-Dearborn from other two- or four-year institutions can use one or more of these resources below to ensure maximum number of transfer credits.

Course Transfer System

The Course Transfer System (CTS) (umd.umich.edu/cts) at the University of Michigan-Dearborn is a valuable resource. While it is not an official credit evaluation, the CTS can serve you in determining the transferability of courses from an accredited Michigan community college or four-year school. The information is always current and reflects courses that potentially transfer to UM-Dearborn, but does not necessarily indicate if or how these courses will be used toward your particular degree program.

Equivalency Tables

Our Equivalency Tables outline how courses by each subject area transfer to the University.

Curriculum Guides

Our Curriculum Guides outline courses that can be applied to specific majors.

TRANSFER HUBS

Students transferring to UM-Dearborn from a community college located in the metropolitan southeastern Michigan area should check out the customized websites for each of the community colleges. These sites can be accessed at umd.umich.edu/hubs.

TRANSFER EQUIVALENCY WORKSHEET

Shortly after admission, a transfer student will receive a Transfer Equivalency Worksheet. This worksheet reflects only the overall hours potentially transferable to UM-Dearborn, but does not necessarily reflect the hours that will be used toward a degree program. An academic advisor will inform the student as to which hours actually fulfill program requirements. The number of hours that apply to a particular program will determine the number of additional UM-Dearborn hours necessary for degree completion.

MAXIMUM TRANSFERABLE CREDITS

Degree-Seeking Student

A student who has been admitted into a regular degree program in an academic unit is called a degree-seeking student. After enrolling, a student may change from one degree program to another by following established procedures, as long as he/she is accepted by the new unit.
Admission to the Honors Program

The Honors Program at UM-Dearborn is designed for qualified, highly-motivated students who want an extra level of challenge and stimulus in their college experience. Honors students take a special sequence of classes that satisfy basic requirements and, at the same time, provide a well-balanced undergraduate education. The program teaches students to think critically and independently, to perceive connections between diverse areas of knowledge, and to express their thoughts clearly and effectively. Honors Program classes are small, enabling students to interact closely with the faculty and each other.

Admission to the program is competitive and is based on the student's interests and experience as well as the high school record. Students eligible to interview for the Honors Program will be contacted to schedule an interview.

Students admitted with distinction (at least a 3.50 recalculated GPA and at least a 25 ACT composite score) will be invited to interview for the Honors Program.

For more information, visit casl.umd.umich.edu/sp_honorsprog.

Personal Enrichment

Personal Enrichment (PE) is an admission status that enables students to enroll in undergraduate courses for the purpose of personal or professional development.

Eligibility

- Students must have already earned a baccalaureate degree and are not seeking an additional undergraduate degree.

Students in this category are subject to the following policies:

- A PE student may enroll for a maximum of 15 credit hours at the University. There is no limit on the number of semesters, but the total number of completed credit hours for all semesters enrolled may not exceed 15.
- A PE student may apply no more than 15 credit hours accumulated at UM-Dearborn to a degree program. Exception is possible only by written permission of the academic dean of the unit to which the student has applied.
- A PE student is limited to enrolling for nine credit hours (not to exceed three courses) in a single four-month term (four hours per half-term).
- A PE student with a grade point average (GPA) less than 2.0 should see the Director of Academic Assistance in the Student Success Center before registering for a subsequent term. The student will normally be put on probation. If academic performance persists below a 2.0 cumulative grade point average (GPA), the student may be required to withdraw from the University.

A Personal Enrichment student will have fees assessed and adjusted by fee regulations identical to those governing regular matriculated students. All courses taken under PE status are considered part of the undergraduate record.

Students who wish to request additional information should call the Office of Admissions and Orientation at 313-593-5100.

Prospective Degree Student

The Prospective Degree Student (PDS) program provides an opportunity for an individual whose previous high school and/or college work does not qualify for admission as a degree-seeking student to enroll in undergraduate courses.

Eligibility

- Students who are at least five years beyond high school graduation (or beyond last high school attendance for applicants with a GED)

OR

- Students who have completed some college work, and are at least five years out of high school, and have not been enrolled in college for at least two years

Students in this category are subject to the following policies:

- A student may apply no more than 15 credit hours accumulated at UM-Dearborn to a degree program. Exception is possible only by written permission of the academic dean of the unit to which the student has applied.
- A PDS student with a grade point average (GPA) less than 2.0 should see the Director of Academic Assistance in the Student Success Center before registering for a subsequent term. The student will normally be put on probation.
- The 15 credit hours, GPA requirement, and prerequisite courses (if any) must be completed within two full academic years.
- Students who earn a GPA less than the academic unit requirement are unable to apply for admission and do not have permission to enroll in any status.
- Students who do not enroll at UM-Dearborn for one year or more and are in good academic standing must reapply by completing a new Prospective Degree Student admissions application.
- A PDS student will have fees assessed and adjusted by fee regulations identical to those governing regular matriculated students. All courses taken under PDS status are considered part of the undergraduate record.

Financial Aid Eligibility Limitations

Prospective Degree Students have a special status at UM-Dearborn and are eligible to be considered for financial aid for up to 12 consecutive months before admission to a regular degree program. If a student is not admitted to a regular degree program at the end of the 12 consecutive months, the student is not eligible for additional financial aid.

Students who wish to request additional information should call the Office of Admissions and Orientation at 313-593-5100.

Alumni Enrichment Program

The Alumni Enrichment Program is an opportunity for UM-Dearborn alumni to enhance their education and to provide additional exposure to a variety of subject areas on a non-credit basis. Each alumni's selection of courses will be checked to ensure that the educational-broadening objective of this program is being faithfully pursued.

All courses must be taken on a pass/fail basis.
ELIGIBILITY
This program is available to UM-Dearborn Alumni only. Upon acceptance, students are eligible to elect up to 9 hours per term of undergraduate course work in one or more fields distinctly different from the field in which they earned their bachelor's degree (major or minor).

Undergraduate and graduate alumni from UM-Dearborn may pursue undergraduate courses. They are eligible to participate in the program one full term after graduation has been confirmed. Alumni participants are not eligible if currently enrolled in a degree or certificate program.

Course enrollments will occur on a space available basis. Alumni in this program will also have to meet the regular pre-requisites for any courses they elect. Internship, cooperative education, and online courses are not available to program participants.

ASSESSMENT
A discounted per credit hour charge will be levied as an "enrollment fee." This means that a portion of the tuition will be covered by an Alumni Scholarship. The Alumni Enrichment student will also be expected to pay any fees associated with registration, course elections, and technology.

TO APPLY
Complete an Alumni Enrichment Application and submit it to Enrollment Services. Applications are available in the Office of Admissions and Orientation or online at umd.umich.edu/otheradmission. Once approved and processed students will be allowed to register for classes. For further information, contact the Office of Admissions and Orientation at 313-593-5100.

Undergraduate Certificate Programs
UM-Dearborn offers multiple undergraduate certificate programs that can be completed separately after degree completion. Post degree students (students already holding a bachelor’s or master’s degree) apply for admission to a certificate program using the College of Arts, Sciences, and Letters Campus Options Program (CASL-COP) application (exception: African American Studies Certificate – see below). For a list or certificates offered, visit umd.umich.edu/cert-programs.

Students currently enrolled at UM-Dearborn apply for a certificate via a “Declaration of Minor/Certificate Form,” available in their academic advising office.

Guest Students
A guest student is a regular degree student in good standing at another institution who is admitted to UM-Dearborn for one term only. Such students are admitted by means of a Michigan Uniform Guest Application certified by the home institution. Work completed under such an arrangement is considered to be a part of the student's program elected under the jurisdiction of the home institution.

Guest students are expected to receive academic advising from their home institution, although guest students are subject to all rules governing course prerequisites. The Guest application deadline for any term is the first day of class of that term.

Guest students may enroll for a maximum of four semesters. A new application is required for each semester they wish to enroll. If a guest student has previously taken classes at UM-Dearborn, the admission decision will also be based on the UM-Dearborn GPA.

If there are prerequisites for any courses elected, the student is required to submit a copy of the home college/university's transcript to verify that all requirements have been fulfilled and receive the necessary overrides prior to registration.

Dual Enrollment Programs

HIGH SCHOOL DUAL ENROLLMENT
Dual enrollment provides an opportunity for public high school students with demonstrated academic potential to enroll in selected UM-Dearborn courses while completing their high school graduation requirements.

The purpose of the program is to supplement and enrich the educational experience by allowing students to pursue course work which otherwise would not be available. Admission as a dual enrolled student is a special non-degree status. Students are expected to complete all graduation requirements mandated by his/her high school. Although students are admitted with a special status, they are granted full privileges of UM-Dearborn students, including use of the library and recreational facilities and the opportunity to purchase student tickets to cultural and athletic events at the University of Michigan. After graduation, admission to a degree program at the University will be granted provided they meet the minimum admission criteria. Dual enrollment students may enroll for a maximum of eight credit hours per semester.

Admission Criteria
- **Seniors**: Students who wish to take college classes during their senior year of high school must have an academic GPA of 3.0 or higher.
- **Juniors**: Students who wish to take college classes during their junior year of high school must have an academic GPA of 3.5 or higher.

To Apply for Admission
Apply as early as possible. The deadline for all documents is **June 15** for the fall semester and **November 1** for the winter semester. No application will be processed until all of the following have been completed and received:

1. The Dual Enrollment application.
2. Course election worksheet (back of the application). Be sure to select alternatives.
3. Calculation sheet (back of the application) signed by your high school counselor or principal.
4. An official transcript (including test scores, if applicable).

Students must submit a new application for each semester they wish to enroll.

Orientation and Registration
Students will be notified of their admission status by the Office of Admissions and Orientation. Admission to dual enrollment status does not guarantee the ability to enroll in the class(es) specified on the application form, but every effort will be made to accommodate the student’s request. Information about orientation and registration will be mailed upon admission.
IGNITE DUAL ENROLLMENT

IGNITE, an acronym for Inspiring Gifted and Nurturing Individuals Through Enrichment, is a program which has been developed through the combined efforts of local secondary school counselors and principals and the University of Michigan-Dearborn. The objective of the IGNITE program is to provide an opportunity for private, parochial, or home schooled high school students with demonstrated academic potential to enroll in selected UM-Dearborn courses while completing their high school graduation requirements.

The purpose of the program is to supplement and enrich the educational experience by allowing students to pursue course work which otherwise would not be available. Admission as an IGNITE dual enrolled student is a special non-degree status. Students are expected to complete all graduation requirements mandated by his/her high school. Although students are admitted with a special status, they are granted full privileges of UM-Dearborn students, including use of the library and recreational facilities and the opportunity to purchase student tickets to cultural and athletic events at the University of Michigan. After graduation, admission to a degree program at the University will be granted provided they meet the minimum admission criteria. IGNITE dual enrollment students may enroll for a maximum of eight credit hours per semester.

Students are not permitted to enroll in both programs simultaneously; a student will either be an IGNITE applicant or a dual enrollment applicant. If you have questions about the IGNITE program, call the Office of Admissions and Orientation at the University of Michigan-Dearborn, 313-593-5100.

Admission Criteria

- IGNITE applicants must be attending a non-public high school or home schooled, and they must be U.S. citizens or permanent resident aliens.
- **Seniors**: Students who wish to take college classes during their senior year of high school must have an academic GPA of 3.0 or higher.
- **Juniors**: Students who wish to take college classes during their junior year of high school must have an academic GPA of 3.5 or higher.

Scholarships

The IGNITE Scholarship pays half tuition and fees up to a maximum of eight credit hours per term for the fall and winter semesters only. Students do not have to complete a separate scholarship application; their tuition will automatically be adjusted.

Students may take classes during the summer semester, but are responsible for full tuition and fees; no scholarships are awarded for summer semester.

To Apply for Admission

Apply as early as possible. The deadline for all documents is **June 15** for the fall semester and **November 1** for the winter semester. No application will be processed until all of the following have been completed and received:

1. The IGNITE application (no application fee required).
2. Course election worksheet (back of the application). Be sure to select alternatives.
3. An official transcript (including test scores, if applicable).

NOTE: Students must submit a new application for each semester they wish to enroll.

Orientation and Registration

Students will be notified of their admission status by the Office of Admissions and Orientation. Admission to IGNITE dual enrollment status does not guarantee the ability to enroll in the class(es) specified on the application form, but every effort will be made to accommodate the student’s request. Information about orientation and registration will be mailed upon admission.

All dual enrollment applications can be found online at umd.umich.edu/otheradmission/.

Readmission

An undergraduate student (that is, a candidate for a bachelor's degree) who does not register for any courses at UM-Dearborn during a 12-month period must be formally readmitted in order to resume studies at UM-Dearborn. Such a readmitted student is then governed by the current Catalog.

Some instructional units at UM-Dearborn may have more stringent regulations. It is the obligation of students who leave the University for an extended period of time to acquaint themselves with the specific requirements of their instructional unit.

Since all I and X marks are permanently changed to IE and XE after six months, a readmit may not petition to make up I's or X's on his/her prior record.

Courses taken at other campuses will not count automatically toward graduation. Students must receive prior written permission from their academic unit to take specific courses elsewhere; otherwise, such courses may be rejected by the unit as credits toward a UM-Dearborn degree.

Readmitting students complete a Readmission Form available to download at umd.umich.edu/dde and submit it directly to the academic unit in which they wish to enroll. Readmitted students are subject to the requirements in effect at the time of readmission. If students want to change their program of study, they should contact the academic unit of the program to which they would like to change.

DEFERRING ADMISSION

Students may defer admission up to one year. After that, a new admissions application must be submitted.

To defer admission, students complete an Admission Information Change Form available to download at umd.umich.edu/dde and must disclose if there will be any enrollment at another school prior to the new deferred semester. Failure to disclose this information may result in the revocation of admission.

Teacher Certification

The School of Education at UM-Dearborn can assist qualified persons who hold a bachelor's degree from an accredited institution to pursue a program of study leading to a recommendation for a Michigan Provisional Teaching Certificate-Elementary (COE) or Secondary (COS).

Michigan Tests for Teacher Certification (MTTC) are required for both admission and for certification.

Admission to these programs (COE and COS) requires a cumulative GPA of 2.75 or higher on a 4.0 scale. In addition, a GPA of 2.75 is required in the chosen teaching Major (M) and teaching minor (m) (see Major/Minors for Elementary Certification or Majors/Minors for Secondary Education). Once admitted, the 2.75 must be maintained in all areas.

Applications and additional information are available by calling 313-593-5090.
Second Degree

Applicants must submit the Undergraduate Application for Admission and Scholarships and meet the same admission requirements as transfer students. Each of the four academic schools and colleges of the University have their own admission criteria:

<table>
<thead>
<tr>
<th>School</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>CASL</td>
<td>2.50</td>
</tr>
<tr>
<td>COB (BBA)</td>
<td>2.70*</td>
</tr>
<tr>
<td>CECS</td>
<td>2.75**</td>
</tr>
<tr>
<td>SOE</td>
<td>2.75</td>
</tr>
</tbody>
</table>

*Students must also have a 2.70 in the eight specific courses (COMP 105, 280; ECON 201, 202; MATH 113 or 115; BA 100; ACC 298, 299) required for BBA admission.

**Students must also have a recalculated 2.75 math GPA and 2.75 science GPA.

Refer to the Transfer Student Admission section for additional information.

Retired Persons Scholarship Program

The Retired Persons Scholarship Program (RPSP) offers retirees the opportunity to attend classes alongside traditionally-aged students. The integration of younger students and older students into the mainstream academic curriculum bridges the generational gap. A limited number of Retired Persons Scholarships for undergraduate and graduate study are available at the University of Michigan-Dearborn.

Prospective students are required and expected:

- to have reached their 60th birthday prior to the semester of their first registration under this program.
- to have graduated from high school and have the potential to succeed at college-level studies as demonstrated in an interview in the Retired Person Scholarship program (RPSP) Office. Appropriate education, career or life experience will be given special consideration.
- to be a "retired person" -- to have no current career or employment.
- For more information visit casl.umd.umich.edu/rpsp. Applications are available at umd.umich.edu/ddc, select CASL Campus Options Program, or by writing to:

Retired Persons Scholarship Program
2200 Social Sciences Building
University of Michigan-Dearborn
4901 Evergreen Road
Dearborn, Michigan 48128
313-593-1183

International Admission

All students must complete the Application for Undergraduate Admission. A $30 application fee is required of all students ($75 for those who will be studying on an F or J visa).

Application deadlines for students residing outside the U.S.:

<table>
<thead>
<tr>
<th>Semester</th>
<th>Undergraduate</th>
</tr>
</thead>
<tbody>
<tr>
<td>For the fall semester</td>
<td>July 1</td>
</tr>
<tr>
<td>For the winter semester</td>
<td>November 1</td>
</tr>
<tr>
<td>For the summer semester</td>
<td>March 1</td>
</tr>
</tbody>
</table>

You may submit your application first, and send additional materials afterwards. All correspondence must be in English, and must contain the full name of the applicant with the family surname underlined. Once the application has arrived, applicants will be notified of any missing items. Applications will not receive a final evaluation until all required materials have been received.

PROOF OF STATUS

Students who are not U.S. citizens must provide proof of their current status in the U.S. Please refer to the appropriate category below.

U.S. Permanent Residents
Submit a photocopy of the front and back of the Permanent Resident Alien Registration Card (green card). For students who have been approved but have not yet received their Green card: send a photocopy of the identification page of the passport (name and photo), and a copy of the passport page containing the I-551 stamp. If not available, submit a copy of “Notice of Action” (indicating a pending change in status) or an official letter from an attorney.

F-1 Visa Students
If you are already in the U.S. studying on an F-1 visa, you must submit a copy of your current I-20 form (front and back), a copy of your I-94 card, and a copy of the F-1 visa page of your passport. Students currently outside the U.S. who plan to obtain an F-1 visa from abroad for use in entering the U.S. should write “plan to obtain F-1” in the “Type of Visa” section on the application.

Other Visa Students, Refugees, and Asylees
If you are currently in the U.S. as a refugee, asylee, or on a temporary visa other than the F-1 student visa (such as F-2, B-2, H-4, etc.), you must provide a copy of the identification page of your passport (name and photo) and a copy of the page containing the stamp which indicates your status in the U.S. If you wish to change to F-1 status as you begin attending UM–Dearborn, please indicate this on your application.

Special Information for Canadians

- If you are a Canadian residing in the U.S. during your full course of study (12 or more credit hours), you must submit all documentation to the Admissions Office as if you were applying for an F-1 visa. An I-20 will be issued for the duration of the program of study.
- If you are a Canadian residing in Canada, you need to submit a financial document showing support for one semester. A Commuter I-20 will be issued for one semester at a time. Commuter Canadian Students do not receive all of the F-1 benefits.
- All Canadian students present the I-20 and other documents (i.e. passport) at the border, but they do not need to apply for a visa. The border will issue an I-94 document.

ACADEMIC RECORDS

Translations
Translations are required for all documents not originally in English. These translations are the responsibility of the student and must be complete, word-for-word, and in the same format as the original document. You must submit both the original document and the translation to the Office of Admissions and Orientation.
High School Records
All freshmen must submit official transcripts for all years of secondary school work completed (U.S. and abroad). If your secondary school work has been completed in a country which has national standardized examinations, you must also submit official certificates showing results of these examinations (“O” or “A” levels, Baccalaureate, Standard X and XII, etc.). Transfer students must provide proof of secondary school completion (diploma, final transcript, leaving certificate, examination certificate, etc.), but are usually not required to provide records from all years of secondary school. However, you must provide complete records if you have attended college for less than one year of full-time study.

College and University Records
Transfers must have official transcripts sent to the Office of Admissions and Orientation from all post-secondary institutions attended. Notarized copies may be acceptable from institutions outside the U.S. (if originals are typically difficult to obtain).

If you have attended college or university outside the U.S., you must also submit transcripts from all post-secondary institutions you have attended outside the U.S. to one of two evaluation services:

- Educational Credential Evaluators (ECE) for a course-by-course evaluation (www.ece.org)
- World Education Services (WES) for a course-by-course evaluation (www.wes.org)

Please also send a copy of these records (and translations) to the Office of Admissions and Orientation for your file, as requested above. ECE requires that you also submit records from your last year of secondary school along with your college or university records.

If you are admitted and enroll as a degree-seeking student at UM-Dearborn, we will reimburse you for $100 of the cost of this evaluation by making a credit to your student account at the end of the drop-add period of your first term of enrollment at UM-Dearborn. We will not reimburse for the extra rush service fee, so it is important that you start the evaluation process well in advance of your intended starting term at UM-Dearborn. Requests for reimbursement must be made in writing within 30 days of the start of the term to the Office of Admissions and Orientation.

ACADEMIC REQUIREMENTS FOR INTERNATIONAL ADMISSION

This section concerns grade-point average (GPA) and course/curriculum requirements. All first-year applicants must take either the SAT I or the ACT, AND a language proficiency test. See Sections “Requirements For Standardized College Entrance Examinations” and “English Language Proficiency Requirements” for details.

Freshman Academic Requirements
Freshmen who have attended secondary school abroad are expected to meet the same general admissions requirements as U.S. students.

1. You must have earned a U.S. high school diploma or the equivalent secondary school completion credential in your country, by the time you would enroll at UM-Dearborn. Freshmen usually apply during their last year of secondary school. Any offer of admission is conditional upon successful completion of the secondary school program before enrollment at UM-Dearborn.

2. You must have pursued a general academic (non-vocational) program of study. Solid preparation in the traditional academic college-preparatory subjects is required (English, mathematics, science, social studies).

3. You must have maintained above-average grades throughout your secondary school studies. Admission is competitive, and to be a strong candidate for admission, grades received should be equivalent to an overall GPA of 3.0 on a 4.0 U.S. scale. If you complete your secondary schooling abroad, please contact the Office of Admissions and Orientation for information on the credential and level of performance which would be acceptable for admission.

Transfer Academic Requirements
The Office of Admissions and Orientation will evaluate transcripts from all institutions attended as well as ECE or WES evaluations for foreign schools. Transfer students must have completed 24 transferable credits. If you are applying with fewer than 24 transferable credits, complete high school records including ACT or SAT scores will be required.

General academic requirements for each unit are listed below. You should contact the Office of Admissions and Orientation as early as possible in your academic career to be certain that you are completing courses that will not only transfer, but also count toward specific admission and/or graduation requirements at UM-Dearborn. All GPA requirements are given using the 4.0 U.S. scale.

All transfer applications are reviewed on an individual basis, and if you do not meet the stated requirements for your desired unit, it is suggested that you discuss your situation with an admissions counselor. Call 313-593-5100 to schedule an appointment.

- College of Arts, Sciences, and Letters
  Required GPA: 2.50
- College of Business
  Required GPA (BBA): 2.70
- College of Engineering and Computer Science
  Required GPA: 2.75
  Other requirements: Specific math and science GPAs will be recalculated: 2.75 is required for each.
- School of Education
  Required GPA: 2.75

If you do not meet the GPA requirement for the College of Business, College of Engineering and Computer Science, or the School of Education but you do meet the requirement for the College of Arts, Sciences, and Letters (CASL), you may be admitted to CASL, then apply to join your desired program after you have completed additional courses and raised your GPA to the required level. Students should also be aware that there are limits to the number of transfer credits each unit will accept, and should contact the Office of Admissions and Orientation for more information.

REQUIREMENTS FOR STANDARDIZED COLLEGE ENTRANCE EXAMINATIONS

All freshmen are required to take a U.S. standardized college entrance examination, regardless of your citizenship/visa status or whether you have attended secondary school in the U.S. or abroad. Transfer students are not required to take this exam if they have earned at least 24 transferable credits.

The Office of Admissions and Orientation will accept either the
SAT I (Scholastic Aptitude Test: Reasoning Tests) or the ACT (American College Test). You must take one or the other of these tests (it is not necessary to take both). These tests are available throughout the world, and should be taken well in advance of the intended starting term. SAT and ACT scores take 6-8 weeks after the test date to arrive at UM–Dearborn. You may take the test(s) more than once, and UM–Dearborn will consider only your highest composite score.

Your score will be used as one factor in the admissions process. The standard requirement for U.S. students is a composite score of 22 on the ACT or 1030 on the SAT, but flexibility is possible in certain cases. If your secondary education has been completed partially or entirely abroad, and if English is not your native language, your individual circumstances will be considered when evaluating your test scores.

For students with international backgrounds, the score required for admission in each case will depend on various other factors, such as high school courses and grades, and English proficiency test scores (if required).

For information and registration materials for the ACT or SAT, please contact your high school counselor if you are in the U.S., or contact the testing agencies directly if you are currently living abroad:

SAT
College Board
P.O. Box 6200
Princeton, NJ 08541, U.S.A.

act.org

ENGLISH LANGUAGE PROFICIENCY REQUIREMENTS

If you are not a native speaker of English, you must prove an adequate level of English language proficiency, even if you are a U.S. citizen or permanent resident and regardless of how long you have resided or been educated in the U.S.

UM-Dearborn does not offer beginning or intermediate-level English language study, and we do not offer conditional or probationary admission. You must fulfill the English language proficiency requirement in one of the ways described below before admission will be granted.

Freshmen may prove their proficiency without additional testing by:

- completing two full years of general track English courses in a U.S. high school with grades of “C” or better and
- completing two semesters of regular-track, transferable English composition courses, equivalent to UM-Dearborn’s Composition 105 and 106, with grades of “C” or better in both courses (“C-” or below is not acceptable for transfer). If you are enrolled in the second semester of English composition when applying and earn a “C” or better in the first semester of English Composition, conditional admission may be possible.

If you have not demonstrated English language proficiency in one of the ways described above, you must take an English language proficiency test. The Office of Admissions and Orientation will accept the Test of English as a Foreign Language (TOEFL), the Michigan English Language Assessment Battery (MELAB), or the International English Language Testing System (IELTS) Examination. You must take one of these tests; it is not necessary to take all of them.

The minimum score required for admission is dependent on the test you take. Achieving the minimum score does not guarantee admission, only consideration.

Minimum Scores:

<table>
<thead>
<tr>
<th>Test</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>MELAB</td>
<td>80</td>
</tr>
<tr>
<td>TOEFL: Paper-based</td>
<td>550</td>
</tr>
<tr>
<td>TOEFL: Computer-based</td>
<td>213</td>
</tr>
<tr>
<td>TOEFL: Internet-based</td>
<td>80</td>
</tr>
<tr>
<td>IELTS</td>
<td>6</td>
</tr>
</tbody>
</table>

The TOEFL and IELTS are offered throughout the world. The MELAB is offered in the United States and Canada. You should take one well in advance of your intended starting term. TOEFL and MELAB scores arrive at UM-Dearborn 6-8 weeks after the test date. IELTS mails results 13 days after the test date.

You may take the MELAB, TOEFL or IELTS test more than once, and only your most recent score will be considered. Test scores more than two years old will not be accepted for consideration. For testing information and registration materials, please contact:

Admissions Committees

The Admissions Review Committee is chaired by the Director of Admissions and Orientation. Other members include admission counselor(s) from the Office of Admissions and Orientation and a representative from the Student Success Center. The Review Committee meets regularly to review borderline admission cases and other unique admission circumstances.
The Conduct Review Committee is chaired by the Director of Admissions and Orientation. Other members include the Vice Chancellor for Enrollment Management and Student Life, the Executive Director of Enrollment Management, two admissions staff members and a representative from the Department of Public Safety. This Committee reviews applicants with academic or criminal conduct history.

Orientation

The Office of Admissions and Orientation conducts orientation programs for newly admitted freshmen, transfer students, and parents of new freshmen. These programs focus on academic expectations, requirements at UM-Dearborn, and various aspects of campus life. The programs also make students aware of existing services available to them: counseling; tutoring; academic advising; life/work planning; and social and cultural activities. The orientation program for parents of new students acquaints them with the organizational and programmatic structure of the University. Once admitted to the University, each student will receive information about Orientation. It is expected that all new students, freshmen and transfers, will attend Orientation. Questions may be directed to the Office of Admissions and Orientation by calling 313-593-5100.

The orientation fee for all new undergraduate degree seeking students is $75 and it is non-refundable. The cost of the fee covers placement exams, orientation programming and materials. The fee will be automatically posted to the student’s account. For more information about Orientation, visit umd.umich.edu/orientation.

PLACEMENT EXAMS

Newly admitted or readmitted students may need to take one or more placement exams. Placement exams are used to plan a student’s program of study. Placement exams should be taken well in advance of orientation or meeting with academic advisor. Placement exams in English, Mathematics, Foreign Language and Management Writing are offered. Placement exams are never used as a basis for awarding credit.

Academic Advising

All UM-Dearborn students should be pursuing an academic program leading toward personal, intellectual, and/or career objectives. To aid that student in making appropriate decisions - both in determining long-range goals and in meeting specific program requirements - career guidance counseling and academic advising services are available throughout the academic terms, including the period of registration.

This Catalog is a fundamental source of information concerning academic opportunities, policies, regulations and procedures. Each student should become familiar with its contents, particularly the sections dealing with specific academic requirements for the student's program of study and with the policies of the academic unit in which the program is administered. Faculty advisers and professional staff in each academic unit are available to help the student understand policies and regulations as well as to assist in developing and implementing a program of coursework. In certain programs, the unit may require the academic plan to be worked out, signed, and deposited in the school, college, or departmental office. In most cases, the student will find a suitable regular program adequately described in the Catalog.

The fundamental goal is to assist the student in defining and achieving, in the most efficient way, a clear academic objective. The student's career objectives may change during the first year or two, and the advising procedures assist in making an orderly and efficient transition to the new one.

Prior to each registration period, the student is expected to have completed an analysis of the progress toward a degree and to identify the courses yet to be completed. If a student needs further assistance in understanding degree and concentration requirements, faculty and staff advisers will also be available throughout registration.

Financial Aid

Office of Financial Aid
4901 Evergreen Road
1183 University Center
Dearborn MI 48128
313-593-5300
313-593-5313 [FAX]
ask-ofa@umd.umich.edu
umd.umich.edu/financialaid
Federal Title IV School Code: 002326

A goal of the University of Michigan-Dearborn is that no qualified student be denied an education because the student lacks the necessary funds. Students who believe their resources are inadequate to meet reasonable educational expenses should request financial aid consideration and seek the advice of the Financial Aid Office counseling staff.

Financial Aid consists of the following four types of assistance: scholarships, grants, loans, and employment. With the exception of some scholarships, most financial assistance through the Office of Financial Aid (OFA) is awarded on the basis of financial need and may include a combination of various types of aid mentioned above. Financial need is the difference between the amount of money the student and/or the student's family is expected to provide for an education and the cost of that education as determined by a uniformly applied analysis.

Available Financial Assistance

There are three types of aid available through a single application (the Free Application for Federal Student Aid or FAFSA): grants, loans and employment. Most assistance is offered as a package of two or more kinds of aid. Undergraduates (pursuing their first bachelor’s degree) are considered for grants, loans and work-study employment, according to their eligibility and preference. Students pursuing a second bachelor’s degree are limited to loans and work-study employment.

Admission into an eligible program of study (i.e., a degree-granting program) is a primary criterion to receive financial aid funding. All Personal Enrichment status students are ineligible for financial aid. Most Guest, Prospective Degree status and Alumni Enrichment students are ineligible for financial aid – however, there are limited exceptions which may be applicable to specific situations. Students admitted via Guest, Prospective Degree or Teaching Certificate status should make an appointment with a Financial Aid Officer to discuss their specific admission status and financing options.
Determining Eligibility

Most financial assistance awarded by the Office of Financial Aid (OFA) is based on financial need as determined by a careful review of the resources of the student and of the student's family. All students applying for financial assistance through the OFA must complete and submit the Free Application for Federal Student Aid (FAFSA). The FAFSA will assist the staff in determining what the student and the student's parent(s) can reasonably be expected to contribute toward educational expenses.

Financial need is determined by subtracting those resources, as determined by the OFA, from the appropriate student budget or estimated cost of attending the University.

Any student who applies for financial aid must submit a FAFSA completed by his/her parents, unless the student meets the independent student guidelines as defined by federal regulations. The following is a definition of an independent student. Any part of this definition is subject to change.

Independent Student Status
An independent student is an individual who meets one of the following criteria:

1. A student who is 24 years of age by December 31 of the first calendar year of the award year.
2. A student who is under age 24 will be considered dependent for financial aid purposes unless he or she:
   a. after age 12, has been an orphan or a ward of the court;
   b. an honorably discharged veteran of the U.S. Armed Forces or an individual currently serving on active duty in the U.S. Armed Forces (for purposes other than training);
   c. is a graduate or professional student;
   d. is a married student;
   e. is a student with legal dependents other than a spouse;
   f. presents documentation to the student financial aid administrator of other uncommon circumstances demonstrating independence, (e.g., legal emancipation or being homeless).

Cost of Attendance

umd.umich.edu/costsnapshot

Each year, the Office of Financial Aid (OFA) provides an estimated cost of attending UM-Dearborn for students interested in full-time enrollment. The estimated costs reflect a modest but adequate standard of living for the academic year. While there is some allowance for discretionary expenditures, there is no provision for costs not directly related to school attendance.

Tuition and fees are subject to change without notice by action of the Board of Regents. For current tuition and fees, individuals should consult umd.umich.edu/rr_tuition-fees/.

How to Apply for Financial Aid

Most assistance is committed at a certain time of the year, so be mindful of application dates. Dates assume entrance for the fall semester.

Freshmen and Transfer Students
1. Apply for admission. Freshmen and transfer students who have not already done so should contact the Office of Admissions and Orientation to find out about application deadlines. Students may submit a paper application OR may apply online at umd.umich.edu/admissions. Students who apply online do not have to pay an application fee and have the ability to check their status online.

2. After January 1, preceding Fall enrollment, complete the Free Application for Federal Student Aid (FAFSA). Students must apply online at fafsa.gov. Include student and parent (if applicable) PIN numbers. Release the FAFSA information to the University of Michigan-Dearborn by entering our Federal Title IV School Code 002326. Students and parents should use their Federal Income Tax Returns (FORM 1040, 1040A or 1040EZ) to complete the FAFSA. FAFSA results received in the Office of Financial Aid (OFA) by April 1 will receive first priority consideration for funds.

3. Upon review of your FAFSA, the Federal Processor will provide you with a Student Aid Report (SAR). The Federal Processor will either mail you a paper SAR or forward an electronic SAR (if you provided an email address on the FAFSA). The OFA will receive your information electronically (assuming you have released the information to UM-Dearborn as described in #2 above).

CONINUING STUDENTS

Students currently enrolled may re-apply online at fafsa.gov after January 1 preceding fall enrollment. Applications, SARs and/or ISIRs (resulting from the FAFSA) must be received in the Office of Financial Aid by April 1 to receive first priority consideration for funds.

Summer is a separate processing period. Applications for Summer aid are available in March. Funding for the Summer term(s) is dependent upon funding levels after the two regular terms.

REMINDEERS

1. Financial aid applications are processed only after a student has been admitted, but students need not wait until they are admitted to apply for financial aid.

2. Applications submitted after the stated dates will be considered, subject to the availability of funds, but notification may not come until after the term has begun.

3. Students must re-apply for financial aid each year.

4. All correspondence and documents must include the student's legal name and UMID number.

AWARD NOTIFICATION

New Students
Incoming students are notified in writing via U.S. mail of their initial financial aid offer. Thereafter, communication is via email and UM-Dearborn Connect (see below).

Current/Returning Students
Students are encouraged to regularly check their UM-Dearborn Email account and access their UM-Dearborn Connect account for award notification and other communication from the Office of Financial Aid. Email communication sent to student's UM-Dearborn Email address directs students to recent notices or activity on UM-Dearborn Connect.

Additive Credit

Additive credits are not eligible for financial aid and will not be used to establish enrollment status for financial aid. Additive credits include EDF courses and some co-op/internship courses. For more information about Additive Credits, see Policies and Procedures Section.
Types of Financial Aid

There are three basic categories of financial aid: gift aid (scholarships and grants), loans and part-time employment. Most assistance is offered as a package of two or more kinds of aid. Undergraduates (in pursuit of the first bachelor’s degree) who apply to the OFA are considered for all three types of assistance. Undergraduates in pursuit of a second bachelor’s degree are considered only for loans and work assistance.

GIFT AID

Scholarships and grants do not require repayment or work. Gift aid takes the following forms:

*Freshman & Transfer Scholarships*

The University offers a variety of scholarship resources for freshman and incoming students. University scholarship funds for incoming students are the following:

- Adnan Aswad Transfer Student Scholarship
- Alumni Legacy Scholarship
- Athletic Scholarships
- Center for the Education of Women (CEW) Scholarship
- Chancellor’s Scholarship
- Chrysler Scholarships
- City Year Detroit Alumni Scholarship
- Community College Transfer Scholarship
- Community Service Personnel Scholarships
- Dean’s Scholarship
- Dependent Tuition Scholarship
- Detroit Compact Scholarship
- Ford Motor Company Scholarships
- General Motors Scholarships
- Henry Patton Endowed Scholarship
- Maize and Blue Scholarship
- Natural Science Scholarship
- Non-Resident Scholarship
- Retired Persons Scholarship
- UM-Dearborn Opportunity Scholarships
- Wade McCree Scholarship

Each of the scholarships above has specific selection criteria. Some of the funds require prior commitment and participation, most do not. For detailed information regarding criteria for these scholarships, please refer to the OFA website (umd.umich.edu/financialaid), or contact the Office of Admissions and Orientation at (313) 593-5100.

Most scholarships have terms and conditions. These are accessible online at umd.umich.edu/accept.

*Grants*

Eligibility for the following Federal, State and University grant funds are determined according to demonstration of need (based on the outcome of the FAFSA), and availability of funds. The grants are considered for undergraduate students pursuing a first bachelor’s degree. Unless otherwise stated, at minimum, eligibility requires adherence to Federal fund criteria, maintenance of the University’s Satisfactory Academic Progress guidelines and enrollment on an at-least-half-time basis.

*Federal Pell Grants*

The Federal Pell Grant is considered the “foundation” grant to which all other sources are added to create a financial aid package of awards. Pell Grant is one of the few programs that may allow some students to receive a prorated amount of the award at a less-than-half-time enrollment status. The Expected Family Contribution (EFC) (from the FAFSA) determines if the student is eligible at a less-than-half-time status.

*Federal Supplemental Educational Opportunity Grants (FSEOG)*

FSEOG is a federal campus-based program used to supplement the Pell Grant of the neediest Pell Grant recipients. At UM-Dearborn, FSEOG is reserved for students with an Expected Family Contribution (EFC) ranging from $0 – $1,000.

*TEACH Grant (Teacher Education Assistance for College and Higher Education)*

Funded by the federal government, the TEACH Grant provides up to $4,000 per year for students whose intention is to teach in a “high need field” (subject area), in an elementary or secondary school serving students from low-income families. As a recipient, students agree (in advance of receipt) to teach a “high need field”, full-time, for a minimum of four years within the eight years following program completion (or progress interruption from the program for which the grant was awarded). The FAFSA is required to be considered for a TEACH Grant. However, recipients do not have to demonstrate “need.”

The TEACH Grant will remain a grant if recipients meet the specific criteria. If recipients do not meet the criteria, the TEACH Grant converts to an unsubsidized loan with interest calculated back to the initial disbursement date(s). For this reason, UM-Dearborn has defined our eligibility criteria as cautiously as possible.

The population UM-Dearborn currently considers for the TEACH Grant are: Seniors (at the undergraduate level) and graduate level students, with a high Cumulative Grade Point Average (CGPA), admitted into a degree-granting program of the School of Education and pursuing majors that align with the “high need fields.”

The minimum CGPA requirement for the TEACH Grant is 3.25.(for undergraduates). The undergraduate degree programs currently considered are: Bachelor of Arts and Bachelor of Science. The majors currently considered are: Education, General Science, Mathematics Studies, Science Education, Science Studies, Special Education and Teaching.

*Michigan Competitive Scholarship (MCS)*

Funded by the State of Michigan, the Michigan Competitive Scholarships are available to many Michigan high school graduates from the Michigan Higher Education Assistance Authority. Scholarships are awarded to qualifying undergraduates attending public colleges and universities in Michigan. To qualify for the scholarships, students must demonstrate aptitude based on their performance on the American College Test (ACT) as well as financial need as determined by uniformly applied methodology via information from the FAFSA. Recipients must also meet Michigan residency requirements.

*Children of Veterans’ Tuition Grant Program*

The Children of Veterans’ Tuition Grant Program offers a Tuition Grant assistance to the children of Michigan veterans who were killed while in service, died as a result of service-related disabilities, or is considered 100% disabled because of service-connected disabilities. The child must be a Michigan resident between the ages of 16 and 25. Upon admission to a Michigan institution of higher learning, eligible undergraduates may qualify for a Tuition Grant of up to $2800 each academic year. The grant is available for up to four years, based on full-time attendance and satisfactory academic progress.
LOANS

Eligibility for the following Federal loan programs are determined according to demonstration of need (based on the outcome of the FAFSA), availability of funds and also individual, annual and aggregate borrowing parameters. Eligibility requires adherence to Federal fund criteria, maintenance of the University’s Satisfactory Academic Progress guidelines and at minimum enrollment on an at-least-half-time basis. Requirements are subject to change over time. Additional documents may be required (e.g., Promissory Notes and/or Entrance Counseling) prior to disbursement of funds.

William D. Ford Federal Direct Loan Program

Federal Direct Loans are available through the William D. Ford Federal Direct Loan Program. Under the Federal Direct Loan Program, funds are lent to student or parent borrowers directly by the U.S. government. There are several types of Direct Loans: the Federal Direct Subsidized Loan (Subsidized FDSL), Federal Direct Unsubsidized Loan (Unsubsidized FDSL), Federal Direct Parent Loan for Undergraduate Students (FPPLUS), Federal Direct PLUS Loans for Graduate and Professional Degree Students and the Federal Direct Consolidation Loan program.

Federal Direct Subsidized Loan

A Federal Direct Subsidized Loan (Subsidized FDSL) is a long-term, low-interest loan funded by the federal government. Subsidized FDSLs are available to undergraduate students who meet the federal eligibility criteria. Undergraduates (regardless of dependency status) may be eligible to borrow a maximum of $3,500 as a first-year (freshman) undergraduate student, and $4,500 as a second-year (sophomore) undergraduate student. Students having completed two years of study and having achieved third- or fourth-year status (junior or senior), may borrow a maximum of $5,500 per academic year. The aggregate amount of Subsidized FDSL allowed to an undergraduate is $23,000.

Borrowers are assessed a fixed interest rate:
- First disbursement between 7/1/06—7/1/08, 6.8%;
- First disbursement between 7/1/08—7/1/09, 6.0%;
- First disbursement between 7/1/09—7/1/10, 5.6%;
- First disbursement between 7/1/10—7/1/11, 4.5%;
- First disbursement between 7/1/11—7/1/12, 3.4%;
- First disbursement after 7/1/12, 6.8%.

This loan program has provisions for deferment of principal and interest payments. The accruing interest is subsidized by the federal government as long as the borrower qualifies for deferment.

Federal Direct Unsubsidized Loan

The Federal Direct Unsubsidized Loan (Unsubsidized FDSL) program extends loan eligibility for middle-income borrowers. It is operated under the same terms and conditions as the Subsidized FDSL with the exception of a few key points: the Expected Family Contribution (EFC) is not a factor in determining eligibility and there is no interest subsidy. Therefore, a student MUST pay the accruing interest on a quarterly basis, otherwise the accruing interest will capitalize onto the principal (deferment of principal is still an option).

For Dependent students, the Subsidized and Unsubsidized FDSL programs share a common maximum amount that can be borrowed (singly or in combination); a Dependent first-year student can borrow a maximum of $5,500. However, Independent students may be considered for additional Unsubsidized FDSL funding. Independent students may be eligible to borrow an additional $6,000 per academic year in Unsubsidized FDSL funding as a first- or second-year (freshman or sophomore) undergraduate, or an additional $7,000 per academic year as a third- or fourth-year (junior or senior) undergraduate. The aggregate amount of Unsubsidized FDSL allowed for a dependent undergraduate is $31,000 (minus Subsidized FDSL aggregate). The aggregate amount of Unsubsidized FDSL allowed for an independent undergraduate is $57,500 (minus Subsidized FDSL aggregate).

Federal Direct Parent Loans for Undergraduate Students

Federal Direct Parent Loans for Undergraduate Students (FPPLUS) are for parent borrowers of dependent, undergraduate students. FPPLUS loans provide additional funds for educational expenses and, like Subsidized and Unsubsidized FDSLs, are funded by the federal government. FPPLUS enables parents to apply for an amount equal to the cost of education (minus the amount of other financial aid received for the loan period). FPPLUS borrowers are assessed a fixed interest rate of 7.9%. FPPLUS is limited to parent borrowers who do not have adverse credit histories. FPPLUS funds are disbursed via the (dependent) student’s tuition account. FPPLUS proceeds (after tuition is paid) are refunded to the parent borrower via check by mail, (unless the parent borrower authorizes post-tuition proceeds to be released to the student).

Repayment of principal and/or interest generally begins 60 days after the loan is disbursed. However, parent borrowers may also opt to schedule repayment to begin six months after their dependent student (on whose behalf the parent borrowed) ceases continual enrollment on an at least a half-time basis. For those choosing the later, interest will be capitalized on to the principal.

Federal Direct PLUS Loans for Graduate and Professional Degree Students

Graduate and professional degree students may also borrow under the PLUS Loan Program. The terms and conditions of the Graduate/Professional PLUS Loan are similar to those of a Parent PLUS Loan, (including the requirement that the applicant does not have an adverse credit history). Applicants are required to complete the FAFSA.

The amount an applicant may borrow is determined by calculating their cost of attendance minus other financial aid. They also must have applied for their annual loan maximum eligibility under the Federal Direct Subsidized and Unsubsidized Loan Programs before applying for a Graduate/Professional PLUS loan. Like the Parent PLUS, applicants may arrange for current or deferred repayment.

Federal Direct Consolidation Loan

Federal Direct Consolidation Loans are designed to help student and parent borrowers simplify loan repayment. This loan allows the borrower to consolidate several types of federal educational loans with various repayment schedules into one loan, requiring only one payment per month. Interest rates, however, may differ depending on the loan category as well as repayment and deferment options for the borrower.
Satisfactory Academic Progress

Federal regulation requires educational institutions that participate in federal financial aid programs to define and enforce Satisfactory Academic Progress standards for students receiving financial aid. UM-Dearborn’s Satisfactory Academic Progress policy establishes standards of progress toward a degree. Recipients must achieve and maintain these standards of progress in order to receive funding from the Office of Financial Aid (OFA). These standards are consistent with University goals and philosophies, satisfy federal and state regulations, and at the same time are sensitive to the needs of all students. These standards are imposed on all federal and state programs, as well as programs supported by UM-Dearborn’s General Fund and awarded through the OFA.

The standards of academic progress measure a student’s academic progress both qualitatively and quantitatively. The qualitative measure assesses the student’s cumulative grade point average. Regulations specify that by the end of the second academic year (sophomore status), undergraduates must have either a “C” (i.e., 2.0) cumulative average or its equivalent or have an academic standing consistent with the requirements for graduation in their program of study. UM-Dearborn requires a minimum of a 2.0 cumulative grade point average for graduation. To quantify academic progress, each educational institution must set a maximum time frame in which a student is expected to complete the program. These standards assure that completion of a degree will occur within an established time frame. To ensure quantitative progress at the University, students are required to complete a minimum of 67% of all attempted courses. Students deemed ineligible for financial aid due to a lack of academic progress may appeal the decision to the Director of Financial Aid.

Students at UM-Dearborn are not required to attend full time in order to receive financial aid or achieve satisfactory academic progress. A more detailed description of this policy may be found on our website at umd.umich.edu/fa_academicprogress/.

Return of Title IV Funds

Students receiving Federal Title IV financial aid are expected to complete the semester for which they received the funds. If a student receiving financial aid withdraws from enrollment, officially or unofficially, the Office of Financial Aid is required to calculate the student’s residual eligibility for the funding received.

A student who withdraws after 60% of the semester has elapsed, will be eligible to keep the financial aid funding previously disbursed for the semester.

A student who withdraws prior to the 60% point of a semester may be required to repay a portion of the financial aid funds previously disbursed for the semester. The amount of repayment would be determined according to the outcome of the Return to Title IV calculation.

A student that has not officially withdrawn, yet whose record reveals they have not successfully completed the requirements of their classes, may also be subject to a Return to Title IV calculation. Documentation of class attendance will be requested for students in this situation. The amount of repayment would be determined according to the outcome of the Return to Title IV calculation with consideration of the last date of documented attendance or the 50% point of the semester.
Registration & Records

Office of Registration and Records
4901 Evergreen Road
1169 University Center
Dearborn MI 48128
313-583-6500
313-593-4896 [FAX]
registrars@umich.edu
umd.umich.edu/registration

The Office of Registration & Records is responsible for coordinating, conducting, and evaluating the registration of students; establishing, monitoring, and maintaining student academic folders and records; preparing, distributing, collecting, and handling Class Lists and Instructor Grade Reports; preparing and providing student transcript copies and enrollment certifications; and accepting, reviewing, and verifying Degrees, Honors and Certificates granted. The office also has the responsibility of preparing and verifying enrollment data and reports for local, state, and federal agencies and organizations. In addition, the Office of Registration & Records is responsible for Veteran Affairs and other on-campus and off-campus programs.

For current registration information, students should consult the Schedule of Classes for the term in which they are enrolling or visit the Registration & Records website: umd.umich.edu/registration.

Attendance (Instructor-Initiated Drops)

A student who is absent for all of the class meetings of a course during the first week of any term and does not inform the instructor or the instructor's department of his/her intention to continue as a class member may be required, by the instructor, to drop the course. The student is responsible for processing all paperwork to officially drop this or any course. Please consult the section "Change in Course Elections" for procedures on how to drop courses.

Auditing

Students are expected to elect courses for credit. The student's program adviser, however, with the concurrence of the instructor involved, may grant official auditing privileges when they are warranted for educational reasons. A student auditing a course is charged the usual fee for that course. Any specific conditions must be enunciated by the instructor at the time permission is granted for the audit. (Contact your unit office for specific information and instructions.)

Change of Fees and Refunds

When appropriate, a change of fees will be processed by the Office of Registration & Records when a student submits a "Change of Course Elections Form" or "Withdrawal Form" which affects the fee previously assessed. Individuals are also advised to see "Change in Course Elections" in this Catalog.

Refunds of tuition, fees, or student account credit balances are generated automatically. After authentication and processing, the refund is mailed to the address listed on the student account.

ADDING

A student who increases the number of hours elected will have a new fee assessment prepared by the Office of Registration & Records, which will indicate the appropriate fee to be paid.

DROPPING (FOR FULL, HALF, AND FOUR-WEEK MINI COURSES)

A student who, during the first two weeks of a full term or the first week of a half term or mini-term, reduces the number of hours elected, will have a new fee assessment prepared by the Office of Registration & Records, which will indicate the appropriate fee to be paid. No reduction in fee assessments will be made after the end of the second week of classes except in cases of withdrawal from the University.

DROPPING (FOR LESS THAN ONE-MONTH MINI COURSES)

A student may drop from a less than one-month mini-course on or before the first class meeting of such a course without financial penalty. Thereafter, full tuition will be assessed and the academic record will reflect the symbol for withdrawal ("W").

WITHDRAWING (FOR FULL, HALF, AND FOUR-WEEK MINI COURSES)

A student who withdraws from UM-Dearborn is assessed as follows:

1. Students who withdraw prior to the first day of classes will be assessed the non-refundable registration assessment.
2. Students who withdraw during the first week of a half term or mini-term, or during the first two weeks of a full term, will be assessed a $25 withdrawal fee, as well as the non-refundable registration assessment.
3. Students who withdraw during the second week in a half term or mini-term, or in the third through fourth week of a full term, will be charged 50% of the tuition assessed, as well as the non-refundable registration assessment. In addition, there is no reduction in lab/course fees or technology assessment.
4. Students who withdraw during the third through fourth week of a half term or the third week of a mini-term, or in the fifth through the eighth week of a full term, will be charged 75% of the tuition assessed, as well as the non-refundable registration assessment. In addition, there will be no reduction in lab/course fees or technology assessment.
5. Students withdrawing after the time periods indicated in Paragraph "4" will be assessed full tuition and fees.

WITHDRAWING (FOR LESS THAN ONE-MONTH MINI COURSES)

1. Students who withdraw from a less than one-month mini-course before the first class meeting of such a course will be assessed the non-refundable registration assessment.
2. Students who withdraw from a less than one-month mini-course on the first day of class will be assessed a $25 withdrawal fee, as well as the non-refundable registration assessment.
3. Students who withdraw from a less than one-month mini course on the second day of class will be assessed 50% of the tuition assessed, as well as the non-refundable registration assessment. In addition, there will be no reduction in lab/course fees or technology assessment.

4. Students who withdraw from a less than one-month mini course on the third day of class will be assessed 75% of the tuition assessed, as well as the non-refundable registration assessment. In addition, there will be no reduction in lab/course fees or technology assessment.

5. After the third class meeting of such a course, the student shall pay all fees and assessments.

Change in Course Elections: Add, Drop, Withdrawal

Change in course elections include adding a course(s), dropping a course(s), substituting course(s), and withdrawing (discontinuing) all courses. All students will process their add/drop and withdrawal forms online or at the Enrollment Services Counter (1169 UC, with signatures when appropriate).

Please consult the section on “Change of Fees and Refunds” for the impact on tuition and fees.

ADD

A student may add courses or change a standard graded course to Pass/Fail or Audit during the first two weeks of a full term, the first week of a half term or mini-term, or before the second class meeting of a less than one-month mini-term. Any exceptions for adding courses must be approved by the student’s academic unit.

DROP

A student may drop a course(s) during the first two weeks of a full term, the first week of a half term or mini-term, or before the second class meeting of a less than one-month mini-term. No record of the student’s brief enrollment will be recorded.

Courses may be dropped during the third through the ninth week of classes in a full term, during the second through the fourth week of classes in a half term or mini-term, and before the third class meeting in a less than one-month mini-term.

The effective date of the drop is the date the drop form is received and signed at the Enrollment Services Counter.

Permission to drop courses under circumstances other than stated above will require the approval of the student’s academic unit.

WITHDRAWAL

A student may discontinue all of his/her courses through the last day of classes (for the term) by withdrawing from the term. The completed form must be presented to the Enrollment Services Counter for processing. The effective date of the withdrawal is the date the withdrawal form is received and signed at the Enrollment Services Counter.

If a student withdraws (drops all courses) from a term during the first two weeks of classes in a full term, the first week of classes in a half term or mini-term, or before the second class meeting in a less than one-month mini-term, no record of the student’s brief enrollment will be recorded. Beyond those deadlines, the mark of \( W \) will appear on the transcript.

Students enrolled in the College of Engineering and Computer Science must have the signature of their unit to withdraw.

Permission to withdraw under circumstances other than stated above will require the approval of the student’s academic unit.

Consecutive Withdrawals

Every student's academic record is reviewed for the purpose of observing academic progress at the end of each term in which the student is enrolled. A student who has not enrolled for one calendar year or who has withdrawn for two consecutive terms must apply for readmission and may not re-register without the explicit written permission of the student's unit office. (PDS/PE students see Academic Support and Outreach Services, 2136 UC.)

Required Withdrawals

Unless extenuating circumstances are presented by petition, a student who is required to withdraw from one academic unit may not be admitted to another UM-Dearborn academic unit within the same term as that in which such withdrawal action is taken.

REFUNDS AND FINANCIAL AID

Students receiving Title IV financial aid may be required to repay some or all of the financial aid received for a term in which the student withdraws. Students required to repay financial aid funds will have the refunds allocated to financial aid programs in the following order: Federal Direct Loans, Federal Perkins Loans, Pell, SEOG, other Title IV, federal, state, private, and institutional programs and finally, to the student. Students receiving financial aid and considering withdrawal should seek the advice of a Financial Aid Officer prior to taking such action.

Class Standing

Class standing is determined by the total credits earned that apply toward the student's degree program. The various classifications are as follows (numbers indicate semester hours):

<table>
<thead>
<tr>
<th>Classification</th>
<th>Freshman</th>
<th>Sophomore</th>
<th>Junior</th>
<th>Senior</th>
</tr>
</thead>
<tbody>
<tr>
<td>(0-24)</td>
<td>(25-54)</td>
<td>(55-84)</td>
<td>(85+)</td>
<td></td>
</tr>
</tbody>
</table>

Grades and Grading

Grading System

Grade point averages (scholastic averages) are computed by dividing the honor points a student has earned by the hours elected. The term grade point average and the cumulative grade point average are computed for each student at the end of each term and become part of the student's official UM-Dearborn academic record.

Symbols used in the grade reporting system common to all units are: F, failed (pass/fail option election); I, incomplete; NR, grade not reported; P, passed (pass/fail option election); S, satisfactory (courses graded S/E or S/U); NC, no credit; VI, audit; W, drop/withdrawal; X, absent from final examination; U, unsatisfactory (courses graded S/U only); Y, indicates the course extends beyond the term.
The grades of E, IE, UE or XE are not assigned honor points and thus will lower the student's grade point average. The grade NC is used only for certain courses. When this grade is officially granted, the grade NC and the course will appear on the student's transcript, but the course will not be used in computing a grade point average.

The recording of grades on a student's official academic record is governed by the following (4.0) grading system:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Honor Points</th>
<th>Letter Grade</th>
<th>Honor Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A, A+</td>
<td>4.0</td>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
<td>C-</td>
<td>1.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.4</td>
<td>D+</td>
<td>1.4</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
<td>D-</td>
<td>0.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.4</td>
<td>E</td>
<td>0.0</td>
</tr>
</tbody>
</table>

Note: The A+ and D- grades are not used by Engineering instructors. The A+ grade is not used by Education instructors.

Grades associated with transfer credit from other schools or colleges (including other University of Michigan campuses) are neither recorded nor used in computing grade point averages of students.

Students may repeat a course no more than two times. All grades received must appear on the transcript, but only the last grade received is counted in the grade point average (GPA). Please see the Repeat Course Policy for more information.

Change of Grades

The grade that an instructor records on the final grade sheet and that appears on the student's subsequent transcript is assumed to be final; that is, the instructor's official evaluation of all of a student's performance and work completed by the official end of the term (the last day of the final examination week).

Recognizing that mistakes can be made, UM-Dearborn permits a student to ask an instructor for a review of a grade within the four-month period after the end of the term involved. After a four-month period has passed, a student may initiate a request for a review only through the petition process involving the student’s school or college Academic Standards Committee (or comparable group), whose decision shall be final. Such a review is entirely separate and distinct from the circumstances involving an X (Absent from Final Examination), I (Incomplete Coursework), or a Y (Course Extends Beyond Term).

Absent from Final Examination

A student who is unavoidably absent from a final examination may be granted the privilege of making up the examination within five weeks after the closing date of the term involved. If granted this privilege, a mark of X will be recorded. Failure to take the examination within the specified time, or the denial of this privilege by the instructor, will result in a mark of E for the final grade. In extenuating circumstances an extension beyond the stated period may be requested by means of a petition that has been endorsed by the instructor and approved by the Academic Standards Committee. However, such arrangements for completing the work must be made within the above stipulated time period. Failure to complete the required work within the specified time will result in a grade of I being automatically treated as an E and counted in the student's grade point average. The I will remain on the transcript even after the official final grade is assigned.

Incomplete Coursework

A student whose coursework for the term (other than final examination) is incomplete in a minor way may, upon completion and approval of the I Contract Form, be granted the privilege of completing the work within a five-week period for the College of Engineering and Computer Science or the College of Business, and a four-month period for the College of Arts, Sciences, and Letters and School of Education beginning on the first day of classes of the immediately following term. If granted this privilege, a grade of I will be recorded. Failure to complete the required work within the specified time, or the denial of this privilege by the instructor, will result in a grade of E for the final grade. In extenuating circumstances an extension beyond the stated period may be requested by means of a petition that has been endorsed by the instructor and approved by the Academic Standards Committee. However, such arrangements for completing the work must be made within the above stipulated time period. Failure to complete the required work within the specified time will result in a grade of I being automatically treated as an E and counted in the student's grade point average. The I will remain on the transcript even after the official final grade is assigned.

Course Extends Beyond Term

A mark of Y indicates that a course extends beyond the end of one term. This mark is only used for courses that have been specially designed and approved to extend beyond the end of one term. A course with a Y mark may not be completed after graduation. If such a course is not completed, the Y will be converted to an E upon graduation.

Graduation/Application for Diploma

Each candidate for a degree must file a Degree/Diploma Application with the Office of Registration & Records, typically within ten days of the beginning date of classes for the term in which the student expects to complete the requirements for degree. Please consult the Applying to Graduate Webpage, umd.umich.edu/rr_apply-graduate, for specific dates. Applications will not be accepted after the published deadlines. If an application for a diploma was filed for a previous graduation period in which the student did not graduate, a new application is necessary. Degrees are granted at the end of the fall, winter, and summer terms, even though commencement exercises are held only in April (or May) and December.

Registration Information

ACADEMIC ADVISING

Academic advising should be sought from the student’s school, college or graduate department office prior to registration.

APPOINTMENT TIME TO REGISTER

Continuing students who are eligible to register via the Web can determine their registration date based on credits earned as listed in the registration timetable. New students and those participating in non-traditional programs will receive written information regarding their registration appointment time. The Registration Timetable is available on the Office of Registration & Records Website (umd.umich.edu/registration).
CLOSED COURSES
Closed course information will be posted at the Enrollment Services Counter (1169 UC) and on the Office of Registration & Records Website (umd.umich.edu/registration).

COURSE LOAD
Students may elect a maximum of 18 credit hours in a given semester. Students should contact their school or college for policies and procedures regarding electing hours in excess of the maximum.

HOLDS
Students will not be allowed to register if they have a hold. A hold could result from having outstanding financial obligations to the University, academic probation, mandatory advising or other academic or non-academic conditions that require resolution prior to registration. Students can check their holds on UM-Dearborn Connect. See the “View Your Holds” page located in the secure area under the Student Accounts menu.

PERSONAL IDENTIFICATION NUMBER (PIN)
The University originally assigns your birth date (mmddyy) as your personal identification number (PIN). For your security (if you have not already done so), change this number immediately via UM-Dearborn Connect. Once you have changed the PIN, your new PIN remains in effect until you change it again. If you forget your PIN, use the 'Forgot PIN' button in UM-Dearborn Connect or you must report in person, with picture identification, to the Enrollment Service Counter to have your PIN reset.

REGISTRATION OPTIONS
UM-Dearborn offers eligible students two options for registration:
- Walk-in
- Web*

*All students (with the exception of some non-traditional programs) who have been enrolled at least one term within the last year, new graduate students, and readmitted students who do not have financial obligations, holds or other registration restrictions are eligible to register via UM-Dearborn Connect. New transfer and new freshman students will register during New Student Orientation.

Reporting of Grades
The Office of Registration & Records reports term grades to students via a Final Grade Report in UM-Dearborn Connect. Grades are also reported on each student’s Academic Transcript. Updated Academic Transcripts are available to students two weeks following the close of the final examination period. Students requiring more immediate service may contact Enrollment Services for assistance. (Also see “Request for Transcripts”).

Residency Classification Guidelines
The University of Michigan enrolls students from 50 states and more than 120 countries. Residency Classification Guidelines have been developed to ensure that decisions about whether a student pays in-state or out-of-state tuition are fair and equitable and that applicants for admission or enrolled students who believe they are Michigan residents understand they may be required to complete an Application for Resident Classification and provide additional information to document their residency status.

CIRCUMSTANCES UNDER WHICH YOU MUST FILE A RESIDENCY APPLICATION
If you claim Michigan resident status and any of the following circumstances apply, you must file an Application for Resident Classification and be approved to qualify for in-state tuition:
- You currently live outside the state of Michigan for any purpose, including, but not limited to, education, volunteer activities, military service, travel, employment.
- You have attended or graduated from a college outside the state of Michigan.
- You have been employed or domiciled outside the state of Michigan within the last three years.
- You are not a U.S. citizen or Permanent Resident Alien (if you are a Permanent Resident Alien, you must have a Permanent Resident Alien card).
- Your spouse, partner, or parent is in Michigan as a nonresident student, medical resident, fellow, or for military assignment or other temporary employment.
- You are 24 years of age or younger and a parent lives outside the state of Michigan.
- You are 24 years of age or younger and have attended or graduated from a high school outside the state of Michigan.
- You have attended or graduated from an out-of-state high school and have been involved in educational pursuits for the majority of time since high school graduation.
- You previously attended any U-M campus (Ann Arbor, Dearborn, or Flint) as a nonresident.

Other circumstances may also require you to file a residency application. The University reserves the right to audit prospective or enrolled students at any time regarding eligibility for resident classification and to reclassify students who are classified incorrectly.

How to File a Residency Application
Residency applications and in-person assistance are available at the Residency Classification Office, University of Michigan, Office of the Registrar, 1210 LSA Building, 500 S. State St., Ann Arbor, MI 48109-1382, phone (734) 764-1400 or at the Enrollment Services Counter, University of Michigan-Dearborn, 1169 University Center, 4901 Evergreen Rd, Dearborn, MI 48128-2406, phone (313) 583-6500. Business hours are 8 am-5 pm weekdays. Applications can also be downloaded from ro.umich.edu/residency-application.pdf. Completed applications should be submitted to the Residency Classification Office.

FILING DEADLINES
September 30 for Fall Term
January 31 for Winter Term
July 31 for Spring, Spring/Summer and Summer Terms

Applications must be received in the Residency Classification Office by 5 p.m. on the deadline date. If the deadline falls on a weekend, it will be extended to the next business day. The deadline date is always after the first day of classes of the term in which you are enrolling and seeking residency.
These deadlines apply to all U-M schools, colleges and campuses. For the On-Job/On-Campus program only, filing deadlines are 30 calendar days after the first scheduled day of classes the term for which you applied.

You may apply for resident classification for any term in which you are enrolled or intend to enroll.

Late applications will be assessed a nonrefundable $300 late fee and will be accepted up to the last published day of classes of the term for which you are applying. Late applications received after the last day of classes will be processed for the following term. In all cases, decisions will be based only on those facts that are in place by the original filing deadline for the term under consideration.

REQUIRED DOCUMENTS

Along with the completed Application for Resident Classification form, you must provide the following:

- **For all applicants:** Copies of your driver's license and the license(s) of the person or persons upon whom you are basing your claim to resident eligibility.

- **For all applicants:** Copies of the front and signature pages of your recent year's federal and state income tax returns and W2 forms for you and the person or persons upon whom you are basing your claim to resident eligibility.

- **For applicants born outside the U.S.:** Verification of U.S. citizenship or visa status.

- **For applicants who are dependents** (see Residency Classification Guideline B-1 below): Copies of the front and signature pages of your parents' most recent year's federal and state income tax returns with accompanying W2 forms.

- For applicants whose claim to eligibility for resident classification is based on permanent, full-time employment for themselves, a spouse, partner, or parent: A letter from the employer, written on letterhead (including phone number), stating the position, status, and dates of employment. In addition to the letter, provide a copy of the most recent pay stub showing Michigan taxes being withheld.

- **For all applicants:** Any other documentation that supports your claim to resident eligibility.

The Residency Classification Office may request additional documentation. All information will be kept confidential to the extent permitted by law.

In making residency determinations, the University considers all information provided in or with an application. Decisions to approve a residency application are made when the applicant has presented clear and convincing evidence that a permanent domicile in the state of Michigan has been established.

MORE ON RESIDENCY CLASSIFICATION GUIDELINES

Because each of Michigan's public universities has autonomous authority to establish residency guidelines for admission and tuition purposes, guidelines vary by school and are independent of regulations used by other state authorities to determine residency for such purposes as income and property tax liability, driving, and voting. The University of Michigan's current Residency Classification Guidelines were approved by its Board of Regents to take effect Spring Term 2005 and to apply to students at all campuses.

The Board of Regents has authorized the Residency Classification Office in the Office of the Registrar on the Ann Arbor campus to administer the University's residency guidelines. If your activities and circumstances as documented to the Residency Classification Office demonstrate establishment of a permanent domicile in Michigan, you will be classified as a resident once your eligibility has been confirmed. If your presence in the state is based on activities or circumstances that are determined to be temporary or indeterminate, you will be classified as a nonresident.

Our Residency Classification Guidelines explain how you can document establishment of a permanent domicile in Michigan. To overcome a presumption of nonresident status, you must file a residency application and document that a Michigan domicile has been established. Eligibility criteria are explained in more detail in the sections that follow. Meeting the criteria to be placed in an "eligible" category does not mean that you will automatically be classified a resident. If you have had any out-of-state activities or ties, or if the University otherwise questions your residency status, you will need to confirm your eligibility to be classified as a resident by filing an Application for Resident Classification in a timely manner and by providing clear and convincing evidence that you are eligible for resident classification under the following Guidelines.

GENERAL GUIDELINES

1. **Circumstances that may demonstrate permanent domicile**

The following circumstances and activities, though not conclusive or exhaustive, may lend support to a claim to eligibility for resident classification if other applicable guidelines (see section B) are met:

- Both parents (in the case of divorce, one parent) permanently domiciled in Michigan as demonstrated by permanent employment, establishment of a household, and severance of out-of-state ties.
- Applicant employed in Michigan in a full-time, permanent position, provided that the applicant's employment is the primary purpose for his or her presence in the state and that out-of-state ties have been severed. If the applicant is married or has a partner, the employment must be the primary purpose for the family's presence in Michigan.
- Spouse or partner employed in Michigan in a full-time, permanent position, provided that the employment of the spouse or partner is the primary purpose for the family's presence in the state, and that out-of-state ties have been severed.

2. **Circumstances that do not demonstrate permanent domicile**

The circumstances and activities listed below are temporary or indeterminate and do not demonstrate permanent domicile:

- Enrollment in high school, community college, or university.
- Participation in a medical residency program, fellowship, or internship.
- Employment that is temporary or short-term or of the type usually considered an internship or apprenticeship.
- Employment of the spouse or partner of an individual who is in Michigan for temporary pursuits.
- Employment in a position normally held by a student.
- Military assignment in Michigan for the applicant or the applicant's spouse, partner, or parent (see section D for special military provision).
- Payment of Michigan income tax and/or filing of Michigan resident income tax returns.
1. Immigrants and Aliens
You must be entitled to reside permanently in the United States to be eligible for resident classification at the University. However, like U.S. citizens, you must also show you have established a Michigan domicile as defined in these Guidelines. The Residency Classification Office will review Applications for Resident Classification if you are in one of the following immigrant categories. You must provide official documentation showing your status.

- **Permanent Resident Aliens** - Must be fully processed and approved and possess Permanent Resident Alien card or stamp in a passport verifying final approval by filing deadline for applicable term.
- **Refugees** – I-94 card or passport must designate "Refugee".
- **Asylees** – I-94 card or passport must designate "Asylee".
- **A, E, G and I visa holders** – Exception: Dependent children who hold an E visa are not eligible to be considered for resident classification."

(***Please note** that individuals holding temporary visas, such as, but not limited to, F, H, J, K, Parolee, TN, TD, etc., are not eligible for resident classification at the University of Michigan regardless of their other circumstances.***

2. Dependent Students
For University of Michigan residency classification purposes, you are presumed to be a dependent of your parents if you are 24 years of age or younger and (1) have been primarily involved in educational pursuits, or (2) have not been financially self-supporting through employment.

a. Residents
i. **Dependent Student - Parents/Parents-in-law in Michigan**
   If your parents/parents-in-law are domiciled in Michigan as defined by University Residency Classification Guidelines, you are presumed to be eligible for resident classification as long as you can demonstrate establishment of a Michigan domicile and severance of out-of-state ties.

ii. **Dependent Student of Divorced Parents/Parents-in-law, One Parent/Parent-in-law in Michigan**
   If your parents/parents-in-law are divorced and one parent/parent-in-law is domiciled in Michigan as defined by University Residency Classification Guidelines, you are presumed to be eligible for resident classification as long as you can demonstrate establishment of a Michigan domicile and severance of out-of-state ties.

iii. **Dependent Resident Student Who Remains in Michigan When Parents Leave the State.**
   If you are a student living in Michigan with your parents and permanently domiciled in the state as defined by University Residency Classification Guidelines, you are presumed to retain resident status eligibility if your parents leave the state provided: (1) you have completed at least your junior year of high school prior to your parents' departure, (2) you remain in Michigan, enrolled full-time in high school or an institution of higher education, and (3) you have not taken steps to establish a domicile outside Michigan or any other action inconsistent with maintaining a domicile in Michigan.

b. Nonresidents
The University presumes you are a nonresident if you are a dependent student and your parents are domiciled outside the state of Michigan. (See exception under a-i and a-ii for married dependent students whose parents-in-law are domiciled in Michigan.)

3. Michigan Residents and Absences From the State
You may be able to retain your eligibility for resident classification under the conditions listed below if you are domiciled in Michigan as defined by University Residency Classification Guidelines and leave the state for certain types of activities. However, if you have been absent from the state, you must file an Application for Resident Classification by the appropriate filing deadline to request resident classification and demonstrate your eligibility.

a. **Absence for Active Duty Military Service** (U.S. Army, Navy, Air Force, Marines, Coast Guard, Officers in the Public Health Service), Non-Administrative Missionary Work, Peace Corps, AmeriCorps, or Similar Philanthropic Work
   If you are domiciled in Michigan at the time of entry into active military duty, missionary work, Peace Corps, or similar service, you are presumed to retain your eligibility for resident classification as long as you are on continuous active duty or in continuous service and continuously claim Michigan as the state of legal residence for income tax purposes. If you are a dependent child of such an individual, you are presumed to be eligible for resident classification provided: (1) you are coming to the University of Michigan directly from high school or have been continuously enrolled in college since graduating from high school, and (2) you have not claimed residency for tuition purposes elsewhere.

b. **Absence Due to Temporary Foreign Assignment**
   If you are a dependent student domiciled in Michigan with your parents immediately preceding an absence for a temporary foreign assignment with a parent's Michigan employer, you may retain your eligibility for resident classification provided (1) your family members hold temporary visas in the foreign country, and (2) you return directly to Michigan and remain in the state for educational purposes after leaving the foreign country.

c. **Temporary Absence of Less Than One Year**
   If you are independently domiciled in Michigan immediately preceding a temporary absence of less than one year, you are presumed to retain eligibility for resident classification provided that out-of-state ties are severed upon your return to Michigan.
THE APPEAL PROCESS

If you filed an Application for Resident Classification and were denied by the Residency Classification Office, you have recourse to an appeal process by filing a written appeal within 30 calendar days of the denial.

The Board of Regents established the Residency Appeal Committee to review decisions made by the Residency Classification Office. The Appeal Committee is chaired by the Vice President and Secretary of the University and includes two other University administrators, a faculty member, and a student. The Residency Coordinator and other staff members in the Residency Classification Office are not part of the Appeal Committee.

Appeals, which must be in writing, should be submitted to the Residency Classification Office. Please note that the written appeal must be received by the Residency Classification Office within 30 calendar days of the date on the denial letter. If the deadline falls on a weekend or University holiday, it will be extended to the next business day. If there is additional information you would like the Residency Appeal Committee to consider beyond the materials you already have submitted, you should submit that additional information, in writing, with appropriate supporting documentation, when you submit your written appeal. Your request and any additional information and documentation you provide will be forwarded to the Residency Appeal Committee with your original file.

All communications to the Residency Appeal Committee must be in writing. Personal contact with a member of the Committee could disqualify the member from participating in the decision regarding your residency. The Residency Appeal Committee does not meet in person with students, and appearances on behalf of students are not permitted at appeal meetings.

After the Appeal Committee has completed its deliberations, you will receive the Committee's final decision in writing. This will conclude the appeal process for the term covered by the application. The University will not conduct any further review of the decision.

Special Provision for Active Duty Military Personnel Assigned to Michigan

Regular active duty military personnel who are on assignment in Michigan, as well as their accompanying spouses and dependent children, will be allowed to pay in state tuition while they attend the University of Michigan, even though they will not be eligible to be classified as residents under the Residency Classification Guidelines. This provision applies to persons in the U.S. Army, Navy, Air Force, Marines and Coast Guard, and to officers in the Public Health Service. In order to request this special consideration, the student must submit a residency application by the applicable filing deadline and provide documentation demonstrating eligibility.

Warning: Misrepresentation or Falsification of Information Can Be Costly

Individuals who provide false or misleading information or omit relevant information in an application for admission or for resident classification, or any other document related to residency eligibility may be subject to legal or disciplinary measures. Students who are improperly classified as residents based on such information will have their residency classification changed and may be retroactively charged nonresident tuition for the period of time they were improperly classified.

Transcripts

A transcript is a student's complete academic record at UM-Dearborn. The transcript(s) that were presented for admission have become an integral part of the files of the admitting offices and cannot be released, either directly or for copying purposes. It will be necessary for you to write directly to the institutions concerned to obtain copies of those previous records. In addition, documents such as SAT/ACT scores are not available from the Office of Registration & Records. UM-Dearborn transcripts will be released only upon written request of the student.

FINAL TRANSCRIPT

Once the final transcript has been prepared with the degree posted, a student's academic file is closed, and no changes can be made to it for any reason.

Students wishing more detailed information about final grades should make that request in the office of their instructional unit (CASL, CECS, COB, or SOE).

REQUESTS FOR TRANSCRIPTS

Requests for copies of UM-Dearborn transcripts should be made online via UM-Dearborn Connect or at the Office of Registration & Records, 1169 UC, Dearborn, MI 48128-2406. Requests may also be faxed to (313) 593-5697. For additional information, please telephone (313) 583-6500.

If the student indicates that he/she has also taken work through the Extension Service or at other campuses of the University, the Office of Registration & Records will forward the order to the appropriate offices which will send copies to the address indicated on the order. There is no charge for transcripts. Generally, up to five (5) working days are allowed for processing a UM-Dearborn transcript. Under certain circumstances, such as the end of the term or upon graduation, requests may take longer to process. Requests will not be processed if a student has any financial obligation outstanding to the University.

Tuition Assessments and Fee Regulation

Tuition and fees are subject to the approval of the Regents of the University and are subject to change at any time.

POLICIES GOVERNING STUDENT TUITION AND FEES

The Board of Regents shall determine the level of tuition and fees and a schedule of such shall be published. All other student tuition and fees shall be fixed by the Campus Fee Committee.

PAYMENT OF TUITION AND FEES

All tuition and fees are payable in accordance with regulations established by the University providing only that said regulations may not defer payment beyond the end of the term for which they are assessed.

Payment for tuition and fees may be made in full at the Cashier's Office after registration. The laboratory and/or course fees are refundable if the course is dropped during the first two weeks of a full term, the first week of a half term or mini-term, or before the second class meeting of a less than one-month mini-term. The procedure for obtaining a refund is described in the section "Change of Fees and Refunds."
APPLICATION FEES
A non-refundable application fee of $30 will be required of each applicant for a degree or certificate program at UM-Dearborn. Students who have paid the appropriate application fee (graduate or undergraduate) at another campus of the University will not be assessed a second fee. There is no application fee charged to guest students.

COURSE LEVEL ASSESSMENT
Undergraduate students electing Graduate course(s) will be assessed at the Graduate Tuition rate for the graduate course(s). Graduate courses are numbered 500 and above. (Effective Winter 2007)
Graduate students electing Undergraduate course(s) will be assessed at the Undergraduate Tuition rate for Undergraduate course(s). Undergraduate courses are numbered 499 and below. (Effective Fall 2006)
Please note: This tuition assessment is dependent on various factors and a change in tuition may not occur for some students.

DUAL STATUS TUITION AND FEES:
GRADUATE AND UNDERGRADUATE
Seniors who are within six hours of completing the requirements for graduation and who have been admitted to a UM-Dearborn graduate program may, with both undergraduate and graduate advisors’ approval, register simultaneously in a UM-Dearborn undergraduate unit and in a graduate program. Tuition and fees will be assessed at the graduate program level for graduate courses and the undergraduate program level for undergraduate courses.

DUAL ENROLLMENT TUITION AND FEES:
ON TWO CAMPUSES OF THE UNIVERSITY
A student electing courses at UM-Dearborn and at another campus of the University, by means of a “Guest Admission,” will pay the appropriate tuition and fees at each campus. The only exception is that the student will not be assessed tuition and fees totaling more than a full program tuition and fees at whichever campus may have the higher full program tuition and fees.

UNDERGRADUATE CREDIT BY EXAMINATION (CBE)
See the Special Examinations Policy.

LABORATORY AND/OR COURSE FEES
Students will be assessed a laboratory or course fee if enrolled in any of the courses so designated in the Schedule of Classes (e.g., "Lab fee $50.00").

LATE REGISTRATION ASSESSMENT
A late registration assessment of up to $45 will be assessed for anyone registering later than two weeks after the first day of classes. It should be noted that students are not ordinarily permitted to register after the first two weeks of a full term, the first week of a half term or mini-term, or after the second class meeting of a less than one-month mini-term.
In exceptional cases, a student might be permitted to enroll even after the first two weeks (and be charged a late fee) if the student has obtained the written approval of the dean (or a designated representative) of the college or school. Late registrants not pursuing a degree (PDS/PES) must have the approval of both the Office of Academic Support and Outreach Services and the Registrar, as well as the approval of any instructors involved.

ORIENTATION FEE
The orientation fee for all new undergraduate students is $75 and will automatically be posted on a student’s account immediately following attendance at an orientation program. The fee is non-refundable.

FEES INCLUDED WITHIN TUITION
The tuition and fees assessed by the University include a nominal charge for parking and other transportation-related services, information technology services, the health referral service to the Henry Ford Hospital-Fairlane Clinic, facilities debt service, and support for student activities and organizations.

EXEMPTION FROM PAYMENT OF FEES
No exemption from the payment of fees shall be granted. Failure to fulfill financial obligations to the University may result in disciplinary action, including the withholding of degrees and transcripts.

TUITION AND FEES
Students should obtain current tuition and fee information from the Office of Registration & Records Tuition & Fees webpage, umd.umich.edu/rr_tuition-fees/.

Additional Assessments
Course levels 300 and above are assessed an additional amount per credit hour. For current tuition and fee information, students should consult the Office of Registration & Records Tuition & Fees webpage, umd.umich.edu/rr_tuition-fees/.

Technology Assessment
A Technology Assessment is charged to all students. This assessment varies by academic unit. For current tuition and fee information, students should consult the Office of Registration & Records Tuition & Fees webpage, umd.umich.edu/rr_tuition-fees/.

TUITION REFUND INSURANCE PLAN
The Tuition Refund Insurance Plan is an elective insurance which provides coverage for tuition and fees. If a student withdraws due to illness/injury or psychological/emotional reasons, the Tuition Refund Insurance Plan returns 85% of the insured term tuition and fees when specific insurance company criteria has been met.
For Tuition Refund Insurance Plan information or to enroll online, please refer to the Tuition Refund Insurance Plan website: umd.umich.edu/rr_tuition-fees-refund-plan.

SPECIAL TUITION AND FEE ADJUSTMENTS
The Registrar and the Provost for Academic Affairs are authorized to make adjustments in the application of the policy stated above when, in their judgment, unusual circumstances warrant such action. Circumstances that may warrant special consideration include the death or serious illness of the student. The student who wishes to have his/her case reviewed must petition and submit documentation to the Office of Registration & Records, Room 1169, University Center, either in person or by mail. It is the responsibility of the student to make sure that required documents are submitted.
Except in rare and unusual circumstances, petitions will not be accepted after the last day of classes for the term concerned. Additionally, petitions will not be accepted once an account has been turned over for collection.
Verification of Enrollment

The following scale is used when verifying student enrollment status at UM-Dearborn:

<table>
<thead>
<tr>
<th>Enrollment Type</th>
<th>Undergraduate</th>
<th>Graduate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full Time</td>
<td>12 or more hours</td>
<td>8 or more hours</td>
</tr>
<tr>
<td>Three-Quarter Time</td>
<td>9-11 hours</td>
<td>6-7 hours</td>
</tr>
<tr>
<td>Half Time</td>
<td>6 to 8 hours</td>
<td>4-5 hours</td>
</tr>
<tr>
<td>Less Than Half Time</td>
<td>5 or less hours</td>
<td>3 hours or less</td>
</tr>
</tbody>
</table>

Veteran Affairs

Enrollment Services/Registration and Records is primarily responsible for the administration of veteran's education benefits programs and enrollment certifications. Our goal is to effectively assist veterans, or the dependents of veterans, with educational benefits are able to apply their respective benefits for their educational endeavors at UM-Dearborn with assistance from this office.

All students who are eligible for, and elect to receive, education and training benefits while attending UM-Dearborn, may address inquiries for information to the Office of Veteran Affairs, Enrollment Services/Registration and Records, 4901 Evergreen Road, 1169 UC, Dearborn, MI 48128-2406, (313) 583-6500. Additional information regarding certification, and the policies and procedures for certification of benefits can be found on our website at: umd.umich.edu/rr_va. Questions regarding the eligibility of a veteran or dependent can be answered by calling the St. Louis Regional Office at 1-888-GIBILL1 (442-4551) or connecting to the Department of Veteran Affairs website at: gibill.va.gov/.

Policies and Procedures

Academic Standing

Every student's academic record is reviewed, for the purpose of observing academic progress, at the end of each term in which the student is enrolled at UM-Dearborn.

To be in good scholastic standing, a student must have a cumulative grade point average of at least 2.0. Students who fall below 2.0 in their grade point average will be placed on academic probation. After having been placed on academic probation, the student is allowed one more term of coursework on campus in order to attempt to bring the cumulative grade point average up to the required 2.0 level. If the student does not return to good scholastic standing at the completion of that term, the student may not re-register without the explicit written permission of the unit.

This general description of standards must be augmented by the regulations of each individual unit. All students must, therefore, be familiar with the academic requirements and rules of their own school or college.

ACADEMIC STANDING APPEALS

Students who wish to appeal decisions on their academic status, made by a unit's committee on academic standing, may do so by addressing a petition to the executive committee (the chief policy body) of the unit in which they are admitted. If a negative decision is rendered at this high level, the student may, under unusual circumstances, appeal the case to the Academic Appeals Board of UM-Dearborn.

1. The UM-Dearborn Academic Appeals Board shall hear cases dealing only with academic matters, excluding matters of academic misconduct, which shall be addressed by the Code Appeals Board as defined in the UM-Dearborn Statement of Student Rights & Code of Student Conduct.

2. Individuals may seek redress from the Board only after all reasonable efforts have been made to settle the disagreement within the unit. Such an individual may then write to the Vice Chancellor for Academic Affairs, stating the grounds of the complaint, the name(s) of those most immediately involved, and a summary of the relevant information.

3. The Board is empowered to determine which complaints it will review. If a hearing is to occur, all parties shall receive written notice, ordinarily within thirty (30) days after the Vice Chancellor for Academic Affairs has received the written complaint. If, for any reason, a hearing is not to take place, the Board will inform the parties in writing and the reasons for its decision.

4. The Board will consist of the Council of Deans (minus the dean in whose academic unit the case is being contested), plus the Vice Chancellor for Enrollment Management and Student Life, the Registrar, the Academic Affairs “Proceedings Advisor”, and one student representative named by the Student Government Council.

5. The Provost and Vice Chancellor for Academic Affairs will chair the Board, without a vote, except to break a tie. All other members of the Board are regular voting members.

6. Five regular voting members will constitute a quorum to hear appeals. There are no alternates for the eight regular voting members. The term of office is one full academic year for all members.

7. Each side may call upon the assistance of an adviser.

8. An audiotape record of the proceedings will be available to both sides.

9. Since it is the function of the Board to conduct hearings and not court trials, the Chair shall set reasonable limits upon the length of the presentations. The usual format will allow the opposing sides to make opening statements, present evidence, and make closing statements.

10. Within ten days after the hearing, all parties will receive written notice of decisions rendered by the Board. The Board's action represents the final decision in the UM-Dearborn academic appeal process.

Additional Program Recognition

DOUBLE MAJORS OR CONCENTRATIONS

With approval from the appropriate school/college, students who meet the requirements in two majors or areas of concentration may graduate with a double major or concentration. The Registrar will seek confirmation from the appropriate academic units before making such an entry on the transcript.

RECOGNITION OF MINOR

A student in a CASL, COB, or CECS degree program may apply for recognition of a minor, which consists of at least 12 hours in courses numbered 300 or above in a particular area of study. Minors are recorded on students' transcripts at the time the petition is granted.
SECOND BACHELOR'S DEGREES
A student who has already earned a bachelor's degree from UM-Dearborn or any other accredited collegiate institution may apply for permission to pursue a second bachelor's degree. If accepted, up to 90 credit hours from a previous University of Michigan degree will be counted toward the second degree. If the first degree was earned at a non-University of Michigan institution, up to 75 credit hours may count toward the second degree. If the student previously attended UM-Dearborn, the GPA for the second bachelor’s degree will be based on the cumulative academic record of courses taken at UM-Dearborn for both degrees.

ADDITIVE CREDIT

UM-Dearborn Courses
Some courses have an additive credit designation. The course credit hours for additive credit courses do not count toward a student’s degree. Several courses in UM-Dearborn curricula (i.e., tennis, volleyball, weight training, etc.) and some co-operative education/internships are reflected on a student's transcript but do not fulfill requirements for graduation. Mathematics 080, 090 and Composition 099, for example, bridge the gap between high school and college and are therefore offered only for additive credit. Courses taken for additive credit count in the determination of enrollment certification but not toward a degree or in determining class level.

Additive credits are not eligible for financial aid and will not be used to establish enrollment status for financial aid.

With the exception of remedial courses (MATH 080, 090; COMP 009; CHEM 090), the Department of Veteran Affairs will not pay for courses offered as additive credit.

Additive Courses Taken Elsewhere
Such courses as described above in the paragraph on UM-Dearborn additive credit courses are not transferable from other institutions to UM-Dearborn.

Alcohol at Campus Events
(Policy on Serving)
Consumption of beverages containing alcohol is prohibited on the UM-Dearborn campus except under the conditions specified in this policy.

Alcoholic beverages may not be served at events in the Fieldhouse. The use of alcohol at Henry Ford Estate-Fair Lane is governed by the policies of the Estate. Alcohol may be served at events held in other facilities on the UM-Dearborn campus under the conditions described below.

Any event at which alcoholic beverages will be served must have a designated host who is a full-time permanent faculty or staff member of the UM-Dearborn. The host assumes responsibility for implementing these guidelines, supervising servers and intervening if immoderate drinking or other high-risk behaviors are developing.

Beverages containing alcohol must be monitored by a designated server at all times. The designated server may not consume alcohol at the event. Alcoholic beverages may not be carried out of the designated event location.

Serving alcoholic beverages to individuals under 21 years of age is illegal and expressly prohibited. Events at which the majority of participants will be under age should not include alcoholic beverage.

Under no circumstances may University General Fund accounts, including organization accounts funded with student activity fees, be used to purchase alcoholic beverages.

Any event at which alcohol will be served must be planned in such a way as to respect the preferences of individuals who choose not to drink for religious, personal, or health reasons; and in no case should an event be planned around or advertised to feature the consumption of alcohol. Substantial food and beverages that do not contain alcohol must always be served at an event that includes alcoholic beverages.

Written authorization to serve alcohol at a campus event must be obtained from the Chancellor's Office at least one week before the planned event. Authorization will specify type of event, participants, location, time, and the responsible host.

Alcohol and Drug Prevention Program and Policy
This policy is intended to educate members of the University community about the health risks associated with the use and abuse of alcohol and other drugs and about the resources available for counseling and therapy. In addition, in order to assure a work and learning environment that promotes the University's mission and proper function, the University prohibits unlawful possession, use, or distribution of alcohol or illicit drugs by faculty, staff, or students on University property or as a part of any University activity. Federal and state sanctions also apply to such conduct.

HEALTH RISKS
The use or abuse of alcohol and other drugs increases the risk for a number of health-related and other medical, behavioral, and social problems. These include acute health problems related to intoxication or overdose (blackouts, convulsions, coma, death); physical and psychological dependence; malnutrition; long-term health problems including cirrhosis of the liver, organic brain damage, high blood pressure, heart diseases, ulcers, and cancer of the liver, mouth, throat, stomach; contracting diseases, such as AIDS; through the sharing of hypodermic needles; pregnancy problems including miscarriages, stillbirths, and learning disabilities; fetal alcohol syndrome (physical and mental birth defects); psychological or psychiatric problems; diminish behavior (hangovers, hallucinations, disorientation, slurred speech); unusual or inappropriate risk-taking that may result in physical or emotional injury or death; violent behavior toward others, such as assaults and rape; accidents caused by operating machinery while impaired; impaired driving resulting in alcohol and drug-related arrests, traffic accidents, injuries, and fatalities; negative effects on academic or work performance; conflicts with co-workers, classmates, families, friends, and others; and conduct problems resulting in disciplinary actions, including loss of employment; and legal problems, including imprisonment.

COUNSELING AND TREATMENT PROGRAMS
The University of Michigan encourages individuals with alcohol- or drug-related problems to seek assistance by contacting Counseling and Support Services, 2157 UC, (313) 593-5430. This office can also provide additional information on local, state, and national resources for those seeking assistance.
UNIVERSITY SANCTIONS

Unlawful possession, use, or distribution of alcohol or illicit drugs by faculty, staff, or students on University property or as a part of any University activity may lead to sanctions within the University, the severity of which shall increase as the seriousness of the violation increases.

Sanctions include:
• Verbal or written reprimand;
• Completion of an appropriate rehabilitation program;
• A disciplinary warning, with notice that repetition of the offense or continuation of the offense may result in a more serious sanction;
• Suspension from the University (student) or from employment (employee) from a specified University activity or facility for a fixed period of time or until completion of specified conditions, such as completion of an appropriate rehabilitation program;
• Expulsion from the University (student) or termination of employment (faculty or staff); and/or
• Other appropriate sanctions.

Sanctions for violations by faculty and staff shall be imposed pursuant to existing procedures applicable to acts of misconduct (e.g., Regental Bylaw 5.09, Standard Practice Guide 201.12, and appropriate collective bargaining agreements). Sanctions for violations by students shall be imposed pursuant to the UM-Dearborn Student Code of Non-Academic Conduct or pursuant to other approved procedures. Copies of the applicable student procedures are available at the Office of Enrollment Management and Student Life, 1060 Administration Building.

EXTERNAL SANCTIONS

Unlawful possession and use or distribution of alcohol or illicit drugs may lead to referral to the appropriate local, state, and federal authorities for prosecution for a misdemeanor or a felony, depending on the nature of the offense. The sanctions for such offenses may include fines and/or imprisonment.

For example, under federal laws, trafficking drugs such as heroin or cocaine may result in sanctions up to and including life imprisonment for a first offense involving 100 grams or more. Fines for such an offense can reach $4 million. Offenses involving lesser amounts, 10 grams, may result in sanctions up to and including 20 years of imprisonment and/or fines of up to $2 million. A first offense for trafficking marijuana may lead to sanctions up to life imprisonment for offenses involving 1,000 kilograms or more or up to five years of imprisonment for an offense involving less than 50 kilograms. Such an offense carries with it fines that can reach $4 million for an individual offender. Federal and state sanctions for illegal possession of controlled substances range from up to one year of imprisonment and up to $100,000 in fines to three years of imprisonment and $250,000 in fines for repeat offenders. Under Michigan laws, use of marijuana is a misdemeanor punishable by up to 90 days in jail and a $100 fine. Delivery of marijuana is a felony punishable by up to four years of imprisonment and up to $2,000 in fines. Violations may also lead to forfeiture of personal and real property and denial of federal benefits, such as grants, contracts and student loans.

The State of Michigan may impose a wide range of sanctions for alcohol-related offenses. For example, a first drunk-driving offense may be punishable by up to 90 days in jail, a fine of not less than $100 nor more than $500, a suspended license for not less than six months nor more than two years, and attendance at a substance abuse program. Subsequent offenses can lead to significantly increased sanctions. The vehicle of a minor transporting alcohol may be impounded for up to 30 days. Furnishing or using fraudulent identification to obtain alcohol may be punishable by up to 90 days in jail and a $100 fine.

More detailed descriptions of sanctions related to these and other drug and alcohol offenses are available in the libraries; at the personnel centers and offices; at the Office of the Vice President for Student Services, Room 3000, Michigan Union, Ann Arbor; at the Office of Student Affairs, 1060 Administration Building, Dearborn; and at the Office of the Dean for Student Services, 375 University Center, Flint.

On September 1, 1995, the Michigan Legislature expanded the law concerning minors and alcohol possession, consumption, and purchase. A minor is anyone under the age of 21. The minor may be required to submit to a preliminary chemical breath test and may be subject to suspension of his/her driver’s license even if he/she was not in an automobile at the time of the arrest. In addition, it is now a misdemeanor, not a civil infraction, for a minor to attempt to possess, consume, or purchase alcohol. If the underage person is less than 18 years of age, the agency charging him/her must notify the parents or guardian within 48 hours.

EMPLOYEE REPORTING REQUIREMENT

Under the Drug-Free Workplace Act of 1988, in addition to the other requirement of this policy, a faculty or staff member who works in any capacity under a federal grant or contract must notify his or her University supervisor or department head, in writing, of his or her conviction for a violation of any criminal drug statute occurring in the workplace no later than five calendar days after such conviction. This applies to direct charge employees and to the indirect charge employees who perform any support of overhead functions related to the grant. The supervisor or department head must then promptly report the violation to the General Counsel’s Office.

DISTRIBUTION OF POLICY

A copy of this policy statement shall be distributed annually to all faculty, staff and students.

REVIEW OF UNIVERSITY PROGRAM AND POLICY

Biennially, the University shall review its "Alcohol and Drugs Prevention Program Policy on Alcohol and Drugs" to determine the program’s and policy’s effectiveness and implement changes, if needed, and to ensure that the University’s disciplinary sanctions are consistently enforced.

Code of Conduct for Student Loans

Although the University of Michigan-Dearborn’s existing conflict of interest policies would already preclude the conduct prohibited by 34 C.F.R. § 668.14(b)(27),1 for clarity, the University of Michigan-Dearborn hereby establishes, as an addendum to the University of Michigan-Dearborn’s Conflict of Interest and Conflicts of Commitment Staff Implementation Guidelines and the Policy on Faculty Conflicts of Interest and Conflicts of Commitment, this code of conduct in regards to private student loans2.
The responsibility for the administration of this code of conduct and its enforcement resides with the UM-Dearborn Provost and UM-Dearborn Vice Chancellor for Enrollment Management and Student Life of the University of Michigan-Dearborn.

This code of conduct is applicable to all officers, employees, and agents of the University of Michigan-Dearborn and any affiliated organizations with responsibilities (directly or indirectly) with respect to private student loans. UM-Dearborn officers, employees, and agents subject to this policy are prohibited from doing any of the following, either on their own behalf or on behalf of the University:

- Participating in a revenue-sharing arrangement with any lender by which the lender pays a fee or provides other material benefits to UM-Dearborn or any officer, employee, or agent subject to this policy in exchange for the UM-Dearborn’s recommendation of that lender or its loan products;
- Soliciting or accepting gifts, including reimbursement of expenses or payment of expenses in a manner inconsistent with the requirements set forth in UM-Dearborn’s COI/COC Policies as requiring possible conflicts disclosure, from any lender, guarantor, or servicer that provides private education loans to students, unless the item or payment in question meets the exceptions set forth in 34 C.F.R. § 602.1(c)(2)(iii);
- Accepting from any lender or affiliate any fee, payment, or other financial benefit as compensation for any consulting arrangement or other services contract with or on behalf of a lender of private education loans, except that UM-Dearborn officers, employees, or agents subject to this policy who do not work in the Office of Financial Aid may serve on a lender’s board of directors, provided that they recuse themselves from any board decisions relating to private education loans at UM-Dearborn;
- Directing borrowers to particular lenders or delaying loan certifications;
- Requesting or accepting from any lender any offer of funds to be used for private education loans in exchange for UM-Dearborn’s providing the lender with a specified number of, loan volume of, or preferred lender arrangement for, private education loans
- Requesting or accepting any lender’s assistance with call center or Office of Financial Aid staffing, except that UM-Dearborn may request or accept from any lender (a) professional development training for financial aid administrators, educational counseling or other materials to provide to UM-Dearborn’s student borrowers (provided that such materials indicate the lender’s involvement in preparing or providing them), or (b) short-term, nonrecurring staffing assistance with financial aid-related functions during emergencies; and
- Receiving anything of value from any lender, other than reimbursement for reasonable expenses, in exchange for service on an advisory board, commission, or group established by a lender, guarantor, or group of lenders or guarantors.

Any employee who is offered any gift or monetary compensation from a lender should contact the Office of Financial Aid for clarification and guidance before responding favorably to that offer.

Should an employee subject to this policy inadvertently accept a gift or other type of monetary compensation from a lender, that employee must immediately notify the Department’s Director or Dean. The amount received, the name of the employee or agent, a brief description of the activity and the dates of the activity for which the expenses were paid or provided must be reported to the Department’s Director or Dean, who must then share that report with the UM-Dearborn Director of Financial Aid. The Director of Financial Aid is responsible for reporting this information annually to the Secretary of the Department of Education.

The UM-Dearborn Director of Financial Aid is responsible for providing annual notification of these requirements to all employees and agents with responsibilities (directly or indirectly) for administration of private education loans. This notification will be done via email in January of each year. In addition, this code of conduct will be published on the websites of UM-Dearborn’s Office of Financial Aid, Human Resources, Enrollment Management and Student Life, and the Provost’s Office.

1. This regulation requires all institutions that participate in the federal Title IV student loan programs to adopt a code of conduct that meets the requirements of 34 C.F.R. § 601.21.
2. Because the University of Michigan-Dearborn does not participate in the FFEL Program, the regulation cited applies to the University only as its terms relate to private education loans.

Completed and Approved 7/1/10

Coursework at Other Institutions

After the first enrollment at UM-Dearborn, it is assumed that students will sever their college-related connections with all other colleges and universities.

UM-Dearborn schools and colleges may refuse to accept any and all courses (credits and grades) if they are taken at another institution without prior written approval of the student's unit.

For information, contact your unit recorder's office.

Dual Degrees

Students may apply for two or more degrees either within the same college or in different colleges. To earn both degrees, students must meet the degree requirements for each degree. Generally, distribution courses taken within the College of Arts, Sciences, and Letters may be used to satisfy both degrees. Students should expect to elect at least 30 more credits to earn both degrees. Students are advised to contact each program to learn the specific requirements that must be met.

Some degrees, such as the degrees in Engineering Mathematics or Computer and Information Science (CIS) Mathematics, are only available as concurrent degrees and must be paired with a primary degree in either engineering or CIS. There are special concurrent degree programs in which a student can earn both a BSE in Electrical Engineering and Computer Engineering or in both Industrial and Systems Engineering and Manufacturing Engineering. Students interested in dual degrees should see their advisor.
Electronic Communication (E-Mail) With Students

The UM-Dearborn uses your assigned UM-Dearborn email address for all university email communications. You are responsible for accessing your UM-Dearborn email account on a frequent and consistent basis to stay informed of important University business such as information regarding your student account, financial aid, registration, grades or correspondence from faculty.

You may choose to forward messages from your UM-Dearborn email address to an alternate personal address. However, doing so may place you at risk of not receiving critical University communications. For additional information on your UM-Dearborn email account (including how to forward your UM-Dearborn email address), go to its.umd.umich.edu/ and select Accounts.

This policy reflects UM-Dearborn’s commitment to using available technology to communicate among members of the campus community. It recognizes an expanding reliance on electronic communication among students, faculty, staff and the administration due to the convenience, speed, cost-effectiveness and environmental advantages it provides. This policy will define the proper use of electronic communications between University staff, faculty and students. Electronic communications may include, but are not limited to, electronic mail, electronic bulletin boards, and web sites.

UM-Dearborn authorizes the use of email for official communication between students, faculty, staff, and the administration. All members of the campus community are expected to comply with established guidelines and procedures that define the proper use of electronic communications.

To implement this policy, the following actions and services will be provided:

1. **Provision of University email**
   
   UM-Dearborn will provide all staff, faculty, and students with an official University email address. This will be the address listed in University directories. All official University email communications will be directed to this address.

2. **Appropriate use of University email**
   
   Certain University electronic communications may be time-critical. Students, staff, and faculty are responsible for checking their official email address on a frequent and consistent basis in order to stay current with University communications.

   In general, email is not appropriate for transmitting sensitive or confidential information unless an appropriate level of security matches its use for such purposes.

   Confidentiality regarding student records is protected under the Family Educational Rights and Privacy Act of 1974 (FERPA). All use of email, including use for sensitive or confidential information, must be consistent with FERPA.

   Email shall not be the sole method for notification of any legal action.

3. **Redirecting of University email**
   
   Members of the campus community may elect to forward University email to an alternate address (e.g., aol.com, hotmail.com, comcast.net). They are responsible for ensuring that the configuration of their email service does not accidentally label University messages as spam. Users who redirect email from their official address to another email address do so at their own risk. The University will not be responsible for the handling of email by outside vendors or by departmental servers. Having email redirected to an alternate service does not absolve students, staff or faculty members from the responsibilities associated with communication sent to their official email address.

4. **Access to University email**
   
   Students who are not in possession of a home computer, or do not have access to a computer at work, can use computers available in campus labs or in their local library.

5. **Faculty use of University email**
   
   Faculty may determine how email will be used in their classes. It is highly recommended that if faculty have email requirements and expectations, they specify these requirements in their course syllabus. Faculty may reasonably expect that students are accessing their University email, and may use email for their courses accordingly.

**Honors**

**ACADEMIC HONORS**

**WILLIAM J. BRANSTROM (FRESHMAN) PRIZE**

First-term freshmen who rank in the upper five percent of their class and earn 14 credit hours and at least a 3.50 GPA on any campus and in any unit of the University of Michigan are named recipients of the William J. Branstrom Prize. This distinction is noted on the student’s transcript as “William J. Branstrom Prize.”

**JAMES B. ANGELL SCHOLARS**

Students who earn straight A’s (A+, A, A-) for two or more consecutive terms with a minimum of 14 elected credit hours each term, 12 of which must be graded, are named James B. Angell scholars. This distinction is noted on the student's transcript.

**UNIVERSITY HONORS**

University Honors are awarded to all students who have achieved a 3.50 GPA and 14 credit hours (12 of which must be graded A-E). This distinction is noted on the student’s transcript as “University Honors” after fall and winter terms only.

**HONOR SCHOLARS RECOGNITION**

Students who have achieved superior academic performance are invited to and individually recognized at an Honor Scholars Awards Dinner held in late March each year. Those honored include active undergraduate and graduate students, one per degree major, with a specific minimum GPA, a specific minimum number of credit hours, and other criteria deemed appropriate by the School, College, or Department. For further information, contact the Office of the Provost, 1080 Administration Building; telephone (313) 593-5030.

**GRADUATION HONORS**

**WITH DISTINCTION**

Students who graduate and have obtained a cumulative GPA of at least 3.2 but less that 3.6 are recommended for graduation “With Distinction”. Such distinctions are noted on transcripts and diplomas.

**WITH HIGH DISTINCTION**

Students who graduate and have obtained a cumulative GPA of at least 3.6 are recommended for graduation “With High Distinction”. Such distinctions are noted on transcripts and diplomas.
Institutional Equity

The University of Michigan, as an Equal Opportunity/Affirmative Action employer, complies with applicable federal and state laws regarding nondiscrimination and affirmative action, including Title IX of the Education Amendments of 1972 and Section 504 of the Rehabilitation Act of 1973. The University of Michigan is committed to a policy of nondiscrimination and equal opportunity for all persons regardless of race, sex, color, religion, creed, national origin or ancestry, age, marital status, sexual orientation, gender identity, gender expression, disability, or veteran status in employment, educational programs and activities, and admissions. Inquiries or complaints may be directed to the Senior Director for Institutional Equity and Title IX/Section 504 Coordinator, Office of Institutional Equity, 2072 Administrative Services Building, Arbor, Michigan 48109-1432, (734) 763-0235; TTY (734) 647-1388. University of Michigan-Dearborn inquiries may be addressed to the Dearborn Institutional Equity Officer, Office of Institutional Equity, 1020 Administration Building, Dearborn, Michigan 48128-2406, (313) 593-5320 or 593-5190, TTY (313) 593-5430, fax (313) 593-3568.

The Office of Institutional Equity aims to ensure that all groups, including racial, ethnic and religious minorities, women, the disabled, senior citizens, gays, lesbians, transgender individuals and veterans all have equal opportunity and receive the support they need to be effective and successful as students, faculty or staff members. The office oversees the University’s compliance with affirmative action/nondiscrimination legislation, and University policies and procedures. The office is available to provide information and pre-grievance counseling to faculty, staff and students with discrimination or harassments complaints and co-sponsors training and educational programs.

The University of Michigan believes that educational and employment decisions should be based on individuals' abilities and qualifications and should not be based on irrelevant factors or personal characteristics that have no connection with academic abilities or job performance. It strives to build a diverse community in which opportunity is equal for all persons regardless of race, sex, color, religion, creed, national origin or ancestry, age, marital status, disability, individual's sexual orientation, gender identity, gender expression or veteran status.

Such a policy ensures that only relevant factors are considered and that equitable and consistent standards of conduct and performance are applied. The University exerts its leadership for the achievement of this goal by all parties with which the University transacts business, which it recognizes, or with which students or employees of the University are involved.

Any University of Michigan - Dearborn employee having a complaint of discrimination should notify the Institutional Equity Officer, 1020 Administration Building, (313) 593-5320, TTY (313) 593-5430, fax (313) 593-3568. A student should notify either the Institutional Equity Officer or the Ombudsman in 2106 University Center, (313) 583-6445.

Posting and Handbill Distribution

The posting of any information or advertisement and distribution of handbills (fliers) is governed not only by the policy below, but also by all other applicable University Policies and Procedures:

1. The Posting Approval Log must be completed and signed by a representative of the organization or person responsible for the posted material.
2. All posted literature must be approved and officially stamped with a removal date at the lower left- or right-hand corner by a staff member of the Student Activities Office (SAO). Approved literature may be posted for a maximum of thirty days. Extensions to the thirty-day maximum posting period may be granted by the SAO in extenuating circumstances.
3. The indiscriminate distribution (littering) of handbills on the UM-Dearborn campus is strictly prohibited. Offending parties may have their personal and/or organizational rights to distribute handbills on campus revoked and/or may be rebilled for inordinate custodial or plant maintenance cost.
4. Material must be posted on designated Campus News & Activities bulletin boards, tack stripping, and kiosk structures only. Posting on University walls, windows, doors, lighting poles, floors, telephones, restroom facilities, sidewalks, roadways, parking lots, plants, or any vehicle on University property is strictly forbidden.
5. Chalking of University property is prohibited.
6. Fliers or posters partially or fully covering pre-approved material or Campus News & Activities signs will be removed.
7. Standard staples, thumbtacks, and pushpins are the only acceptable methods of affixing posted materials to bulletin boards.
8. Individuals and organizations are limited to posting one (1) flier not to exceed 8-1/2 x 14 inches, or one (1) sign not to exceed 18 x 24 inches per designated bulletin board, except where specified. Individuals or organizations may post four (4) fliers or two (2) signs of the above-noted dimensions on the tack stripping in the University Mall. Fliers or posters with different formats or graphics which essentially provide the same basic advertisement information are considered the same and subject to the above noted one per bulletin board provision.
9. Campus News & Activities bulletin boards may not be covered, amended or cleared without the express permission of SAO.
10. One (1) 3 x 6 foot banner, with official approval, may be posted on the balconies in the CASL Atrium for a period not to exceed twenty-one (21) days and must be appropriately hung as not to result in an obstruction or fire hazard.
   a. Banners used for commercial business gain or commercial advertisement are prohibited from posting.
   b. Banners advertising events of an ongoing nature or events not primarily sponsored by a recognized entity from within the UM-Dearborn community are prohibited from posting.
   c. The posting representative assumes responsibility for posting banners properly and removing all banners on the date stamped.
11. The content of the posters and signs is the direct responsibility of the posting individual and/or organization. Persons posting information written in a non-English language must provide an exact English translation for SAO records.
12. SAO retains the right to refuse the approval of material that is not in keeping with University policy and procedure.
13. Failure to adhere to the Posting and Handbill Distribution Policy may result in disciplinary action under applicable University of Michigan-Dearborn policies and procedures and/or applicable civil statutes.

Advisory: The Rock Painting Policy, as codified in The Student Clubs and Organizations Information and Policy Manual governs painting on the rock outside the northwest entrance to the University Center.
Privacy and Access to Information

In collecting, utilizing, and releasing information about individuals associated with the University, the University will strive to protect individual privacy, to use information only for the purpose for which it was collected, and to inform individuals of the personal information about them that is being collected, used, or released. The University will not release sensitive information without the consent of the individual involved unless required to do so.

Repeat Course Policy

On June 13, 2005, the Faculty Senate recommended, and on August 24, 2005, the Council of Deans approved, a change in the repeat course policy effective with the beginning of the Fall 2005 semester. The new policy is as follows:

“Students may repeat a course no more than two times. All grades received must appear on the transcript, but only the last grade received is counted in the grade point average (GPA).”

GUIDELINES

When a prior grade or mark other than “W” is recorded for a course, or its equivalent, or its cross listing, a subsequent enrollment (“repeat”) of the course, or its equivalent, or its cross-listing, will result in an adjustment of the grade point average and credits earned.

1. Students may repeat a course up to two times (total of three attempts).
2. Regardless of whether it is higher or lower than the previous grade(s), the last grade assigned in a course will be used in computing the student’s cumulative grade point average and credits earned toward degree.
3. If a student takes a course three times (the maximum allowed), the previous two grades will not be reflected in the GPA.
4. Most courses can be elected only once for credit. The maximum number of credits/elections allowed in courses designed for multiple enrollments are indicated in the Undergraduate Catalog. For information regarding these courses, students may contact their unit Academic Advisor.

This policy applies to all undergraduate degree and non-degree students in all academic units. An exception not to accept the final grade in a repeated course cannot be petitioned.

The policy applies only to courses elected Fall 2005 or later.

Students who have repeated a course two or more times prior to Fall 2005 may repeat the course only one additional time. Only the two most recent previous grades will be affected by the new policy. Other previous grades will continue to be used in computing the grade point average.

Courses taken at institutions other than the University of Michigan-Dearborn do not affect the grade point average.

The use of an Audit Grade Mode or Pass/Fail Grade Mode may not be used to adjust grade point averages for courses previously elected under any other existing grade mode.

The limitation of the three-course rule will be monitored by the Office of Registration & Records. Students who elect a course more than three times will be dropped from the course and notified of the election change.

Rights and Obligations of Speakers, Audience Members and Protestors at Public Presentations of UM-Dearborn

1. Members of the UM-Dearborn community and their invited guests have the right to set forth their views and opinions and to listen, watch, protest, or otherwise participate in communication.
2. UM-Dearborn has an obligation to insure audience access to public events, to protect the rights of the speaker and those who wish to hear and communicate with the speaker, and to provide all with personal security.
3. Protestors have an obligation not to abuse their rights of free expression by harassing or intimidating speakers in ways that unduly interfere with free expression or communication between a speaker and members of the audience.
4. The prohibition against undue interference does not include suppression of the usual range of human reactions commonly displayed by an audience during heated discussion of controversial topics, so long as such activities are consistent with the continuation of the speech and the communication of its content to the audience.
5. The broadest range of speech and expression will be tolerated in public forums in order to facilitate the discussion and debate of ideas and issues. However, the intentional use of racial, ethnocentric or sexual invectives, epithets, slurs or utterances directly to attack or injure another individual rather than express or discuss an idea of philosophy are beyond the boundaries of protected speech. Additionally, malicious and intentional verbal threats of violence directed towards an individual, physical violence and destruction of property are misconduct and will be subject to discipline.
6. UM-Dearborn officials have a responsibility to make a judgment when there is a clear and present danger that the rights of free expression and communication will be infringed upon and to take appropriate measure to safeguard these rights.
7. The overall goal of UM-Dearborn officials during a disruption shall be to re-establish an atmosphere conducive to communication between the speaker and the audience in full respect of the rights of all parties.
8. Canceling, stopping an event, adjourning to another time or place, or allowing protracted interruption of a speech or meeting is inconsistent with full respect for the rights of free expression and communication of those present.

Sexual Harassment by Faculty and Staff

POLICY STATEMENT

It is the policy of the University of Michigan to maintain an academic and work environment free of sexual harassment for students, faculty, and staff. Sexual harassment is contrary to the standards of the University community. It diminishes individual dignity and impedes equal employment and educational opportunities and equal access to freedom of academic inquiry. Sexual harassment is a barrier to fulfilling the University's scholarly, research, educational, and service missions. It will not be tolerated at the University of Michigan.
Sexual harassment violates the University's long-standing policy against discrimination on the basis of sex. Sexual harassment is also illegal. It is prohibited in the employment context by Title VII of the 1964 Civil Rights Act, in the education context by Title IX of the Educational Amendments of 1972 and, in both employment and education contexts, by Michigan's Elliot-Larsen Civil Rights Act, adopted in 1976.

A claim under this policy may be brought by the University or by a faculty, staff, or student member of the University community based on the conduct of any University employee. Complaints based on conduct by students who are not also employees of the University are addressed in the Interim Policy on Discrimination and Discriminatory Conduct by Students in the University Environment, which is administered by the Office of Student Services.

Sexual harassment can be a very serious matter having far-reaching effects on the lives and careers of individuals. Intentionally false accusations can have similar impact. Thus the charge of sexual harassment is not to be taken lightly by a charging party, an accused party, or any member of the University community. A person who knowingly and intentionally files a false complaint under this policy is subject to University discipline.

**DEFINITION OF SEXUAL HARASSMENT**

For the purposes of determining whether a particular act or course of conduct constitutes sexual harassment under this policy, the following definition will be used:

Sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment when:

1. submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment, education, living environment, or participation in a University activity;
2. submission to or rejection of such conduct by an individual is used as the basis for or a factor in decisions affecting that individual's employment, education, living environment, or participation in a University activity; or
3. such conduct has the purpose or effect of unreasonably interfering with an individual's employment or educational performance or creating an intimidating, hostile, or offensive environment for that individual's employment, education, living environment, or participation in a University activity.

Conduct alleged to be sexual harassment will be evaluated by considering the totality of the particular circumstances, including the nature, frequency, intensity, location, context, and duration of the questioned behavior. Although repeated incidents generally create a stronger claim of sexual harassment, a serious incident, even if isolated, can be sufficient. For example, a single suggestion that academic, other educational, or employment rewards or reprisals will follow the granting or refusal of sexual favors, will constitute sexual harassment and grounds for action under this policy.

This policy addresses intentional conduct. It also addresses conduct that results in negative effects even though such negative effects were unintended. Sexually related conduct forms the basis of a sexual harassment claim if a reasonable person of the same gender and University status as the complainant would consider it sufficiently severe or pervasive to interfere unreasonably with academic, other educational, or employment performance or participation in a University activity or living environment.

Sexual harassment most often occurs when one person has actual or apparent power or authority over another; however, it may also occur between individuals of equal status or rank within the University. Sexual harassment may occur between males and females and between persons of the same gender.

Although sexual harassment as described and prohibited by this policy includes a wide range of behaviors, it does not include certain discriminatory conduct even though that conduct may be otherwise unlawful, offensive, or prohibited by University policy. For example, unequal pay and denial of access to educational programs based on gender are unlawful sex discrimination not addressed by this policy. Also, not all harassment based on gender or sexual orientation may be addressed by this policy, if such conduct is not sexual in nature or sexually motivated. Some conduct which negatively emphasizes gender, gender differences or sexual orientation may violate this policy, but may also be a violation of another University policy. Harassment that is both racist and sexual in nature would be addressed by this policy and possibly by other University policies as well.

**CONSENSUAL RELATIONSHIPS**

Romantic and sexual relationships between supervisor and employee or between faculty or other staff and student are not expressly prohibited by University policy. However, even when both parties have consented to the development of such relationships, they can raise serious concerns about the validity of the consent, conflicts of interest, and unfair treatment of others. Similar concerns can be raised by consensual relationships between senior and junior faculty members.

In 1986, the University's Senate Assembly adopted a statement of principle concerning relationships between faculty (including teaching assistants) and students. The University concurs with the Assembly's position that sexual relationships, even mutually consenting ones, are a basic violation of professional ethics and responsibility when the faculty member has any professional responsibility for the student's academic performance or professional future.

The University's nepotism policy precludes individuals from evaluating the work performance of others with whom they have intimate familial or close personal relationships, or from making hiring, salary, or similar financial decisions concerning such persons, without prior written approval. The same principles apply to staff-student or faculty-student relationships in the context of work or academic evaluation. Thus, consensual romantic or sexual relationships between faculty or staff and students also require disclosure to the appropriate administrative supervisor so that arrangements can be made for objective evaluation and decision making with regard to the student.

Romantic or sexual relationships with students that occur outside of the instructional or supervisory context may also lead to difficulties. The Senate Assembly has concluded, and the University concurs, that the asymmetry of the faculty-student relationship means that any sexual relationship between a faculty member and a student is potentially exploitative and should be avoided. Faculty and staff engaged in such relationships should be sensitive to the constant possibility that they may unexpectedly be placed in a position of responsibility for the student's instruction or evaluation.

In the event of a charge of sexual harassment, the University will, in general, be unsympathetic to a defense based upon consent when the facts establish that a professional faculty-student, staff-student, or supervisor-employee power differential existed within the relationship.
RESPONSE AND PROCEDURES

Prevention and Education

The University is committed to preventing and eliminating sexual harassment of students, faculty, and staff. To that end, this policy will be published in pamphlet form and disseminated to the University community. The pamphlets will be included in orientation material for new students, faculty, and staff and made available in the Affirmative Action Office and other appropriate locations on each campus. In addition, appropriate educational sessions will be conducted by the University on an ongoing basis to (1) inform students, faculty, and staff about identifying sexual harassment and the problems it causes, (2) advise members of the University community about their rights and responsibilities under this policy, and (3) train personnel in the administration of this policy.

Assistance with Sexual Harassment Problems

The Affirmative Action Office is responsible for ensuring and monitoring the University's compliance with federal and state nondiscrimination laws. However, a discrimination-free environment is the responsibility of every member of the community. The University can take corrective action only when it becomes aware of problems. Therefore, the University encourages persons who believe that they have experienced or witnessed sexual harassment to come forward promptly with their inquiries, reports, or complaints and seek assistance within the University. Individuals also have the right to pursue a legal remedy for sexual harassment in addition to or instead of proceeding under this policy.

Confidential Counseling

Information about or assistance with sexual harassment issues may be obtained from a variety of University resources. Prior to or concurrent with making a report or complaint of sexual harassment, individuals may find it helpful to consult with a counselor. The following offices can advise and support victims of and witnesses to sexual harassment in a confidential setting. Discussions with representatives of these offices will not be considered official reports to the University and will not, without additional action by the complainant, result in intervention or corrective action.

- Counseling Services (available to students on each campus)
- Faculty and Staff Assistance Program (available to faculty and staff on each campus)
- Lesbian-Gay Male Programs Office (in Ann Arbor, but available to students, faculty and staff from Dearborn and Flint)
- Sexual Assault Prevention and Awareness Center (in Ann Arbor, but available to students, faculty and staff from Dearborn and Flint)

Inquiries About Sexual Harassment

Inquiries about sexual harassment and this policy may also be made to the University representatives listed below. Such inquiries will not be acted upon until an informal or formal complaint is made.

Informal Resolution Process

At the complainant's option, a sexual harassment report or complaint can be made centrally or locally on the Ann Arbor, Dearborn, and Flint campuses. Centrally, informal reports or complaints may be received by representatives of the Affirmative Action Office, Ombuds Services (students only), the Office of Student Services (students only), Dean's Office of the Horace H. Rackham Graduate School (graduate students only), Center for the Education of Women, Department of Public Safety, and appropriate Office of Human Resources.

At the local level, persons designated to receive informal reports or complaints are any dean, director, department head, unit manager, residence hall building director, and/or their designees. Each school/college or other unit shall be certain that at least one of the persons designated to receive complaints is a female.

The person who receives a sexual harassment report or complaint will advise the complainant about the informal and formal resolution alternatives available under this policy. At the complainant's option, the intake person can 1) provide information about sexual harassment and this policy, 2) help the complainant deal directly with the alleged offender, 3) assist with or mediate a resolution of the problem within the unit, and/or 4) help the complainant prepare a written complaint and pursue a formal investigation. Informal resolution measures should be custom-designed to address the particular circumstances. If the complainant wishes, the intake person can, in consultation with a representative of the appropriate Office of Human Resources and/or the Affirmative Action Office, conduct an informal inquiry into the reported incident and assist in resolving it. The person to whom an informal complaint is brought will not inform the accused of the complainant's action or identity without the consent of the complainant.

Formal Investigation

Either subsequent to or instead of following an informal process, a complainant may elect to make a formal charge of sexual harassment and have it pursued. The University will investigate all formal charges of sexual harassment.

There are two internal mechanisms available to pursue a formal charge and their availability depends on the employment status of the complainant. All employees represented by a union must pursue a formal charge through the grievance procedure in the relevant collective bargaining agreement. All other employees may pursue a formal charge through the use of the appropriate faculty or staff grievance procedure set forth in the Standard Practice Guide or, in the alternative, through the procedures set forth in this policy.

Formal charges under this Policy's procedures should be made in writing and filed either with a dean or director, the Affirmative Action Office, the appropriate Office of Human Resources, or, on the Dearborn campus, with the Office of the Provost. If a formal investigation is initiated, the person accused of sexual harassment must be notified of the charge and given the opportunity to respond to any allegations before disciplinary actions are taken.

The purpose of an investigation, which will include interviewing the parties and witnesses, is to gather and verify facts about the case. Formal investigations will be conducted in consultation with the Office of the General Counsel, by a three-person team consisting of a representative from the appropriate Office of Human Resources, the Affirmative Action Office, and the office of the dean or director. Investigation of a complaint against a dean or director will include a representative from the office of the appropriate Vice President or Vice Chancellor in place of a representative from the office of that dean or director. Faculty and student participants in an investigation may elect to have a peer representative included on the investigatory team. Student or faculty peer representatives will be drawn by lot from the student panel which hears complaints under the Interim Policy on Discrimination and Discriminatory Conduct by Students in the University Environment or from the faculty cognate panel for the faculty grievance procedure, respectively, on the Ann Arbor campus, and from an equivalent representative pool on the Dearborn and Flint campuses.
Investigations will be conducted promptly, thoroughly, and fairly, affording both the complainant and the accused a full opportunity to participate. Possible outcomes of an investigation are 1) a finding that the allegations are not warranted or could not be substantiated, 2) a negotiated settlement of the complaint, 3) a finding that the allegations are substantiated and, if so, 4) recommendations to the appropriate supervisor regarding corrective action to be taken. If an allegation of sexual harassment is substantiated, appropriate corrective action will follow. The University utilizes a disciplinary system for this and other misconduct in which the extent of the disciplinary action taken depends on all the facts and circumstances available at the time the decision is made. The severity of the punishment will depend on the frequency and severity of the offense. Corrective action could include a requirement not to repeat or continue the harassing conduct, a reprimand, denial of a merit pay increase, reassignment, and suspension. A finding of sexual harassment may be cause for the separation of the offending party from the University, in accordance with University procedures, including, for qualified faculty, the procedures set forth in Regental Bylaw 5.09. Every effort will be made to assure University-wide uniformity of sanctions. The complainant and the person complained against will be notified in writing of the final disposition of a formal complaint. In the event the allegations are not substantiated, all reasonable steps will be taken to restore the reputation of the accused if it was damaged by the proceeding.

University Action
At the request of a complainant or with the consent of one or more complainants who agree to participate as witnesses, the University may, in appropriate circumstances, assume the role of a complainant and pursue a report or complaint of sexual harassment, either informally or formally. The University may respond to complaints or reports by persons external to the community about conduct of University employees alleged to be sexual harassment.

Appeals Process
Complainants and faculty and staff members against whom corrective action is taken may avail themselves of the relevant grievance procedure as to the appropriateness of the corrective action and the procedures followed. A student complainant who is not satisfied with the outcome of a formal investigation may appeal the outcome to the Provost and Vice President for Academic Affairs (if person complained against is a faculty member or teaching assistant) or relevant Vice President (if person complained against is a staff member). On the Dearborn and Flint campuses, student complainants should utilize the appeals process specific to their own campus.

Reporting Requirements
To assure University-wide compliance with this policy and with federal and state law, the Affirmative Action Office must be advised of all reported incidents of sexual harassment and their resolution. Reports in which the complainant's and/or the accused's names are not revealed should be reported generically. The Affirmative Action Office will use this information to prepare annual statistical reports for the campus community on the incidence of sexual harassment. The Office of the General Counsel will monitor repeated complaints within the same unit or against the same individual, where appropriately identified, to assure that such claims are appropriately handled.

General
In all cases, a person who 1) reports or complains, 2) participates in an inquiry or investigation, or 3) is accused of sexual harassment incidents may be accompanied by an individual of his or her choice who shall be permitted to attend, but not participate in, the proceedings.

The University will take appropriate steps to assure that a person who in good faith reports, complains about, or participates in an informal resolution or formal investigation of a sexual harassment allegation will not be subjected to retaliation. The University also will take appropriate steps to assure that a person against whom such an allegation is made is treated fairly. The University will also undertake appropriate follow-up measures to assure compliance with settlements and the goals of this policy.

Inquiries and complaints of sexual harassment shall be treated with the maximum degree of confidentiality. Only when required by law or when personal safety is at risk will confidential information be acted upon or disclosed to others without a complainant's consent.

Sexual harassment complaints should be made promptly and resolved as quickly as possible, generally within two weeks of the date the complaint is made. Formal investigations should be concluded within thirty (30) days from the date of the complaint. The complainant and the accused should be kept apprised of the progress of the investigation, as well as the ultimate outcome.

The University will make every effort to accommodate parties who are unable to participate in a formal investigation because of physical incapacity or geographical location.

Complaint-Handling Guidelines
The University will issue and make available to persons entrusted with administering this policy and other interested parties, appropriate complaint-handling guidelines, consistent with this policy. All guidelines shall be reviewed and approved by the Office of the Provost and the Office of the General Counsel. These guidelines shall be issued within ninety (90) days of the effective date of this policy.

Revisions
This policy and these procedures are subject to revision as determined necessary or desirable in view of experience or changes in the law.

Special Examinations
The UM-Dearborn will acknowledge proficiencies gained by students outside the bounds of traditional courses if such proficiency is certified by recognized examinations or departmentally prepared and/or approved alternatives. The University recognizes three types of such special examinations: 1) standardized examinations prepared and evaluated by nationally recognized organizations; 2) placement examinations prepared, administered on campus, and evaluated by UM-Dearborn academic departments; and 3) special examinations for individual courses, prepared, administered, and evaluated by specialists in the various academic departments and approved by the respective department chairs.

The number and nature of credits earned by examination must be approved by the department(s) normally responsible for teaching the subject matter areas for which credit is being granted. Decisions in individual cases related to departmental examinations will be made in light of the general departmentally approved policies that are not inconsistent with those for national examinations.
DEPARTMENTAL EXAMINATIONS

If a student believes that he/she has the knowledge and/or skill to merit credit for a specific course without attending classes and/or doing any assignments other than a single, comprehensive examination, the student and the academic unit or department must follow certain procedures.

If credit-by-examination is available in the area in which the student is interested, he/she should request permission to take an examination for specific credit in accordance with the unit’s procedures. If the request is granted (it can be denied) and the examination is scheduled, the student will be assessed a $20.00 fee.

All such examinations are graded on a Pass/Fail basis. If the student passes or fails, he/she will receive a written memorandum to that effect from the examiner. If the student passes the examination(s), he/she will be assessed regular University fees per credit hour received minus any fees previously paid.

Also see section on Tuition.

PLACEMENT EXAMINATIONS

Placement examinations are required by certain departments in an effort to determine the best course level for new students. No fee is assessed for the administration of these tests. For more information, telephone the Office of Admissions and Orientation Office at (313) 593-5100 or visit umd.umich.edu/plex/.

STANDARDIZED NATIONAL EXAMINATIONS

The Advanced Placement Program (APP) and International Baccalaureate (IB) subject examinations are the chief examples in this category. If the relevant academic units and/or the academic departments award credit, the student is responsible for having the test results sent to the institution (normally, along with the application for admission), and the Office of Registration & Records (current students) or the Office of Admissions and Orientation (for incoming students) will be responsible for the recording of the appropriate credit. The student is not charged a fee for such credit. For more information about AP or IB credit grant practices, visit casl.umich.edu/index.php?id=687380.

Smoke-Free Policy

Since September 1, 1992, smoking has not been permitted in campus buildings. The success of this policy depends upon the thoughtfulness, consideration, and cooperation of smokers and non-smokers. All faculty, staff, students and visitors share the responsibility for adhering to and enforcing the policy. For the full policy, see the Dearborn Administrative Guide, umd.umich.edu/dag/.

In our ongoing effort to create an environment that is healthy for all members of our community, the University of Michigan-Dearborn will be a smoke-free university as of July 1, 2011. This will help ensure a healthier environment for faculty, staff, students and visitors. For more information, visit umd.umich.edu/smokefree/.

Student Organizations

POLICIES FOR STUDENT ORGANIZATIONS

In an effort to coordinate the activities of all student organizations, policies were codified into a formal publication issued by Student Government, known as the Student Clubs and Organizations Information and Policies Manual.

The Student Clubs and Organizations Information and Policies Manual is a most useful booklet which contains information on forming an organization, the renewing and revoking of organizational status, office allocations, organizational accounting, the allotting of day sales and evening events, university services, descriptions of recognized organizations, etc.

The Student Organizations Coordinator and the Student Government Director of Student Organizations can assist any student group interested in this area of concern.

ACCOUNTING POLICIES AND PROCEDURES

The Student Activities Office (SAO) maintains and services the financial accounts for student organizations that have been recognized by the Student Government. Through this student service, SAO:

1. Ensures uniformity of accounting records.
2. Facilitates continuity between business officers and their successors.
3. Aids student organizations in keeping their activities on a sound financial basis.
4. Provides a means for recognized student organizations to use University facilities and services.

The SAO is prepared to offer staff consultation on matters of budgeting, detailed record keeping, and securing various University and outside vendor services and facilities. The information presented in the Student Organizations Accounting Policies and Procedures Manual is intended to assist the financial officers of organizations in conducting their duties and to inform them of the policies, procedures, and benefits associated with sound fiscal policy.

Special Programs

Officer Education Programs

Students at UM-Dearborn may apply for admission to the two-year and four-year programs of Army or Air Force officer training. These programs include some scholarship options and may lead to a commission either in the Army or the Air Force.

These officer training programs are based in Ann Arbor. Interested students may get further information by visiting the Office of Registration & Records in Dearborn (1169 UC) or by telephoning Ann Arbor: for Air Force information, telephone (734) 764-2403; for Army information, telephone (734) 764-2400.

ARMY OFFICER EDUCATION PROGRAM (ROTC) (NOT A CONCENTRATION)

Upon graduation from the University and successful completion of the program, students enrolled in the Army Officer Education Program receive a commission as second lieutenant in the United States Army Reserve or in the Regular Army. Many students enroll for the first two years in order to sample career opportunities. No military obligation is incurred for the first two years.

AIR FORCE OFFICER EDUCATION PROGRAM

The program offers studies designed to prepare and commission selected individuals to serve in the United States Air Force. Both a four-year and a two-year program leading to a commission as a second lieutenant are offered. The four-year plan comprises eight terms of courses in aerospace studies plus a four-week field training course at an Air Force base, between the sophomore and junior years. The two-year plan comprises an initial six-week field training course followed by four terms of aerospace studies (AS
310 through AS 411 series). Cadets may enroll in either the four-year or two-year program by permission of the chairman.

Military Obligation

After being commissioned, graduates of the program are called to active duty with the Air Force in a field usually related to their academic degree program. The period of service is four years for non-flying officers, five years for navigators after navigator training, and eight years for pilots after flight training. A contractual obligation is established for non-scholarship students when they attend the first Professional Officer Course (POC). Scholarship students in the four-year program incur a contractual obligation upon entering the sophomore year of AFROTC, whereas those in the two-year program incur one on entering the POC.

UM-DEARBORN CREDIT FOR MILITARY OFFICER EDUCATION

College of Arts, Sciences, and Letters

Up to six credit hours of Military Science / Aerospace Studies / ROTC coursework may count as elective credit toward degree.

College of Business

Up to six semester credit hours will be granted to a student for successful completion of advanced military science courses towards the BBA degree requirements.

College of Engineering and Computer Science

Students who satisfactorily complete the requirements as established by the Military Officer Education Program Chairman for a commission and satisfactorily complete the engineering program of studies may count a maximum of four credit hours of advanced military science courses (300 and 400 level) as meeting program elective hours for an engineering degree at the discretion of the academic department.

School of Education

Courses do not carry credit toward degree requirements.

Campus Services

Athletics

INTRAMURALS, RECREATION, AND INTERCOLLEGIATE SPORTS

UM-Dearborn has an athletics program designed for all members of the campus community. Students, faculty, and staff of UM-Dearborn are encouraged to participate in the educational, recreational and competitive sports programs.

The formal intramural program offers competition and league play in flag football, basketball, wallyball, volleyball, and ice hockey. Instructional opportunities are available in such activities as golf. The Fieldhouse/Ice Arena, located on the south end of campus, is open on a regular basis for informal recreation.

For the student-athlete who wishes to compete at an intercollegiate level, the varsity sports program offers NAIA competition in men's and women's basketball, women's volleyball, and women's softball. Competitive men's ice hockey, soccer, and lacrosse are offered in the Club Sports Program and Intramural Program. Students interested in these sports should call or visit the UM-Dearborn Department of Recreation and Athletics in Room 205, Fieldhouse/Ice Arena for specific information.

The Recreation and Physical Education Complex was completed during 1978. Included in this facility are an 800-seat multipurpose room for indoor tennis, basketball and volleyball, and also includes a climbing wall and a high ropes course. A 1,250-seat indoor ice arena is available for a variety of ice-oriented activities. Locker rooms are available for men and women. The facility also houses a concession stand, first aid room, classroom, conference room, equipment room, and administrative offices.

The 14,000 sq. ft. Wellness Center, which opened in January 2000, has state-of-the-art strength and conditioning equipment, two racquet courts, a studio, 1/17-mile jogging track, athletic training room, men's and women's locker rooms, and an administrative office. This addition has increased the opportunities for a greater variety of health/fitness-related programs in physical education, intramurals, and recreation. Special activities include fitness assessments, equipment orientation, individualized exercise programs, incentive programs, classes, and workshops. There is a nominal fee charged for special programs offered by the Center.

Athletic and recreational equipment may be checked out for personal use by presenting a currently valid UM-Dearborn identification card and driver's license at the Athletic Office in the Fieldhouse/Arena. The use of the facilities is free to students, faculty, and staff, and provisions are made for the purchase of guest passes on a daily or term basis for family members, UM-Dearborn alumni and retirees, and others, if criteria are met. A valid UMID is required to use the facilities.

FOOTBALL TICKETS

Season tickets to the University of Michigan-Ann Arbor football games are sold by the Ticket Office of the Ann Arbor campus Department of Athletics. UM-Dearborn students receive information regarding ticket purchase early in the year with a mid-April response/purchase deadline. Ticket information is available at 734-647-0247.

HEALTH AND PHYSICAL EDUCATION

The School of Education provides UM-Dearborn students with a variety of participatory and theoretical courses related to the importance of exercise in life-style management and healthful living. Theory courses such as coaching principles, nutrition and human development, and physical activity and health are offered regularly. Theory courses award college credit; however, students are encouraged to consult advisors in their respective colleges or schools to determine whether such credit can apply toward their degrees (degree credit). Unless degree credit is applicable, additive credit will be reflected on the transcript.

Students in the School of Education may elect up to four semester hours of work in health and physical education toward the general education requirements of their degrees, provided such work is elected from among courses authorized to award academic credit. Such courses are identified in this Catalog as awarding degree credit.

Any student at UM-Dearborn may elect activity courses for additive credit. Among the classes are Tai Chi, Tae Kwon Do, aerobics, slimnastics, ice skating, volleyball, weight training, weight reduction, dance, stress management, and first aid. These classes may be repeated.

See the Education section of the Catalog for further information and a list of currently available courses.
Bookstore

Located in the University Center, the Barnes & Noble Bookstore has a complete line of textbooks, trade books, and periodicals. The store also has a complete line of supplies, UM and UM-Dearborn souvenirs and sportswear. American Express, Discover, MasterCard and VISA are accepted. Normal bookstore hours: 8:00 am to 6:30 pm (Monday-Thursday); 8:00 am to 4:00 pm on Friday.

NOTE: Special hours are in effect at the start of each semester and during term breaks and holiday periods.

For additional information, telephone (313) 593-5551 or visit the website at whywaitforbooks.com.

Campus Media Services

Campus Media Services (CMS) supports instruction and/or research by providing facilities and expertise in multimedia. These services include studio and remote video production, video streaming, video editing, audio production, Blue Stream conversion, and equipment repair. Most multimedia support for courses is provided without cost to faculty or the academic unit. CMS provides media production facilities and services for student projects. Production services that support course assignments are provided without charge to students. Production support for work that is not related to instruction may be provided for a fee. Costs vary depending on the nature of the production. All service requests should be made 24 hours in advance. Major productions require production proposals. CMS also supports a room with teleconferencing capability. Please call 313-593-5150 for more details.

Campus Safety and Security

The Campus Safety and Security Department provides 24-hour emergency, safety and security services. Services include campus patrol; campus escort service; crime prevention; emergency assistance; health, safety and crime protection programs; crime and health reporting center; lost and found program; key/locksmith and access control services; vehicle lockout and car problem assistance.

DIAL 911. Free on-campus phones are provided in some campus areas and 46 direct-dial emergency phones are strategically placed around campus.

The Campus safety and Security Department is located in the Campus Support Services Building (CSS), telephone 24-hour dispatch: (313) 593-5333; business office: (313) 593-9953.

Web: umd.umich.edu/dept/safety

Career Services

Career Services provides a range of services to assist undergraduates, graduating seniors, and alumni in their career development. Students are encouraged to schedule a career counseling appointment early in their college experience to create a career plan.

Overall services offered include individualized career counseling, job search events, workshops on career planning, and job search topics, job listings, a career resource library, and employer literature.

Specifically for the undergraduates, the Career Services professional staff teaches a one-credit hour course, Career Planning (EXPS 102), guiding students in career development issues, including making decisions on majors, career options and job search strategies. Part-time and summer job listings which may assist students financially while attending UM-Dearborn are listed on our home page. FOCUS, a computerized career planning system, is available for self-assessment and career exploration. The Career Contact and Alumni Network (CCAN) provides an opportunity for students to gather information on specific career paths through interviewing UM-Dearborn alumni.

For seniors and alumni, Career Services offers assistance in the job search process. The following career fairs are held annually on campus to link employers with graduates: a three-day career fair, a liberal arts and sciences job fair, and a technical job fair. Other annual career fairs in which UM-Dearborn participates are also promoted. Campus recruiting provides opportunities for graduating students and recent alumni to interview with recruiters from a variety of organizations. Students and alumni can create on-line resumes and employers post job listings for students and alumni to peruse. Career counselors will provide advice on job search techniques, resumes, and interviewing through video mock interviews.

Students are encouraged to take advantage of these services to assist in the career development process. Career Services is a great place to begin as a new student to the University and to continue to use while at UM-Dearborn. Alumni may also utilize the Career Services programs for individual needs and/or as recruiters.

Career Services is located in 2149 UC, telephone (313) 593-5020. URL: umd.umich.edu/careerservices.

Counseling and Support Services

2157 University Center
Phone: (313) 593-5430
Fax: (313) 593-3263
Email: counseling@umd.umich.edu
Website: umd.umich.edu/support

The mission of Counseling and Support Services (C&SS) is to assist students with their personal and academic concerns by providing counseling and support services. Our services advance the academic mission of the university by facilitating personal development, self-awareness, problem-solving and communication. Services we provide:

- Personal Counseling
- Career Assessment Testing
- Disability Resource
- Student Health Insurance
- Housing Referral
- Health Referral Services

PERSONAL COUNSELING
We provide short-term therapy (up to 12 sessions per academic year) to all registered UM-Dearborn students. Our counseling is provided by licensed psychologists and there is no fee involved. Please note however that we do not prescribe medication but will give you a referral if needed. Counseling begins with an assessment of your concerns and leads to a recommendation which may include individual counseling, couples counseling, group counseling, or referral to a specialist.
CAREER ASSESSMENT SERVICES
This testing is for students who are undecided or wanting to change their majors and/or career plans and would like some assistance. Students may be administered the following career assessments: Career Occupational Preference Survey (COPS), Myer’s Briggs Type Indicator (MBTI), and Strong Interest Inventory. These assessments are used to provide students with feedback on work and career preferences that match their interests, values, and personality type.

DISABILITY RESOURCE SERVICES
Disability Resource Services (DRS) is responsible for facilitating UM-DEARBORN’s compliance with the Americans with Disabilities Act (ADA) and other federal and state laws designed to remove barriers that may impede the progress of individuals with disabilities. In order to be eligible for classroom accommodations, a student must register with DRS and provide the necessary disability/medical documentation. DRS will then determine “reasonable accommodations” for that individual student and will assist in providing those academic accommodations. Some of the accommodations provided are: (1) early registration; (2) extended time on exams; (3) tutorial referrals; (4) reader/interpreter for exams; (5) note-taker; and (6) referral for auxiliary services such as interpreters for the deaf and the scanning of texts for the blind and differently-abled. Students should register for DRS through C&SS before the second week of the classes.

STUDENT HEALTH INSURANCE
A University of Michigan student health insurance plan is available to any enrolled UM student and their eligible dependents. Information and application forms are available at C&SS or online at aetnastudenthealth.com (for domestic students only, all international students/scholars must register with C&SS). It is recommended that all students have health insurance coverage. All international students are required to have such coverage.

HEALTH REFERRAL SERVICES
Students whom are not feeling well while they are on campus can get a medical referral to see a doctor at Henry Ford Medical Center-Fairlane. Same day appointments are available, student are required to get authorization from C&SS and pay a $7 co-pay.

HOUSING AND MEDICAL REFERRAL SERVICE
The housing referral service is available to all students in search of an apartment, house, room or roommate. We are located in C&SS, 2157 UC. Interested individuals should contact C&SS or register with housing online at umd.umich.edu/support/housing. The following are a few of the services available:

- Dearborn area rental listings/Landlord Properties
- Apartment brochures/flyers
- Roommate List
- City maps
- A guide to your rights & responsibilities as a tenant
- Property Insurance Applications
- Telephone access to contact local landlords & apartment units
- Computer access to attain driving directions/bus schedules

Food Services

McKINLEY CAFÉ
The University Center features a variety of fast food services including: Bene Pizzeria (pasta & pizza), Express (pre-made sandwiches, sushi and salads), Grille Works (burgers, fries and hot sandwiches) Java City (hot beverages), and Subway.

EXTREME PITA
Fairlane Center South houses Extreme Pita offering fresh, made to order pitas and flat pita crust pizza’s.

Current information on food services and hours can be obtained by consulting umd.umich.edu/universitycenter/.

REFRESHMENTS
Beverage and snack vending machines are located throughout campus for convenience to the campus community.

Information Technology Services

General Purpose Labs: 1140 CW, (313) 593-5073
1070 ML (Campus dialing only: x54992)
Help Desk: (313) 593-HELP (4357) or helpdesk@umd.umich.edu
Internet Address: its.umich.edu

Information Technology Services (ITS) supports the computing needs of faculty, staff and students. The department has responsibility for: 1) the campus network, including Internet access; 2) computer labs in the CW and Library; 3) computer access accounts; 4) email and webmail services; 5) Help Desk support; and 6) the Banner student information system.

FACILITIES
The primary computing support facilities are two general purpose computer labs located in the Computing Wing (CW) of the Science Building and in the Mardigian Library (ML). Together, they contain over 130 64-bit processor computers, running Windows XP. Adjacent to the Library lab is the Adaptive Learning Lab, with comparable equipment. In addition to the standard software products, it runs a voice synthesis package that allows visually impaired students to run standard application programs on the computer. Additional departmental computer labs are also operated by individual schools and colleges across campus.

SOFTWARE
ITS offers a wide variety of software in the labs it supports, including communications, databases, word processing, spreadsheets, and artificial intelligence. Specialized software is also available, including Visual Studio, SPSS, SAS, Minitab, and Mathematica. The lab also provides instructional software required for some classes.

In addition, the University of Michigan has established a licensing agreement with Microsoft that provides students with excellent discounts on some of their products. ITS offers Windows 7, Office 2007, and Visual Studio 2008 for sale in the Computing Wing on Fridays.

COMPUTER ACCOUNTS
The ITS Accounts Office assigns user ID’s and passwords for all university network systems. They process requests for several types of computer access, and assist with questions and problems with these types of computer access logins. These include Uniqnames, Kerberos and Dearborn passwords, lab access, and access to your home directory. The Accounts Office can also provide information on UM-DEARBORN’s Webmail service, which allows you to more directly access and manage your mail from off campus.
ASSISTANCE AND SERVICES
The ITS Help Desk is the primary point of contact for support. Please call or email the Help Desk when you need assistance, service, documentation and information regarding the campus network, software, hardware and services. Many questions can be answered immediately on the phone. An automated ticket system is also used to keep track of each request that is received and the service that is provided. Both general purpose computer labs are staffed with student assistants who can provide answers to most questions or refer you to someone who can. Equipment problems and malfunctions in the labs should be immediately reported to the lab Counselor on duty so that the amount of downtime experienced is minimized.

HOURS
During the Fall and Winter semesters, the computing labs normally follow the schedule below. Holiday hours and other hour changes are posted on the ITS web site and in the computer labs. CW lab hours are 8:00 am until 9:45 pm, Monday through Thursday; 8:00 am to 5:45 pm on Friday; 12:00 noon until 4:45 pm on Saturday; and 12:00 noon until 8:45 pm on Sunday. ML lab hours are 10:00 am until 10:45 pm, Monday through Thursday; 10:00 am to 5:45 pm on Friday; 12:00 noon until 5:45 pm on Saturday; and 1:00 pm until 9:45 pm on Sunday.

Institutional Equity Officer
The Institutional Equity Officer (IEO) helps to ensure that the campus promotes equal opportunity for all students, faculty, and staff, including racial, ethnic, and religious minorities, women, the disabled, senior citizens, veterans, and gay, lesbian and transgender individuals. The IEO oversees compliance with Regental by-laws, Presidential policy and legislation regarding nondiscrimination, equal opportunity, and /affirmative action and provides information and pre-grievance counseling to faculty, staff, and students with questions or complaints. The office of the OIE is located in 1020 Administration Building, telephone (313) 593-5190.

International Affairs
Office of International Affairs
4901 Evergreen Road
2174 University Center
Dearborn MI 48128
Telephone: 313-583-6600
Fax: 313-583-6725
Email: international@umd.umich.edu
Web-address: umd.umich.edu/internationaloffice/

MISSION
UM-Dearborn is embedded in a diverse community located in the Detroit metropolitan region. The university’s students, faculty and staff are as diverse as the community in which it resides. The mission of the Office of International Affairs (OIA) is to provide support, resources and experiential learning opportunities to students and scholars that will impact the metropolitan region and the global community.

SERVICES
The Office of International Affairs welcomes and has the commitment to provide support services to international and domestic students, faculty and visiting scholars at the University of Michigan-Dearborn. Our campus community is dedicated to providing quality services addressing the following:
- Processing DS-2019 and/or I-20
- Admission Process
- Student Success Assistance
- Faculty Exchange
- Employment
- Community Engagement
- English Language Program
- Overseas Traveling
- Health Insurance – domestic and international
- Housing Referrals
- Homeland Security Compliance Advising
- Cross-cultural programs and workshops
- Emergency Assistance

Potential students are afforded assistance to ensure a seamless admissions process. Assistance begins once prospective students express an interest in the university and continues throughout their academic tenure. The OIA provides information to international students and scholars about maintaining F-1 and J-1 status. They are encouraged to explore and integrate within the local and metropolitan communities while being challenged with the rigor of the university’s academic process. The Student Success Center offers diverse academic, personal and professional support through blended services that are designed to complement and support the educational track.

As we prepare our students to achieve the “Degree That Makes the Difference,” we encourage and support our students to participate in study abroad, global civic engagement projects and international internships. These opportunities help provide practical applications to what our students are learning within their academic programs. UM-Dearborn offers faculty led study abroad opportunities and assistance to students that participate in non-UM-Dearborn programs.

OIA works with the academic units to explore and support faculty exchange opportunities. Currently, the University of Michigan-Dearborn works with colleges and universities in over 10 countries where faculty, students and resources are shared and rich friendships are discovered. The University of Michigan-Dearborn welcomes worldwide intellectual dialogue and exchanges that provide our students with a diverse global perspective and that challenges and prepares them for the Twenty-First Century and beyond.

Mardigian Library
The Mardigian Library offers a student-centered environment that fosters learning by providing access to authoritative sources of knowledge and information, and by helping students learn critical information literacy skills and concepts. The library provides Web-based access (library.umd.umich.edu) to a multitude of research resources, including over 20,000 online journals, over 250 online research databases, and over 450,000 online books. The four-story Mardigian Library houses a 365,000-volume collection and offers space for 1,200 students. Twenty-two public workstations on the main floor provide access to all online resources, most of which are also accessible from off campus. The library also operates a small media area on the main floor where students may view DVD’s, videos, compact discs, audiocassettes, and slide/tape programs.

Two floors are available for silent study and one floor is for group study. Facilities housed in the Mardigian Library include a coffee shop, computer lab, and distance learning classroom on the first floor, the Alfred Berkowitz Gallery, the Voice-Vision Holocaust Survival Oral History Archive, and the University Archive.
Students may borrow materials from the library’s collection. Items not owned by the library may be requested from other libraries through the Interlibrary Loan Department or from MeLCat, a statewide resource-sharing service of over 400 public and academic libraries. Currently enrolled UM-Dearborn students are eligible to borrow materials directly from most of the libraries in the UM-Ann Arbor University Library system. Additional information regarding this service may be obtained from University Library Circulation Services at the Harlan Hatcher Graduate Library (734) 764-0401.

Librarians at the Mardigian Library are committed to teaching students the skills and concepts that are necessary to develop effective search strategies for research assignments, and to use library and information resources effectively. During the Fall and Winter terms, librarians offer over 80 hours per week of regular drop-in research assistance. Other research assistance includes “Ask-A-Question” (e-mail), Instant Messaging (IM), text messaging, and scheduling one-on-one appointments with librarians for in-depth assistance. Students may also attend scheduled group research education sessions as part of their classes. Occasional open research education workshops are offered as well.

Guides to the use of the library and its resources are available on the library’s Web site as well as the library’s hours of operation. The library is open 95 hours per week during the Fall and Winter terms.

**Ombuds Services**

Ombuds Services provides students of the campus community with individual, informal assistance in resolving concerns and addressing issues regarding students’ rights and responsibilities. Ombuds Services is an impartial resource for obtaining:

- Information about university policies;
- Guidance in following university procedures;
- Assistance in resolving concerns and critical situations;
- Help in cutting red tape and in obtaining appropriate and timely answers and information;
- Opportunities to discuss or question university actions;
- Active support for UM-D’s commitment to ensure that students are treated with fundamental fairness and personal dignity.

Ombuds Services is located in 2106 University Center, telephone (313) 593-5440, e-mail ombuds-office@umd.umich.edu.

**Parking**

Parking of all motor vehicles at UM-Dearborn is by permit only. Parking for students, faculty and staff is allowed in designated permit lots only when vehicles are properly registered and display the appropriate parking decal. Student parking permits are available at the Parking Office and the University Center Information Desk. If you would like a permit mailed to you, apply online at parking@umd.umich.edu. Send your name, address and UMID number and a sticker will be sent to you. Parking for all visitors is provided in the parking structure. For further information, refer to the University of Michigan-Dearborn Parking Manual or call the Parking Office at (313) 593-5480.

**Student Activities**

The mission of the Student Activities Office (SAO) is to complement the academic program of studies at the UM-Dearborn and enhance the overall educational experience of students through development of, exposure to, and participation in diverse social, cultural, multicultural, intellectual, recreational, leadership, governance, group development and community service programs.

The Student Activities Office (SAO) is one of the main gateways for involving students here at the University. The Student Activities Office serves as an advocate and catalyst for improving the overall quality of a student’s college experience. Through a wide range of campus programming focused on civic engagement, leadership and multiculturalism the SAO provides students the opportunity to develop critical values, grow and practice their skills, and engage with the campus and community. The SAO offers many co-curricular programs, including the Blueprints Leadership Program, A Conversation on Race, the Multicultural Immersion Program, and U-Lead. Other traditions are Homecoming, Welcome Week, A Day in the Life Photo Contest, Midnight Madness, and monthly community service projects.

Additionally, the SAO is home to 125 recognized student organizations, including 11 fraternities and sororities, honor and academic organizations, religious, political, special interest organizations and many, many more. Through student organizations, students can build lifelong friendships, take on leadership roles, and investigate personal and professional interests. In addition, there are 10 University Sponsored Organizations on the campus. These student managed organizations are funded annually through the Student Activities Office, have designated office space on the second floor of the University Center and are open to all students. These organizations fulfill a critical mission of student life and give students valuable outlets to develop more advanced leadership responsibilities or specific skills and talents through experience. These organizations include – Campus Video Network, the Lyceum (literary arts journal), Greek Leadership Council, The Michigan Journal (student newspaper), Student Activities Board, Student Government, Student Organization Advisory Council, Volunteer Dearborn, Wolf Pack (athletic booster organization), and WUMD (campus radio).

The Student Activities Office is located at 2136 University Center, telephone (313) 593-5390. They can also be reached at student_activities@umd.umich.edu or through their website: http://sao.umd.umich.edu.

**Student Success Center**

The mission of the Student Success Center is to prepare and educate students to succeed. Students are encouraged to stop by the Student Success Center whenever they need help. The SSC can help students manage and succeed academically, personally, and professionally.

The Student Success Center offers counseling, training, workshops, and resources to help students achieve success today and tomorrow. Whether it's tutoring in math, learning to set goals, finding the right career path, or making good choices, our Student Success Center helps students gain the confidence needed to reach their full potential.

A large range of services in Academic Assistance, Career Planning, Counseling and Disability Services, Personal Development, Women’s Services, International Services, and Veteran’s Services are offered by the Student Success Center. Overall services offered include:

- individual tutoring
- group study
menrating
writing assistance
supplemental instruction for classes
study skills assessment & training
exploring majors
career planning
career assessment
interview training
resume writing
individual counseling
procrastination assistance
stress & time management
test & math anxiety assistance
disability services
motivational interviewing
goal setting
self-advocacy
work/life balance
returning student support,
personal safety
English language assistance
health insurance
housing referrals
homeland security compliance advising
emergency assistance

Workshops/Seminars are also available in essay writing, test taking, note taking, overcoming math anxiety, goal setting, interviewing techniques, and how to study effectively. Students are referred to the College Writing Center, Math Learning Center, and Student Clubs & Organizations.

The Student Success Center (SSC) is a coalition of the following Enrollment Management & Student Life (EMSL) departments: Academic Assistance; Career Services; Counseling & Support Services, Office of International Affairs, and the Women’s Resource Center.

The Student Success Center is located on the second Floor of the University Center. Telephone: 313-583-6776. Website: umd.umich.edu/success.

Transportation

Access to the campus is available on bus routes operated by the Suburban Mobility Authority for Regional Transportation (SMART). Connecting service is available on routes operated by the Detroit Department of Transportation (DOT).

Direct service is available for most Detroit and western Wayne County residents, with transfer service available for Oakland and Macomb County commuters. The bus schedule may change without notice. Additional information may be obtained by telephoning SMART at (313) 962-5515.

Women's Resource Center

The Women’s Resource Center (WRC), located in 2106 University Center, offers assistance with self-advocacy, work/life balance, returning student support, and personal safety through programming and individual appointments. The overall mission of the center is to increase the empowerment of all women by offering quality programs; providing personal, professional, and academic coaching; encouraging students to reach their academic and post-graduate goals; linking women to current campus and community resources; and partnering with academic units and other women’s agencies to address gender and diversity issues.

In support of its mission the WRC provides quality programming and activities, extensive resources, a meeting place, volunteer opportunities and a commitment to collaborations. Visitors will find a variety of written materials for their use. A lending library offers books and magazines on issues of interest to women. A resource shelf offers pamphlets on diverse topics including scholarships, childcare, and domestic violence. An on-line resource guide contains community resources and referrals. The WRC’s Critical Difference Fund provides small, emergency grants for students. These one-time grants, typically between $50 and $150, are meant to address serious unanticipated emergencies that could delay or halt the education of students. Grants may not be used for tuition.

For more information about these services and programs contact the Women’s Resource Center at 313-583-6445 or WomensResourceCenter@umd.umich.edu or visit the WRC website at umd.umich.edu/womenscenter/.

Statement on Academic Integrity

The University of Michigan-Dearborn values academic honesty and integrity. Each student has a responsibility to understand, accept, and comply with the University’s standards of academic conduct as set forth by the Code of Academic Conduct, as well as policies established by the schools and colleges. Cheating, collusion, misconduct, fabrication, and plagiarism are considered serious offenses. Violations will not be tolerated and may result in penalties up to and including expulsion from the University.

Student Rights And Responsibilities

The University of Michigan-Dearborn is composed of a diverse group of individuals and interests, drawn together by a common belief in the values of an education and appreciation for the significant contribution of our personal differences to that education and each other. Maintaining an environment that ensures harmony and a positive learning environment is a responsibility shared by all members of the campus community. The following information identifies behavior expectations in support of fulfilling these responsibilities and the means by which complaints may be resolved. Any member of the campus community who believes that a violation of any of these rights and responsibilities has occurred may obtain assistance in seeking redress from Ombuds Services or the Affirmative Action Coordinator.

For information regarding student academic conduct policies and procedures, see sections on Arts, Sciences, and Letters; Education; Engineering; and Management.

Student Records and Student Rights

In carrying out their assigned responsibilities, many offices at the University of Michigan collect and maintain information about students. Although these records belong to the University, both University policy and federal law accord you a number of rights concerning these records. The following is designed to
inform you concerning where records about you may be kept and maintained, what kinds of information are in those records, the conditions under which you or anyone else may have access to information in those records, and what action to take if you believe that the information in your record is inaccurate or that your rights have been compromised.

Because the University does not maintain all student records in one location, the following contains general information related to student records. By direction of the Regents, however, each office that maintains student records is required to develop a written statement of its policies and procedures for handling those records. For more information about FERPA, visit the University of Michigan Office of the General Counsel's web page at: umich.edu/~vpge/faq_student.html.

STUDENT RECORDS LOCATION

If you are in any school or college except Rackham, your dean’s office or your academic advisor has information concerning your academic progress: admissions application, test scores, letters of recommendation, copy of academic record, notes (if any) made by academic counselors, information about honors awarded and/or academic discipline imposed, and similar items.

Only two offices have records on all students. The Office of Registration & Records maintains information pertaining to your enrollment (registration) and your official academic record. The Student Accounts Office maintains information about charges assessed and payments made to your account.

The other offices listed at the end of this document will usually have information about you only if you have had dealings with them or utilized their services.

STUDENT RIGHTS

Once you attend, you have the following rights concerning your student records:

1. The right to inspect and review all material in your file(s) except:
   a. Professional mental health treatment records to the extent necessary, in the judgment of the attending physician or professional counselor, to avoid detrimental effects to the mental health of the student or of others. These records may, however, be reviewed by a physician or other appropriate professional of your choice.
   b. Financial information furnished by your parents in support of an application for financial aid.
   c. Confidential letters of recommendation that were placed in your file prior to January 1, 1975.
   d. Confidential letters of recommendation concerning admission, employment, or honorary recognition, for which you have waived access. (The University may not require you to sign a waiver in order to obtain services, but a person writing a recommendation may insist on a waiver as a condition for his or her writing it.)
   e. Personal notes made by a faculty member or counselor that are accessible only to that person and are not shared with others.
   f. Materials in any admissions files, until you have been admitted to, and have attended in the U-M school or college for which the materials were submitted.

Most offices will require you to file a written request if you wish to review your records. Sometimes the response will be immediate, but in most instances you should expect to wait several days; in no case, however, may the response be delayed more than 45 days from the date of your request. Also, once you have submitted such a request, no non-exempt material may be removed from the file in question until the matter is resolved.

NOTE: Federal law requires that an institution make copies of materials available to a student only if the failure to do so effectively prevents the student from reviewing his or her file (for example, if you were at some distance from the campus and could not readily come to the campus). Most offices at the University, however, will provide copies if you need them. You will probably have to wait several days for the copies and you will be charged not more than fifteen cents per page plus any postage involved. In certain instances, you may be directed to obtain copies from the office responsible for maintaining a particular record. For example, most offices will not copy transcripts (whether from U-M or another institution you have attended) that are in their files; rather, you will be advised to obtain them directly from the Office of Registration & Records here or at your former school.

2. The right to a hearing if you feel that (a) you have been improperly denied access to your records, (b) your records contain information that is inaccurate or misleading, or (c) information from your records has been improperly released to third parties. Each record-keeping office has a procedure for this purpose. The use of that procedure will result in one of the following:
   a. If the head of the office involved agrees with your contention, he or she will see to it that the necessary corrective action is taken.
   b. If the head of the office does not agree with your contention, you may request a hearing by a hearing panel or hearing officer designated by the unit’s procedures.
   c. If the decision of the hearing panel or hearing officer agrees with you, the necessary corrective action will be taken.
   d. If the decision disagrees with you, you have the right to submit an explanatory statement, which must be included as a permanent part of your record.

3. The right, in most instances, to control access to information in your records by persons or agencies outside the University. Within the University, information from your records will be made available to those staff members who demonstrate a legitimate educational interest consistent with their official functions for the University and consistent with normal professional and legal practices.
   a. Except for directory information (see d below), however, persons outside the University - including your parents and/or spouse - will be given information from your records only (1) when you authorize it in writing, or (2) in connection with your application for or receipt of financial aid, or (3) in connection with studies conducted for the purpose of accreditation, development and validation of predictive tests, administration of student aid programs, or improvement of instruction, or (4) when disclosure is required in a health or safety emergency or by federal or state law or by subpoena. If information from your record is subpoenaed, you will be notified as quickly as possible. In addition, the results of a disciplinary hearing conducted by the institution against the alleged perpetrator of a crime of violence will be made available to the alleged victim of that crime.
   b. Each office is required to keep a record of all requests for non-directory information from your records made by persons outside the University, and to make that record available for you to examine.
c. Federal law requires that the University designate what it regards as directory information and which may, therefore, be released to those outside the University without specific authorization. The law also requires that each currently enrolled student be given the opportunity to direct that items designated as directory information not be released without his or her consent.

d. The University of Michigan-Dearborn has designated the following items as directory information: (1) name, (2) permanent and local address and telephone, (3) U-M school or college, (4) class level, (5) major field, (6) dates of attendance at the University of Michigan, (7) degree received and date awarded, (8) honors and awards received, (9) participation in recognized activities, (10) previous school(s) attended, and (11) height and weight of members of intercollegiate athletic teams.

e. You have the right to direct that directory information about you not be released, however, you should carefully consider the consequences of that action before making the decision to do so. Information is not withheld selectively. If you choose to have directory information withheld, it is withheld from everybody who inquires.

f. If you wish the University not to release those items designated as directory information, you must file a written request to that effect with the Office of Registration & Records not later than ten (10) days from the beginning of the term for which the restriction is to begin. If you elect to have the University not release this information, all items designated as directory information will be withheld.

4. The right to file a complaint to federal officials if you feel that there has been a violation of the rights afforded you under the Family Educational Rights and Privacy Act of 1974. The complaint must be submitted in writing within 180 days of the alleged violation to:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, D.C. 20202-4605
Telephone (202) 260-3887
TDD (800) 877-8339

Questions about the policies and procedures of any unit should be directed to the head of that unit. Questions about the University's "Policies on Student Records" or about the Family Educational Rights and Privacy Act of 1974 should be directed to:

Statement of Student Rights and Code of Student Conduct

The following are excerpts from the "University of Michigan-Dearborn Statement of Student Rights and Code of Student Conduct." Complete copies of the Code are available in the Office of Student Affairs, 1060 Administration Building.

SECTION 1. INTRODUCTION

The primary purpose of the Statement of Students Rights and Code of Student Conduct is to assist the University of Michigan-Dearborn (hereinafter in this document called the University) in providing an environment that supports the educational process and well-being of the campus community. The responsibility for maintaining such an environment is shared by all members of the campus community.

Student rights and student conduct are defined in this Statement and Code in order to give general notice of conduct expectations, to identify sanctions which shall be imposed when misconduct occurs, and to ensure that students are treated with fundamental fairness and personal dignity. Disciplinary proceedings initiated in response to a charge of violation will be the responsibility of the Code Judicial System and will be undertaken according to the provisions and procedures articulated by the Code. The focus of inquiry in disciplinary proceedings will be on the question of guilt or innocence of those charged with violating the Code.

The Statement and Code is an articulation of the University's commitment to recognize and support the rights of its students and to provide a guide for defining behaviors the University considers inappropriate. It is not, however, meant to be an exhaustive list of all rights supported by the University or of all actions that may be considered misconduct.

Members of the University community are accountable to both civil authorities and to the University for acts which violate the law and this Code. Disciplinary action at the University will, normally, proceed during the pendency of external civil or criminal proceedings and will not be subject to challenge on the grounds that external civil or criminal charges involving the same incident are pending or have been invoked, dismissed or reduced.

The discontinuance of enrollment of a student does not negate the jurisdiction of this Code, which shall remain applicable with respect to matters that arose when the person was a student. Adjudication of alleged violations of the Code by a University employee will be handled, via the Code Judicial System, by the appropriate University resources.

The UM-Dearborn Statement of Student Rights and Code of Student Conduct was written by students, faculty, and staff of the UM-Dearborn.
SECTION 2. STUDENT RIGHTS

In recognition of students' rights and dignity as members of the University community, the University of Michigan-Dearborn is committed to supporting the following principles and to protecting those rights guaranteed by the Constitution, the laws of the United States and the State of Michigan, and the policies adopted by the Board of Regents.

1. Students have the right to free inquiry, expression, and association.
2. Students have the right to editorial freedom in student publications and the student media.
3. Students have the right to representation on the appropriate, designated University decisionary bodies.
4. Students accused of misconduct or of violating University policy have the right to have their guilt or innocence determined in accord with University procedures.
5. Students have the right to protection against improper disclosure of their student record as provided for in the Family Educational Rights and Privacy Act.
6. Students have the right of access to their personal records and other University files as provided for under the Family Educational Rights and Privacy Act and the Michigan Freedom of Information Act.
7. Students have the right to access all policies, rules, and decisions concerning their continued enrollment, and to those course materials and facilities necessary to pursue their studies.
8. Students have the right to educational programs that meet the objectives of the discipline, to teaching consistent with those objectives, and to a learning environment that encourages the students' active participation.
9. Students have the right to be informed by the faculty at the beginning of each term about course requirements, evaluation procedures, and evaluation criteria to be used, and the right to expect that those criteria be employed.
10. Students have the right to take reasoned exception to the data or views offered in any course of study; they are, however, responsible for learning the content of any course of study for which they are enrolled.
11. Students have the right to be evaluated solely on relevant academic criteria and to have protection against prejudicial or capricious academic evaluation.
12. Students have the right to request and receive timely assessment of their academic work.
13. Students have the right to request and receive a reasoned, impartial, and timely review of their grades.
14. Students have the right of redress if their rights have been violated.

SECTION 3. STUDENT CONDUCT

Students are expected to conduct themselves in a manner conducive to an environment of academic integrity and of respect for the educational process and the safety and well-being of all members of the campus community. The actions cited as prohibited conduct should be used as a guide rather than an exhaustive list of behaviors the University considers misconduct and subject to disciplinary action.

Prohibited Academic Conduct

The following actions shall be considered academic misconduct and be subject to disciplinary action:

1. Furnishing false information to the University pertaining to one's own or to others' academic work, activities, records or status or initiating, or causing to be initiated, any false report pertaining to one's own or to others' academic work, activities, records or status (Falsification of Records or Official Documents).
2. Possessing, using, or distributing and altering or destroying any materials or information for the purpose of dishonestly affecting one's own or others' academic work, grades or student status (Cheating).
3. Aiding or abetting another in obtaining, using or distributing any materials or information for the purpose of dishonestly affecting one's own or others' academic work, grades, or student status (Aiding and Abetting Dishonesty).
4. Submitting as one's own any work which, in part or whole, is not entirely one's own work without properly attributing it to its correct source (Plagiarism).
5. Presenting data that were not gathered, or are not accounted for, in accordance with the appropriate methods for collecting and generating data (fabrication).
6. Interfering with the academic work or study of other members of the University community. This includes, but is not limited to, alteration, destruction, and denial of access to learning materials.
7. Failing to comply with additional specific criteria for academic conduct communicated by the instructor to his/her class regarding assignments, tests, and/or exams.
8. Violating, or aiding and abetting the violation of, any published University academic policy, regulation, or procedure.
9. Attempting to commit, or assisting another in attempting to commit, any act prohibited by Section 3.A. of this Code.
10. Violating the terms of any disciplinary sanction imposed in accordance with Section 3.C. of this Code.

Prohibited Non-Academic Conduct

The following actions shall be considered non-academic misconduct and be subject to disciplinary action:

1. Causing or threatening to cause harm to any person on University premises or at University-sponsored activities and events.
2. Hazing, i.e., action taken or situation created for the purpose of initiation of affiliation with any University organization or team, with or without the consent of the individual, which jeopardizes the physical or mental well-being of the individual. Hazing includes: physical injury, assault, or battery; kidnapping or imprisonment; forced consumption of any liquid or solid; mandatory personal servitude; interference with academic endeavors.
3. Interfering with normal University or University-sponsored activities. This includes but is not limited to studying, teaching, research, University administration, or campus safety, fire, police, or emergency services.
4. Interfering with the freedom of expression or rights of individuals on the University premises or at University-sponsored activities.
5. Harassment, i.e., physical force or violence or behavior, including stalking, that involves a deliberate interference or a deliberate threat to interfere with an individual's personal safety, academic efforts, employment, or participation in University-sponsored activities and causes the person to have a reasonable apprehension that such harm is about to occur. Students may not use threats concerning the terms or conditions of an individual's education, employment, housing, or participation in a University activity as a way to gain sex and/or sexual favors.
6. Furnishing false information to the University.
Sanctions

The sanctions to be imposed should be commensurate with the offending conduct. Because education may be the most effective and appropriate means of addressing behavior that violates the standards of a university community, the University encourages fashioning sanctions to include an educational element that may help students understand their behavior in the context of the academic community. Although it is inappropriate for the University to try to change student's convictions, it is appropriate for the University to ask a student to change behavior. Sanctions should, therefore, be designed which may deter behaviors that harm, intimidate, harass, or threaten others.

Factors that may be considered in determining the nature of sanctions to be imposed for Code violation include the intent of the respondent, the effect of the conduct on the victim and the University community, presence or absence of violations of the Code on the part of the student, the presence or absence of past violations of the standards on the part of the student, and the appropriateness of sanctions such as community service.

Regrettably, some conduct is so harmful to members of the University community or deleterious to the educational process that more severe sanctions may be required. Severe sanctions, such as suspension or expulsion, should be imposed only when the offending behavior involves violent or dangerous acts, acts that disrupt the educational process and/or when there has been willful failure to comply with a lesser sanction. The Chair of the Conduct Board shall consult with the Dean of the School/College in which the student is enrolled before expulsion or suspension is imposed.

The range of potential sanctions is as follows:

1. Suspension from Specific Course or Activity. The student is removed from a specific course or activity, or is moved to a different section of the course.
2. Class Attendance. The student enrolls in and completes a class that may help improve his/her understanding of why the conduct engaged in is inappropriate.
3. Community Service. The student performs an appropriate amount of service that is both beneficial to the community and likely to assist the student in understanding the harm caused by his or her conduct.
4. Disciplinary Reprimand. The student receives a formal reprimand for violating the standards of behavior and a warning that future violations may result in more severe disciplinary action. The student does not lose his/her University privileges.
5. Disciplinary Probation. During the probation period, the student may not represent the University in any way. This includes, but is not limited to, engaging in any extracurricular activity, running for or holding office in any student group or organization, and serving on any University committees. The appropriate University units shall be notified of the student's probationary status.
6. Suspension in Abeyance. The student remains enrolled. However, any violation of the conduct regulations during the period of Suspension in Abeyance will, after a determination of guilt, result in automatic suspension.
7. Suspension. The student is temporarily separated from the University for a specified period of time. Conditions may be stipulated for the readmission of a student. When a student is suspended during a term, he/she is not exempted from the payment of tuition for that term.
8. Expulsion. The student is permanently separated from the University. Penalty shall consist of the student being barred from the premises of the University. When a student is expelled during a term, he/she is not exempted from the payment of tuition for that term.
9. Restitution. The student makes payment to the University for damages incurred by the University as a result of his/her violation.
10. Other Disciplinary Actions. In addition to or in place of the above sanctions, the student may be subject to other penalties commensurate with the offending conduct. This may include but is not limited to degree and/or transcript actions, such as recession of a degree, withholding of course credit, loss of credit for an assignment/exam, assignment of additional work, loss of special privileges, behavioral counseling, or a behavioral contract.
11. Combined Sanctions. A combination of the sanctions described above may be imposed.

The sanctions imposed under these standards do not diminish or replace the penalties that may be invoked under generally applicable civil or criminal laws. Students are reminded that many violations of the standards, including harassment and other discriminatory behavior, may violate various local, state and federal laws and, therefore, also be subject to legal action.

JUDICIAL SYSTEM

The University of Michigan-Dearborn judicial system shall provide a uniform, fair, and impartial process for the reporting, adjudicating, and resolving of alleged violations of the University of Michigan-Dearborn Statement of Student Rights and Code of Student Conduct. Copies of this document, which describes procedures for reporting and responding to incidents of alleged misconduct, are available in the Office of Enrollment Management and Student Life, 1060 Administration Building.
College of Arts, Sciences, and Letters

Administration

Jerold L. Hale, PhD, Dean
Marilee Benore, PhD, Associate Dean
Jennifer Zhao, PhD, Associate Dean
Robin L. Wagner, MBA, Financial Manager

General Information

Arts, Sciences, and Letters the Liberal Arts College at the University of Michigan-Dearborn

The College of Arts, Sciences, and Letters (CASL) is the liberal arts college at UM-Dearborn. Following the long-standing University of Michigan tradition of sound liberal arts education, the College emphasizes breadth and depth of learning. The programs of the College are designed to prepare students who can communicate clearly, reason and make critical judgments, distinguish facts from values, and understand their cultural and artistic heritage. Individuals who are educated in this manner will
be able to adapt successfully not only to their first jobs but also to a rapidly changing world. With a sound liberal arts education, they will be equipped to give society leadership and vision.

With a full-time faculty of over 150, the College offers 33 liberal arts degree programs and over 1000 courses to its 3,600+ undergraduates, who represent nearly half of the total student enrollment at UM-Dearborn. In addition, the College provides the liberal arts foundation for all degree programs on campus and is the academic unit on campus that reflects in itself the diversity essential to and inherent in a modern comprehensive university. The College is the largest academic unit at UM-Dearborn and the third largest of all academic units on the three campuses of the University of Michigan.

History of the College

From the beginning of the Dearborn Center of the University of Michigan, as it was first called, there was "an intent to provide a full schedule of daytime courses in Engineering, Business Administration, and the Liberal Arts and Sciences" (Report by the University's Dean of Statewide Education, January 1957). On January 10, 1958, the Regents approved the creation of the Division of Literature, Science, and the Arts (LSA) as an official academic division. Full programs in the liberal arts began in Fall, 1960; and in Fall, 1965, the LSA Division became the largest academic unit on the Dearborn Campus, a distinction which continues to the present.

When it became a four-year undergraduate institution in 1971, the Campus was designated the University of Michigan-Dearborn (UM-Dearborn). Two years later, the Regents approved a new set of UM-Dearborn Bylaws, in which the Department of Education became a separate division, and the LSA Division became the College of Arts, Sciences, and Letters (CASL), administered by a Dean. Since then, CASL has evolved to comprise six multidisciplinary departments: Behavioral Sciences; Mathematics and Statistics; Language, Culture and Communication; Literature, Philosophy and the Arts; Natural Sciences; and Social Sciences.

Mission of the College

As was true in Paris and Bologna in the fourteenth century and as is true in Cambridge, Ann Arbor, and Dearborn in the twenty-first, liberal arts colleges are the sine qua non of universities. The pre-eminence of the College of Literature, Science, and the Arts at Ann Arbor is mirrored in the status of the College of Arts, Sciences, and Letters at Dearborn. The reason for this pre-eminence of liberal arts colleges is not difficult to ascertain. Together, they share an ideal, a goal: the cultivation of students' intellectual abilities, the refining of their sensibilities, and the enlargement and deepening of their awareness and knowledge.

CASL is the intellectual core of the campus. In the College, a distinguished faculty of teacher-scholars aims to cultivate the intellectual abilities of a diverse and talented student body and to enlarge, refine, and deepen their awareness and knowledge. Through traditional degrees and such distinctive programs as cooperative education, undergraduate research and interdisciplinary honors, the College emphasizes both the practical and the intellectual side of the liberal arts. In collaboration with the professional schools, it prepares students for the professions while helping them toward an understanding of human values and ethics. In partnership with the broader academic community, its faculty contribute significantly to the creation, application, and dissemination of knowledge. In addition, it provides significant service to the University and the wider community.

In mathematics and the natural sciences, emphasis is placed on rational, analytical, conceptual thinking and on mastery of precise methods of inquiry, especially experimentation, that produces results that may be replicated.

In the humanities, methodology is equally important, but it is less exclusively rational, because the study of art, literature, and music depends on the manner – partly emotional, partly imaginative – in which these are experienced.

The social and behavioral sciences offer a political, social, economic, psychological, and cultural storehouse from which students can draw in order to understand the past, cope with the present, and design the future.

In CASL, emphasis is not placed exclusively on specific preparation for a narrow career track, but rather on providing a broad-based liberal arts background which offers an ethical and moral foundation from which graduates may grow. Basic core knowledge will aid graduates in their vocational career choices, but facts in many occupations may have a life of less than a decade. By contrast, values endure for a lifetime.

Organization of the College

Among the three liberal arts colleges on the University of Michigan campuses (Ann Arbor, Dearborn and Flint), our College stands out because it is organized in a unique manner. Instead of being fragmented into many traditional single-discipline departments, the College is organized into six multidisciplinary departments: Behavioral Sciences; Mathematics and Statistics; Language, Culture and Communication; Literature, Philosophy and the Arts; Natural Sciences; and Social Sciences.

The Behavioral Sciences Department houses and offers degree programs in three disciplines: anthropology, psychology, and sociology. The Department also offers interdisciplinary degree programs in behavioral sciences and health policy studies. The office of the Behavioral Sciences Department is located in Room 4012, CB.

The Language, Culture and Communication (LCC) Department houses six disciplines: Comparative Literature, Composition and Rhetoric, Journalism and Screen Studies, Linguistics, Modern and Classical Languages (including Arabic, French, German and Spanish), and Public Communication and Culture Studies (including Speech). It offers degree programs in French Studies, Communication, and Hispanic Studies. It also offers an interdisciplinary degree in International Studies. In addition, the Department offers minors in Arabic Studies, Comparative Literature, Film Studies, German, and Linguistics. To support its programs in Modern languages, the Department houses the Kochoff Foreign Language Media Laboratory (3065 CB) with extensive resources for language learning such as audio and video course materials, foreign language writing assistant programs, and foreign language TV programs via satellite. To support its programs in Communications, the department houses a TV studio, an audio lab, and video editing facilities with state-of-the-art software, as well as a dedicated computer classroom (3034 CB) with 24 workstations. The office of the Language, Culture and Communication department is located in Room 3016, CB. The phone number is (313)593-4778.

The Literature, Philosophy, and the Arts Department houses and offers degree programs in three disciplines: art history, English, and philosophy. It also offers an interdisciplinary degree program in humanities. In addition, the Department offers a minor in medieval and renaissance studies. The Literature, Philosophy, and
the Arts Visual Resources and Music Collections (VRMC) supports the instructional needs of the department and in particular Art History, Studio Art, and English. The collection contains over 95,000 analog slides, 1500 compact discs and phonograph records, 200 videocassettes and other instructional materials. Digital images from the VRMC collection are available from the Image Collections supported and maintained by Digital Library Production Service (DLPS) at quod.lib.umich.edu The physical collections are available for instructional faculty in 3045 CB. The office of the Literature, Philosophy, and the Arts Department is located in Room 3011, CB.

The Mathematics and Statistics Department houses and offers a degree program in the discipline of mathematics, with an emphasis on either pure or applied mathematics. In addition, the Department offers minors in computer and computational mathematics and applied statistics. The campus mathematics placement program and the Mathematics Learning Center are administered by the Department. The office of the Mathematics and Statistics Department is located in Room 2014, CB.

The Natural Sciences Department houses and offers degree programs in three disciplines: biological sciences, chemistry, and physics. The Department also offers interdisciplinary degree programs in biochemistry, chemistry instruction, earth sciences, environmental science, environmental studies, and microbiology; geology and astronomy are available as minors. Also available are the GIS and MEDS certificate programs. The Science Learning Center, the greenhouse, and the observatory are administered by the Department. The office of the Natural Sciences Department is located in Room 125, Science Building.

The Social Sciences Department houses and offers degree programs in Economics, History, Political Science, Social Studies and Urban and Regional Studies. The Department also supports individual courses in cultural geography. The office of the Social Sciences Department is located in Room 2140 Social Sciences Building.

The College supports several interdepartmental programs, some administered directly by the College and some administered by departments. These include degree programs in American Studies, Criminal Justice Studies, General Studies, Health Policy Studies, Liberal Studies, and Women’s and Gender Studies, and minors in African and African American Studies, Law and Society, Leadership and Communication in Organizations, Medieval/Renaissance Studies, Organizational Change in a Global Environment, Religious Studies, Science and Technology Studies, Social Science Research Methodology, and Society and Technological Change. The College also supports the Honors Program, coursework in Arab and Arab American Studies, a program for study in Japan, and the Cooperative Education Program.

### Degrees Offered

Students may obtain a Bachelor of Arts (AB), Bachelor of Science (BS), or Bachelor of General Studies (BGS) from CASL. The BGS degree, reserved for students transferring from a community college with an associate degree, is discussed under Degree Requirements.

A liberal arts degree program affords a student both breadth and depth of learning. The course requirements for a degree may be divided into types: courses that give a broad, general education, those that provide depth in a specialization, and those that offer the tools needed for success in college and life.

### Distribution

Distribution requirements are divided into Skills and Competencies, and Areas of Inquiry. Courses included under Skills and Competencies are intended to give students tools they will need in English Composition, Foreign Language, and Mathematics. Areas of Inquiry courses give students experience across the breadth of the liberal arts: Arts, Behavioral and Social Analysis, Biological and Physical Sciences, History, and Letters. Liberal Studies (LIBS) courses which appear in distribution areas are first year seminars, are generally taught only in Fall semester, and open only to newly admitted freshmen.

A student seeking a degree from CASL must fulfill the coursework specified below. All of these courses, except as noted, are at the 100 and 200 level. They should generally be completed during the freshman and sophomore years. These requirements, adopted in 1987, apply to newly admitted freshmen, transfer students, and readmitted students alike.

### SKILLS AND COMPETENCIES

#### English Composition (6 hrs)
- COMP 105 Writing & Rhetoric I
- COMP 106 Writing & Rhetoric II

Each incoming student will take the UM-Dearborn Composition Placement Examination (CPAS). Excellent performance on the examination may result in a determination that learning outcomes for COMP 105 and/or COMP 106 have been fulfilled. If a student without transfer credit for either COMP 105 or 106 performs below the minimum acceptable level he or she will be required to take and pass COMP 099, which does not count toward a degree. A transfer student with COMP 105 and 106 equivalency who is placed into COMP 099 will be required to take and pass COMP 227. Students completing COMP 105, 106, 270, or 280 at UM-Dearborn must pass these courses with a minimum C- grade. Students who earn a grade lower than a C- will be given an NC (No Credit), and will be required to repeat the course.

**Note:** Students enrolled in the Honors Program will take COMP 110 and 220 in place of 105 and 106.

#### Foreign Language (8 hrs)

A two-course sequence from:
- ARBC 101 & 102 Arabic
- FREN 101 & 102 French
- GER 101 & 102 German
- LAT 101 & 102 Latin
- MCL 111 & 112 Armenian
- MCL 105 & 106 Greek
- SPAN 101 & 102 Spanish

The foreign language distribution requirement can be met by:
- Successfully completing a two-semester beginning language sequence at UM-Dearborn, **or**
- Transferring the equivalent of 8 semester hours of a beginning language sequence from another college or university, **or**
- Successfully completing a 3- or 4-semester hour foreign language course (this course cannot be taught in English) at the 102 level or higher, **or**
- Having completed at least 3 years in the same language of foreign language in high school with a grade of C or better in the final course, **or**
- Having completed the equivalent of a high school diploma...
at a school that used a language other than English for instruction. (Appropriate documentation attesting to the language of instruction and graduation from the high school program is necessary, and official English translations of foreign transcripts must be provided), or

- Passing an oral and written proficiency exam.

A student with prior knowledge of Arabic, French, German or Spanish should take a placement examination before registering for a course in that language. Placement/proficiency exams in French, German, and Spanish are administered by the Office of Admissions and Orientation; call (313) 593-5100. Placement/proficiency exams in Arabic are administered by faculty in the Language, Culture, and Communication Department; call (313) 593-4778. A student wishing to take a proficiency exam in a language not mentioned above or not taught at UM-Dearborn should consult a CASL advisor; call (313) 593-5293 for more information and to see if a tester is available. A student wishing to waive the foreign language requirement must officially submit a request in writing via a petition form. Please note that when the requirement is waived, or proficiency is demonstrated by exam, credit will not be awarded for courses not taken.

Mathematics (3-4 hrs)
LIBS 111, 127

Note: MATH 080 and 090 do not count toward degree.

AREAS OF INQUIRY

Arts (3 credit hours)
ARTH 101, 102, 103, 104, 106
FILM 240, 248
MHIS 100, 120, 130, 340, 3335

Behavioral and Social Analysis (9 hrs)
A student must elect at least one course from Group A and one from Group B.

Group A
ANTH 101, 202
LIBS 112, 116, 117, 118, 123, 126, 128
PSYC 170, 171
SOC 200, 201

Group B
ECON 2001, 201, 202
LIBS 112, 114, 116
POL 101, 201, 205, 250, 260

Biological and Physical Sciences (7-8 hrs)
One course must be a laboratory course
BIOL 100 or 100+101, 130, 140
BIOL 103 & 105
CHEM 100, 134, 136, 144, 146
ESCI 275
GEOL 118, 218
LIBS 117, 123
NSCI 120, 121, 231, 232, 233
PHYS 100, 125, 126, 130 or 130+131, 150, 151

Courses with a “+” provide an optional laboratory component. The first number is the lecture course, which may be taken separately. The second number is the optional lab course, which requires prior completion or concurrent enrollment in the lecture. PHYS 100 is lecture only; there is no associated laboratory course. Although BIOL 103 and BIOL 105 may be elected separately, they must be taken together to meet the requirement. NSCI 120 and BIOL 100 (or 100+101) may not be used together to meet the requirement. NSCI 231, 232, 233, normally taken by elementary education students, have a prerequisite of EXPS 220 Exploratory Studies. Students who take these courses and ultimately transfer to CASL may use them toward CASL distribution as follows: one course from NSCI 231, 232, 233 would fulfill the non-laboratory course requirement; two courses would fulfill the laboratory requirement; three courses would completely satisfy the biological and physical sciences requirement.

History (3 hrs)
Any HIST course offered except HIST 398, 399, 485, 497, 498, 499, or 4999
LIBS 112, 113, 116, 119, 120, 121

Letters (3 hrs)
COML/HUM 221, 222, 223
ENGL 200, 230, 231, 232, 233, 235, 236, 237, 238, 239
HUM 171, 201
LIBS 112, 114, 115, 122, 123, 124, 125, 130
PHIL 100, 120, 200, 240

CASL Honors Students may use Western Culture 261 and 262 to fulfill the History and Letters requirements. Western Culture 263 and 264 may be used to fulfill the Behavioral and Social Analysis Group A requirement. Western Culture 262 or 263 may be used to fulfill the Arts requirement.

Diversity Requirement

In November 2002, CASL instituted a requirement that all of its graduates who enroll after September 1, 2004, must satisfy a three-credit hour diversity course requirement. Students will choose from a list of approved courses on global issues, national issues, or both. Diversity is defined here to include cultural diversity, racial as well as ethnic diversity, religious diversity, social class, gender, sexual orientation, age, and ability/disability status. When appropriate, these courses may also be used to satisfy a distribution requirement or a requirement for a major or minor.

The list of approved courses is available in the CASL Dean’s Office, 2002 CB, (313) 593-5490, in CASL Advising, 1039 CB, (313) 593-5293, and is posted on the CASL website: casl.umd.umich.edu/683910. The College will also identify each term’s diversity courses in the Schedule of Classes.

 Majors

WHAT IS A MAJOR?

A college degree experience includes depth as well as breadth. Each student in an AB or BS degree program must choose a field in which to specialize, which is called a major.* A major is a program of specialized study that normally consists of a minimum of 30 credit hours of work at the upper-division level (courses numbered 300 through 499 and 3000-4999) taken mainly during the student's final two years. A major allows a student to develop independence and discrimination of thought and judgment and to learn to appreciate, assimilate, and apply a coherent body of knowledge.

The College offers the following majors that normally lead to the degree (AB, BGS, or BS) listed.

American Studies .................................................. AB
Anthropology ...................................................... AB
Art History ........................................................ AB
Behavioral Sciences ............................................ AB
Biochemistry ....................................................... BS
Biological Sciences .................................................... BS
Chemistry (ACS Certified) ........................................ BS
Chemistry/Instructional ................................................ BS
Communication .......................................................... AB
Criminal Justice Studies ............................................. AB
Earth Science ............................................................. AB
Economics ................................................................. AB
English ................................................................ AB
Environmental Science ............................................... BS
Environmental Studies ................................................ AB
French Studies ............................................................ AB
General Studies ........................................................ BGS
Health Policy Studies ................................................ AB
Hispanic Studies ........................................................ AB
History ..................................................................... AB
Humanities ................................................................. AB
International Studies ................................................ AB
Liberal Studies* ........................................................ AB, BS
Mathematics .............................................................. AB, BS
Microbiology ............................................................. BS
Philosophy ................................................................. AB
Physics ....................................................................... BS
Political Science ........................................................ AB
Psychology ................................................................. AB
Social Sciences ........................................................ AB
Sociology ................................................................... AB
Urban and Regional Studies ....................................... AB
Women’s and Gender Studies .................................... AB

*Liberal Studies offers the student an opportunity to design an AB or BS degree program from three 12 or 15 credit hour fields of study called Areas of Focus.

MAJOR REQUIREMENTS

Certain introductory courses, designated prerequisites, are designed to give students the knowledge and skills needed in the advanced courses. Undecided students will find these courses helpful in making a decision about majoring in the field. Consult the list of required prerequisites listed under Program and Course Offerings (p. 71) for details.

A program of study in a major should be planned in consultation with the faculty program advisor. The advisor must approve the content of the major and can help the student achieve a sound and harmonious program.

The following rules apply to most majors:
5. Generally, at least 30 upper-division credit hours are required. At least 24 credit hours must be taken in the field of the major. In most majors at least 6 credit hours of cognate courses are required. A cognate course is in a related field. Specific exceptions to these rules are noted under Program and Course Offerings.
6. The courses used to fulfill the 30 or more upper-division credit hours must be numbered 300-499 or 3000-4999. Note that courses taken at community colleges and lower division courses taken at other four-year institutions may not be used to fulfill this requirement.
7. Courses taken as major prerequisites may not be counted in the major.
8. Courses used to satisfy distribution requirements (with the exception of the diversity requirement) may not be used to satisfy major requirements.
9. A minimum grade point average (GPA) of 2.00 must be achieved in both major courses and cognate courses.
10. At the minimum, students must complete between 12 and 15 of the 30 credit hours at UM-Dearborn. Students transferring upper-division credits from other institutions should check with their major advisor for specifics of this residency requirement.
11. Students who have been off campus for one full year must complete the degree requirements in effect when they return.
12. Courses used in the major cannot dually be used in a minor.
13. Courses used in the major cannot be taken P/F (Pass/Fail)

DOUBLE MAJOR (OPTIONAL)

Students who want a double major must meet all requirements in two fields and must officially declare, and be approved for, both majors, in the CASL Office of Advising and Student Records, Room 1039, CB. Courses that satisfy major and/or cognate requirements for more than one field can be applied simultaneously to both fields.

AREAS OF FOCUS

Instead of a traditional major, students in the General Studies or Liberal Studies degree programs elect three Areas of Focus which can be in single disciplinary areas or in multi-disciplinary areas. A single disciplinary focus requires 12 hours at the 300 level or above. Multi-disciplinary areas of focus require 15 hours. At least two areas of focus must be within CASL. One area of focus may be in Business or CIS. Students interested in these programs should contact CASL Advising and Records in 1039 CB or call(313) 593-5293 for additional information.

RECOGNITION OF A MINOR (OPTIONAL)

A student in an AB or BS degree program (other than Liberal Studies) may apply for recognition of a minor. A student may declare a minor (completed or not) by completing the appropriate form at the CASL Office of Advising and Student Records. A final audit will be conducted at the time of graduation. Any posted minor that has not been successfully completed will be deleted from the student’s transcript.

A minor generally consists of a minimum of 12 or 15 credit hours of upper-division (300-499 and 3000-4999) coursework in a particular field of study. A minimum grade point average (GPA) of 2.00 is required in the courses applied to a minor. For minors offered by CASL, the grades (including E’s) in all upper-division courses in the discipline of the minor will be reflected in the minor GPA. Courses elected P/F cannot be used in a minor. Courses used in a minor cannot dually be used in a major.

A single disciplinary minor requires a minimum of 12 credit hours of upper-division coursework. No more than three credit hours of transfer credit, field placements, internships, seminars, S/E-graded courses, and independent study/research may be applied to any 12 credit hour minor. Note that a few interdisciplinary minors do not offer minors. A minor may be obtained in the following fields of study even though there is no major offered: Applied Statistics; Arabic Studies; Comparative Literature; Computer and Computational Mathematics; Geology; German; Linguistics; and Music. In these fields, 12 credit hours of upper-division coursework are required.

An interdisciplinary minor consists of a minimum of 15 credit hours of upper-division coursework. Interdisciplinary minors are available in African and African American Studies; Communication; Criminal Justice Studies; Earth Science; Environmental Studies; Film Studies; Health Policy Studies; Law and Society, Leadership and Communication in Organizations; Medieval and Renaissance Studies; Organizational Change in a Global Environment; Religious Studies; Science and Technology Studies; Social Science Research Methodology; and Women’s
and Gender Studies. There is no minor in International Studies, American Studies, Behavioral Sciences, General Studies, Liberal Studies, Chemistry/Instructional Track, or Social Studies.

In addition, there are several non-CASL minors available – Computer and Information Science (CIS), Accounting, Finance, Information Technology Management, Management, and Marketing. The GPA for the CIS minor is based on CIS 150, 175, 200, and all upper-division CIS coursework. The GPA for the Business minors is based on ITM/MIS 120, ACC 298, ACC 299 (if taken), and all upper-division courses offered by the College of Business. Students who are not in the College of Business cannot elect more than 30 credit hours in courses offered by the College of Business. A maximum of six credit hours of transfer credit, field placement, internships, seminars, S/E-graded courses, and independent study/research may be applied to any interdisciplinary or non-CASL minor.

**Other Requirements**

**TOTAL CREDIT HOURS**

A minimum of 120 credit hours with an overall average of C (2.00) or better is required for graduation.

**UPPER-DIVISION COURSEWORK**

A minimum of 48 hours of upper-division (courses numbered 300-499 and 3000-4999) coursework must be completed by each student.

**SENIOR RESIDENCY**

Students must normally complete the last 30 credit hours required for graduation with coursework taken at UM-Dearborn. Students who have earned at least 30 hours of credit required for graduation at UM-Dearborn prior to the beginning of their senior year may, with the prior written approval of the advisor, 1) elect the last 30 credit hours at another campus of the University of Michigan, or 2) elect six credit hours at an institution other than a campus of the University of Michigan, subject to the CASL policy regarding coursework at other institutions.

**CREDIT HOUR LIMITATION**

No more than 44 credit hours in any one discipline may be applied toward the 120 credit hours needed for graduation. In the following cases exceeding the limit may be avoided by excluding certain introductory courses from the 44 credit hour count. 1) Mathematics majors may exclude MATH 105, 115, and 116; 2) chemistry majors may exclude CHEM 134, 136, 144 and 146; 3) psychology majors may exclude one lower-level non-equivalent (“LDST” or “general credit”) PSYC transfer course, and the two psychology honors courses, 498 and 499.

**Degree Requirements: Summary**

**BACHELOR OF ARTS (AB)**

To be recommended for the AB degree a student must have satisfied the CASL requirements previously listed in distribution, residency, credit hour, grade point average, and upper-division work. For all programs except Liberal Studies, the student must also complete the requirements for the major. The AB degree in Liberal Studies does not involve a major, but three fields of study called Areas of Focus. Minors are not available in Liberal Studies. See Programs and Courses (p. 66) for additional information.

**BACHELOR OF SCIENCE (BS)**

To be recommended for the BS degree a student must have satisfied all the requirements for the AB degree and must have majored in one of the following programs: biochemistry, biological sciences, chemistry (ACS certified), chemistry/instructional, earth science, environmental science, microbiology, or physics. Alternatively, a student who earns 60 or more credit hours (at least 20 credit hours of which are in upper division courses 300 or above) in mathematics (including CCM and CIS courses 150 and above, and statistics courses) and/or the physical and biological sciences may, upon petition to the CASL Office of Advising and Student Records, Room 1039 CB, be granted the BS degree.

**BACHELOR OF GENERAL STUDIES: TWO PLUS TWO (BGS) REQUIREMENTS**

The Bachelor of General Studies degree is designed and ordinarily reserved for students who have earned an associate degree from a community college that has a "two-plus-two" articulation agreement with UM-Dearborn. Students with associate degrees from other appropriately accredited institutions may be considered for this "two-plus-two" option. There is an online option available for the BGS degree. Contact the CASL Office of Advising and Student Records, Room 1039 CB.

To be recommended for this degree, a student must have completed:

1. one course in mathematics; one course in the natural sciences; two courses in the behavioral and/or social sciences; two courses in the humanities; courses equivalent to two semesters of English Composition 105 and 106
2. 12-15 upper division (300 or above) credit hours in each of three areas of focus with a GPA of at least 2.00 (exception: the GPA for the CIS area of focus is based on CIS 125, 150, 175, 200, and all upper-division CIS courses)
3. one approved diversity course
4. a minimum of 48 upper division credit hours
5. a minimum of 120 credit hours with an overall GPA of at least 2.00.

**Note:** No more than 30 credit hours of upper-division coursework in any one discipline or area of focus can count in the 120 hours required for graduation. Students not in the BBA program of the College of Business cannot elect more than 30 credit hours in courses offered by the College of Business.

Only one area of focus may be outside CASL. At least 30 upper-division credit hours must be in courses taken in CASL. All courses used to satisfy area of focus requirements must be upper-division. No credit hours transferred from a community college or lower-division courses taken in a four-year institution may be included. Courses used to satisfy distribution requirements (with the exception of the diversity requirement) may not also be used to satisfy area of focus requirements. Courses elected on a Pass/Fail (P/F) basis may not be used to fulfill the 12-15 credit hour requirement in an area of focus. No more than three hours in a 12-hour area of focus, or six hours in a 15-hour area of focus, may be transfer, independent study/research, internship, or S/E graded. Students should be aware that upper-division courses, particularly in the sciences, mathematics, and CCM, may have substantial prerequisite requirements. Minors are not available with the BGS degree.

Students should consult with a professional staff advisor in the CASL Office of Advising and Student Records, 1039 CB, to discuss areas of focus and to develop a rationale for their individualized BGS curriculum.
Other Degree Options

SECOND BACHELOR DEGREE

A student who has already earned a bachelor degree from UM-Dearborn or any other accredited collegiate institution may apply to pursue a second bachelor degree through the Admissions Office (1145 University Center). If accepted, the student must complete at UM-Dearborn at least an additional 30 credit hours (regardless of the number of credit hours completed for the first degree), if the first degree was earned at UM-Dearborn; or 45 credit hours, if the first degree was earned elsewhere; and must satisfy all the requirements for the second degree program. The GPA for the second degree will be based on the cumulative academic records of all courses taken at UM-Dearborn. For further information, contact the CASL Office of Advising and Student Records, Room 1039 CB.

DUAL DEGREES

Students may apply for two or more degrees either within CASL or in CASL and another unit at UM-Dearborn. To earn both degrees, students must meet the degree requirements for each degree. Generally, distribution courses taken within CASL may be used to satisfy both degrees. Students should expect to elect at least 30 more credits to earn both degrees. Students are advised to contact a representative from each program to learn the specific requirements that must be met.

Some degrees, such as the degrees in Engineering Mathematics or CIS Mathematics, are only available as concurrent degrees and must be paired with a primary degree in either engineering or CIS. Students interested in dual degrees should see an advisor.

JOINT DEGREES

Students can get an early start in the graduate degree programs of the University’s Ann Arbor Campus Dental School, Medical School, or School of Natural Resources and still be awarded a liberal arts degree from UM-Dearborn. Students must have a GPA of at least 3.00 and have completed the requirements for graduation except for the senior residency requirement. A maximum of 15 credit hours of appropriate required courses in the first two years of the graduate/professional degree program may count toward both the bachelor and the graduate degrees. At least 45 of the remaining 105 credit hours must be in residence at UM-Dearborn. For more information, contact the CASL Office of Advising and Student Records, Room 1039 CB.

CONCURRENT UNDERGRADUATE / GRADUATE STUDY (CUGS)

An exceptional student who has virtually completed an undergraduate program in three and one-half years with an outstanding record and who, in the judgment of both graduate and undergraduate faculty, is ready to enter a graduate program, is eligible to apply for early admission to the Horace H. Rackham School of Graduate Studies at the University’s Ann Arbor campus. A maximum of 15 credit hours earned in courses elected in this early admission program count toward both the bachelor and the graduate degree. The bachelor degree is conferred at the next commencement upon the student’s satisfactory completion of the prescribed course work and receipt by UM-Dearborn of the official transcript and diploma application.

Admission to CUGS requires: 1) a minimum 3.70 GPA, 2) completion of all requirements for the bachelor degree except in the concentration and in independent study or its equivalent. The student must have at least six courses in the field of concentration and one independent study experience. 3) During the junior year, the student should discuss the possibility of participating in the CUGS program with his/her program advisor and departmental chair. If the student’s academic record and other qualities are judged exceptional, the chair brings them to the attention of the chair of the proposed graduate program at the Ann Arbor campus. 4) If the Ann Arbor graduate program chair agrees that an application should be submitted, the student contacts:

Office of Student Services
Room 120 Rackham Building
Horace H. Rackham School of Graduate Studies
University of Michigan
Ann Arbor, MI 48109

Requirements for Transfer Students

ADMISSION REQUIREMENTS

A student who applies to UM-Dearborn with 24 or more semester hours of transferable credit (excluding advanced placement credit) is considered a transfer student. Students with fewer hours of college credit are considered freshmen for admission purposes. For freshman admission requirements, see the General Information section of this Undergraduate Catalog.

Admission to the College as a transfer student is based on the quality and content of both the high school and the college academic records. Standards of evaluation are designed to ensure that each student admitted has the intellectual capacity and the preparation to pursue advanced undergraduate work successfully. Admission criteria are not based on race, sex, color, religion, national origin or ancestry, age, marital status, handicap or Vietnam-era veteran status.

The process of determining equivalent UM-Dearborn course and appropriate credit hours for a course taken at another institution is called credit certification. A student who believes that a course was not certified correctly should immediately contact the CASL Office of Advising and Student Records, Room 1039 CB. Any request for re-evaluation of credit must be submitted in writing within six months.

Courses will not be transferable if completed with a grade lower than C. The College reserves the right to place students on registration hold if they have not provided an official transcript of their studies taken at another institution.

GENERAL REQUIREMENTS

Students entering the College with junior status will be expected to have completed most of the distribution requirements and, if applicable, major prerequisites. Deficiencies in either of these areas must be made up with all deliberate speed. Check with your major advisor for limits on the number of transfer credits that will be accepted toward degree requirements. Courses taken at other four-year institutions may be used in some cases to satisfy upper-division requirements in the major. Courses transferring from community colleges or other two-year institutions will be considered lower level or general elective credit only. They will not be considered upper level in the College of Arts, Sciences, and Letters.
Reminder: All students are required to declare a major when they reach 60 credit hours. Students transferring 62 hours or more are not required to declare a major before admission, but must do so during their first term at UM-Dearborn.

**RESIDENCY REQUIREMENTS**

Transfer students must complete at UM-Dearborn the last 30 to 58 credit hours before graduation. The precise number depends on the previously attended institution(s) and the maximum number of transferable credits. Institutions are classified into three categories: (2Y) includes all two-year institutions, (4Y) includes all four-year institutions other than the schools and colleges of the University of Michigan, (UM) includes only the schools and colleges of the University of Michigan. The table below gives the maximum transferable credits and minimum residency requirements.

**Notes:**
1. The transferable credit hours listed below are maximums. The exact number of transferable hours is determined upon official evaluation and may vary depending on the student’s program.
2. Advanced Placement, International Baccalaureate and Advanced Level coursework is treated the same as coursework from a four-year institution.
3. A maximum of 12 credit hours of applied art, applied music and music theory coursework may transfer and count toward graduation.

**Other Programs**

**GRADUATE PROGRAMS**

The College offers a Master of Arts in Liberal Studies, a Master of Public Administration, a Master of Science in Applied and Computational Mathematics, a Master of Science in Environmental Science, a Master of Science in Psychology with tracks in Health Psychology and Clinical Health Psychology, and a Master of Public Policy. See the UM-Dearborn **Graduate Catalog** for admission requirements, complete program descriptions and a listing of graduate courses.

**CERTIFICATES**

The College offers six certificates: African and African American Studies (AAAS), Geographic Information Systems (GIS), Medical Sciences (MEDS), Public Relations (PR), Women’s and Gender Studies (WGST), and Writing (WRIT). Consult the program description in this Catalog for additional information and requirements.

**Special Programs**

**HONORS PROGRAM**

The College offers an Honors Program for students from all units of the campus who are highly motivated and qualified academically. The program provides them with an opportunity to broaden and enrich their undergraduate education by offering an alternate route for satisfying the course distribution requirements while retaining the concentration requirements. The program emphasizes general education grounded in the traditional liberal arts. It includes special honors courses, a tutorial and seminar, reduced class size, close student-professor relationships, and interaction with other honors students.

Students in the Honors Program participate in an interdisciplinary curriculum of the most stimulating courses on campus in a relaxed, intimate learning environment geared to heightening their perceptions and deepening their knowledge. The curriculum is organized to produce a cumulative effect: students who reach their junior year in the program share a common core of literature, language, and methodology upon which they can build. By their senior year, honors students have gained the skills needed for rigorous, independent critical thinking.

The Honors Program is a repository of "quality" education. This implies commitment from teachers, advisors, and students, a coherent and unified curriculum that moves toward specific goals, and a carefully monitored series of courses. It is understood that the curriculum is demanding, and that the program makes as few compromises as possible in order to maintain its integrity.

Special features of the Honors Program include:
1. A freshman seminar which focuses on a particular topic but emphasizes examination of method: critical analysis of both primary and secondary texts; historical, interpretive approaches; research techniques and comparison of how different disciplines pose questions of a wide variety of texts.
2. Four lower-division interdisciplinary honors courses, at least one per term during the first two years. Each course deals with the evolution and content of Western culture from the vantage points of several academic disciplines: anthropology, art, economics, history, literature, music, political science, psychology, sociology, and the sciences. The four courses provide honors students with a common body of knowledge, language, and literature. They foster critical thinking, help students gain a perspective on the traditions and problems of Western civilization, and equip them with a well-rounded background so that they may more intelligently construct their lives in the modern world. Honors students are also required to take six hours in non-Western culture chosen from a wide variety of courses.
3. The tutorial, a crucial part of the Honors Program, is one of its main features. Tutorials enroll between five and ten students. They create a sense of collegiality that is frequently lacking on a commuter campus. The tutorials provide an opportunity for intensive concentration, study, and discussion. In most cases a major writing assignment will be required.

Students are automatically qualified to apply to the Honors Program if they have a 3.5 high school GPA, have an ACT composite score of 25 or higher, score in the 90th percentile or
higher in PSAT scores, or achieve a combined SAT score of at least 1150. Other incoming freshmen, transfer students, and freshmen or sophomores at UM-Dearborn who are genuinely interested in the Honors Program are encouraged to apply.

For information, contact the Honors Program Office at (313) 593-5183.

WRITING PROGRAM

The Writing Program offers introductory and intermediate courses and other academic support to all UM-Dearborn students in CASL, COB, SOE and CECS. The Writing Program oversees the UM-Dearborn Writing Center, the campus Writing Awards competition, and the Composition Placement Examination. One important aspect of the Program’s work is supporting innovative teaching approaches across the disciplines for improving students’ abilities with writing and research.

Writing Program courses include the first-year writing sequence, with special sections devoted to multi-media, community-based and cross-cultural writing, and intermediate courses focused on creative and expository writing and writing in professional settings. First-year writing courses at UM-Dearborn provide a basis for both upper-level writing classes and also the writing students will need to complete to fulfill requirements in other courses. Courses therefore support students as they learn to write effectively, think critically, and develop rhetorical awareness about print, visual, and digital texts, and to write for academic, civic and workplace audiences. Writing Program courses stress inquiry-based research, critical reflection, revision, collaboration, and active learning.

PLACEMENT INTO INTRODUCTORY WRITING COURSES

All UM-Dearborn students are required to complete six hours of composition in order to graduate. Most students fulfill this requirement by taking COMP 105 and 106 (Writing & Rhetoric I & II). Each entering student should make every effort to complete the composition sequence during his or her first year on campus, since it is designed to acquaint students with expectations and strategies of university writing. Placement in the appropriate introductory course is determined by the Composition Placement Examination (CPAS). No student may enroll in an introductory composition course before taking the Composition Placement Examination.

All students – first-time as well as transfers – must take the Composition Placement Examination, preferably at the time of enrollment or during the student’s first semester on campus. Transfer students who score below the COMP 105 level will be required to take COMP 227 (which carries degree credit) even if their previous composition courses have been accepted for transfer credit. Students who did not take the Placement Examination during the orientation session should contact the Orientation Office or Writing Program Office to schedule an examination.

Based on the results of the Placement Examination, students will be placed either into COMP 099, COMP 105 or COMP 106. Students taking COMP 099, which carries additive degree credit and does not satisfy any part of the six-hour composition requirement, must pass the course with a grade of C of better before enrolling in COMP 105. Students may submit a portfolio of written work to appeal a placement decision, but no degree credit is given for courses exempted via portfolio.

Students in the Honors Program fulfill their six-hour composition requirement by taking COMP 110 and COMP 220 (Honors Writing & Rhetoric I & II). Engineering students substitute COMP 270 (Technical Writing for Engineers) for COMP 106, taking the course during the second semester of their sophomore year. College of Business students take COMP 280 (Business Writing & Rhetoric) in place of COMP 106.

Transfer students admitted with credit in composition from other institutions of higher education will be placed in an appropriate composition course based on their transfer credit and performance on the Composition Placement Examination, as determined by the Director of the Writing Program. Only courses judged equivalent to COMP 105 and 106 may be substituted for the required courses. Students are urged to take their composition courses at UM-Dearborn.

UM-Dearborn does not accept hours earned in composition through placement examinations at other universities.

For more information, contact the Writing Program office at (313) 593-5238.

FIRST YEAR SEMINARS

First Year Seminars are special classes designed for entering first-year students to ease the transition from high school to college. These are small, welcoming classes developed by dedicated UM-Dearborn faculty who have made a special commitment to helping students master important college skills. In a First Year Seminar, students find it much easier to get acquainted with college life and explore the university’s academic resources.

Each First Year Seminar benefits new students in the following ways:

- Exposure to exciting ideas on a special topic
- Linkage between the First Year Seminar and a related Composition course
- Special attention to college-level reading, writing, discussion and research skills
- Extra-curricular activities and opportunities, such as field trips, tours and projects
- Extra mentoring and support
- A ready-made peer group

For many students (especially in CASL), the First Year Seminar experience automatically fulfills two requirements: a required Composition course and a distribution requirement.

A few of the many seminar topics that have been developed include the following:

- “Car Culture”: the history of the automobile in American life and imagination
- “Fast Food Nation”: a look at the fast food industry through various lenses (economics, anthropology, sociology, environmental studies, politics, history and more)
- “To Infinity and Beyond”: an exploration of the concept of infinity using very creative learning techniques
- “Shakespeare on Stage, Page, & Screen”: this seminar incorporates films, texts and a trip to the Shakespeare Festival in Stratford, Ontario, to explore variations on Shakespeare plays based on different media, cultural contexts, and different artistic and ideological agendas.

All First Year Seminars are listed as Liberal Studies (LIBS) courses under “College-Wide Offerings” in the Schedule. For further information, contact the CASL Dean’s Office, 2002 CB, or view the First Year Seminar page on the CASL website: umd.umich.edu/673401.
COOPERATIVE EDUCATION PROGRAM

Cooperative Education in CASL is an academic program founded on UM-Dearborn's commitment to "excellence in teaching and learning." It promotes liberal arts learning and career/personal development through student participation in paid, professional employment. Expected learning outcomes include clarification of values, development of problem-solving and career-related skills, and enhancement of academic knowledge.

Students typically work two or more terms in part-time or full-time positions paying $8-15.00/hour. They also earn upper-level academic credit for their co-op experiences and attend a co-op seminar. To be eligible for the co-op program, students must be admitted to a major in the college and must have completed 30 credit hours with a minimum 2.25 GPA. Transfer students must complete 12 credit hours at UM-Dearborn before they are eligible.

Students compete for open co-op positions offered by area employers. After being hired by a co-op employer, students register for co-op and are required to submit academic learning objectives and a critical evaluation essay for approval by the Faculty Director, who determines the awarding of credit. The Co-op Office reviews requests for student-arranged co-ops. Contact the Co-op Office in Room 1038 CB for more information.

CASL ONLINE: Online and Blended Courses

Regular credit-bearing courses are offered via online and blended formats to UM-Dearborn students (and guest students) who can benefit from the flexibility and convenience of online course delivery. Students who want to pursue a university education but have special constraints such as job demands, childcare or eldercare responsibilities, pregnancy or medical limitations may also find that online learning helps them stay on track. Online learning classes are taught by UM-Dearborn’s distinguished faculty and are equivalent in academic depth and rigor to face-to-face versions taught in the traditional classroom. New courses are added to the OL repertoire each year. A few courses are in blended format; that is, the classes meet on campus for one or two class periods and online for the remainder.

Regularly enrolled students may elect online learning courses as part of the registration process. Guest students must submit the Michigan Uniform Guest Application, available in our Admissions/Registrar’s offices or in the Registrar’s office of the student’s home institution, and complete the admissions process before registering for classes.

Online Learning courses usually require regular participation in online discussion groups established for the class. Required materials may be made available in various formats, including conventional textbooks and online resources, including video and/or audio recordings. Some online courses may require attendance on campus at an orientation session and/or for exams, though special proctoring arrangements can be made, especially for non-local students. 

Casl Online also offers the ONLINE Bachelor of General Studies (BGS) degree program. This program is designed exclusively for transfer students with associate degrees in any field from community colleges that have “Two plus Two” articulation agreements with UM-Dearborn. UM-Dearborn offers the upper-division component of the BGS degree for these students. In addition, some lower-division courses that fulfill UM-Dearborn distribution requirements or serve as prerequisites are also available via online learning.

For further information about the CASL Online program, the Online BGS, and currently offered courses, consult the program website: casl.umd.umich.edu/caslonline/ or the OL staff. The CASL Online program office is located in 1150 Social Sciences Building, (313) 593-1392, email caslonline@umd.umich.edu. The Director and the OL staff are available for program information, and general student support in online education.

INTERNSHIPS AND FIELD EXPERIENCES

In addition to the paid work experience offered in the cooperative education program, non-paying off-campus educational opportunities for academic credit are offered by various departments in the College. For specifics, see the course description for each discipline's offering in Programs and Courses beginning on page 70.

Criminal Justice Studies Internship

Criminal justice internships are available throughout the disciplines of political science, psychology, sociology, and women’s and gender studies. Internships provide students with practical experience in law enforcement-related placements at the state, local, and federal levels of government and also in the non-profit sector. Placements are available through the Departments of Social and Behavioral Sciences. Internships vary from three credit hour programs to six credit hours. Students may elect CRJ 478 Social Work/Criminal Justice Internship; CRJ 479 Women’s Studies Internship; CRJ 485 Psychology Internship; or CRJ 494-495 Political Science Internship. For more information about internships, contact the Director of Criminal Justice Studies in the Department of Behavioral Sciences, (313) 593-5520; email: criminal_justice@umd.umich.edu

Economics Internship

The economics internship offers students field experiences with businesses, non-profit organizations and government agencies. The placement allows students to get hands-on experience applying the tools of economic analysis to specific job and project assignments. Student interns spend either eight or 16 hours per week in unpaid work at their placement site, for which they earn either three or six academic credits. Only three credit hours may be used to satisfy the concentration requirements in economics. All interns are assigned to an economics faculty advisor. This program is open to all declared economics majors, who, by the start of the internship, have completed at least two upper-level economics courses in addition to two of the following core courses: ECON 301, 302 and 305. Permission of the Internship Coordinator is required. To inquire, call the Economics Internship Faculty Coordinator in the Department of Social Sciences at (313) 593-5096.

Environmental Studies Internship

The environmental studies internship, which is required of all environmental studies concentrators, involves students in a wide variety of positions with government organizations (Department of Environmental Quality, departments of health, city and county agencies), consulting firms, and non-governmental organizations as field assistants and researchers. Students work a prescribed number of hours per week as arranged by the advisor and employer, typically earning three credit hours. Written permission of instructor is required to participate. To inquire, contact the Department of Natural Sciences at (313) 593-5277.

Health Policies Studies Internship

In the health policies studies internship, students volunteer eight hours a week for a semester in a health care delivery setting, to develop an understanding of health care system issues and
problems. An internship paper describes the setting and discusses the student's project and its relationship to an organizational or health system issue. Students may enroll for one semester or for two consecutive semesters. Permission of program director and senior standing are required to participate. To inquire, contact the Department of Behavioral Sciences at (313) 593-5520.

History and Humanities Internship

The history and humanities internship offers practical experience to students in art history, communication, English, foreign languages, history, humanities, music, and philosophy. Students develop job-entry experiences in humanities and history-related careers. The internship includes a required seminar. Although, in general, the internship is offered for elective credit, it may be used to satisfy the following concentration requirements: Three credit hours may be applied towards a Communication major/minor or toward an Art History/Museum Studies degree and six credit hours may be applied towards a Journalism concentration. For students with a foreign language focus, three credit hours may be used within the International Studies Support Studies component or toward the cognate requirement of the French or Hispanic Studies concentrations. Prerequisites are junior or senior standing. Students earn three to six credit hours per semester. The maximum total credit hours are 12. To inquire, contact the History/Humanities Internship Office, 3028 CB, (313) 593-5136.

Psychology Internship

Psychology internship placements offer work experiences in a wide variety of human services organizations. These include programs related to child abuse, criminal rehabilitation, crisis intervention, geriatrics, human resources, mental illness, organizational development, special education, substance abuse, and women's issues. Students spend six or 12 hours per week at their field placement and attend a weekly seminar involving training in listening and helping skills. Students may register for three or six credits. Prerequisites are PSYC 171 and permission of instructor. To inquire, contact the Department of Behavioral Sciences at (313) 593-5520.

Public Affairs Internship

The public affairs internship program allows students to participate in the political process through placements in a variety of governmental offices. Students in the local internship program work for state and local elected officials, law firms, and interest groups. Students in the Washington, D.C. program have worked in the White House, the Pentagon, and for Members of Congress. Students in the Ottawa, Canada program work in a Member of Parliament’s office for a period of five weeks. Admission is reserved primarily for qualified juniors and seniors of all majors. Six upper-division credits are granted for successful completion of either program. Scholarships are available. To inquire, contact the Department of Social Sciences at (313) 593-5096.

Sociology/Social Work Internship

The sociology/social work internship offers students the opportunity to work in social welfare agencies and/or human services organizations such as domestic violence shelters, criminal justice agencies, head start programs, substance abuse rehabilitation, gerontology, hospice, human resources, health care, urban planning, and so on. The emphasis in the field experience is on the social problems that bring clients to agencies and on the social contexts within which agencies deliver services. Students spend six to eight hours per week on site and two hours in a classroom seminar. Prerequisites are SOC 200 or SOC 201 and permission of instructor. Students may enroll for three to six credit hours. To inquire, contact the Department of Behavioral Sciences at (313) 593-5520.

Women's and Gender Studies Internship

The WGST internship offers students an opportunity to work in a variety of fields that address gender inequities and/or serve the needs of women and girls. These include, but are not limited to, adolescent services, domestic violence shelters, legal clinics, human resources, health care settings, advocacy organizations, and residential counseling settings. Students spent six to eight hours per week on-site and two hours in a classroom seminar. Prerequisites are WGST 303 or permission of instructor. To inquire, contact the WGST office, 2040 CB, (313) 593-1391.

WOMEN IN LEARNING AND LEADERSHIP (WILL)

The Women in Learning and Leadership (WILL) program is designed to develop the analytical abilities and skills of undergraduates and promote their will to be community leaders for gender equity. WILL allows students to connect knowledge gained in the classroom with learning experiences in the community by combining courses in Women's and Gender Studies, co-curricular programming, a student leadership organization, and internship and co-op opportunities. The following are the main goals of the program:

- To encourage critical thinking, intellectual curiosity and active learning opportunities that empower women as leaders during and beyond college;
- to increase awareness of obstacles created by gender, ethnic and social class stratification, with attention to what those obstacles mean for students living in metropolitan Detroit, and to develop awareness of individual and collective strategies to address these obstacles;
- to promote self-confidence, assertiveness, a realistic sense of efficacy and willingness to lead;
- to provide opportunities for students to explore their career and life choices, and to build a multicultural and co-generational community on campus that supports this learning and exploring;
- to develop ongoing networks of collaboration between community organizations, leaders, and students.

Requirements for WILL

Students accepted into WILL complete 4 courses in Women's and Gender Studies and an internship or co-op experience in a field of their choice. There are two required courses for the program: Introduction to Women's and Gender Studies, and a Women, Leadership and Social Change class. For their two electives, students may choose from the wide variety of courses offered by the Women's and Gender Studies program. In addition to fulfilling these curricular requirements, WILL students spend a minimum of 15 hours per semester engaged in co-curricular activities related to gender equity and community building. Among their other activities, the WILL student group engages in volunteer opportunities with social service agencies in metropolitan Detroit. In addition, they have the opportunity to meet with locally and nationally known gender equity leaders for casual “fireside chats” and are offered annual training seminars by local women leaders. They organize speaker and film series on topics such as leadership for global gender justice, eating disorders and body image, and violence awareness on campus. They also run an innovative and successful mentoring program for middle school girls in Southwest Detroit. WILL students’ internship placements have allowed them to work with women in the criminal justice system, in programs for at-risk youth, in an oral history project interviewing Arab-American women, and in a variety of positions in legal, medical, business and education fields with women leaders as mentors.
The program recruits in April every academic year for acceptance into the program the following Fall term. Students accepted into the program have a minimum of a 3.0 grade point average, demonstrated leadership ability, and an interest in fostering gender equity.

For more information, contact the Director of WILL at (313) 593-1391 or visit 2040 CB.

JAPAN CENTER FOR MICHIGAN UNIVERSITIES

Since 1989, the fifteen Michigan public universities have operated a unique program in Japanese language and culture in our sister state in Japan, the Shiga prefecture. The Japan Center for Michigan Universities is in Hikone, a beautiful, medium-sized, non-westernized city in central Japan. The $15 million facility, built by the Shiga government, includes classrooms, offices, and apartments with cooking facilities for student occupancy; home stays, of varying duration, may also be arranged. The full academic program runs from September through the end of April; students may also select a one-semester program, or the Summer Intensive Program in the Japanese language. UM-Dearborn students receive 26 hours of credit for UM-Dearborn courses in Japanese language (see course descriptions under Japanese in this Catalog for the following: JPN 128-129, 178-225, or 228-229), Japanese Culture and Society (JPN 395, 396), and two other courses taught by visiting professors. These have included Japanese art and painting, Japanese technology and business, energy and environment in Japan, modern Japanese history, and mass media.

For current information on program fees and housing, visit the website: isp.msu.edu/JCMU/. Applicants need not know Japanese, but they should have studied another foreign language and have had some foreign travel experience. They must have sophomore standing by the end of Winter term and a 2.5 or higher GPA. Students should contact the International Office, 2136 UC, (313) 593-6600, for further information.

STUDY ABROAD

Students interested in other study abroad programs should consult faculty in Modern and Classical Languages, or their major advisor, or the International Office in 2136 UC for additional information.

Special Centers, Facilities and Services

OFFICE OF ADVISING AND STUDENT RECORDS

The Office of Advising and Student Records helps students make informed decisions about their course of study and the liberal arts. To provide this help, the Office offers students current and accurate information regarding CASL academic policies and procedures, coordinates academic advising between students and faculty advisors, provides necessary College forms and materials, and reviews students' academic progress and performance at specified intervals.

The Office offers a systematic program of guidance and advising that attempts to support students from registration through graduation. Advising occurs in many forms and at various levels. For new students, an orientation program is available for academic testing and advising. The initial advising is done by professional staff and faculty who work through the Office.

The Office also provides expert academic help of a general nature. Its staff is specifically trained to work with the undecided student. It also oversees the AB and BS degree programs in Liberal Studies and the BGS degree program. Traditional majors also have faculty advisors. A list of these advisors is available in the Office, 1039 CB, (313) 593-5293, and online at casl-advising@umd.umich.edu.

UNIVERSITY OF MICHIGAN-DEARBORN WRITING CENTER

The University Writing Center, staffed by experienced student peer consultants under the supervision of full-time faculty in composition, provides support for all UM-Dearborn students wishing to improve their writing. Students needing regular one-on-one help in developing basic writing skills, as well as more advanced students wishing to improve their writing, will find the Writing Center useful.

The Writing Center is open five days a week during Fall and Winter terms and on a more limited basis during the summer term. It is strongly recommended that students make an appointment should they wish to work with a peer consultant. The center is equipped with personal computers and software for student use including word processing software, grammar programs and Internet access and research. For further information, contact the Writing Program Office, 3018 CB, or telephone (313) 593-5238. The center is located in 3035 CB; appointments can be made by calling the Writing Center at (313) 593-5543.

CENTER FOR ARAB AMERICAN STUDIES

The Center for Arab American Studies focuses on scholarship, research, and engagement with the Arab-American community in Dearborn and Metropolitan Detroit. Faculty in Arab American Studies are actively engaged in research and scholarship on current issues facing Arab Americans as well as Arab American history and culture. As teachers, they seek to help all students understand the role of Arabs in American society, the role of America in Arab society, and the vibrant interplay between them. For additional information contact the Center in Room 1080 SSB or call (313) 593-4925.

CENTER FOR ARMENIAN RESEARCH

The Armenian Research Center (ARC) was established for the documentation and the publication of materials in the field of Armenian studies and affairs. The ARC accomplishes this work in a variety of ways. It provides access to a computerized database of books, periodical articles, and other materials concerning Armenians. ARC publishes booklets and other texts. It also supports both academic and public outreach by participating in forums, sponsoring talks and answering questions from public media. ARC offers two scholarships each year to Armenian-American students attending UM-Dearborn. ARC also frequently faxes informational material to political leaders in regards to pending legislation before Congress or the White House. For additional information contact the ARC in 110 ASC or call (313) 593-5181.

CENTER FOR STUDY OF AUTOMOTIVE HERITAGE

Established in 2000, the Center for the Study of Automotive Heritage (CSAH) is a source for research on the history of the automobile and the automotive industry. The focus of the Center can be defined in terms of the following key dimensions of inquiry: material culture and automobile design; economic and social history of automotive production; the social history of advertising and consumption; and the global impact of the automobile.
The CSAH sponsors lectures on campus and hosts visiting faculty interested in conducting research on the role of the automobile in society, economy and culture. The Center is located in the Henry Ford Estate. Faculty and students are able to access the oral history collection of the Center by appointment only. Contact the Center staff at: autoheritage@umd.umich.edu. Visit the CSAH web site for additional information on our current research projects: umd.umich.edu/dept/acad/casl/csah/index.html.

CENTER FOR MATHEMATICS EDUCATION

The Center for Mathematics Education is dedicated to improving the quality of teacher preparation for prospective teachers and to making continuous professional development available for current teachers. The goal is to strengthen the teaching of mathematics and improve student learning. The professional development programs offered by the Center seek to deepen teachers’ understanding of the mathematics they teach and emphasize best teaching practices through the study and use of current research and standards-based curriculum resources. These professional development activities are offered at school district sites or at the regional intermediate school districts and carry at least 3 SB-CEU credits. It is also possible for classroom teachers to enroll for graduate credit. These credits can be applied towards the degree requirements for the Specialty in Middle Grades Mathematics program that is part of the School of Education’s Master of Arts in Education degree. Additional information can be obtained at umd.umich.edu/casl/math/MathEd.

CENTER FOR THE STUDY OF RELIGION AND SOCIETY

Established in 2001, the Center for the Study of Religion and Society (CSRS) provides a focus for interdisciplinary scholarly research and teaching on religion and its relationship to American society. It is home to four interrelated programs: the interdisciplinary minor in Religious Studies; the Worldviews Seminar; the Pluralism Project at UM-Dearborn, and the Metropolitan Detroit Digital Music Archive of religious music, chant, and recitation. The Center sponsors lectures and colloquia on campus and is a link between the university and area religious centers and inter-religious organizations. CSRS is located in Room 2038 CB. Contact the Center staff at: csrs_rs@umd.umich.edu.

MATHEMATICS LEARNING CENTER (MLC)

The Department of Mathematics and Statistics supports a peer tutoring program for UM-Dearborn students needing assistance with their work in pre-calculus, calculus, differential equations, linear algebra, statistics, and mathematics education courses. Fellow students who have successfully completed these courses and who have been recommended for tutoring by their instructors are available during the posted hours throughout the week. Also at the MLC, computer tutorials and videos are available for review for the University Mathematics Placement Exam and mathematics courses. Please call the MLC (313) 583-6351 or visit our website at umd.umich.edu/casl/math for a current list of programs available for student support. The MLC is located in Room 2076, CB. The department also provides tutorial support for remedial algebra courses (MATH 080 and 090). Instructors for these courses will have information for students regarding the tutoring hours and location at the beginning of each semester.

SCIENCE LEARNING CENTER

The Department of Natural Sciences operates a Science Learning Center for students enrolled in a variety of science courses. The SLC program assures that all science students have adequate preparation for high achievement in science by providing self-paced, individualized instruction in essential mathematical, conceptual, and laboratory skills. Instructional modules are presented in one of several formats: printed material and digital or multimedia tutorials that may be accompanied by specific laboratory instruments. All instructional modules are available online at casl.umd.umich.edu/index.php?id=685031. Mastery of the subject matter is assessed by a short post test that is administered in the SLC. Students are encouraged to make advance reservations for post tests for instrument-based modules. Signup sheets are available in the SLC which is located in Room 1126, CW. It is open Monday through Friday during all academic semesters. Current hours of operation are listed on the SLC website casl.umd.umich.edu/index.php?id=685031.

Policies And Procedures

For complete information on current policies and procedures, contact the Office of Advising and Student Records, Room 1039 CB, (313) 593-5293.

Academic Procedures

DECLARING A MAJOR

Students are required to declare a major formally and officially by the time they have earned 60 credit hours. A student who does not comply with this policy is placed on registration hold. As a result, the student will not be allowed to register for the next term until a major has been declared.

SENIOR DEGREE AUDITS

A senior audit gives the student a list of requirements remaining to be fulfilled for graduation. During the term in which a student will complete 85 credit hours, a notice will be sent from the Office of Advising and Student Records that a senior audit is about to be completed. The student will first be asked to confirm his or her major. When the senior audit is completed, the student will be notified and instructed to schedule an advising appointment, during which the audit will be reviewed. A final audit will be conducted automatically for students who have applied for graduation and are on the Degree Candidate List.

DROPPING AND ADDING COURSES

Changes in course elections, including dropping or adding a course, and substituting another course for one already elected, may be made during the official "drop/append period." To make a change in course election, a student may obtain an Add/Drop Form from the CASL Office of Advising and Student Records, Room 1039 CB, must obtain faculty signatures, if required, and must submit the form to the Enrollment Services Counter (1169 UC) by the established Add or Drop deadline. Students also have the option of dropping courses and adding open courses on line via UM-Dearborn Connect during regular registration periods and during the first two weeks of a full term or the first week of a half-term or mini-term.
Courses may be selectively (drop one or more course, but stay enrolled in at least one course) dropped through the ninth week of a full term or the fourth week of a half-term, but a W notation will be entered on the transcript. A student may completely withdraw from any semester through the official last day of classes for that particular semester. Consult Enrollment Services (1169 UC; 313-583-6500) for more information about exact dates, signature requirements, and fee assessments.

**ELECTING MORE THAN 18 CREDIT HOURS**

Students must have written permission from the Office of Advising and Student Records to elect more than 18 credit hours a term. Students whose GPA is below 3.00 are not allowed to elect more than the normal maximum of 18 hours.

**COURSEWORK AT OTHER INSTITUTIONS**

After a student first enrolls in a degree program at UM-Dearborn, he or she may not ordinarily transfer credits from a course taken at another college or university to apply to the requirements of the UM-Dearborn degree. Exceptions to this policy require written permission from the CASL Office of Advising and Student Records prior to registration for the course. Permission for transfer of credit from a non-UM-Dearborn institution is granted only for demonstrably extraordinary and urgent circumstances. Courses that are in progress at the time of admission and are so reported in writing to the Office of Admissions and Orientation may be transferred.

**CREDIT FOR CO-OP, INDEPENDENT STUDY AND OTHER EXPERIENTIAL COURSES**

In addition to the Cooperative Education Program with its paid work experience, independent studies, independent research, internships, and field experience courses are offered by various departments.

No more than 18 hours of credit may be counted toward graduation for cooperative education, independent/directed research, independent/directed studies, internships, and field experiences. There may be more specific limits on the number of independent study, reading, and research courses that may be applied to a major; see the faculty advisor in the major area for more specifics on this matter. Credit for laboratory/off-campus experiences must be arranged prior to the experiences; credits may not be arranged retroactively, after the experiences are completed.

**REGISTERING AFTER WITHDRAWALS**

A CASL student who first registers and then totally withdraws from two consecutive terms may be placed on academic probation and may not register without the explicit written permission of the Associate Dean or the Associate Dean’s representative.

A student who is required to withdraw from one academic unit may not be admitted to another UM-Dearborn academic unit within the same term that the withdrawal action was taken. See the General Information section of this Catalog for withdrawal policies.

**PETITIONS**

A petition is an official written request by the student to review information related to the student's academic record or to ask for approval of exceptions to policies or procedures. Petition forms are available in the CASL Office of Advising and Student Records, and must be filed in that office.

### Grading System

#### Grade Notations

The following notations may appear on a transcript to describe special situations in regard to a course.

**NC No Credit.** No honor points. Not computed in the grade point average. Used only in specially approved courses that are graded A, B, C, No Credit.

**I Incomplete.** No honor points. A student who cannot complete the work of a course before the end of the term must request permission to receive an incomplete grade. A contract form, obtained from the CASL Office of Advising and Student Records, Room 1039 CB, must be discussed with and approved by the instructor before the end of the term. If the work is not completed within either four months, or an earlier deadline specified by the instructor, the grade will be converted to an E. Incompletes may not be completed after graduation. An I notation will remain on the transcript, followed by the letter grade earned. In cases where an I is granted, but no contract is submitted, an IE will appear on the transcript.

**X Absent from Final Examination.** No honor points. An instructor may assign an X if a student has completed all the required coursework except for the final examination. The final exam must be taken within five weeks of the end of the term. If the exam is not completed in the required time frame, an E grade will be recorded. The X notation will remain on the transcript, followed by the letter grade earned. A course with an X mark may not be completed after graduation.

**Y Course extended beyond term end.** No credit. No honor points. Used only for courses that have been specially designed and approved to extend beyond the end of one term. A course with a Y mark may not be completed after graduation. If such a course is not completed, the Y will be converted to an E upon graduation.

**NR Grade Not Reported.** No honor points. Student should consult the Registrar immediately.

**W Official Withdrawal.** No credit. No honor points. Not computed in the grade point average. Students who drop a course or withdraw from all courses for a term before the deadline for official drops and/or withdrawals will receive for these courses the W notation. This notation may not be removed from the transcript.
S/E. Used only for specially approved courses. If a student passes, an S (satisfactory) is awarded. It is not computed into the grade point average. If a student does not pass, an E is awarded. If a student stops attending, without officially dropping, a UE is awarded. Both the E and the UE are computed in the GPA as failing grades. (Exception: Failing grades in additive credit courses that are graded S/E have no impact on the GPA.)

**P/F Pass/Fail Option.** No honor points. A student must elect to take a course under the Pass/Fail option. The instructor reports a letter grade (A through E), except in courses where the notation *No Credit* is acceptable. Enrollment Services converts the student's letter grade according to the following procedure:

1. Grades A through C- are posted on a transcript as P (Pass); counts toward residency requirement and credit hours toward graduation.
2. Grades D+ through E are posted on a transcript as F (Fail); no degree credit is earned.
3. A grade of UE is not converted to an F and is computed in the GPA the same as an E.

Neither a P nor an F is computed in the grade point average. This grading option applies only to courses offered by CASL. Students enrolled in degree programs in other units should check the pass/fail regulations in those units. The option is subject to the following conditions:

The pass/fail option is open only to students who are not on academic probation.
Courses taken under the pass/fail option may not be used to fulfill requirements for majors, minors, areas of focus, cognates, and/or teacher certification.

Students in the Honors Program must take all Honors Program requirements (including distribution) for a grade.

Courses taken under the pass/fail option must be specified on the registration form or added as such within the usual add period. Such courses may be dropped within the usual drop period.

1. Changing from the pass/fail option to a letter grade or vice versa is not permitted after the first two weeks of a full term or after the first week of a half-term.
2. A student is limited to, at most, four courses taken under the pass/fail option. Courses specifically designated as "S/E only" are not counted in this limitation.

**UE Unearned Fail.** This grade is assigned to any student who has never attended, or stopped attending class during the semester and did not officially drop. It is computed in the GPA the same as an E.

**VI Visitor-Official Audit.** No credit. No honor points. Not computed into the grade point average. An official audit, or visitor status, allows a student to attend a course but not elect it for credit. The VI notation appears on the transcript. Regular tuition fees are assessed.

**CHANGING GRADES**

A grade or notation once reported may be changed only when a demonstrable clerical error has been made or at the discretion of the instructor. Such a change must normally be made within four months of the end of the term in which the course was taken. CASL instructors must complete Supplementary Grade Report forms and submit them to the CASL Office of Advising and Student Records, Room 1039 CB.

**TERM AND CUMULATIVE GRADE POINT AVERAGE (GPA)**

The cumulative GPA is determined by dividing the total number of credit hours into the total number of quality points earned. The term GPA is determined by dividing the number of credit hours elected during a term into the number of quality points earned during the same term.

The number of credit hours excludes 1) courses in which a student received an NC; 2) courses taken on a pass/fail basis in which a P or an F is recorded; 3) S/E graded courses in which the student receives an S, 4) additive credit courses.

Grades associated with transferred courses are neither recorded nor used in computing the cumulative GPA. Past grades, however, may be reviewed for admission to specific units within UM-Dearborn.

Effective Fall 2005, for any course repeated in Fall 2005, or thereafter, grades earned in all attempts of a course will appear on the transcript, however, only the most recently earned grade will be reflected in the cumulative GPA. Some restrictions apply. For more details, please see a CASL advisor.

**Note:** Prior to Fall 2005, grades earned in all attempts of a course appeared on the transcript and were reflected in the cumulative GPA.

**Academic Honors**

**DEAN’S LIST**

A student is honored by inclusion in the Dean’s List if he or she meets two conditions: (1) has completed during the term at least 12 credit hours of graded coursework toward degree, and (2) has achieved a 3.50 or better term GPA. The Dean’s List is compiled three times a year, after the Fall, Winter, and Summer terms. Students who have I, X or Y notations are not eligible to be included. Upon completion of all courses for the term, eligible students may contact the CASL Office of Advising and Student Records to request a Dean’s List letter.

A second Dean’s List is generated for part-time students who have completed 12 or more credit hours of graded (A-E) coursework toward degree in the Fall and Winter semesters (of a given academic year) combined, and earned a minimum 3.50 GPA in each term.

Eligibility is based exclusively upon coursework completed at UM-Dearborn. The list is posted prominently in a display case in the CASL Building.

For information about other institution-wide honors and awards, please consult the General Information section in this Catalog.

**Academic Performance**

The goal of the College is to assist its students in making satisfactory and expeditious progress toward their degrees. In order to be graduated, the student must achieve not only a cumulative GPA of 2.00 or better, but also a 2.00 or better in his/her major, cognates, minor, or each area of focus. Steady achievement at this level is not always possible. From time to time students might perform at a level below 2.00 and still be permitted to register and thus to continue to make progress toward their degrees. The scholastic records of all students are examined at the end of each term during which they took courses.
PROBATION

If a student's cumulative GPA should fall below 2.00 at the end of a term, the student will be placed on "probation" and may be placed on registration hold for the next term. If the student's cumulative GPA reaches 2.00 or better at the end of this probationary term, the student is removed from probation. On the other hand, if the cumulative GPA is even lower at the end of the probationary term, the student would normally move to "required to withdraw" (RW) status and would not be allowed to reregister for the duration of at least one year. A student with a cumulative GPA substantially below 2.00 may be required to demonstrate his or her potential for readmission. Finally, if the cumulative GPA should show significant improvement but not yet reach 2.00 at the end of the probationary term, the student may be placed in "probation continued" status for one or more terms.

PROBATION CONTINUED

A student in "probation continued" status has an academic hold placed on registration. This means that the student may not register again until all grades for the probation continued term have been recorded and reviewed favorably. If the student on probation continued achieves a cumulative GPA of 2.00 or better at the end of this term, the student is removed from the academic hold and from probation. If the student should fail to achieve a cumulative GPA of 2.00 or better, the student would normally be required to withdraw (RW) and would not be permitted to register for the duration of at least one year. In extraordinary cases, a student might be permitted to register for a second term in the category of probation continued. A student with a cumulative GPA substantially below 2.00 may be required to demonstrate his or her potential for readmission. Normally, a student may be in the probation-continued category for only two regular terms.

Further information may be obtained from the CASL Office of Advising and Student Records, Room 1039 CB.

Code of Academic Conduct

In order to maintain the high academic standards subscribed to by UM-Dearborn, the College has adopted a Code of Academic Conduct that defines academic misconduct and outlines complaint and appeals procedures. The College, like all communities, functions best when its members treat one another with honesty, fairness, respect, and trust. Therefore, an individual should realize that deception for the purpose of individual gain is an offense against the community. Such dishonesty includes:

PLAGIARISM

Submitting a piece of work (for example, an essay, research paper, assignment, laboratory report) which in part or in whole is not entirely the student's own work without attributing those same portions to their correct source(s)

CHEATING

Using unauthorized notes, or study aids, or information from another student or student's paper on an examination; altering graded work after it has been returned, then submitting the work for re-grading; and allowing another person to do one's work and to submit the work under one's own name.

FABRICATION

Presenting data in a piece of work which were not gathered in accordance with the guidelines defining the appropriate methods for collecting or generating data and failing to include a substantially accurate account of the method by which the data were gathered or collected.

AIDING AND ABETTING DISHONESTY

ALTERING DOCUMENTS AFFECTING ACADEMIC RECORDS, FORGING SIGNATURES OF AUTHORIZATION OR FALSIFYING INFORMATION ON AN OFFICIAL DOCUMENT, ELECTION FORM, GRADE REPORT, LETTER OF PERMISSION, PETITION, OR ANY DOCUMENT DESIGNED TO MEET OR EXEMPT A STUDENT FROM AN ESTABLISHED CASL OR UNIVERSITY ACADEMIC REGULATION.

A faculty member has the responsibility to inform the students that academic dishonesty is not acceptable. Students are responsible for discovering the sort of conduct that would be viewed as unacceptable by reviewing the Code of Academic Conduct and by asking individual instructors for the standards of their respective disciplines.

Complaints and Appeal Procedures

Complaints alleging violation of the Code of Academic Conduct may be filed by faculty, students, or administrative staff of the University.

These procedures are available to all students, regardless of their academic unit, who are enrolled or have been enrolled within a period of one year prior to the filing of a grievance against a faculty or staff member in CASL.

RIGHTS OF PARTIES

A faculty member shall have the right to assign penalties, including lowered grades for coursework or an entire course, for violations of the CASL Code of Academic Conduct with the understanding that students have the right of appeal to the CASL Academic Judiciary Committee.

PROCEDURES

An instructor who has evidence during the term that a student has violated the Code of Academic Conduct should arrange a personal conference with the student, present the evidence with respect to the alleged offense, give the student an opportunity to state his or her case, and inform the student of the charges, if any, and the possible sanctions that may be imposed or recommended. After final examinations or coursework have been turned in, such notice may be impossible. In such circumstances, instructors may enter the lowered grade or other penalty into the permanent record.

If informal resolution of the dispute appears impossible, the faculty member or the accused party should seek the advice of the CASL Ombudsperson. The Ombudsperson shall inform both parties of their respective rights and attempt to mediate the dispute.
If the Ombudsperson is unable to mediate the dispute, either party may present a written grievance to the Ombudsperson formally requesting a hearing before the Academic Judiciary Committee.

HEARING

A student has the right to an impartial hearing before the CASL Academic Judiciary Committee, in order to present evidence, to state his or her case, or both. Students may decline to speak against their own interests. All parties shall receive 1) sufficient notice of the hearing, 2) a prompt and impartial hearing, and 3) written statement of decisions rendered.

FINAL APPEAL

A final appeal may be subsequently made to the Campus Appeals Board. Such an appeal should be channeled through the Dean of the College.

OTHER STUDENT GRIEVANCE PROCEDURES

Additional grievance procedures are available when there is a charge that the College, a department in the College, or a faculty or staff member in the College has reached a decision concerning any aspect of the student's academic affairs that is manifestly unfair or illegal. Grievants may challenge all aspects of the degree process and the grading process, with the exception of conclusionary judgments about academic competence and the desirability of established College academic policy.

These procedures are also applicable to a potential grievant who must offer grounds on which to allege personal harm or injury deriving from one or more of the following: 1) Discriminatory or intimidating treatment of students on the basis of race, sex, color, non-relevant physical disability, or any other legally impermissible distinction (age, religion, national origin or ancestry, marital status, sexual orientation, Vietnam-era status, parental status, etc.); 2) Rules, regulations, policies or procedures, or their implementation, which are inconsistent with federal regulations prohibiting discrimination in education on the basis of sex, race, or non-relevant physical disability; 3) Alleged violations of the Family Educational Rights and Privacy Act such as alleged accuracy of records; denial of access to records; allegations that records wrongly were made available to third parties without the student's consent; 4) Wholly arbitrary, capricious, or unprofessional conduct toward a student on the part of a faculty member, staff member or administrator whether or not related to race, sex, or physical disability for which no alternative appeals procedures are available. A complete copy of the CASL Student Grievance Procedures is available from the CASL Office of the Dean, 2002 CB.

Alternative appeals procedures such as petitions are available for cases handled by the Academic Standards Committee. Such grievances shall not be appealed under the Student Grievance Procedures, but must be appealed through the CASL Office of Advising and Student Records, 1039 CB. Contact the Office at (313) 593-5293 for further information about the processes by which such appeals are to be handled.

Policy Changes

All policies, procedures, and requirements are subject to change. These changes do not always coincide with the printing of a new Catalog. The most current information regarding CASL programs may be obtained from the CASL Office of Advising and Student Records, Room 1039 CB.

Programs and Course Offerings

Directory

CASL offers 32 degree programs and about a thousand courses. To help the reader find the program or course of interest, a directory is provided below. The following symbols are used to indicate the program type: C denotes a Certificate Program; Ma denotes a Major; Mi denotes a Minor and an area of focus; and NM denotes Not a Major or Minor. Changes may occur in the status of a program. Please check with the Office of Advising and Student Records, Room 1039 CB, or the relevant department office.

**Key to Course Listings**

The heading for each course listing contains the following information.

**Discipline and Course Number.** Courses are numbered in accordance with a University-wide numbering system: courses numbered 100 to 199 and 1000 to 1999 are introductory, courses 200 to 299 and 2000 to 2999 are intermediate, and courses 300 to 499 and 3000 to 4999 are advanced (upper-division).

**Course Title.** The bold face course title follows the course number.

**Credit Hours.** The number of credit hours will appear below the course title.

**Prerequisites.** Prerequisites to the course appear after the credit hours. They should be completed before the course is elected. An asterisk (*) denotes that course may be taken concurrently.

**Programs and Courses**

**African and African American Studies**

*(Minor only)*

African and African American Studies (AAAS) is an interdisciplinary program housed in the College of Arts, Sciences, and Letters at the UM-Dearborn. The program offers a flexible, challenging and stimulating course of studies for students who wish to pursue a minor that will allow them to:

- explore the unique cultural heritages and experiences of Africans and African Americans beyond the confines of a traditional curriculum;
- increase their skills in critical analysis, discourse and writing, while honing these tools in a multicultural classroom environment;
- gain a sense of perspective about the series of crucial issues confronting a multicultural society, including: cultural hegemony, social class antagonisms, gender inequities and the lingering legacy of pseudo-scientific racist preconceptions;
- become more knowledgeable, more active members of their communities as a result of their university experience.
Many of the courses offered in the African and African American Studies Program are cross listed with other disciplines, and its faculty hold appointments in various disciplines within the College, such as Anthropology, Communications, Economics, English, History, Political Science, Psychology and Sociology.

To fulfill a minor in African and African American Studies, a student must complete 18 credit hours of coursework in the program as outlined below.

**CONCENTRATION REQUIREMENTS**

**Required courses**

- AAAS 275 Introduction to Africana Studies ........... 3 hrs
- 300/400-level courses........................................15 hrs
- AAAS 498 Thesis* ........................................... 3 hrs

*Note: The thesis is optional and can be used to fulfill 3 hrs of the 300/400 level course requirement.

AAAS 275, taught at least once annually, introduces students to various issues and debates within African and African American Studies. The course will always incorporate both African and African-American themes; however, the emphasis may vary to reflect the specialties of the professor(s) at a given time. (HIST 106 or ENGL 239 may also be used to fulfill this requirement.)

Each term, AAAS offers a wide variety of 300 and 400 level courses that are designed to fulfill the core requirements of the AAAS minor. See the listing of AAAS course offerings below. Successful completion of this phase of the program requires that a student complete at least six of the required 15 credit hours in courses that are exclusively African and African-American in content. The courses that meet this criterion are identified by an asterisk (*) in the course offerings listed below.

Students minoring in AAAS may choose to complete their coursework with final thesis project (AAAS 498) that reflects particular interests developed during their course of study. The thesis option can be used to fulfill three hours of the required 15 hours of upper-division coursework. The AAAS thesis will be written under the direction of a faculty member whose scholarly interests are compatible with the research interests of the student.

**Courses from Other Disciplines**

Occasionally, other disciplines may offer courses relevant to the AAAS minor. In recent years, such courses have included: ENGL 390 Post-Colonial Literature, HIST 390 New World Cultures, and the SOC 391 Black Church Experience. With the approval of the AAAS advisor, such upper-division courses may be accepted as credit toward the AAAS minor.

For more information about the African and African American Studies program, please contact the CASL the AAAS office, 2041 CB or 1039 CB, (313) 593-5293.

**CERTIFICATE IN AFRICAN AND AFRICAN AMERICAN STUDIES**

Students completing the requirements for the minor may also obtain a certificate in AAAS, which provides students with evidence of specialization that can serve to complement other career or personal goals. Students who already have a bachelor’s degree may also earn a certificate to complement their undergraduate training. For additional information, contact the Office of the Dean, 2002 CB, (313) 593-5490.

---

###非洲与非洲裔美国研究 (AAAS)

####课程介绍

**AAAS 106  介绍过去的非洲**

- 3.000学分
- 必须在以下级别中注册： undergraduate

这门课程是一门关于社会、经济、政治、思想、文学和文化研究的课程，适合非裔美国人从历史的前史到非洲社会在五千年的发展。重点是非洲社会的内部动态以及外部力量的影响。主题包括：非洲文化根源，跨大西洋奴隶贸易和非洲 Diaspora 在新世界，欧洲征服和殖民秩序的特征。学生将被要求批判性地阅读、讨论、分析和撰写。当代黑人女性文学的当代复兴。学生将被要求阅读并分析非洲文学的几种文学流派。

**AAAS 239  介绍文学：非洲裔美国人**

- 3.000学分

这是一门研究非洲裔美国人文学的课程，旨在使学生了解重要的时期、作品和作者。课程将在历史背景下进行。内容将包括奴隶制、重建、Great Migration、Harlem Renaissance 和 Black women's literature。学生将被要求批判性地阅读、讨论、分析和撰写。

**AAAS 275  介绍非洲研究**

- 3.000学分
- 必须在以下级别中注册： undergraduate

这是一门非洲研究的入门课程，旨在让学生了解非洲的历史发展。这门课程将从非洲人首次登陆Virginia 在1619年，通过奴隶制和Civil War。重点将放在种族主义的起源和根深蒂固的文化和历史发展上。

**AAAS 316  非洲裔美国人历史**

- 3.000学分

这是一门研究非洲裔美国人从他们第一次登陆Virginia 在1619年，通过奴隶制和Civil War。重点将放在种族主义的起源和根深蒂固的文化和历史发展上。

**AAAS 322  歧视心理学**

- 3.000学分
- 先修课程： PSYC 170 或 171

这是一门关于种族、性取向和宗教歧视的心理学课程，旨在从心理学的角度，聚焦于压迫者和被压迫者的思维。
AAAS 325  Econ of Poverty/Discrimination
3. 000 Credits
Prerequisites: ECON 201 and ECON 202
An analysis of the economic aspects of poverty and discrimination. Emphasis on the theoretical economic causes of poverty and the economic bases for discriminating behavior, the impact of poverty and discrimination on individuals and society, and the effect of reform policies on the two problems. (AY).

AAAS 333  Intro to Gospel Music
3. 000 Credits
This course explores the history and aesthetics of Black sacred music within cultural context. Major figures (Thomas A. Dorsey, Mahalia Jackson, The Winans Family, Kirk Franklin), periods (slavery, Great Migration, Civil Rights movement), and styles (folk and arranged Negro spirituals, congregational songs, and gospel songs - traditional to contemporary) will be studied through recordings, videos, films, and at least one field experience. Underlying the course is the theory (Mellonie Burnim and Pearl Williams-Jones) that gospel music is an expression of African American culture that fuses both African and European elements into a unique whole. (OC).

AAAS 340  Race and Evolution
3. 000 Credits
Prerequisites: ANTH 101
An evolutionary survey of the biological differences among human populations in response to such factors as climate, culture, disease, nutrition and urbanization. The meaning of racial variation is discussed in terms of adaptation to environmental stress. "Race" is rejected, racism is discussed. (YR).

AAAS 345  West Africa Since 1800
3. 000 Credits
A history of the West African peoples since 1800, which focuses on their unique cultural heritage. Themes include: West Africa before the advent of alien domination, the European Conquest, West Africa under the Colonial regimes, and the liquidation of colonial rule and the reassertion of West African independence. (AY).

AAAS 368  Black Exp in U. S.-1865-Present
3. 000 Credits
The history of Blacks in America is traced from the Reconstruction era and the rise of Jim Crow segregation to the Civil Rights movement of the 1960's and the current period. Special attention is paid to the migration of blacks to the north and the social-economic situation which they encountered there. Specific topics to be addressed include formation of the NAACP. (AY).

AAAS 369  Civil Rights Movement in Amer
3. 000 Credits
A survey of race relations and civil rights activities from late 19th century to the present. The principal focus, however, is on the period since World War II, especially on the mass-based civil rights movement (1955-1965) and the various policy debates and initiatives of the past thirty years, most notably affirmative action and busing. We also examine critiques of non-violence and integrationism. (AY).

AAAS 371  African Exp in the Americas
3. 000 Credits
The course is a survey of African populations and cultures from 1500 to the present throughout the Americas. The focus of the course is on the Caribbean and Latin American contexts of these populations, but comparisons to North America will be made. Topics include the slavery, the relationship between Africans and indigenous populations, religions, politics, music, and questions of race and ethnicity. Readings will include ethnographic description, history, biography and fiction. (YR).

AAAS 385  Black Cinema
3. 000 Credits
The course will examine selected films from African American and African film traditions in order to analyze how their cultural production is responsive to the conditions of social oppression, economic under-development, and neo-colonialism. How film traditions define "Black aesthetics" will also be discussed. (AY).

AAAS 387  Southern Africa
3. 000 Credits
Prerequisites: POL 101 or POL 201
The focus of this course is on the politics of Southern Africa, especially of South Africa but including Zimbabwe, Mozambique, Angola, Zambia, and others. The international dimensions of regional politics are also covered. (AY).

AAAS 389  Odyssey of Black Men in Amer
3. 000 Credits
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)
This course will examine the struggle of African American men for personal, political, and creative expression. This course incorporates several literary genres (novel, poetry, drama, and film) and the literary voices of black men who range from professional writers to politicians, from athletes to actors. Students will be required to critically read, discuss, analyze, and write their own responses to the literature found in the texts. (YR).

AAAS 390  Topics in Af & Af Am Studies
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Professional Development
This course examines problems and issues in selected areas of African and African American Studies. The specific title of the course will change in the Schedule of Classes according to content. Course may be repeated for credit when specific topic differs. (OC).

AAAS 403  Minority Groups
3. 000 Credits
Prerequisites: SOC 200 or 201
The status of racial and ethnic minorities in the United States with particular reference to the social dynamics involved with regard to majority-minority relations. Topics of study include inequality, segregation, pluralism, the nature and causes of prejudice and discrimination and the impact that such patterns have upon American life. Students cannot receive credit for both AAAS 403 and AAAS 503. (YR).
AAAS 404  Dissed: Differ, Power, Discrim
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Classes:
Senior
Sophomore
Freshman
Junior
Have you ever been dissed? Why are some people targets of disrespect? This class examines the unequal distribution of power - social, economic, and political - in the United States and other countries that results in favor for privileged groups. We will examine a variety of institutional practices and individual beliefs that contribute to disrespect. We'll look at ways that beliefs and practices, like viewing inequality as consequence of a 'natural order', obscure the processes that create and sustain social discrimination. We will engage in the intellectual examination of systems, behaviors, and ideologies that maintain discrimination and the unequal distribution of power and resources. Students will not receive credit for both AAAS 404 and AAAS 504.

AAAS 449  Black Family in Contemp Amer
3. 000 Credits
Prerequisites: SOC 200 or 201
The African-American family is examined in relationship to the historical and contemporary forces that have shaped its characteristic patterns of family life. These forces include the influence of slavery, urbanization, racial discrimination and urban poverty. The patterns of family life include parental roles, family structure, kinship relations, and gender roles. (YR).

AAAS 469  20th-Cent Afr Amer Lit
3. 000 Credits
May not be enrolled in one of the following Classes:
Graduate
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)
An intensive study of major 20th-century African-American writers. Fiction, poetry, autobiography, and drama will be examined but one genre will be stressed in any given term, e.g., the novel. Lectures will provide historical and biographical context for analysis and discussion of the works. Students cannot receive credit for both AAAS 469 and AAAS 569. (YR).

AAAS 470  Black Women / Lit, Film, Music
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
Coll of Arts, Sciences&Letters
May not be enrolled in one of the following Classes:
Freshman
Prerequisites: FILM 240 or FILM 248 or FILM 385 or AAAS 239 or AAAS 275 or WST 275 or WGST 275 or WST 370 or WGST 370 or HUM 221 or HUM 222 or HUM 223 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 237 or ENGL 239 or ENGL 248 or ENGL 200
This course will examine works produced by Black women authors, activists, filmmakers and musical performers in order to determine the methods they have incorporated in order to challenge and eradicate the prevailing stereotypes about Black women while advancing their own personal and racial agendas. It will also focus on the extent to which race, gender and class have shaped the creative work of Black women. Students will be required to read, discuss, analyze and write their own responses to the works of such firebrands as author Zora Neale Hurston, activist Ida B. Wells, filmmaker Julie Dash, and singer Billie Holiday.

AAAS 473  Race, Crime, and Justice
3. 000 Credits
May not be enrolled in one of the following Classes:
Freshman
Prerequisites: SOC 200 or 201
This course is an analysis of race and its relation to crime in the criminal justice system. Students will analyze and interpret the perceived connection between race and crime, while exploring the dynamics of race, crime, and justice in the United States. This course is designed to familiarize students with current research and theories of racial discrimination within America's criminal justice system.

AAAS 477  African American English
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: LING 280 or LING 281 or LING 480
An examination of the structure, history and use of African-American English. Topics will include the pronunciation, grammar and vocabulary of African-American English, theories of origin, linguistic repertoire and code-switching in African-American communities, the Ebonics controversy, and the role of this variety in education and identity formation. Student cannot receive credit for both AAAS 477 and AAAS 577.

AAAS 491  Topics in African Diaspora
3. 000 Credits
This course deals with African Diasporan history from the 19th century to the present. The method is by definition cross-cultural and comparative, requiring that the works or figures under study represent a diversity of Diasporan nationalities and/or cultures. The course may focus on a wide range of topics. Students cannot receive credit for AAAS 491 and AAAS 591 when the topic title is the same.

AAAS 498  Thesis
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
May not be enrolled in one of the following Classes:
Sophomore
Freshman
Prerequisites: AAAS 275 or AAAS 239 or ENGL 239 or HIST 106 or AAAS 106
Students pursuing the AAAS minor or an area of focus in African and African American Studies may choose to complete their coursework with a final thesis project that reflects research interests developed during their course of study. This thesis, which can be used to fulfill three (3) hours of the required upper-division course work, will be written under the direction of a faculty member whose scholarly expertise is compatible with the research field(s) of the student. (OC).
AAAS 499 Independent Study
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
May not be enrolled in one of the following Classes:
Sophomore
Freshman
Prerequisites: AAAS 275 or AAAS 239 or ENGL 239 or AAAS 106 or HIST 106

Students pursuing the AAAS minor as well as those interested in focusing on some particular area in African and African American Studies may wish to do research on a topic not covered in the regular AAAS curriculum. This course provides an opportunity for students to conduct such research under the direction of a qualified faculty member. The project must be defined in advance in writing. (OC).

American Studies

American Studies is a field of study which examines the core values and ideas that define American culture, while at the same time emphasizing the diversity of its expressions in past and contemporary times. This scholarly inquiry draws upon the content of several disciplines and capitalizes also on the interdisciplinary content already common in courses offered on campus under English, History, Political Science, Sociology, Anthropology and other disciplines. Students in American Studies will not only come to a deeper understanding of their own culture, but will gain an appreciation for the challenges involved in the understanding of any culture. This course of study thus provides a thorough training in the liberal arts and is an excellent preparation for the job market or graduate study in a variety of fields.

PREREQUISITES TO THE CONCENTRATION
For the American Studies concentration, students are required to complete 4 prerequisite courses, two from Group A (below) and two from Group B, for a total of 12 credit hours:

**Group A**
- HIST 111 American Past I
- HIST 112 American Past II
- POL 101 Intro to American Government
- ENGL 237 Survey of American Literature

**Group B**
- AAAS 275 Intro to Africana Studies
- AAAS 239 Intro to African American Literature
- COMM 220 Survey of Mass Communication
- WGST 303 Introduction to Women’s Studies

(if adequate American content; please check with advisor)

CONCENTRATION REQUIREMENTS

**Upper Division**
At the upper division level, students must complete 9 courses (a total of 27 credit hours), beginning with AS 300, the gateway course, which provides an introduction to the subject matter and methods of American Studies.

The remaining 8 courses must be chosen from the tracks listed below. An American Studies advisor will provide guidance to students in their choice of courses, as there are additional courses not listed in the representative tracks which may be appropriate, some of which have their own discipline prerequisites. Students are also strongly encouraged to take an internship or independent study course in their senior year.

**Track 1. Comparative American Identities**
One of the distinctive features of American culture is the multiplicity of subcultures it includes. This makes the process of finding a personal and social identity a more complex process than in other more homogeneous societies. A number of courses can give a further understanding of the historical development and intersection of the variety of racial, ethnic, gender, or class identities in American life. Some representative courses for this track are:

- ANTH 455 Immigrants USA
- SOC 403 Minority Groups
- SOC 423 American Social Classes
- ENGL 445 20th/21st Century Women Authors
- ENGL 4705 Black Women in Lit, Film, Music
- HIST 368 Black Experience in US 1865-present
- HIST 370 American Women’s History

**Track 2. Work, Technology and Globalization**
This track encourages an understanding of American Studies through the world of work and technological innovation. Students will study how work and technology define and shape American culture – both in historic and in contemporary contexts. Students will explore how technology in America shapes both work identities and work environments. They will also consider how the American workforce is affected by the globalization of labor and other resources. Some representative courses for this track are:

- STS 300 Introduction to Science and Technology
- ECON 321 Labor in the American Economy
- HIST 349 Thomas Edison and His Era
- WGST 481 Gender and Globalization
- SOC 460 America in Global Society
- HIST 3665 Automobile in American Life

**Track 3. Literature, Arts and Culture**
This track provides an interdisciplinary approach to the study of literature, music, the visual and performing arts, popular culture, architecture and the environment, with the objective of understanding the arts in relation to major issues and themes in American social, political and historical development. In this track, exploration of the arts offers opportunities to further engage questions central to the American Studies field, such as, what is “American” about this novel, this school of painting, this music? What has been the role of the arts in the evolution of an American national identity? How has art inspired or reflected various American identities? The courses offered under this rubric feature a variety of historical periods as well as a diversity of gender, racial and ethnic special interests. Some representative courses for this track are:

- ARTH 361 American Art
- COMM 420 Critical Media Studies
- ENGL 452 Major 20th/21st Century American Authors
- FILM 456 American Cinema
- MHIS 331 Music of America
- MHIS 120 History of Jazz

**Track 4. Society, Religion and Politics**
This track examines the ways in which both personal and national identity are shaped through a dynamic process of interaction between American citizens and the broad array of civic, religious, and cultural institutions in American society. Within this framework, students will study competing ideas of citizenship and nationhood as they operate in a variety of historical and contemporary contexts. In addition, this same perspective affords students the opportunity to explore regional topics of interest such as Detroit culture, the history and
sociology of the auto industry, and the diversity of religious experience in Southeastern Michigan. Some representative courses for this track are:

- SOC 441 Sociology of the Auto Industry
- HIST 363 Religion in American History 1607-1865
- HIST 3695 The American City
- POL 304 American Political Thought
- POL 360 American Policy Process

Advising

American Studies concentrators are required to consult with an American Studies advisor. To inquire, contact the CASL College-Wide Programs office, 2036 CB, (313) 593-4925.

American Studies (AMST)

COURSE OFFERINGS

AMST 300 Comparat. American Identities
3.000 Credits
Must be enrolled in one of the following Levels:
- Undergraduate
  Prerequisites: COMP 106 or CPAS 40 or COMP 220 or COMP 270 or COMP 280

This course will confront and complicate the following key questions: what does it mean to be an American? What is American culture? Participants in this course will respond to the questions central to the American Studies field by reading and discussing historical, sociological, literary, artistic, material culture, political, economic, and other sources. Students will use this interdisciplinary study to examine the multiple identities of Americans - as determined by factors such as gender, race, class, ethnicity, and religion. While emphasizing the diversity of American culture, participants will consider some core values and ideas uniting America both in historical and contemporary society. Students will be invited to seek out and share fresh narratives of the American experience.

AMST 390 Topics in American Studies
3.000 Credits

Examination of problems and issues in selected areas of American Studies. Title in the Schedule of Classes will change according to course content. Course may be repeated for credit when specific topics differ.

Anthropology

Anthropology, the comparative study of humanity and culture, seeks to explain both diversity and similarity in human behavior around the world. It is an academic discipline that integrates a number of specialized fields, including Biological and Physical Anthropology, Archaeology, Social and Cultural Anthropology, Linguistic Anthropology, and Applied Studies of human problems.

The University of Michigan-Dearborn program emphasizes anthropology’s unique concern with the inter-dependence of human biology and culture. Anthropology at UM-Dearborn provides the foundation for a broad understanding of human behavior and values for students interested in a truly liberal education.

Anthropology is excellent preparation for all careers dealing with human beings. The holistic approach to culture and biology is especially useful for careers in the medical sciences, while the cross-cultural exposure is essential preparation for students going into professions such as education or business.

An advanced degree in anthropology or archaeology (usually a Ph.D.) ordinarily leads to a career as a university anthropologist or archaeologist. Increasingly, though, professional anthropologists work as independent consultants.

CONCENTRATION REQUIREMENTS

Required courses
- ANTH 101 Introduction to Anthropology ............... 3 hrs
- ANTH 202 World Cultures .................................. 3 hrs

An additional 24 credit hours of anthropology courses numbered 300 or above.* .......................................................... 24 hrs

*Three courses emphasizing the interaction of culture and biology (325, 331, 336, 340, 341, 345, 406, 409, 415, 430, 435, and 482) must be included among these 24 hours. Students are encouraged to take ANTH 331 prior to enrolling in the courses with the strongest biological emphasis (i.e., 336, 340, 341, and 409)

Mentor Program

The anthropology program sponsors a Mentor program in which junior and senior concentrators assist faculty in teaching introductory classes. They help students use the library, guide them through written assignments and exam preparation, and sometimes lecture or do demonstrations before the class. Participants regularly count this among the high points of their undergraduate experience.

Field School

Summer field schools in anthropology provide excellent training and experience for students interested in furthering their anthropological background and understanding. Field schools provide students with training in anthropological methods in archaeology, human paleontology, linguistics, primatology, and socio-cultural anthropology. Students have attended summer field schools in Australia, Jordan, Kenya, Peru, Guatemala, Costa Rica, Mexico, and the United States. Limited scholarship funds are available to students to help subsidize the cost of attending one of these programs. The scholarship program is competitive, and preference is given to students majoring or minoring in anthropology.

Cognates .............................................................................. 6 hrs

Students will elect six hours in upper-level courses that are to be chosen in consultation with, and have the approval of, the concentration adviser. Areas from which appropriate courses could be selected include psychology, sociology, linguistics, biology, economics, philosophy, history, literature, and the arts.

MINOR OR AREA OF FOCUS

A minor or area of focus consists of ANTH 101 and 12 hours of upper-division credit in anthropology.

Anthropology (ANTH)

COURSE OFFERINGS

ANTH 101 Introduction to Anthropology
3.000 Credits

A survey of anthropology which introduces the fundamental concepts and perspectives of the field. (F, W).
ANTH 202  World Cultures
3. 000 Credits

A comparative study of politics, economics, family and religion in selected cultures--foraging, tribal, peasant, and industrial. Provides a survey of theoretical concepts in social and cultural anthropology through the comparison of ethnographic case studies. ANTH 101 recommended. (YR).

ANTH 303  Intro To Women's & Gender Stud
3. 000 Credits

May not be enrolled in one of the following Classes: Freshman

This course provides an interdisciplinary overview of the key theories and topics in Women's and Gender Studies. Special attention is given to how gender intersects with class, race, nationality, religion and sexuality to structure women's and men's lives. Students are also introduced to methods of gender analysis and will begin to apply these methods to topics such as women and health, gender roles in the family, violence against women, and gendered images in the mass media.

ANTH 315  Body Image and Culture
3. 000 Credits

Prerequisites: ANTH 101 or WST 275 or WGST 275 or WGST 303 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or PSYC 303 or SOC 303 or ANTH 303 or HUM275

This course examines the biological and socio-cultural construction of body image in both men and women. We explore such cultural and social practices as nudity, tattooing, piercing, scarification, dietary habits, physical activity and sports performance and their associated myths and realities. We explore how the human body is a terrain of contested meaning within society. The course provides an examination of the causes and consequences of women's poor body image, contemporary and historically. Course materials include case studies from North America, Europe, Africa, Asia and the Pacific.

ANTH 320  Culture and Int'l Business
3. 000 Credits

Lectures, exercises and case studies explore anthropological concepts needed by managers in multinational and multi-ethnic work environments. Topics include the world economy in anthropological perspective, national culture and business culture, implicit values about work and time, and cross-cultural communication. Special emphasis is given to Japan and the Third World. ANTH 101 or SOC 200 recommended. (AY).

ANTH 325  Anth of Health and Environment
3. 000 Credits

Cultural conflicts over pollution, disease etiology, development and natural resources often originate and are played out in local ecosystems. Anthropologists are increasingly becoming involved as researchers, developers, and activists in these cultural strifes. This course reviews the work of environmental and medical anthropologists as well as other critical scholars who unravel the values, meanings and ideologies associated with ecological issues in given localities. Drawing on theoretical advances in critical medical anthropology, environmental anthropology and applied anthropology the course seeks to improve the knowledge and abilities of student anthropologists in their environmental health work.

ANTH 331  Human Evolution
3. 000 Credits

A survey of biological anthropology. This course is a prerequisite for all other upper-division bioanthropology courses. Topics include the human place in nature, primate biology and behavior, evolution theory, genetics, the fossil evidence for human evolution, human growth, and biocultural adaptation to the environment. (YR).

ANTH 336  Introduction to Primates
3. 000 Credits

Introduction to the fundamentals of primate paleontology, evolution, morphology, and behavior with an emphasis on understanding the evolution of primate and human social behavior. (YR).

ANTH 340  Race and Evolution
3. 000 Credits

An evolutionary survey of the biological differences among human populations in response to such factors as climate, culture, disease, nutrition, and urbanization. The meaning of racial variation is discussed in terms of adaptation to environmental stress. "Race" is rejected; racism is discussed. (AY).

ANTH 341  Human Paleontology
3. 000 Credits

A survey of the evolutionary history of life through the study of fossils and collaborative field and laboratory material. The evolution of humans and the primate order of mammals is emphasized. (AY).

ANTH 345  Cultural Ecology and Evolution
3. 000 Credits

An introduction to the study of human ecology. This course employs the case-study method to develop an evolutionary and biocultural perspective on the relationship between human beings and their environments. (YR).

ANTH 330  Prehistoric Archaeology
3. 000 Credits

Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior

An account of the methods and findings of modern archaeological science in the Old and New World. Methods considered typically include paleontology, dating techniques, stratigraphy, etc. Sophomore standing; ANTH 101 highly recommended. (YR).

ANTH 360  Myth, Magic, and Mind
3. 000 Credits

Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior

A broadly based introduction to the range of human mythical and magical traditions. Sophomore standing; ANTH 101 highly recommended. (YR).
ANTH 370  Indians of North America  
3. 000 Credits
Must be enrolled in one of the following Classes: Sophomore Senior Junior

The origin and development of cultures north of Mexico. A study of various culture areas and representative tribes at contact, and a political-economic analysis of the fate of American Indians since contact. The perspectives of Native American peoples are taken into account through books, novels, and poetry. Sophomore standing; ANTH 101 highly recommended. (YR).

ANTH 371  African Experience in the Americas  
3. 000 Credits

This course is a survey of African populations and cultures from 1500 to the present throughout the Americas. The focus is on Caribbean and Latin American contexts of these populations, but comparisons to North America will be made. Topics include slavery, the relationship between Africans and indigenous populations, religions, politics, music, and questions of race and ethnicity. Readings will include ethnographic description, history, biography and fiction. (YR).

ANTH 372  Anthropology of Latin America  
3. 000 Credits

The course is a survey of Latin American people and cultures from the conquest to the present. It will focus on culture change and sources of conflict by analyzing topics that include the economy, kinship, ethnicity, social stratification, gender, politics, religion, and the arts. Readings will include ethnographic description, history, biography, contemporary fiction. (YR).

ANTH 373  Anth Perspectives on the Middle East  
3. 000 Credits

This course examines Middle Eastern society from a cultural perspective. Topics discussed include kinship, gender, popular and orthodox Islam, nationalism, mass media, urbanization, and historical relations with the West. The course ends with an examination of the Arab immigrant experience in Metro Detroit. (AY).

ANTH 374  Anthropology of Europe  
3. 000 Credits

Introduces anthropological approaches to European culture, emphasizing ethnographies and community studies as well as social history from the classical and medieval to the present. Will include cultural implications of industrialism and urbanization. May focus on Western or Eastern Europe during a given semester. (AY).

ANTH 376  Power & Privilege in SE Mich  
3. 000 Credits
May not be enrolled in one of the following Classes: Graduate Freshman

An examination of the social and cultural systems that lead to power, privilege, and inequality in American culture. This course takes a local perspective, analyzing systems of inequality as related to such factors as race, ethnicity, gender, social class and sexual orientations. Field trips to local sites are included. (YR)

ANTH 377  Anthropology of Europe  
3. 000 Credits

This course examines Middle Eastern society from a cultural perspective. Topics discussed include kinship, gender, popular and orthodox Islam, nationalism, mass media, urbanization, and historical relations with the West. The course ends with an examination of the Arab immigrant experience in Metro Detroit. (AY).

ANTH 378  Independent Studies in Anthropology  
1. 000 TO 6. 000 Credits

Readings or analytical assignments in anthropology in accordance with the needs and interests of those enrolled and agreed upon by the student and instructor. Permission of instructor required. (F, W).

ANTH 390  Topics in Anthropology  
3. 000 Credits
Prerequisites: ANTH 101

Examination of problems and issues in selected areas of anthropology. Title in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

ANTH 391  Independent Studies in Anthropology  
1. 000 TO 6. 000 Credits

Prerequisites: ANTH 101

Readings or analytical assignments in anthropology in accordance with the needs and interests of those enrolled and agreed upon by the student and instructor. (F, W).

ANTH 392  Culture and Sexuality  
3. 000 Credits
Prerequisites: ANTH 101 or WST 275 or WGST 275 or WGST 303 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or PSYC 303 or SOC 303 or ANTH 303 or ANTH 303 or HUM 303

The study of women, men, children, socialization practices, and the genesis of sex roles cross-culturally. Students cannot receive credit for both ANTH 406 and ANTH 506. ANTH 101 recommended. (YR).

ANTH 393  Sexual Praxis and Theory  
3. 000 Credits
Prerequisites: WST 275 or WGST 275 or SOC 443 or PSYC 405 or ANTH 406 or ANTH 101 or WST 303 or PSYC 303 or SOC 303 or ANTH 303 or HUM 303 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275

This course will offer an overview of sexual differences including: the socio-cultural construction of gender, sexual behavior, and orientation; sex and sexualities in language and literature; and diversity by race, class, and cultural heritage. These topics will enable students to understand human sexuality within and across a continuum removing notions of duality, or polarity, in sexual behaviors and orientations. Examples both from within Western society and from non-Western societies may be used to further

**ANTH 409 Human Body, Growth & Health**  
3.000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites:  
This course provides an advanced undergraduate introduction to the topic of human growth and shows how human growth can be a reliable measure of the psychological, social, economic and moral conditions of a society. A major theme will be the interplay of biology and culture in shaping the patterns of human growth and, consequently, the health of populations and individuals.

**ANTH 412 Men and Masculinities**  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
May not be enrolled in one of the following Classes:  
Sophomore  
Freshman  
Prerequisites: SOC 200 or SOC 201 or ANTH 101 or WST 275 or WGST 275 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or WGST 303 or PSYC 303 or SOC 303 or ANTH 303 or HUM 303  
This course addresses the question, "What is a man?", in various historical, cross-cultural, and contemporary contexts. A major focus on the social and cultural factors that underlie and shape conceptions of manhood and masculinity in America as well as in a variety of societies around the globe. (AY).

**ANTH 415 Nutrition and Health**  
3.000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
The influence of nutrition on physical and mental development from conception to adulthood. Topics include: 1) the definition and function of the essential nutrients for people, 2) basic principles of human growth and development, 3) the causes and consequences of under- and over nutrition, 4) feeding practices for infants and children and the development of food habits, 5) nutrient and food problems in the local region and in global perspective. Students cannot receive credit for both ANTH 415 and ANTH 515. (YR).

**ANTH 420 Kinship and Marriage**  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: ANTH 101 or ANTH 201  
A study of the diversity of kinship and marriage systems, and of the history of kinship theory which has played a seminal role in the development of general anthropological theory. Students cannot receive credit for both ANTH 420 and ANTH 520. (OC).

**ANTH 421 Education and Culture**  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
How and where do people learn? Why are there schools, and how is schooling culturally organized? Why do school experiences tend to vary by "race", social class, and gender? What insights does anthropology bring to practical problems of learning and teaching? Students cannot receive credit for both ANTH 421 and ANTH 521. ANTH 101 or SOC 200 recommended. (AY).

**ANTH 422 Narrative Anthropology**  
3.000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
A consideration of alternative approaches to gaining ethnographic understandings by reading anthropological novels (Bohannan, LeGuin), fiction and poetry by non-western authors (Silko, Achebe), and travel writing (Chatwin, O’Hanlon). Junior standing; ANTH 101 highly recommended. (YR).

**ANTH 425 Language and Society**  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
An examination of the social functions of speech through readings and exercises, emphasizing schools and other applied settings. Topics include ethnic and social class dialects, code switching, and the organization of conversation. Students cannot receive credit for both ANTH 425 and ANTH 525. (OC).

**ANTH 430 Medical Anthropology**  
3.000 Credits  
Must be enrolled in one of the following Classes:  
Sophomore  
Senior  
Junior  
A comprehensive examination of how culture mediates processes of illness and healing. Comparative materials are examined which provide a context for an anthropological analysis of modern biomedicine. Sophomore standing; ANTH 101 highly recommended. (YR).

**ANTH 435 Human Genetics**  
3.000 Credits  
An analysis of human genetic variation in terms of the theory of population genetics considers such polymorphisms as blood groups and variant hemoglobin’s as well as morphological characters like stature, skin color, and so on. Emphasis is on the genetics of human populations and particular attention is drawn to cultural factors affecting human biology. (OC).

**ANTH 440 Religion and Culture**  
3.000 Credits  
An introduction to the comparative study of religious systems. Explores religious beliefs and practices in non-Western cultures; surveys theoretical approaches to the study of religion; and discusses how religions grow, develop, and change. ANTH 101 recommended. (YR).
ANTH 444  Political Anthropology
3. 000 Credits
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior
A consideration of some of the major anthropological views of politics, focusing on the relations of power to kinship, stratification, and religion in both states and stateless societies. Sophomore standing; ANTH 101 highly recommended. (OC).

ANTH 450  Anthropological Theory
3. 000 Credits
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior
An historical account of the development of anthropological theory, emphasizing the continuity between consecutive styles of explanation. Substantial consideration of recent theoretical developments in structuralism and ecological analysis. Sophomore standing; ANTH 101 highly recommended. (OC).

ANTH 455  Immigrant Cultures and Gender
3. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior
The history and culture of immigration since 1850, including: (1) formation and perseverance of immigrant communities and interethnic boundaries; (2) relations between the homeland and the immigrant; and (3) impact of migration on family life and gender roles. Students cannot receive credit for both ANTH 455 and ANTH 555. ANTH 101 recommended. (OC).

ANTH 460  Economic Anthropology
3. 000 Credits
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior
A comparative examination of the basis of political economy. Economic problems (the production and distribution of goods and services) will be considered in ecological, evolutionary, and political terms. The primary emphasis will be on traditional economies, on production and exchange at the household level, and on the effect of modern market systems on indigenous cultures. (OC).

ANTH 470  Doing Anthropology
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
A practicum of anthropological theory and method, including ethnographic interview and participant observation. Students will conduct field research and evaluate results with the help of classmates. Students cannot receive credit for both ANTH 470 and ANTH 570. ANTH 101 or SOC 200 highly recommended. (YR).

ANTH 477  Ethnographic Film
3. 000 Credits
Prerequisites: FILM 248 or HUM 248 or ANTH 101 or ENGL 248 or JASS 248
This course will analyze ethnographic films as a medium for the construction of meaning in and across cultures. It will teach students to understand how the putatively "real" content of documentary film creates a mixture of fantasy, news and "science." Covering texts as varied as National Geographic photographic layouts, traditional ethnographic films made by anthropologists, and auto-ethnographies of cultural groups such as Native Americans and the Trobriand Islanders of Papua, New Guinea, the course will aim to deconstruct such oppositions as indigene vs. alien, usvs. them, and self vs. other. Students cannot receive credit for both ANTH 477 and ANTH 577. (AY).

ANTH 481  Gender and Globalization
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
Coll of Arts, Sciences&Letters
May not be enrolled in one of the following Classes:
Sophomore
Freshman
Mass media, politics, and academia are full of references to globalization, and a future "world without borders." This interdisciplinary course considers the implication of globalization for women's lives, gender relations, and feminism. Topics covered include the global factory, cross-cultural consumption, human rights, global communications, economic restructuring, nationalism, and environmental challenges. Rather than survey international women's movements, this course explores how globalization reformulates identities and locations and the political possibilities they create. (AY).

ANTH 482  Psychological Anthropology
3. 000 Credits
Prerequisites:
Cross-cultural comparison of theories of human nature, including psychoanalytic anthropology, culture-and-personality, and other theories from Western science, as well as non-Western theories about such concepts as the person, emotions and mental illness. Students cannot receive credit for both ANTH 482 and ANTH 582. ANTH 101 and PSYC 170 or 171 highly recommended. (YR).

ANTH 498  Independent Study
1. 000 TO 6. 000 Credits
Readings or analytical assignments in anthropology in accordance with the interests and needs of students enrolled and agreed upon by the instructor and student. Written permission of instructor required.

ANTH 499  Readings in Anthropology
1. 000 TO 3. 000 Credits
For students desiring study not available in the regular course offerings. Students cannot receive credit for both ANTH 499 and ANTH 599. (F, W)

**ART 201 Beginning Painting**

Lectures on the fundamentals of painting along with work in the studio. Basic ideas of structure, composition, and color are explored through individual and group instruction. Students work from still-life and from the model. This is a broad introductory painting course designed for the student unfamiliar with fundamentals of design and color. Material: acrylics. (YR).

**ART 202 Beginning Drawing**

Lectures alternate with studio work in the investigation of drawing fundamentals. Students receive individual and group instruction as they work from still life setups, nature, and from the model. Emphasis is placed on the development of critical skills and perceptual drawing techniques for students with little or no studio experience. Pastel, charcoal, conte, pencil, and inks will be used. (YR).

**ART 204 Beginning Watercolor**

Through lectures and studio work, students will explore the fundamentals of watercolor painting. To demonstrate the dynamics of the medium, a variety of approaches and techniques will be used, including realistic, abstract, and experimental painting. Subject matter includes still life, the figure, possible outdoor sketching and painting from the imagination. All levels of students are given individual guidance. (YR).

**ART 206 Basic Design-Color**

Students will be introduced to the complex and diverse subject of color. The areas of study include principles and theories of color, practical application and technique, and the phenomenon of color interaction. The art elements (line, shape, value, space, form, and texture) and design principles will be applied within specific assignments. Compositional concerns and creative problem solving will be emphasized. (YR).

**ART 306 Intermediate Design-Color**

The design emphasis will be on line and movement, positive/negative space, push/pull dynamics and a study of the nature of grids. The color emphasis will focus on tertiary colors, the effect of variations in color intensity and tonal contrast. There will also be a study of various twentieth century design movements such as the Russian Avant Garde, Constructivism and the Bauhaus, with some assignments modeled on these styles.

**ART 321 Intermediate Painting**

Students who have mastered basic vocabulary and techniques will be asked to sustain and develop several large paintings. Various painting approaches, styles and concepts will be explored though lectures and studio work. Students will be encouraged to develop their own personal image as they work from a variety of subject matter. (F, W).

**ART 322 Intermediate Drawing**

Students who have mastered basic vocabulary and techniques are asked to sustain and develop several large drawings. Lectures will consider the fundamentals of drawing and studio work will continue to be refined in a variety of media. Students are encouraged to develop their own personal image through work from their imagination. (F, W).

**ART 323 Figure Drawing**

This course is designed to teach each student about the complex human form through the act of observation, drawing, and memorization of specific anatomical terms. Emphasis will be on proportion, anatomy, composition, and expression. Students will draw from a live model.

**ART 324 Intermediate Watercolor**

Students will continue to develop skills using various watercolor techniques. Studio and lectures will explore subjects such as still life, the figure, landscape and painting from the imagination. All levels of students are given individual guidance. (OC).

**ART 332 Creating the Graphic Novel**

This course focuses on the creation of an original graphic novel from inception to fully developed story. Students work on character, plot development, dialogue, drawing style, and layout planning, and are encouraged to introduce any cross-disciplinary techniques such as digital applications when appropriate. Lectures and readings consider contemporary media.

**ART 390 Topics in Applied Art**

Study of various media and techniques in selected areas of applied art. Title as listed in the Schedule of Classes will change according to content. Course may be repeated for credit when the topics differ.

**ART 399 Independent Studies in App Art**

Readings or analytical assignments in applied art in accordance with the needs and interests of those enrolled and agreed upon by the student and the instructor. (F, W).

</table>
STAT 390  Topics in Applied Statistics
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate

A course designed to offer selected topics in applied statistics. The specific topic or topics will be announced together with the prerequisites when offered. Course may be repeated for credit when specific topics differ. (OC)

STAT 425  Applied Statistics II
3. 000 Credits
Prerequisites: STAT 325 or STAT 363 or MATH 363 or SOC 383

A continuation of STAT 325. This course treats both the principles and applications of statistics. Elementary theory of estimation and hypothesis testing, the use of the normal, chi-square, F and t distributions in statistics problems will be covered. Other topics are selected from regression and correlation, the design of experiments, analysis of variance, analysis of categorized data, nonparametric inference, and sample surveys. (W).

STAT 430  Applied Regression Analysis
3. 000 Credits
Prerequisites: STAT 425

Topics include single variable linear regression, multiple linear regression and polynomial regression. Model checking techniques based on analysis of residuals will be emphasized. Remedies to model inadequacies such as transformations will be covered. Basic time series analysis and forecasting using moving averages and autoregressive models with prediction errors are covered. Statistical packages will be used. Students cannot receive credit for both STAT 430 and STAT 530.

STAT 440  Design and Analysis of Experiments
3. 000 Credits
Prerequisites: STAT 425

An introduction to the basic methods of designed experimentation. Fixed and random effects models together with the analysis of variance techniques will be developed. Specialized designs including randomized blocks, Latin squares, nested, full and fractional factorials will be studied. A statistical computer package will be used. (W).

Arab American Studies (AAST) COURSE OFFERINGS

AAST 238  Intro to Lit: Arab American
3. 000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40

This course in an introduction to Arab American literature, its historical and cultural contexts and contemporary relevance. Topics will include the literary and cultural productions of Arab immigrants, their transnational vision, and explorations of such concepts as home, memory and identity; the literary, dramatic and poetic responses of Arab American writers to 9/11 and the ongoing war on terror; the role Arab American literature in offering different versions of Arab and Arab American lives and experiences from the one circulated in mainstream media, Hollywood cinema and culture.

AAST 267  Arab & Arab American Workshop
3. 000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40

The Arab and Arab American Writers Workshop is a creative writing workshop focusing on poetry and fiction. Students will explore Arab American literature, writers, and themes. Students are expected to work on their own manuscripts as well as critique outside readings. The workshop will be conducted under the guidance of Arab and Arab American faculty and is open to all students.

AAST 381  Intro to Postcolonial Studies
3. 000 Credits
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 240 or ENGL 250

This course offers a general introduction to Postcolonial Studies - a field of cultural inquiry that questions how personal identity (specifically race, language, and ethnicity) shapes, and is shaped by, the politics of colonization and nationalism. Students will clarify the subject of Postcolonial Studies by examining a variety of cultural and linguistic objects (literature, film, TV-journalism, slave- and middle-passage-narrative, and political manifesto) from a variety of cultural perspectives (Arab American, Anglo-Indian, West African, and Caribbean). AAST 390  Topics in Arab American Study
3. 000 Credits

Examination of various topics dealing with Arab American Studies. Titles will change according to content and schedule of classes. Course may be repeated for credit when specific topic differs. (OC).

AAST 4676  Arab Americans Since 1890
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate

This course traces immigration from Syria, Lebanon and Palestine (Bilad al-Sham) to the U. S. from the 1890’s to the present. We begin by utilizing theories on immigration and ethnicity in order to understand patterns of settlement, work, and leisure, and examine the Arab Americans’ religious life, press, and evaluate their membership in unions and political parties. Participants will gain knowledge of the immigrants’ past achievements and more recent scholarship on their development in public and private spheres. The course includes activities in local institutions, researching archival material, and contact with community leaders. This course will provide knowledge of the historical roots of the Arab Americans’ adjustment to life as U. S. citizens and will prepare the students for further inquiry.

AAST 4677  Arab American Identity
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate

This course examines the formation of Arab American identity by exploring its origins and several markers of its development. Beginning with the political changes in the Arab Americans’ ancestral homelands leading up to WWI, we reconcile the immigrants’ feelings of peoplehood with recent studies on aspects of their ethnic, racialized, nationalist, gendered, and assimilative lives. The course addresses responses to the Arab
Americans’ official status as “white,” sample of Arab American feminist writings, manifestations of political awareness in the U. S. in response to political changes in the Middle East, and the Arab Americans’ place within studies on ethnicity, gender, and race before and after September 11, 2001.

AAST 473 Arab American Women Writers
3.000 Credits
May not be enrolled in one of the following Classes: Freshman

This course examines the literary and cultural contributions of Arab and Arab American women novelists, poets, filmmakers and artists to the development and consolidation of cultures of understanding and coexistence; explores the relations between, among others, citizenship and belonging, race and national security, gender and geographical mobility, and ethnic minorities and mainstream consciousness; stresses how literary and artistic productions of Arab and Arab American women writers and artists fosters alternative visions of socio-cultural coexistence, dialogue, and hospitality by means of technical and stylistic experimental and renovation. For graduate credit take AAST 573. Students cannot receive credit for both AAST 473 and AAST 573.

AAST 490 Topics in Arab Amer Studies
3.000 Credits
The content of this course will vary. All courses which will run under this number will cover Arab American issues.

Arabic Studies
(minor only)

MINOR OR AREA OF FOCUS
A minor consists of 12 hours of upper-division credit (four courses at the 300-400 level) in Arabic

Prerequisites to the Minor
Non-native speakers of Arabic must successfully complete Arabic 202: Intermediate Arabic II (at or outside UMD) or demonstrate equivalent Arabic Proficiency Exam offered by LCC Department.

Required course
AAST 301 Survey of Arabic Literature ......................... 3 hrs

Students may choose the rest of their credit hours from the following courses:

ARBC 301 Advanced Arabic Conversation and Composition I
ARBC 302 Advanced Arabic Conversation and Composition II
ARBC 305 Language Of Business
ARBC 332 Arabic Cinema
ARBC 351 Contemporary Arabic Literature

Arabic (ARBC)

COURSE OFFERINGS

ARBC 101 Beginning Arabic I
4.000 Credits
Prerequisites:

First course in the two-course elementary Arabic sequence. Listening comprehension, speaking, reading, writing, and culture are emphasized. Course materials promote the use of language to communicate with others and function in Arabic culture. (F, W, S).

ARBC 102 Beginning Arabic II
4.000 Credits
Prerequisites: ARBC 101 or MCL 101 or APL 102 or APL 201 or APL 202 or APL 301 or APL 302

Second course in the two-course elementary sequence. Continued emphasis on culture and the four skills of listening, speaking, reading, and writing. (F, W, S).

ARBC 201 Intermediate Arabic I
4.000 Credits
Prerequisites: ARBC 101 or MCL 102 or APL 201 or APL 202 or APL 203 or APL 301 or APL 302

An intermediate-level course designed to increase proficiency in listening, speaking, reading, and writing in a cultural context. Emphasis is placed on acquiring new vocabulary and expanding the use of grammar structures. (YR).

ARBC 202 Intermediate Arabic II
4.000 Credits
Prerequisites: ARBC 201 or MCL 201 or APL 202 or APL 301 or APL 302

Second course in the two-course intermediate Arabic sequence. Continued emphasis on the development of the four skills of listening, speaking, reading, and writing.

ARBC 301 Adv Conversation & Comp I
3.000 Credits
Prerequisites: ARBC 201 or APL 201 or APL 301 or APL 302

This course is designed for students who have already had the equivalent of four semesters of Arabic instruction. The course emphasizes the four language skills with specific attention to the productive skills, oral and written. The course introduces authentic reading materials drawn from different disciplines such as religion, literature, history, and politics, reflecting different styles of Arabic and different periods. (F)

ARBC 302 Adv Conversation & Composition
3.000 Credits
Prerequisites: ARBC 201 or APL 301 or APL 302

A continuation of ARBC 301. It continues to develop the four language skills with specific attention to the productive skills, oral and written. The course introduces authentic reading materials drawn from different disciplines such as religion, literature, science, politics, reflecting different styles of Arabic and different periods. (W, YR)

ARBC 305 Language of Business
3.000 Credits
Prerequisites: ARBC 301

An introduction to the language and cultural practices of the Arab world of business. Particular emphasis will be placed on learning the terminology used in typical business correspondence and documents related to the world of finance, investment, import, and export, and commerce. A variety of businesses will be examined and opportunities for practice in reading and composing business letters will be provided. (W, AY)
ARBC 331 Survey of Arabic Literature  
3.000 Credits  
Prerequisites: ARBC 301  
Arabic 331 surveys selections from writings in Arabic prose literature (maqama, novel, short story) and poetry that reflect the intellectual, literary and cultural development of the Arabs from pre-Islamic times, up to the present. The course will also explore the social, political, and cultural changes in the Middle East and the development of modern Arabic literary forms.

ARBC 332 Arabic Cinema  
3.000 Credits  
Prerequisites: ARBC 301  
The course examines the development of Arabic cinema in its socio-cultural contexts through a range of selected films. It covers the different cinematic genres, prevalent themes and diverse trends and schools across the spectrum of Arab countries including Egypt, Tunisia, Lebanon, Morocco, and Palestine. The course elaborates on the careers of film directors and their approaches to film making and to the cultural issues of their time. The course will be conducted in Arabic.

ARBC 350 Arabic Literature and Culture  
3.000 Credits  
An introduction to the literature and other art forms of the modern Arab world in cultural and historical context. Topics include the Arab world-view, religious attitudes and self-expression, and ethnicity and gender. The course assumes no prior knowledge of the region. All readings will be English translation. (YR).

ARBC 351 Contemporary Arabic Literature  
3.000 Credits  
Prerequisites: ARBC 301  
This course will explore the literary works of contemporary Arab writers from countries such as Iraq, Lebanon, Palestine, Algeria, France, and the U. S. Although the course covers a variety of literary genres such as the short story, memoirs, and poetry, it puts special emphasis on the Arab contemporary novel. It also provides an in-depth critical analysis of major themes dealt with by authors in their works such as identity, minority, gender, nationality, war, family, ethnicity, religion, homeland and home, politics, society and culture. Major historical, political, social, cultural, artistic and literary factors shaping and driving contemporary Arabic literary writings today also will be thoroughly examined. The course will feature films and documentaries in addition to internet-based activities.

ARBC 390 Topics in Arabic  
3.000 Credits  
Examination of problems and issues in selected areas of Arabic. Title as listed in Schedule of Classes will change according to content. Course may be repeated when specific topics differ. (OC).

Armenian  
(not a field of concentration, see Modern and Classical Languages)

Art, Applied  
(not a field of concentration, see Applied Art)

Art History

Art History may be elected as a concentration program within the Department of Literature, Philosophy, and the Arts. The art history program offers the student practical, critical, and historical studies in architecture, sculpture, painting, the decorative arts, printmaking, and photography. Each art is considered a creative process which, like language, has developed as an expression of human ideas, emotions, and life conditions. The history of these arts is presented as a visual record of the evolution of human societies, which can give the student a valuable introduction to the various world civilizations.

Students may elect one of two concentration tracks in Art History: Track A – Art History, or Track B – Museum Studies. The concentration programs offer the student a broad humanistic education within the context of an undergraduate degree and prepare the student for graduate work in academic, museum, or commercial fields.

PREREQUISITES TO THE CONCENTRATION........... 9 hrs

Students concentrating in Art History (Track A) or Museum Studies (Track B) are required to take the following prerequisites:
- ARTH 101 Western Art to 1400
- ARTH 102 Western Art since 1400
- ARTH 103 Arts of Asia

CONCENTRATION REQUIREMENTS ................. 33 hrs

Track A: Art History required courses .............. 21 hrs
One course from each of the following areas 15 hrs  
- Asian/Non-Western
- Ancient/Classical
- Medieval
- Renaissance/Baroque
- Modern

Also required 6 hrs  
- ARTH 400 Senior Seminar
- ARTH 410 Museum Practice Seminar

Electives......................................................... 6 hrs  
Two upper-level Art History courses

Cognates....................................................... 6 hrs  
One studio art course (ARTH 201, 202, 204, 206, 306, 321, 322, 323, 324, 332) and one upper-level course in a cognate discipline of Humanities and the Social Sciences. (Selections must be approved by the discipline advisor.) Courses with a strong interdisciplinary orientation are recommended.

Foreign Languages

Although competency in a foreign language is not required for the concentration, a reading proficiency in French and/or German is extremely important for anyone planning to pursue the study of Art History. Most graduate programs in Art History require at least two foreign languages.

Track B: Museum Studies required courses .......... 21 hrs
One course from each of the following four areas........... 12 hrs  
- Asian/Non-Western
- Medieval/Classical
- Renaissance/Baroque
- Modern
Also required ................................................................. 9 hrs
ARTH 400 Methods Seminar
ARTH 410 Museum Practice Seminar I
ARTH 411 Museum Practice Seminar II

Electives ................................................................. 6 hrs
Two upper-level Art History courses.

Required Cognates .................................................... 6 hrs
HUM 485 Internship 3 hrs
AND
One upper-level course selected from the following .............. 3 hrs
OB 354 Behavior in Organizations
COMM 330 Feature Writing
COMM 420 Critical Media Studies
COMM 440 Writing for the Organization
PSYC 430 Organizational Psychology

MINOR OR AREA OF FOCUS
A minor or area of focus consists of 12 hours of upper-division
credit in art history.

Art History (ARTH)

COURSE OFFERINGS

ARTH 101 Western Art to 1400
3. 000 Credits
An introduction to the history of art from the prehistoric era to
the end of the middle ages. Using a broadly chronological
structure, the course surveys changes in the style and substance
of western (European) art in this period. The course also
explores the connection between art and culture, and notes the
many interrelationships between the cultures that have formed
the western tradition. (F, W).

ARTH 102 Western Art from 1400
3. 000 Credits
A historical survey of western painting and sculpture from the
Renaissance through the twentieth century. (F, W).

ARTH 103 Arts of Asia
3. 000 Credits
An introduction to the visual arts of three Asian civilizations:
India, China, and Japan. Since this is a survey, the focus will be
placed on major monuments that are characteristic of these
artistic traditions. In order to better understand the works of art,
the cultural milieu including religion, philosophy, and parallel
arts will be considered. (YR).

ARTH 104 Arts of the Middle East
3. 000 Credits
From the eighth century, a new religious community with no
developed artistic heritage spread rapidly over the ancient
empires of the near and middle east and as far west as Spain and
Hungary. Appropriating established forms and traditions,
Muslim cultures created a brilliant system of religious and
secular art that reveals national diversity and an underlying unity
of purpose. This course provides an introduction to the visual
traditions of Muslim cultures. (YR).

ARTH 105 Creation of Art
2. 000 Credits
An art appreciation course based on videotapes. Great art does not
completely yield its secrets. The course helps the student to
understand the subject, the message or content of the creation and
the method that the artist used in making it. This course does not
fulfill the Art History concentration requirement. (F, W).

ARTH 106 History of Western Architect
3. 000 Credits
An introduction to the place of architecture in western culture.
The course treats architecture as the "mother of the arts" and
explores how buildings are perceived today and in the past, and
why enormous amounts of money and time were spent on them.
Structure and aesthetics will also be discussed, both in relation
to individual buildings and to their broader urban context. (YR).

ARTH 304 Detroit Study
3. 000 Credits
This course is an attempt to define a modern cultural history of
Detroit. Taught by two faculty members, the emphasis of the
course will vary but the following aspects of the city’s cultural
history will be covered is some detail: its literature, arts, music
and architecture; its social conditions and broader American
cultural context.

ARTH 305 Society and Arts in Detroit
3. 000 Credits
This course is an attempt to define a modern cultural history of
Detroit. A team of three or four faculty members will explore
the relationship between society and the arts in Detroit from
certain aspects: Detroit’s literature, arts, music and architecture;
its social conditions and broader American cultural context.
Field trips into the city are also included. Course not open to
students who have completed ARTH 304, ENGL 304, HIST
304, HUM 304, ENGL 304, or SOC 304.

ARTH 310 Art of India
3. 000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or
ARTH 104 or ARTH 106
An introduction to the Classical and Medieval civilizations of
India through the historical presentation of its characteristic arts
forms. The course will examine the philosophical, intellectual, and
visual structures of Hinduism, Buddhism, and Islam as these
interact to create both traditional and modern Indian culture. (AY).

ARTH 311 Art of China
3. 000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or
ARTH 104 or ARTH 106
An introduction to representative works of art produced in China
from the Neolithic era down to modern times. Examination of the
artefact's cultural context will be emphasized, including the
study of philosophy (Confucianism and Daoism) and religion
(Buddhism).
ARTH 312  Art of Japan
3.000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

An introduction to representative works of art produced in Japan from the Neolithic era down to modern times. The artifact's cultural context will be examined including religious practice (Shinto and Buddhism), influence from abroad, and other artistic developments in literature, music, and theatre.

ARTH 313  Chinese Painting
3.000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

This course is a survey of the painting of China from the earliest examples found in tombs through works influenced by the West during the modern period. The course focuses on selected artists who serve as representatives of major traditions of China's cultural and artistic heritage. Students will be introduced to Chinese philosophy and relevant literary genres that provide a context for the development of Chinese painting.

ARTH 315  Early Chinese Art and Archaeol
3.000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

An examination of the art and architecture of early China (Neolithic through Eastern Han). Recent excavations that have significantly changed our view of the early period will be given emphasis. Students will analyze relevant literary and philosophical texts in translation to enhance understanding of the cultural context. (OC).

ARTH 319  Egyptian Art
3.000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

The art of the Ancient world is examined through an intensive review of the visual traditions of Egypt: its monumental architecture, sculpture, painting and decorative artifacts. (AY).

ARTH 321  Greek Art
3.000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

This course surveys the history and art of Crete, the Cyclades, and Greece from the third millennium through the first century B.C. In the prehistoric period, the course will focus on both architectural and ceramic developments, as well as on the trade and economic contacts between Asia Minor and Greece. In the historic period, the course considers the major artistic developments in architecture, sculpture, and painting, focusing on how social, political or historical events caused these art forms to evolve and change over the centuries. (AY).

ARTH 322  Roman Art
3.000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

This course surveys the major art forms produced by both the Romans and Etruscans. The course begins with the Roman Republic (late sixth century B.C.) and concludes with the rule of Constantine in the fourth century A.D.). We will discuss the development of the urban, government complex (the Roman Forum), the evolution of domestic architecture, and the major artistic achievements in sculpture, painting, and the minor arts. We will focus on how social, economic, religious, political and/or historical events caused these art forms to evolve and change over the centuries. (AY).

ARTH 327  Myth & Ritual in Classical Art
3.000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 105

Polytheistic, multicultural religious practices shaped Greek and Roman culture and society. This course examines the main deities, myths, rituals and sanctuaries of the ancient Mediterranean through the study of art, architecture, texts and archaeology. Freestanding sculptures, relief sculptures, vase paintings, wall paintings, mosaics, coinage, altars and temples will be analyzed.

ARTH 331  Early Christian Byzant Art
3.000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

Borrowing its formal language from late antiquity and its symbolism from other mystery cults, the art of early Christianity emerged from the Roman catacombs to monumental expression under emperors Constantine and Justinian. (AY).

ARTH 332  Early Med and Romanesque Art
3.000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

A study of the dynamic interplay between barbarian, Christian and classical Mediterranean influences in the early Medieval period with a consideration of the art and architecture of the pilgrimage routes to Santiago de Compostela and of the crusader kingdoms in the Holy Land. (AY).

ARTH 333  Gothic Art and Architecture
3.000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

A survey of the architecture, sculpture and stained glass of the great cathedrals of Europe, focusing on Chartres, Amiens, Reims, and Bourges. A study of the patrons, builders, the new technology they employed and the cities in which they worked as well as an analysis of the emergence of naturalism in medieval manuscript illumination and panel painting. (AY).

ARTH 334  The 14th Century
3.000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

This is a course that examines the art and architecture of Europe in the 14th century: one of the great transitional periods in the history of western art. Beginning with the new developments in 13th-century Italian art by such artists as Giovanni Pisano and Giotto, the course charts the pattern of these developments in northern European countries as well. (OC).

ARTH 335  Women in Medieval Art
3.000 Credits
Prerequisites: ARTH 101 or ARTH 104 or ARTH 105 or ARTH 106 or WGST 275 or WGST 303

Women have often been regarded as the second sex of the middle ages due to the misogynistic attitudes of that era. Recent scholarship, however, has unearthed a significantly more
complex picture. Through a study of visual representations of women in medieval art, this course will examine women's roles in the creation and patronage of art and literature, economic and family issues, and women's participation in new and innovative forms of religious piety.

**ARTH 341 Art & Arch in Early Ren Florence**

3.000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103

This course examines the city of Florence as a work of art, as well as masterpieces of Florentine sculpture, painting, and architecture of the Early Renaissance (fifteenth century). Among the masters studied are the sculptors Nanni di Banco, Donatello, Ghiberti, Luca della Robbia, Pollaiuolo, and Verrocchio; the painters Masaccio, Fra Angelico, Fra Filippo Lippi, and Botticelli; and the architects Brunelleschi, and Alberti. Statuary, reliefs and tombs; altarpieces, fresco cycles and mythological pictures; churches and palaces are all studied within the context of the technical, philosophical, political and cultural developments of the quattrocento. The ideals of the Florentine Republic, Humanism, Neo-Platonism, and Millenarianism provide the historical and intellectual background for the study of these works of art and architecture. Issues of patronage, placement, restoration, art criticism, women's roles in society and reception will also be explored. (OC).

**ARTH 342 High Renaissance and Mannerism**

3.000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

**ARTH 343 Northern Renaissance Art**

3.000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

A survey of the art which arose amid the conflicts of late medieval mysticism and Renaissance humanism in 15th and 16th-century Germany and the Netherlands with emphasis on the works of Van Eyck, Dürer, Grünewald, Bosch, and Bruegel. (AY).

**ARTH 346 Bible and Western Tradition**

3.000 Credits

A detailed study of major episodes from the Bible, first as a literary work, and second as it is reflected in both poetry and the visual arts during the Renaissance and Baroque periods. Included are selected works by such masters as John Donne, George Herbert, and John Milton in poetry and Michelangelo, Raphael, and Leonardo da Vinci in painting and sculpture. (OC).

**ARTH 351 Southern Baroque Art**

3.000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

A study of the art of the seventeenth century in Italy and Spain, focusing upon Caravaggio, Annibale Carracci, Guercino, Reni, Cortona, Gaulii, Murillo, Zurbaran, and Velásquez, among others. (OC).

**ARTH 352 Northern Baroque Art**

3.000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

Study of the art of the seventeenth century in France, Flanders and Holland, with emphasis on Poussin, Georges de la Tour, the Le Nain brothers, Lebrun, Rubens, Van Dyck, Van Ruisdael, Vermeer, and Rembrandt. (OC).

**ARTH 361 American Art**

3.000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

A study of American painting, sculpture, and architecture from the colonial period to the present. In this survey of an arts tradition that has greatly depended upon developments in Europe, efforts will be made to identify what is American about American art. (AY).

**ARTH 362 Impressionism and Post-Impress**

3.000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

An examination of the origins of modern painting and sculpture in the art of the major Impressionists (Manet, Monet, Degas, Renoir) and Post-Impressionists (Cézanne, Seurat, Gauguin, Van Gogh). (OC).

**ARTH 363 Arts of the Twentieth Century**

3.000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

A contextual study of twentieth-century art that seeks to define the relationships between western art and society. In addition to a consideration of painting, sculpture, and architecture, the emergence of new media including altered and fabricated photography, video, and installation art - will be examined. Although a broad survey of a century rich in artistic achievements, the course will emphasize the dominance and influence of Pablo Picasso, Henri Matisse, and Frank Lloyd Wright. (AY).

**ARTH 364 Picasso**

3.000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

A critical examination of Pablo Picasso's art that chronicles the artist's achievements as a painter, sculptor, draftsman, printmaker, and ceramist. Lectures and readings are directed to positioning Picasso's masterworks in relationship to his art as a whole and in the context of twentieth-century art. (AY).

**ARTH 365 Modern Architecture**

3.000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

A survey of European and American architecture from the Chicago School to Post-Modernism. The course will trace the stylistic history of modern architecture while considering parallel issues of theory, social context, and building technology. Major architects studied will be Sullivan, Wright, Mies van der Rohe, Le Corbusier, and Johnson. (AY).
ARTH 366  The Modern Print  
3. 000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

A history of western printmaking from Post-Impressionism to the present. The course will examine the relationship of printmaking to major movements of the day, the impact of modern technology on traditional print processes, and the developing notion of printmaking as an integral form of expression for the modern painter and sculptor. Special emphasis will be placed on the contributions of Gauguin, Munch, Picasso, Johns, and Stella. (OC).

ARTH 367  Contemporary Art  
3. 000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

An examination of the most recent developments in modern art. In addition to painting and sculpture, consideration will be given to related forms of expression in performance art, photography, and video. (OC).

ARTH 368  American Photography  
3. 000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

This course explores the history of photography, its aesthetics, and social functions in the United States, beginning with the medium's emergence in the 1830s and concluding with contemporary practices. Lectures and discussions will attend to several threads of inquiry: the history and theory of the medium and its interpretation; the diverse functions of photographs in American society; the relationship between photography and American identity formation; and the status of the photograph in a post-photographic, digital age.

ARTH 370  The Arts of West Africa  
3. 000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

This course represents a survey of the sculpture, architecture, pottery, textiles, body ornament and performance arts of Sub-Saharan Africa (the Western Sudan and the Guinea Coast of Africa from the Sahara to the Gulf of Benin). Objects will be examined in light of individual cultures and religions, traditions, and social and political change. (YR).

ARTH 375  Urban Design Perspectives  
3. 000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

This course explores the ways in which urban design both creates and reflects past and present urban conditions, cultures, and spatial relationships. The course will look at the built environment architecturally, aesthetically, and anthropologically in order to highlight the ever-changing complexities of urban spheres. The placement and design of buildings and public spaces, and the resulting human interactions in those spaces, will be explored in comparative contexts.

ARTH 384  Islamic Architecture  
3. 000 Credits  
Must be enrolled in one of the following Levels: Undergraduate

Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 105

This course is a comprehensive study of history and development of Islamic architecture from its birth in the seventh century to the present time. The course is designed to explain major characteristics of Islamic architecture through the study and analysis of major monumental buildings both religious and secular: Mosques, Madrasas (schools), Mausoleums, Palaces, and other buildings. Detailed analysis also will be applied to different types of art associated with these buildings, such as wall painting, stucco work, wood carving, sculpture, mosaic, and calligraphy.

ARTH 390  Topics in Art History  
3. 000 Credits

Examination of problems and issues in selected areas of art history. Title as listed in the Schedule of Classes will change according to content. Course may be repeated for credit when topics differ. (OC).

ARTH 392  Masters of Western Art  
3. 000 Credits  
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

An intensive study of the complete work of a selected western painter, sculptor, or architect. In accounting for and interpreting the evolution of the large body of work by a major artist, instructors will focus on social, art-historical, and biographical determinants that shaped the art in question. Title as listed in Schedule of Classes will change according to content. Courses may be repeated for credit when specific artist differs. (OC).

ARTH 399  Independent Studies  
1. 000 TO 3. 000 Credits

Readings and research assignments in history of art selected in accordance with the special needs and interests of art history concentrators. May be repeated for a maximum of 6 credit hours. (F, W).

ARTH 400  Senior Seminar  
3. 000 Credits

Prerequisites: (ARTH 304 or ARTH 305 or ARTH 310 or ARTH 311 or ARTH 312 or ARTH 313 or ARTH 315 or ARTH 319 or ARTH 321 or ARTH 322 or ARTH 331 or ARTH 332 or ARTH 333 or ARTH 334 or ARTH 342 or ARTH 343 or ARTH 346 or ARTH 351 or ARTH 352 or ARTH 361 or ARTH 362 or ARTH 363 or ARTH 364 or ARTH 365 or ARTH 366 or ARTH 367 or ARTH 370 or ARTH 390 or ARTH 392 or ARTH 410 or ARTH 411 or ARTH 416 or ARTH 425 or ARTH 426 or ARTH 454) and (ARTH 304 or ARTH 305 or ARTH 310 or ARTH 311 or ARTH 312 or ARTH313 or ARTH 315 or ARTH 319 or ARTH 321 or ARTH 322 or ARTH 331 or ARTH332 or ARTH 333 or ARTH 334 or ARTH 342 or ARTH 343 or ARTH 346 or ARTH351 or ARTH 352 or ARTH 361 or ARTH 362 or ARTH 363 or ARTH 364 or ARTH365 or ARTH 366 or ARTH 367 or ARTH 370 or ARTH 390 or ARTH 392 or ARTH410 or ARTH 411 or ARTH 425 or ARTH 426 or ARTH 454) and (ARTH 304 or ARTH 305 or ARTH 310 or ARTH 311 or ARTH 312 or ARTH 313 or ARTH 315 or ARTH 319 or ARTH 321 or ARTH 322 or ARTH 331 or ARTH 332 or ARTH 333 or ARTH 334 or ARTH 342 or ARTH 343 or ARTH 346 or ARTH 349 or ARTH 351 or ARTH 352 or ARTH 361 or ARTH 362 or ARTH 363 or ARTH 364 or ARTH 365 or ARTH 366 or ARTH 367 or ARTH 370 or ARTH 390 or ARTH 392 or ARTH 410 or ARTH 411 or ARTH 416 or ARTH 425 or ARTH 426 or ARTH 454) and (ARTH 304 or ARTH 305 or ARTH 310 or ARTH 311 or ARTH 312 or ARTH313 or ARTH 315 or ARTH 319 or ARTH 321 or ARTH 322 or ARTH 331 or ARTH332 or ARTH 333 or ARTH 334 or ARTH 342 or ARTH 343 or ARTH 346 or ARTH351 or ARTH 352 or ARTH 361 or ARTH 362 or ARTH 363 or ARTH 364 or ARTH365 or ARTH 366 or ARTH 367 or ARTH 370 or ARTH 390 or ARTH 392 or ARTH410 or ARTH 411 or ARTH 425 or ARTH 426 or ARTH 454)

An introduction to art-historical research methods. The art historian's central task of interpretation is explored by considering the critical perspectives of connoisseurship, iconography, formal analysis, iconology, and modern literary theory. (OC).
ARTH 410  Museum Practice Seminar I
3. 000 Credits
Prerequisites: (ARTH 304 or ARTH 305 or ARTH 310 or ARTH 311 or ARTH 312 or ARTH 313 or ARTH 315 or ARTH 319 or ARTH 321 or ARTH 322 or ARTH 331 or ARTH 332 or ARTH 333 or ARTH 334 or ARTH 342 or ARTH 343 or ARTH 346 or ARTH 351 or ARTH 352 or ARTH 361 or ARTH 362 or ARTH 363 or ARTH 364 or ARTH 365 or ARTH 366 or ARTH 367 or ARTH 370 or ARTH 390 or ARTH 392 or ARTH 400 or ARTH 411 or ARTH 425) and (ARTH 304 or ARTH 305 or ARTH 310 or ARTH 311 or ARTH 312 or ARTH 313 or ARTH 315 or ARTH 319 or ARTH 321 or ARTH 322 or ARTH 331 or ARTH 332 or ARTH 333 or ARTH 334 or ARTH 342 or ARTH 343 or ARTH 346 or ARTH 351 or ARTH 352 or ARTH 361 or ARTH 362 or ARTH 363 or ARTH 364 or ARTH 365 or ARTH 366 or ARTH 367 or ARTH 370 or ARTH 390 or ARTH 392 or ARTH 400 or ARTH 411 or ARTH 425)

The course explores problems encountered in the field of art administration. Students will attend lectures given by art administrators and curators of local institutions and will be involved in the planning, organization, and presentation of an actual exhibition. (YR).

ARTH 411  Museum Practice Seminar II
3. 000 Credits
Prerequisites: (ARTH 304 or ARTH 305 or ARTH 310 or ARTH 311 or ARTH 312 or ARTH 313 or ARTH 315 or ARTH 319 or ARTH 321 or ARTH 322 or ARTH 331 or ARTH 332 or ARTH 333 or ARTH 334 or ARTH 342 or ARTH 343 or ARTH 346 or ARTH 351 or ARTH 352 or ARTH 361 or ARTH 362 or ARTH 363 or ARTH 364 or ARTH 365 or ARTH 366 or ARTH 367 or ARTH 370 or ARTH 390 or ARTH 392 or ARTH 400 or ARTH 410 or ARTH 425) and (ARTH 304 or ARTH 305 or ARTH 310 or ARTH 311 or ARTH 312 or ARTH 313 or ARTH 315 or ARTH 319 or ARTH 321 or ARTH 322 or ARTH 331 or ARTH 332 or ARTH 333 or ARTH 334 or ARTH 342 or ARTH 343 or ARTH 346 or ARTH 351 or ARTH 352 or ARTH 361 or ARTH 362 or ARTH 363 or ARTH 364 or ARTH 365 or ARTH 366 or ARTH 367 or ARTH 370 or ARTH 390 or ARTH 392 or ARTH 400 or ARTH 410 or ARTH 425)

This course is a continuation of ARTH 410. This course explores problems encountered in the field of art administration. Students will attend lectures given by art administrators and curators of local institutions and will be involved in the planning, organization, and presentation of an actual exhibition. This course is required of all students in the Art Administration track. (OC).

ARTH 416  Earl Mod Jpn Paint&Wood Prnts
3. 000 Credits
May not be enrolled in one of the following Classes: Graduate
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103

Paintings and woodblock prints of the Edo/Tokugawa (1600-1868) and Meiji (1868-1912) periods are considered in light of competing developments that on the one hand looked to Japan's classical tradition and on the other to the influence of art and artists from China and the West. Special attention is given to female artists and images of women. Students cannot receive credit for both ARTH 416 and ARTH 516. (OC).

ARTH 425  Women in Classical Antiquity
3. 000 Credits
May not be enrolled in one of the following Classes: Graduate
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

This course examines the evidence for the lives of women in Greek, Etruscan and Roman Antiquity, from the Bronze Age through the Imperial Period. Special emphasis will be placed on the archaeological evidence, especially works of art which illustrate women's lives and their relationships with men. Documents such as dedicatory and funerary inscriptions, the poetry of Sappho and Sulpicia, and selections from the writings of Homer, Hesiod, Aristotle, Pliny, Juvenal, and other ancient authors, will also be examined critically, particularly in relationship to the works of art. Students cannot receive credit for both ARTH 425 and ARTH 525. (YR).

ARTH 426  City of Ancient Rome
3. 000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103

This course will focus on the ancient city of Rome, from its foundation to its precipitous decline in the fifth century AD. It will explore the public art and architecture of the city, emphasizing the different types of evidence available (topography, architecture, sculpture, texts) for understanding the history, politics, religion, and urban development of Rome, as well as the various art historical and archaeological techniques used to analyze the evidence. (OC)

ARTH 427  Greek Architecture
3.000 Credits
Must be enrolled in one of the following Levels: Undergraduate
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

The architectural vocabulary established during the centuries of classical Greek civilization influences our culture to the present day. This course explores the history and development of this fundamental architectural tradition, focusing on the Greek temple, sanctuaries and holy sites, urban planning and public works, and domestic space. Students discuss the philosophical underpinnings of Greek architectural design, the engineering practices of Greek builders, as well as the cultural and social influences on Greek buildings and cities. This course begins with the emergence of humble mudbrick and timber buildings from the Dark Ages and continues through the height of cosmopolitan urban luxury in the 2nd century AD.

ARTH 454  Rembrandt
3. 000 Credits
May not be enrolled in one of the following Classes: Graduate
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

Rembrandt's paintings, drawings, and prints are considered in the full historical and cultural context of the Golden Age of the Northern Netherlands, a period of unprecedented wealth and cultural diversity. Special attention will be given to issues of style, iconography, biography, art criticism, gender, patronage and artistic technique. Students cannot receive credit for both ARTH 454 and ARTH 554. (YR).
Different conceptions of collage, montage, and assemblage have vitally shaped artistic practice in the twentieth century, perhaps even more so than the advent of modernist abstraction. The modern phenomenon of collecting, mixing, and sampling that permeates the last century up to and including the contemporary moment will be traced in the class across the thresholds of painting, sculpture, architecture, photography, and film. We will discuss a wide range of movements, genres, and styles (Cubism, Futurism, Surrealism, Dada, Weimar and Russian photomontage, Soviet film, found footage film, French decollage, postwar assemblage) and their relation to the ever-changing mass media, the urban, and the modernized - in short, the everyday. The last segment of the class addressed more recent interpretations of the collage paradigm, including installation art and digital applications. Student cannot receive credit for both ARTH 469 and ARTH 569.

ARTH 498 Advan Readings in Art History
1. 000 TO 3. 000 Credits

Independent study of problems and issues in selected areas of art history. May be repeated for credit when specific topics differ. (OC).

Astronomy (minor only)

MINOR OR AREA OF FOCUS

A minor area of focus consists of 12 hours of upper-division credit consisting of PHYS 305 (3 hours) plus 9 hours of upper-division credit in astronomy. Up to 3 credit hours in ASTR 495, 498 and/or 499 may be applied to the completion of the minor.

Astronomy (ASTR)

COURSE OFFERINGS

ASTR 130 Introduction to Astronomy
3. 000 Credits

A one-term introduction for those interested in learning about the present state of knowledge of the Universe, its origin, evolution, organization, and ultimate fate. Exciting new discoveries concerning extra solar planets, star birth, super massive black holes, dark matter/dark energy, and cosmology are discussed. Two years of high school math or its equivalent recommended.

ASTR 131 Introductory Astronomy Lab
1. 000 Credits

Prerequisites: ASTR 130 or PHYS 130

An introduction to some of the important observational techniques and analytical methods used by astronomers. Ground-based and satellite data will be used to reveal physical and chemical properties of the moon, planets, stars, and the Milky Way. Outdoor exercises involving telescopic observation of the sun, variable stars, nebulae, and external galaxies are also included. Constellation identification will be taught using off-campus planetarium facilities.

ASTR 361 Observational Techniques
3. 000 Credits

Prerequisites: (ASTR 130 or PHYS 130) and (ASTR 131 or PHYS 131) and( PHYS 126 or PHYS 151)

This course is designed to provide students with an understanding of some of the basic observational techniques use by astronomers in gathering and analyzing data from celestial objects. Practical experience in acquiring, displaying, and interpreting optical and radio observations using the University's 0. 4-m telescope and 2. 3-m radio dish will be emphasized. Topics will include astronomical coordinate system and timekeeping, telescope optics, the design and use of CCD detectors, fundamentals of multi-color photometry, an introduction to astronomical spectroscopy, and radio measurements of the Sun and interstellar hydrogen clouds at 21-cm wavelengths. (2 hours lecture, 3 hours laboratory)

ASTR 390 Topics in Astronomy
3. 000 Credits

Prerequisites: ASTR 130 or PHYS 130

A lecture in a topic of current interest in astronomy. Topics vary and are announced in the current Schedule of Classes. Three hours lecture.

ASTR 421 Stellar Astrophysics
3. 000 Credits

Prerequisites: PHYS 305 and (MATH 205 or MATH 215)

An application of important physical principles to stars and star clusters. Topics will include gravitational collapse and star formation, radiative transfer and stellar atmospheres, nucleosynthesis and the structure of normal stars, degeneracy and the endpoints of stellar evolution, and general relativistic effects in the vicinity of black holes. 3 hour lecture.

Behavioral Sciences

The major in Behavioral Sciences is an interdisciplinary program encompassing the disciplines of anthropology, psychology, and sociology. It is designed as a general preparation for a career in human services such as social work, counseling, criminology, or prevention/treatment programs in mental health. The idea for combining the three fields is based on the belief that it is important for an individual who plans to work with people to understand human beings as individuals (psychologically) who function in groups (social psychologically) within a social context (sociologically) which varies across cultures (anthropologically). These disciplinary perspectives offer different but complementary views of people. In order to understand, predict, or influence human behavior, one needs some comprehension of how humans develop, the problems they confront, the organization or structure in which they function, and how and why these go awry. It is also critical to have some exposure to the methods employed by behavioral scientists and some actual experience in the working world of the human services.

To enroll in this program, a student must develop a list of courses which are appropriate for her/his career goals or interests and which satisfy the requirements listed below. This list should be prepared in consultation with, and approved by, the Behavioral Sciences advisor, Roger Loeb. The concentration encourages specific vocational tracks shaped to the student’s career goals. Specific career and appropriate course selection
advice is available as follows: Michelle Leonard (gerontology), Pam Aronson (family), Lars Bjorn (law), David Chatkoff (counseling), Kevin Early (criminal justice), James Gruber (social work), Lora Lempert (women’s issues), Pam McAuslan (gender), Larry Radine (health care administration, law, corporations), Nitya Sethuraman (child development, language), Jane Sheldon (adolescence), Marie Waung (business and industry), and Nancy Wrobel (mental health)

PREREQUISITES TO THE CONCENTRATION

The concentration requires the student to take introductory-courses in

ANTH 101 Introduction to Anthropology
PSYC 170 Introduction to Psychology as a Natural Science
OR
PSYC 171 Introduction to Psychology as a Social Science
SOC 200 Understanding Society
OR
SOC 201 Contemporary Social Problems

CONCENTRATION REQUIREMENTS

The concentration also requires a minimum of 30 upper-division (300 and above) credits in the Behavioral Sciences including at least two courses in psychology, two in sociology, and one in anthropology. These courses must also include at least one course from each of the following categories:

Methods
ANTH 470, PSYC 415, PSYC 425, PSYC 4445, SOC 410, SOC 411.

Normal/Abnormal Personality
ANTH 480, PSYC 440, PSYC 441, PSYC 442, SOC 436, SOC 465.

Human Development
ANTH 406, ANTH 409, PSYC 300, PSYC 301, PSYC 302, PSYC 315, PSYC 407, PSYC 412, PSYC 418, PSYC 432, SOC 426, SOC 445.

Individual Issues
ANTH/SOC 407, ANTH 455, PSYC 320/SOC 382, PSYC 446, PSYC 455, SOC 4045, SOC 4075, SOC 440, SOC 446, SOC 447, SOC 461

Societal Issues
ANTH 340, ANTH 371, PSYC 322, PSYC 3955, SOC 350, SOC 403, SOC 426, SOC 449, SOC 466, SOC 467, SOC 468, SOC 469, SOC 470, SOC 473.

Social Organization/Social Structure
ANTH 370, ANTH 420, ANTH 440, ANTH 444, ANTH 460, PSYC 4305, SOC 422, SOC 423, SOC 435, SOC 450, SOC 477, SOC 483.

Applied
PSYC 485, CRJ 478.

Cognates ................................................................. 6 hrs

Students must also complete six additional hours in upper-level courses approved by the Behavioral Sciences advisor. These courses must be selected from courses which are not cross-listed with Behavioral Sciences courses. Recommended areas are biological science, communications, computer science, economics, education, English, foreign language, history, management, mathematics, philosophy and political science.

HONORS PROGRAM IN BEHAVIORAL SCIENCES

Behavioral Science students are eligible for the Honors Program which provides special opportunities for outstanding students, including a research training seminar, followed by independent research conducted in collaboration with faculty members. Students are accepted into the Honors Program early in their junior year. Prospective students should plan on completing the statistics and methods requirements by their junior year. Requirements for entrance are 1) GPA of 3.2 or higher in behavioral science courses and overall UM-Dearborn courses, and 2) informal evidence of being a superior student, such as high motivation and ability to work independently. Requirements for graduation with honors in behavioral science are the successful completion of the following:

• fulfillment of all requirements for behavioral sciences concentration
• PSYC 381 Principles of Statistics and Experimental Design or SOC/MATH 363 Introduction to Statistics
• PSYC 481 Computers in Psychology, normally taken Fall term, senior year
• PSYC 498 (Honors Seminars) normally taken Winter Term, junior year
• PSYC 499 (Honors Research) normally completed during senior year
• Research Proposal meeting, normally completed early in senior year
• Final Oral Defense, completed at least one month prior to graduation

Behavioral Sciences (BSCI)

COURSE OFFERINGS

BSCI 325 Nonviolence and Violence
3.000 Credits
Prerequisites: PSYC 170 or PSYC 171

A study of the origins and consequences of violent and nonviolent behavior, and the application of violence to personal, social, national and international issues.

Biochemistry

Biochemistry bridges the biological sciences and chemistry. This degree program is thus designed to provide the student with an understanding of the structural and functional relationships between the chemical constituents of cells and their role in life processes. The requirements for concentration include courses in biological sciences and chemistry, and appropriate courses in mathematics and physics. The degree in biochemistry prepares a student for careers in teaching, medicine, and research in industry or academia.

PREREQUISITES TO THE CONCENTRATION

A solid background in mathematics is essential to success in any of the scientific disciplines. Incoming students who intend to choose a concentration in Biochemistry should have completed at least three years of high school mathematics. First year
students should plan to enroll in MATH 105, MATH 115 or MATH 116 based on the results of their math placement tests. The CHEM 134 and CHEM 136 or CHEM 144 and CHEM 146 sequence is a prerequisite to many other courses in the Natural Sciences Department; students should complete this sequence as soon as possible.

BIOL 130 and 140 .......................................................... 8 hrs
CHEM 134 and 136 General Chemistry
OR
CHEM 144 and 146 General Chemistry ............................ 8 hrs

AND
CHEM 225, 226 and 227 Organic Chemistry ................... 8 hrs
MATH 115 and 116......................................................... 8 hrs
PHYS 150 and 151 or *PHYS 125 and 126 .................... 8 hrs

*Premedical students should elect PHYS 125 and 126.

CONCENTRATION REQUIREMENTS .................................. 30 hrs

Biochemistry .............................................................. 13 hrs
BCHM 470 Biochemistry I ............................................. 3 hrs
BCHM 471 Biochemistry II ............................................ 3 hrs
BCHM 472 Biochemistry Lab I ..................................... 1 hr
BCHM 473 Biochemistry Lab II ..................................... 1 hr
BCHM 474 Molecular Biology ...................................... 4 hrs
BCHM 497 Seminar in Biochemistry ............................... 1 hr

Chemistry ................................................................. 7 hrs
CHEM 344 Quantitative Analysis .................................. 4 hrs
CHEM 368 Physical Chemistry I ................................... 3 hrs

Related sciences ......................................................... 10 hrs
Minimum of 7 credit hours in upper level Biochemistry, Biology or Chemistry.

At least one credit must be a laboratory (either lecture or lab, stand-alone lab course, or one credit hour of BCHM 495 or 499; or, CHEM 495 or 499)

Computational Skills (minimum of 3 credit hours)
An upper level course or MATH, STAT or CIS.

Electives ..................................................................... 14 hrs

Students may not apply more that 14 additional credit hours of upper division courses offered in biochemistry, biological sciences, or chemistry for satisfying graduation requirements. A maximum of 6 credit hours of independent study in 495, 498 and 499 courses in any science discipline will count toward the 120 credit hours required for graduation.

HONORS DEGREE IN BIOCHEMISTRY

To qualify for this honor, a student must maintain an overall grade point average of 3.5. In addition to one credit hour for the BCHM 497 seminar, the honors degree candidate must take six credit hours of independent study under BCHM 495, 498 or 499. Such a study will culminate in an oral and/or written presentation of the results. The Biochemistry Program Committee will evaluate the student's presentation.

MINOR OR AREA OF FOCUS

A minor or area of focus consists of 12 hours of upper-division credit in biochemistry.
BCHM 472  Biochemistry Laboratory I
1.000 Credits
Prerequisites: CHEM 344* and (BCHM 470* or BIOL 470* or CHEM 470*) and CHEM 227

The techniques of preparative and analytical biochemistry. Preparation and characterization of proteins and nucleic acids. Physical and chemical properties of proteins and nucleic acids. Four hours laboratory. (F).

BCHM 473  Biochemistry Laboratory II
1.000 Credits
Prerequisites: (BCHM 471* or BIOL 471* or CHEM 471*) and (BCHM 472* or BIOL 472* or CHEM 472*)

The techniques of preparative and analytical biochemistry. Preparation and characterization of lipids and carbohydrates. Methods in metabolism. Four hours laboratory. (W).

BCHM 474  Molecular Biology
4.000 Credits
Prerequisites: (BCHM 470 or CHEM 470 or BIOL 470) or (BCHM 370 or BIOL 370 or CHEM 370) and CHEM 227
Co-requisites: BCHM 474L

This course will emphasize the molecular biology of eukaryotes, and topics will include genome organization and complexity, chromatin structure and function, gene expression, DNA replication and repair, genetic rearrangements, and the molecular biology of development. The laboratory will emphasize the application of recombinant DNA technology to the study of biological problems. Three hours lecture, four hours laboratory. (W).

BCHM 480  Biochemical Pharmacology
3.000 Credits
Prerequisites: BCHM 470 or CHEM 470 or BIOL 470

Pharmacology is a study of drugs. In this course, the biochemical and molecular basis of drug action will be emphasized. Different categories of drugs, their use, abuse, and side effects will be presented. Three hours lecture. Permission of instructor. (OC).

BCHM 490  Topics in Biochemistry
1.000 TO 3.000 Credits

A course in special topics that examines research problems of current interest in biochemistry. Topics and format may vary. See current Schedule of Classes. One to three hours seminar. (W).

BCHM 495  Off-Campus Research in Biochem
1.000 TO 3.000 Credits

Participation in ongoing research at an off-campus laboratory. No more than 6 hours combined from any Natural Science courses numbered 495, 498, and 499 may be credited toward the 120 hours required for a degree. Four to twelve hours laboratory. Permission of concentration advisor. (F, W, S).

BCHM 497  Seminar in Biochemistry
1.000 Credits
Prerequisites: BCHM 470 or BIOL 470 or CHEM 470

A seminar course that examines research problems of current interest in biochemistry. The course format may include training students to read and present scientific papers, guest lecturers, and lectures by the instructor on a selected topic. One hour seminar. Permission of instructor. (W).

BCHM 498  Directed Reading in Biochem
1.000 TO 3.000 Credits

Library research in a specific area of biochemistry performed under the direction of a faculty member. No more than six hours combined from departmental courses numbered 495, 498, and 499 may be credited toward the 120 hours required for a degree. Four to twelve hours readings. Permission of instructor. (F, W, S).

BCHM 499  Laboratory Research in Biochem
1.000 TO 3.000 Credits

Directed laboratory research performed under the supervision of a faculty member. Research training is encouraged. No more than six hours combined from departmental courses numbered 495, 498, and 499 may be credited toward the 120 hours required for graduation. Four to twelve hours laboratory. Permission of instructor. (F, W, S).

**Biological Sciences**

Biology is an extensive field that covers biochemistry, molecular biology, cell biology, microbiology, genetics, anatomy, physiology, embryology, ecology, evolution, field biology, and animal behavior. The program is recommended for students who wish to study biology as part of an undergraduate liberal arts degree, to prepare for graduate study in biology or any of the health professions, or to study for a secondary teaching certificate in biology.

Students who are non-concentrators and interested in biology should elect Biological Sciences 100. Students who wish a survey of the principles of biology should select the introductory sequence: Biological Sciences 130 and 140. Students concentrating in the biological sciences must fulfill the following requirements:

**PREREQUISITES TO THE CONCENTRATION**

A solid background in mathematics is essential to success in any of the scientific disciplines. Incoming students who intend to choose a concentration in Biological Sciences should have completed at least three years of high school mathematics. Based on the results of the mathematics placement exam, first year students should plan to enroll in MATH 105, 113 or 114.

Chemistry is another area essential to success in biology. Students should complete the introductory chemistry sequence as early as possible.

Students majoring in one of the natural sciences should begin with BIOL 130 or 140. Non-science majors who are interested in biology may elect BIOL 100.

In order to finish the graduation requirements, coursework must include the remaining prerequisite and distribution requirements, six credit hours of cognate courses, at least 24 credit hours in upper-division biological sciences courses and a minimum of 18 hours in upper-division electives.

- BIOL 130 and BIOL 140
- CHEM 134 or CHEM 144 General Chemistry I
- AND
- CHEM 136 or CHEM 146 General Chemistry II
- CHEM 225, 226 and 227 Organic Chemistry
- PHYS 125 and 126 Physics
MINOR OR AREA OF FOCUS

A minor or area of focus consists of 12 hours of upper-division credit in biological sciences. Note that all these courses include prerequisites in biology and some include prerequisites in chemistry or mathematics.

CERTIFICATE IN MEDICAL SCIENCES (MEDS)

The Medical Sciences (MEDS) certificate complements existing Baccalaureate degrees and acknowledges a student’s interest and education in human medical sciences.

Up to 6 MEDS credits may be applied as biology cognates. Most biology majors pursuing the certificate will complete 3 classes beyond a BS degree. Upon completion, the MEDS certificate will be posted on the student’s transcript.

The major advantage of the MEDS certificate will be to serve students seeking a medical sciences focus. The MEDS certificate may be particularly desirable to students who wish to extend their educational experience without a long-term commitment to graduate study.

PROGRAM ENTRY

For the degree-seeking student, applications should be submitted through CASL Advising and Records.

Post-graduates (non-degree-seeking) must apply using the Campus Options Program application and submit the application directly to the program director for approval. Up to 2 courses may be transferred into the MEDS certificate. Once approved, the student will receive an acceptance letter from the Office of Admissions and Orientation. The Campus Options Program application is available online at umd.umich.edu/ddc.

REQUIREMENTS FOR A CERTIFICATE

The student must be working toward a University of Michigan-Dearborn bachelor degree or the student must have received a bachelor degree from an accredited institution.

The student must have a cumulative grade point average (GPA) of 3.0 or better for MEDS admission. A minimum GPA of 2.8, both overall and in MEDS courses is required for graduation.

Students must complete Anatomy and Physiology (BIOL 103/105) and 3 courses, one each from the Biochemistry, Human Biology, and Medicine and Society categories.

Required core (2 courses) ........................................ 8 hrs
BIOL 103  Anatomy and Physiology .................. 4 hrs
BIOL 105  Anatomy and Physiology .................. 4 hrs

Electives

Biochemistry

BCHM 480  Pharmacology ................................. 3 hrs
BIOL 370  Principles of Biochemistry ............... 3 hrs
BIOL 328  Endocrinology ............................... 3 hrs
BIOL 470  Biochemistry ................................ 3 hrs

Human Biology

BIOL 310  Histology ....................................... 4 hrs
BIOL 350  Introduction to Neurobiology .............. 4 hrs
BIOL 380  Epidemiology ................................. 2 hrs
BIOL 390H Human Physiology ...................... 3 hrs
BIOL 452  Medical and Env Toxicology ............... 3 hrs

CONCENTRATION REQUIREMENTS ......................... 24 hrs

At least 24 credit hours of 300- and 400-level biological sciences courses. The 24-hour total must include at least 7 credit hours (including one laboratory course) from each of the following areas:

Cell and Molecular Biology

*Note: BIOL 405, Applied and Environmental Microbiology, is offered as either a Cell and Molecular or Population and Environmental concentration requirement. This course cannot fulfill both requirements.

Organismal Biology

BIOL 303, 309, 310, 311, 312, 324, 333, 335, 350, 352, 353, 390D and 390H

Population and Environmental Biology

BIOL 304, 315, 320, 360*, 361, 390F, 419, and 420

*Note: These courses will count toward laboratory course requirements when accompanied by the corresponding laboratory.

In addition, one course in genetics (BIOL 306, 360 or 406) is required. The following courses may be applied to the 24 credit-hour concentration requirement: BIOL 326, 380, 390, 410, 452, 490, 495, 497, 498 and 499.

BIOL 495, 497, 498 and 499 may be repeated for credit, but no more than six credit hours in these courses can be applied toward the 24 credit-hour concentration requirement. No more than 44 credit hours in biological sciences courses may be applied toward the 120-credit-hour total required for graduation.

Students are reminded of the College requirement that at least 48 hours of coursework be taken at the upper-division level (numbered 300 and up). This requires at least 18 credit hours of upper-division courses beyond the concentration and cognate requirements. These courses may be selected from any program offered on campus.

Cognates ................................................................. 6 hrs

Students concentrating in the biological sciences must complete at least six credit hours in biology-related courses numbered 300 or above. In addition to courses in the natural sciences (biochemistry, chemistry, environmental science, geology, microbiology, and physics) a wide variety of courses in areas as diverse as mathematics, computer science, environmental studies, physical anthropology, and experimental psychology can be used to fulfill this requirement, as well as courses in the history, philosophy, or literature of science. Students should consult a biology advisor to obtain a current list of acceptable cognate courses. Note that courses that are cross-listed as biology will count toward this requirement if they are elected under the non-biology listing. A cross-listed course cannot be used to satisfy both the concentration and the cognate requirement.

Cognates ................................................................. 6 hrs

Students concentrating in the biological sciences must complete at least six credit hours in biology-related courses numbered 300 or above. In addition to courses in the natural sciences (biochemistry, chemistry, environmental science, geology, microbiology, and physics) a wide variety of courses in areas as diverse as mathematics, computer science, environmental studies, physical anthropology, and experimental psychology can be used to fulfill this requirement, as well as courses in the history, philosophy, or literature of science. Biological Science (BIOL)  

topological OFFERINGS

BIOL 100 Principles of Biology  
3.000 Credits

A lecture course introducing non-science concentrators to major areas of biology, including cell biology, genetics, human physiology, plant biology, ecology, and evolution. Topics of current interest are discussed. Students cannot use both BIOL 100 and NSCI 120 to satisfy the Natural Sciences distribution requirements. Three hours lecture. (F, W).

BIOL 103 Anatomy and Physiology I  
4.000 Credits  
Co-requisites: BIOL 103L

The structural and functional relationships of the human body at the cellular, tissue, organ, and system levels are analyzed. Students identify the major anatomical parts and relate these to the physiological activities of the circulatory, skeletal, nervous, muscular, and digestive systems. The homeostatic effects of fluids, electrolytes, and acids and bases throughout the integrated human body are analyzed. Four hours lecture, three hours laboratory. (F).

BIOL 105 Anatomy and Physiology II  
4.000 Credits  
Prerequisites: BIOL 103  
Co-requisites: BIOL 105L

The major anatomical parts of the respiratory, reproductive, endocrine, and urinary systems of the human body are identified and related to the physiological activities of these systems. Continued emphasis is placed on the homeostatic effects of fluids, electrolytes, acids, and bases throughout the integrated human body. Four hours lecture, three hours laboratory. (W).

BIOL 130 Intro Org and Environ Biology  
4.000 OR 4.000 Credits  
Co-requisites: BIOL 130L

An introduction to organismal and environmental biology, with emphasis on plant and animal diversity, structure, physiology, and development; ecology; and evolution. This course complements BIOL 140, which need not be taken as a prerequisite; together they constitute an introduction to biology. This course is intended for science concentrators. Three hours lecture, four hours laboratory/recitation. (F, W, S).

BIOL 140 Intro Molec & Cellular Biology  
4.000 Credits  
Co-requisites: BIOL 140L

An introduction to molecular and cellular aspects of biology with emphasis on cell structure and function, biochemistry, genetics, cell growth and differentiation, and the origin of life. This course complements BIOL 130; together they constitute an introduction to biology. This course is intended for science concentrators. Three hours lecture, four hours laboratory/recitation. BIOL 130 and CHEM 114 recommended. (F, W, S).

BIOL 240 Great Experiments in Biology  
3.000 Credits

An individualized-learning course that portrays the development of modern biological science. The course does not require attendance in classes since it can be completed at home and in the library by means of study guides, audio cassettes, slide/tape presentations, and computer-assisted instruction. (F, W, S).

BIOL 242 Great Experiments Laboratory  
1.000 Credits  
Prerequisites: BIOL 240*

An individualized-learning laboratory science course that can be completed at home. Historically important and model experiments are performed in order to demonstrate how hypotheses are drawn and tested. Data are analyzed at a computer terminal. (F, W, S).

BIOL 290 Topics in Biology and Society  
3.000 Credits

An introduction to themes of biology reflecting the interaction between biology and society. Topics vary and are announced in the current Schedule of Classes. The course may be repeated no more than once under a different topic. Three hours lecture. (OC).

BIOL 291 Biology and Society Laboratory  
1.000 Credits  
Co-requisites: BIOL 290

A laboratory course to accompany BIOL 290. Three hours laboratory. (OC).

BIOL 301 Cell Biology  
4.000 Credits  
Prerequisites: BIOL 140  
Co-requisites: BIOL 301L

Functional and structural features of cells, organelles, and macromolecules. Topics in biochemistry, and physical chemistry of cellular processes are considered. Three hours lecture, four hours laboratory. CHEM 226 is recommended. (W).

BIOL 303 Comparative Animal Physiology  
4.000 Credits  
Prerequisites: BIOL 130 and BIOL 140 and (CHEM 124 or CHEM 134 or CHEM 144)  
Co-requisites: BIOL 303L

Physiological processes and their control in higher animals. Emphasis ranges from the cellular mechanisms and systemic patterns of regulation of body functions to the evolutionary and environmental adaptations determining body form and function in diverse animal types. Three hours lecture, four hours laboratory. MATH 114 is recommended. (F).
BIOL 304  Ecology
4.000 Credits
Prerequisites: BIOL 130 and (MATH 115 or MATH 113 or MPLS 116)
Co-requisites: BIOL 304L

Relationships between organisms and their environments. Patterns in the physical environment, physiological and behavioral adaptations, population dynamics, energy flow, nutrient cycling; succession. Three hours lecture, four hours laboratory (with field trips). (F, S).

BIOL 306  General Genetics
3.000 Credits
Prerequisites: BIOL 130 and BIOL 140
Co-requisites: BIOL 306R

An intermediate course in classical, molecular and evolutionary genetics. The structure, function, and inheritance of genetic material in prokaryotes, eukaryotes and viruses are discussed. Topics include DNA and chromosome structure, genetic linkage and mapping, gene expression and its regulation, human genetic disease, and population genetics. Three hours lecture, one hour recitation. (F).

BIOL 307  General Genetics Laboratory
1.000 Credits
Prerequisites: BIOL 306*

A semester-long laboratory course dealing with investigation and analysis in genetics. Laboratory sessions will include genetic crosses of plants and animals and the subsequent analysis to determine linkage and gene mapping location. Computer exercises will also be used to establish genetic tools for modern molecular analysis. Four hours laboratory. (W).

BIOL 309  Introduction to Mycology
4.000 Credits
Prerequisites: BIOL 130 and BIOL 140

An introduction to the biology of the fungi. Classification, structure, industrial use, gastronomic qualities, and disease-producing ability of macroscopic and microscopic forms are studied. Laboratories include microscopic and macroscopic examinations of fungi and their growth and field studies on the occurrence and classification of edible and poisonous varieties. Three hours lecture, four hours laboratory. (OC).

BIOL 310  Histology
4.000 Credits
Prerequisites: BIOL 130 and BIOL 140

Descriptive approaches to the study of the microscopic anatomy of animal tissue. The course emphasizes the study of cell and tissue types, selected organs and the interpretation of electron micrographs. Three hours lecture, four hours laboratory. (AY, F).

BIOL 311  Embryology
4.000 Credits
Prerequisites: BIOL 130 and BIOL 140
Co-requisites: BIOL 311L

Descriptive and experimental approaches to a comparative study of reproduction, morphogenesis, and growth. Emphasis is placed on the vertebrates, but some attention is focused on the development of invertebrates and plants. Three hours lecture, four hours laboratory. (AY, W).

BIOL 312  Compare Anat of Vertebrates
5.000 Credits
Prerequisites: BIOL 130

A comparative study of the morphology of living organisms, including an analysis of functional features, an introduction to the principles of systematics, and a study of the broad outlines of classification. The major emphasis is on the comparative functional anatomy of vertebrates. Three hours lecture, eight hours laboratory. (AY, W).

BIOL 313  Plant Taxonomy and Systematics
4.000 Credits
Prerequisites: BIOL 130

Characteristics, distribution, and relationships of plants with special reference to the local Michigan flora. Three hours lecture, four hours laboratory (including field work) per week. (OC).

BIOL 315  Aquatic Ecosystems
4.000 Credits
Prerequisites: BIOL 130 and (CHEM 124 or GEOL 118)

An introduction to the physical, chemical, and biological characteristics of lakes, rivers, and wetlands emphasizing a comparison of ecosystem structure and function. Laboratory emphasizes data collection and analysis to characterize a representative lake, river, and wetland. Lecture and laboratory. (AY, F).

BIOL 320  Field Biology
4.000 Credits
Prerequisites: BIOL 101 or BIOL 130

Adaptations, taxonomy, systematics, ecology, and behavior of southeastern Michigan flora and fauna. Techniques of field observation and recording are emphasized. Skills in the use of identification keys and guides are developed. The campus Environmental Study Area is used intensively. Three hours lecture, four hours laboratory (with field trips). (S).

BIOL 324  Invertebrate Zoology
4.000 Credits
Prerequisites: BIOL 130

This course introduces students to the diversity of invertebrate animals from a functional evolutionary perspective. The lecture will focus on the unique aspects of the morphology, physiology, and ecology of major phyla in light of the selective forces that have favored their evolution, as well as consider the intersection of invertebrates and humans. Through dissection, prepared slides and field observations, the laboratory will introduce the diversity of invertebrate phyla and subgroups, with emphasis on form and function.

BIOL 333  Plant Biology
4.000 Credits
Prerequisites: BIOL 130
Co-requisites: BIOL 333L

A thorough survey of the evolutionary trends in plant reproduction and morphology will be considered. This survey will extend into the field of plant anatomy, but not plant physiology, which is covered in a separate course. Major groups to be studied include: bacteria, algae, fungi, liverworts, lichens, mosses, ferns, and seed plants. Certain less familiar groups will also be emphasized. Plant diversity will be examined from the perspective of its import to civilizations of the past and future. Three hours lecture, four hours laboratory. (F, S).
**BIOL 335**  Plant Physiology  
4.000 Credits  
Prerequisites: BIOL 130 and BIOL 140  
Co-requisites: BIOL 335L  

Physiological principles as they apply to the major plant groups. Topics include cellular metabolism, water balance, translocation, photosynthesis, mineral nutrition, growth and development and production of secondary substances. Three hours lecture, four hours laboratory. (W).

**BIOL 350**  Introduction to Neurobiology  
4.000 Credits  
Prerequisites: BIOL 130 and BIOL 140  

An introduction to nervous systems and how they function. This course includes the cellular physiology and anatomy of nervous systems in vertebrates and invertebrates, and how these cellular activities are integrated into systems to produce complex, coordinated behavior. Three hours lecture. (W).

**BIOL 352**  Endocrinology  
3.000 Credits  
Prerequisites: BIOL 140 and BIOL 130 and CHEM 134  

This class will provide intermediate and advanced undergraduates with a basic understanding of the function of the endocrine system. The course will progress from a consideration of basic concepts and mechanisms to the physiology (function) of specific endocrine systems. Interactions between organ systems will also be emphasized. Specific sections of the course will focus on function of the endocrine system during stress, fluid balance, metabolism (including calcium, glucose, lipid, and proteins), reproductive growth, development, and aging.

**BIOL 353**  Ornithology  
3.000 Credits  
Prerequisites: BIOL 130  

A study of the unique features of birds as representatives of vertebrates, including their morphology, anatomy, physiology, physics of flight, mating systems, social structure, vocalizations, orientation and migration, origin and evolution, growth and development, and issues in avian conservation. The students will learn about the current research on bird migration at the Rouge River Bird Observatory on campus. Students will develop individual species analysis of life and natural histories. This course will fulfill three hours of organismal requirement for biology students.

**BIOL 360**  Population Genetics & Evolution  
3.000 Credits  
Prerequisites: BIOL 130 and BIOL 140 and (MATH 113 or MATH 115 or MPLS116)  

Processes which change the genetic composition of populations: mutation, gene flow, drift, and natural selection. The origin of races, species, and higher taxa. Evidence of evolution from the geological record, comparative anatomy, comparative biochemistry and other sources. Three hours lecture. (W).

**BIOL 361**  Population Genetics & Evolution Lab  
1.000 Credits  
Prerequisites: BIOL 360*  

A laboratory course to accompany BIOL 360. Four hours laboratory. (OC).

**BIOL 370**  Principles of Biochemistry  
3.000 Credits  
Prerequisites: BIOL 140 and CHEM 226  

A concise but comprehensive survey of various areas of biochemistry designed for non-biochemistry majors. The course follows the standard approach to the subject including a description of cells, their structure and constituent macromolecules (proteins, nucleic acids, carbohydrates and lipids), enzymology, bioenergetics, intermediary metabolism and gene regulation. Students cannot take both BCHM 370 and 470 or 471 for any combination of concentration, cognate or minor requirement. Three hours lecture. (F).

**BIOL 380**  Epidemiology  
2.000 Credits  
Prerequisites: BIOL 140  

A study of disease occurrence and spread in human populations. The primary concern is with groups of persons, rather than individuals. Emphasizes methods of study that would contribute to understanding disease etiology. Two hours lecture. BIOL 301 and 385 are recommended. (OC).

**BIOL 385**  Microbiology  
4.000 Credits  
Prerequisites: BIOL 130 and BIOL 140  
Co-requisites: BIOL 385L  

The biology of microorganisms is considered through study of the properties of bacteria, fungi, algae, protozoa, and viruses. Microbial structures are discussed and correlated with their function. Aspects of cellular metabolism pertinent to microorganisms are emphasized. The interaction of microorganisms and their environment, animate and inanimate, is discussed with respect to the beneficial or harmful effects of the different microbial groups. Laboratory exercises introduce the student to basic, practical microbiological techniques and illustrate various principles of microbial life. Three hours lecture, four hours laboratory. (F, S).

**BIOL 390**  Topics in Biology  
1.000 TO 4.000 Credits  

Examination of problems and issues in selected areas of biology. Title in Schedule of Classes changes according to content. This course may be repeated for credit when specific topics differ. Permission of Instructor. (OC).

**BIOL 405**  Applied & Environ Microbiology  
4.000 Credits  
Prerequisites: BIOL 385 or MICR 385  
Co-requisites: BIOL 405L  

The study of the diversity, structure and function of microorganisms as they interact with their environment. Emphasis will be placed on soil microbiology (fungi, bacteria, microalgae) and plant-microbe interactions (pathogens, symbioses). Ecological topics include decomposition, nutrient cycling, bioremediation and agroeco systems. Three hours lecture, four hours laboratory. (W).

**BIOL 406**  Microbial Genetics  
3.000 Credits  
Prerequisites: MICR 385 or BIOL 385  

This molecular genetics course emphasizes bacteria and viruses. Topics include chromosome structure and replication, recombination, DNA repair, genetic mapping, mechanisms of gene transfer, regulation of gene expression, and mutagenesis. Three hours lecture, four hours laboratory. (AY, F).
BIOL 410  Diversity Issues Health Care  
3.000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: BIOL 130 and BIOL 140  
This course will address the effect of race, age, gender, religion, and economic status on medical research and health care. Through an examination of clinical trials and case studies, students will learn how medical research is performed in the United States, and what health care treatments and options for patients are available. Medical treatment and disease topics will be selected and will be evaluated as to how they are influenced by the criteria listed. The examples will focus on both cultural differences and inequity, in national and global settings. (AY).

BIOL 414  Limnology  
4.000 Credits  
Prerequisites: BIOL 130 and (CHEM 136 or CHEM 146)  
The study of the structural and functional relationships and productivity of organisms in lakes and streams as they are regulated by their physical, chemical and biotic environments. Laboratories will emphasize field study of area lakes and streams. Three hours lecture, four hours laboratory. BIOL/ESCI 304 or ESCI 275 recommended.

BIOL 416  Stream Ecology  
4.000 Credits  
Prerequisites: BIOL 304  
A study of the physical, chemical and biological characteristics of streams and rivers. Three hours lecture, four hours laboratory. (OC).

BIOL 419  Behavior and Evolution  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: BIOL 140 and BIOL 130  
An in depth examination of how evolutionary processes shape behavior, focusing on the influence of natural, sexual, and kin selection. Topics include behavioral genetics, natural selection, sexual selection, kin selection, optimality, game theory, evolutionary stable strategies, phylogenetics, and the comparative method.

BIOL 420  Advanced Field Ecology  
4.000 Credits  
Prerequisites: BIOL 304 or BIOL 320  
An intense study of behavioral ecology and field-oriented research at an advanced level, utilizing ecological habitats on campus and in surrounding urban areas. Focus will be on plant/animal interactions and will include pollination ecology, reproduction and distribution ecology, optimal foraging theory, as well as hypothesis testing of animal migration and distribution of species in extreme urban environments. Three hours lecture, four hours laboratory. (OC).

BIOL 440  Micro Genetics & Physi Lab  
1.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
May not be enrolled in one of the following Classes:  
Freshman  
Prerequisites: BIOL 130 and BIOL 140 and CHEM 226  
This course emphasizes the use of advanced microbiological techniques for understanding the genetics and physiology of microorganisms. Experiments focus on the understanding of general microbial phenomena, such as nutrition, metabolism and biochemistry; protein and nucleic acid synthesis; energy generation, enzyme regulation, membrane transport, motility, differentiation, cellular communication and the behavior of populations.

BIOL 450  Virology  
4.000 Credits  
Prerequisites: CHEM 226 and (MICR 385 or BIOL 385)  
The first half of this course deals with bacterial viruses, with emphasis on classical events in this field. The second half surveys the field of animal viruses, with emphasis on recent discoveries, including replication, pathogenesis, and viral association with cancers. Three hours lecture, four hours laboratory. (AY, W).

BIOL 452  Med & Env Toxicology  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: BIOL 140 and CHEM 225 and (BIOL 370 or BIOL 455 or BIOL 470 or BIOL 301 or BIOL 303 or BIOL 385)  
Emphasis will be on cellular and human pathophysiology resulting from environmental toxicants. Examples will be based on toxicant exposure and subsequent diseases in humans and other biological systems. (AY).

BIOL 455  Immunology  
4.000 Credits  
Prerequisites: BIOL 385 or BIOL 301 or MICR 385  
A detailed study of the field of immunology. Among the topics covered are various aspects of the immunological response, such as humoral or cell-mediated immunity, cell-cell interactions, and immunology as related to the cause and prevention of disease. Three hours lecture, four hours laboratory. (AY, F).

BIOL 459  Pathogenic Microbiology  
4.000 Credits  
Prerequisites: BIOL 385 or MICR 385  
An introduction to pathogenic microorganisms and mechanisms of microbial pathogenicity. Disease-causing bacteria, fungi, viruses, and protozoa are studied. Laboratories emphasize clinical approaches to isolation, identification, and treatment. Three hours lecture, four hours laboratory. (AY, F).

BIOL 470  Biochemistry I  
3.000 Credits  
Prerequisites: BIOL 130 and BIOL 140 and CHEM 226  
Life processes from a chemical viewpoint: structure/function relationships of biomolecules with emphasis on proteins, enzyme kinetics, and mechanisms of action. Three hours lecture. (F).
BIOL 471  Biochemistry II
3. 000 Credits
Prerequisites: BCHM 470 or BIOL 470 or CHEM 470
Intermediary metabolism, bioenergetics, energy transformation, metabolic interrelationships, biochemical regulation, highly structured subcellular biochemical systems. Three hours lecture. (W)

BIOL 472  Biochemistry Laboratory I
1. 000 Credits
Prerequisites: CHEM 344* and (BCHM 470* or BIOL 470* or CHEM 470*) and CHEM 227
The techniques of preparative and analytical biochemistry. Preparation and characterization of proteins and nucleic acids. Physical and chemical properties of proteins and nucleic acids. Four hours laboratory. (F).

BIOL 473  Biochemistry Laboratory II
1. 000 Credits
Prerequisites: (BCHM 471* or BIOL 471* or CHEM 471*) and (BCHM 472 or BIOL 472 or CHEM 472)
The techniques of preparative and analytical biochemistry. Preparation and characterization of lipids and carbohydrates. Methods in metabolism. Four hours laboratory. (W).

BIOL 474  Molecular Biology
4. 000 Credits
Prerequisites: (BCHM 470 or BIOL 470 or CHEM 470) or (BCHM 370 or BIOL 370 or CHEM 370) and CHEM 227
Co-requisites: BIOL 474L
This course will emphasize the molecular biology of eukaryotes, and topics will include genome organization and complexity, chromatin structure and function, gene expression, DNA replication and repair, genetic rearrangements, and the molecular biology of development. The laboratory will emphasize the application of recombinant DNA technology to the study of biological problems. Three hours lecture, four hours laboratory. (W).

BIOL 485  Physiology of Micro-organisms
3. 000 Credits
Prerequisites: (BIOL 385 or MICR 385) and CHEM 225*
An in-depth examination of the physiology of microorganisms. Areas of emphasis include the growth and nutrition of microorganisms, the development of viruses, the microbial degradation of organic compounds, the regulation of degradation reactions, and the biosynthesis of uniquely microbial compounds and secondary metabolites, such as antibiotics and toxins. Consideration is given to the natural environments of specific microorganisms. Three hours lecture, four hours laboratory. (AY, W).

BIOL 489  Origins of Biological Sciences
3. 000 TO 4. 000 Credits
A study of the development of the science of biology as revealed in the writing and experiments of major biologists of the past and present. (OC).

BIOL 490  Sem in Biology/Microbiology
1. 000 TO 6. 000 Credits
Directed research on a problem culminating in the preparation of a paper and presentation of a public seminar. Tutorials, lectures and student seminars are given on selection and formulation of research problems, experimental design, and statistical treatment of data. May be repeated for credit with permission of advisor. (OC).

BIOL 495  Off-Campus Research Participat
1. 000 TO 3. 000 Credits
Participation in ongoing experimental research at an off-campus laboratory (or in the field). Arrangements made between the off-campus researcher, the student, and the Biology concentration advisor. No more than six credit hours combined from BIOL 490, 495, 498, and 499 may be counted toward the 120 hours required for a degree. Four to twelve hours laboratory. Permission of instructor. (F, S).

BIOL 497  Seminar in Biology
1. 000 Credits
Topics of current interest in Biology will be presented by guest lecturers, faculty members or students. Topics chosen will vary from term to term. Can be elected up to three times. One hour seminar. (W).

BIOL 498  Independent Study in Biology
1. 000 TO 3. 000 Credits
Library research and independent study performed under the guidance of a faculty member. Four to twelve hours readings. Permission of instructor. (F, S).

BIOL 499  Laboratory in Biological Resrh
1. 000 TO 3. 000 Credits
Directed laboratory research performed under the guidance of faculty member. Four to twelve hours laboratory. Permission of Instructor. (F, S).

Chemistry (ACS Approved)
The concentration program in chemistry at the UM-Dearborn is certified by the American Chemical Society. This program is designed primarily for students who intend to go into Chemistry as a profession or who plan to continue their studies at the graduate level. A student may earn a BS degree in chemistry by completing the prerequisite, concentration, and cognate courses listed below and by fulfilling the CASL distribution and graduation requirements.

PREREQUISITES TO THE CONCENTRATION
A solid background in mathematics is essential to success in any of the scientific disciplines. Incoming students who intend to choose a concentration in Chemistry should have completed at least three years of high school mathematics. First year students should plan to enroll in MATH 105, MATH 115, or MATH 116 based on the results of their math placement tests. The CHEM 124-136 or 124-146 sequence is a prerequisite to many other courses in the Natural Sciences Department; students should complete this sequence as soon as possible.
Chemistry concentrators must complete the following 40 credit hours of prerequisite courses. These courses should be completed early in the student's four-year curriculum.

- CHEM 134/136 or 144/146
- CHEM 225, 226 and 227
- BIOL 130 or 140*
- PHYS 150 and 151**
- MATH 115, 116 and 215

*Students interested in biochemistry should elect BIOL 140; students interested in environmental chemistry should elect BIOL 130.

**The physics prerequisite may also be satisfied by completing PHYS 125 and 126 and an upper-division physics course, such as PHYS 305.

### CONCENTRATION REQUIREMENTS

Students must complete at least six credit hours from courses numbered 300 and above in Biological Sciences, Biochemistry, Environmental Science, Geology, Mathematics, Microbiology, Applied Statistics, or Physics. The six credit hours need not be from a single discipline. Courses that do not carry concentration credit within a discipline will not satisfy the cognate requirement in chemistry.

### ADDITIONAL REQUIREMENTS

Students must also complete 24 credit hours of courses offered by the Departments of Behavioral Sciences, Humanities, and Social Sciences. This requirement can be and usually is fulfilled by completion of the CASL distribution requirements. In satisfying the CASL foreign language requirement, students are encouraged to select French or German. At least one computer science course is strongly recommended.

### MINOR OR AREA OF FOCUS

A minor or area of focus consists of 12 hours of upper-division credit in chemistry.

### Chemistry (Instructional Track)

The Chemistry/Instructional Track concentration is an interdisciplinary program for students who wish to teach chemistry and other science courses at the secondary school level. The program meets State of Michigan requirements as well as American Chemical Society recommendations for teaching chemistry in high school. A student may earn a BS degree in Chemistry and qualify for a Michigan Provisional Secondary Teaching Certificate by completing the professional sequence of education courses including one semester of directed teaching; by completing the prerequisite concentration and cognate requirements listed below; by fulfilling the CASL distribution and graduation requirements. Students must also complete at least 100 credit hours of non-education courses; have a minimum 2.75 overall GPA; have a 2.75 or better GPA in their teaching major and in education courses; and have a 2.75 in their teaching minor. Students must take the Michigan Test for Teacher Certification (MTTC) prior to being recommended for a Michigan teaching certificate.

### PREREQUISITES TO THE CONCENTRATION

Chemistry/Instructional Track concentrators must complete 40 credit hours of prerequisite courses. These courses should be completed early in the student's curriculum.

</tr>
</tbody>
</table>

*Note: Students interested in biochemistry should elect BIOL 140; students interested in environmental chemistry should elect BIOL 130.

**Note: The physics prerequisite may also be satisfied by completing PHYS 125 and 126 and an upper-division physics course, such as PHYS 305.

### CONCENTRATION REQUIREMENTS

Students must complete 20 credit hours of upper-division chemistry courses as indicated:

One course from the following

- CHEM 403 Inorganic Chemistry II            | 3 hrs |
- CHEM 447 Instrumental Methods of Analysis  | 4 hrs |
- CHEM 469 Physical Chemistry II             | 3 hrs |

One laboratory course from the following
**CHEM 450** Advanced Organic Synthesis and Characterization Laboratory .............. 1 hr

**CHEM 452** Advanced Inorganic Synthesis and Characterization Laboratory .............. 1 hr

**CHEM 481** Physicochemical Measurements .......... 2 hrs

**Electives**

Additional courses to bring the upper division chemistry total to 20 hours, from the following

**CHEM 348** Environmental Chemistry ............... 3 hrs

**CHEM 349** Environmental Chemistry Laboratory .... 1 hr

**CHEM 352** Introduction to Toxicology ............... 3 hrs

**CHEM 370** Principles of Biochemistry ............... 3 hrs

**CHEM 390** Current Topics in Chemistry ............. 1-3 hrs

**CHEM 403** Inorganic Chemistry II .................. 3 hrs

**CHEM 426** Advanced Organic Chemistry .......... 3 hrs

**CHEM 436** Polymer Chemistry ...................... 3 hrs

**CHEM 447** Instrumental Methods of Analysis ........ 4 hrs

**CHEM 450** Advanced Organic Synthesis and Characterization Laboratory .............. 1 hr

**CHEM 452** Advanced Inorganic Synthesis and Characterization Laboratory .............. 1 hr

**CHEM 469** Physical Chemistry II ................... 3 hrs

**CHEM 470** Biochemistry I .......................... 3 hrs

**CHEM 471** Biochemistry II .......................... 3 hrs

**CHEM 472** Biochemistry Laboratory I ............... 1 hr

**CHEM 473** Biochemistry Laboratory II ............... 1 hr

**CHEM 481** Physicochemical Measurements ........... 2 hrs

**CHEM 490** Topics in Chemistry ..................... 1-3 hrs

**CHEM 497** Seminar in Chemistry ..................... 1 hr

**Cognates**

Chemistry/Instructional Track concentrators must complete at least six credit hours of courses numbered 300 or above offered in Biochemistry, Biological Sciences, Environmental Science, Geology, Mathematics, Microbiology, Physics, or Statistics. The six credit hours need not be from a single discipline. Courses that do not carry concentration credit within a discipline (for example MATH 363, 385, or 387) will not satisfy the cognate requirement. Cross listed Chemistry courses will be counted toward the Chemistry elective credit or towards cognate credit. Courses taken to fulfill the teaching minor requirement usually fulfill the cognate requirement as well.

**REQUIREMENTS FOR THE TEACHING MINOR**

In order to obtain teaching certification, a student must complete the requirements for a teaching minor. Courses used to satisfy requirements for the minor and prerequisite may not be used to satisfy cognate or concentration requirements.

Teaching minors are available in mathematics, physical science, physics, and biology. Students should consult the School of Education section in this Catalog for coursework requirements to complete the teaching minor.

**EDUCATION REQUIREMENTS**

Chemistry/Instructional concentrators must complete the following courses offered by the School of Education: EDA 340 or EDA 440, EDC 300, EDC 301, EDC 302, EDC 460, EDD 301, EDD 304, EDD 469, EDD 480 or EDD 481, EDT 211, EXPS 410. Course descriptions for the above courses will be found under the School of Education section of this Catalog. Chemistry/Instructional concentrators must also complete PSYC 171.

**Chemistry (CHEM)**

**COURSE OFFERINGS**

**CHEM 090** Introduction to Chemistry  
3.000 Credits

An introductory course in chemistry stressing fundamental principles of chemistry and the application of mathematics to chemistry and problem-solving. Topics will include chemical formulas and equations, stoichiometry, descriptive inorganic chemistry, behavior of gases and atomic structure. Students with high school chemistry and three years of high school mathematics should elect CHEM 114. Three hours lecture. (F).

**CHEM 091** Introduction to Chemistry II  
3.000 Credits

The course is designed for the Chemistry 134/144 student whose background in chemistry is inadequate for success in 134/144. This course will be offered concurrently with CHEM 090 (Introduction to Chemistry). It will begin after the first CHEM 134/144 exam and will encompass the final nine weeks of the term. Topics will include chemical formulas and equations, stoichiometry, descriptive inorganic chemistry, behavior of gases, and atomic structure.

**CHEM 100** Chemistry and Society  
.000 OR 4.000 Credits

An introductory course for nonscientists that examines the way chemistry impacts our world. The course will focus not only on what modern chemistry has accomplished, but more generally on the way scientists think and how they function. Selected topics include (a) air and water pollution, ozone layer, global warming, acid rain, and other environmental chemistry; (b) the chemistry of plastics and polymers; (c) the chemistry of drugs and medicines; and (d) biotechnology and genetic chemistry. Other topics include the influence of the media on scientific issues and the decision-making process in science. Three hours lecture, three hours lab. (YR).

**CHEM 124** General Chemistry I  
4.000 Credits

Prerequisites: MATH 104* or MATH 105* or MPLS 113  
Co-requisites: CHEM 124L

An introduction to phenomena and principles of chemistry with emphasis on developing an understanding of the fundamentals of chemical processes. Concepts to be explored are chemical reactions, thermodynamics, equilibria, and kinetics. For students considering careers in life sciences, physical sciences and engineering. Three hours lecture, one hour recitation, three hours laboratory. Prerequisites are one year of high school chemistry and previous or concurrent enrollment in MATH 104 or 105. (F, W, S).

**CHEM 134** General Chemistry IA  
4.000 Credits

Prerequisites: MATH 105* or MPLS 113 or MPLS 115  
Co-requisites: CHEM 134L

An introduction to chemistry phenomena and principles with an emphasis on developing both an understanding of chemistry and an appreciation of what chemists do. Students will investigate the fundamentals of chemistry in the context of real-world problems and will utilize systems of biological and environmental importance. Core concepts to be explored include atomic structure, structure and bonding, classes of organic compounds,
and spectroscopy. Three hours lecture, one hour recitation, three hours laboratory. Suitable for students considering careers in engineering, life sciences, and physical sciences. (F, S).

**CHEM 136** General Chemistry IIA
4.000 Credits
Prerequisites: CHEM 124 or CHEM 134 or CHEM 144
Co-requisites: CHEM 136L
Continuation of CHEM 124. Concepts to be explored in this course include chemical equilibrium, acids and bases, electrochemistry, atomic structure, chemical bonding, introduction to organic chemistry. Suitable for students majoring in engineering, physical sciences, life sciences. (F, W, S)

**CHEM 144** Gen Chemistry IIB
.000 OR 4.000 Credits
Prerequisites: MATH 105* or MPLS 113 or MPLS 115
An introduction to chemistry phenomena and principles with an emphasis on developing both an understanding of chemistry and an appreciation of what chemists do. Students will investigate the fundamentals of chemistry in the context of real-world problems as related to physical phenomena and properties. Core concepts to be explored include atomic structure, structure and bonding, classes of organic compounds, and spectroscopy. Three hours lecture, one hour recitation, three hours laboratory. Suitable for students considering careers in engineering, life sciences, and physical sciences. (F, W, S)

**CHEM 146** General Chemistry IIB
.000 OR 4.000 Credits
Prerequisites: CHEM 124 or CHEM 134 or CHEM 144
Continuation of CHEM 124. Concepts to be explored in this course include organic chemistry, fossil fuels, synthetic polymers, electrochemistry, solid state, extractive metallurgy, and spectroscopy. Suitable for students majoring in engineering, physical sciences, life sciences. (F, W, S)

**CHEM 225** Organic Chemistry I
3.000 Credits
Prerequisites: CHEM 136 or CHEM 146
Co-requisites: CHEM 225R
The initial course in organic chemistry. A general introduction to organic chemistry with emphasis on the development of structure theory and functional group chemistry. Three hours lecture, one hour recitation. (F, S).

**CHEM 226** Organic Chemistry II
3.000 Credits
Prerequisites: CHEM 225
Co-requisites: CHEM 226R
A continuation of CHEM 225. Topics include functional group chemistry and properties of carbohydrates, amino acids, and aromatic compounds. Three hours lecture, one hour recitation. CHEM 225 and 226 constitute a two-semester sequence in organic chemistry, suitable for students in the basic sciences or engineering or with interests in one of the health professions. (W, S).

**CHEM 227** Organic Chemistry Laboratory
2.000 Credits
Prerequisites: CHEM 226*
Development of the basic laboratory techniques of organic chemistry. The chemistry of functional groups is studied and various organic compounds are synthesized and purified. Eight hours laboratory. (F, W, S).

**CHEM 285** Introduction to Glass Blowing
1.000 Credits
A study of the nature, properties, and manufacture of glass. Laboratory experience in the manipulation of glass and the construction of scientific apparatus. Discussions, laboratory, and field trips. (AY).

**CHEM 303** Inorganic Chemistry I
3.000 Credits
Prerequisites: CHEM 136 or CHEM 146
A study of the chemistry of the elements and their periodic relationship. Bonding theories and structures as well as descriptive chemistry of the representative elements will be emphasized. Three hours lecture. (F).

**CHEM 325** Principles of Organic Chem
3.000 Credits
May not be enrolled in one of the following Major fields of study:
- Biochemistry
- Biological Sciences
- Chemistry (ACS Certified)
- Chemistry (Instructional)
- Microbiology
Prerequisites: CHEM 124 and (CHEM 136 or CHEM 146)
A one-semester introduction to the compounds of carbon, with an emphasis on structure, preparation, reactivity and characterization of different functional groups. Both aliphatic and aromatic compounds will be examined. The important role of organic compounds in modern society will be highlighted with real world examples including fuels, detergents, plastics, medicines, biomolecules, environmental pollutants and additives. This course may not be used to satisfy the organic chemistry prerequisite for the Biochemistry, Biology, Chemistry, or Microbiology degree programs. Students may not receive credit for both CHEM 225 and 325. CHEM 325 may not be used as a prerequisite for Chemistry 226.

**CHEM 344** Quantitative Analysis
4.000 Credits
Prerequisites: CHEM 136 or CHEM 146
Co-requisites: CHEM 344L
A survey of theory and practice of volumetric, gravimetric, electrometric and colorimetric analysis. Systematic analysis of complex materials. Two hours lecture, eight hours laboratory. (F).

**CHEM 348** Environmental Chemistry
3.000 Credits
Prerequisites: CHEM 344 and (CHEM 225 or CHEM 325)
Description of the concepts, principles, practices, and current problems in the chemistry of natural waters, the soil, and the atmosphere. Three hours lecture. (AY).

**CHEM 349** Environmental Chem Laboratory
1.000 Credits
Prerequisites: CHEM 348* or ESCI 348*
Collection and analysis of air, water, soil, and organisms for pollutants such as noxious gases, heavy metals, and trace organics. EPA-approved methods are emphasized. Four hours laboratory. (AY).
CHEM 352  Introduction to Toxicology  
3.000 Credits  
Prerequisites: CHEM 225
An introduction to the principles of toxicology with an emphasis on environmental toxicology. Major topics include toxic agents, toxicological mechanisms, and use of toxicological reference literature. Discussion of chemical carcinogenesis, genetic toxicology, immunotoxicology, teratology, and toxic responses of the skin, eyes and nervous system. Three hours lecture. (AY).

CHEM 368  Physical Chemistry I  
3.000 Credits  
Prerequisites: CHEM 225 and CHEM 344 and MATH 116 and (PHYS 125 or PHYS150)
Nature of the gaseous state, chemical thermodynamics, biochemical and chemical equilibria and kinetics. Three hours lecture, one hour discussion. (W).

CHEM 370  Principles of Biochemistry  
3.000 Credits  
Prerequisites: BIOL 140 and CHEM 226
A concise but comprehensive survey of various areas of biochemistry designed for non-biochemistry majors. The course follows the standard approach to the subject including a description of cells, their structure and constituent macromolecules (proteins, nucleic acids, carbohydrates and lipids), enzymology, bioenergetics, intermediary metabolism and gene regulation. Students cannot take both BCHM 370 and 470 or 471 for any combination of concentration, cognate or minor requirement. Three hours lecture. (F).

CHEM 390  Current Topics in Chemistry  
1.000 TO 3.000 Credits
A course in special topics current to the field of chemistry. Topics and format for the course may vary. See current Schedule of Classes. One to three hours seminar. Permission of instructor. (OC).

CHEM 397  Current Topics in Chemistry  
3.000 Credits
A course for non-science majors which focuses on the interaction of chemistry and society. Sufficient chemical knowledge will be introduced so that the issues can be discussed and competing statements evaluated. Topics covered will include air and water pollution, fuels, designing drugs, etc. (OC).

CHEM 403  Inorganic Chemistry II  
3.000 Credits  
Prerequisites: CHEM 303 and (CHEM 368* or CHEM 468)
A study of coordination and organ metallic compounds through the use of current theories. The structure, reactivity, and descriptive chemistry of transition metal complexes will be examined. Three hours lecture. (W).

CHEM 426  Advanced Organic Chemistry  
3.000 Credits  
Prerequisites: CHEM 226 and CHEM 227
Spectral analysis, structure determination, reaction mechanisms, synthesis, stereochemistry, and other selected topics are discussed. Three hours lecture. (AY).

CHEM 436  Polymer Chemistry  
3.000 Credits  
Prerequisites: CHEM 226 and (CHEM 368* or CHEM 468)
The macromolecular concept is introduced and polymerization mechanisms are discussed. The chemistry and physical properties of representative polymeric materials are presented. Topics include the determination and distribution of molecular weights, polymer morphology, mechanical properties of polymers, relaxation phenomena in polymers, and methods of polymer characterization. Three hours lecture. (AY).

CHEM 447  Instrumental Methods of Analysis  
3.000 OR 4.000 Credits  
Prerequisites: CHEM 368* or CHEM 468
A study of the theory, operation, and application of instrumental methods of chemical analysis including optical, magnetic, electrochemical, and separation techniques. Two hours lecture, eight hours laboratory. (W).

CHEM 450  Adv Org Syn & Character Lab  
1.000 Credits  
Prerequisites: CHEM 227 and (CHEM 368* or CHEM 468*)
Laboratory work in the preparation and characterization of organic compounds by modern techniques. The compounds that are prepared are identified and characterized by spectroscopic, chromatographic, and magnetic techniques. Four hours laboratory. (F).

CHEM 452  Adv Inorg Synth & Char Lab  
1.000 Credits  
Prerequisites: CHEM 226 and CHEM 227 and CHEM 303 and (CHEM 368* or CHEM 468*)
Laboratory work in the preparation and characterization of inorganic compounds. Synthetic techniques and methods of characterization as described under CHEM 450 are employed. Four hours laboratory. (F).

CHEM 469  Physical Chemistry II  
3.000 Credits  
Prerequisites: CHEM 368
Nature of the liquid state, simple mixtures, heterogeneous equilibria; quantum theory, atomic and molecular structure, spectroscopy; statistical thermodynamics. Three hours lecture, one hour discussion. (F).

CHEM 470  Biochemistry I  
3.000 Credits  
Prerequisites: BIOL 140 and BIOL 130 and CHEM 226
Life processes from a chemical viewpoint: structure/function relationships of biomolecules, with emphasis on proteins, enzyme kinetics, and mechanisms of action. Three hours lecture. (F).

CHEM 471  Biochemistry II  
3.000 Credits  
Prerequisites: BCHM 470 or CHEM 470 or BIOL 470
Intermediary metabolism, bioenergetics, energy transformation, metabolic interrelationships, biochemical regulation, highly structured subcellular biochemical systems. Three hours lecture. (W).
CHEM 472  Biochemistry Laboratory I  
1.000 Credits  
Prerequisites: CHEM 344* and (CHEM 470* or BCHM 470* or BIOL 470*) and CHEM 227  

The techniques of preparative and analytical biochemistry. Preparation and characterization of proteins and nucleic acids. Physical and chemical properties of proteins and nucleic acids. Four hours laboratory. (F).

CHEM 473  Biochemistry Laboratory II  
1.000 Credits  
Prerequisites: (BCHM 471* or BIOL 471* or CHEM 471*) and (BCHM 472* or BIOL 472* or CHEM 472*)  

The techniques of preparative and analytical biochemistry. Preparation and characterization of lipids and carbohydrates. Methods in metabolism. Four hours laboratory. (W).

CHEM 481  Physicochemical Measurements  
2.000 Credits  
Prerequisites: CHEM 469*  

Laboratory work including the determination of molecular weights, measurements of properties of pure liquids and solutions, studies of phase equilibria, thermo chemical measurements, and analysis of atomic and molecular spectra. Eight hours laboratory. (W).

CHEM 490  Topics in Chemistry  
1.000 TO 3.000 Credits  
Must be enrolled in one of the following Classes:  
Junior  
Senior  
Graduate  
Prerequisites: CHEM 226  

Examination of problems and issues in selected areas of chemistry. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. One to three hours lecture. (YR).

CHEM 493  Presentations in Chemistry  
1.000 Credits  
Must be enrolled in one of the following Classes:  
Senior  

Employment or graduate studies in chemistry involve integration of experiences and knowledge from one’s undergraduate courses. This course is designed to help prepare students for their professional endeavors beyond UM-Dearborn. Students will submit a proposal for a senior project, present the completed project in an appropriate forum, and submit a written report on the project. Students will assemble and present a professional portfolio, and complete an exit interview. The experimental work on the project may be done in an advanced laboratory course or an independent study. (F, W).

CHEM 495  Off-Campus Research Participation  
1.000 TO 3.000 Credits  

Participation in ongoing experimental research at an off-campus laboratory. Arrangements made between the research laboratory, the student and the chemistry concentration advisor. No more than six hours combined from CHEM 495, 498, and 499 may be credited toward the 120 hours required for a degree. Four to twelve hours laboratory. Permission of concentration advisor. (F, W, S).

CHEM 497  Seminar in Chemistry  
1.000 Credits  
May not be enrolled in one of the following Major fields of study:  
Chemistry (ACS Certified)  
Chemistry (Instructional)  

Must be enrolled in one of the following Classes:  
Junior  
Senior  
Graduate  

Weekly seminars on topics of current chemical interest presented by faculty members, guest lecturers or students. The subject will vary from term to term. The course may be elected up to three times. One hour seminar. (W).

CHEM 498  Readings in Chemistry  
1.000 TO 3.000 Credits  

Library research in a specific area of chemistry performed under the guidance of a faculty member. No more than six hours combined from CHEM 495, 498 and 499 may be credited toward the 120 hours required for a degree. Four to twelve hours of readings. Permission of instructor. (F, W, S).

CHEM 499  Laboratory Research in Chemistry  
1.000 TO 3.000 Credits  

Directed laboratory research performed under the guidance of a faculty member. No more than six hours combined from CHEM 495, 498 and 499 may be credited towards the 120 hours required for a degree. Four to twelve hours laboratory. Permission of instructor. (F, W, S).

Communication  

Communication is central to cultural, social, economic and political aspects of society. The study of communication provides a lens for understanding and acting upon the vast changes taking place today.

Strong analytical skills and superior written and oral communication skills position graduates to carve out careers in a variety of governmental, business and non-profit contexts. The program combines a strong theoretical foundation with practical skills training to prepare students for any number of opportunities in our globalized multicultural and highly technological environment. The newly reorganized Communications major has two areas of study from which students can choose:

Journalism and Screen Studies (JASS)  
The Journalism and Screen Studies program is dedicated to storytelling – its forms, techniques, and technologies. It offers individual courses on different genres, including news, feature and photojournalism; narrative journalism/creative nonfiction; and documentary and feature film. In all courses, JASS stresses convergent media, interdisciplinary, and the underlying research and writing skills that connect us as journalists, documentarians and filmmakers. The program looks at storytelling as a means to both inform and entertain. All courses stress the interdependency of theory and practice, form and content.

Public Communication and Culture Studies (PCCS)  
The Public Communication and Culture Studies program prepares students to take a leadership role in professional and organizational life, civil society and community affairs, and international and global communications. It is organized around
three main areas and the connections between them: public relations and organizational cultures; advocacy communication and democratic cultures; and intercultural/international communication and global cultures. In addition, the program offers a certificate in public relations. By combining the requirements of PCCS with the public relations certificate, students can achieve an ideal combination of broad education in the principles of communication with a practical, career emphasis on professional skills of public relations.

The program requirements for the Communications Concentration, and for each area of study, are outlined below.

REQUIREMENTS FOR ALL COMMUNICATIONS CONCENTRATORS:

A. Prerequisites
All areas require a minimum of six and up to twelve hours of prerequisites. All areas require COMM 220 (Survey of Mass Communication)

B. Required Courses
All areas of study require thirty hours of upper-division courses to complete a concentration.

C. Cognates
In order to build on the multidisciplinary values of the program, students are required to take at least one course in a cognate area. While particular cognates are strongly recommended for each area, any course at the 300 level or above within CASL will satisfy the cognate requirement. This is true for all areas of study.

D. Core Areas
Each area of study is divided into two or three core areas, reflecting the traditions of inquiry and designed learning outcomes particular to the sub-field. Each of the areas of study has its own thematic content and organization of core areas, because of its particular history and context.

Internship, Co-Op and Senior Thesis
On-the-job experience gained through an internship or co-op is invaluable for students of any major. Because of this, all Communications students are required to participate in an internship, co-op or senior thesis. Many new college graduates lack the “soft skills” that employers seek. Communications graduates at the University of Michigan-Dearborn will have a distinct advantage. There is a seminar component to both the internship and the co-op.

The senior thesis is for students who have prior communications industry experience and would like to relate their experience to the theory and practice of communications without having to spend time in the field.

JOURNALISM AND SCREEN STUDIES

REQUIREMENTS

(See Journalism and Screen Studies course descriptions later in catalog)

Required Prerequisites: .......................................................... 12 hrs
JASS 2015 Fundamentals of Journalism
JASS 248 Introduction to Screen Studies
JASS 310 Narrative Journalism
COMM 220 Survey of Mass Communication

Required Experiential Education
HUM 485 OR LIBS 300-395 .............................................. 3 hrs

Required Core Area I: Media Tools................................. 12 hrs
Choose 4 courses in either Journalism or Screen Studies

A. Journalism
JASS 250: Communication Design
JASS 3015: Advanced Reporting
JASS 307: Copy Editing
JASS 331: Online Research, Reporting and Writing
JASS 330: Feature Writing for Magazines and Newspapers
JASS 350: TV Production
JASS 345: Audio Production
JASS 401: Interpretive Journalism
JASS 402: Investigative Reporting
JASS 403: Issues in Cyberspace
JASS 405: Web Design

B. Screen Studies
JASS 250: Communication Design
JASS 315: Writing and Producing for Digital Media
JASS 331: Online Research, Reporting, and Writing

PUBLIC COMMUNICATION AND CULTURE STUDIES

REQUIREMENTS:

Prerequisites:
SPEE 101 Principles of Speech Communication
COMM 220 Survey of Mass Communication

Required Core Area I: .................................................. 3 hrs
COMM 366 Introduction to Public Communication and Culture Studies

Required Core Area II: .................................................. 18 hrs
Select at least 2 from each of the following focus areas

Public Relations and Organizational Culture
COMM 260 Public Relations Principles
COMM 300 Communication Research Methods
COMM 390 Special Topics
COMM 440 Public Relations Writing*
COMM 450 Organizational Communication and Organizational Cultures
COMM 460 Public Relations Campaigns
COMM 477 Professional Communication Ethics
ESCI 572 Environmental Communications

International/Intercultural Communication and Global Culture
COMM 300 Communication Research Methods
COMM 390 Special Topics
COMM 420 Critical Media Studies
COMM 430 International Communication
COMM 455 Gender and Media Studies
COMM 481 Gender and Globalization
SPEE 310 Interpersonal Communication

Public Advocacy and Democratic Culture
COMM 306 Comparative American Identities
COMM 380 History of American Journalism
COMM 400 Speech Skills for Professionals
COMM 420 Critical Media Studies
COMM 455 Gender and Media Studies
SPEE 320 Public Argument and Advocacy
SPEE 330 Argumentation and Debate
SPEE 340 Theories of Persuasion
SPEE 442 20th Century Public Argument
SPEE 430 Small Group Communication

Focus Area Specialization/Production Specialization..... 6 hrs
The remaining elective hours can be taken in either Option A or Option B below

Option A – Focus Area Specialization
Select two additional courses from any of the focus areas above (i.e., Public Relations and Organizational Culture; International/Intercultural Communication and Global Culture; Public Advocacy and Democratic Culture). These can be taken in a particular focus area or distributed across focus areas.

Option B – Media Production Specialization
Select two courses in the area of media production:
JASS 250: Communication Design
JASS 315: Writing and Producing for Digital Media
JASS 345: Audio Production
JASS 350: TV Production
JASS 405: Web Design
JASS 410: Advanced Media Production

Required Experiential Education
Humanities Internship, Co-Op, or Senior Thesis: .................. 3 hrs

Public Relations Certificate:
The public relations certificate requires the following courses:

COMM 260: Public Relations Principles
JASS 2015: Fundamentals of Journalism
COMM 300: Communication Research Methods
COMM 440: Public Relations Writing
COMM 460: Public Relations Campaigns
COMM 477: Professional Communication Ethics

Note: Students may count nine (9) of the credits they accumulate from taking the certificate towards fulfillment of both the certificate and the requirements of the Public Communication and Culture Studies area.

MINOR OR AREA OF FOCUS
A minor or area of focus in Communication consists of fifteen hours of approved upper-division courses. These fifteen hours can be concentrated in one area of study or distributed between the two areas, Journalism and Screen Studies (JASS) or Public Communication and Culture Studies (PCCS). Of the fifteen hours, three must be in a Speech course and three in a Communications writing intensive course as listed below. In addition, students must complete the two prerequisites listed below to obtain a minor or area of focus in Communication.

Prerequisites
COMM 220 Survey of Mass Communication
SPEE 101 Principles of Speech Communication

Areas of Study:
Journalism and Screen Studies (Consult Journalism and Screen Studies course offerings later in the catalog)
Public Communication and Culture Studies (Consult Communication course offerings following this section and Speech course offerings later in the catalog)

Writing Intensive Courses
JASS 3015 Advanced Reporting
JASS 310 Literature of Journalism
JASS 315 Writing for Electronic Media
JASS 330 Feature Writing
JASS 340 Professional Communication
JASS 401 Interpretive Journalism
JASS 402 Investigative Reporting
JASS 436 Memoir and Travel Writing
COMM 440 Public Relations Writing

Communication (COMM)
COURSE OFFERINGS

COMM 220 Survey of Mass Communication
3.000 Credits
Prerequisites: COMP 106 or CPAS 40 or COMP 220 or COMP 270 or COMP 280

Course covers historical, economic, theoretical and research foundations of various mass media of communication: newspapers, magazines, radio, television and others. Includes study of the functions of media, and their creative and destructive potential in society. Textbook study and critical analyses of media products: advertisements, news stories, TV programs. (F, W).
American culture, participants will consider some core values, ethnicity, and religion. While emphasizing the diversity of this interdisciplinary study to examine the multiple identities of culture, political, economic, and other sources. Students will use discussion of historical, sociological, literary, artistic, and material questions central to the American Studies field by reading and analyzing narratives of the American experience. Students will be invited to seek out and share fresh ideas uniting America both in historical and contemporary society. Students will learn to use language to become more active, well-informed citizens. They will study rhetorical awareness, audience analysis, and persuasive writing techniques and put those lessons to use in community settings. They will perform community service at agencies of their choosing and use those experiences as objects of analysis, researching the social context in which those agencies operate and writing analytically about the agencies. Further, students will synthesize classroom lessons and real-world experience by executing writing tasks for and with the agencies (these tasks might include editorials for the local press, informational web pages and fundraising materials).

COMM 260 Public Relations Principles
3.000 Credits
Prerequisites:
Explores how public relations, as an area of communications management and production, can contribute to an organization’s success. Provides a comprehensive introduction to the field of public relations, including: history and contemporary professional status of the public relations practitioner; role of public relations as a management discipline; major areas of public relations work, including media relations, public affairs, issues management, lobbying, organizational relations, development; techniques of public relations production - planning and presentation - with attention to the uses of specific tools available to practitioners, i.e., news releases, brochures, multimedia, Internet communications, special events. (YR).

COMM 290 Communications Practicum
3.000 Credits
Prerequisites: COMP 106 or CPAS 40 or COMP 220 or COMP 270 or COMP 280
COMM 290 (Practicum) provides introductory instruction and practice in a number of practical communications skills, with the field and focus changing each time the course is offered. (AY).

COMM 300 Communication Research Methods
3.000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40
Gives detailed view of landmark research studies in the field. Acquaints students with logic of research inquiry, design and analysis, including questions of validity, reliability, causation, etc. Imparts basics of various research methods used in the communication field, such as survey interviews, depth interviews, focus groups, content analysis, and rhetorical analysis. Students design and conduct at least one study in communication, individually or in groups. (F, W).

COMM 306 Comparat. American Identities
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: COMP 106 or CPAS 40 or COMP 220 or COMP 270 or COMP 280
This course will confront and complicate the following key questions: what does it mean to be an American? What is American culture? Participants in this course will respond to the questions central to the American Studies field by reading and discussing historical, sociological, literary, artistic, material culture, political, economic, and other sources. Students will use this interdisciplinary study to examine the multiple identities of Americans - as determined by factors such as gender, race, class, ethnicity, and religion. While emphasizing the diversity of American culture, participants will consider some core values and ideas uniting America both in historical and contemporary society. Students will be invited to seek out and share fresh narratives of the American experience.

COMM 317 Case Studies in Tech Writing
3.000 Credits
Must be enrolled in one of the following Classes:
Junior
Senior
Graduate
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280
COMM 317 offers both practical and conceptual studies in technical writing and is open to non-technical as well as technical students. The course offers in-depth treatment of the communication problems and various document designs common to technical writing professionals. Instructional format includes lectures and discussions based on case material derived from actual events, followed up by preparation of written documents. Topics include document design, language barriers, and the role of the technical documents in product liability. (F, W, S).

COMM 331 Online Reporting, Research, Writing
3.000 Credits
Prerequisites: COMP 106 or COMP 270 or COMP 110 or CPAS 40 or COMP 280
Course introduces the technical, social, legal and ethical practice of online research, focusing specifically on reporting (i.e. research and interview) skills required by journalists and others. Students use new media technology to generate ideas, to research subjects, and to develop general-audience writing projects in their areas of interest. Course covers the use of Web search engines, directories and databases; finding sources and interviewing people online; evaluating the credibility of online sources and information; using Lexis-Nexis to access archives and public records; and using spreadsheet and database programs.

COMM 340 Professional Communication
3.000 Credits
Must be enrolled in one of the following Classes:
Junior
Senior
Graduate
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280
Course covers essential skills of professional written and oral communication within the organization; the purpose, process, and problems of professional communication; the influence of organizational structure; audience analysis; the writing and editing of reports (formal and informal, including memo reports) and of professional correspondence; the preparation of graphics; and the planning and delivery of oral presentations. May count toward Communications minor. (F, W, S).

COMM 364 Writing for Civic Literacy
3.000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280
In Writing for Civic Literacy, students will study how politicians, the media and critical citizens use language to engage with the broader community. Students themselves will learn to use language to become more active, well-informed citizens. They will study rhetorical awareness, audience analysis and persuasive writing techniques and put those lessons to use in community settings. They will perform community service at agencies of their choosing and use those experiences as objects of analysis, researching the social context in which those agencies operate and writing analytically about the agencies. Further, students will synthesize classroom lessons and real-world experience by executing writing tasks for and with the agencies (these tasks might include editorials for the local press, informational web pages and fundraising materials).
COMM 366  Public Comm and Culture Studies
3. 000 Credits

This gateway course provides the theoretical and methodological foundation to embark on the study of three key interrelated spheres of communication: Public and Organizational Culture, Public Advocacy and Democratic Culture, and Intercultural Communication and Global Culture. Students will have the opportunity to examine salient societal issues within each of the major areas, and explore connections between the different areas. Through a variety of class exercises and both individual and collaborative projects, the course will help students to acquire an analytical and practical "toolkit" enabling them to function effectively as communicators in culturally diverse organizations and civic contexts.

COMM 381  Postwar European Cinema
3. 000 Credits

Must be enrolled in one of the following Classes:
Senior
Sophomore
Freshman
Junior

The course will concentrate on a series of films from various European countries with a focus on the socio-political issues, historical events and cultural preoccupations that have defined and also challenged European societies from WWII to the present. Zeroing in on the construction of European identities, the course will analyze and compare modes of narrating national, class, racial, sexual and social differences in different European nations. Themes such as memories of war and the Holocaust, new conflicts, class, immigration, women's rights, gender, and East-West relations will be addressed. The course will thus privilege a cinema that offers a "r.cit," a story. Particular attention will be given to discourses on otherness and on the ways in which film culture has reflected, reinforced, reshaped and, in some instances, contested Europe's past and current dominant ideologies, and identities. Readings by cultural historians and analysts will provide the context for an understanding of the films. The course will conclude with a discussion of the possible existence of a specific postwar European Cinema.

COMM 390  Topics in Communication
3. 000 Credits

A course in nonfiction narrative that focuses on memoir writing, emphasizing technique. Students will read book-length examples by Azar Nafizzi, Nelson Mandela, Frank Conroy, Mar Karr, Susanna Kaysen, Frank McCourt, Ann Patchett and Joan Didion, examining these books as models for writing.

COMM 397 Communications Thesis
3. 000 Credits

Must be enrolled in one of the following Classes:
Senior
Junior

A thesis project that is the culmination of the Communications major. Students will choose the project area and write a thesis (40-50 pages) under the direction of a Communications faculty member. The thesis option is available only to students with substantial practical experience in the communication field, and requires the approval of Communications faculty.

COMM 398  Independent Studies-Comm
1. 000 TO 3. 000 Credits

Readings, supervised practice, or analytical assignments in Communications, determined in accordance with the needs and interests of those enrolled. May count toward Communications minor. (F, W).

COMM 420  Critical Media Studies
3. 000 Credits

Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280

Course presents various critical approaches to the study of the media. Perspectives include political economy, cultural studies, critical theory of the Frankfurt school and feminism. Focus of seminar portion will be on a particular medium or a particular societal issue (e.g., media and politics, gender and media, media and minorities). (YR).

COMM 430  International Communications
3. 000 Credits

Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280

Course covers key concepts and debates in international communications, including the politics of a New World Information Order; international news coverage; flows of data and cultural programming across national boundaries; and the control of communications resources such as satellite spectrum. (F or W).

COMM 440  Public Relations Writing
3. 000 Credits

Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: COMM 260

Course covers skills and strategies of writing for organizations in a public/employee relations capacity. Applications include setting up a public relations program for an organization; writing backgrounders, position papers, newsletters and brochures; and compiling a media kit. Topics include crisis management and communication, the role of document design in creating a positive organizational image, and analysis of various publics. Students cannot receive credit for both COMM 440 and COMM 540. (YR).

COMM 442  20th Century Public Argument
3. 000 Credits
Prerequisites: SPEE 101

This class is a survey of American public address in the 20th Century. Students will examine and critically analyze several of the most significant speeches and rhetorical movements of the last one hundred years. Through lectures, discussions, and analysis of speeches and other artifacts, we will focus on the relationship between rhetoric and history, and how theories of rhetorical action help us appreciate the role of discourse in the effective functioning of a democratic system. Students will learn to utilize several critical perspectives as a means of understanding both historical and contemporary political discourse. (W).
COMM 450    Principle of Organization Comm
3. 000 Credits
Must be enrolled in one of the following Classes:
    Senior
    Junior
Prerequisites: COMM 340 or COMM 440

Course examines how communication networks function in organizations. Purpose: to provide an organizational context and conceptual framework for the practice of professional writing and speaking skills. Writing projects include a research report, a case study, and several shorter papers, practical and analytical, on assigned topics. Students cannot receive credit for both COMM 450 and COMM 550. (OC).

COMM 455    Gender and Media Studies
3. 000 Credits
Must be enrolled in one of the following Levels:
    Undergraduate
    Sophomore
    Senior
    Junior
Prerequisites: WGST 275 or WGST 303

The course will focus on several feminist approaches used in understanding the media and attempting to create social change through the media. The role of media in the definition and reproduction of gender-based hierarchies and in the renegotiation of gender boundaries will both be explored. To this end, both mainstream and women's media will be examined. The course will take a multicultural and international perspective, incorporating concerns of class, race, ethnicity, and nation as these intersect with the study of gender and media. Mainstream and alternative media will be analyzed through readings, films, case studies, in-class collaborative exercises and longer term projects. News, entertainment, and advertising genres will be examined in a variety of media such as the printed press, television, video, film, and the Internet. (W).

COMM 460    Public Relations Campaigns
3. 000 Credits
Prerequisites: COMM 260 and COMM 440

Focuses on strategies and tactics involved in planning and implementing a public relations campaign. Extends and refines skills acquired in earlier, prerequisite course work by incorporating management, production, and writing within a four-stage model for planning and action. This model provides a framework for role-playing, case study work, and projects done for evaluation by public relations professionals at local firms. The semester's portfolio of finished communications and "mock-ups" - including planning materials, news releases, brochures, newsletters, Internet communications, video and audio scripts - should demonstrate command of entry-level, professional abilities as a public relations campaign manager and producer. (YR).

COMM 464    Contemporary Rhetorical Theory
3. 000 Credits
May not be enrolled in one of the following Classes:
    Graduate
Prerequisites: COMM 201 or COMM 220 or COMM 290 or ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 240 or ENGL 250

An examination of contemporary rhetorical theories through study of representative practitioners and related developments in linguistics, philosophy, psychology, communication, and composition and rhetoric. Students may not receive credit for both COMM 464 and COMM 564.

COMM 477    Prof Communication Ethics
3. 000 Credits
May not be enrolled in one of the following Classes:
    Graduate
Prerequisites: COMM 340 or COMM 440 or COMM 450

An examination of professional communication ethics in the organizational context, focusing on important issues, problems, and concepts. This course is designed to help students become conscious of the role of values in a wide range of professional communication situations; to locate organizational behavior in an ethical framework based on considered definitions, standards, perspectives, and criteria for evaluation and analysis; to consider individuals as well as organizations as moral agents in a changing and complex universe; and to analyze topical cases on emergent issues in communication ethics. Some sample topics: ethics in decision-making and conflict-resolution; privacy and confidentiality; sexual harassment; whistle blowing; the "engineering" of consent; corporate image and ethos; issues in documentation, record-keeping, and technology; "issues management" and corporate responsibility; groupthink; obedience and personal responsibility; employee socialization. Students cannot receive credit for both COMM 477 and COMM 577. (OC).

COMM 481    Gender and Globalization
3. 000 Credits
Must be enrolled in one of the following Levels:
    Undergraduate
    Sophomore
    Freshman

Mass media, politics, and academia are full of references to globalization, and a future "world without borders." This interdisciplinary course considers the implication of globalization for women's lives, gender relations, and feminism. Topics covered include the global factory, cross-cultural consumption, human rights, global communications, economic restructuring, nationalism, and environmental challenges. Rather than survey international women's movements, this course explores how globalization reformulates identities and locations and the political possibilities they create. (AY).

Comparative Literature
(minor only)

MINOR OR AREA OF FOCUS
A minor or area of focus consists of 12 hours of upper-division credit in comparative literature.

Comparative Literature (COML) COURSE OFFERINGS

COML 221    Great Books I: Ancient World
3. 000 Credits

Introduction to masterpieces of Western world literature from the ancient world. Readings include the Bible, Iliad, Odyssey, Greek drama, and Roman authors. (YR).
COML 222  Great Books II  
3. 000 Credits

Introduction to masterpieces of Western world literature from the Middle Ages and Renaissance. Readings include Dante, Chaucer, Wolfram, Cervantes, Shakespeare, Moliere, and Racine. (YR).

COML 223  Great Books III: Modern Era  
3. 000 Credits

Introduction to masterpieces of Western world literature from the Modern Era. Readings include Swift, Voltaire, Rousseau, English romantic poets, fiction and drama of the 19th and 20th century. (YR).

COML 301  Literary Criticism  
3. 000 Credits

Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL 236 or ENGL 237 or ENGL 239)

This course introduces literary criticism and theory from Aristotle to the present, focusing on the changing concept of literature's nature and function. Lectures, readings, and discussion cover such critics as Aristotle, Dryden, Pope, Johnson, Wordsworth, Coleridge, Arnold, T. E. Hulme, I. A. Richards, T. S. Eliot, and such movements as New Criticism, Phenomenology, Reader-Response, Archetypal Criticism, psychological approaches to literature, New Historicism, Marxism, Feminism, and Deconstruction. (OC).

COML 340  Modern European Short Fiction  
3. 000 Credits

Prerequisites: ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200

A careful reading of between 10 and 15 short novels (in English translation) with particular attention being paid to the manner in which their plots and characters express contemporary cultural issues. Such works as Dostoyevsky's Notes from Underground, Conrad's Heart of Darkness, and Unamuno's Abel Sanchez will be included.

COML 341  Mod Eur Poetry in Translation  
3. 000 Credits

Prerequisites: ENGL 231

Movements and genres of modern European poetry, from the Symbolists to the present. Included will be such poets as D'Annunzio, Cavafy, Rilke, Blok, Mayakovksy, Valery, Elyard, Pavese, Seferis, Akhmatova, Mандестрам, Marinetti, Trakl, Mistral, Vallejo, Morgenstem, Apollinaire, Loren, Transtromer, Brodsky, Milosz, and others in translation. (OC).

COML 342  Myth and Motif  
3. 000 Credits

Prerequisites: ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200

A study of archetypal figures and thematic motifs. Their recurrent appearance in different literary periods and genres and their lineage will be examined in order to increase understanding of the works themselves and of the ages which produced them. A selection will be made from classical myth, Biblical narrative, and historical sources. Thus the figures may vary from Oedipus and Cain to Faust and Don Juan. Motifs or story patterns may include such devices as the spiritual quest, the journey into Hell, or the patricide prophecy.

COML 344  Modern Literature: the Novel  
3. 000 Credits

A careful examination of five or six significant modern novels in translation, with particular emphasis on their influence on the development of the novel, and their reflection of contemporary cultural issues. The works of such authors as Flaubert, Dostoyevsky, Tolstoy, Gide, Joyce, and Mann will be included.

COML 345  Modern Literature: Drama  
3. 000 Credits

A careful reading of selected plays from Ibsen to the contemporary theater, designed to develop appreciative criticism and an understanding of the plays in their relationships to movements to modern drama, theater, background, social forces and trends of thought.

COML 347  Clas Lit in Engl Translation  
3. 000 Credits

Must be enrolled in one of the following Classes: Junior

Prerequisites: ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200

A study of masterworks of ancient Greek and Roman literature with special attention to the development of epic, tragedy, comedy, and lyric poetry. Authors studied will include Homer, Virgil, Aeschylus, Sophocles, Euripides, Aristophanes, Terence, and Plautus.

COML 355  Urban Voices: France and Italy  
3. 000 Credits

Must be enrolled in one of the following Classes: Freshman

This course is an interdisciplinary approach to the concepts of urban development and literary, visual and cultural responses to the process of urbanization mainly in Rome and Paris. The readings will illustrate how the city shaped the writers' creativity, as well as how their works interpret urbanization.

COML 375  The Hero in Literature  
3. 000 Credits

Reflections on myth, history, and literature, based on analyses of literary texts. The individual hero may change from term to term. The course, for example, might center on the transition from Faust to anti-Faust. In this instance, some of the writers or works might include: The Faust book, Marlow's Doctor Faustus, Goethe's Faust, Byron's Manfred, a Faust opera, Thomas Mann's Doktor Faustus, Gunter Grass' The Tin Drum. All reading in English translation. (OC).

COML 390  Topics in Comparative Lit  
3. 000 Credits

Examination of problems and issues in selected areas of comparative literature. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).
COML 399  Independent Studies
1. 000 TO 3. 000 Credits
Readings or analytical assignments in Comparative Literature in accordance with the needs and interests of those enrolled and agreed upon by the student and instructor.

COML 404  Medieval Mystical Writers
3. 000 Credits
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL 236 or ENGL 237 or ENGL 239)
A study of the genre of mystical writing as it was developed and practiced throughout the Middle Ages and in 14th century England particularly. Attention will be given to the historical, religious, and cultural contexts that enabled and were created by mystical texts. In addition, the course will explore how traditional and contemporary trends in the fields of religious and literary studies can be brought to bear on the genre of mystical writing. (OC)

COML 433  Writing Women in Renaissance
3. 000 Credits
Must be enrolled in one of the following Levels:
  Undergraduate
This course will be taught in English, and will focus on the influence of Italian literary models for the construction of female literary types as well as female voices in France and Italy from 1300 to about 1600. Italian authors studied include three very influential Florentines, Dante, Petrarch and Boccaccio, as well as Castiglione and Ariosto. We will read women poets, patrons, prostitutes and queens from Italy and France such as Veronica Gambara, Isabella di Morra, Vittoria Colonna, Christine de Pizan, Louise Labe, and Marguerite de Navarre. At last issue will be women's roles and women's images in city and court culture during the early modern period, and the interaction of their writings with the literary canons of Italy and France. (OC).

COML 455  This American Life
3. 000 Credits
May not be enrolled in one of the following Classes:
  Graduate
  Freshman
The course "This American Life: Immigrant Literature and the American Dream" is a literary and cultural analysis of the literature of immigration. The readings are from works of fiction in a variety of genres, and are written by American and non-American prize-winning authors. Their common denominator is the pursuit of the American Dream and its many multifaceted aspects. The themes explored include: assimilation, acculturation, diversity, language, subculture, intertextuality, nostalgia, belonging, and double identity. Student wishing to take this course for graduate credit should sign up for COML 555. Students cannot receive credit for both COML 455 and COML 555.

Composition &Rhetoric
(not a field of concentration)
For information on placement into first-year composition courses, please see the Writing Program section under Special Programs.

WRITING CERTIFICATE
Nine credit hours of writing (at least one course must be COMP; minimum B grade required in each course). Here is a partial list:
ART 390A ("Graphic Novel"); COMP 317, 340, 436; COMP/COROT 310, COMP/ENGL 327, COMP/COROT/ENGL 364, COMP/COROT/ENGL 464,COMP/ENGL 468, COMP 485; ENGL 323; FREN 302; GER 301; JASS 307, 310, 315, 330, 436, 467; SPAN 301
Practicum experience required (minimum 30 clock hours; must include substantial writing/editing component). Possible ways to fulfill practicum requirement include:
Independent Study
Internship (HUM/HIST 485)
Co-op (LIBS 300+395)
Peer Consulting in Writing Center
Community Service Work/
Volunteerism/Civic Engagement

NOTES REGARDING WRITING CERTIFICATE PROGRAM:
1. At most, one transfer course, or UM-Dearborn course that does not appear on the list of approved courses, may be counted toward the certificate, if approved by petition.
2. Students, at the time that they are completing the Writing Certificate, must submit a Memorandum of Reflection, a sample of written work, and a Writing Certificate Completion Sheet. See LCC Department for details.

Composition (COMP)

COURSE OFFERINGS

COMP 095  Engl Second Language I
3. 000 Credits
An alternative to COMP 099. Specifically designed to address the needs of students for whom English is a second language and who are not yet proficient in English. Offers intensive practice in basic English grammar and rhetoric through the writing of short papers and the reading and discussion of appropriate texts. Focuses on the conventions of written English. (OC).

COMP 099  Writing Techniques
3. 000 Credits
Course is designed to help the less-prepared student qualify for COMP 105 by providing a review of basic grammar and syntax and frequent practice in writing short papers to develop habits of unified, coherent, and correct composition. Student writing is complemented by the reading and analysis of short prose pieces selected to help students read for understanding and to learn more about writing through the study of professional authors. Must be taken by students who do not qualify for COMP 105. (F, W).

COMP 105  Writing & Rhetoric I
3. 000 Credits
Prerequisites: COMP 099 or CPAS 20
Comp 105: Focuses on the study and practice of writing and rhetoric, with special emphasis on the writing process. Students write and read critically a range of texts, and consider academic and nonacademic genres and conventions. (F, W).
COMP 106  Writing & Rhetoric II
3.000 Credits
Prerequisites: COMP 105 or CPAS 30 or COMP 110

Comp 106: Focuses on the study of writing and rhetoric through composing a range of researched texts. Students study the rhetorical choices effective for writing in different media, and learn practical strategies for academic inquiry and for giving useful feedback in response to the writing of others. Such strategies include those related to the use of electronic and print resources, peer-review and revision. (F, W).

COMP 110  Honors Writing & Rhetoric I
3.000 Credits

Honors Program introductory composition course. Fulfills the Composition I requirement for students in the Honors Program. It is designed to develop Honors Composition fulfills the Composition II requirement for students in the Honors Program. Course focuses on college-level expository writing techniques through seminar-type analysis of texts read in the Honors Program and through individualized and group writing workshops. Assignments include at least five finished papers incorporating revision. Honors students, like other students in first-semester composition, must pass the standard exit exam for COMP 105 to continue on to COMP 220 (or COMP 106). (F).

COMP 220  Honors Writing & Rhetoric II
3.000 Credits
Prerequisites: COMP 110 or CPAS 30 or COMP 105

Honors Composition fulfills the Composition II requirement for students in the Honors Program. It is designed to develop research, writing, and editing skills and to give the student experience in argumentation and persuasion and in the interpretation of literary texts. Satisfies for honors students the 200-level prerequisite for upper-division English courses, except for English concentrators. (YR).

COMP 223  Intro to Creative Writing
3.000 Credits
Prerequisites: COMP 106 or CPAS 40 or COMP 220 or COMP 270 or COMP 280

An introduction to the writing of poetry, the short story, and/or the play. Considerable writing analysis, criticism, and discussion. (F, W).

COMP 227  Intermed Expo and Arg
3.000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280

Further explorations in exposition and argumentation to develop and enhance the student's ability to write essays and/or articles. Review of basics of grammar and style. Intensive practice in writing and careful examinations of appropriate books and shorter prose works. Written assignments of 500 to 2000 words. (F, W).

COMP 267  Arab & Arab American Workshop
3.000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280

The Arab and Arab American Writers Workshop is a creative writing workshop focusing on poetry and fiction. Students will explore Arab American literature, writers, and themes. Students are expected to work on their own manuscripts as well as critique outside readings. The workshop will be conducted under the guidance of Arab and Arab American faculty and is open to all students.

COMP 270  Tech Writing for Engineers
3.000 Credits
Must be enrolled in one of the following Colleges:
Coll of Engineering & Comp Sci
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior
Prerequisites: COMP 105 or CPAS 30 or COMP 110

Instruction and practice in designing technical reports. Students study the rhetorical problems facing the professional engineer in industry and learn practical strategies for analyzing and communicating technical information to both technical and non-technical audiences. Topics include audience analysis, technical research methods, report formats (written and oral, formal and informal), argumentation and persuasion, editing. This course fulfills the Composition II requirement for engineering students only. (F, W).

COMP 280  Business Writing & Rhetoric
3.000 Credits
Must be enrolled in one of the following Major fields of study:
Prebusiness
Prerequisites: COMP 105 or COMP 110 or CPAS 30

COMP 280 focuses on instruction and practice in composing and designing business documents, including abstracts, memos, email, letters, reports, resumes, proposals, and slide presentations. Students study the rhetorical problems facing business professionals and learn practical strategies for analyzing business information and communicating with professional and non-professional audiences. Such strategies include those related to the use of electronic resources, peer-review and revision. This course fulfills the Composition II requirement for pre-business students.

COMP 310  Narrative Journalism
3.000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280

Students learn to identify, understand and use the techniques of fiction in the service of nonfiction material. While studying the texts as literature, students are also encouraged to view them as models for writing. Assignments include the writing and revising of articles, based on research and interviews, and writing in story form, drawing on literary techniques. (YR).

COMP 327  Advanced Exposition
3.000 Credits
Prerequisites: COMP 106 or COMP 270 or COMP 220 or CPAS 40 or COMP 280

A study of rhetorical theory and its application to various types of expository essays. Writing assignments will reflect the types of essays studied. May be repeated to a maximum of 6 credit hours.
COMP 331  Online Reprtng, Resrch, Writing
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Classes:
Senior
Sophomore
Freshman
Junior
Prerequisites: COMP 106 or COMP 110 or COMP 270 or CPAS 40 or COMP 280
Course introduces the technical, social, legal and ethical practice of online research, focusing specifically on reporting (i.e. research and interview) skills required by journalists and others. Students use new media technology to generate ideas, to research subjects, and to develop general-audience writing projects in their areas of interest. Course covers the use of Web search engines, directories and databases; finding sources and interviewing people online; evaluating the credibility of online sources and information; using Lexis-Nexis to access archives and public records; and using spreadsheet and database programs.

COMP 364  Writing for Civic Literacy
3. 000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280
In Writing for Civic Literacy, students will study how politicians, the media and critical citizens use language to engage with the broader community. Students themselves will learn to use language to become more active, well-informed citizens. They will study rhetorical awareness, audience analysis and persuasive writing techniques and put those lessons to use in community settings. They will perform community service at agencies of their choosing and use those experiences as objects of analysis, researching the social context in which those agencies operate and writing analytically about the agencies. Further, students will synthesize classroom lessons and real-world experience by executing writing tasks for and with the agencies (these tasks might include editorials for the local press, evaluating the credibility of online sources and information; using Lexis-Nexis to access archives and public records; and using spreadsheet and database programs).

COMP 365  Topics in Composition
3. 000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280
Examines problems and issues in selected areas of rhetoric and composition. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topic differs. (OC).

COMP 390  Independent Study
1. 000 TO 3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
A significant writing project in non-fiction or fiction prose developed in accordance with the needs and interest of those enrolled and agreed upon by the instructor. Participants may also study texts of published authors. May be repeated for a maximum of 6 credit hours.

COMP 436  Memoir and Travel Writing
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280
A course in narrative non-fiction that focuses on memoir and travel writing. Reading involves several books as well as classic essay-length examples. Assignments include both short analytical papers and the writing and revising of three original articles, based on research, interviews, memory, and observation, and drawing on literary techniques. (YR).

COMP 464  Contemporary Rhetorical Theory
3. 000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280
An examination of contemporary rhetorical theories through study of representative practitioners and related developments in linguistics, philosophy, psychology, communication, and composition and rhetoric. Students may not receive credit for both COMP 464 and COMP 564.

COMP 468  Read/Writ Young Adult Fiction
3. 000 Credits
Prerequisites: COMP 106 and (ENGL 223 or COMP 223)
In this course participants will explore the young adult novel from the point-of-view of a reader and a writer. They will read recently published and critically acclaimed popular young adult novels. They will use these texts to explore such issues as gender, race and identity as they relate to young adult lives and their respective cultures generally. They will use these texts as models for the production of their own texts and will consider if and why young adult novels are abbreviated or limited in relationship to adult literature. In addition to reading about ten novels, they will complete several creative exercises leading up to a final portfolio.

COMP 485  Theories of Writing
3. 000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280
In this course we will investigate why and how people write for particular audiences and in a variety of contexts. Subjects will include: cognitive and social theories of writing and the writing process, theories of persuasion, writing across the curriculum, writing for multiple audiences, writing in the workplace, writing for self and for publics, and teaching writing. The course will be useful to students interested in teaching writing at the K-12 level, those interested in careers in communication and those who wish to better understand how writing promotes personal and societal change. (YR)

Computer and Computational Mathematics
(minor only)

MINOR OR AREA OF FOCUS
The courses in Computer and Computational Mathematics (CCM) develop skills in applying mathematical algorithms in ways useful in real world situations. A minor or area of focus consists of 12 hours of upper-division credit in courses specifically selected as CCM courses.

See College of Engineering and Computer Science for concentration in Computer and Information Science.
Computer & Computational Mathematics (CCM)

COURSE OFFERINGS

CCM 150  Computer Science I
4.000 Credits
Prerequisites: MATH 115*
Co-requisites: CCM 150L

An introduction to structured computer programming covering problem formulation, algorithm development, the C++ programming language, program testing and debugging, capabilities and elements of computer organization, and object-oriented software methodologies.

CCM 172  Computing Environ for Math
3.000 Credits
Must be enrolled in one of the following Colleges:
Coll of Arts, Sciences&Letters
Must be enrolled in one of the following Classes:
Senior
Sophomore
Freshman
Junior
Prerequisites: MATH 115

This course covers introductory programming techniques for Mathematics majors. Students will learn to program in Mathematica, MatLab, and C++. Topics include data types, variables and assignments, decisions, loops, functions, recursion, arrays and pointers. Programming assignments will focus on problems that are mathematical in nature, giving students an opportunity to use simulations to understand and verify familiar mathematical results. This course, or CIS/CCM 150, satisfies the programming requirement for the Mathematics concentration.

CCM 305  The Theory of Computation
3.000 Credits
Prerequisites: CIS 175 and (CIS 200 or IMSE 200)

An introduction to the foundations of computer science including the theory of computability, Turing machines, automata, and formal languages.

CCM 315  Applied Combinatorics
3.000 Credits
Prerequisites: MATH 200 and (MATH 217 or MATH 227)

An introduction to methods and applications of enumerative and configurational combinatorics. Students study several elegant and useful techniques for counting and/or generating the elements in large and unwieldy finite sets. Students will also study topics in graph theory that are applicable to real world problems. Topics include basic counting principles, the principle of inclusion-exclusion, generating functions and recurrence relations. Topics from graph theory include graph models, paths, circuits, cycles, connectedness, planarity, coloring, directed graphs, networks and network flows.

CCM 372  Computing with Mathematica
3.000 Credits
Prerequisites: MATH 217 or MATH 227

The course explores a variety of topics from different areas of undergraduate mathematics including calculus, matrix algebra, number theory, geometry, and discrete mathematics. Students learn to design customized Mathematica functions to solve specific problems in these areas using the symbolic, computational, graphics, and programming tools provided within Mathematica.

CCM 390  Topics in Computational Math
1.000 TO 3.000 Credits

A course designed to offer selected topics in different areas of applied mathematics. The specific topics will be announced together with the prerequisites for each separate offering. Course may be repeated when the topics covered differ.

CCM 399  Independent Studies
1.000 TO 3.000 Credits

Readings or analytical assignments in Computers and Computational Mathematics in accordance with the needs and interests of those enrolled and agreed upon by the student and advising instructor.

CCM 404  Dynamical Systems
3.000 Credits
Prerequisites: MATH 216 and (MATH 217 or MATH 227)

The aim of this course is to survey the standard types of differential equations. This includes systems of differential equations, and partial differential equations, including for each type, a discussion of the basic theory, examples of applications, and classical techniques of solutions with remarks about their numerical aspects. Also included are autonomous and periodic solutions, phase space, stability, perturbation techniques and Method of Liapunov. (AY).

CCM 451  Computer Graphics
3.000 Credits
Must be enrolled in one of the following Classes:
Graduate
Prerequisites: (CCM 350 or CIS 350 or IMSE 350) or (ECE 370 and MATH 276) and (MATH 215 or MATH 205) and (MATH 217 or MATH 227)

Basic geometrical concepts: graphics output primitives, two-dimensional transformations, windowing and clipping, three-dimensional viewing, visible surface detection methods, graphical user interfaces.

CCM 458  Introduction to Wavelets
3.000 Credits
May not be enrolled in one of the following Colleges:
No College Designated
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior
Prerequisites: MATH 216 and (MATH 217 or MATH 227)

This course will introduce the students to theory and application of wavelets using linear algebra. Topics will include the discrete Fourier transform, the fast Fourier transform, linear transformations, orthogonal decomposition, discrete wavelet analysis, the filter bank, Haar Wavelet family, Daubechies's Wavelet family, and applications. Students cannot receive credit for both MATH 458 and MATH 558. (OC)
Cooperative Education Program
(not a field of concentration)

Cooperative Education is a nationally recognized educational plan that integrates academic study with paid, real world work experience. UM-Dearborn cooperates with business, industry, government and other private and public agencies to offer work assignments related to students' educational programs and career objectives. Students may earn a maximum of 10 S/E credit hours through co-op work assignments of one to three credit hours each, and a mandatory one credit-hour seminar. Students should be aware that applying for co-op does not guarantee job placement. Liberal arts students are advised to use curriculum electives to acquire the technical skills needed to improve their marketability and to avail themselves of career counseling available through the Career Services Office.

For eligibility information, see Cooperative Education in Special Programs, or contact the Cooperative Education Office, Room 1038 CB, (313) 593-5188.

Criminal Justice Studies

Criminal Justice Studies is a field that focuses on the study of criminal behavior and society’s response to it. The field draws upon the insights of the social and behavioral sciences, the physical sciences, statistics, and the humanities to illuminate the issues of maintaining social order in a constitutional democracy committed to individual freedom, equality, and justice. More specifically, the field focuses on the causes and prevention of criminal behavior. The criminal justice system is composed of the police agencies, prosecutors, the legal profession, the courts, and correctional agencies, among others. The system is part of a larger social system which invariably influences the effectiveness and fairness of law enforcement. Criminal justice analyzes system responses to the changes in social values and law enforcement. The program in Criminal Justice Studies at UM-Dearborn is intended to prepare students for careers in public security, criminal justice administration, law and paralegal professions, public administration, policy analysis, and graduate study in the social and behavioral sciences.

Prerequisites to the Concentration

Because UM-Dearborn courses are 300-level or higher and are offered by the disciplines of philosophy, political science, psychology, and sociology, they may require these prerequisites: PHIL 240, POL 101, PSYC 170 or 171, and SOC 200 or SOC 201.

Concentration Requirements

Required Core Courses ........................................ 9 hours
CRJ 200 Introduction to Criminal Justice Studies
CRJ 468 Criminology
Plus one course from the following:
CRJ 363 Criminal Justice Systems and Policy
CRJ 480 Applied Criminal Justice Theory
CRJ 489 Law, Crime, and Society

Special Topics in Criminal Justice .......................... 3 hours
CRJ 467 Drugs, Crime, and Justice
CRJ 470 Current Issues in Criminal Justice
CRJ 472 Correctional Systems
CRJ 473 Race, Crime, and Justice
CRJ 474 Cyber Crimes
CRJ 475 Digital Evidence

Ethics ................................................................. 3 hours
CRJ 240 Ethics
CRJ 303 Justice
CRJ 308 Moral and Political Dilemmas
CRJ 445 Seminar in Contemporary Ethical Theory
CRJ 482 Legal Ethics
CRJ 490 Topics in Criminal Justice

Social Justice ..................................................... 3 hours
CRJ 305 Race, Justice, and Freedom
CRJ 322 Psychology of Prejudice
CRJ 323 Urban Politics
CRJ 350 Poverty and Inequality
CRJ 369 Civil Rights Movement
CRJ 384 Immigration in America
CRJ 403 Minority Groups
CRJ 423 American Social Classes
CRJ 435 Urban Sociology
CRJ 443 Gender Roles
CRJ 455 Immigrant Community in North America
CRJ 461 Women in Prison
CRJ 466 Drugs, Alcohol, and Society
CRJ 476 Inside Out Prison Exchange

Law and Society ................................................ 3 hours
CRJ 302 Theory of Law
CRJ 316 American Judicial Process
CRJ 335 Philosophy of Law
CRJ 362 Women, Politics, and the Law
CRJ 413 American Constitutional Law
CRJ 414 Civil Rights and Liberties
CRJ 416 Criminal Law
CRJ 453 Sociology of Law
CRJ 471 Comparative Criminal Justice Systems

Human Interaction & Social Control ..................... 3 hours
CRJ 325 Psychology of Interpersonal Relations
CRJ 382 Social Psychology
CRJ 407 Psychology of Adolescence
CRJ 421 Group Processes
CRJ 440 Abnormal Psychology
CRJ 446 Marriage and Family Problems
CRJ 447 Family Violence
CRJ 465 Deviant Behavior and Social Disorganization
CRJ 469 Juvenile Delinquency
CRJ 480 Applied Criminal Justice Theory

CRJ 490 Topics in Criminal Justice

Required Core Courses ........................................ 9 hours
CRJ 200 Introduction to Criminal Justice Studies
CRJ 468 Criminology
Plus one course from the following:
CRJ 363 Criminal Justice Systems and Policy
CRJ 480 Applied Criminal Justice Theory
CRJ 489 Law, Crime, and Society

Special Topics in Criminal Justice .......................... 3 hours
CRJ 467 Drugs, Crime, and Justice
CRJ 470 Current Issues in Criminal Justice
CRJ 472 Correctional Systems
CRJ 473 Race, Crime, and Justice
CRJ 474 Cyber Crimes
CRJ 475 Digital Evidence

Ethics ................................................................. 3 hours
CRJ 240 Ethics
CRJ 303 Justice
CRJ 308 Moral and Political Dilemmas
CRJ 445 Seminar in Contemporary Ethical Theory
CRJ 482 Legal Ethics
CRJ 490 Topics in Criminal Justice

Social Justice ..................................................... 3 hours
CRJ 305 Race, Justice, and Freedom
CRJ 322 Psychology of Prejudice
CRJ 323 Urban Politics
CRJ 350 Poverty and Inequality
CRJ 369 Civil Rights Movement
CRJ 384 Immigration in America
CRJ 403 Minority Groups
CRJ 423 American Social Classes
CRJ 435 Urban Sociology
CRJ 443 Gender Roles
CRJ 455 Immigrant Community in North America
CRJ 461 Women in Prison
CRJ 466 Drugs, Alcohol, and Society
CRJ 476 Inside Out Prison Exchange

Law and Society ................................................ 3 hours
CRJ 302 Theory of Law
CRJ 316 American Judicial Process
CRJ 335 Philosophy of Law
CRJ 362 Women, Politics, and the Law
CRJ 413 American Constitutional Law
CRJ 414 Civil Rights and Liberties
CRJ 416 Criminal Law
CRJ 453 Sociology of Law
CRJ 471 Comparative Criminal Justice Systems

Human Interaction & Social Control ..................... 3 hours
CRJ 325 Psychology of Interpersonal Relations
CRJ 382 Social Psychology
CRJ 407 Psychology of Adolescence
CRJ 421 Group Processes
CRJ 440 Abnormal Psychology
CRJ 446 Marriage and Family Problems
CRJ 447 Family Violence
CRJ 465 Deviant Behavior and Social Disorganization
CRJ 469 Juvenile Delinquency
CRJ 480 Applied Criminal Justice Theory
Research Methods.................................3-4 hours
CRJ 300 Political Analysis
CRJ 383 Introduction to Statistics
CRJ 410 Social Research (4 cr. hrs.)
CRJ 425 Lab in Social Psychology (4 hrs.)

Internship of Co-op Experience...............3-6 hours
CRJ 478 Criminal Justice Studies Internship
CRJ 485 Psychology Internship
CRJ 494 Political Science Internship (3 hrs.)
CRJ 495 Political Science Internship (3-6 hrs.)
CRJ 497 Washington, DC Internship (3-6 hrs.)
LIBS 300 Co-op Seminar (1 hr.)
LIBS 395 Co-op Education Work Assignment (1-3 hrs.)

Cognates
CRJ majors should complete 6 credit hours of coursework from
the list of approved cognate courses. Please see a CASL Advisor
(1039 CB) for a copy of the list.

MINOR AREA OF FOCUS
A minor consists of 15 hours of upper-division criminal justice
course work, including CRJ 468 and two courses from CRJ 363,
469, or 470.

Evening and Saturday Offerings
The criminal justice program is committed to offering both a
day and evening/weekend program. Evening/weekend students
should watch for infrequently offered courses and take them
when available. If a required course is not offered during a
reasonable period, a full-time evening student may petition to
substitute another course.

Internships
An internship or co-op experience of 3 to 6 credit hours is required.
The CRJ internship provides supervised field experience in a variety
of occupational agencies focusing on criminal justice and law
enforcement. Each intern spends a minimum of 80 hours on site
and attends a weekly seminar. Currently employed sworn federal,
state, and local officers or agents may waive, through petition, the
internship field experience. All students are required to register for
and attend the weekly seminar.

Criminal Justice Studies (CRJ)

COURSE OFFERINGS

CRJ 200 Intro to Criminal Justice
3. 000 Credits
This course provides an introduction to issues of crime and
neighborhood disorder as well as society's responses to these
problems. We will examine the nature and causes of crime,
criminal law, constitutional safeguards, and the organization
and operation of the criminal justice system including the police,
courts, and corrections. The history of the criminal justice system,
terminology and career opportunities will also be discussed.

CRJ 240 Ethics
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
A study of ethical concepts and theories. Typical questions: Is
the morality of an action based on its results or on the intent of
the person acting? Is ethics purely rational? What makes a good
person? Ethical principles may be applied to such issues as
abortion, capitalism, war, and capital punishment. (F, W).

CRJ 300 Political Analysis
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Introduction to research design, data collection and analysis,
sampling, and statistics for social scientists. Should be elected as
soon as possible after the declaration of major. POL 101 or
equivalent recommended. (F, W).

CRJ 302 Theory of the Law
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
A comprehensive introduction to the theoretical foundations and
the political functions of law, with special emphasis on the
different moral justifications of law; the relation between law
and justice; the relation between law and freedom; due process
and fairness in any legal system. This course is designed to have
special relevance for those considering law as a career. POL
101 or equivalent recommended. (OC).

CRJ 305 Race/Justice/Freedom in Amer
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
This course will examine the social and political thought of
selected Black political thinkers. Its focus will be assess the
origins, development and implications of their ideas in the
context of the changing dynamics of racial politics in America
and the world. POL 101 or equivalent recommended. (AY).

CRJ 308 Moral and Political Dilemmas
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Senior
Junior
This course focuses on the tensions and relations between
personal morality and political action by examining the moral
aspect of contemporary policy issues such as the right to life,
environmental policy, and discrimination. POL 101 or
equivalent recommended. (YR).

CRJ 315 The American Judicial Process
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
An analysis of American legal institutions, processes, doctrines,
and their relationship to the formulation of public policy and the
solution of social problems. POL 101 or equivalent recommended. (AY).

CRJ 322 Psychology of Prejudice
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: PSYC 170 or 171
A consideration of ethnic (including racial, sexual, and
religious) prejudice from the psychological point of view,
focusing on the mind of both the oppressor and the oppressed.
(AY).
CRJ 323  Urban Politics
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
A survey of the political process in urban areas, giving special attention to the changing roles of cities in American politics. POL 100 or equivalent recommended. (YR).

CRJ 325  Psyc of Interpersonal Relation
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
Prerequisites: PSYC 170 or 171
This course presents an overview of theory and research conducted by social psychologists that has been aimed at understanding interactions between individuals. Topics include an exploration of the research process that is used to investigate interpersonal relationships, the processes underlying social perception, friendship, liking, love, close relationships, aggression and violence in interpersonal relationships. (YR).

CRJ 335  Philosophy of Law
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
An examination of some of the important philosophical issues relevant to law and legal theory, including legal punishment, legal responsibility, and the relationship between law and morality. Both classical and contemporary writings will be studied. Prerequisite: a previous philosophy course or permission of instructor. (AY).

CRJ 350  Poverty and Inequality
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
Prerequisites: SOC 200 or 201
In a middle class-oriented culture, the poor experience many problems and are also considered deviant, which tend to make poverty self-perpetuating. This stratum will be explored with respect to life styles, life changes, contributing factors, characteristics, individual and social consequences, and evaluation of attempted solutions. (YR).

CRJ 362  Women, Politics, and the Law
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
Must be enrolled in one of the following Colleges: Coll of Arts, Sciences&Letters
An examination of the political behavior of women in American politics. Included is an analysis of the legal and legislative demands of American women. (AY).

CRJ 363  Crim Justice Syst and Policy
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
The structure and processes of criminal justice administration in America, including analysis of current issues in police behavior, courts, and corrections. POL 101 or equivalent recommended. (AY).

CRJ 369  US Civil Rights Movement
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
A survey of race relations and civil rights activity from the late 19th century to the present. The principal focus, however, is on the period since World War II, especially on the mass-based Southern civil rights movement (1955-1965) and the various policy debates and initiatives of the past thirty years, most notably affirmative action and busing. We also examine critiques of non-violence and integrationism. (AY).

CRJ 382  Social Psychology
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
Prerequisites: PSYC 170 or PSYC 171 or SOC 200 or SOC 201
An introductory study of interrelationships of the functioning of social systems and the behavior and attitudes of individuals. (YR).

CRJ 383  Introduction to Statistics
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
Frequency distributions and descriptive measures. Populations, sampling and statistical inference. Elementary probability and linear regression. Use of statistical computer packages to analyze data. No credit for CASL math concentration, minor, or area of focus. Prerequisite: one year of high school algebra. (F, W, S).

CRJ 390  Topics in Criminal Justice
3. 000 Credits
Examination of problems and issues in selected areas of criminal justice. Title as listed in the Schedule of Classes will change according to content. Course may be repeated when specific topics differ. (OC)

CRJ 403  Minority Groups
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
Prerequisites: SOC 200 or 201
The status of racial and ethnic minorities in the United States with particular reference to the social dynamics involved with regard to majority-minority relations. Topics of study include inequality, segregation, pluralism, the nature and causes of prejudice and discrimination and the impact that such patterns have upon American life. (F, W).

CRJ 407  Psychology of Adolescence
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
Prerequisites: PSYC 170 or 171
Considers adolescence as an interaction of rapid biological and social change. Examines the theoretical and empirical literature in some detail. Prerequisite or permission of instructor. (F, W).
CRJ 410  Quantitative Research
4. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: SOC 200 or 201

An introduction to methods of data collection and analysis. Also
discussion of research design and the philosophy of social
science. (YR).

CRJ 412  Men and Masculinities
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
May not be enrolled in one of the following Classes:
Sophomore
Freshman
Prerequisites: SOC 200 or SOC 201 or ANTH 101 or WST
275 or WGST 275 or PSYC 275 or SOC 275 or ANTH 275
or HUM 275 or WGST 303 or PSYC 303 or SOC303 or
ANTH 303 or HUM 303

This course addresses the question, "What is a man?" in various
historical, cross-cultural, and contemporary contexts. A major
focus on the social and cultural factors that underlie the shape
and conceptions of manhood and masculinity in America as well
as in a variety of societies around the globe. (AY)

CRJ 413  American Constitutional Law
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: POL 101

A major theme of this course is the development of the
constitution, especially focusing on the themes of judicial
review: judicial self-restraint and judicial activism; the
expansion of executive and legislative powers; and the rise of
"substantive due process of law." POL 101 or equivalent
recommended. (AY).

CRJ 414  Civil Rights and Liberties
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: POL 101

An analysis of the Bill of Rights and the 14th Amendment, with
particular emphasis upon recent landmark or controversial
Supreme Court decisions dealing with freedom of speech and
religion, rights of criminal defendants; cruel and unusual
punishment, right to privacy; civil rights and equal protection
clause; and apportionment. POL 101 or equivalent
recommended. (YR).

CRJ 416  Criminal Law
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: POL 101

A survey of the major judicial, executive, and legislative
decisions in the field of criminal law. (AY)

CRJ 421  Group Processes
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: PSYC 170 or PSYC 171 or SOC 200 or SOC
201

Topics treated include group cohesiveness, "group think," the
social structure of groups, emotional factors in group life,
leadership, and development of groups. (YR).

CRJ 423  American Social Classes
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: SOC 200 or 201

Stratification of American communities and society: a review of
the findings of major studies and an introduction to
methodology. (YR).

CRJ 425  Lab in Social Psychology
4. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: PSYC 381*

A broad introduction to research methods in basic and applied
social psychology. Students will receive training in construction,
implementation, and interpretation of scientific procedures used
in the study of social psychology. Topics include: questionnaire
construction, experimental design, and various multivariate
analytic techniques. (AY).

CRJ 435  Urban Sociology
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: SOC 200 or 201

A descriptive study of the form and development of the urban
community with respect to demographic structure, spatial and
temporal patterns, and functional organization. The relationship
of city and hinterland. Social planning and its problems in the
urban community. (YR).

CRJ 440  Abnormal Psychology
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: PSYC 170 or 171

An introduction to the field of psychopathology, the study of
mental disorders. Includes exposure to a number of historical
and theoretical perspectives, each with their own theories,
methodologies, and treatment approaches. Disorders covered
will include: anxiety and mood disorders, personality disorders,
schizophrenia, sexual disorders, and psychosomatic disorders.
(F, W).

CRJ 443  Gender Roles
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: PSYC 170 or PSYC 171 or SOC 200 or SOC
201
This course will investigate the development of gender roles in childhood and adolescence due to either innate physiological differences or sociological patterning, the effect of gender roles upon male-female relationships within our society, and the possibility of transcending sociological gender roles in alternate modes of living. (F, W).

CRJ 445  Contemporary Ethical Theory
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: PHIL 240

An intensive study of a topic in recent ethical theory. Topics will vary with each offering. Among the topics: ethics and law, utilitarianism, virtue theory, theories of justice, morality and emotion, ethics and partiality. (AY).

CRJ 446  Marriage and Family Problems
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: SOC 200 or 201

Sociological analysis of problems encountered within the institution of marriage with particular reference to such issues as choosing a marriage partner, sexual adjustment, occupational involvement, conflict resolution, child rearing, divorce and readjustment. (YR).

CRJ 447  Family Violence
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: SOC 200 or SOC 201 or SOC 301 or SOC 443 or PSYC 405 or WST 405

Sociological analysis of various forms of family violence which occur disproportionately in the lives of girls and women. Topics such as incest, sexual abuse, date rape, wife battering, and elder abuse will be situated within the social and cultural context of contemporary gender relationships. Social and political responses to the phenomena will be examined. Permission of instructor is an optional prerequisite. (YR).

CRJ 453  Sociology of Law
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: SOC 200 or 201

Various aspects of the relationship between law and society are explored. After a look at processes of law making, attention is turned to the administration of law. This involves a study of the activities of legislatures, courts, police, and correctional agents. (YR).

CRJ 455  Immigrant Cultures and Gender
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: ANTH 101 or WST 275 or WGST 275 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or WGST 303 or PSYC 303 or SOC 303 or ANTH 303 or HUM 303

The history and culture of immigration since 1850, including: (1) formation and perseverance of immigrant communities and interethnic boundaries; (2) relations between the homeland and the immigrant; and (3) impact of migration on family life and gender roles. Prerequisite: ANTH 101 and junior or senior standing. (AY).

CRJ 461  Cops & Cons: Women in Prison
3. 000 Credits
Prerequisites: SOC 200 or SOC 201 or WST 275 or CRJ 240 or CRJ 300 or WGST 275 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or WGST 303 or PSYC 303 or SOC 303 or ANTH 303 or HUM 303

Course uses contemporary theories of gendered organizations to frame analyses of prison policies and practices in employment and incarceration as they reflect and reproduce gender inequalities. Analyses will be framed within a restorative justice model, that is, a critique of the current criminal justice system of retributive justice and a paradigm of what a alternative system could be.

CRJ 465  Deviant Behavior/Soc Disorganz
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: SOC 200 or 201

General analysis of the concepts of social deviance and social disorganization: factors producing each condition, the effects of social control measures on the course of deviance and disorganization, consequences for the social system, and the relationship between the two concepts. (YR)

CRJ 466  Drugs, Alcohol, and Society
3. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: SOC 200 or 201

Analyses of the sociology of substance use and abuse. Provides a sociological framework for understanding issues and evaluating our nation's responses to the phenomenon of drug use. Drawing on sociocultural and social psychological perspectives, this course systematically examines the social structure, social problems, and social policy aspects of drugs in American society. Prerequisite or permission of instructor. (YR).

CRJ 467  Drugs, Crime, and Justice
3. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: SOC 200 or 201

Provides a comprehensive analysis of the current state of research on interactions between crime and drug abuse. Examines drug distribution, organization of drug systems, and mechanisms of social control of drug systems. Analyzes the social problems associated with drugs and crime. The course also focuses on drug-law enforcement and public policy strategies for dealing with drugs and crime. Prerequisite or permission of instructor. (YR).
CRJ 468  Criminology
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: SOC 200 or 201

Analysis of criminal behavior in relationship to the institutional framework of society. Emphasis upon the more routinized and persistent forms of criminality along with the joint roles played by victims, the criminal, the police, and all other relevant parties. (F, W)

CRJ 469  Juvenile Delinquency
3. 000 Credits
Prerequisites: SOC 200 or 201

The analysis of juvenile delinquent behavior in relationship to the institutional framework of society. Emphasis on the extent, causes, and methods of juvenile delinquency in the United States. (YR)

CRJ 470  Current Issues in Crim Justice
3. 000 Credits
Prerequisites: SOC 200 or 201

Current issues in the field of criminal justice and law enforcement in the U. S. and other countries. Topics include an evaluation of police activities, problems of apprehensions and prosecution, the courts and the correctional system, and the efficacy of the legal structure in its social context. (F, W, S).

CRJ 471  Comp Crim Justice Systems
3. 000 Credits
Prerequisites: SOC 200 or SOC 201

Description, analysis, and evaluation of selected criminal justice systems throughout the world. Course focuses on the various systems, theories, structures, methods and functions, including common law systems and socialist law systems. (YR).

CRJ 472  Corrections
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Classes:
Senior
Junior

Analysis of the legal, social, and political issues affecting contemporary correctional theory and practice. Topics covered include the history of corrections; the nature of existing institutions; the functions and social structure of correctional institutions; and alternatives to institutional incarceration, probation, and parole. (OC).

CRJ 473  Race, Crime and Justice
3. 000 Credits
May not be enrolled in one of the following Classes:
Freshman
Prerequisites: SOC 200 or 201

This course is an analysis of race and its relation to crime in the criminal justice system. Students will analyze and interpret the perceived connection between race and crime, while exploring the dynamics of race, crime, and justice in the United States. This course is designed to familiarize students with current research and theories of racial discrimination within America's criminal justice system.

CRJ 474  Cyber Crimes
3. 000 Credits
Prerequisites: SOC 200

This course in a hands-on approach investigating cyber crimes (e.g. child exploitation, predators, sexual/vic crimes, identity theft, etc.). Students will explore and discuss legal cases involving cyber technology and predatory practices and review applicable evidentiary rules. Students will also analyze the practical and ethical considerations that apply to undercover internet operations, and evidence collection and use to locate and apprehend offenders.

CRJ 475  Digital Evidence
3. 000 Credits
Prerequisites: SOC 200 or 201

This course is a detailed approach to how computers and networks function, how they can be involved in virtually any type of crime, and how they can be used as a source of evidence. Students will analyze relevant legal issues and specific investigative and forensic processes related to technology. This course examines how deductive criminal profiling, a systemic approach to focusing an investigation and understanding criminal motivations, is utilized to locate and apprehend offenders.

CRJ 476  Inside Out Prison Exchange
4. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior

This community-based course, taught in a local correctional facility, brings university students and incarcerated students together to study as peers. Together students explore issues of crime and justice, drawing on one another to create a deeper understanding of how these issues affect our lives as individuals and as a society. The course creates a dynamic partnership between UMD and a correctional facility to allow students to question approaches to issues of crime and justice in order to build a safer and more just society for all. The course encourages outside (UMD) students to contextualize and to think deeply about what they have learned about crime and criminals and to help them pursue the work of creating a restorative criminal justice system; it challenges inside students to place their life experiences into larger social contexts and to rekindle their intellectual self-confidence and interest in further education.

CRJ 477  Criminal Justice Internship
3. 000 TO 6. 000 Credits
Prerequisites: SOC 200 or 201

Provides field experience in social welfare or criminal justice agencies, e.g., for children/adolescents, in residential programs, in abuse remediation, in probation, for chemical dependencies, in victim advocacy, for the elderly, in prisons, for special needs populations, in court services, in medical/public health, in police services, and for families and communities. Supervision by approved field instructors. An internship of 80 hours is required for three (3) credits. Instructor and student will work together to determine appropriate intern placement. Approval of instructor. (F, W).
CRJ 479  Women's Studies Internship  
3.000 Credits  
Prerequisites: WST 275  
Provides field experience in social welfare agencies, e.g., for children/adolescents, abuse, chemical dependencies, the elderly, special needs populations, criminal justice/probation, medical/public health, and families and communities. Supervision by approved field instructors. Focus is on analysis of the social context of agency, the clients, and staff. An internship of 80 hours is required for three (3) credits. Prerequisite: WGST 275 and permission of the Women's Studies Director is required. (F, W).

CRJ 480  Applied Crim Justice Theory  
3.000 Credits  
Criminal Justice theorists study of formal and informal mechanisms of social control in specific places, such as bars and night clubs, city parks, schools and shopping malls. Students in this course will learn to apply their theories to practical, real life situations to achieve behavioral changes among individuals and groups toward the objective of effective crime control.

CRJ 481  Terrorism & US Natl Security  
3.000 Credits  
Prerequisites: CRJ 468  
The United States responded to the events of September 11, 2001 with a series of unprecedented action under the umbrella of homeland security and the 'War on Terror.' This course examines American National security policy by asking a few key questions: What is terrorism and how does it threaten the United States? How has the United States responded to the threat of terrorism over time? What have the consequences of US policy been to date? Finally, how would we balance a desire for security with our desire for civil liberties and ethical action?

CRJ 482  Legal Ethics  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Classes:  
Senior  
Sophomore  
Freshman  
Junior  
This course will explore the many ethical dilemmas faced by professionals in the legal system. We will pay particular attention to the criminal justice system and to the Rules of Professional Conduct for attorneys. Some of the questions we may address are: How should an attorney consider his/her own ethical beliefs when deciding the appropriate course of action in a case? How should a judge consider his/her own ethical beliefs when making a juvenile justice decision? How should a police officer determine the ethical course of action when the law's instructions are ambiguous?

CRJ 485  Psychology Internship  
3.000 OR 6.000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: PSYC 170 or 171  
The psychology internship offers experience in a wide variety of placements dealing with human services. These include programs related to child abuse, crisis intervention, geriatrics, human resources/staff development, mental retardation, probation departments, teenage runaways, substance abuse, and women's issues. The program is designed for juniors and seniors with a concentration in psychology or behavioral sciences and involves training in listening and helping skills. Written permission of instructor required. (F, W).

CRJ 489  Law, Crime, and Society  
3.000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Sophomore  
Freshman  
Junior  
This course will incorporate both legal and empirical perspectives to emphasize the dynamic relationship between law, crime, and society. In this course, we will focus on the substantive and procedural criminal law ('law on the books') while we simultaneously focus on empirical research of enforcement, case processing and sentencing in the criminal justice system (the 'law in action'). As a result, we will assess the relationship and differences between what the criminal law says 'on the books' and the criminal justice system 'in action'.

CRJ 490  Topics in Criminal Justice  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Examination of problems and issues in selected areas of criminal justice. Title as listed in Schedule of Classes will change according to the content of the course. Course may be repeated when specific topics differ.

CRJ 494  Pol Sci Internship Seminar  
3.000 OR 6.000 Credits  
This is the academic part of the internship. Students must meet with other interns once a week to analyze political dynamics within their placements. Students are required to keep journals, prepare papers and reports, and do other written work. Anyone taking POL 495 or 496 is required to take POL 494. It may not be taken by itself. Repeatable if topic differs. Only six hours of internship credit is allowable toward concentration requirement. (F, W, S).

CRJ 495  Political Science Internship  
3.000 TO 6.000 Credits  
Field study placements in national, state, local government or private agencies. Primarily for junior or senior political science concentrators or other qualified applicants. Maximum of 20 students selected each term. Students must also register for CRJ 494. Only six hours of internship is allowed toward concentration requirement. (F, W, S).

CRJ 497  Washington, D. C. Internship  
3.000 TO 6.000 Credits  
Field placements in Washington, D. C. Course is offered only in summer semester. Primarily for junior or senior political science concentrators or other qualified applicants. Only six hours of internship credit is allowed toward concentration requirement.
CRJ 498 Directed Studies  
1.000 TO 6.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Directed individual study of any subject agreed upon by the student and the instructor. May not duplicate a formal course offering.

Earth Sciences

The Earth Sciences concentration is designed to provide students with a strong background in the areas of science that seek to understand Earth and its neighbors in space, including geology, GIS, oceanography, meteorology, and astronomy. The concentration leads to a BS degree that prepares students for graduate study in any of the earth sciences, for students who wish to qualify for a teaching certificate in Earth Science, or for students interested in the study of geology or astronomy as part of an undergraduate liberal arts education.

PREREQUISITES TO THE CONCENTRATION

Biol 130 Introduction to Organismal and Environmental Biology ................................. 4 hrs  
Chem 124 General Chemistry I ........................................ 4 hrs  
Chem 136 General Chemistry II ........................................ 4 hrs

Phys 490 Topics in Physics .................................................. 3-4 hrs  

Graduate-level courses in Geology can be taken for upper-division credit to satisfy concentration requirements.

MINOR OR AREA OF FOCUS

A minor or area of focus consists of 11 credit hours of upper-division credit in Earth Sciences.

Economics

A sound knowledge of economics has become increasingly important for understanding the contemporary world and its problems. The Economics major also offers useful training for those interested in pursuing a business career, and provides excellent preparation for post-graduate work in Law, Business, and other professional fields. To meet the needs of those desiring a comprehensive introduction to economic principles and problems, ECON 201 and 202 are offered each term. For concentrators in economics a well-balanced offering of courses is designed to equip the student with an understanding of basic economic relationships, the essential tools of economic analysis, and a store of factual knowledge.

PREREQUISITES TO THE CONCENTRATION

Econ 201 Principles of Macroeconomics ................................ 3 hrs  
Econ 202 Principles of Microeconomics ................................ 3 hrs  
Math 104 Pre-calculus for Management, Life and Social Science* ........................................ 4 hrs  
OR  
Math 105 Pre-calculus* ....................................................... 4 hrs  

*MATH 131 does not satisfy this requirement.
CONCENTRATION REQUIREMENTS

Required courses .......................................................... 9 hrs
- ECON 301 Intermediate Macroeconomics*
- ECON 302 Intermediate Microeconomics**
- ECON 305 Economic Statistics

*Note: MATH 104, 105 or equivalent are prerequisites to these courses.
** Note: ECON 301 and 302 should be taken no later than the junior year.

Five additional courses .................................................. 24 hrs
At least one of these five additional courses must be at the 400 level (excluding ECON 498 and 499)

Note: Those considering graduate study in economics are advised to take one year of calculus (MATH 113 & 114 or MATH 115 & 116), MATH 217 Introduction to Matrix Algebra, ECON 415 Introduction to Econometrics and ECON 465 History of Economic Theory.

Cognates ............................................................................ 6 hrs
Students must complete at least six hours in cognate courses selected from the following list: ACC 297, or 298 and 299; MATH 113, 114, 115, 116; CIS 112; CIS 121 & 122 (which together total 3 credit hours); CCM (or CIS or IMSE) 150, 200, 250; PHIL 234, 350, 485; 300- or 400-level courses (excluding internships and independent studies) in anthropology, geography, history, political science or sociology.

MINOR OR AREA OF FOCUS

A minor or area of focus consists of 12 hours of upper-division (300- and 400-level courses) credit in Economics. ECON 498 may not be used to satisfy this requirement.

ECONOMICS HONORS DESIGNATION

To be recognized as graduating with honors in economics, students must (1) complete all the requirements for the economics major at UM-Dearborn; (2) earn a B+ or higher in each of at least two 400-level economics courses (excluding ECON 498 & 499); (3) complete an Honors research paper as part of a 3 credit hour Directed Research (ECON 499); and (4) graduate with an overall 3.25 GPA at UM-Dearborn and a 3.5 GPA in upper division economics courses.

Students are expected to apply for candidate status for the Honors Award during or before the first term of their senior year at UM-Dearborn. Requirements for candidate status include being an Economics major, having a cumulative 3.25 GPA at UM-Dearborn, having successfully completed at least one core theory course (ECON 301/302/305), and possessing a 3.5 GPA average in upper division Economic classes.

Economics (ECON)

COURSE OFFERINGS

ECON 100 Personal Economics & Finance
3.000 Credits

Students in ECON 100 will acquire the knowledge and tools needed to survive and thrive in the economic realities of the 21st century. Students will become familiar with the Michigan and U.S. economies, and will learn how to apply basic economic concepts to common personal choices, for example how to finance their education. They will also learn how to use economic concepts to critically evaluate economic information presented to them by others. Students who have already taken ECON 201, ECON 201, or ECON 202 cannot receive credit for ECON 100.

ECON 201 Introductory Economics
3.000 Credits

Introduction to economic reasoning, basic economic concepts and theories used in microeconomics and macroeconomics. Economic techniques including graphing and marginal analysis will also be introduced and applied to practical problems in everyday life. In addition, this course will focus on the way economic concepts can be taught at the elementary and high school level in a way that integrates economics into a broader understanding of Michigan history, government and geography. (F).

ECON 202 Prin: Microeconomics
3.000 Credits

Together with ECON 201, this course serves to introduce the student to the basic ideas and concepts of modern economic analysis, and applies them to current economic problems, policies and issues. The focus of this course is on microeconomics: income and wealth, employment, and prices at the national level in the United States economy. It is recommended that students take ECON 201 before ECON 202. MATH 105 is highly recommended but not required. (F, W, S).

ECON 203 Prin: Macroeconomics
3.000 Credits

Together with ECON 202, this course serves to introduce the student to the basic ideas and concepts of modern economic analysis, and applies them to current economic problems, policies, and issues. The focus of this course is on macroeconomics: income and wealth, employment, and prices at the national level in the United States economy. It is recommended that students take ECON 201 before ECON 202. MATH 104 or 105 is highly recommended but not required. (F, W, S).

ECON 290 Topics in Economics
3.000 Credits

Examination of problems and issues in selected areas of economics. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

ECON 301 Intermediate Macroeconomics
3.000 Credits

Prerequisites: ECON 201 and ECON 202 and (MATH 104 or MATH 105 or MPLS113)

A systematic study of the determinants of national output, economic growth, inflation, and unemployment. The effects of monetary policy, fiscal policy and other economic factors are analyzed for both the long run and short run. Debates about various approaches to macroeconomics policy are also discussed. (F, W).

ECON 302 Intermediate Microeconomics
3.000 Credits

Prerequisites: ECON 201 and ECON 202 and (MATH 104 or MATH 105 or MPLS113)

A systematic study of the role of prices in organizing economic activity. The tools necessary for such study will be developed and applied to the analysis of the household, the firm, and the market under varying degrees of competition and monopoly. (F, W).

ECON 305 Economic Statistics
3.000 Credits

Prerequisites: ECON 201 and ECON 202 and (MATH 104 or MATH 105 or MPLS113)

A systematic study of the role of statistical methods and tools used in economics. (F, W).

ECON 306 Economic Theory
3.000 Credits

A systematic study of the role of prices in organizing economic activity. The tools necessary for such study will be developed and applied to the analysis of the household, the firm, and the market under varying degrees of competition and monopoly. (F, W).
ECON 305  Economic Statistics
3.000 Credits
Prerequisites: ECON 201 and ECON 202 and (MATH 104 or MATH 105 or MPLS113)
Introduction to the logic and use of statistical analysis, with emphasis on statistical inference. Topics covered include descriptive statistics, probability, estimation, hypothesis testing, and the use of linear regression analysis to study relationships between two variables. (F, W).

ECON 311  Money and Banking
3.000 Credits
Prerequisites: ECON 201 and ECON 202
The structure, workings, and regulation of financial systems, concentrating on bank-like financial institutions. While financial instruments like stocks, bonds, and some derivatives are discussed, the focus is on the economic theory behind financial markets. That is, the study of monetary policy underscores the interaction between the financial system and the economy. (F, W).

ECON 321  Labor in the American Economy
3.000 Credits
Prerequisites: ECON 201 and ECON 202
An analysis of the nature and underlying causes of the problems facing the worker in modern economic society. Includes an examination of wages, unemployment, economic insecurity, the trade union movement, collective bargaining, and labor legislation. (F, W).

ECON 325  Economics of Pov and Discrm
3.000 Credits
Prerequisites: ECON 201 and ECON 202
An analysis of the economic aspects of poverty and discrimination. Emphasis on the theoretical economic causes of poverty and the economic bases for discriminatory behavior, the impact of poverty and discrimination on individuals and society, and the effect of reform policies on the two problems. (AY).

ECON 331  Industrial Organization
3.000 Credits
Prerequisites: ECON 202
Theory and empirical evidence on the causes and effects of market power, especially in industrial markets. The focus is on the relationships between market structure and performance, and policy formation. (YR).

ECON 333  Anti-Trust and Regulation
3.000 Credits
Prerequisites: ECON 202
This course uses economic theory to examine major anti-trust laws and to evaluate government regulation of industry. ECON 331, Industrial Organization, is valuable background to this course although it is not a prerequisite. (YR).

ECON 335  Experimental Economics
3.000 Credits
Prerequisites: ECON 202 or ECON 2001
This course on experimental economics is devoted to laboratory experiments on individual behavior in markets as well as in social situations. It focuses on different forms of strategic interactions between agents, including competition, coordination, bargaining, and public choice. We will consider individual decision experiments, choice anomalies, and the role of information in learning and signaling. We will also discuss the design of various economic experiments, such as market bargaining, auctions, trust, gift giving, adverse selection, public goods, common pool resources, etc. Students are recommended (but not required) to take Econ 302 before enrolling in this class. Basic knowledge of Excel is required for this class.

ECON 336  Behavior Econ & Econ Psych
3.000 Credits
May not be enrolled in one of the following Classes: Freshman
Prerequisites: ECON 202 or ECON 2001
This class is a reading intensive course on behavioral economics and its sister discipline of economic psychology. We will discuss whether market forces, learning, and evolution can eliminate human limitations and lead to rational (or at least to bounded rational) behavior. We will examine anomalies, or the ways in which people deviate from the standard economic models. Finally we will explore how behavioral concepts can be incorporated into standard economic models and applied to a particular field. Students are recommended (but not required) to take Econ 302 before enrolling in this class.

ECON 342  Economic Development
3.000 Credits
Prerequisites: ECON 201 or ECON 202
A survey of economic problems currently affecting third world countries and the various policy options available to them. Topics covered will include agrarian vs. industrial growth, and monetary and fiscal policies, planning problems, foreign exchange and debt problems. Not available to students who have passed ECON 341. (OC).

ECON 344  Economics of the Middle East
3.000 Credits
Prerequisites: ECON 201 or ECON 202 or ECON 2001
Survey of socio-economic issues of the post-WWII Middle East, using textbooks and web-based readings. Topics include population growth, urbanization, migration, gender issues, land reform, privatization and stabilization policies. The Arab-Israeli conflict in not a focus of study. Grade based on papers and exams. (YR).

ECON 347  International Finance
3.000 Credits
Prerequisites: ECON 201 and ECON 202
This course covers the theory of balance of payments problems and exchange rate changes. The theoretical models are complemented by the study of the historical evolution of the present international payments system, from the gold standard to the present. Also considers current policy issues in this area. (W).

ECON 348  International Trade
3.000 Credits
Prerequisites: ECON 201 and ECON 202
This course analyzes in depth the debate of free trade vs. protectionism. Different theoretical models of the "gains from trade" are presented, as well as studies of their empirical validity. Some historical perspective is included, as well as discussion of the current situation in European integration. (F).
ECON 351 Environmental Economics
3.000 Credits
Prerequisites: ECON 202

Course examines the economic aspects of pollution problems. Topics covered in this course include the economic theory of externalities, the theory of public goods, and the optimum use of depletable natural resources. The role of cost-benefit analysis as a part of the decision-making process is also examined. (AY).

ECON 355 Econ of the Medical Sector
3.000 Credits
Prerequisites: ECON 202

Course examines the health of a population and the health care industry, using the tools of economic analysis. Topics include the demand and supply of health services, alternate ways of financing health care, the application of cost-benefit analysis to health projects, and comparative health economic systems (e.g., Britain, Sweden). (AY).

ECON 361 US Economic History
3.000 Credits
Prerequisites: ECON 201 and ECON 202

A survey of the processes of development of the United States economy, their social implications, and the sources of today's economic problems. (YR).

ECON 362 Eur and Intl Economic Hist
3.000 Credits
Prerequisites: ECON 201 and ECON 202

A survey of the processes of industrialization in the major non-American industrial economies, with a focus on their relevance and implications. (AY).

ECON 372 Economic Demography
3.000 Credits
Prerequisites: ECON 201 and ECON 202

Course offers an introduction to economic demography, focusing on the interrelation between economic and population variables, and the techniques of demographic analysis. (OC).

ECON 375 Heterodox Economics
3.000 Credits
Prerequisites: ECON 201 or ECON 202 or ECON 2001

This course introduces students to alternative perspectives on economic theory and method. These alternatives include: Marxist and radical political economics, institutional and evolutionary economics, behavioral economics, post-Keynesian economics and feminist economics. (OC).

ECON 381 Urban Economics
3.000 Credits
Prerequisites: ECON 201 or ECON 202 or ECON 2001

The economics of the city and the introduction of space in economic analysis; the determination of land use patterns, the location of firms and industries, and an urban area's growth; economic analysis and policy issues concerning urban poverty, housing, transportation, the local public sector, and other urban problems. (YR).

ECON 382 Regional Economics
3.000 Credits
Prerequisites: ECON 201 or ECON 202 or ECON 2001

Course explores methods of economics evaluation of regions in terms of intra- and inter-regional activity. Regions may smaller than a nation, be a collection of nations, or be composed of portions of more than one nation. Theoretical topics include the theories of (1) the location of the firm, (2) spatial demand, (3) agglomeration economies, and (4) input-output analysis. Regional development policy is discussed using Michigan and Ontario as subjects. (OC).

ECON 385 Public Choice
3.000 Credits
Prerequisites: ECON 201 and ECON 202

Public policy decision making, particularly governmental decisions regarding economic policies. Emphasis is on the use of economic methodology to analyze resource allocation via the political system rather than through private markets. (OC).

ECON 390 Topics in Economics
1.000 TO 3.000 Credits

Examination of problems and issues in selected areas of economics. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

ECON 407 Cost-Benefit Analysis
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
May not be enrolled in one of the following Classes:
Sophomore
Freshman
Prerequisites: ECON 202 and ECON 302

Cost-benefit analysis arguably is the most important tool in evaluating public and private policies. Conceptually, cost-benefit analysis is simple: subtract the costs from the benefits and adopt those policies yielding the greatest net benefit. In practice cost-benefit analysis is much more complicated. Costs and benefits must be summed over time, requiring a calculation of net present value. Costs and benefits must be summed over different people, requiring a social welfare function. Finally costs and benefits must be summed over a variety of goods and services, some of which do not have market values or where market values are not appropriate measures. This course reviews the techniques involved in cost-benefit analysis and employs case studies to illustrate these techniques. (AY).

ECON 411 Monetary Economics
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: ECON 301 and ECON 311

This course examines financial institutions in a macroeconomic theoretical context. A rigorous treatment of monetary theory is presented followed by practical discussion of U. S. monetary policy as implemented by the Federal Reserve System. (YR).
ECON 415  Introduction to Econometrics
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: (MATH 113 or MATH 115 or MPLS 116)
and (ECON 305 or DS300) and (ECON 302 or ECON 311
or ECON 321 or ECON 325 or ECON 331 or ECON 333
or ECON 342 or ECON 345 or ECON 347 or ECON 348
or ECON 351 or ECON 355 or ECON 361 or ECON 362
or ECON 372 or ECON 375 or ECON 381 or ECON 382
or ECON 385 or ECON 390 or ECON 411 or ECON 421
or ECON 465 or ECON 481 or ECON 390A or ECON
391A or ECON 390B)

Topics covered include the construction and estimation of
econometric models, emphasizing the use of multiple regression
techniques to estimate relationships and test theories. (W).

ECON 421  Economics of the Labor Sector
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: ECON 302

Theoretical analysis and empirical studies of the nature and
operation of labor markets. Includes theories of wage
determination and income distribution, the nature of
unemployment, the impact of collective bargaining on the
economy, the extent and economic effects of discrimination, and
the nature and effects of government wage and employment
policies. ECON 321, Labor in the American Economy, is
valuable background to this course although it is not a
prerequisite. (AY).

ECON 465  History of Economic Theory
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: ECON 302

Course examines the evolution of economic thought and theory
from the early origins to the present, focusing on the major
contributions to economics, especially from Adam Smith
onward, and assesses the current condition of economic analysis.
(OC).

ECON 481  Public Finance
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: ECON 302

Analysis of the role of government in the economy. Course
examines theories of the need for the nature of government
intervention in economic activities. Includes analysis of public
goods, externalities, taxation, state and local finance, and modes
of public decision making. (YR).

ECON 497  Economics Seminar
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate

An advanced study in selected areas of Economics. Topics vary;
see the current Schedule of Classes for topics and prerequisites.
May be offered in satisfaction of 400-level elective requirement
for concentration. (OC).

ECON 498  Economics Internship
3. 000 TO 6. 000 Credits
Must be enrolled in one of the following Major fields of
study:
Economics

The internship affords the student the opportunity to apply tools
learned in economics courses to real-world work situations. The
student has 8-16 hours of unpaid work per week under the
guidance of a faculty advisor. Only three credit hours may be
applied to meeting the concentration requirements in economics;
up to six credit hours may be applied toward graduation credit.
The internship is offered only on the S/E grading basis. (F, W,
S).

ECON 499  Directed Research
1. 000 TO 3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate

Independent study under the direction of a faculty supervisor in
advanced topic areas. Normally must be elected on the
"pass/fail" option, in which case it does not count toward credit
hour requirement for concentration. Special consideration for the
A through E grading option must be approved by members of
the Economics discipline. In all cases students must have faculty
supervisor's permission to register.

English*

*Note: the degree requirements described below are effective as
of September 1, 2006. Students admitted prior to that date
should consult their advisor for requirements.

A concentration in English at UM-Dearborn focuses on the
dynamic intersection of language, literature and society as well
as the identities and communities shaped by this intersection.
Concentrators in the English discipline have the opportunity to
explore the relationships between reading and writing printed
text by becoming familiar with the strategies that writers use to
shape conceptions of truth.

The primary goal of the English discipline is to help students
develop a sensitivity to the ways spoken and printed language
frame how we conceive and discuss our identities throughout
history. The UM-Dearborn English Faculty is committed to this
goal by offering rigorous, comprehensive courses that
textualize language in terms of the various traditions and
gener of English and American literature, the history of the
English language and the critical skills necessary to craft
effective expository and creative writing.

Acknowledging the unique perspective provided by studying
English language and literature in a part of urban America that
offers vibrant multi-cultural experiences, the UM-Dearborn
English concentration also exposes students to the future of
English language and literature in the context of a global
community both in — and beyond — Detroit. Therefore,
concentrators in the English discipline may expect to develop a
close relationship to the social ramifications of the written word
and its potential for incorporating both communities and
individuals into a larger, more internationally aware reading and
listening audience.
PREREQUISITES TO THE CONCENTRATION

Students are required to complete the following as a prerequisite:

ENGL 200  Introduction to English Studies

This course serves as the “gateway” to the concentration with enrollment limited to 20 students per section. ENGL 200 exposes students to the terms of English Studies, literary criticism and literary theory, knowledge essential to higher-level English courses.

Virtually all 300- and 400-level English courses require as prerequisites ENGL 200 and COMP 106 or equivalent. In addition, other prerequisites for a specific upper-level English course may be introduced by the instructor in the term in which the course is offered. Students are advised to consult the current Schedule of Classes for prerequisites each term. If a student has not satisfied the prerequisites of a course, the student may be enrolled by permission of the instructor, provided that there are other relevant qualifications.

CONCENTRATION REQUIREMENTS

All students concentrating in English must complete 30 hours of course work on the 300- and 400-levels. Four of these courses are required upper-level surveys:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 311</td>
<td>Survey of British Literature, Beowulf to Milton</td>
</tr>
<tr>
<td>ENGL 312</td>
<td>Survey of British Literature, Milton to 1900</td>
</tr>
<tr>
<td>ENGL 313</td>
<td>Survey of American Literature, Colonial Period to 1900</td>
</tr>
<tr>
<td>ENGL 314</td>
<td>Survey of Literature in English, 1900 to Present</td>
</tr>
</tbody>
</table>

Students are encouraged to take these surveys early in their careers so that they acquire an overview of literary history before taking more specialized upper-level courses. Students are required to take all four, but they can be taken at any time after ENGL 200 and are not prerequisites for other courses. Also, please note that students who have completed ENGL 235, 236 and/or 237 in the previous curriculum may petition to transfer these credits to cover ENGL 311, 312 and/or 313 in the current curriculum.

In addition to taking the four required survey courses listed above, students are required to complete at least six upper-level electives. Students may wish to group some of these electives in the tracks listed below. Please note that students are not required to select a track for these remaining courses. However, if they wish, student may designate a “track” by taking three of their six electives in one of the four following tracks:

- British Literature and Culture
- American Literature and Culture
- Writing
- World English Language and Literature (WELL)

English concentrators, whether they elect a track or not, must also fulfill the following requirements:

The English Discipline’s “Diversity Requirement”: English concentrators must elect one course with substantial inclusion of literature in English that expands the traditional Anglo-American literary curriculum. This literature may represent various national groups, ethnic groups, genders, and subcultures. This requirement may be satisfied by electing a course in African-American literature such as ENGL 469 or by electing a course specifically designated by the English Discipline as fulfilling this requirement. Consult the current Schedule of Classes or contact the English Discipline representative for courses which satisfy the English Diversity Requirement.

The “Historical Requirement”: English concentrators must elect one courses which addresses literature prior to 1800, not including ENGL 311 or 312 or 313.

The “Research Requirement”: English concentrators must elect one course designated “Research Intensive,” or an “Independent Studies in English” (ENGL 398/399) (see below)

Cognates

English concentrators must also complete at least six hours of cognate courses which are to be selected from upper-division offerings in history, philosophy, art or music history, linguistics and humanities. Other courses that can be shown to be specifically complementary to the study of literature are sometimes approved by petition as cognates. Cross listed linguistics and humanities courses may be elected either for concentration or for cognate credit, but not for both. An exception for linguistics courses will be allowed for certification students who elect the certification supplement described below.

SECONDARY CERTIFICATION SUPPLEMENT

One of the following supplements is required for students seeking certification for high school teaching in English. A major consists of 30 hours, including one upper-level writing course (ENGL 300, 323 or 327) and two linguistics courses (ENGL/LING 280 or 281 and 461). The balance of the thirty hours for the major must be selected with the approval of the degree and certification advisors in accordance with the English Concentration and certification requirements.

A minor in English for certification consists of 20 hours, including the same required courses in writing and linguistics, with the balance to be selected with the approval of degree and certification advisors.

Both the major and the minor have as a supplementary requirement, not included in the 30 or 20 hours, LIBR 470 Literature for Young People.

MINOR OR AREA OF FOCUS

A minor or area of focus consists of 12 hours of upper-division credit in English.

English concentrators may find a minor in business administration, computer sciences, foreign languages, women and gender studies, humanities, art or music a valuable supplement to the concentration. Students should consult with an academic advisor before deciding to pursue a minor.

HUMANITIES INTERNSHIP PROGRAM

The Humanities Internship Program offers practical experience to students concentrating in English and other humanistic fields and those interested in journalism. Students gain and demonstrate skills desired by employers, make important contacts, and explore a field of work before graduation. For more information on the Humanities Internship, see the Internship Coordinator, 3028 CB, (313) 593-5136, or inquire at the Literature, Philosophy, and The Arts Department office in 3011 CB, (313) 593-5433.
INDEPENDENT STUDY

Independent Study (ENGL 398, 399) provides an opportunity for students to extend the work of existing courses or to explore areas not included in the current course offerings. Consult the Literature, Philosophy, and the Arts Department Guidelines for Independent Study, available in the Department Office, 3011 CB, (313) 593-5433. To enroll in an independent research project, students must have a prior, written contract with the instructor and prior, written permission of the Department Chair. One to three credit hours available.

ELECTIVE “TRACKS” IN THE ENGLISH CURRICULUM

Students may choose to elect a “track” by taking at least 3 of their upper-level courses from one of the following four areas:

British Literature and Culture
American Literature and Culture
Writing
World English Language and Literature (WELL)

Eelecting a track is optional, but tracks give students the ability to focus their electives if they so desire. The courses for the four tracks are as follows. The following list is subject to change. Consult the current Schedule of Classes or contact the English Discipline representative for future additions to the tracks, including Topics courses offered on a semester basis.

Some courses will fit in a track or tracks depending on their content for a given semester. These include:

ENGL 341 Religion and Literature
ENGL 349 Bible in/as Literature
ENGL 370 Narratives of Film and Literature
ENGL 386 Gender Issues in Literature
ENGL 390 Topics in English
ENGL 421 Swingers, Flirts, and Libertines
ENGL 422 Satire
ENGL 442 Studies in Twentieth- and Twenty-First Century Literature
ENGL 444 Seminar in Twentieth- and Twenty First Century Poetry
ENGL 445 Twentieth/Twenty-first Century Women Authors
ENGL 454 Postmodern Literature
ENGL 486 Queer Theory and Literature
ENGL 487 Monsters, Women, and the Gothic
ENGL 488 Environmental Literature and Representations of Nature

Some courses will not be placed in any track. These include:

ENGL 301 Literary Criticism
ENGL 340 Modern European Short Fiction
ENGL 342 Myth and Motif
ENGL 344 Modern Literature: The Novel
ENGL 345 Modern Literature: Drama
ENGL 347 Classical Literature in English Translation
ENGL 394 Psychology and Theater
ENGL 461 Modern English Grammar

English (ENGL)

COURSE OFFERINGS

ENGL 200 Intro to English Studies
3.000 Credits
Prerequisites: COMP 105 or COMP 110 or CPAS 30

An introduction to English Studies for English concentrators. The course provides students with the interpretive, analytical and basic research skills, the critical vocabulary, the understanding of genre, and the knowledge of major critical approaches necessary for the study of literature. Readings will consist primarily of poetry, fiction, drama, and non-fiction prose written in English by British and American authors, but the course will also include other historical and cultural texts as well as works of criticism. Students will submit at least 20 pages of written work for extensive instructor feedback.

ENGL 223 Intro to Creative Writing
3.000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40

An introduction to the writing of poetry, the short story, and/or the play. Considerable writing, analysis, criticism, and discussion.

ENGL 230 Introduction to Literature
3.000 Credits

Introduces students to imaginative literature in several genres, including, for example, fiction, poetry, and drama. Stress will be both on appreciation of the aesthetic and cultural value of reading literature and on understanding the process of reading sensitively and intelligently.

ENGL 231 Intro to Literature: Poetry
3.000 Credits

A disciplined introduction to the reading of poetry, English and American.

ENGL 232 Intro to Literature: Fiction
3.000 Credits

A disciplined introduction to the reading of short stories and novels, English and American.

ENGL 233 Intro to Literature: Drama
3.000 Credits

A disciplined introduction to the reading of plays, English and American.

ENGL 235 Engl Lit, Beginnings to 1660
3.000 Credits

A study of the literature of England from the Anglo-Saxon era to 1660, including Chaucer and Milton, designed to introduce students to important authors, works, and literary movements in their historical contexts. Also designed to introduce students to the various ways of writing about literature. Although ENGL 235 is continued in ENGL 236, either course may be elected by itself.

ENGL 236 Engl Lit, 1660 to the Present
3.000 Credits

Prerequisites: COMP 105 or CPAS 30 or COMP 110

A study of the literature of English from the Restoration to the 20th century, designed to introduce students to important authors, works and literary movements in their historical context. Also designed to introduce students to various ways of writing about literature. Although ENGL 235 is a continuation of ENGL 236, either course may be elected by itself.

ENGL 237 Survey of Amer Literature
3.000 Credits

Prerequisites: COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270

A survey of American literature from the Colonial period to the early 20th century, designed to expose students to major American authors, works, and literary movements. Topics covered include Puritanism, the literature of the American Revolution, American Romanticism, Transcendentalism, the 19th-century poetic tradition, Realism and Naturalism, early 20th-century poetry and prose, and 20th-century social fiction. Also designed to introduce students to various ways of writing about literature.

ENGL 238 Intro to Lit: Arab American
3.000 Credits

Prerequisites: COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40

This course in an introduction to Arab American literature, its historical and cultural contexts and contemporary relevance. Topics will include the literary and cultural productions of Arab immigrants, their transnational vision, and explorations of such concepts as home, memory and identity; the literary, dramatic and poetic responses of Arab American writers to 9/11 and the ongoing war on terror; the role Arab American literature in offering different versions of Arab and Arab American lives and experiences from the one circulated in mainstream media, Hollywood cinema and culture.
ENGL 239  Intro to Lit: African American  
3.000 Credits  
A study of African-American literature designed to expose students to important periods, works, and authors within historical context. Topics will include slavery, reconstruction, the Great Migration, the Harlem Renaissance, and the contemporary renaissance in Black women's literature. Students will be required to read, critically discuss, analyze, and write their responses to several literary genres that will be incorporated (fiction, drama, poetry).

ENGL 248  Introduction to Screen Studies  
3.000 Credits  
This course will introduce students to the development of world cinema by integrating the aesthetics of film with its technology, and its social and economic milieu. It will train the students in analyzing the formalist qualities of the medium, and in understanding the evolution of its various genres and styles. (YR).

ENGL 301  Literary Criticism  
3.000 Credits  
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)  
This course introduces literary criticism and theory from Aristotle to the present, focusing on the changing concept of literature's nature and function. Lectures, readings, and discussion cover such critics as Aristotle, Dryden, Pope, Johnson, Wordsworth, Coleridge, Arnold, T. E. Hulme, I. A. Richards, T. S. Eliot, and such movements as New Criticism, Phenomenology, Reader-Response, Archetypal Criticism, Structuralist-Semiotic Criticism, Psychological approaches to literature, New Historicism, Marxism, Feminism, and Deconstruction.

ENGL 304  Studies in Detroit Culture  
3.000 Credits  
This course is an attempt to define a modern cultural history of Detroit. Taught by two faculty members, the emphasis of the course will vary but the following aspects of the city's cultural history will be covered in some detail: its literature, arts, music, and architecture; its social conditions and broader American culture context. (AY).

ENGL 305  Society and Arts in Detroit  
3.000 Credits  
This course is an attempt to define a modern cultural history of Detroit. A team of three or four faculty members will explore the relationship between society and the arts in Detroit from several aspects: Detroit's literature, arts, music, and architecture; its social conditions and broader American context. Field trips into the city are also included. Course not open to students who have completed ARTH 304, ENGL 304, HIST 304, HUM 304, or SOC 304.

ENGL 306  Comparat. American Identities  
3.000 Credits  
Must be enrolled in one of the following Levels: Undergraduate  
Prerequisites: COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270  
This course will confront and complicate the following key questions: what does it mean to be an American? What is American culture? Participants in this course will respond to the questions central to the American Studies field by reading and discussing historical, sociological, literary, artistic, material culture, political, economic, and other sources. Students will use this interdisciplinary study to examine the multiple identities of Americans - as determined by factors such as gender, race, class, ethnicity and religion. While emphasizing the diversity of American culture, participants will consider some core values and ideas uniting America both in historical and contemporary society. Students will be invited to seek out and share fresh narratives of the American experience.

ENGL 310  Narrative Journalism  
3.000 Credits  
Prerequisites: COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40  
Students learn to identify, understand and use the techniques of fiction in the service of nonfiction material. While studying the texts as literature, students are also encouraged to view them as models for writing. Assignments include the writing and revising of articles, based on research and interviews, and written in story form, drawing on literary techniques. (YR).

ENGL 311  British Lit: Beowulf to Milton  
3.000 Credits  
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)  
A study of British literature from the Anglo-Saxon period to the works of John Milton, designed to introduce students to important authors, works, and literary movements in their wider historical and cultural contexts. (YR)

ENGL 312  British Lit: Milton to 1900  
3.000 Credits  
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)  
A study of British literature from the works of John Milton to 1900, designed to introduce students to important authors, works, and literary movements in their wider historical and cultural contexts. (YR)

ENGL 313  American Lit: Colonial to 1900  
3.000 Credits  
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)  
A study of American literature from the Colonial period to 1900, designed to introduce students to important authors, works, and literary movements in their wider historical and cultural contexts. (YR)

ENGL 314  Brit & Amer Lit: 1900-Present  
3.000 Credits  
Prerequisites: (COMP 106 or COMP 220 or COMP 270) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)
A study of British and American literature from 1900 to the present, designed to introduce students to important authors, works, and literary movements in their wider historical and cultural contexts. (YR)

ENGL 317  Case Studies in Tech Writing
3. 000 Credits
Must be enrolled in one of the following Classes:
   Junior
   Graduate
Prerequisites: COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40

ENGL 317 offers both practical and conceptual studies in technical writing and is open to non-technical as well as technical students. (Engineering students may take ENGL/COMM 317 for elective credit.) The course offers in-depth treatment of the communication problems and various document designs common to technical writing professionals. Instructional format includes lectures and discussion based on case material derived from actual events, followed up by preparation of written documents. Topics will include document design, language barriers, and the role of technical documents in product liability. (AY).

ENGL 323  Advanced Creative Writing
2. 000 TO 3. 000 Credits
Prerequisites: ENGL 223 or COMP 223

Practice in writing poetry, the short story, the novel, and/or the play. May be repeated to a maximum of six credit hours. (OC).

ENGL 327  Advanced Exposition
3. 000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40

A study of rhetorical theory and its application to various types of expository essays. Writing assignments will reflect the types of essays studied. May be repeated to a maximum of six credit hours. (YR).

ENGL 330  Feature Writing
3. 000 Credits
Must be enrolled in one of the following Levels:
   Undergraduate
Prerequisites: COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40

An introduction to the writing of feature stories for magazines and newspapers. Students read and discuss classic examples and study the methods of gathering information, of weaving an article from a variety of story elements, and of preparing a manuscript for publication.

ENGL 331  Online Reprtng, Resrch, Writing
3. 000 Credits
Prerequisites: COMP 106 or COMP 110 or COMP 270 or CPAS 40

Course introduces the technical, social, legal and ethical practice of online research, focusing on research skills required by journalists and other writers. Students use new media technology to generate ideas, to research subjects, and to develop general-audience writing projects in their areas of interest. Course covers the use of Web search engines, directories and databases; finding sources and interviewing people online; evaluating the credibility of online sources and information; using Lexis-Nexis to access archives and public records; and using spreadsheet and database programs.

ENGL 340  Mod European Short Fiction
3. 000 Credits
Prerequisites: ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239

A careful reading of between 10 and 15 short novels (in translation), with particular attention being paid to the manner in which their plots and characters express contemporary cultural issues. Such works as Dostoyevsky's Notes from Underground, Conrad's Heart of Darkness, and the Unamuno's Abel Sanchez will be included.

ENGL 341  Religion and Literature
3. 000 Credits
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

An investigation of the ways in which religious ideas and practices have informed works of literature, and vice versa. Surveying a variety of genres and themes, the course will focus mainly on British and/or American literature and its engagement with Judaeo-Christian religion, though some attention may be devoted to other literary and religious traditions (e.g., ancient and medieval texts, European and world literature, Islam and Eastern religions).

ENGL 342  Myth and Motif
3. 000 Credits
Prerequisites: ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200

A study of archetypal figures and thematic motifs. Their recurrent appearance in different literary periods and genres and their lineage will be examined in order to increase understanding of the works themselves and of the ages which produced them. A selection will be made from classical myth, Biblical narrative, and historical sources. Thus, the figures may vary from Oedipus and Cain to Faust and Don Juan. Motifs and story patterns may include such devices as the spiritual quest, the journey into Hell, or the patricide prophecy.

ENGL 344  Modern Literature: The Novel
3. 000 Credits
Prerequisites: (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

A careful examination of five or six significant modern novels in translation, with particular emphasis on their influence on the development of the novel and their reflection of contemporary cultural issues. The works of such authors as Flaubert, Dostoyevsky, Tolstoy, Gide, Joyce, and Mann will be included.

ENGL 345  Modern Literature: Drama
3. 000 Credits
Prerequisites: (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

A careful reading of selected plays from Ibsen to the contemporary theater, designed to develop appreciative criticism and an understanding of the plays in their relationships to movements in modern drama, theater, background social forces, and trends of thoughts.
ENGL 346  Bible and Western Tradition
3. 000 Credits

A detailed study of major episodes from the Bible, first as a literary work, and second as it is reflected in both poetry and the visual arts during the Renaissance and Baroque periods. Included are selected works by such masters as John Donne, George Herbert, and John Milton in poetry and Michelangelo, Raphael, and Leonardo da Vinci in painting and sculpture. (AY).

ENGL 347  Classical Lit/Engl Translation
3. 000 Credits
Must be enrolled in one of the following Classes:
Junior
Senior
Graduate
Prerequisites: ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200

A study of masterworks of ancient Greek and Roman literature with special attention to the development of epic, tragedy, and comedy. Authors studied will include Homer, Virgil, Aeschylus, Sophocles, Euripides, Aristophanes, Terence, and Plautus.

ENGL 348  Warriors, Lovers and Saints
3. 000 Credits
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

An in-depth examination of various personalities of the Middle Ages, both historical and fictional, who are distinctive for their martial prowess, their reputation as lovers, their piety, or some combination of these traits. Attention to these figures (e.g., Roland, Tristan, St. Augustine, and Abelard) will enable the class to consider important medieval norms of behavior, such as chivalry, courtly love, and Christian faith.

ENGL 349  The Bible In/As Literature
3. 000 Credits
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

This course will study selected readings from the Bible, first in regard to their own literary, historical, and cultural contents, and then in regard to their reception, interpretation, and reapplication by later literary tradition. Biblical selections may cover both the Old and New Testaments as well as Apocryphal traditions, while readings from later non-biblical texts will be drawn from various literary periods.

ENGL 356  Reading Urban Monstrosity
3. 000 Credits
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)

This course questions the literary techniques and forms the English writers developed between 1660 and 1900 to characterize and imagine London to be a unified community and to counter the growing perception of London as a "monstrous city." This image of "the English-speaking City" as an uncontrollable monster may be explored in writings by Daniel Defoe, Jane Austen, Elizabeth Gaskell, Robert Louis Stevenson, Charles Dickens, Thomas Hardy, and Joseph Conrad.

ENGL 361  Am Lit:1630 to Civil War
2. 000 TO 3. 000 Credits
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)

A wide-ranging exploration of American literature from its colonial origins through the Civil War. The works of such major authors as Anne Bradstreet, Benjamin Franklin, Frederick Douglass, and Herman Melville will be studied in cultural context.

ENGL 363  Am Lit: Civil War to WW I
3. 000 Credits
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)

A study of the major trends in American prose and poetry, including realism and naturalism, during the late nineteenth and early twentieth centuries, through the work of such authors as Walt Whitman, Mark Twain, and Sara Orne Jewett.

ENGL 364  Writing for Civic Literacy
3. 000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40

In Writing for Civic Literacy, students will study how politicians, the media and critical citizens use language to engage with the broader community. Students themselves will learn to use language to become more active, well-informed citizens. They will study rhetorical awareness, audience analysis and persuasive writing techniques and put those lessons to use in community settings. They will perform community service at agencies of their choosing and use those experiences as objects of analysis, researching the social context in which those agencies operate and writing analytically about the agencies. Further, students will synthesize classroom lessons and real-world experience by executing writing tasks for and with the agencies (these tasks might include editorials for the local press, informational web pages and fundraising materials).

ENGL 366  Modern American Literature
2. 000 TO 3. 000 Credits
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)

A survey of American literary trends from World War I to the present. Authors covered include Eliot, Hemingway, Fitzgerald, O'Neill, Agee, DosPassos, West, O'Connor and Miller.

ENGL 368  20C/21C British/Amer Poetry
3. 000 Credits
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)

A survey of 20th- and 21st- century British and/or American poetry and poets, including such authors as Wallace Stevens, W. H. Auden, T. S. Eliot, Dylan Thomas, Langston Hughes, and Sylvia Plath.
A survey of English Literature of the late 18th century. Readings address the literary gothic, Boswell’s journals, the "graveyard school" of poetry, Samuel Johnson’s poetry and prose, the 1789 revolutionary fervor, and the novels of Frances Burney and Jane Austen.

**ENGL 376 Brit Lit in Romantic Era**

2.000 TO 3.000 Credits

Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

A survey of British literature from 1789 to 1832 with special emphasis on the rise of Romantic poetry.

**ENGL 377 Victorian Poetry and Prose**

2.000 TO 3.000 Credits

Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

A survey of British poetry and prose during the reign of Queen Victoria 1837 to 1901.

**ENGL 378 Modern Eng Lit**

2.000 TO 3.000 Credits

Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

A survey of English literary trends from 1900 to the present.

**ENGL 381 Intro to Postcolonial Studies**

3.000 Credits

Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 240 or ENGL 250

This course offers a general introduction to Postcolonial Studies - a field of cultural inquiry that questions how personal identity (specifically race, language and ethnicity) shapes, and is shaped by, the politics of colonization and nationalism. Students will clarify the subject of Postcolonial Studies by examining a variety of cultural and linguistic objects (literature, film, TV-journalism, slave- and middle-passage-narrative, and political manifestos) from a variety of cultural perspectives (Arab American, Anglo-Indian, West African, and Caribbean).

**ENGL 383 American English**

2.000 TO 3.000 Credits

Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

The development of American English and its dialects interpreted in the light of cultural history and processes of language change.

**ENGL 386 Gender Issues in Literature**

3.000 Credits

Prerequisites: ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200

A survey of English Literature of the late 18th century. Readings address the literary gothic, Boswell's journals, the "graveyard school" of poetry, Samuel Johnson's poetry and prose, the 1789 revolutionary fervor, and the novels of Frances Burney and Jane Austen.
A study of gender issues in English and American literature. The exact topic will vary from semester to semester, but the course may feature such topics as gay and lesbian literature, feminist criticism, images of masculinity, the representation of sexual ideologies, etc. Course may be repeated for credit when specific topic differs.

**ENGL 389  The Odyssey of Blk Men in Amer**  
3. 000 Credits  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)

This course will examine the struggle of African American men for personal, political, and creative expression. This course incorporates several literary genres (narrative, fiction, essay, drama, and poetry) and the literary voices of black men who range from professional writers to politicians, from athletes to actors. Students will be required to critically read, discuss, analyze, and write their own responses to the literature found in the texts.

**ENGL 390  Topics in English**  
3. 000 Credits  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 237 or ENGL 239)

ENGL Examination of problems and issues in selected areas of English. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

**ENGL 394  Psychology and Theater**  
3. 000 Credits  
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 223 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL 236 or ENGL 237 or ENGL 239)

The linkages between psychology and theater are analyzed from the perspective of the actor, the audience, and the analyst (both psychotherapeutic and literary). This includes ties between plays and theories of human behavior, psychodrama, and self-insight through performance. Class involves a significant experiential component.

**ENGL 399  Independent Studies in English**  
1. 000 TO 3. 000 Credits  
Readings or analytical assignments in English, selected in accordance with the needs and interests of those enrolled and agreed upon by the instructor and the student. May be repeated for a maximum of 6 credit hours. (F, W).

**ENGL 400  Maj Engl Auth of the Mid Ages**  
3. 000 Credits  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

A concentrated study of the works of three or four major authors of medieval England, from the 13th through the 15th centuries.

**ENGL 401  Lit of Anglo-Saxon England**  
2. 000 TO 3. 000 Credits  
May not be enrolled in one of the following Classes: Graduate  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

A literary analysis of Beowulf and other old English poems. Some attention will be given to the structure and pronunciation of Old English. Students cannot receive credit for both ENGL 401 and ENGL 501.

**ENGL 404  Medieval Mystical Writers**  
3. 000 Credits  
Prerequisites: (COMP 106 or COMP 270 or COMP 220 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)

A study of the genre of mystical writing as it was developed and practiced throughout the Middle Ages and in 14th century England particularly. Attention will be given to the historical, religious, and cultural contexts that enabled and were created by mystical texts. In addition, the course will explore how traditional and contemporary trends in the fields of religious and literary studies can be brought to bear on the genre of mystical writing.

**ENGL 405  Chaucer**  
3. 000 Credits  
May not be enrolled in one of the following Classes: Graduate  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)

An introduction to the poetry of Chaucer, with primary reference to the Canterbury Tales and some attention to Chaucer's short poems. Students cannot receive credit for both ENGL 405 and ENGL 505.

**ENGL 406  Studies in Medieval Lit/Cult**  
3. 000 Credits  
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)

An intensive study of a single author, movement, genre, or theme in the Medieval period. Lectures will explore historical and cultural contexts and the relevance of contemporary methodologies to the study of Medieval texts.

**ENGL 408  Shakespeare I: Earlier Works**  
3. 000 Credits  
May not be enrolled in one of the following Classes: Graduate  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

Intensive study of selected works from the first half of Shakespeare's career, designed to increase the student's critical appreciation and understanding. Students cannot receive credit for both ENGL 408 and ENGL 508.
ENGL 409  Shakespeare II: Later Works
3. 000 Credits
May not be enrolled in one of the following Classes:  
Graduate
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

An intensive study of selected works from the second half of Shakespeare's career, designed to increase the student's critical appreciation and understanding. Students cannot receive credit for both ENGL 409 and ENGL 509.

ENGL 410  Maj Engl Authors of the Renais
2. 000 TO 3. 000 Credits  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

An investigation of significant themes and attitudes current in the Renaissance, as seen through an intensive examination of the works of two or three major authors, such as More, Spenser, Bacon, and Donne.

ENGL 412  Milton
3. 000 Credits
May not be enrolled in one of the following Classes:  
Graduate
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 and COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

An intensive study of Paradise Lost and Paradise Regained, Areopagitica and the shorter poems, including Samson Agonistes and Comus. Consideration is given to historical background and to other writings by Milton insofar as they illuminate his major works. Students cannot receive credit for both ENGL 412 and ENGL 512.

ENGL 413  Engl Ren Drama, Exc Shakespr
2. 000 TO 3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

An examination of representative works of Elizabethan and Stuart playwrights, with special attention being given to the literary history reflected in the plays.

ENGL 414  Seventeenth-Century Readings
2. 000 TO 3. 000 Credits
May not be enrolled in one of the following Classes:  
Graduate
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

An intensive study of mid-17th century authors or literary movements, such as Browne, Burton, and the metaphysical poets. Students cannot receive credit for both ENGL 414 and ENGL 514.

ENGL 420  Maj Engl 18th-Century Authors
2. 000 TO 3. 000 Credits
May not be enrolled in one of the following Classes:  
Graduate
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

An intensive study of two or three authors, such as Dryden, Behn, Pope, Swift, Burney, Austen, or Samuel Johnson. Students cannot receive credit for both ENGL 420 and ENGL 520.

ENGL 421  Swingers, Flirts, & Libertines
3.000 Credits
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

An examination of the functions that writers in English have assigned to literary decadence, libertinism, and aestheticism (or, the study of beauty and "art for art's sake"). We will read writers who identified themselves as libertines as well as writers who represented libertines as we address the Restoration rake (Royster & Behn), the Regency buck (the Shelleys & DeQuincey), the Victorian dandy (Oscar Wilde, Michael Field, & the Decadents), the modern playboy (Nin, Waugh & Fitzgerald), hippie-singer (Wolfe & Jagger), and finally, the postmodern player-celebrity (Bret Easton Ellis, Will Self & rock-lyricists).

ENGL 422  Satire
3. 000 Credits
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and ENGL 200 or ENGL 230 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239

An exploration of satirical writing and its functions from its English origins in eighteenth-century London (Montagu, Swift, Pope) to its twenty-first-century reincarnations in both America and Britain (Zadie Smith, Burgess, Schuyler, Hughes, Waugh). The course emphasizes the various goals that writers have assigned to satire, especially in terms of race, gender, and nationalism.

ENGL 423  Restoration Drama
3. 000 Credits
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

A survey of playwriting and theatrical performance in England from Charles II's opening of the theaters in 1660 to the Licensing Act of 1737. Playwrights and movements include historical drama (Dryden, Rowe), tragicomedy (Southmore), urban social satire (Behn, Etherege, Gay, Centlivre, and Congreve), subversive comedy (Behn and Wycherley), sentimental comedy (Steele), and revisions of Shakespeare.

ENGL 424  18th-Century English Novel
3. 000 Credits
May not be enrolled in one of the following Classes:  
Graduate
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 240 or ENGL 250)
A study of the rise and development of the English novel during the 18th century. Consideration is given to such novelists as Defoe, Richardson, Fielding, Sterne, Austen, and Smollett. Students cannot receive credit for both ENGL 424 and ENGL 524.

ENGL 430  Stud in 19th-Century Brit Lit  
3.000 Credits  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL236 or ENGL 237 or ENGL 239 or ENGL 200)

Intensive study of a special topic in 19th-century British literature. The course may treat a single author (e.g., Dickens), a movement (e.g., the Pre-Raphaelites), or a theme (e.g., literary responses to the French Revolution, the literature of mental crisis, Victorian social criticism).

ENGL 431  British Romantic Writers  
3.000 Credits  
May not be enrolled in one of the following Classes: 
Graduate  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL236 or ENGL 237 or ENGL 239 or ENGL 200)

An intensive study of selected British Romantic writers, with attention to the historical and literary contexts in which they wrote. Students cannot receive credit for both ENGL 431 and ENGL 531.

ENGL 432  Victorian Writers  
3.000 Credits  
May not be enrolled in one of the following Classes: 
Graduate  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL236 or ENGL 237 or ENGL 239 or ENGL 200)

An intensive study of selected Victorian poets and/or nonfiction prose writers, with attention to the literary and historical contexts in which they wrote. Students cannot receive credit for both ENGL 432 and ENGL 532.

ENGL 434  The Victorian Novel  
3.000 Credits  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL236 or ENGL 237 or ENGL 239 or ENGL 200)

A study of the British novel during the reign of Queen Victoria, 1837 to 1901.

ENGL 436  Memoir and Travel Writing  
3.000 Credits  
Prerequisites: COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40

A course in narrative non-fiction that focuses on memoir and travel writing. Reading involves several books as well as classic essay-length examples. Assignments include both short analytical papers and the writing and revising of three original articles, based on research, interviews, memory, and observation, and drawing on literary techniques. (YR).

ENGL 440  Major 20C/21C Engl/Amer Authors  
3.000 Credits  
May not be enrolled in one of the following Classes: 
Graduate  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL236 or ENGL 237 or ENGL 239 or ENGL 200)

An intensive examination of the works of representative English and American authors since 1900. Students cannot receive credit for both ENGL 440 and ENGL 540.

ENGL 441  Major 20C/21C English Authors  
3.000 Credits  
May not be enrolled in one of the following Classes: 
Graduate  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL236 or ENGL 237 or ENGL 239 or ENGL 200)

An intensive study of several modern English authors, such as Shaw, Joyce, Forster, Dylan Thomas, D. H. Lawrence, and Woolf. Students cannot receive credit for both ENGL 441 and ENGL 541.

ENGL 442  Studies in 20-21 Century Lit  
3.000 Credits  
Must be enrolled in one of the following Levels: 
Undergraduate  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL236 or ENGL 237 or ENGL 239 or ENGL 200)

Intensive study of a special topic in 20th- or 21st-century literature in English. The course may treat a single author (e.g., E. M. Forster), a movement (e.g., Postmodernism), a genre (e.g., modern short story), or a theme (e.g., Literature of World War).

ENGL 443  Anglo-Irish Literature  
3.000 Credits  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL236 or ENGL 237 or ENGL 239 or ENGL 200)

A survey of Irish Literature written in English. Special emphasis will be given to Swift, Lady Gregory, Synge, Yeats, Joyce, and O’Casey, whose works will be examined in the context of Ireland’s unique history and culture.

ENGL 444  Sem in 20C/21C Poetry  
3.000 Credits  
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL236 or ENGL 237 or ENGL 239 or ENGL 200)

A seminar focusing on the poems of two or three English and/or American poets of the 20th- or 21st-century. Intensive discussion of individual poems, along with lectures on authors' critical and historical backgrounds.
ENGL 445  20C/21C Women Authors
3. 000 Credits
Must be enrolled in one of the following Classes:
Graduate
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or
COMP 280 or COMP 270) and (ENGL 230 or ENGL 231
or ENGL 232 or ENGL 233 or ENGL 235 or ENGL236 or
ENGL 237 or ENGL 239 or ENGL 200)

An analysis of selected works by significant and emerging 20th
and 21st century women authors writing in English, with special
emphasis on issues of gender and social and cultural identity.

ENGL 450  Maj Am Auth to the Civ War
3. 000 Credits
May not be enrolled in one of the following Classes:
Graduate
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or
COMP 280 and COMP 270) and (ENGL 230 or ENGL 231
or ENGL 232 or ENGL 233 or ENGL 235 or ENGL236 or
ENGL 237 or ENGL 239 or ENGL 200)

An intensive study of two or three authors, such as Charles
Breckton Brown, Nathaniel Hawthorne, or Harriet Beecher
Stowe, from the earlier periods of American Literature. Students
cannot receive credit for both ENGL 450 and ENGL 550.

ENGL 451  Maj Am Auth Civ War to WWI
3. 000 Credits
May not be enrolled in one of the following Classes:
Graduate
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or
COMP 280 and COMP 270) and (ENGL 230 or ENGL 231
or ENGL 232 or ENGL 233 or ENGL 235 or ENGL236 or
ENGL 237 or ENGL 239 or ENGL 200)

An intensive study of two or three major authors from the period
between the Civil War and World War I, such as Emily
Dickinson, Charles Chesnutt, or Henry James. Students cannot
receive credit for both ENGL 451 and ENGL 551.

ENGL 452  Major 20C/21C American Authors
3. 000 Credits
May not be enrolled in one of the following Classes:
Graduate
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or
COMP 280 or COMP 270) and (ENGL 230 or ENGL 231
or ENGL 232 or ENGL 233 or ENGL 235 or ENGL236 or
ENGL 237 or ENGL 239 or ENGL 200)

An intensive study of several modern American authors, from
the World War I to the present, such as Langston Hughes, Frost,
Hemingway, and Faulkner. Students cannot receive credit for
both ENGL 452 and ENGL 552.

ENGL 453  Contemporary American Novel
3. 000 Credits
May not be enrolled in one of the following Classes:
Graduate
Prerequisites: (COMP 106 or COMP 220 or CPAS 40 or
COMP 280 or COMP 270) and (ENGL 230 or ENGL 231
or ENGL 232 or ENGL 233 or ENGL 235 or ENGL236 or
ENGL 237 or ENGL 239 or ENGL 200)

Study of selected American novels and novelists since WWII with
an eye to their social, political, and literary contexts. Course will
focus on major works by major authors and representative works
by lesser-known writers in order to explore technical, thematic
and critical crosscurrents among the works. Students cannot
receive credit for both ENGL 453 and ENGL 553.

ENGL 454  Postmodern Literature
3. 000 Credits
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or
COMP 280 or COMP 270) and (ENGL 230 or ENGL 231
or ENGL 232 or ENGL 233 or ENGL 235 or ENGL236 or
ENGL 237 or ENGL 239 or ENGL 200)
This course explores the expression of postmodernism in literature
(primarily fiction) and critical theory. Selected works of fiction
and creative non-fiction will be analyzed in terms of the problems
and issues raised by the postmodern movement. Students cannot
receive credit for both ENGL 454 and ENGL 554.

ENGL 455  Stud in 19th-Cent Amer Lit
3. 000 Credits
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or
COMP 280 or COMP 270) and (ENGL 230 or ENGL 231
or ENGL 232 or ENGL 233 or ENGL 235 or ENGL236 or
ENGL 237 or ENGL 239 or ENGL 200)
Close investigation of a special topic in 19th century American
literature. The course may treat a single author (e.g. Whitman),
a movement (e.g. transcendentalism), or a theme (e.g. utopianism,
technology, or pragmatism), and may draw on work
from other field of study.

ENGL 456  Teaching Fiction
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
School of Education
Coll of Arts, Sciences & Letters
May not be enrolled in one of the following Classes:
Sophomore
Freshman
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or
COMP 270 or COMP 280) and (ENGL 230 or ENGL 231
or ENGL 232 or ENGL 233 or ENGL 235 or ENGL236 or
ENGL 237 or ENGL 239 or ENGL 200)

ENGL 461  Modern English Grammar
3. 000 Credits
May not be enrolled in one of the following Classes:
Graduate
Prerequisites: LING 280 or LING 281

The morphological and syntactic analysis of the structure of
present day English considered in the light of modern linguistic
science. Students cannot receive credit for both ENGL 461 and
ENGL 561.

ENGL 464  Contemporary Rhetorical Theory
3. 000 Credits
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or
COMP 280 or COMP 270) and (ENGL 230 or ENGL 231
or ENGL 232 or ENGL 233 or ENGL 235 or ENGL236 or
ENGL 237 or ENGL 239 or ENGL 200)
An examination of contemporary rhetorical theories through
study of representative practitioners and related developments in
linguistics, philosophy, psychology, communication, and
composition and rhetoric. Students may not receive credit for
both ENGL 464 and ENGL 564.
ENGL 465  Discourse Analysis
3. 000 Credits
May not be enrolled in one of the following Classes:
   Graduate
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (COMM 201 or COMM 220 or COMM 290 or ENGL 230 or ENGL 231 or ENGL232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL240 or ENGL 250)

An examination of the syntactic and semantic devices and structures underlying communication in written texts and oral interaction. Material to be analyzed will vary from term to term (technical reports, scholarly articles, newspaper stories) but examples will be drawn primarily from the written language. Students cannot receive credit for both ENGL 465 and ENGL 565. (OC).

ENGL 467  Script-Writing Workshop
3. 000 Credits
Prerequisites: JASS 310 or COMP 310 or ENGL 310 or COMM 310

This writing intensive course will train students to compose a film script, focusing on the substance, structure, and style of an original screenplay. The course will be conducted as a workshop in which students will first study classic scripts (and films based on these) of the film-school generation of directors, then model scenes and sequences of their own scripts on the principles of the above texts, and finally, write their own respective film stories in accordance with an appropriate narrative structure and design. (OC).

ENGL 468  Writing Young Adult Fiction
3. 000 Credits
May not be enrolled in one of the following Classes:
   Graduate
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 223 or COMP 223)

In this course participants will explore the young adult novel from the point-of-view of a reader and a writer. They will read recently published and critically acclaimed popular young adult novels. They will use these texts to explore such issues as gender, race and identity as they relate to young adult lives and their respective cultures generally. They will use these texts as models for the production of their own texts and will consider the constraints and benefits of constructing and writing to a particular audience. They will consider if and why young adult novels are abbreviated or limited in relationship to adult literature. In addition to reading about ten novels, they will complete several creative exercises leading up to a final portfolio. Students will not receive credit for both ENGL 468 ad ENGL 568.

ENGL 469  20th-Century Afr-Amer Lit
3. 000 Credits
May not be enrolled in one of the following Classes:
   Graduate
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL 236 or ENGL 237 or ENGL 239)

An intensive study of major 20th-century African-American writers. Fiction, poetry, autobiography, and drama will be examined but one genre will be stressed in any given term, e. g. , the novel. Lectures will provide historical and biographical context for analysis and discussion of the works. Students cannot receive credit for both ENGL 469 and ENGL 569. (OC).

ENGL 470  Black Women / Lit, Film, Music
3. 000 Credits
Prerequisites: FILM 240 or FILM 248 or FILM 385 or AAAS 239 or AAAS 275 or WST 275 or WGST 275 or WST 370 or WGST 370 or HUM 221 or HUM 222 or HUM 223 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 237 or ENGL 239 or ENGL 248 or ENGL 200

This course will examine works produced by Black women authors, activists, filmmakers and musical performers in order to determine the methods they have incorporated in order to challenge and eradicate the prevailing stereotypes about Black women while advancing their own personal and racial agendas. It will also focus on the extent to which race, gender and class have shaped the creative work of Black women. Students will be required to read, discuss, analyze and write their own responses to the works of such firebrands as author Zora Neale Hurston, activist Ida B. Wells, filmmaker Julie Dash, and singer Billie Holliday.

ENGL 472  Reading in Multicult Contexts
3. 000 Credits
May not be enrolled in one of the following Classes:
   Graduate
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL 236 or ENGL 237 or ENGL 239)

An examination of the effect of different cultural backgrounds on reading and literature. Topics include contrastive rhetoric, folk narrative, and multicultural juvenile literature. This course does not satisfy requirements for the English concentration. Not open to English concentrators. Students cannot receive credit for both ENGL 472 and ENGL 572. (YR).

ENGL 473  Arab American Women Writers
3. 000 Credits
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL 236 or ENGL 237 or ENGL 238 or ENGL 239

Examines the literary and cultural contributions of Arab and Arab American women novelists, poets and artists to the development and consolidation of the cultures of understanding and coexistence; explores the tensions between citizenship and belonging, race and the politics of fears, gender and geographical mobility, and ethnic minorities and mainstream consciousness; discerns how Arab women writers and artists retool their various artistic endeavors to channel socio-political disenchantment, critique and civil disobedience; stresses how literary and artistic productions of a heterogeneous number of Arab American women writers and artists can indeed foster alternative visions of socio-cultural coexistence, dialogue and hospitality via artistic commitments to technical and stylistic experimentation and renovation. Students cannot receive credit for both ENGL 473 and ENGL 473. For graduate credit take ENGL 573.

ENGL 474  Second Lang Acquisition: Engl
3. 000 Credits
Prerequisites: LING 280 or LING 281 or LING 480

A survey of fundamental concepts and major concerns in the study of English as a Second Language (ESL). The course examines a variety of psycholinguistic and sociolinguistic issues related to second language acquisition (SLA), ranging from theoretical to pedagogical. A primary focus is on developmental
patterns and cognitive processes of SLA and individual variation in ESL speakers in terms of their social motivations and learning strategies. Implications for practical concerns such as the ESL teaching profession, instructional materials and curriculum development will be addressed where relevant.

**ENGL 477  African American English**  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: LING 280 or LING 281 or LING 480

An examination of the structure, history and use of African-American English. Topics will include the pronunciation, grammar and vocabulary of African-American English, theories of origin, linguistic repertoire and code-switching in African-American communities, the Ebonics controversy, and the role of this variety in education and identity formation. Students cannot receive credit for both ENGL 477 and ENGL 577.

**ENGL 482  History of the English Lang**  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: LING 280 or LING 480

A thorough grounding in the history and structure of the English language. At issue are the linguistic and ideological origins of the concept of Standard English, and the strengths and limitations of different methods of analyzing the history of the language. The course will emphasize sound change, grammatical change, and their sociological context. (YR)

**ENGL 484  World Englishes**  
3.000 Credits  
May not be enrolled in one of the following Classes:  
Graduate  
Prerequisites: LING 280 or LING 480

A study of the origin and significance of different forms of English throughout the world. Contact with other languages, pidginization, creolization, standardization, and the formation of the three circles of English are examined. (YR)

**ENGL 485  Theories of Writing**  
3.000 Credits  
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280

In this course we will investigate why and how people write for particular audiences and in a variety of contexts. Subjects will include: cognitive and social theories of writing and the writing process, theories of persuasion, writing across the curriculum, writing for multiple audiences, writing in the workplace, writing for self and for publics, and teaching writing. The course will be useful to students interested in teaching writing at the K-12 level, those interested in careers in communication and those who wish to better understand how writing promotes personal and societal change. (YR)

**ENGL 486  Queer Theory & Literature**  
3.000 Credits  
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL 236 or ENGL 237 or ENGL 239 or AAAS 239)

This course analyzes issues of sexuality using the lens of queer theory to understand the ways writers have imagined printed text to reflect and govern desire. This course also explores how queer theory has moved beyond a hetero-homosexual binary by offering alternative solutions to issues in literature that seem to be at political, economic and national impasses. Writers may include contemporary theorists (Sedgwick, Foucault, Butler) as well as novelists (Gaskell and Stoker), playwrights (Kushner and Wyleyherley), and poets (Behn and Rossetti).

**ENGL 487  Monsters, Women & the Gothic**  
3.000 Credits  
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL 236 or ENGL 237 or ENGL 239)

This course questions our inheritance of the ?the gothic? as a district literary style that continues to discipline readers? notions of gender and sexual identity. The course argues that by tracing the gothic’s literary history, we may simultaneously witness a history of gender formation. Readings may include English novelists who originated a gothic style in English (Walpole, Radcliffe, Lewis) as well as English and American poets and novelists who have debated as well as resisted the effects of the gothic on readers? (particularly women’s) psychology (Christina Rossetti, Austen, King, Stoker).

**ENGL 488  Env Lit & Reps of Nature**  
3.000 Credits  
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL 236 or ENGL 237 or ENGL 239)

An interdisciplinary study of the ways in which the relationship between “nature” and humankind has been represented in literature and other forms of cultural expression. Emphasis on American and British texts of the 19th centuries, but assigned materials may include readings from other cultures and historical periods.

**ENGL 490  Advanced Topics in English**  
3.000 Credits  
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL 236 or ENGL 237 or ENGL 239)

Examination of advanced problems and issues in selected areas of English studies. Title as listed in the Schedule of Classes will change according to content. May be repeated for credit when specific topics differ.

**Environmental Science**

The environmental science major provides students with a strong background in areas of science related to environmental concerns and with an opportunity to study environmental problems from a scientific point of view that integrates biology, chemistry, earth science, and physics. The major leads to a BS degree in CASL and prepares students for careers in waste management, environmental consultation, teaching, environmental health and resource management.

**Specialization**

- Environmental Biology Track
- Environmental Chemistry Track
- Earth Science Track

**Note:** LIBS 395 may be substituted for ENST 385 if the cooperative education work assignment is environmentally oriented.
Individualized Track
This track is a highly selective program for qualified students with well-conceived academic goals.

BIOL 140  Introduction to Molecular and Cellular Biology .................................................. 4 hrs
OR
PHYS 126  Introductory Physics II ........................................... 4 hrs
OR
PHYS 151  General Physics II ................................................ 4 hrs

A minimum of 12 upper-division credit hours in natural sciences courses that address a common theme. Individualized specializations must be developed in consultation with the Environmental Science program advisor, and the proposed coursework must be approved by the Environmental Science Program Committee before the student achieves senior standing.

UPPER-DIVISION COURSEWORK
Forty-eight credit hours in upper-division courses are required for graduation. The Environmental Science concentration requirements include a minimum of 37 credit hours in upper-division courses. Consequently, up to 11 additional upper-division credit hours may be required for graduation.

MINOR OR AREA OF FOCUS
A minor or area of focus consists of 12 hours of upper-division credit in Environmental Science.

Environmental Science (ESCI) COURSE OFFERINGS

ESCI 275  Intro to Environmental Science
3. 000 Credits
A distribution course which surveys major environmental problems. Concepts discussed are ecology, environmental chemistry, methods of investigating the environment, and possible solutions to environmental problems. Three hours lecture. (YR).

ESCI 301  Environmental Science
4. 000 Credits
Prerequisites: (CHEM 124 or CHEM 134 or CHEM 144) and GEOL 118 and BIOL130
A survey of historical and current environmental problems, with emphasis on understanding causes, consequences, and control. Topics include human population growth, air pollution, water pollution, and waste disposal. Laboratory emphasizes an experimental approach to environmental problems, including data collection, analysis, and interpretation. Lecture and laboratory/recitation.

ESCI 304  Ecology
4. 000 Credits
Prerequisites: BIOL 130 and (MATH 113 or MATH 115 or MPLS 116)
Co-requisites: ESCI 304L
Relationships between organisms and their environments. Patterns in the physical environment, physiological and behavioral adaptations, population dynamics, energy flow, nutrient cycling; succession. Three hours lecture, four hours laboratory (with field trips). (F).

ESCI 305  Intro to GIS
4. 000 Credits
Co-requisites: ESCI 305L
The basic elements of geographic information systems, map interpretation and map design. Principles and methods of spatial data collection, analysis, and display are introduced. (W)

ESCI 315  Aquatic Ecosystems
4. 000 Credits
Prerequisites: BIOL 130 and (CHEM 124 or GEOL 118)
An introduction to the physical, chemical, and biological characteristics of lakes, rivers, and wetlands emphasizing a comparison of ecosystem structure and function. Laboratory emphasizes data collection and analysis to characterize a representative lake, river, and wetland. Lecture and laboratory. (AY, F).

ESCI 320  Field Biology
4. 000 Credits
Prerequisites: BIOL 101 or BIOL 130
Adaptations, taxonomy, systematics, ecology, and behavior of southeastern Michigan flora and fauna. Techniques of field observation and recording are emphasized. Skills in the use of identification keys and guides are developed. The campus Environmental Study Area is used intensively. Three hours lecture, four hours laboratory (with field trips). (S).

ESCI 330  Land Use Planning and Mgmt
4. 000 Credits
Prerequisites: (BIOL 130 and GEOL 118) or ESCI 275
Environmental aspects of land use planning, park planning, and site planning. Consideration of soils, groundwater, topography, and sensitive natural features and their role in determining land-use suitability. Examination of the mechanics and effectiveness of the planning process. Lecture and recitation. (AY, W).

ESCI 332  Hazardous Waste Management
3. 000 Credits
Prerequisites: GEOL 118 or ESCI 275
Environmental problems associated with solid and hazardous waste. Regulations governing the generation, transport, and disposal of hazardous waste. Waste management techniques, including reduction, reuse, recycling, treatment, incineration, and land disposal. Three hours lecture. (AY, W).

ESCI 348  Environmental Chemistry
3. 000 Credits
Prerequisites: CHEM 344 and (CHEM 225 or CHEM 325)
Description of the concepts, principles, practices, and current problems in the chemistry of natural waters, the soil, and the atmosphere. Three hours lecture. (AY, W).

ESCI 349  Environmental Chemistry Lab
1. 000 Credits
Prerequisites: ESCI 348* or CHEM 348*
Collection and analysis of air, water, soil, and organisms for pollutants such as noxious gases, heavy metals, and trace organics. EPA-approved methods are emphasized. Four hours laboratory. (AY, W).
ESCI 352  Introduction to Toxicology  
3. 000 Credits  
Prerequisites: CHEM 225  
An introduction to the principles of toxicology with an emphasis on environmental toxicology. Major topics include toxic agents, toxicological mechanisms, and use of toxicological reference literature. Discussion of chemical carcinogenesis, genetic toxicology, immunotoxicology, teratology, and toxic responses of the skin, eyes and nervous system. Three hours lecture. (AY, W).

ESCI 370  Environmental Geology  
3. 000 Credits  
Prerequisites: GEOL 118  
Interactions between people and the physical environment. Geological hazards and natural processes, such as earthquakes, volcanism, floods, landslides, and coastal processes. Relationships between geology and environmental health, including chronic disease, water use and pollution, waste disposal, mineral resources, and energy use. Three hours lecture. (AY).

ESCI 372  Energy Resources  
3. 000 Credits  
Prerequisites: GEOL 118 or ESCI 275 or ESCI 301  
Origin and development of fossil fuels (petroleum, coal, natural gas) and of radioactive ores used in nuclear power. Renewable and alternative energy sources, including hydro, solar, wind, biomass, and geothermal power. Environmental impacts of energy use. Three hours lecture. (OC).

ESCI 375  Groundwater Hydrology  
4. 000 Credits  
Prerequisites: GEOL 118  
Co-requisites: ESCI 375L  

ESCI 390  Topics in Environmental Sci  
1. 000 TO 3. 000 Credits  
A course in special topics current to environmental science. Topics and format may vary. See current Schedule of Classes.

ESCI 395  Sem on Environmental Issues  
1. 000 Credits  
Readings, discussions, and presentations which examine current environmental issues. One hour seminar. Permission of instructor. (F, W).

ESCI 414  Limnology  
4. 000 Credits  
Prerequisites: BIOL 130 and (CHEM 136 or CHEM 146)  
The study of the structural and functional relationships and productivity of organisms in lakes and streams as they are regulated by their physical, chemical and biotic environments. Laboratories will emphasize field study of area lakes and streams. Three hours lecture, four hours laboratory. BIOL/ESCI 304 or ESCI 275 recommended.

ESCI 416  Stream Ecology  
4. 000 Credits  
Prerequisites: BIOL 304  
A study of the physical, chemical and biological characteristics of streams and rivers. Three hours lecture, four hours laboratory. (OC).

ESCI 420  Advanced Field Ecology  
4. 000 Credits  
Prerequisites: BIOL 304 or BIOL 320 or ESCI 320  
An intense study of behavioral ecology and field-oriented research at an advanced level, utilizing ecological habitats on campus and in surrounding urban areas. Focus will be on plant/animal interactions and will include pollination ecology, reproduction and distribution ecology, optimal foraging theory, as well as hypothesis testing of animal migration and distribution of species in extreme urban environments. Three hours lecture, four hours laboratory. (OC).

ESCI 497  Seminar in Environmental Sci.  
1. 000 Credits  
Readings, discussion, and presentation of research in selected areas of study. One hour seminar. Permission of instructor. (OC).

ESCI 498  Indep Study in Environ Sci  
1. 000 TO 3. 000 Credits  
Library research and independent study performed under the guidance of a faculty member. Four to twelve hours readings. Permission of instructor. (F, W, S).

ESCI 499  Lab Research in Environ Sci  
1. 000 TO 3. 000 Credits  
Directed laboratory or field research performed under the guidance of a faculty member. Four to twelve hours laboratory. Permission of instructor. (F, W, S).

Environmental Studies  
The solutions to the current environmental problems are complex and require teamwork and understanding between specialists and generalists in many disciplines. The AB in Environmental Studies degree program focuses on the interdisciplinary nature of environmental problem solving at the local, regional and international level. Students can choose from among four (4) focus areas. Throughout their academic studies, students in this program interact with students in the Environmental Science program.

CAREER OPPORTUNITIES  
Upon completion of this program, the graduates have a great variety of career opportunities available in both the public and private sector. For example, recent graduates hold such positions as teacher, national park naturalist, resource policy planner, Regional Director of International Joint Commission, Director of Environmental Programs for SEMCOG, regional land use planner, public health officer, and director of a public interest group. All students who qualify for graduate school should seriously consider working toward an advanced degree, which is required for most leadership positions.
INTERNSHIP PROGRAM

An important feature of this program is the internship requirement that allows the students to examine possible professional positions in an area of their interest through on-the-job experience. Some of the internships which environmental studies students have had are field analyst for the Michigan Department of Environmental Quality, hazardous waste analyst, marine safety inspector with the U.S. Coast Guard, public health sanitarian, researcher for a public interest group, national park naturalist, assistant to a state legislator, director of a community organic garden, summer camp nature director, and assistant analyst in a remote sensing operation.

PREREQUISITES TO THE CONCENTRATION

**Biology Courses**

- **Biol 130** Introduction to Organismal and Environmental Biology.............. 4 hrs
- **Chem 124** General Chemistry ................. 4 hrs
- **Geol 118** Physical Geology................. 4 hrs

**Computer Science Courses**

- **Cis 123** Introduction to Computers and Information Systems .................. 3 hrs
- **Cis 125** Survey of Computer Science........ 3 hrs
- **MIS 120** Fundamentals of Information Systems . 3 hrs

*Note: if not taken as a college distribution requirement, to fulfill prerequisites for upper-division courses.

* MATH 104 or 105 and MATH 113 required if BIOL/ESCI 304 is taken.

**Recommend taking ECON 202, POL 101, and PSYC 170 to fulfill prerequisites for upper-division courses.

***Recommend taking BIOL 130, CHEM 124, or GEOL 118 to fulfill prerequisites for upper-division courses.

Other lower-division prerequisite courses vary according to upper-division courses elect to take. Review the list of courses in the Environmental Core Courses and the Focus Areas to determine the proper prerequisites. Some of the prerequisites may be fulfilled through the CAS&L Distribution Requirements.

Environmental Core Courses ..................................................... 27-29 hrs

The graduate in Environmental Studies requires a broad background of knowledge in the Natural Sciences, the Humanities, the Social Sciences, and the Behavioral Sciences as well as interdisciplinary courses which provide a synthesis among disciplines. Students in the program will also have an opportunity to interact with a variety of environmental professionals through seminars and an internship.

- **Biol 320** Field Biology ................................. 4 hrs
- **Enst 301** Concepts of Environmentalism .......... 3 hrs
- **Enst 305** Environmental Instrumentation and Analysis ...................... 3 hrs
- **ESCI 301** Environmental Science ..................... 4 hrs
- **Enst 385** Internship in Environmental Studies . 1-3 hrs
- **Enst 395** Seminar on Environmental Issues ....... 1 hr
- **Enst 485** Seminar in Environmental Topics ....... 2 hrs

Choose one course from the following ......................... 3 hrs
- **ENGL 488** Environmental Literature and Representation of Nature
- **PHIL 312** Environmental Ethics

Choose two from the following ................................. 6 hrs
- **Enst 201** ANTH 325 Anth of Env and Health .... 3 hrs
- **Enst 201** Cultural Ecology ......................... 3 hrs
- **Enst 300** Urban Geography ................. 3 hrs
- **Enst 310** Economic Geography .............. 3 hrs
- **Enst 325** Environmental Politics ............. 3 hrs
- **Enst 351** Environmental Economics .......... 3 hrs
- **Enst 381** Urban Economics .............. 3 hrs
- **Enst 487** Comparative Enviro Policy ........ 3 hrs
- **Enst 491** Ecological Economics .............. 3 hrs

CONCENTRATION REQUIREMENTS

A minimum of 18 hours of courses chosen from one of the following four Focus Areas:

Focus Area A: Land Resources ..................................................... 18 hrs

**Required courses**

- **Enst 330** Land Use Planning & Management ... 3 hrs
- **Enst 340** Remote Sensing ................. 3 hrs
- **Enst 350** Environmental Law .............. 3 hrs

**Electives**

- **Anth 350** Prehistoric Archeology .............. 3 hrs
- **Biol 304** Ecology ......................... 4 hrs
- **Enst 203** Weather and Climate .............. 3 hrs
- **Enst 204** Landforms ......................... 3 hrs
- **Enst 310** Economic Geography .............. 3 hrs
- **Enst 325** Environmental Politics .......... 3 hrs
- **ESCI 332** Hazardous Waste Management ... 3 hrs
- **Geol 305** Introduction to GIS and Cartography ........ 4 hrs
- **Geol 350** Geomorphology .............. 3 hrs
- **Geol 370** Environmental Geology .......... 3 hrs
- **Geol 377** Field Geology* .................. 1 hr

*Note: can be taken up to three times.

Focus Area B: Naturalist ..................................................... 18 hrs

**Required courses**

- **Biol 304** Ecology ......................... 4 hrs
- **Enst 474** Principles of Environmental Education 2 hrs
- **Enst 486** Environmental Interpretation ... 2 hrs

**Electives**

- **Anth 350** Prehistoric Archeology .............. 3 hrs
- **Anth 370** Indians of North America ........ 3 hrs
- **Anth 430** Medical Anthropology .............. 3 hrs
- **Biol 353** Ornithology ......................... 3 hrs
- **Enst 340** Remote Sensing .............. 3 hrs
- **Enst 488** Environmental Literature and Representation of Nature ........ 3 hrs
- **ESCI 305** Intro to GIS and Cartography .... 3 hrs
- **Enst 488** Environmental Literature and Representation of Nature ........ 3 hrs
- **ESCI 315** Aquatic Ecosystems .............. 4 hrs
- **ESCI 420** Advanced Field Ecology ........ 4 hrs
- **Geog 203** Weather and Climate .............. 3 hrs
- **Geog 204** Landforms ......................... 3 hrs
- **Geol 342** Physical Oceanography .............. 3 hrs
- **OB 354** Organizational Behavior .......... 3 hrs
- **Hrm 405** Human Resource Policy and Administration 3 hrs

Choose one course from the following ......................... 3 hrs
- **Enst 201** ANTH 325 Anth of Env and Health .... 3 hrs
- **Enst 201** Cultural Ecology ......................... 3 hrs
- **Enst 300** Urban Geography .............. 3 hrs
- **Enst 310** Economic Geography .............. 3 hrs
- **Enst 325** Environmental Politics .......... 3 hrs
- **Enst 351** Environmental Economics .......... 3 hrs
- **Enst 381** Urban Economics .............. 3 hrs
- **Enst 487** Comparative Enviro Policy ........ 3 hrs
- **Enst 491** Ecological Economics .......... 3 hrs

Choose one course from the following ......................... 3 hrs
- **ENGL 488** Environmental Literature and Representation of Nature
- **PHIL 312** Environmental Ethics
Focus Area C: Resource Policy and Management

Required courses
- ENST 325 Environmental Politics ................. 3 hrs
- ENST 350 Environmental Law .......................... 3 hrs
- ENST 351 Environmental Economics ............. 3 hrs
OR
- ENST 491 Ecological Economics ..................... 3 hrs
- ESCI 304 Ecology ......................................... 4 hrs

Electives
- ECON 372 Economic Demography ................. 3 hrs
- ENST 310 Economic Geography ..................... 3 hrs
- ESCI 332 Hazardous Waste Management .......... 3 hrs
- ESCI 372 Energy Resources ........................... 3 hrs
- MATH 363 Introduction to Statistics ............... 3 hrs
- POL 300 Political Analysis ............................ 3 hrs
- POL 312 Legislative Process ........................... 3 hrs

Focus Area D: Urban Service

Required courses
- ECON 381 Urban Economics .......................... 3 hrs
- ESCI 305 Introduction to GIS and Cartography .... 3 hrs
- EXPS 410 Multiculturalism ............................ 3 hrs

Environmental Studies (ENST)

COURSE OFFERINGS

ENST 105 Concepts of Environmentalism
3. 000 TO 4. 000 Credits

Designed to explore the breadth and scope of the subject matter treated under the heading of the term "environment." The course will analyze a variety of topics from current readings, classical monographs, films, and television programs and will demonstrate the interdisciplinary nature of environmental problem solving. (F).

ENST 201 Cultural Geography
3. 000 Credits

Overview of the major components of culture such as language, religion, agriculture, settlement patterns, and related landscape features in a spatial context. Emphasis on how various cultures perceive and interact with the environment. (F).

ENST 203 Weather and Climate
3. 000 Credits

The controls and conditions of Earth's weather and climate including atmospheric circulation, precipitation processes, severe weather, climatic regions, and climatic change. (F).

ENST 204 Landforms
3. 000 Credits

Processes and agents that shape the landscapes and landforms of the Earth's surface. The discussion of landforms is divided into two parts: (1) constructive processes and their spatial distribution and (2) gradational processes and their spatial distribution. (W).

ENST 300 Urban Geography
3. 000 Credits

The geography of human settlement and urbanization. Particular emphasis is placed on human transformation of the physical environment, and resource use throughout history from ancient civilizations to modern megalopolises. Universal urban challenges such as sprawl, pollution, congestion, crime, poverty, etc., are addressed. (W).

ENST 301 Concepts of Environmentalism
3. 000 Credits

Designed to identify the underlying concepts of any environmental issue. The course will demonstrate the interdisciplinary nature of environmental problems solving through current readings, classical monographs and films. Students will conduct a system analysis of a household and a local community. This course will not be open to students who take ENST 105. (W).

ENST 305 Env Instrumentation and Analys
3. 000 Credits
Prerequisites: ENST 301

This course will survey the parameters which must be measured in order to properly assess the environment. Methods for the analysis of the biophysical as well as the social, psychological, and political environment will be studied. (W).

ENST 310 Economic Geography
3. 000 Credits

Spatial aspects of the ways people make their living. Discussion of the spatial distribution of resources and wealth at various scales. Introduction of site selection and location analysis. (W).

ENST 312 Environmental Ethics
3. 000 Credits
Prerequisites: PHIL 100 or PHIL 233 or PHIL 240* or ENST 105 or ENST 301

The relationship of human beings to the non-human environment raises pressing moral and political issues. This course will use the theories and concepts of philosophical ethics to explore such questions as human obligations to non-human animals; the preservation of wilderness; balancing economic, aesthetic, and spiritual values; and the problems of pollution, urban sprawl, and ecological justice. (F, YR).
ENST 320 Global Climate Change
3.000 Credits
Prerequisites: GEOG 203 or ENST 203

This course explores concepts and current thinking on global climate change and environmental impacts. It covers the history of Earth's climate, causes of climate change and current research attempting to forecast change. The biotic, economic, and social implications of climate change are discussed. (AY)

ENST 325 Environmental Politics
3.000 Credits
Prerequisites: POL 101

This course will examine the process of policy making on environmental and energy problems at the global level, at the national level, and at the local level. (AY).

ENST 330 Land Use Planning and Mgmt
4.000 Credits
Prerequisites: ESCI 275 or (BIOL 130 and GEOL 118)

Environmental aspects of land use planning, park planning, and site planning. Consideration of soils, groundwater, topography, and sensitive natural features and their role in determining land-use suitability. Examination of the mechanics and effectiveness of the planning process. Lecture and recitation. (AY).

ENST 340 Remote Sensing
3.000 Credits
Must be enrolled in one of the following Classes:
- Junior
- Senior
- Graduate
Prerequisites: GEOL 118

Methods of aerial photography and satellite data collection. Emphasis is on techniques of mapping and interpretation of topographical maps, aerial photographs, and satellite imagery. (F).

ENST 351 Environmental Economics
3.000 Credits
Prerequisites: ECON 202

This course examines the economic aspects of pollution problems. Topics covered include the economic theory of externals, the theory of the commons, the theory of public goods, and the optimum use of depletable natural resources. The role of cost-benefit analysis as an intricate part of the decision-making process will also be thoroughly examined. (AY).

ENST 365 Environmental Psychology
3.000 Credits
Prerequisites: PSYC 170 or PSYC 171

A survey of the contributions of the behavioral sciences to the understanding and solution of environmental problems that threaten our survival. Insights derived from psychology, anthropology, and computer sciences are discussed. Major topics include overpopulation, overconsumption, "future shock," cognitive limitations in our understanding of ecological-political systems, and the use of Skinnerian behavior control. (AY).

ENST 385 Environmental Internship
1.000 TO 9.000 Credits
Must be enrolled in one of the following Classes:
- Junior
- Senior
- Graduate

A field assignment relating to the student's environmental interests. The student will work in an off-campus government or private business for a prescribed number of hours each week to be arranged by the advisor and employer. May be repeated up to three times. Written permission of instructor.

ENST 390 Topics in Environmental Stds
1.000 TO 9.000 Credits

Examination of problems and issues in selected areas of environmental studies. Title listed in the Schedule of Classes will change according to the content. Course may be repeated for credit when specific topics differ.

ENST 395 Sem on Environmental Issues
1.000 Credits

Readings, discussions, and presentations which examine current environmental issues. One hour seminar. Written permission of instructor. (YR).

ENST 436 Human Ecology
3.000 Credits

Deals with the forms and modes of change of social structure and culture, as affected by interactions with environment, population, and technology. Emphasis is given to territorially based social structures.

ENST 445 Environmental Law
3.000 Credits
Must be enrolled in one of the following Levels:
- Undergraduate
May not be enrolled in one of the following Classes:
- Sophomore
- Freshman

A survey of common law theories and analysis of environmental statutes from a functional perspective. The course also includes environmental law aspects of constitutional law, administrative law and criminal law, as well as the public trust doctrine and public lands. Student cannot receive credit for both ENST 350 and ENST/POL 445.

ENST 456 Ecological Economics
3.000 Credits
Must be enrolled in one of the following Levels:
- Undergraduate
Must be enrolled in one of the following Classes:
- Senior
- Junior
Prerequisites: (ECON 201* or ECON 202*) and ENST 301*

A review of major theories and issues concerning the relationship between ecological and economic systems. Topics include these questions: What is the purpose of economics activity? How important is the preservation of the natural world compared to the production of economic goods? How do principles of social and intergenerational equity affect the use of resources and choice of goods to be produced? The course utilizes a transdisciplinary approach in the development of new models where conventional economics and ecology alone have been ineffective in addressing questions of sustainability and equity. (AY).
ENST 474  Environmental Education  
2.000 TO 3.000 Credits
An analysis of environmental education at elementary and secondary levels, particularly stressing the environment as a teaching resource. Community resources as they relate to environmental education are also investigated. (AY).

ENST 485  Seminar in Environ Topics  
2.000 Credits
A seminar course taken during the student's senior year to provide an opportunity for students with diverse environmental interests to interact and synthesize the information and skills acquired during their previous studies. (W).

ENST 486  Environmental Interpretation  
2.000 TO 3.000 Credits
Course deals with the interpretation of the environment, its characteristics, and its presentation to school groups as well as to the general public. Intended to acquaint students with a variety of skills and techniques necessary for interpreting the environment to others. Extensive use is made of the UM-Dearborn Environmental Study Area. (AY).

ENST 487  Comparative Enviro Policy  
3.000 Credits
Must be enrolled in one of the following Classes: Senior Junior
This course explores environmental policy as a result of political processes involving diverse participants and entailing movement through several stages from defining an issue as an environmental problem to placing it on political agenda and then receiving a response at domestic governmental or international levels. This course analyzes environmental issues from a cross-cultural and comparative perspective, with a particular attention given to political institutions, political change, levels of development, political culture, public participation, and international commitments that shape the nature and dynamics of environmental politics and policy in different countries.

ENST 488  Env Lit & Reps of Nature  
3.000 Credits
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 270) and (ENGL230 or ENGL 200 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL236 or ENGL 237 or ENGL 239)
An interdisciplinary study of the ways in which the relationship between "nature" and humankind has been represented in literature and other forms of cultural expression. Emphasis on American and British texts of the 19th centuries, but assigned materials may include readings from other cultures and historical periods.

ENST 490  Dir Research in Envir Studies  
1.000 TO 6.000 Credits
This course will provide students with an opportunity to conduct an independent research investigation on topics in environmental studies under the direction of various faculty members. The results will be presented in a paper and public seminar. May be repeated.

ENST 491  Topics in Environmental St  
3.000 Credits
The examination of problems and issues in selected areas of environmental studies. The title listed in the Schedule of Classes will change according to the content. The course may be repeated for credit when the specific topic differs. Also offered for graduate credit. (OC).

ENST 497  Seminar in Environmental Sci  
1.000 Credits
Readings, discussions and presentation of research in selected areas of study. One hour seminar.

ENST 498  Independent Study  
1.000 TO 3.000 Credits
Readings or analytical assignments in accordance with the needs and interests of those enrolled and agreed upon by the student and instructor, which shall not duplicate a formal course offering. Permission of instructor.

ENST 499  Independent Study  
1.000 TO 3.000 Credits
Readings or analytical assignments in accordance with the needs and interests of those enrolled and agreed upon by the student and instructor, which shall not duplicate a formal course offering. Permission of instructor.

Film Studies  
(minor only)

Designed as an interdisciplinary program, the minor provides an intellectually challenging and cross-culturally oriented approach to the study of cinema.

MINOR OR AREA OF FOCUS
In order to minor in Film Studies, a student must fulfill the following requirements:

Prerequisite
Either Film 240: Film and Society or Film 248: Introduction to Screen Studies

Required courses
15 credits in upper-level courses, at least 9 of which should be from the list of courses below.

JASS 240: Film and Society  
JASS 248: Introduction to Screen Studies
JASS 336: Film and Music  
JASS 357: National Cinemas  
JASS 370: Narratives of Film and Lit  
JASS 385: Black Cinema  
JASS 387: Film and Feminisms  
JASS 406: History & Theory of Documentary  
JASS 457: American Cinema  
JASS 467: Script-Writing Workshop  
JASS 477: Ethnographic Film

JASS students may also elect to take the following courses for upper-level credit: FREN 332: French Cinema, FREN 333: From Novel to Screen, SPAN 450: Hispanic Cinema, JASS 350: Television Production, JASS 315: Writing for Electronic Media, or GER 374: The History of German Cinema.
Films Studies (FILM)
COURSE OFFERINGS

Please see Journalism and Screen Studies for descriptions of the film studies courses listed above.

French/French Studies
(See also International Studies Concentration)

UM-Dearborn offers undergraduates two degree programs involving French: International Studies and French Studies. Both are designed to enable concentrators to take practical advantage of the study of one of the world's leading languages and cultures. As they complete their degree requirements, International and French Studies concentrators acquire knowledge and skills that prepare them for careers in numerous fields, both in the United States and abroad.

Students who do not concentrate in International Studies or French Studies may wish to choose French as a minor or an area of focus.

FRENCH STUDIES CONCENTRATION

The concentration in French Studies offers students a thorough training in the language and culture of the more than 200 million people who live in France and other Francophone areas in the world. In so doing, it familiarizes them with a vital and influential tradition in literature and the arts which spans twelve centuries and a language of importance in the realms of business, politics, science and technology.

French Studies recognizes the need to provide today's students with a much broader education in French than that afforded by traditional degrees devoted primarily to literature. Consequently, it requires concentrators to complete coursework in four general areas: language (including the specialized language of business) culture/civilization, film, as well as literature. For the same reason, French Studies takes as its purview the French-speaking world as a whole. Although it places emphasis on France, the concentration also provides an introduction to the other French-speaking countries of Europe, Asia, Africa, and North and South America which are playing roles of increasing prominence in global affairs.

As designed, the French Studies Program offers graduates a wide variety of educational and employment possibilities. It prepares them for careers in government service, in print and electronic journalism, and in language-related professions such as translating and interpreting. It also enables them to enter the teaching profession and to pursue advanced study in French at the master's and doctoral level. With supplementary training in areas such as political science, law, and management, graduates of the program could embark on careers in international affairs, law, and business.

PREREQUISITES TO THE CONCENTRATION

Students concentrating in French Studies must successfully complete FREN 202 or demonstrate equivalent French language proficiency.

CONCENTRATION REQUIREMENTS

A minimum of 24 credit hours in upper-division French classes must be completed as outlined below.

Required courses .................................................. 6 hrs
FREN 301 Advanced Conversation and Composition I
FREN 302 Advanced Conversation and Composition II

One specialized language course .................................... 3 hrs
FREN 305 Language of Business
FREN 306 Cultural Introduction to French Business
FREN 408 Writing and Translating

One civilization/culture course ...................................... 3 hrs
FREN 336 French Civilization of Past
FREN 337 France in the 20th Century
FREN 338 France of Today
FREN 339 Francophile Literature and Civilization

One film course ...................................................... 3 hrs
FREN 332 French Cinema
FREN 333 From Novel to Screen

One literature course ............................................... 3 hrs
FREN 330 French Literature: Middle Ages-18th Century
FREN 331 French Literature: 19th - 20th Century
FREN 333 From Novel to Screen
FREN 334 Workshop in French Theater
FREN 339 Francophile Literature and Civilization
FREN 433 Contemporary French Theater

Two additional upper-level French courses 6 hrs

Notes
FREN 333 and FREN 339 are listed under two headings. Students may count them under one or the other of the headings as they wish, but not under both. Concentrators are encouraged to strengthen their knowledge of French language and culture by participating in any of the approved study-abroad programs.

Cognates ............................................................... 6 hrs
Students must complete at least six additional hours of upper-level coursework, approved by an advisor, in appropriate disciplines in the Behavioral Sciences, Humanities, and Social Sciences Departments. Students may consider taking the Humanities Internship as one of their cognate courses.

MINOR OR AREA OF FOCUS

A minor or area of focus consists of 12 hours of upper-division credit (300-400 level) in French.

French (FREN)
COURSE OFFERINGS

FREN 101  Beginning French I  . 000 OR 4. 000 Credits
Prerequisites:

First course in a two-course elementary French sequence. Listening comprehension, speaking, reading, writing, and culture are emphasized. Course materials promote the use of language to communicate with others and to function in the French-speaking world. (F).
FREN 102 Beginning French II
.000 OR 4.000 Credits
Prerequisites: FREN 101 or FPL 102 or FPL 201 or FPL 202 or FPL 301 or FPL 302

Second course in the two-course elementary sequence. Continued emphasis on culture and the four skills of listening, speaking, reading, and writing. (W).

FREN 201 Intermediate French I
.000 OR 4.000 Credits
Prerequisites: FPL 201 or FPL 202 or FPL 301 or FPL 302 or FREN 102

An intermediate language course designed to increase the student's ability to read, speak, and write French. The course will utilize a wide range of reading selections representative of modern French prose as the basis for class discussions and written assignments. A systematic review of grammar and oral exercises should enable the student to make definite progress in conversation and composition. (F).

FREN 202 Intermediate French II
.000 OR 4.000 Credits
Prerequisites: FREN 201 or FPL 201 or FPL 202 or FPL 301 or FPL 302 or FREN 102

Continuation of FREN 201. Further readings in modern French prose, extensive practice in conversation and composition. (W).

FREN 234 French Conversation
1.000 TO 2.000 Credits
Prerequisites: FREN 102

Development of conversational skills through discussion of contemporary readings and the use of communicative activities and games. Emphasis will be placed on vocabulary acquisition by students, on improving their pronunciation, and on increasing their overall fluency in French. (S).

FREN 235 French Conversation and Culture
2.000 Credits
Prerequisites: FREN 102

Intensive practice in developing conversational skills through a coordinated program of classroom and field activities in France. Students will read and discuss current materials of various sorts and will perform skits and other oral exercises designed to increase their fluency in French. A series of planned, extracurricular activities (visits to museums and historical monuments, viewing of plays, interviews of average Frenchmen) will enable students to profit from direct contact with the French and their culture.

FREN 290 Topics in French
1.000 TO 3.000 Credits

Examination of problems and issues in selected areas of French. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

FREN 301 Advanced Conversation and Comp
3.000 Credits
Prerequisites: FREN 202 or FPL 301 or FPL 302

An advanced course in conversation, composition, and syntax. Numerous oral reports and weekly written assignments based on readings from current sources; discussion of a recent French motion picture; translation exercises and the study of specific topics in French grammar. (F).

FREN 302 Advanced Conversation and Comp
3.000 Credits
Prerequisites: FREN 301 or FPL 302 or FPL 302

Continuation of FREN 301. (W).

FREN 305 Language of Business
3.000 Credits
Prerequisites: FREN 301

A systematic presentation of the vocabulary and conventions of business French. Students will receive extensive training in composing business letters, reports, vitas, and similar texts. They will be exposed to French practices in correspondence, accounting and record keeping. They will also be required to translate various business documents from English to French (and vice versa) and to familiarize themselves with the specialized vocabulary of computers. (OC).

FREN 306 Cult Intro to French Business
3.000 Credits
Prerequisites: FREN 301

An introduction to the practices and organization of the French business world. Students will learn how a typical French firm is structured and how business is normally conducted in France. Special attention will be given to those differences in organization and operation which contrast French businesses with our own. The class will also examine the impact of history and general cultural attitudes on French business practices of today. (OC).

FREN 308 Advanced Writing
3.000 Credits
Prerequisites: FREN 301

Intensive practice in writing expository prose in French. Students will complete a wide variety of writing assignments (resumes, critical analyses, explications de texte, and the like) over the course of the semester. Class sessions will be devoted to the discussion of student papers and technical issues related to effective writing. Students should expect to prepare several drafts of each assignment under the close supervision of the instructor. (OC).

FREN 330 French Lit: Med Ages-18 Century
3.000 Credits
Prerequisites: FREN 301

A survey of French literature through the Enlightenment based on the study of individual masterpieces of principal French authors: Villon, Rabelais, Montaigne, Pascal, Moliere, Racine, Montesquieu, Voltaire, and Rousseau. (OC).

FREN 331 French Lit: 19th-20th Century
3.000 Credits
Prerequisites: FREN 301

The sequel to FREN 330. A survey of French literature from Romanticism to the Theater of the Absurd and the nouveau roman. Writers studied will include Balzac, Stendhal, Baudelaire, Flaubert, Proust, Gide, Camus, Sartre, Beckett, and Sarraute. (OC).
FREN 332   French Cinema  
3.000 Credits  
Prerequisites: FREN 301

A survey of French films from the experiments of the turn of the century to the trends of the present day. Representative silent films, "classic" and "new-wave" movies of the 1930's and 50's, as well as contemporary productions will be presented in their cultural context and the contributions of major French directors to filmmaking will be highlighted. Attention will also be given to the basic elements of film as a means of expression: camera angle, distance, movement, and editing. (OC).

FREN 333   From Novel to Screen  
3.000 Credits  
Prerequisites: FREN 301

A consideration of classic film versions of French prose fiction with attention to the theoretical questions raised by translation from written to visual form. Works by Renard, Maupassant, Daudet, Duras, and Pagnol and their filmed versions by such directors as Duvivier, Renoir, Pagnol, Resnais, and Berri will be studied. (OC).

FREN 334   Workshop in French Theater  
3.000 Credits  
Prerequisites: FREN 301

This course will provide a brief survey of representative masterpieces of the French theater. Students will be required to read and analyze number of celebrated plays and then to perform selected scenes from them. (OC).

FREN 336   French Civilization of Past  
3.000 Credits  
Prerequisites: FREN 301

An introduction to the civilization of France (from the Middle Ages to the 20th Century). This course will examine the social and historical developments and the accomplishments in the arts and literature that have combined to shape the French nation.

FREN 337   France in the 20th Century  
3.000 Credits  
Prerequisites: FREN 301

An introduction to France of the Third, Fourth, and Fifth Republics. This course will examine the major political, social, and economic issues of France of the 20th Century as well as its contributions to literature and the arts. (OC).

FREN 338   France of Today  
3.000 Credits  
Prerequisites: FREN 301

An exploration of various facets of contemporary French civilization. Although students will consider historical and political developments since World War II, special attention will be given to the values and attitudes of the French, to the contrasting modes of life in Paris and the provinces, and to important forms of popular culture. (OC).

FREN 339   Francophone Lit and Civil  
3.000 Credits  
Prerequisites: FREN 301

An introduction to twentieth-century award-winning texts from the Caribbean, Canada, North Africa and West Africa. Students will analyze the strategies through which these powerful, dramatic, post-colonial writers address such issues and themes of universal relevance as love and the search for identity, while also expressing the experience and culture realities of his or her own country. Representative authors include Birago Diop, Simone Schwartz-Bart, Arlette Coustre, Anne Hebert, Roch Carrier, Michel Tremblay, and Tehar Ben Jelloun. (OC).

FREN 385   French Across the Curriculum  
1.000 Credits  
Prerequisites: FREN 202

Course is attached to an upper-level course in another discipline and taken concurrently with it. Course materials in French are related to the subject matter of the second course and are discussed with a French-area faculty member. Materials are also integrated into the assignments of the second course. (F, W).

FREN 399   Independent Studies  
1.000 TO 3.000 Credits

Readings or analytical assignments in the humanities in accordance with the needs and interests of those enrolled and agreed upon by the student and advising instructor. May be repeated for a maximum of 6 credit hours. (F, W).

FREN 408   Writing and Translating  
3.000 Credits  
Prerequisites: FREN 301 and FREN 302

A course designed to increase the written fluency of students who have already assimilated the advanced grammatical concepts introduced in the 301-302 sequence. Students will prepare weekly written assignments and will translate and analyze passages written in various styles. (OC).

FREN 433   Contemporary French Theater  
3.000 Credits  
Prerequisites: FREN 301 and (FREN 302 or FREN 305 or FREN 306 or FREN 308 or FREN 330 or FREN 331 or FREN 332 or FREN 333 or FREN 334 or FREN 336 or FREN 337 or FREN 338 or FREN 339 or FREN 385)  

An examination of various facets of contemporary French theater. Particular emphasis will be placed on the way the Theater of the Absurd expresses the senselessness and absurdity of the human condition. Authors such as Cocteau, Sarte, Anouilh, Giraudoux, Ionesco, Beckett, and Vian will be studied. (OC).

FREN 490   Topics in French  
1.000 TO 3.000 Credits  
Examination of problems and issues in selected areas of French. Title as listed in the Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

General Studies  
(see Bachelor of General Studies: Two plus Two requirements)
Geography (GEOG)  
(not a field of concentration)
COURSE OFFERINGS

GEOG 201 Cultural Geography  
3. 000 Credits
Overview of the major components of culture such as language, religion, agriculture, settlement patterns, and related landscape features in a spatial context. Emphasis on how various cultures perceive and interact with the environment. (F).

GEOG 203 Weather and Climate  
3. 000 Credits
The controls and conditions of Earth's weather and climate including atmospheric circulation, precipitation processes, severe weather, climatic regions, and climatic change. (F).

GEOG 204 Landforms  
3. 000 Credits
Processes and agents that shape the landscapes and landforms of the Earth's surface. The discussion of landforms is divided into two parts: (1) constructive processes and their spatial distribution and (2) gradational processes and their spatial distribution. (W).

GEOG 205 Geography of the United States  
3. 000 Credits
A regional analysis of the United States that stresses the difference in the physical elements of landscapes that explain differences in economic development, cultural attainment, and land use and which, in turn, motivate regional interdependencies and interrelationships. (W).

GEOG 206 World Regional Geography  
3. 000 Credits
World Regional Geography includes a systematic study of the world's geographic realms and regions, including Europe, Russia, Australia-New Zealand, East Asia, South Asia, Southwest Asia, N Africa, Subsaharan Africa, Middle and South America. Geographic concepts, such as map reading and spatial analysis, are first introduced. Then, the world is classified into geographic realms and regions using both physical and social criteria. Each region results from a unique interaction between the human societies and the physical environment. The physical, cultural, political, economic and social features of each region are studied, along with any special regional concerns or problems.

GEOG 207 Physical Geography  
3. 000 Credits
The geography of human settlement and urbanization. Particular emphasis is placed on human transformation of the physical environment, and resource use throughout history from ancient civilizations to modern megalopolises. Universal urban challenges such as sprawl, pollution, congestion, crime, poverty, etc., are addressed.

GEOG 209 Mapping Our World  
3. 000 Credits
An overview of modern cartography and the important roles maps play in today's world. This course will introduce the students to basic mapping concepts, map interpretation and map analysis, different types of maps, the use of remotely sensed and digital data in mapping, principles of map design, and map making. Students who have taken GEOG 202 cannot take this course for additional credit.

GEOG 305 Intro to GIS  
4. 000 Credits
Co-requisites: GEOG 305L
The basic elements of geographic information systems, map interpretation and map design. Principles and methods of spatial data collection, analysis, and display are introduced. (W)

GEOG 307 Geography of Western Europe  
3. 000 Credits
An analysis of the strengths, weaknesses, interrelationships, and interdependence of selected countries of this economically advanced region. (OC).

GEOG 310 Economic Geography  
3. 000 Credits
Spatial aspects of the ways people make their living. Discussion of the spatial distribution of resources and wealth at various scales. Introduction of site selection and location analysis.

GEOG 315 Political Geography  
3. 000 Credits
The spatial dimensions of political activity from the local to the global scale. Themes include: control of territory, relations among political entities, and political ideology.

GEOG 320 Global Climate Change  
3. 000 Credits
Must be enrolled in one of the following Classes:  
   Senior  
   Sophomore  
   Freshman  
   Junior  
Prerequisites: GEOG 203 or ENST 203
This course explores concepts and current thinking on global climate change and environmental impacts. It covers the history of Earth's climate, causes of climate change and current research attempting to forecast change. The biotic, economic, and social implications of climate change are discussed. (AY)

GEOG 390 Topics in Geography  
1. 000 TO 3. 000 Credits
Selected topics to be announced. (OC).

GEOG 399 Independent Study  
1. 000 TO 3. 000 Credits
Readings or analytical assignments in accordance with the needs and interests of those enrolled and agreed upon by the student and the advising instructor.

Geology  
(minor only, see Earth Science for concentration)
MINOR OR AREA OF FOCUS
A minor or area of focus consists of 12 hours of upper-division credit in geology.
<table>

</tbody>
</table>
A course in special topics current to the field of geology. Topics and format for the course may vary. See current Schedule of Classes. (OC).

**GEOL 440 Advanced GIS Applications**
3.000 Credits  
Prerequisites: GEOL 118 and (GEOL 305 or GEOL 302)

Advanced applications of GIS in the Geosciences. Topics include raster-based modeling, visualization techniques, geostatistics and various spatial analysis tools that are used to solve real world problems in the geosciences. Topics include various geologic hazards, pollutions, impact of climate change and other environmental/geologic phenomena.

**GEOL 475 Contaminant Hydrogeology**
3.000 Credits  
Must be enrolled in one of the following Classes:  
- Senior  
- Junior  
Prerequisites: GEOL 375

Advanced lecture treatment of selected topics in subsurface hydrology including contaminant transport and fate of organic and inorganic constituents, aquifer test analysis, and the use of modeling in the analysis of selected case histories. (AY).

**GEOL 490 Advanced Topics in Geology**
3.000 Credits  
Current topics from various areas in pure and applied geosciences will be reported upon by students, faculty and guest speakers. May include extended field trips. (OC).

**German (minor only, but see International Studies concentration)**

**MINOR OR AREA OF FOCUS**
A minor or area of focus consists of 12 hours of upper-division credit (four courses at the 300-400 level) in German.

**German (GER)**

**COURSE OFFERINGS**

**GER 101 Beginning German I**  
0.000 OR 4.000 Credits  
Prerequisites:  
First course in a two-course elementary German sequence. Listening comprehension, speaking, reading, writing, and culture are emphasized. Course materials promote the use of language to communicate with others and to function in the German-speaking world. (F).

**GER 102 Beginning German II**  
0.000 OR 4.000 Credits  
Prerequisites: GER 101 or GPL 102 or GPL 201 or GPL 202 or GPL 301 or GPL 302

Second course in the two-course elementary sequence. Continued emphasis on culture and the four skills of listening, speaking, reading, and writing. (W).

**GER 105 Conversational German**
2.000 Credits  
The course is designed to help students develop basic oral communication skills in German. Emphasis is on a maximum use of spoken German in real or simulated everyday situations during each class period. The essentials for grammar will be taught through patterns rather than analytical presentation. May not be used to fulfill the symbolic language requirement.

**GER 201 Intermediate German I**
4.000 Credits  
Prerequisites: GER 102 or GPL 201 or GPL 202 or GPL 301 or GPL 302

An intermediate language course in speaking, reading, and writing German. Class assignments and discussions will be based on a wide variety of material ranging from German language films to anthologies of German prose. There will be a review of grammar, but emphasis is on reading and discussion.

**GER 202 Intermediate German II**
4.000 Credits  
Prerequisites: GER 201 or GPL 202 or GPL 301 or GPL 302

A continuation of GER 201, with an even greater emphasis on reading and speaking. (W).

**GER 234 German Conversation**
1.000 TO 2.000 Credits  
Prerequisites: GER 102

Development of conversational skills through discussion of contemporary readings and the use of communicative activities and games. Emphasis will be placed on vocabulary acquisition by students, on improving their pronunciation, and on increasing their overall fluency in German. (OC).

**GER 301 Adv Conversation and Comp**
3.000 Credits  
Prerequisites: GER 202 or GPL 301 or GPL 302

Advanced conversation and composition primarily based on current sources. Frequent essays and oral reports in German. (F).

**GER 302 Adv Conversation and Comp**
3.000 Credits  
Prerequisites: GER 301 or GPL 302

Advanced conversation and composition primarily based on current sources. Frequent essays and oral reports in German.

**GER 305 Language of Business**
3.000 Credits  
Prerequisites: GER 301

The course will familiarize the student with the general vocabulary and form of business correspondence in German, general business conventions in the German-speaking countries as well as with some major specific areas of business such as banking, auto, chemical, tourism, etc. (AY).
An in-depth study of current specific business practices as carried on between English and German speaking businesses and agencies. Learning to understand the German's business strategies and business attitudes, the focus is on developing cultural sensitivity towards the needs and national practices of German business. Liaison will be established with German/American businesses in this area. Can be taken with or without GER 305. (OC)

GER 371 Germ Lit: Classic and Romantic
3.000 Credits
Prerequisites: GER 301
Readings include works by Lessing, Schiller, Goethe, Meist, E. T. A. Hoffmann, and Novalis. Analyses in lectures, discussion and writing will try to illuminate the works themselves and the world views of their age. (AY).

GER 372 Introduction to German Lit
3.000 Credits
Prerequisites: GER 301
A survey of German Literature from 19th century realism to the contemporary post-modernism and neo-realism. Writers studied will include both canonical and non-canonical authors, for example, Gerhard Hauptmann, Marie-Luise Fleisser, Georg Kaiser, Irmgard Keun, Bertolt Brecht, Anna Seghers, Ilse Aichinger, and Christa Wolf. The class will be a combination of lecture and discussion with a substantial writing component.

GER 374 The History of German Cinema
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
May not be enrolled in one of the following Colleges:
No College Designated
Must be enrolled in one of the following Classes:
Senior
Sophomore
Freshman
Junior
Prerequisites: GER 301
In this course, we explore the history of German cinema through primary and secondary texts on films from the silent period through unification. Concomitantly, we will read a Mary Fulbrook's history of Germany in order to place these films within the proper historical contexts and in order to enable us to examine the ways in which German history has insinuated itself in all film genres. The film section highlights the major movement in German cinema since its inception and gives particular attention to the representations of German history and the ways in which German history makes itself apparent in a variety of genres. The class will also consider the interactions between German cinema and Hollywood through clips highlighted in lectures and student presentations. (OC).

GER 376 Contemporary German Cultures
3.000 Credits
Prerequisites: GER 301
An exploration of the assumptions which underlie everyday life in German-speaking countries (Federal Republic of Germany, Austria, Switzerland). Topics include social intercourse, school systems, medicine, citizens' understanding of nation, and individuals' relationship to space. (YR).

GER 377 German Culture & Civilization
3.000 Credits
Prerequisites: GER 301
An introduction to the civilization of the German-speaking countries of Europe from the Middle Ages to the 20th Century. The course examines the arts, history, culture, and institutions that have shaped the Germanic societies.

GER 380 Praktikum
1.000 Credits
Prerequisites: GER 301
This course will be offered in conjunction with a 300- or 400-level German literature, film, or cultural course in translation taught by a member of the German faculty. The one-credit course will be conducted entirely in German. Students will develop their language skills dealing with the topics of the course in translation. They will also be required to read related texts in German. Students who successfully complete the Praktikum and the corresponding German in translation course can receive four credits of German. The topics will vary depending on the English language content course. Students must be concurrently registered in appropriate 300- or 400-level courses taught by a German instructor. (OC).

GER 385 German Across the Curriculum
1.000 Credits
Prerequisites: GER 202
Course is attached to an upper-level course in another discipline and taken concurrently with it. Course materials in German are related to the subject matter of the second course and are discussed with a German-area faculty member. Materials are also integrated into the assignments of the second course. (F, W).

GER 387 German Across the Curriculum
1.000 Credits
Prerequisites: GER 202
Course is attached to an upper-level course in another discipline and taken concurrently with it. Course materials in German are related to the subject matter of the second course and are discussed with a German-area faculty member. Materials are also integrated into the assignments of the second course. (F, W).

GER 390 Topics in German
1.000 TO 3.000 Credits
Examination of problems and issues in selected areas of German. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

GER 398 Ind Studies in German Lit
1.000 TO 3.000 Credits
Readings or analytical assignments in German selected in accordance with the needs and interests of those enrolled.

GER 399 Ind Studies in German Lit
1.000 TO 3.000 Credits
Readings or analytical assignments in German selected in accordance with the needs and interests of those enrolled.

GER 490 Topics in German Lit and Civ
3.000 TO 4.000 Credits
Examination of problems and issues in selected areas of German studies. Title as listed in the Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

GER 499 Adv Individual Proj in German
1.000 TO 4.000 Credits
Must be enrolled in one of the following Classes:
Senior
Graduate
Advanced individual study project in German language, literature, or civilization may be pursued under the direction of a faculty supervisor. (OC).
Greek
(not a field of concentration, see Modern and Classical Languages)

Health Policy Studies

The study of social factors and their relationship to the health care system has become increasingly important in recent decades. It is now widely accepted that understanding the social dimensions of health, illnesses, and the health care system is crucial for all the health-related professions and for an informed consumer citizenry as well.

In recognition of its importance, the UM-Dearborn offers a Bachelor of Arts concentration in Health Policy Studies. This program provides future health professionals with a strong behavioral and social science orientation but also draws on resources in humanities, management, education and engineering. Students study important perspectives that enable them to broaden and deepen their understanding of health care and health systems. The objective is to provide students with analytic frames of reference, as well as research and evaluation approaches that illuminate issues and provide a good basis for approaching problems the health care delivery field. These include the economics and politics of health care delivery, sociological perspectives, cross-cultural comparisons of health care systems, ethical considerations, computer applications, and practical work in aspects of the American system. Much of the course work is developed around a policy orientation.

Students participate in undergraduate coursework that prepares them for health-related work, strengthens their position for admission to graduate programs, and enhances professional socialization. This program is intended for students interested in health services administration, health policy and planning and the health professions such as medicine, dentistry and nursing.

Health Policy Studies (HPS) is not only a major, it is also available as a minor and as an area of focus for the Bachelor of General Studies (BGS) and the Bachelor of Arts in Liberal Studies.

JOINT PROGRAMS WITH COMMUNITY COLLEGE DEGREES IN ALLIED HEALTH AND NURSING

Students who have completed an Associate Degree program from an accredited community college in Nursing (RN) or Allied Health (including, inter alia, Health Information Technology, Health Services Manager, Medical Assistant, Pharmacy Technician, Physical Therapist Assistant, Radiography Technician, Respiratory Therapy Assistant, Surgical Technology, and Diagnostic Medical Sonographer), with an overall GPA of 2.5 or higher, may apply for admission to Health Policy Studies through the joint program. Students who have been accepted will be able to transfer up to 62 credit hours of their Associate’s Degree program toward an AB in Health Policy Studies.

Students transferring into HPS under the joint program will have to complete distribution requirements, including prerequisites to the concentration, concentration requirements and an HPS track, as set forth in the next sections. The transferred allied health and nursing courses may only be used for the HPS bachelor’s degree; that is, a student who comes to UM-Dearborn through the joint program, but subsequently changes majors from HPS will lose many of the 62 transferred credit hours, retaining only those course credits that would otherwise transfer to UM-Dearborn.

PREREQUISITES TO THE CONCENTRATION

The following courses fulfill distribution requirements as well as serve as prerequisite courses for certain HPS core courses.

SOC 200 (preferred) OR SOC 201
ECON 2001 OR 201
Any 100 or 200 level PHIL course (PHIL 240 preferred)
POL 101

CONCENTRATION REQUIREMENTS

The Bachelor of Arts in Health Policy Studies includes three components of requirements: CASL General Education Distribution Requirements (approximately 42 credit hours—HPS students are required to take 6 credit hours in the Behavioral and Social Analysis Area of Inquiry, instead of the usual 9 hours) within which certain prerequisites are taken; Health Policy Studies Core Courses (31 hours) and one of several tracks (15 hours). The degree, like other CASL degrees, requires a minimum of 120 hours, 48 of which are upper division.

Health Policy Studies Core

All HPS majors take 31 hours of core courses. HPS 440 Medical Sociology, should be taken first as it is intended as a gateway course to Health Policy Studies. HPS 410 Social Research Methods, should also be taken early on, as it shows students how to read scientific articles and familiarizes students with basic statistics. HPS 402 Health Policy Studies Senior Seminar is a capstone course for the major, bringing together the various issues raised in the program and looking at both the past and the likely future of the health care system, hence students should enroll for this course after they have taken most of the other HPS courses. HPS 401 Health Policy Studies Internship should be taken in the senior year.

Health Policy Studies Tracks
All HPS majors take a 12 credit hour track. These tracks provide training in areas directly applicable to careers in health care services. Increased public interest in the American health care system has created a demand for administrators in hospitals, neighborhood clinics, long-term care facilities, group practices, ambulatory facilities, managed care entities such as health maintenance organizations (HMO) and preferred provider organizations. Employment in such organizations may require specialized training in management and the social and behavioral sciences.

Students with an eye toward the occupations within these organizations will find an optimal combination of background and skill through completing one of the tracks, below, and thus improve their chances of working successfully in the health care field or enhance their chances of admission to graduate programs.

Some of the courses in the tracks within the College of Business require additional prerequisites, such as accounting courses, ACC 298 and ACC 299; or Principles of Microeconomics, ECON 202; or MIS or CIS introductory courses. Other tracks also include courses that have prerequisites, such as CHEM 225 or BIOL 140.

Health Planning Track
Four courses from the following list*

- ANTH 415 Nutrition and Human Development
- ANTH 430 Medical Anthropology
- BIOL 380 Epidemiology
- BIOL 390 Topics (when applicable to health planning)
- CHEM 352 Introduction to Toxicology
- HPS 405 Administrative Culture and Representation in Health and Human Services
- IMSE 334 Organization of Hospital Systems
- POL 311 Interest Groups
- POL 312 Legislative Process
- POL 360 American Policy Processes
- PSYC 412 Psychology of Aging
- PSYC 413 The Psychology of Death and Dying
- PSYC 455 Health Psychology
- SOC 350 Poverty and Inequality
- SOC 422 Structure of American Society
- SOC 423 American Social Classes
- SOC 426 Society and Aging
- SOC 450 Political Sociology
- SOC 457 Family, Aging and the Law
- SOC 483 Images of Organizations

*Note: Courses used to fulfill HPS Core requirements may not also be used to fulfill Track Requirements.

Health Behavior and Health Education Track
Four courses from the following list*

- ANTH 340 Race and Evolution
- ANTH 415 Nutrition and Human Development
- ANTH 430 Medical Anthropology
- BIOL 380 Epidemiology
- EDC 300 Educational Psychology
- HPS 405 Administrative Culture and Representation in Health and Human Services
- SOC 447 Family Violence
- PSYC 4725 Motivation and Behavior

No more than one from the following three courses

- PSYC 300 Life Span Developmental Psychology
- PSYC 302 Psychology of Child Development
- PSYC 412 Psychology of Aging

Management Information Systems Track

- MIS 310 Information Systems in Management
- MIS 321 Database Systems I
- MIS 331 Information Systems Development
- MIS 351 Networking and Collaborative Computing

*Note: Courses used to fulfill HPS Core requirements may not also be used to fulfill Track Requirements.

Human Resources Track
Four courses from the following list

- HRM 405 Human Resource Policy and Administration
- HRM 406 Staffing, Training and Development
- HRM 407 Compensation and Performance Management
- HRM 408 Management-Union Relations
- OB 354 Behavior in Organizations
- OB 401 Management Skills Development
- OB 402 Organizational Change and Development
- OB 485 Seminar: Organizational Behavior

Marketing Track
Four courses from the following list

- ENT 400 Introduction to Entrepreneurship
- MKT 352 Marketing Principles and Policies
- MKT 382 Consumer Behavior
- MKT 402 Marketing Management
- MKT 436 Business to Business Marketing
- MKT 456 Advertising and Sales Promotion
- MKT 454 Marketing Research

Finance Track
Four courses from the following list

- FIN 401 Corporate Finance
- FIN 402 Advanced Corporate Finance
- FIN 407 Investment Fundamentals
- FIN 445 Corporate Financial Models and Applications
- FIN 484 Seminar: Financial Management

Individualized Track.......................................................... 12hrs
Students with special interests can design their own tracks in conjunction with the HPS Program Director. Individualized tracks have included gerontology, medical social work, and organizational behavior.

Health Policy Studies As A Minor Or BGS/BLS Area Of Focus
The Health Policy Studies Program offers an area of focus called Health Services Administration for the BGS or the BA in Liberal Studies. In conjunction with the HPS Program Director, students may select from the following list of courses: HPS 440, HPS 401, HPS 402, HPS 403, HPS 404, HPS 405, HPS 410, HPS 442, HPS 364, HPS 448, and HPS 456.
The minor in Health Policy Studies consists of five courses from the foregoing eleven courses. It is recommended that the minor include HPS 440, Medical Sociology and, at a minimum, either HPS 456 Health Care and the Law or HPS 442 Medical Ethics.

Premedical students should consider a minor in Health Policy Studies. The International Organization of Medical Sciences Conference of Medical Education addressed a number of issues, including the question of premedical education. The Conference emphasized the need for colleges to offer courses in the social and behavioral sciences so that future physicians would develop an understanding of the larger health care system and the social factors that influence health and illness. Since that time, other national organizations have continued to recommend that premedical students should take courses in the social and behavioral sciences that have a focus on the health care system and on the experience of health and illness. HPS offers an ideal set of courses that may be taken as a minor for a student planning on attending medical school. Students should contact the HPS Program Director to design a minor that would provide the breadth and depth of a social and behavioral science emphasis related to the delivery of medical care.

Health Policy Studies (HPS) COURSE OFFERINGS

**HPS 364 Health Policy and Admin**
3. 000 Credits  
Prerequisites: POL 101

A survey of the structure and processes of health administration in America, including analysis of current issues in health policy. (F, W, S).

**HPS 390 Topics in Health Policy Stds**
3. 000 Credits

Special topics course taught periodically. (F, W, S)

**HPS 401 Health Pol Studies Internship**
3. 000 TO 6. 000 Credits

Must be enrolled in one of the following Classes:
Senior

A practical experience; volunteering is done in a health care delivery setting combined with a support seminar to develop an understanding of health care system issues and problems.

**HPS 402 HPS Senior Seminar**
3. 000 Credits

Must be enrolled in one of the following Classes:
Senior

Focus on current issues and practical problems in health care organization, delivery, and financing. Use of the case method (where appropriate) to demonstrate and discuss real problems and approaches in functioning health care institutions in Southeastern Michigan. Taught primarily from the point of view of individuals responsible for administering or advising such institutions. (F, W, S).

**HPS 403 Medical Information Systems**
3. 000 Credits

Must be enrolled in one of the following Levels:
Undergraduate
May not be enrolled in one of the following Classes:
Freshman

Medical Information Systems deals with how information is created, stored, and used in health care settings. Areas of interest for this course include fundamentals of computers and data management, medical information documentation in the form of paper and electronic medical records, health data privacy issues, disease classification and scoring systems, quality assurance in health care delivery, commonly used health care statistics, reimbursement methodologies, health care monitoring by internal processes and external review agencies, and vital statistics and disease surveillance systems. The course also includes some hands-on computer applications instruction to familiarize students with commonly used software platforms utilized in health care administration. Students cannot receive credit for both HPS 403 and HPS 503. (W)

**HPS 404 Financing Health & Medical Sys**
3. 000 Credits

Must be enrolled in one of the following Levels:
Undergraduate
May not be enrolled in one of the following Classes:
Freshman
Prerequisites: ECON 201

The American health care system faces two problems: access to health services and high and rising costs. This course looks at the problems of uninsured citizens as well as the strains placed on health care facilities in providing services for them. Europeans have dealt with problems of access and cost controls through universal health care coverage and the course takes up various models in use today. The course also looks at American health insurance and "managed care" programs such as HMOs and PPOs as methods of providing health coverage as well as controlling costs. The course introduces students to services provided by the government including Medicare, Medicaid and State Children's Health Insurance Program(SCHIP). Students will learn the basics of creating a budget under constraints such as contractual limitations and Diagnosis-Related Groups (DRGs). Offered once a year, ordinarily in the Winter semester. Students cannot receive credit for more than one of the following: HPS 404, HPS 451, HPS 504, HPS 551, or PADM 451.

**HPS 405 Healthcare Administration**
3. 000 Credits

Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: HPS 440

This course introduces students to administrative models and skills that can be used at a supervisory level. These conceptions include strategic planning, marketing, organizational communications, quality assurance, project management and team skills, supervision and evaluation, conflict resolution and office cultures and politics. A critical and historical perspective is used to understand the origins and meanings of these conceptions and the extent to which they correspond with the service mentality of health and human services. Applications to the health and human services will be central to the course.

**HPS 410 Quantitative Research**
4. 000 Credits

Prerequisites: SOC 200 or 201

An introduction to methods of data collection and analysis. Elementary statistics data are analyzed using computerized statistics programs. A discussion of research design and the philosophy of social science is also included. Students cannot receive credit for both HPS 410 and HPS 510. (F, W, S).
An analysis of health and illness behavior from the point of view of the consumer, as well as medical professionals, the structure, strengths and weaknesses of the health care delivery system in the U.S.; the impact of culture and personality on illness behavior; and a study of the institution of medicine and activities of health care professionals. Students cannot receive credit for both HPS 440 and HPS 540. (F).

HPS 442 Medical Ethics
3.000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 340 or PHIL 350 or PHIL 355 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 445 or PHIL 485 or PHIL 490

An examination of moral issues in medicine. Among the problems to be considered are truth-telling and paternalism in the doctor-patient relationship, psychosurgery and behavior control, death and euthanasia, the allocation of scarce resources, and genetic counseling and control. Specific attention will be given to ethical theories and to philosophical concepts such as rights, autonomy, and justice. Students cannot receive credit for both HPS 442 and HPS 542. Prerequisite(s): any previous course in Philosophy or permission of instructor. (F, W, S).

HPS 448 Comparative Health Care System
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: SOC 200 or SOC 201

An introduction and overview of the English, Swedish, and People's Republic of China health care systems. Focus on cultural and other organizational characteristics, unique features, approaches, and ability to solve problems. Emphasis on how the three systems help us understand the American health care system. Students cannot receive credit for both HPS 448 and HPS 548. (F, W, S)

HPS 456 Health Care and the Law
3.000 Credits
Prerequisites: SOC 200 or SOC 201 or POL 364

A sociological study of legal issues in health care, including regulation of hospitals, consent for treatment, confidentiality, experimentation, family planning, children's rights, access to health care. The emphasis will be on the organizational and personal consequences of legal requirements. Junior/Senior standing is a requirement. Students cannot receive credit for both HPS 456 and HPS 556. (F).

HPS 498 Independent Study
1.000 TO 3.000 Credits

Readings or analytical assignments in accordance with the needs and interests of those enrolled and agreed upon by the student and instructor, which shall not duplicate a formal course offering. (F, W, S)

HPS 499 Independent Study
1.000 TO 3.000 Credits

Readings or analytical assignments in accordance with the needs and interests of those enrolled and agreed upon by the student and instructor, which shall not duplicate a formal course offering. (F, W, S)

Hispanic Studies

HISPANIC STUDIES CONCENTRATION

PREREQUISITES TO THE CONCENTRATION

Students desiring to concentrate in Hispanic Studies must successfully complete SPAN 202 or exhibit equivalent Spanish language proficiency.

CONCENTRATION REQUIREMENTS

A minimum of 24 credit hours in upper division Spanish classes must be completed as outlined below.

Notes:
Concentrators must take at least one course that deals specifically with Spanish (peninsular) topics such as SPAN 351, 356 or 358 and at least one course that deals specifically with Latin American topics such as SPAN 350 or 357.

Concentrators are encouraged to spend a semester or year in one of the many approved study-abroad programs.

Cognates ............................................................. 6hrs
Students must complete at least six hours of upper-level coursework, approved by an advisor, in appropriate disciplines in the Behavioral Sciences, Humanities, or Social Sciences Departments. Students may consider taking the Humanities Internship as one of the cognate courses.

MINOR OR AREA OF FOCUS
A minor or area of focus consists of 12 hours of upper-division credit (four courses at the 300-400 level) in Spanish.

Spanish (SPAN)

COURSE OFFERINGS

SPAN 101  Beginning Spanish I
. 000 OR 4. 000 Credits
Prerequisites:
First course in the two-course elementary Spanish sequence. Listening comprehension, speaking, reading, writing, and culture are emphasized. Course materials promote the use of language to communicate with others and to function in Hispanic culture. (F, S).

SPAN 102  Beginning Spanish II
. 000 OR 4. 000 Credits
Prerequisites: SPAN 101 or SPL 102 or SPL 201 or SPL 202 or SPL 301 or SPL 302
Second course in the two-course elementary Spanish sequence. Continued emphasis on culture and the four skills of listening, speaking, reading, and writing. (F, W, S).

SPAN 201  Intermediate Spanish I
. 000 OR 4. 000 Credits
Prerequisites: or SPL 201 or SPL 202 or SPL 301 or SPL 302
An intermediate-level course designed to increase the proficiency in listening, speaking, reading, and writing within a cultural context. Emphasis is placed on acquiring new vocabulary and expanding the use of grammar structures. Course materials promote the use of language to communicate with others and to function in Hispanic culture. (F).

SPAN 202  Intermediate Spanish II
. 000 OR 4. 000 Credits
Prerequisites: SPAN 201 or SPL 202 or SPL 301 or SPL 302
Continuation of SPAN 201 with emphasis on the development of all language skills. (W).

SPAN 254  Spanish Conversation
2. 000 Credits
Prerequisites: SPAN 102
This course provides extensive oral practice to reinforce vocabulary and grammar concepts and to improve pronunciation. Conversational skills are developed through discussion and use of communicative exercises, activities, and games. (OC).

SPAN 301  Adv Conversation and Comp I
3. 000 Credits
Prerequisites: SPAN 202 or SPL 301 or SPL 302
An advanced course in conversion, composition, and syntax designed to strengthen existing skills. An intensive review of grammar combined with pronunciation and vocabulary exercises should enable the student to make progress in composition and conversation. Oral and written assignments will be based on readings from contemporary sources. (F).

SPAN 302  Advan Conversation Comp II
3. 000 Credits
Prerequisites: SPAN 301 or SPL 302
Continuation of SPAN 301 with emphasis on the command of conversational and writing skills. (W).

SPAN 305  Language of Business
3. 000 Credits
Prerequisites: SPAN 301
An introduction to the language and practices of the Hispanic world of business. Particular emphasis will be placed on learning the terminology used in typical business correspondence and documents. A variety of businesses will be examined and practice in reading and composing business letters will be provided. (AY).

SPAN 310  Intro to Hispanic Linguistics
3.00 Credits
Prerequisites: SPAN 301
This class provides students with a systematic overview of key areas of Spanish linguistics, including the sound system, forms of words, syntactic patterns, the development of the language, and regional, social and contextual variation.

SPAN 350  Masterpiece of Latin Amer Lit
3. 000 Credits
Prerequisites: SPAN 301
A survey of Latin American literature from the colonial period to the present. Emphasis will be placed on such influential and outstanding contemporary authors as Borges, Garcia Marquez, Paz, Poniatowska, Rosario, Ferre, and Rulfo. (AY).

SPAN 351  Masterpieces of Spanish Lit
3. 000 Credits
Prerequisites: SPAN 301
An overview of Spanish Peninsular literature beginning with the Medieval period. Students read and discuss outstanding works from a variety of literary periods and genres. Works by authors such as Cervantes, Lope de Vega, Calderon, Galdos, Unamuno, Lorca, and Goytisolo are included. (AY).

SPAN 353  Latino Literature
3. 000 Credits
Prerequisites: SPAN 301
The course offers a selection of literary representations from a range of Latino groups with an emphasis on Cubans, Dominicans, Mexicans, and Puerto Ricans in the United States. Students examine these minority groups and the realities of their migrations through a variety of literary periods and genres.
SPAN 356  Spanish Civilization and Cult  
3. 000 Credits  
Prerequisites: SPAN 301

A survey of Spanish civilization from its origins to the present. The course explores the achievements of the Spanish people in art, architecture, music, literature, and the sciences and examines aspects of contemporary Spanish institutions and society.

SPAN 357  Latin American Civiliztn Cult  
3. 000 Credits  
Prerequisites: SPAN 301

A survey of Hispanic culture in the Americas from its inception to the present. The course examines the contributions of the Latin American ethnic groups and explores the relationship between Latin America's past and contemporary achievements and problems.

SPAN 358  Spain in the Twentieth Century  
3. 000 Credits  
Prerequisites: SPAN 301

A cultural study of the institutions, issues, and values of Spanish society in the twentieth century as seen in art, architecture, music, literature, film, and the media. Special emphasis is placed on contemporary Spain from the end of the Franco era through the development of a democracy. (OC).

SPAN 385  Spanish Across the Curriculum  
1. 000 Credits  
Prerequisites: SPAN 202

Course is attached to an upper-level course in another discipline and taken concurrently with it. Course materials in Spanish are related to the subject matter of the second course and are discussed with a Spanish-area faculty member. Materials are also integrated into the assignments of the second course. (OC).

SPAN 390  Topics in Spanish  
3. 000 Credits  
Prerequisites: SPAN 301

Examination of problems and issues in selected areas of Spanish. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

SPAN 398  Independent Studies in Spanish  
1. 000 TO 6. 000 Credits  

Readings or analytical assignments in Spanish in accordance with the needs and interests of those enrolled and agreed upon by the student and instructor. Students may receive a maximum of six credit hours for a combination of SPAN 398 and SPAN 399. (F, W).

SPAN 399  Independent Studies in Spanish  
1. 000 TO 6. 000 Credits  

Readings or analytical assignments in Spanish in accordance with the needs and interests of those enrolled and agreed upon by the student and instructor. May be repeated for a maximum of 6 credit hours. (F, W).

SPAN 406  Advanced Written Expression  
2. 000 Credits  
Prerequisites: SPAN 302

Through the reading and analysis of authentic materials students will develop and improve their writing skill in various narrative styles such as dialogue, description, essay or research paper. Writing as a process involving editing and revision will be emphasized. (AY).

SPAN 409  Oral Expression  
2. 000 Credits  
Prerequisites: SPAN 302

A course designed to increase the conversational skills of advanced-level students. A variety of activities and assignments will help students refine their oral accuracy and expand upon the number of social situations in which they can function. (AY).

SPAN 420  Introduction to Translation  
3. 000 Credits  
Prerequisites: SPAN 302

An introduction to the history, theory and practice of English-to-Spanish and Spanish-to-English translation. Emphasis will be placed on material selected from the fields of business and commerce, the legal system, and brief passages of literature. Class projects will include translations of advertisements, brochures, and documents provided by area businesses. (AY, W).

SPAN 421  Advanced Translation  
3. 000 Credits  
Prerequisites: SPAN 305 and SPAN 420

The course will continue to apply the translation theory and techniques introduced in SPAN 420, and it will continue to focus on English-to-Spanish and Spanish-to-English non-literary translation. Emphasis will be placed on materials selected from the fields of business, advertising, and legal discourse. Class projects will include translation of advertisements, legal documents, and business brochures. (AY).

SPAN 450  Hispanic Cinema  
3. 000 Credits  
Prerequisites: SPAN 301

An introduction to the history and critical analysis of representative Hispanic films of major directors from Spain and Latin America. Emphasis will be placed on the historical, political, and cultural content of these films as they reflect the problems, customs, and contradictions of Hispanic culture. (AY).

SPAN 451  Spanish Film  
3. 000 Credits  
Prerequisites: SPAN 301

An introduction to the history and critical analysis of representative Spanish films of major directors from Spain. Emphasis will be placed on the historical, political, social and cultural content of these films as they reflect the problems, customs, and contradictions of Spanish culture.

SPAN 465  Contemporary Spanish Lit  
3. 000 Credits  

Must be enrolled in one of the following Classes:  
Sophomore  
Senior  
Junior  
Prerequisites: SPAN 301

Spanish 465 provides students with an overview of Contemporary Spanish Peninsular literature and culture through the analysis of narrative texts. Selected readings provide the basis for stylistic and textual analysis. Fostering critical thinking through an analysis of texts is the primary focus of the class. The course specifically examines narrative works that belong to
the Spanish literary canon produced after the end of an almost forty year dictatorial regime in 1975. The literary works are deeply rooted in Spain's social and cultural history. Consequently, they describe the contemporary socio-political scene in which they were produced and look at the uncertain future of this reborn nation.

SPAN 490   Topics in Spanish
3. 000 Credits
Examination of problems and issues in selected areas of Spanish language, literature, culture and/or civilization. Title as listed in the Schedule of Classes changes according to content. Course may be repeated for credit when specific topic differs. (OC).

History

History is the art and science of understanding humanity in time; it seeks to recreate the context of changing human activities, be they cultural, economic, political, or social. Because of its special concern for time, history is a valuable field of study for those who want an understanding of where humanity has been and where it is going, and of the world and their own place in it. Furthermore, this field provides a solid background for those who seek a career in teaching, government work, law, or business, honing skills of critical thinking and analysis. In its role bridging disciplines of the social sciences and the humanities, history also enriches an individual's personal life and environment.

PREREQUISITES TO THE CONCENTRATION

Students desiring to concentrate in history are required to elect three of the following courses as prerequisites. The faculty strongly advises that students take these courses during their freshman or sophomore year:

HIST 101  Ancient World
HIST 102  Medieval World
HIST 103  Modern World
HIST 104  Chinese Civilization
HIST 105  Japanese Society and Culture
HIST 106  African Past
HIST 111  American Past I
HIST 112  American Past II
HIST 113  Islamic Civilization
HIST 114  Islamic Civilization: 1500 to Present

Current or former CASL Honors students may use HIST 261, 262, 263 and/or 264 to fulfill these requirements.

CONCENTRATION REQUIREMENTS

For a concentration in history, students are required to complete 27 hours in history courses beyond the three prerequisite courses numbered 300 or above. Concentration courses should be distributed to include: 1) at least six hours in the history of the United States and/or its colonial period; 2) at least nine hours in non-U.S. history (students are strongly advised to take at least three credits of Chinese, Japanese, African, or Middle Eastern history); 3) HIST 300 the Study of History which must be taken before the end of the junior year; 4) HIST 4999 Topics in History a research seminar, which is normally taken in the senior year. Students may also elect HIST 498 Senior Honors Thesis.

Cognates................................................................. 6hrs
Six hours from advanced courses (courses numbered 300 or above) in economics, literature, philosophy, political science, sociology, anthropology, psychology, art history and music history. A course will count only if the adviser accepts it as directly related in subject matter to the student's concentration program.

PORTFOLIO

History concentrators must compile a writing portfolio that is approved by the history faculty. The portfolio consists of a paper each from HIST 300 and HIST 497 or 4999, plus two additional papers from any upper-division history course taken at UM-Dearborn. Students should also submit a précis of their writing.

MINOR OR AREA OF FOCUS

A minor or area of focus consists of 12 hours of upper-division credit in history (at least six hours of U.S. history and six hours of non-U.S. history)

PREPARATION FOR GRADUATE STUDY

History concentrators who intend to pursue graduate study in history are strongly advised to take the following courses: French, German, or another foreign language related to one's concentration program (with approval of advisor); and MATH 363 Introduction to Statistics for Social/Behavioral Scientists.

ADVISING

History concentrators should consult with an adviser before the beginning of each semester.

History (HIST) COURSE OFFERINGS

HIST 101  Ancient World
3. 000 Credits
This course is an introductory survey of world history from the close of the Ice Age to ca. 1000 CE. We will compare world civilizations and examine the connections among them.

HIST 102  Medieval World
3. 000 Credits
The events and traditions that characterized the centuries spanning the fall of the Roman and Persian Empires to the dawn of the modern era. Attention will focus on demographic patterns, the changing nature of social inequality, the conditions of material life, the rise of the state, technological development, and the scientific revolution. (YR).

HIST 103  Modern World
3. 000 Credits
An introductory course in modern history beginning in the eighteenth century. Emphasis on social, political and economic trends, including the impact of nationalism, imperialism, industrialization, dictatorships, and democratic institutions. (YR).

HIST 104  Chinese Civilization
3. 000 Credits
A broadly based introductory study of China that exposes the student to a culture very different from our own and helps that student to understand Chinese institutions and values. It explores essential elements of Chinese civilization in comparative reference to the development of western civilization. Recommended for freshmen and sophomores. (YR).
HIST 105  Japanese Society and Culture  
3. 000 Credits  
A survey of Japanese society and culture in the traditional and modern periods, treated within the comparative framework of the history of the western world. It examines the development of traditional culture under Chinese influence and the subsequent interaction with modern western nations. Recommended for freshmen and sophomores. (YR).

HIST 106  An Intro to the African Past  
3. 000 Credits  
Survey of the social, economic, political, intellectual and cultural heritage of the African peoples from prehistory to the present. Emphasis on internal dynamics of African society through five millennia, as well as the impact of external forces on African life. Themes of particular interest: the roots of African culture, the trans-Atlantic slave trade and the African diaspora in the New World, the European Conquest, and the character of the colonial order and the ongoing struggle to end the legacy of alien domination. (YR).

HIST 108  Latin America: The Colonial Era  
3. 000 Credits  
This course will examine the colonial period in Latin American history from the Spanish and Portuguese contact and conquest to the early nineteenth-century wars for independence. It will focus on the background of European colonization, the process of interaction between Natives and Europeans, the growth and development of colonial society, the shifting uses of land and labor, and the roots of the nineteenth-century revolutionary movements. (OC).

HIST 109  Latin America: The Modern Era  
3. 000 Credits  
This course examines the modern era in Latin American history from the early nineteenth-century wars for independence to the present day. The course will focus on the formation of the Latin American states, the development and growth of Latin American culture and society, the legacy of slavery, the transition to capitalism in the region, the growth of export economies and dependency, and the rise of nationalism and revolutionary movements in the region. (OC).

HIST 111  The American Past I  
3. 000 Credits  
A survey of the economic, social, and political developments in America from the colonial era to the Civil War.

HIST 112  The American Past II  
3. 000 Credits  
A survey of the economic, social, and political developments in America from the conclusion of the Civil War through the present.

HIST 113  Islamic Civilization  
3. 000 Credits  
This course is an introductory historical survey of Islamic societies and cultures from the rise of Islam in the 7th Century to the present day.

HIST 114  Islamic Civ: 1500 to Present  
3. 000 Credits  
Beginning in the 16th Century, this course will cover the "gunpowder empires" in the Greater Middle East, the spread of Islam globally, and the encounter with European global hegemony. Also covered are movements calling for political, social and religious reform in the Islamic World from 1800 to the present day.

HIST 205  Business in Japan: Environment  
3. 000 Credits  
How did Japan accomplish its economic success? How are businesses in Japan managed? To answer these questions, this course examines the social context of industries, organization and management of a company, cultural traits that contributed to Japanese-style management, and the historical background of modern Japanese culture.

HIST 261  Western Culture I  
3. 000 Credits  
Prerequisites: HIST 365  
First of a series of four courses. An interdisciplinary course on the nature of the Western classical and Biblical traditions. It examines Western values, attitudes, history, art history, the roots of scientific thought, logic and social institutions such as the family and the state. Included are works of literature, history, philosophy, and art history. (YR).

HIST 262  Western Culture II  
3. 000 Credits  
Prerequisites: HIST 365  
Second of four courses on Western Civilization required of all Honors Students. The course covers the period of the Middle Ages, Renaissance, and Reformation. Focus is on the ways in which Biblical and Classical traditions are preserved, adapted, transformed, or discarded under the pressures of new social and political formations. Materials are drawn from literature, philosophy, political theory, art. (W).

HIST 263  Western Culture III  
3. 000 Credits  
Prerequisites: HIST 365  
This course covers the period from the 17th to 19th centuries. Focus is on the emergence of scientific thought, enlightenment political theory, romantic individualism, and the great 19th-century intellectual revolutions of Darwinism, Marxism, and feminism. Materials are drawn from literature, philosophy, and political and scientific writings. Third of four courses on Western Civilization required of all Honors Students. (YR).

HIST 264  Western Culture IV  
3. 000 Credits  
Prerequisites: HIST 365  
Fourth of four courses required of all Honor Students. This course covers the period from late 19th-century to the present. Focus is on selected major issues of Western civilization in the modern era: science and human values, bureaucratic and totalitarian societies, psychoanalytical thought, feminism, nihilism, and existentialism. (YR).
HIST 290  Topics in History  
3. 000 Credits  
Problems and issues in selected areas of history. Title listed in Schedule of Classes changes according to content. Courses may be repeated for credit when specific topics differ. (OC).

HIST 291  Topics in History  
3. 000 Credits  
Problems and issues in selected areas of history. Title listed in Schedule of Classes change according to content. Courses may be repeated for credit when specific topics differ. (OC).

HIST 300  The Study of History  
3. 000 Credits  
Prerequisites: HIST 101 or HIST 102 or HIST 103 or HIST 104 or HIST 105 or HIST 111 or HIST 112 or HIST 113 or HIST 114  
A study of the theories of historical analysis, styles of historical writing, and approaches to historical research. For history majors who should elect it as soon as they declare their concentration. (F, W).

HIST 301  Armenia in World History  
3. 000 Credits  
A general survey of Armenian history and culture from the fifth century B.C. to the present, with stress on cultural and political interrelationships with other countries in the Near and Middle East and the European states during the period of modern imperialism. Attention is given to politics, art, architecture, literature, religion, and international relations. Armenian history and culture are discussed in relation to Mesopotamian, Byzantine, Roman, Arabic, Ottoman, and modern European civilizations and politics. (AY).

HIST 302  Russian Intellectual History  
3. 000 Credits  
Examines the historical myths that supported traditional Russian institutions, the literature that expressed these myths in symbolic form, the relationships between the social classes, and the conflict of values and goals in 19th-century Russia. Through the literature of the period the course explores social, intellectual, and political movements. The material is organized to consider both revolutionary and reactionary ideologies, origins of each, and the dynamics between them. (AY).

HIST 303  The Birth of Civilization  
3. 000 Credits  
Course examines the nature of the intellectual structure of the ancient Egyptians, Mesopotamians and Hebrews, and the social structures and historical developments of those cultures. Emphasis is on the evolution of civilization, the contrasts between Egypt and Mesopotamia, and most importantly, the shifts from mythical to philosophical thinking and discourse. (OC).

HIST 304  Studies in Detroit Culture  
3. 000 Credits  
A modern cultural history of Detroit. Usually taught by two faculty members, the course emphasizes the role of literature, art, and music, and architecture in the city's history. (YR).

HIST 305  Society and Arts in Detroit  
3. 000 Credits  
This course is an attempt to define a modern cultural history of Detroit. A team of three of four faculty members will explore the relationship between society and the fine arts in Detroit from several aspects: Detroit’s literature, arts, music, and architecture; its social conditions and broader American context. Field trips into the city are also included. Course not open to students who have completed ARTH 304, ENGL 304, HIST 304, HUM 304, or SOC 304.

HIST 306  20th-C Russian Intel History  
3. 000 Credits  
Study of the relationships between revolutionary philosophies and actions; the dilemma of the Russian Revolution and the dilemma of its “success”; the interaction of art, literature, and revolutionary movements. The course examines historical developments through novels, poetry, and philosophy. (AY).

HIST 307  Early Russian History  
3. 000 Credits  
A history of Russia from its prehistoric origins to the beginning of the 19th century, focusing on political and economic development, cultural and religious dynamics, foreign relations, and expansion in Asia. Stress is placed on political dynamics, including the forces of democracy in Russia's past. (AY).

HIST 308  Imperial Russia  
3. 000 Credits  
A history of Russia from the time of Peter the Great to the Russian revolutions of 1917. Attention is given to internal affairs, economic development, foreign relations, the failure of reforms, and the emergence of the revolutionary movement. (AY).

HIST 309  The Russian Revolutions  
3. 000 Credits  
Provides a broad overview of Russian history leading to the Russian revolutions of 1917, and a more detailed analysis of the revolutions of 1905 and 1917 and the subsequent development of the Soviet Union up to the present. Roots of present Soviet behavior will be sought in Russia's past. (AY).

HIST 310  Armenia in the Soviet Period  
3. 000 Credits  
HIST 310 will study the history of the Soviet Republic of Armenia, when it was ruled by Communists and was part of the USSR in 1920-1991. It will chronicle the broad political, economic, social and cultural developments throughout 70 years of Soviet history and will then study in detail how these developments affected life in Armenia, one the fifteen union republics of the USSR, and relations between Soviet Armenia and the Armenian Diaspora outside the USSR, including the Armenian American community. The course will help students to better understand the Soviet experience by focusing on developments not only in the political center in Moscow, but in the southernmost and territorially the smallest of all the Soviet republics. It will also help students to better comprehend the historical background to some contemporary developments in Transcaucasia (the South Caucasus), Turkey, Iran and the Arab states of Western Asia.
HIST 314  England: Tudors and Stuarts
3.000 Credits
A political, economic, and social survey of England from 1485 to the end of the 17th century. Focus is on the interrelation of society and politics as well as on the rise of England to major international status. (AY).

HIST 315  Modern Britain
3.000 Credits
Course focuses on Great Britain from the time of the Industrial Revolution to the present. Major problems considered are industrialization, the British empire and its disintegration, the democratization of British political life, the creation of the welfare state, and Britain's role in the contemporary world. (AY).

HIST 316  African American History
3.000 Credits
This course traces the experience of African Americans from their first landing in Virginia in 1619 through slavery and the Civil War. Emphasis will be placed on the origins of racism, the development of the slave system in the United States and the historical developments that led to the Civil War. (YR).

HIST 318  Early American Republic
3.000 Credits
This course examines the history of the United States from the ratification of the Federal Constitution through the Presidency of Andrew Jackson. Particular attention is given to the process of political party formation, the impact of the "market revolution" upon life, the origins and ramifications of the Second Great Awakening, the antebellum reform movements, and slavery. (YR).

HIST 319  Civil War & Reconstruction
3.000 Credits
This course examines America's pivotal middle period, a period of rising sectional tensions, bloody civil war, and protracted debate about the promise and limits of equality in the United States. Among the topics covered are the meaning of freedom in antebellum America, territorial expansion and the development of slavery as a political issue, the collapse of the national party system and the secession crisis, the meaning of the American Civil War, and the postwar settlement of reconstruction. (YR).

HIST 321  Late Imperial China
3.000 Credits
Explores key issues in Chinese society and culture from around 900 CE to around 1800 CE, considering demography, family life and lineage organization, gender relations, farming and handicraft industries, intellectual trends, ethnic relations, popular culture, education, social stratification, and social control under imperial bureaucracy. (AY).

HIST 322  Traditional China
3.000 Credits
Examines Chinese history from ancient times to around 900 CE, stressing key developments in society, culture, and government that produced enduring cultural traditions, bureaucratic government, and distinctive patterns cultural exchange in Eastern Eurasia. (AY).

HIST 323  History of Modern China
3.000 Credits
Studies China's historical evolution from around 1800 to recent events in the People's Republic; assesses China's distinctive path to modernity from traditional ideals and patterns of order, including demographic transformations, Western impact, rebellions and wars, nationalism and revolutions, and recent economic growth and social change. (YR).

HIST 325  Traditional Japan
3.000 Credits
Traditional Japan from ancient times to around 1800; emphasis is placed on the evolution of Japanese institutions under the cultural influences of China. (AY).

HIST 326  Modern Japan
3.000 Credits
Japan from around 1850 to present. The course considers the impact of foreign contacts on the Tokugawa system, the emergence of Japan as a modern state, Westernization and nationalistic reaction, the rise of militarism, the Pacific War, economic growth and social changes after the war, and changes in the U. S. -Japan relations. (OC).

HIST 329  Medieval Society
3.000 Credits
An analysis of social institutions and ideas from the High Middle Ages through the discussion of original sources. (AY).

HIST 330  The Renaissance
3.000 Credits
This interdisciplinary study of Renaissance culture focuses on its preeminent center, Italy, in the 15th and 16th centuries. The course investigates major aspects of art, music, literature, and philosophy and their relationships to social, economic, and political structures.

HIST 331  The Reformation Era: 1500-1648
2.000 TO 3.000 Credits
A study of the nature, course, and impact of the Protestant Reformation in Europe, Humanism, the Counter-Reformation, and the cultural and social implications of Protestantism also receive attention. (YR).

HIST 333  Europe in Age of Rev:1750-1815
3.000 Credits
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior
Prerequisites: HIST 365
History of Europe during a period when established patterns of thought, social structure, and institutions were violently challenged. (AY).

HIST 334  Europe in Age of Imp:1815-1914
3.000 Credits
Europe in the age of nationalism, industrialism, imperialism, and democracy; background and origins of World War I. (YR).
HIST 335  20th-Century Europe, 1890-1945  
3. 000 Credits
Europe before, during, and after World War I; the rise of communism and fascism; World War II. (AY). 

HIST 336  The Contmp World, 1945-Present  
3. 000 Credits
The post-war world, U. S. -Soviet rivalry, European/Japanese renaissance, the Chinese Revolution; decolonization and the emergence of the Third World. (OC). 

HIST 337  Islamic Movemnts Mid East Hist  
3. 000 Credits
Will compare several Islamic movements in Middle Eastern history, starting with the rise of Islam in Mecca and Medina. Later impulses toward Islamic revival all looked back to the first movement, and hoped to capture both its spirit and its success. With this as background, the course will move to address two questions: How did later Islamic movements understand the history of the rise of Islam? How have later Islamic movements had to adapt their methods and their ideology to different historical circumstances? (AY). 

HIST 338  Women & Islam Mid East History  
3. 000 Credits
This course will introduce students to Islam's normative stance towards women, to complications in that normative stance, to theories about gender and history and, finally, to a consideration of the changing and varied attitudes about women and gender in the modern Middle East. (YR). 

HIST 339  Ottoman Empire in 19th Century  
3. 000 Credits
The course is general survey of the history of the Ottoman Empire from the treaty of Kucuk Kaynarca in 1774 until the abolition of the caliphate in 1924. The course will examine such topics as modernization; imperialism; the rise of ethnic nationalisms among the empire’s Christian and Muslim subjects; democracy; ideologies like Ottomanism, pan-Islamism, Islamic modernism, and pan-Turkism; and changing ideas about gender. 

HIST 340  Freud's Vienna: 1866-1920  
3. 000 Credits
An analysis of the place of Vienna in the cultural history of the modern west; particular attention is given to the Vienna of Franz Josef (1848-1916) through the disciplines of history, art, architecture, music, literature, philosophy and psychoanalysis. Included are works by Freud, Schnitzler, Kraus, and Zweig. (AY). 

HIST 341  Hist, Lit, & 20th Century Iran  
3. 000 Credits
This course will examine the formation of modern Iranian culture through both historical documents and the creative works of mainly 20th Century Iranian poets and authors. The focus of the course will be the period between Iran's Constitutional Revolution of 1905-1906 and the revolution of 1977-1979. 

HIST 343  Germany Before Hitler  
3. 000 Credits
An analysis of the cultural and intellectual life during one of Germany's greatest eras. Lectures and discussions are based on German literature, art, film, philosophy, architecture, and history. The background of Weimar culture and the rise of Hitler's Germany are also considered. (YR). 

HIST 345  West Africa Since 1800  
3. 000 Credits
A history of the West African peoples since 1800, which focuses on their unique cultural heritage. Themes include: West Africa before the advent of alien domination, the European Conquest, West Africa under the Colonial regimes, and the liquidation of colonial rule and the reassertion of West African independence. (AY). 

HIST 349  Thomas Edison and his Era  
3. 000 Credits
This course will introduce students to the life and work of Thomas Edison. Breaking with the stereotype of the lone inventor/genius, we will examine how Edison helped shape and was in turn shaped by the context of the Gilded Age America - when the United States emerged as an urban, industrial nation. Lectures and discussions will be supplemented by slides, films, and visits to the Edison-related sites at the Henry Ford. Throughout the course the following themes will be explored: invention and the labor process, the significance of manufacturing and marketing, and the origins of modern consumer culture. (OC). 

HIST 3520  Lebanon in Modern Middle East  
3. 000 Credits
HIST 3520 will study the modern history of Lebanon and the country's involvement in broader Arab and Middle Eastern politics from the period when the country's modern boundaries were established in 1920 to the end of its fifteen-year-long civil war in 1990. The course will focus on the relations of the Lebanese state, its various ethno-confessional communities and political groupings with the Great Powers like France, the United Kingdom, the Soviet Union and the United States of America, as well as with the influential Arab states in the region, in particular Egypt, Syria, Saudi Arabia and Iraq. Particular attention will be paid to the impact of the Arab-Israeli conflict and the presence of Palestinian refugees on internal Lebanese politics. The course will also analyze the diverse, sometimes contrasting, visions among Lebanon's various local elites towards the country's place in the region and the world and how these visions underwent change in light of evolving internal social and external political developments. (YR) 

HIST 354  The United States and Vietnam  
3. 000 Credits
The Vietnam War was a major turning point in U. S. history. This course focuses on French rule in Indo-China; U. S. interests in the region; U. S. involvement after 1945; the military, economic, and social nature of that intervention; and the consequences of the war. (OC). 

HIST 355  Eng Colonies in Amer, 1607-1763  
3. 000 Credits
European expansion into North America; colonial societies, ideas, and institutions; imperial policy and administration, and accompanying changes in Amerindian and African cultures, and New World ecologies. (YR).
HIST 356 American Revolution, 1763-1815  
3. 000 Credits

The causes, character, and consequences of the American Revolution, and the shaping of a new nation through the War of 1812. (YR).

HIST 358 Emerg of Modern U. S., 1876-1916  
3. 000 Credits

An intensive study of the history of the United States from the end of Reconstruction to America's entry into World War I. Particular attention is paid to the social, economic, and intellectual aspects of the period and to the origins of 20th-century America. (OC).

HIST 359 Era of World Wars:1916-1946  
3. 000 Credits

An intensive study of the history of the United States from 1916 to 1946. Topics include World War I and its aftermath, the Depression, the New Deal, World War II, and post-war settlements and problems. (OC).

HIST 360 The U. S. Since 1946  
3. 000 Credits

This course focuses on the era bracketed by the Truman through the present administrations. Particular attention is given to the New Deal, the Truman policy of containment, the Cold War, relations with China, McCarthyism, the Korean war, the civil rights movements, the New Frontier, involvement in Vietnam, and the problems of contemporary America. (AY).

HIST 361 United States Economic History  
3. 000 Credits

A survey of the processes of development of the United States economy, their social implications, and the sources of today's economic problems. (F).

HIST 362 Eur and Intern'l Econ History  
3. 000 Credits

A survey of the processes of industrialization in the major non-American industrial economies, with a focus on their relevance and implications. (AY).

HIST 363 Rel in Amer Hist:1607-1865  
3. 000 Credits

A survey of the religious movements and trends in America from the 17th century to the Civil War, with emphasis on Puritanism, 18th-century revivalism, and 19th-century denominationalism and social reform. (AY).

HIST 364 Rel in Am Hist II:1865-Present  
3. 000 Credits

This course aims to interweave the civil rights movement, the Vietnam War, the student movements, the women's movement, and other developments of the period to place them in an historical context of a complicated era of change. The course compels students to critically evaluate social movements, political developments, cultural trends, and foreign policies by close examination of primary documents as well as critical evaluations of the various ways that scholars have interpreted the period. (AY).

HIST 365 The 1960s in America  
3. 000 Credits

This course focuses on the era bracketed by the Truman through the present administrations. Particular attention is given to the New Deal, the Truman policy of containment, the Cold War, relations with China, McCarthyism, the Korean war, the civil rights movements, the New Frontier, involvement in Vietnam, and the problems of contemporary America. (AY).

HIST 366 The US in the Middle East  
3. 000 Credits

This course will examine the involvement of the US in the Middle East from the late 18th Century to modern times. The relationship between domestic politics and foreign policy (both in the US and in the Middle East) will be examined as US involvement in the Middle East grows from irregular missionary and commercial activity in the 19th century, to the establishment of full diplomatic relations, to the complexities related to the globalization of the oil industry, Cold War interventions and, ultimately, the establishment of US hegemony in the region. Students will examine a number of “case studies” in US-Middle East relations as a platform for their own research into other episodes of American involvement in the Middle East. (AY).

HIST 367 The 1960s in America  
3. 000 Credits

This course aims to interweave the civil rights movement, the Vietnam War, the student movements, the women's movement, and other developments of the period to place them in a historical context of a complicated era of change. The course compels students to critically evaluate social movements, political developments, cultural trends, and foreign policies by close examination of primary documents as well as critical evaluations of the various ways that scholars have interpreted the period. (AY).

HIST 368 Rel in Am Hist II:1865-Present  
3. 000 Credits

A survey of American religion from the Civil War to the present, with emphasis on ethnicity and religion and post-World War II revivals of religion. (AY).

HIST 369 Honors Seminar  
3. 000 Credits

To teach habits of informed criticism based on critical analysis of primary and secondary texts. This course will give Honors students the opportunity to learn reflective, critical listening and inquiry skills, which are essential to informed discussion of the Honors core course material. The content of specific courses will vary from semester to semester according to individual instructors.
HIST 3651  Women Leadership/Social Change
3. 000 Credits
May not be enrolled in one of the following Classes: Freshman
Prerequisites: HIST 112 or WST 275 or WGST 303 or WGST 275

The purpose of this seminar is to examine women's leadership in movements for social change. We will approach this topic through the study of historical examples, drawn primarily from the twentieth-century United States, and including movements for economic justice, race relations, sexual identity, peace, gender equality, public health, and social welfare. (W).

HIST 3665  Automobile in American Life
3. 000 Credits

The course will explore a wide array of distinct, though interconnected, subjects such as: the manufacturing, engineering and design of the automobile and its relation to industrial and technological developments and consumer trends; the automobile's role in America's industrial growth and the impact that industrialization had upon American society; the automobile's role in urbanization and urban sprawl; the mass marketing of the automobile and its connection to broader social constructions of class, race, and gender; the environmental impact of the automobile; and the automobile's use and meaning as a cultural symbol and its relation to the American identity. Through the use of diverse mediums such as personal recollections, popular music, film, photographs, advertisements, automobile ephemera, literature, poetry and more traditional written sources the course will examine America's ongoing fascination with the automobile. (OC)

HIST 3666  Henry Ford and His Place
3. 000 Credits

Using the biography of Henry Ford as a touchstone, the course will examine the trajectories of historical change and regional development between 1870 and 1950. Of fundamental concern will be southeastern Michigan's transformation from a 19th century outpost on the Great Lakes to the nation's "engine of change" in the 20th century. Henry Ford was the major player in that revolutionary transformation. This course examines his role in history and mythology as well as the causes and implications of that transformation. (OC)

HIST 368  Black Exp in U. S. :1865-Present
3. 000 Credits

The history of blacks in America is traced from the Reconstruction era and the rise of Jim Crow segregation to the Civil Rights movement of the 1960's and the current period. Special attention is paid to the migration of blacks to the north and the social-economic situation which they encountered there. Specific topics to be addressed include formation of the NAACP. (YR).

HIST 369  Civil Rights Movement in Amer
3. 000 Credits

A survey of race relations and civil rights activity from the late 19th century to the present. The principal focus, however, is on the period since World War II, especially on the mass-based Southern civil rights movement (1955-1965) and the various policy debates and initiatives of the past thirty years, most notably affirmative action and busing. We also examine critiques of non-violence and integrationism. (AY).

HIST 3695  American City
3. 000 Credits

This course examines the development of urban America from the European-style port cities of the colonial period through the edge cities of today. The bulk of the course will focus on the late 19th and 20th century urban environment with an eye towards understanding the diverse residents, cultures, economies, and geographies that have shaped American cities. We will cover everything from developments in transportation, architecture, business, and technology to immigration, politics, and urban culture. Broad concerns and constituencies have shaped the urban public sphere, the physical development of cities and the experience of living as an urbanite and, consequently, they will receive much of our attention. American patterns of development will then be placed in context with those of other nations and cultures. (AY).

HIST 370  Women in Am-Hist Perspective
3. 000 Credits

A survey of women's role in American society from colonial times to the present, emphasizing both change and continuity in women's experience. (YR).

HIST 371  American Ideas, 1607-1865
3. 000 Credits

Ideas about God and humanity, nature and society, which constituted the spirit of the age from the 17th century to the Civil War. (OC).

HIST 3730  Bible in History
3. 000 Credits

In this course we will try to examine the historical circumstances and contexts surrounding the writing of The Hebrew Bible. Roughly speaking, we will begin by exploring three aspects of the subject: Historical context of the writing of the Bible-i. e. during the organizing and communicating of each segment. History of the canonization: the ideas and rationale behind including some books but not others. History in the Bible. In more specific terms, this will entail examining who wrote the Bible, when and why. The narrative incorporates the movement from an oral tradition to a written one and will demand some focus on certain pivotal moments, e. g. , Ezra's reading (cf. Ezra-Nehemiah), or the historical events in Kings and Chronicles, or the defeat of the northern kingdom of Israel in722 B. C. E. (BC) and of the southern kingdom of Judah in 589 B. C. E.

HIST 374  History of Industrial Technlgy
3. 000 Credits

Focusing on western Europe and the United States since the Industrial Revolution, this course will examine the history of manufacturing technologies and will include the following topics: mechanization and the rise of the factory; mass production; the process of innovation; design and diffusion of new technologies; technologies; technology and the changing nature of work; automation and lean production systems. Through readings, class discussions, and examination of artifacts (actual tools and machines), students will consider the central role played by technology in the making of modern society. (OC).
HIST 375  Heterodox Economics
3. 000 Credits
Prerequisites: ECON 201 and ECON 202
This course introduces students to alternative perspectives on economic theory and method. These alternatives include: Marxian and radical political economics, institutional and evolutionary economics, behavioral economics, post-Keynesian economics and feminist economics. (AY).

HIST 378  History of Consciousness
3. 000 Credits
Traces changes in the way people have viewed themselves, the world and changes in the forms or orders of thinking; in other words, changes in consciousness and concepts of the unconscious. The mode is intellectual history and involves studies of the ideas of philosophers, psychologists and literary artists. The class will examine ancient and "primitive" consciousness as well as forms of society. (AY).

HIST 379  Language, Myth & Dreams
3. 000 Credits
An examination of the relationships between language, myth, dreams, and thinking processes; considers the work of such scholars as Ernst Cassirer, Noam Chomsky, and Freud; studies the nature of the mind from philosophical, psychological and literary perspectives. (AY).

HIST 381  Intell Hist of Modern Europe
3. 000 Credits
An examination of the intellectual currents from the scientific revolution, the Enlightenment, the currents of 19th and 20th century thought including romanticism, conservatism, liberalism, socialism, and Darwinism. Includes analysis of the reactions to World War I, the Russian Revolution, and World War II. Readings include works by Descartes, Rousseau, Marx, Darwin, Zola, Freud, Kafka, and Koestler. (AY).

HIST 383  Labor in America
3. 000 Credits
A survey of urban workers from colonial times to the present. Among the topics covered are changing standards of living, the experiences of industrial work, labor organization, and working-class politics. (YR).

HIST 384  Immigration in America
3. 000 Credits
A survey of the "immigrant experience" in the United States, from the early 19th century to the present. Particular attention is given to enduring problems of economic adjustment and cultural assimilation, and to the impact of immigration on the host society. (AY).

HIST 385  Modern France
3. 000 Credits
A history of France from the French Revolution to the present. The major emphasis is on the political evolution of France with some attention to social and economic development. (AY).

HIST 386  Compar History of Technology
3. 000 Credits
This course will examine the history of technology from a comparative perspective: studying the development and impact of technology in different societies during various historical eras. Topics include: irrigation control and the rise of ancient empires; technology's role in the industrial revolution; technological innovation and the pace of social change. Current issues and various analytical perspectives in the history of technology will also be examined. (OC).

HIST 387  Aspects of the Holocaust
3. 000 Credits
A survey of how and why millions of Jews, Gypsies, Slavs, and political and "racial" enemies of the Reich were so quickly and determinedly slaughtered. (YR).

HIST 389  Nazi Germany
3. 000 Credits
History of National Socialism, its goals and structure. Also addressed are the nature of the dictatorship; the role of the historian in interpreting the era and the use and evaluation of historical documents. (YR).

HIST 390  Topics in History
3. 000 Credits
Examination of problems and issues in selected areas of history. Title as listed in Schedule of Classes changes according to content. Course may be repeated for credit when specific topics differ. (OC).

HIST 391  Topics in History
3. 000 Credits
Problems and issues in selected areas of history. Title as listed in Schedule of Classes changes according to content. Course may be repeated for credit when specific topics differ. (OC).

HIST 465  The Family in History
3. 000 Credits
An analysis of the emergence of the modern family from the 16th century to the present with focus on the history of childrearing, family size and structure, intra-familial and inter-generational relationships and population patterns. (OC).

HIST 467  Arab Americans Since 1890
3. 000 Credits
This course traces immigration from Syria, Lebanon and Palestine (Biladal Sham) to the U. S. from the 1890’s to the present. We begin by utilizing theories on immigration and ethnicity in order to understand patterns of settlement, work, and leisure, and examine the Arab Americans’ religious life, press, and evaluate their membership in unions and political parties. Participants will gain knowledge of the immigrants’ past
achievements and more recent scholarship on their development in public and private spheres. The course includes activities in local institutions, researching archival material, and contact with community leaders. This course will provide knowledge of the historical roots of the Arab Americans' adjustment to life as U. S. citizens and will prepare the students for further inquiry.

HIST 4677 Arab American Identities
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate

This course examines the formation of Arab American identity by exploring its origins and several markers of its development. Beginning with the political changes in the Arab Americans' ancestral homelands leading up to WWI, we reconcile the immigrants' feelings of peoplehood with recent studies on aspects of their ethnic, racialized, nationalist, gendered, and assimilative lives. The course addresses responses to the Arab Americans' official status as "white," sample of Arab American feminist writings, manifestations of political awareness in the U. S. in response to political changes in the Middle East, and the Arab Americans' place within studies on ethnicity, gender, and race before and after September 11, 2001.

HIST 485 History Internship
3.000 TO 6.000 Credits
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior

The internship offers students experience in types of work available to liberal arts graduates. Regular meetings between the Internship Coordinator and the intern are required. Credit applies to the degree as a general elective and does not apply to any concentration. Maximum total hours credit: 12. Graded Pass/Fail (F, W).

HIST 490 Selected Topics in History
3.000 Credits

Examination of problems and issues in selected areas of history. Title as listed in Schedule of Classes changes according to content. Course may be repeated for credit when specific topics differ. Primarily, but not exclusively, for undergraduate history concentrators. Students are introduced to current issues in the area of historical research and learn how to appreciate selected writings, which represent the best of recent scholarship. (OC).

HIST 498 Senior Honors Thesis
3.000 Credits
Must be enrolled in one of the following Major fields of study:
History
Must be enrolled in one of the following Classes:
Senior
Graduate

Two successive semesters of independent work on a major research paper under the direction of a member of the discipline and the program coordinator. (F, W).

HIST 499 Advanced Ind Studies in Hist
1.000 TO 4.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate

Readings and analytical writing in history, in accordance with the interests of the student and approval of the instructor. Students must submit a written proposal of study for approval. (OC).

HIST 4999 Senior Research Seminar
3.000 Credits
Must be enrolled in one of the following Major fields of study:
History
Must be enrolled in one of the following Classes:
Senior
Prerequisites: HIST 300

This seminar is required for the completion of an undergraduate degree in history. Students will develop an independent research paper that is well-grounded in the appropriate academic literature and using advanced research methodology. History concentrators may not use credit for both this course and HIST 497 or HIST 498 to meet their capstone requirement.

Humanities

The Humanities concentration is an interdisciplinary program designed for students seeking a broadly-based education encompassing several fields of humanistic endeavor. It is also recognized by many professional schools as a suitable undergraduate concentration. The concentration is flexible and is designed to be adaptable to individual needs and desires. Each student declaring a humanities concentration will be assigned an advisor who will work closely with the student in planning a program.

PREREQUISITES TO THE CONCENTRATION

Required courses.................................................................20 hrs
French, German, or Spanish 201 and 202 ..................... 8 hrs

A two-course sequence from each of two of the following areas:
Art History, Communication, Comparative Literature (Great Books), English, Journalism and Screen Studies, History, Linguistics, Music History, Philosophy and Western Culture (Honors) ......................................................... 12 hrs

CONCENTRATION REQUIREMENTS

9 hours each in any three of the following areas: ................. 27 hrs
African American Studies, Art History, Communication, Comparative Literature, English, Journalism and Screen Studies, French Studies, German, Hispanic Studies, History, Linguistics, Music History, Philosophy, Women’s Studies, and World Literature in Translation

9 additional hours in one of the two following tracks

Track A
Senior Thesis or Project ............................................... 6 hrs
One Humanities Course ................................................. 3 hrs

Track B
Senior Independent Study ................................................. 3 hrs
Two Humanities Courses ................................................. 6 hrs

The following restrictions should also be noted:

The same course cannot satisfy both Distribution and Concentration/Cognate Requirements.

Only 65 hours in the courses listed under the Humanities Department can count in the 120 hours for degree.
MINOR OR AREA OF FOCUS
A minor or area of focus consists of 12 hours of upper-division credit in the courses labeled "Humanities."

Humanities (HUM)
COURSE OFFERINGS

HUM 100  Introduction to Humanities
3.000 Credits
An introduction to the visual arts, music, and drama in western and world societies. Through study of individual works, the course teaches appreciation of the arts in their aesthetic and technical qualities, and understanding of the arts as expressions of diverse societies, varied historical conditions, and shared human experiences. (YR).

HUM 170  Studies in Humanities
3.000 Credits
An interdisciplinary examination of selected key ideas in contemporary western thought. Emphasis will be placed upon how the issues and problems in question manifest themselves in popular and high culture. (YR).

HUM 171  Styles in 19th Century
3.000 Credits
An introduction to the two principal styles of the 19th century, romanticism and realism, viewed within the general evolution of European civilization. After reading works of the classical tradition, the class will study masterpieces that illustrate the romantic and realist movements. (OC).

HUM 200  The Human Condition
3.000 Credits
The human condition as seen in selected works of philosophy and literature. Typical issues: the meaning of life, the existence of God, moral responsibility for human actions, and the role of society in promoting or hindering human excellence. (YR).

HUM 201  Religions of the World
3.000 Credits
A study of religion in essence, in manifestation, and in relationship with the other dimensions of culture; a treatment of man's religious interests and the various ways in which he has sought to pursue these interests. Surveys major world religions.

HUM 221  Great Books I: Ancient World
3.000 Credits
Introduction to masterpieces of Western world literature from the ancient world. Readings include the Bible, Iliad, Odyssey, Greek drama, and Roman authors. (YR).

HUM 222  Gr Bks II: Midd Ages and Ren
3.000 Credits
Introduction to masterpieces of Western world literature from the Middle Ages and Renaissance. Readings include Dante, Chaucer, Wolfram, Cervantes, Shakespeare, Moliere, and Racine. (YR).

HUM 223  Gr Bks III: Modern Era
3.000 Credits
Introduction to masterpieces of Western world literature from the Modern Era. Readings include Swift, Voltaire, Rousseau, English romantic poets, fiction and drama of the 19th and 20th century. (YR).

HUM 240  Film and Society
3.000 Credits
A survey of the major genres of film, chiefly in historical and political perspective, but also in light of important intellectual frameworks (e.g., feminism, psychoanalytical theory). The films selected, both Western and non-Western, will be examined both for their visual codes of meaning and for their wider role in developing a powerful social language in various cultural contexts. (OC).

HUM 248  Introduction to Screen Studies
3.000 Credits
This course will introduce students to the development of world cinema by integrating the aesthetics of film with its technology, and its social and economic milieu. It will train the students in analyzing the formalist qualities of the medium, and in understanding the evolution of its various genres and styles.

HUM 261  Honors: West Cult I: Origins
3.000 Credits
Prerequisites: HIST 365
First in a series of four courses. An interdisciplinary course describing the nature of the Western classical and Biblical traditions. Will examine Western values, attitudes, history, art history, the roots of scientific thought, logic, and social institutions such as the family and the state. Included will be works of literature, history, philosophy, and art history. (YR).

HUM 262  Honors: Western Culture II
3.000 Credits
Prerequisites: HIST 365
Second of four courses on Western Civilization required of all Honors students. Course covers the period of the Middle Ages, Renaissance, and Reformation. Focus is on ways in which the Biblical and Classical traditions are preserved, adapted, transformed, or discarded under the pressures of new social and political formations. Materials will be drawn from literature, philosophy, political theory, and art of the period. (YR).

HUM 263  Honors: Western Cult III
3.000 Credits
Prerequisites: HIST 365
Third of four courses on Western Culture required of all Honors students. Course covers period from 17th to 19th centuries. Focus is on the emergence of scientific thought, Enlightenment political theory, Romantic individualism, and the great 19th-century intellectual revolutions of Darwinism, Marxism, and feminism. Material will be drawn from literature, philosophy, and political and scientific writings of the period. (YR).

HUM 264  Honors: West Cult IV: Mod Era
3.000 Credits
Prerequisites: HIST 365
Fourth of four courses in Western Culture required of all Honors students. Course covers period from late 19th century to present. Focus is on selected major issues of Western civilization in the modern era: science and human values, bureaucratic and totalitarian societies, psychoanalytical thought, feminism, nihilism, existentialism. (AY).
HUM 270  Intro to Africana Studies
3. 000 Credits

This gateway course in the AAAS Minor will engage the students in the intellectual issues, historical perspectives and cultural debates in African and African American Studies. Using a trans-disciplinary approach the AAAS faculty teaching this course as a team will draw from the disciplinary strengths of the Humanities, the Social Sciences and the Behavioral Sciences. Texts will include literature, film, music, art, theater, and other forms of popular and folk culture. The course will routinely invite speakers and performers to the class and engage the campus community in these events. (YR)

HUM 290  Topics in Humanities
1. 000 TO 3. 000 Credits

Examination of problems and issues in selected areas of the humanities. Title as listed in Schedule of Classes will change according to content. Course may be repeated when specific topics differ. (OC).

HUM 303  Intro to Women's & Gender Stud
3. 000 Credits

This course provides an interdisciplinary overview of the key theories and topics in Women's and Gender Studies. Special attention is given to how gender intersects with class, race, nationality, religion and sexuality to structure women's and men's lives. Students are also introduced to methods of gender analysis and will begin to apply these methods to topics such as women and health, gender roles in the family, violence against women, and gendered images in the mass media.

HUM 304  Studies in Detroit Culture
3. 000 Credits

This course is an attempt to define a modern cultural history of Detroit. Taught by two faculty members, the emphasis of the course will vary but the following aspects of the city's cultural history will be covered in some detail: its literature, arts, music and architecture; its social conditions and broader American culture context. (OC).

HUM 305  Society and Arts in Detroit
3. 000 Credits

This course is an attempt to define a modern cultural history of Detroit. A team of three or four faculty members will explore the relationship between society and the arts in Detroit from several aspects: Detroit's literature, arts, music, and architecture, its social conditions and broader American context. Field trips into the city are also included. Course open not to students who have completed ARTH 304, ENGL 304, HIST304, HUM 304, or SOC 304.

HUM 310  Art of India
3. 000 Credits

Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106 or HUM 100 or HUM 150 or HUM 170 or HUM 171 or HUM 200 or HUM 201 or HUM221 or HUM 222 or HUM 223 or HUM 240 or HUM 261 or HUM 262 or HUM 263 or HUM 264 or HUM 275 or HUM 290

An introduction to the classical and medieval civilization of India through the historical presentation of its art forms. The course will examine the philosophical, literary, and visual structures of Hinduism, Buddhism, and Islam and how these have interacted to create traditional and modern Indian culture.

HUM 311  Art of China
3. 000 Credits

Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106 or HUM 100 or HUM 150 or HUM 170 or HUM 171 or HUM 200 or HUM 201 or HUM221 or HUM 222 or HUM 223 or HUM 240 or HUM 261 or HUM 262 or HUM 263 or HUM 264 or HUM 275 or HUM 290

An introduction to the civilization of traditional China through the historical presentation of its art forms, literary achievements, and philosophical structures. The course will survey the Buddhist, Daoist, and Confucian content of Chinese art and culture from the Shang to the Qing dynasties.

HUM 312  Art of Japan
3. 000 Credits

Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106 or HUM 100 or HUM 150 or HUM 170 or HUM 171 or HUM 200 or HUM 201 or HUM221 or HUM 222 or HUM 223 or HUM 240 or HUM 261 or HUM 262 or HUM 263 or HUM 264 or HUM 275 or HUM 290

An introduction to Japanese culture through the historical presentation of its varied art forms. Drama, music and the fine arts are studied within the context of Buddhist and Shinto religious practices.

HUM 313  Chinese Painting
3. 000 Credits

Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

A historical survey of the painting of China from the earliest examples found in tombs through works influenced by the West from the modern period. Students will be introduced to Eastern philosophy and relevant literary genres which provide a context for the development of the Chinese painting tradition.

HUM 315  Early Chinese Art and Archaeol
3. 000 Credits

Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

An examination of the art and architecture of early China (Neolithic through Eastern Han). Recent excavations that have significantly changed our view of the early period will be given emphasis. Students will analyze relevant literary and philosophical texts in translation to enhance understanding of the cultural context.

HUM 321  Popular Culture
3. 000 Credits

This course examines the art forms of contemporary popular culture, including rock n roll, movies, television, advertising design, and commercial architecture. Our critical inquiry emphasizes the development of the aesthetics and the myths of our modern mass media environment, as well as relationships between popular and "high" culture. (AY).
HUM 3335  Intro to Gospel Music
3. 000 Credits
This course explores the history and aesthetics of Black sacred music within cultural context. Major figures (Thomas A. Dorsey, Mahalia Jackson, The Winans Family, Kirk Franklin), periods (slavery, Great Migration, Civil Rights movement), and styles (folk and arranged Negro spirituals, congregational songs, and gospel songs - traditional to contemporary) will be studied through recording, videos, film and at least one field experience. Underlying the course is the theory (Mellone Burnim and Pearl Williams-Jones) that gospel music is an expression of African American culture that fuses both African and European elements into a unique whole. (OC).

HUM 335  Women in Medieval Art
3. 000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106 or WGST 275 or WGST 303
Women have often been regarded as the second sex of the middle ages due to the misogynistic attitudes of that era. Recent scholarship, however, has unearthed a significantly more complex picture. Through a study of visual representations of women in medieval art, this course will examine women's roles in the creation and patronage of art and literature, economic and family issues, and women's participation in new and innovative forms of religious piety.

HUM 343  Opera
3. 000 Credits
Prerequisites: MHIS 100 or MHIS 120 or MHIS 130 or MHIS 311 or MHIS 312 or MHIS 313 or MHIS 331 or MHIS 340 or MHIS 341 or MHIS 342 or MHIS 390 or MTHY 100 or MTHY 101 or MTHY 102 or MTHY 301 or MTHY 302 or MTHY 390
An introduction to the study of the musical genre of opera through consideration of major operas based upon literary and dramatic works. Covers examples of operas of all eras, from the time of Monteverdi to present. (OC).

HUM 346  Bible and Western Tradition
3. 000 Credits
An examination of Biblical literature in various English translations, with emphasis on genres and the use of Biblical materials in European and American literature, art, and music. (OC).

HUM 348  Warriors, Lovers, and Saints
3. 000 Credits
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)
An in-depth examination of various personalities of the Middle Ages, both historical and fictional, who are distinctive for their martial prowess, their reputation as lovers, their piety, or some combination of these traits. Attention to these figures (e.g., Roland, Tristan, St. Augustine, and Abelard) will enable the class to consider important medieval norms of behavior, such as chivalry, courtly love, and Christian faith.

HUM 349  Bible In/As Literature
3. 000 Credits
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)
This course will study selected readings from the Bible, first in regard to their own literary, historical, and cultural contents, and then in regard to their reception, interpretation, and reapplication by later literary tradition. Biblical selections may cover both the Old and New Testaments as well as Apocryphal traditions, while readings from later non-biblical texts will be drawn from various literary periods.

HUM 355  Urban Voices: France and Italy
3. 000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106 or WGST 275 or WGST 303
This course questions the literary techniques and forms the English writers developed between 1660 and 1900 to characterize and imagine London to be a unified community and to counter the growing perception of London as a "monstrous city." This image of "the English-speaking City" as an uncontrollable monster may be explored in writings by Daniel Defoe, Jane Austen, Elizabeth Gaskell, Robert Louis Stevenson, Charles Dickens, Thomas Hardy, and Joseph Conrad.

HUM 356  Reading Urban Monstrosity
3. 000 Credits
Prerequisites: (COMP 106 or CPAS 40 or COMP 220 or COMP 280 or COMP 270) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)
This course will introduce students to the national cinema of a select country. In contrasting the evolution of global cinema with the dominant genres and conventions of Hollywood, the course will enable students to critically examine non-Hollywood narratives; the interaction of various nationalist movements within the institution of cinema; and the ways in which world cinema has been influenced by various indigenous performance practices and other visual representations. (OC).

HUM 357  National Cinemas
3. 000 Credits
Prerequisites: JASS 240 or HUM 240 or JASS 248 or HUM 248 or ENGL 248
This course will introduce students to the national cinema of a select country. In contrasting the evolution of global cinema with the dominant genres and conventions of Hollywood, the course will enable students to critically examine non-Hollywood narratives; the interaction of various nationalist movements within the institution of cinema; and the ways in which world cinema has been influenced by various indigenous performance practices and other visual representations. (OC).

HUM 371  Philosophy in Literature
3. 000 Credits
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)
This course will study selected readings from the Bible, first in regard to their own literary, historical, and cultural contents, and then in regard to their reception, interpretation, and reapplication by later literary tradition. Biblical selections may cover both the Old and New Testaments as well as Apocryphal traditions, while readings from later non-biblical texts will be drawn from various literary periods.

HUM 375  Intro to Gospel Music
3. 000 Credits
This course explores the history and aesthetics of Black sacred music within cultural context. Major figures (Thomas A. Dorsey, Mahalia Jackson, The Winans Family, Kirk Franklin), periods (slavery, Great Migration, Civil Rights movement), and styles (folk and arranged Negro spirituals, congregational songs, and gospel songs - traditional to contemporary) will be studied through recording, videos, film and at least one field experience. Underlying the course is the theory (Mellone Burnim and Pearl Williams-Jones) that gospel music is an expression of African American culture that fuses both African and European elements into a unique whole. (OC).
HUM 385  Black Cinema  
3. 000 Credits  
Prerequisites:  
The course will examine selected films from African American and African film traditions in order to analyze how their cultural production is responsive to the conditions of social oppression, economic underdevelopment, and neo-colonialism. How film traditions define "Black aesthetics" will also be discussed. (AY).

HUM 389  Nazi Germany  
3. 000 Credits  
The course traces the development of the Nazi movement from its ideological roots to Hitler's dictatorship, 1933-1945. Political events are interpreted in their social and cultural context to provide a comprehensive view of National Socialism. (OC).

HUM 390  Topics in Humanities  
1. 000 TO 3. 000 Credits  
Examination of problems and issues in selected areas of the humanities. Title as listed in Schedule of Classes will change according to content. Course may be repeated when specific topics differ. (OC).

HUM 395  Japanese Art I  
4. 000 Credits  
Japanese art from prehistoric Jomon period to end of Edo period, including painting, sculpture, architecture, and applied arts. Cultural developments on Asian mainland will be treated to provide proper placement of Japanese art within greater East Asian cultural context. Taught at the Japan Center for Michigan Universities, Hikone, Shiga Prefecture, Japan. (F).

HUM 396  Japanese Art II  
4. 000 Credits  
Prerequisites: HUM 395  
Continuation of Japanese Art I. Historical development of Japanese painting from Asuka to Edo periods. Approach both chronological and thematic in nature. Secular and religious painting will be discussed. Taught at the Japan Center for Michigan Universities, Hikone, Shiga, Prefecture, Japan. (W).

HUM 3975  Humanities Thesis/Project  
6. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
The Humanities Thesis/Project is the culmination of the Humanities concentration, normally completed in the Senior year. Students will develop either a thesis or a research project designed to integrate and deepen their study of the three disciplines chosen for their concentration. The thesis will be done under the direction of one or more faculty members in their areas of concentration. The research project will normally be done in collaboration with a faculty member or with an external organization, as approved by the student's project supervisor. Restricted to students in the Humanities concentration who have completed nine hours of upper-division courses with a "Humanities" listing. (F, W, S).

HUM 398  Independent Studies in Hum  
1. 000 TO 3. 000 Credits  
Readings or analytical assignments in the humanities in accordance with the needs and interests of those enrolled and agreed upon by the student and advising instructor. (F, W).

HUM 399  Independent Studies in Hum  
1. 000 TO 3. 000 Credits  
Readings or analytical assignments in the humanities in accordance with the needs and interests of those enrolled and agreed upon by the student and advising instructor. (F, W).

HUM 409  Feminist Theories  
3. 000 Credits  
Prerequisites: WGST 275 or WST 275 or SOC 200 or SOC 201 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or WGST 303 or PSYC 303 or SOC 303 or ANTH 303 or HUM 303  
This course examines the different perspectives that feminist theorists have offered to analyze the unequal conditions of women's and men's lives. Students taking this course will develop an understanding of how theory functions as a way to know, understand and change the world. They will also be provided with a lens for comparing the assumptions and implications of alternative theoretical perspectives. A particular emphasis of this course is on theorizing the interrelationships among gender, race, class, sexuality and nationality. Course material includes applications of feminist theory to issues such as gender identity formation; sexuality; gender, law and citizenship; women and work; and the history and politics of social movements. Students will not receive credit for both HUM 409 and HUM 509. (AY)

HUM 415  Existentialism and Its Sources  
3. 000 Credits  
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 355 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490  
An exploration of existentialism through the study of literary and philosophical texts. Particular themes such as freedom, commitment, alienation, and death will be considered in an attempt to formulate an existential conception of the human condition. (OC).

HUM 433  Writing Women in Renaissance  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
This course will be taught in English, and will focus on the influence of Italian literary models for the construction of female literary types as well as female voices in France and Italy from 1300 to about 1600. Italian authors studied include three very influential Florentines, Dante, Petrarch and Boccaccio, as well as Castiglione and Ariosto. We will read women poets, patrons, prostitutes and queens from Italy and France such as Veronica Gambara, Isabella di Morra, Vittoria Colonna, Christine de Pizan, Louise Labe, and Marguerite de Navarre. At issue will be women's roles and women's images in city and court culture during the early modern period, and the interaction of their writings with the literary canons of Italy and France. (OC).
HUM 457  American Cinema
3. 000 Credits
Prerequisites: ENGL 248 or HUM 248 or FILM 248 or JASS 248

This course will analyze how Hollywood as the nation's dream factory has manufactured fantasies and cultural myths that have constructed the image of American citizenship, both for Americans and non-Americans. It will establish the ideological function of Hollywood texts as providing unifying symbols for a fragmented society. (YR).

HUM 467  Script-Writing Workshop
3. 000 Credits
Prerequisites: JASS 310 or COMM 310 or COMP 310 or ENGL 310

This writing intensive course will train students to compose a film script, focusing on the substance, structure, and style of an original screenplay. The course will be conducted as a workshop in which students will first study classic scripts (and films based on these) of the film-school generation of directors, then model scenes and sequences of their own scripts on the principles of the above texts, and finally, write their own respective film stories in accordance with an appropriate narrative structure and design. (YR).

HUM 4705  Black Women / Lit, Film, Music
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
Coll of Arts, Sciences&Letters
May not be enrolled in one of the following Classes:
Freshman
Prerequisites: JASS 240 or JASS 248 or JASS 385 or AAAS 239 or AAAS 275 or WST 275 or WGST 275 or WST 370 or WGST 370 or HUM 221 or HUM 222 or HUM 223 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 237 or ENGL 239 or ENGL 248 or ENGL 200

This course will examine works produced by Black women authors, activists, filmmakers and musical performers in order to determine the methods they have incorporated in order to challenge and eradicate the prevailing stereotypes about Black women while advancing their own personal and racial agendas. It will also focus on the extent to which race, gender, and class have shaped the creative work of Black women. Students will be required to read, discuss, analyze and write their own responses to the works of such firebrands as author Zora Neale Hurston, activist Ida B. Wells, filmmaker Julie Dash, and singer Billie Holliday.

HUM 477  Ethnographic Film
3. 000 Credits
Prerequisites: FILM 248 or ENGL 248 or HUM 248 or ANTH 101 or JASS 248

This course will analyze ethnographic films as a medium for the construction of meaning in and across cultures. It will teach students to understand how the putatively "real" content of documentary film creates a mixture of fantasy, news and "science." Covering texts as varied as National Geographic photographic layouts, traditional ethnographic films made by anthropologists, and auto-ethnographies of cultural groups such as native Americans and the Trobriand Islanders of Papua, New Guinea, the course will aim to deconstruct such oppositions as indigene vs. alien, us vs. them, and self vs. other. Students cannot receive credit for both HUM 477 and HUM 577. (YR).

HUM 485  Internship
3. 000 TO 6. 000 Credits
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior

The Humanities Internship offers students experience in types of work available to liberal arts graduates. Regular meetings between the Humanities Internship Coordinator and the intern are required. Credit applies to the degree as a general elective and does not apply to any concentration. Maximum total hours credit: 12. Graded Pass/Fail. (F, W).

HUM 490  Topics in Humanities
3. 000 TO 4. 000 Credits

Examination of problems and issues in selected areas of the humanities. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

HUM 497  Independent Studies in Hum
1. 000 TO 3. 000 Credits

Readings or analytical assignments in humanities in accordance with the needs and interests of those enrolled and agreed upon by student and advising instructor. (YR).

HUM 499  Directed Research
1. 000 TO 3. 000 Credits

See Humanities Concentration Advisor for more information.

Integrated Science

Integrated Science is a degree designed to offer students seeking to teach science in high schools. The sixty credit hour degree meets the State of Michigan’s requirements for 12 credit hours each in Biology, Chemistry, Earth Science and Physics. An additional 12 credit hours in any one of these areas provides a minor in the area. Students successful completing this program and passing the Michigan Test for Teacher Certification in Integrated Science will meet the standards for the ‘highly qualified’ designation. This degree is only for those students who are also seeking a certificate in secondary education. It is also a degree intended for students who desire to teach in smaller school districts. Students seeking employment in large districts should consider majoring in Biology, Chemistry, Earth Science or Physics and minoring in another of these 4 areas.

The degree requires that certain courses in each of the four areas be taken. The remaining hours will consist of electives from the list of courses below. Other courses may be possible. Students should consult with their advisor about course selection. In addition to regularly offered courses in Natural Sciences, students must also elect at least one of the NSCI 331, 332 or 333 courses. These latter courses will also count towards the 12 hrs for the minor.
Students will need to consult with advisors in the School of Education in order to meet the certification requirements for teaching in secondary schools.

Minor in one of the four areas above (12 credit hours)

Students will select 12 additional upper level credit hours in one of the four areas listed above. Any upper division courses accepted for credit towards a degree in the area are acceptable.

Notes:
1) A minor in Biology must include at least one course from each of the following three categories: Cell and Molecular Biology, Organismal Biology and Population and Environmental Biology.
2) Up to three credit hours of independent study in one of the four areas listed above may be applied towards the minor.

a At least one course from NSCI 331, NSCI 332, or NSCI 333 must be elected.

b The credits for NSCI 331 can be attributed to both Chemistry and Physics.

International Studies

The interdisciplinary concentration in International Studies combines foreign language and cultural studies with a thorough grounding in a professional area such as business and management, economics, computer programming, or political science. The concentration is designed to prepare students for careers in international relations and business or other fields with an international dimension.

The concentration consists of three components at the 300-400 level:

I. Foreign Language and Cultural Component (18 hours) devoted to foreign language, culture, and civilization (including optional study abroad)

II. Professional Component (generally 15 hours plus lower division prerequisites) devoted to the basic skills of art administration, business and management, communications, computer and information science, economics, engineering environmental studies, natural sciences, or political science (international affairs)

III. Support Studies Component (nine hours) devoted to studies (and optional internship experiences) which will provide the larger international context and additional useful skills to coordinate the subjects of Components I and II.

This program is also eminently suitable as a second concentration for students who want to add a strong international component to their major field of interest. In this case, courses taken for their first concentration may also fulfill "Professional Component" requirements in International Studies; e.g., students majoring in art administration, business and management, communications, computer and information science, economics, engineering environmental studies, natural sciences, or political science (international affairs) can add International Studies as a second concentration by fulfilling requirements of Components I (Foreign Languages and Culture) and III (Support Studies) and counting their first major as Component II (Professional)
PREREQUISITES TO THE CONCENTRATION

For prerequisites check Components I and II under requirements for concentration.

CONCENTRATION REQUIREMENTS

Component I. Foreign Language and Culture
(French, German or Spanish)

Prerequisite
Fourth-semester proficiency (202 level) or equivalent in French, German or Spanish

Required courses: Language 301-302 Advanced Conversation and Composition I and II
Language 305 or 306 language of Business.

Two additional upper-level courses in language, civilization/culture or literature.
A literature course in the chosen language is highly encouraged.

Notes
Students are encouraged to spend a semester or year in one of the many approved study-abroad programs.
Students who wish to study two foreign languages within the framework of the International Studies Program should see the International Studies Director to design an acceptable balanced curriculum.
Normally students will not be permitted to count the Humanities Internship (HUM 485) as a part of the above concentration requirements. They are encouraged to elect an internship as part of their Support Studies.

Component II. Professional Studies

Option A. Business and Management

Prerequisites: ACC 298 Principles of Accounting............. 3 hrs
ACC 299 Accounting Information for Decisions...... 3 hrs
ECON 201 Principles of Macroeconomics............. 3 hrs
ECON 202 Principles of Microeconomics......... 3 hrs
MIS 120 Fundamentals of Information Systems...... 3 hrs
MATH 104 Precalculus: Management, Life, and Social Sci

OR
MATH 105 Pre-calculus........................................ 4 hrs

Required courses: BE 401 Managerial Economics........ 3 hrs
MKT 352 Marketing Principles and Policies......... 3 hrs
OB 354 Behavior in Organizations............... 3 hrs
Two courses......................................................... 6 hrs

At least one from the following two are recommended:
IB 441 International Financial Management
IB 446 International Business
IB 486 Seminar in International Business
MKT 457 International Marketing

Other courses to choose from
BA 330 Managerial Communication
COMM 340 Professional Communication
MKT 360 Marketing and Society

Option B. Computer and Information Science

Prerequisites: MATH 115 Calculus I............................... 4 hrs
CIS 150 Computer Science I............................. 4 hrs
OR
CCS 150 Computer Science I............................. 4 hrs
CIS 175 Discrete Structures.............................. 4 hrs
CIS 200 Computer Science II......................... 4 hrs

Required Courses: CIS 350 Data Structures.................... 3 hrs
Three additional CIS upper-division courses (300-level or above excluding CIS 351, 399 and 499)........... 9 hrs

Option C. Economics

Prerequisites: ECON 201 Principles of Macroeconomics...... 3 hrs
ECON 202 Principles of Microeconomics.............. 3 hrs
MATH 113 Calculus I: Management, Life and Social Science.............. 4 hrs

OR
MATH 115 Calculus I............................................ 4 hrs

Required courses: ECON 347 International Finance.............. 3 hrs
ECON 348 International Trade............................. 3 hrs

One additional course from the following............ 3 hrs
ECON 302 Intermediate Microeconomics
ECON 305 Economic Statistics
ECON 342 Economic Development
ECON 345 Comparative Economic Systems
ECON 362 European and International Economic History

Two additional courses from the following........... 6 hrs
ECON 301 Intermediate Macroeconomics
ECON 302 Intermediate Microeconomics
ECON 305 Economic Statistics
ECON 342 Economic Development
ECON 345 Comparative Economic Systems
ECON 362 European and International Economic History
ECON 415 Introduction to Econometrics

Option D. Museum Studies

Prerequisites: ARTH 101 Western Art before 1400................. 3 hrs
ARTH 102 Western Art after 1400......................... 3 hrs
ARTH 103 Arts of Asia........................................ 3 hrs
OR
ARTH 106 Survey of Western Architecture............... 3 hrs
ECON 202 Principles of Microeconomics.............. 3 hrs

Required courses...................................................... 15 hrs

Pick four courses from four different areas........ 12 hrs
Asian
ARTH 311 Art of China
ARTH 312 Art of Japan
Ancient and Classical
ARTH 319  Egyptian Art
ARTH 321  Greek Art
ARTH 322  Roman Art

Medieval
ARTH 331  Early Christian and Byzantine Art
ARTH 332  Early Medieval and Romanesque Art
ARTH 333  Gothic Art and Architecture

Renaissance
ARTH 341  Early Renaissance Art
ARTH 342  High Renaissance Art
ARTH 343  Northern Renaissance Art

Baroque
ARTH 351  Southern Baroque
ARTH 352  Northern Baroque

Modern
ARTH 362  Impressionism and Post-Impressionism
ARTH 363  Early Twentieth-Century Art
ARTH 364  Later Twentieth-Century Art
ARTH 365  Modern Architecture

Also required
ARTH 410  Art Administration Seminar I ................ 3 hrs

Option E. Political Science (International Affairs)

Prerequisites ................................................................. 12 hrs
POL 201  Introduction to Comparative Government .... 3 hrs
ECON 201  Principles of Macroeconomics .......... 3 hrs
ECON 202  Principles of Microeconomics .......... 3 hrs

One of the following courses 3 hrs
Programming: CIS 150 or CCM 150
Analysis: POL 300
Statistics: MATH 363, PSYC 381 or SOC 383

Required courses ......................................................... 15 hrs
Five of the following 3-hour courses or other Political Science courses with a clearly international dimension:
POL 341  Canadian Politics
POL 350  Politics of Developing Areas
POL 355  Religion and Politics
POL 361  American Foreign Policy
POL 371  Problems in International Politics
POL 375  The Great Powers in Competition and Conflict

POL 385  Middle East Politics
POL 386  African Politics
POL 387  Southern Africa
POL 450  Revolution
POL 451  Peace and War
POL 471  American Foreign Policy I
POL 472  American Foreign Policy II
POL 473  International security Affairs
POL 491A  Homeland Security
LIBS 364  The European Union

One computing course from the following: CIS 101, 102, 103, 104, 105, 112, 150; CCM 150

Required courses .......................................................... 15 hrs
ENST 301  Concepts of Environmentalism .......... 3 hrs
ENST 305  Environmental Instrumentation
and analysis ......................................................... 3 hrs

Three additional courses from the following 9 hrs
ENST 300  Urban Geography
ENST 325  Environmental Politics
ENST 330  Land Use Planning
ENST 340  Remote Sensing
ENST 350  Environmental Law
ENST 351  Environmental Economics
ENST 365  Environmental Psychology
ENST 385  Environmental Internship
ENST 390  Topics in Environmental Studies
ENST 474  The Environment as an Educational Resource
ENST 486  Environmental Interpretation

Note: By permission, courses in Environmental Science (some of which have additional prerequisites) may be substituted.

Option G. Natural Sciences

Required courses
Fulfillment of all requirements for a minor in any natural science program (i.e., a minimum of 12 upper-division hours plus all lower-division prerequisites),
OR
Fulfillment of all concentration requirements in any natural science program.

Option H. Engineering

Required courses
Fulfillment of all requirements for a degree in any of the Engineering disciplines will satisfy all Component II (Professional) requirements for the International Studies concentration.

Due to the high number of prerequisites needed to get into upper-level engineering classes, there is no regular 15-hour (professional) component for the various engineering disciplines.

Option I. Communication

Prerequisite
SPEE 101  Principles of Speech Communication .......... 3 hrs

Required courses
COMM 430  International Communications .......... 3 hrs

Plus twelve hours taken in two different tracks listed below. Six hours must be taken in one of the four tracks. The remaining six hours must be taken from a second track. Of the 12 upper-level hours, three hours must be in a speech course and three hours in a Communications writing course.

*Indicates a Communications writing course.

Track A: Organizational and Professional Communication
COMM 317*  Case Studies in Technical Writing
COMM 340*  Professional Communication
COMM 440  Writing for the Organization
COMM 450  Principles of Organizational Communication
COMM 477  Professional Communication Ethics
SPEE 400  Speech Skills for Professionals
Track B: Journalism and Media Studies
- COMM 301*: Advanced Reporting
- COMM 302*: The Press in America
- COMM 310: Literature in Journalism
- COMM 320: Survey of Mass Communications
- COMM 330*: Feature Writing
- COMM 335*: Travel Writing
- COMM 370: Narratives of Film and Literature
- COMM 401*: Interpretive Journalism
- COMM 402*: Investigative Reporting
- COMM 420: Critical Media Studies
- COMM 455: Gender and Media Studies
- COMM 481: Gender and Globalization

Track C: Speech
- SPEE 310: Interpersonal Communication
- SPEE 320: Advanced Public Speaking
- SPEE 330: Argumentation and Debate
- SPEE 340: Theory of Persuasion
- SPEE 430: Small Group Communication

Track D: Electronic Media
- COMM 315*: Writing for the Electronic Media
- COMM 345: Audio Production
- COMM 350: Television Production
- COMM 403: Issues in Cyberspace
- COMM 405: Writing and Producing for the Electronic Media II
- COMM 415: Telecommunications Law & Policy

Other approved courses
- COMM 300: Communication Research Methods
- COMM 390: Topics in Communication
- COMM 398: Independent Study in Communication
- COMM 464: Contemporary Rhetorical Theory
- HUM 485: Humanities Internship
- LING 375: Psychology of Language
- POL 328: Public Opinion and Pressure Groups
- POL 329: Politics and the Media
- PSYC 421: Introduction of Group Dynamics
- SPEE 399: Independent Study in Speech

Component III. Support Studies
This component is designed to enhance the international dimension of the concentration and to coordinate the language and culture studies with professional preparation. Students will take three courses (9 hours) in fields such as anthropology, art history, business and management, economics, foreign cultures, history, and political science. Courses should be selected in accordance with students' particular needs and with the prior approval of the Director of International Studies.

1. Concentrators should obtain from the IS Program Director information on courses that are especially recommended for the Support Studies Component.
2. Students must obtain written approval from the IS Program Director for the three desired support studies courses before enrolling in them. A copy of the Support Studies Approval Form will be included in the students' permanent CASL file. Concentrators should notify the IS Program Director of any changes they may wish to make in their choice of Support Studies classes as they complete the degree requirements; a corrected form will then be placed in the students' file.
3. Students may elect the Humanities Internship (HUM 485) for a maximum of three hours and avail themselves of on-the-job experience in a business, governmental, or cultural institution. See the IS Program Director for Internship Guidelines.

Japanese (JPN) COURSE OFFERINGS

JPN 128  Beginning Japanese I
5.000 Credits

Japanese instruction at the beginning level. Taught at the Japan Center for Michigan Universities, Hikone, Shiga, Japan. Seven contact hours per week. (F).

JPN 129  Beginning Japanese II
5.000 Credits

Continuation of JPN 128. Taught at the Japan Center for Michigan Universities, Hikone, Shiga, Japan. Seven contact hours per week. (W).

JPN 178  Accelerated Japanese I
5.000 Credits

A demanding course that brings a student with little or no knowledge of Japanese through the beginning level into the intermediate level. Taught at the Japan Center for Michigan Universities, Hikone, Shiga, Japan. Seven contact hours per week. (F).

JPN 225  Accelerated Japanese II
5.000 Credits

Continuation of JPN 128. Taught at the Japan Center for Michigan Universities, Hikone, Shiga, Japan. Seven contact hours per week. (F).
JPN 228 Intermediate Japanese I
5. 000 Credits

Japanese instruction at the intermediate level. Taught at the Japan Center for Michigan Universities, Hikone, Shiga, Japan. Seven contact hours per week. (F).

JPN 229 Intermediate Japanese II
5. 000 Credits

Continuation of JPN 228. Taught at the Japan Center for Michigan Universities, Hikone, Shiga, Japan. Seven contact hours per week. (W).

JPN 395 Japanese Society & Culture I
4. 000 Credits

Focused on modern Japan, the course will include Japanese geography and ethnography, with an emphasis on the Japanese idea of homogeneity. Japan’s role in the international context will also be examined. Classroom work will be combined with field trips, in a writing-intensive approach. Taught at the Japan Center for Michigan Universities, Hikone, Shiga Prefecture, Japan.

JPN 396 Japanese Society & Culture II
4. 000 Credits

The prehistoric and historic roots of Japan. Political economy of contemporary Japan and future directions for the country. Classroom work will be combined with field trips, in a writing-intensive approach. Taught at the Japan Center for Michigan Universities, Hikone, Shiga Prefecture, Japan.

Journalism and Screen Studies (JASS)
(not a field of concentration; see Communications)

COURSE OFFERINGS

JASS 2015 Fundamentals of Journalism
3. 000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280

Study and practice in newspaper reporting and news gathering, interview techniques, and basic news writing skills. Students will also discuss libel law, ethics, and the use of the Freedom of Information Act. (YR).

JASS 240 Film and Society
3. 000 Credits

A survey of the major genres of film, chiefly in historical and political perspective, but also in the light of important intellectual frameworks (e.g., feminism, psychoanalytical theory). The films selected, both Western and non-Western, will be examined both for their visual codes of meaning and for their wider role in developing a powerful social language in various cultural contexts. (YR).

JASS 248 Introduction to Screen Studies
3. 000 Credits

This course will introduce students to the development of world cinema by integrating the aesthetics of film with its technology, and its social and economic milieu. It will train the students in analyzing the formalist qualities of the medium, and in understanding the evolution of its various genres and styles. (YR)

JASS 250 Intro to Communications Design
3. 000 Credits

This course will cover basic artistic and electronic design principles as they relate to the field of communications. Through classroom and computer exercises, students will become familiar with a variety of tools and techniques for planning and executing media designs. This will include exposure to digital imaging and desktop publishing software. (F, W, S).

JASS 3015 Advanced Reporting
3. 000 Credits
Prerequisites: COMM 2015 or JASS 2015

Advanced study and practice in news reporting and writing. Students will gain experience with in-depth reporting through coverage of developing news stories. Longer articles of publishable quality are required. (OC).

JASS 302 Media Law and Ethics
3. 000 Credits
Prerequisites: COMM 220

The basis of reportorial journalism is its foundation in the First Amendment. This course examines the legal restrictions and freedoms governing print media and explores the ethical responsibilities of print journalists. Specific topics covered include First Amendment law, the clear and present danger standard, defamation and libel, privacy, obscenity, free press/fair trial, access, shield laws, and journalism ethics.

JASS 307 Copy Editing
3. 000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280

Course covers manuscript and electronic editing of news and feature stories, editing for libel and taste, fact-checking, writing headlines and captions, and use of reference books. Includes a review of grammar and work usage, punctuation, spelling, and style.

JASS 310 Narrative Journalism
3. 000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280

Students learn to identify, understand and use the techniques of fiction in the service of nonfiction material. While studying the texts as literature, students are also encouraged to view them as models for writing. Assignments include the writing and revising of articles, based on research and interviews, and writing in story form, drawing on literary techniques. (YR).

JASS 315 Writing & Prod Electronic Media
3. 000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280

This course focuses on the basics of electronic journalism, including broadcast concepts, terminology, writing, producing and scripting. The emphasis will be on building solid writing skills and applying them to different electronic media, including broadcast news, commercial, corporate, multimedia and web-based formats. Students will be exposed to a variety of strategies for developing ideas, researching them, creating copy and following projects through the production and evaluation process. (AY).
JASS 330  Feature Writing
3. 000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280

An introduction to the writing of feature stories for newspapers and magazines. Students study methods of gathering information and of preparing a manuscript for publication. (AY).

JASS 331  Online Reporting, Rsrch, Writing
3. 000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280

Course introduces the technical, social, legal and ethical practice of online research, focusing specifically on reporting (i.e. research and interview) skills required by journalists and others. Students use new media technology to generate ideas, to research subjects, and to develop general-audience writing projects in their areas of interest. Course covers the use of Web search engines, directories and databases; finding sources and interviewing people online; evaluating the credibility of online sources and information; using Lexis-Nexis to access archives and public records; and using spreadsheet and database programs.

JASS 332  Creating the Graphic Novel
3. 000 Credits
Must be enrolled in one of the following Classes:
   Senior
   Sophomore
   Freshman
   Junior
Prerequisites: ART 202 or ART 206

This course focuses on the creation of an original graphic novel from inception to fully developed story. Students work on character, plot development, dialogue, drawing style, and layout planning, and are encouraged to introduce any cross-disciplinary techniques such as digital applications when appropriate. Lectures and readings consider contemporary media.

JASS 335  Multimedia and Music
3. 000 Credits
Prerequisites: MTHY 100 or MTHY 101 or MTHY 102 or MHIS 100 or MHIS 120 or MHIS 130 or MHIS 150

In this course, students will explore case studies of music created, performed, and distributed in combination with other media from the 1960s to the present. Multimedia is understood as any context in which several media are integrated, but particular focus will be paid to technological and creative innovations (such as video games, computers, and phones). The use of music will be considered in such media as film and television, multimedia performance and installation art, and international developments in multimedia production and distribution.

JASS 336  Film and Music
3. 000 Credits
Prerequisites: MHIS 100 or MHIS 120 or MHIS 130

In this course, students will be introduced to the varieties of music used in film from c. 1900 to the present. Topics covered include a basic introduction to the musical features of Western European dramatic music; the role of music in the early decades of the 20th century; the growth of film and musical sound in the "classic era" of Hollywood film; the use of music in specific genres such as film noir, science-fiction, epic, and musicals; and the use of popular song in film. Prerequisite: previous completion of MHIS 100, 120, 130, or by permission of the instructor.

JASS 338  Business/Automotive Reporting
3. 000 Credits
Prerequisites: JASS 2015

This course covers two inter-related areas: finance and automotive journalism. Students learn how to cover the economy and business community, focusing on areas such as Wall Street, economic indicators, stocks and bonds. Since UM-Dearborn is located in the heart of the world automotive industry, the course also emphasizes the skills necessary for a career in automotive journalism, specifically how to read and report auto-related financial, environmental, safety, labor, finance and manufacturing documents. An introductory course in Economics is recommended.

JASS 345  Audio Production
3. 000 Credits
Prerequisites: ENGL 248 or HUM 248 or JASS 248 or FILM 248

This hands-on course will introduce students to the basic theories of audio and audio program production, including the fundamentals of digital audio and studio and remote recording. The course is designed to instill upon students the importance of sound in the electronic media and how its use or misuse can enhance or detract from media productions. Readings, lectures and projects are designed to teach students how to discern good audio from bad and how to avoid pitfalls media producers and directors commonly make. Through the practical application of audio concepts in the radio laboratory and through critiques of radio projects and programs, students will gain the insight and experience they will need to successfully design and execute audio strategies for the electronic media.

JASS 350  Television Production
3. 000 Credits
Prerequisites: (ENGL 248 or HUM 248 or JASS 248 or FILM 248) and JASS315

Television production skills taught in the context of the history, aesthetics, and technology of television. Purpose of the course is to provide students with a working knowledge and critical awareness of the medium through classroom instruction and studio training. Course counts toward minor in Communications. (YR).

JASS 357  National Cinemas
3. 000 Credits
Prerequisites: HUM 240 or JASS 240 or FILM 240 or ENGL 248 or HUM 248 or JASS 248 or FILM 248

This course will introduce students to the national cinemas of a select country. In contrasting the evolution of cinema in the East, with the dominant genres and conventions of Hollywood, the course will enable students to critically examine non-Hollywood narratives; the interaction of various nationalist movements within the institution of cinema; and the ways in which world cinema has been inflected by various indigenous performance practices and other visual representations. (OC).

JASS 370  Narratives of Film and Lit
3. 000 Credits
Prerequisites: ENGL 248 or HUM 248 or JASS 248 or FILM 248

Explores the narrative conventions of literary and filmic fictions in a cultural, historical and psycho-analytical context. The course goes beyond a discussion of the relative merits of novels and their respective film adaptations and examines the more complex interchanges between the two narrative forms; the ideological function of narrative in contemporary society; and the effect of the medium of a fictional text on the reader/viewer. (OC).
JASS 380  History of American Journalism
3.000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280

This course surveys the history of American journalism from the Colonial period to the present. Topics explored include the development of print journalism, the rise of the reading public, the growth of advertising, photojournalism, and the tabloid press, and the evolution of electronic journalism from radio and television through the computer age. (YR).

JASS 381  Postwar European Cinema
3.000 Credits
Must be enrolled in one of the following Classes:
   Senior
   Sophomore
   Freshman
   Junior

The course will concentrate on a series of films from various European countries with a focus on the socio-political issues, historical events and cultural preoccupations that have defined and also challenged European societies from WWII to the present. Focusing on the construction of European identities, the course will analyze and compare modes of narrating national, class, racial, sexual and social differences in different European nations. Themes such as memories of war and the Holocaust, new conflicts, class, immigration, women's rights, gender, and East-West relations will be addressed. The course will thus privilege a cinema that offers a "reit," a story. Particular attention will be given to discourses on otherness and on the ways in which film culture has reflected, reinforced, reshaped and, in some instances, contested Europe's past and current dominant ideologies, and identities. Readings by cultural historians and analysts will provide the context for an understanding of the films. The course will conclude with a discussion of the possible existence of a specific postwar European Cinema.

JASS 385  Black Cinema
3.000 Credits
This course will examine selected films from African American and African film traditions in order to analyze how their cultural production is responsive to the conditions of social oppression, economic underdevelopment, and neo-colonialism. How film traditions define "Black aesthetics" will also be discussed. (AY).

JASS 387  Film and Feminisms
3.000 Credits
Prerequisites: HUM 240 or JASS 240 or ENGL 248 or HUM 248 or JASS 248 or FILM 240 or FILM 248

This course will establish the role of mainstream cinema in the construction of female gender roles in contemporary Western society. The course will engage with debates in feminist film theory and the role of avant-garde and non-Western cinema in challenging the gender ideology of mainstream cinema. (AY).

JASS 401  Interpretive Journalism
3.000 Credits
A study in the reading and writing of newspaper columns, editorials and reviews. Course prepares students to write newspaper columns as well as reviews and interpretive pieces on the arts. It examines current writing on literature, drama, cinema, graphic arts and music, and includes a study of the newspaper/magazine column.

JASS 402  Investigative Reporting
3.000 Credits
Prerequisites: JASS 3015 or JASS 330 or ENGL 330 or COMM 3015 or COMM 330

A course in investigating a subject and writing a publishable story. Course covers the rudiments of investigative reporting: preliminary research, story selection, investigative strategies and resources, interviewing, and evaluation of material. Examines the history and current status of investigative reporting, including its ethics and politics. Students write and edit several articles and focus on two longer investigative pieces. (YR).

JASS 403  Issues in Cyberspace
3.000 Credits
May not be enrolled in one of the following Classes:
   Graduate

This course will explore some of the current social, political, legal, and technological issues associated with the use of new media technology to move ideas and information in a democratic society. Examples of areas to be explored include the Internet and World Wide Web, privacy, the future of the mass audience, and the meaning of the First Amendment in the 21st Century. Students cannot receive credit for both COMM 403 and COMM 503. (OC)

JASS 405  Web Design
3.000 Credits
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or CPAS 40) and (JASS 250 or COMM 250)

This course will focus on the tools and techniques of electronic and multimedia production, including the basic operations involved in creating and manipulating digital images. Students will be exposed to the processes and programs used to design Web pages and their components. This will include familiarization with how to create and display text, audio and video for multimedia.

JASS 406  History & Theory of Documentary
3.000 Credits
Must be enrolled in one of the following Classes:
   Sophomore
   Senior
   Junior

Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280

This course surveys the history of European documentary and explores its ethical, legal and economic issues. Students study documentary's central moments, forms and artists; the changing theoretical approaches to documentary making; and the range of documentary purposes (informational, educational, propagandistic, entertainment). The course also provides historical and theoretical background for those students who wish to pursue their interest in documentary in the script-writing and production courses also offered in the Journalism and Screen Studies Discipline.

JASS 410  Advanced Media Production
3.000 Credits
Prerequisites: (JASS 315 and JASS 350) or (COMM 315 and COMM 350)

This course will cover advanced concepts in media production as they apply to creating images and sound for electronic formats, including digital non-linear editing, Web design and multimedia. Through seminar instruction and practical application, students will become proficient in creating media for different electronic media forms. As part of this course, students will be required to produce a video, Web or multimedia project for a client.
JASS 413  Photojournalism
3.000 Credits
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280
A hands-on digital imaging course in which students learn the basics of photojournalism and photography, including subject selection, composition, cropping, retouching and caption writing.

JASS 436  Memoir and Travel Writing
3.000 Credits
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40 or COMP 280
A course in narrative non-fiction that focuses on memoir and travel writing. Reading involves several books as well as classic essay-length examples. Assignments include both short analytical papers and the writing and revising of three original articles, based on research, interviews, memory, and observation, and drawing on literary techniques. (YR).

JASS 457  American Cinema
3.000 Credits
Prerequisites: ENGL 248 or HUM 248 or JASS 248 or FILM 248
This course will analyze how Hollywood as the nation's dream factory has manufactured fantasies and cultural myths that have constructed the image of American citizenship, both for Americans and non-Americans. It will establish the ideological function of Hollywood texts as providing unifying symbols for a fragmented society. (YR).

JASS 467  Script-Writing Workshop
3.000 Credits
Prerequisites: JASS 310 or COMP 310 or ENGL 310 or COMM 310
This writing intensive course will train students to compose a film script, focusing on the substance, structure, and style of an original screenplay. The course will be conducted as a workshop in which students will first study classic scripts (and films based on these) of the film-school generation of directors, then model scenes and sequences of their own scripts on the principles of the above texts, and finally, write their own respective film stories in accordance with an appropriate narrative structure and design. (YR).

JASS 477  Ethnographic Film
3.000 Credits
Prerequisites: ENGL 248 or HUM 248 or JASS 248 or ANTH 101 or FILM 248
This course will analyze ethnographic films as a medium for the construction of meaning in and across cultures. It will teach students to understand how the putatively "real" content of documentary film creates a mixture of fantasy, news and "science." Covering texts as varied as National Geographic photographic layouts, traditional ethnographic films made by anthropologists, and auto-ethnographies of cultural groups such as Native Americans and the Trobriand Islanders of Papua, New Guinea, the course will aim to deconstruct such oppositions as indigene vs. alien, us vs. them, and self vs. other. Students cannot receive credit for both FILM 477 and FILM 577. (AY).

Latin (LAT)
(not a field of concentration)

COURSE OFFERINGS

LAT 101  Beginning Latin I
4.000 Credits
An introduction to reading and translating Latin. The strong influence of Latin on the formation and meaning of English (as well as French, Spanish, and Italian) will be used to illuminate the importance of Latin for understanding western languages and thought. Literature appropriate for the level will be read. (F).

LAT 102  Beginning Latin II
4.000 Credits
Prerequisites: LAT 101
A sequel to Beginning Latin I. Literature appropriate for the level will be read. (W).

Law and Society
(minor only)

Law and Society is a program of study that is intended for the understanding of law in its historical and social contexts. Through study of the evolution of law from ancient societies to our contemporary day, students are encouraged to see law as a dynamic institution shaped by historical forces and social values. Substantively, emphasis is given to the study of such contemporary legal issues as human freedoms and civil rights, social responsibility and the treatment of criminals, constitutional interpretation and the enunciation of citizen rights. The Law and Society field takes up studies of the legal environment of various institutional sectors in our society. The health care, the family, and mental health systems all have detailed legal environments setting standards for professional conduct, responsibilities of various participants and enabling legislation of various kinds. Other fields, such as communications media, business enterprises, and the military also have fully elaborated legal environments.

In addition to its role as a source of research into the field of Law and Society, the Program offers an undergraduate CASL-wide minor. The Law and Society Minor is structured as follows:

Two prerequisites
one course from
PHIL 233  Critical Thinking
PHIL 234  Symbolic Logic
PHIL 350  Symbolic Logic
AND
PHIL 240  Ethics

Core course
SOC 453  Sociology of Law

Four Track courses: two from group A and two from group B

Group A: Legal environments of industries and professions
COMM 302, 403, 415; ENST 350; PHIL 442; POL 364; SOC 454, 456, 457; PDED 425; ACC 360; HRM 408; LE 452, 453.

Group B: Structure and process of legal institutions
ECON 325, 333, 385, 421, 481; PHIL 335, 445; POL 304, 312, 315, 316, 362, 363, 413, 414, 415, 4165; SOC 471.

For more information, students and faculty should contact the CASL College-Wide Programs office, 2036 CB, (313) 593-4925 or visit the Program website at casl.umd.umich.edu/591101/
Liberal Studies

Whereas to concentrate in a traditional field of study implies, among other things, that a student must take at least 24 upper-division credit hours in the field of study chosen and at least six upper-division credit hours of cognates in related fields, a concentration in Liberal Studies permits the student to choose three areas of focus which, together, form a coherent and academically sound program that best responds to the interests, needs, and goals of the student.

This program is designed primarily for students who wish to receive a AB or BS but who prefer a program that offers a higher degree of flexibility than the more structured standard concentrations. The AB in Liberal Studies may also appeal to pre-law and pre-management students.

To meet the requirements for this program, a student must complete at least 48 credit hours in courses numbered 300 or above, of which at least 30 credit hours must be completed in CASL. A student must also choose and officially declare three areas of focus, after consultation with and approval of an adviser at the CASL Office of Advising and Student Records, Room 1039, CB. At least two areas of focus must be from CASL. No credit hours transferred from a community college and no lower-division courses from a four-year institution may be included in the credit hours required for any area of focus. Courses used to satisfy distribution requirements may not be employed to satisfy upper-division area of focus requirements. Further, a student may not select a course on a Pass/Fail basis to fulfill the initial 12 or 15 credit hours in any of the three areas of focus.

Note: There may be prerequisites for the upper-division courses. This is especially true for areas of focus in the sciences, mathematics, computer science, and engineering. Consult course descriptions.

The following courses, though offered under the rubric of Liberal Studies, cannot be used to fulfill any of the requirements for the three areas of focus:

Liberal Studies (LIBS)

COURSE OFFERINGS

LIBS 101  Foundatns of Academic Success  1. 000 Credits

This course is intended to introduce students to the nature and purpose of higher education, and of academic inquiry. Academic planning, information literacy, bibliographic search techniques and the evaluation of electronic information are discussed.

LIBS 111  To Infinity and Beyond  3. 000 Credits

Must be enrolled in one of the following Classes:
Freshman
Co-requisites: COMP 105

In this seminar we explore the emergence and evolution of concepts surrounding zero, infinity, and dimension. These mathematical topics are introduced in a historical context as the by-products of human enterprise. Students study foundations of number systems, investigate objects with fractional dimensions, gain an understanding of logic as it applied to proof methodology, and develop visualization skills, creating a tangible experience with abstract mathematical objects and concepts. The supporting material is drawn from selected readings, as well as films and videos. (F).

LIBS 112  Car Culture  3. 000 Credits

Must be enrolled in one of the following Classes:
Freshman
Co-requisites: COMP 105

A study of the impact of the automobile on contemporary American culture and society using the concepts and approaches of the multidisciplinary field of Science and Technology Studies. The course examines the social contexts and consequences of how cars are designed, assembled, marketed, driven, and regulated; their role in shaping individual, group, and national identity; and their place in the American imagination. (F).

LIBS 113  The World in a Grain of Sand  3. 000 Credits

Must be enrolled in one of the following Classes:
Freshman
Co-requisites: COMP 105 COMP 106

From a single artifact (an object or a text), students will learn to build an understanding of an entire culture in a given historical moment. First by analyzing the artifact and then by building a larger context in which to interpret the significance of that artifact, students will also build their own academic community. By the end of the course, each student will have mastered the use of all library research resources and have developed a specific expertise in an area of research related to the artifact. By the end of the course, the class will have organized its own academic conference on the artifact in which they will share their research and insights. The professor will be a specialist in the area from which the artifact is selected and will guide you in your mastery of research skills and acculturation to academic life. (F).

LIBS 114  The Roots of American Activism  3. 000 Credits

Co-requisites: COMP 105

This course examines the history, rhetoric, and social context of American citizen activism in the nineteenth and early twentieth centuries. Topics will include African American abolitionist and civil rights activism, women's suffrage, the home economics movement, the labor movement, educational reform, and student political involvement on college campuses. We will also pay special attention to how these movements played out locally. Our goal throughout will be to understand how ordinary citizens used language to effect social change - and how we today might do the same. (F).

LIBS 115  Shakespeare: Stage/Page/Screen  3. 000 Credits

Must be enrolled in one of the following Classes:
Freshman
Co-requisites: COMP 105

This course will expand the study of Shakespeare from its traditional literary medium to its heritage of performance on a variety of stages and to its adaptation to the mediums of film and television. Elucidating Marshall McLuhan's axiom - "the medium is the message" - the course will enable students to understand how a text is inflected by its medium. Students in this seminar are required to participate in a class trip to the Stratford Shakespeare Festival in Ontario, Canada. Costs for the tickets and lodging will be partially subsidized. Likely student costs: food and transportation. For further information contact the instructor. (F)
LIBS 116  Fast Food Nation
3. 000 Credits
Must be enrolled in one of the following Classes:
  Freshman
  Co-requisites: COMP 105
This course explores the role of fast food in our society. Fast food is something we take for granted, yet it has helped shape our culture as well as our economy and is a key symbol of the American lifestyle to the rest of the world. In this course we will examine the history of the fast food industry, the nature of work in the fast food sector, the global reach of corporations like McDonald's and Starbucks, the environmental impact of food production, and the rise of the "slow food" movement. The course will introduce students to perspectives from the social and behavioral sciences including economics, sociology, anthropology, environmental studies, science and technology studies, politics, and history. (F)

LIBS 117  The Conscious Brain
3. 000 Credits
Must be enrolled in one of the following Classes:
  Freshman
  Co-requisites: COMP 105
This course will use visual perception and its organization in the brain and related phenomena such as attention and memory as tools to explore the issue of where in the brain consciousness is located, and what the necessary and sufficient criteria for consciousness are. A central premise is that consciousness, formerly the sole province of philosophers, can now be studied empirically using scientific methodologies. (F)

LIBS 118  Gender & Relationships
3. 000 Credits
Must be enrolled in one of the following Classes:
  Freshman
  Co-requisites: COMP 105
This course will focus on gender and close relationships. We will examine how pop culture (including popular movies and self-help psychology books) tend to construct gender as a naturally occurring dichotomy, emphasizing the "vast" differences between women and men. For example, John Gray's relationship self-help book titled "Men are from Mars, Women are from Venus" has sold millions of copies and has helped to perpetuate the idea that women and men are so different as to be considered different species. The course will introduce students to perspectives from various disciplines including psychology, sociology, communications and gender studies. Using theory and scientific research from these various disciplines, students will learn to critically examine the ways that gender and close relationships are portrayed in our society.

LIBS 119  Culture Wars
3. 000 Credits
Must be enrolled in one of the following Classes:
  Freshman
  Co-requisites: COMP 105
This course explores the aspects of the conflict between religion and science in America using the Scopes Trial of 1925 as the primary case study. The trial centered on the teaching of certain ideas generally thought to be part of Charles Darwin's theory of evolution via natural selection. These claims will be evaluated by examining the science of Darwin's "On the Origin of Species". The political debate will be examined first in the context of Thomas Jefferson's writings on democratic policy and science, and then from the perspective of early populist and fundamentalist reaction to Darwinism. The subsequent development of Darwinism patterns in American social, ethical, and literary thought will also be explored, as will the rise of the modern creationist movement. The course will conclude with an analysis of the political, educational, and scientific response to that movement.

LIBS 120  World War II and the Cinema
3. 000 Credits
Must be enrolled in one of the following Classes:
  Freshman
  Co-requisites: COMP 105
This course seeks to explore how the Second World War has been depicted to American audiences during the previous half century. It focuses on ten major films. The first half of the course examines a series of themes uppermost in the minds of directors during the conflict; the second half of the course will explore how the legacy of the war has been remembered during the previous half century.

LIBS 121  East Meets West: Global Conn
3. 000 Credits
Must be enrolled in one of the following Classes:
  Freshman
  Co-requisites: COMP 105
This seminar will introduce students to the following: (1) key primary sources for China and East Asia that focus on global interconnections and exchanges; (2) key theoretical issues tied to thinking about global interconnections; and (3) suggested further readings in secondary sources. Upon completion, students will be familiar with some of the basic ways to think and to find out about exchanges and interactions in world history, and to incorporate Chinese and East Asian materials (in translation) into their research.

LIBS 122  Writing about College Life
3. 000 Credits
Must be enrolled in one of the following Classes:
  Freshman
  Co-requisites: COMP 105
In this class we will look at how our own experiences conform to or challenge popular myths and narratives about the historical and contemporary college experience in America. We will study how college life is constructed in novels, newspapers, diaries, letters, personal interviews, essays, textbooks and films. While reading and writing about the college experience, we will address the intersection between fact and fiction and explore how print and visual representations might shape our perceptions of our world. Overall, students' own stories as college students will be crucial to the class's investigation, assessment and production of college life narratives.

LIBS 123  Cognitive Science Fiction
3. 000 Credits
Must be enrolled in one of the following Classes:
  Freshman
  Co-requisites: COMP 105
What does it mean to be human? Can machines fall in love? Can our consciousness be transmitted to another human being or substance? Is language fundamental to communication of thought? If so how would communication with other life forms proceed? These questions have traditionally been the domain of science fiction. However, given advances in technology, scientists are asking these questions with increasing frequency. This course explores the interplay between science and fiction. Each week we will examine a particular question through both
science and fiction (book, film, etc) and see to what extent the science coincides with, or deviates from, the fiction. There will be a heavy emphasis on topics in cognitive science - an interdisciplinary science of mind and intelligence encompassing fields such as cognitive psychology, philosophy, linguistics, neuroscience and artificial intelligence.

LIBS 124 Wireless World
3.000 Credits
Co-requisites: COMP 105
An examination of the impact of current Internet-based services on such fields as journalism, publishing and research. By critically examining such phenomena as blogs, social networking systems (MySpace and FaceBook), and Wikipedia, students will develop critical literacy and become more effective readers, writers and researchers.

LIBS 125 Apathy 2 Action: Amer Citizenship
3.000 Credits
Must be enrolled in one of the following Colleges:
- Coll of Arts, Sciences & Letters
Must be enrolled in one of the following Classes:
- Freshman
Co-requisites: COMP 105
An examination of American citizenship as understood and practices in a variety of arenas of public life. We will examine both historical and contemporary perspectives on citizenship, including the ways in which public discourse helps situate Americans' understanding of the idea of citizenship, and by extension, the practice of democracy. In addition to exploring citizenship as it operates in the political arena and civil society, we will emphasize the role of higher education in nurturing active citizenship. This seminar includes an academic service learning requirement. Academic service learning is an educational method that integrates volunteer community service with course material to enhance the learning objectives of the course. Students will be expected to participate in a carefully-chosen and instructor-approved civic activity (e.g., volunteerism, democratic participation, public advocacy) that will highlight different models of citizenship in practice.

LIBS 126 Anthropologists on Campus
3.000 Credits
Must be enrolled in one of the following Colleges:
- Coll of Arts, Sciences & Letters
Must be enrolled in one of the following Classes:
- Freshman
Co-requisites: COMP 105
Anthropology professors have studied the lives of university students (My Freshman Year; Coming of Age in New Jersey). This course turns the tables, inviting new students to conduct fieldwork on the hidden lives of professors, university staff and other students. Through guided practice in ethnographic skills-interviewing and participant-observation students will come to understand what culture means to anthropologists while exploring the multiple cultures of UM-Dearborn and gaining insights on meanings and functions of higher education.

LIBS 127 Oceans of Data
3.000 Credits
Must be enrolled in one of the following Colleges:
- Coll of Arts, Sciences & Letters
Must be enrolled in one of the following Classes:
- Freshman
Co-requisites: COMP 105
This course will pursue two distinct themes. The first is the triumphs of modern statistical methodology in science during the last hundred years. Definitive studies such as the Salk Vaccine Field Trials and those involving the smoking and lung cancer controversy will be examined in depth. The second theme is the awareness and use of public access databases, which are also used by researchers and policymakers. These include the National Health and Nutrition Examination Survey (NHANES), the Surveillance Epidemiology and End Results (SEER) database of cancer registries, the Statistical Abstract of the United States, and Search Systems, Inc Public Records Directory. The course will involve a number of readings and the interpretations of data that will form the basis of classroom discussion and written reports.

LIBS 128 Exploring Race and Identity
3.000 Credits
Must be enrolled in one of the following Colleges:
- Coll of Arts, Sciences & Letters
Must be enrolled in one of the following Classes:
- Freshman
Co-requisites: COMP 105
This seminar will examine a variety of models of mental health in African Americans and racial, ethnic and self-identity development. The impact of Black society, culture, family, racism and poverty on personality growth of African Americans will be explored. The history of Black psychology and the pioneer theorists who have made significant contributions to foundation and continuing study of the thoughts, feelings, behaviors and mental health of African Americans will be discussed.

LIBS 129 Trauma, Text, & the City
3.000 Credits
Must be enrolled in one of the following Colleges:
- Coll of Arts, Sciences & Letters
Must be enrolled in one of the following Classes:
- Freshman
Co-requisites: COMP 105
An exploration of how artists and writers represent urban trauma (terror, violence, destruction, absence) to describe indescribable suffering. In the wake of urban chaos, how do writers make urban community possible? To answer this question, we will examine traumatic events in New York City (9/11) as well as Detroit to understand how emails, photographs, novels, documentaries, and films try to narrate chaos and stabilize urban history. In addition to films that experiment with narrative (such as Memento [2000] and documentaries about 9/11 and Detroit), texts may include writings by psychologists (Freud), urban historians (Sugrue), cultural theorists (Baudrillard), and novelists (Joseph Conrad).

LIBS 130 Liberal Arts & the Professions
3.000 Credits
Co-requisites: EXPS 102
A liberal arts perspective on careers and professions. Topics include the historical relationship between a liberal arts education and professional training, the development of the concepts of "career" and "profession," sociological and psychological understandings of professions and workplaces, and accounts of work in several different professions (such as journalism, teaching, and medicine). Assignments focus on enhancing the connections between academics and career preparation. Students enrolled in LIBS 130 must also enroll in Exploratory Studies 102, a one-credit career-planning course that assists students in assessing their interests, skills, and values and in identifying and researching careers.
Globalization is the predominant interpretative concept through which we analyze the state of the planet in general, and the intermingling of cultures in particular. This course proposes a comprehensive examination of cultures around the world to first-year university students. A transdisciplinary approach (history, political science, economics, geography, and anthropology) will introduce students to a wide breadth of content and depth of contextualization, and enhance their understanding of the complexities of the (post)modern world. In addition to readings on the main groups of world cultures, we will analyze several films that address the issues of cultural identity and globality. The question of stereotyping cultures will be discussed through examples of parodic representations of cultures. The course will also address the tensions between local ways of life (historical, linguistic, ethnic, and religious) and today's pressures for transnational and multiple identities, intensified by the communication of ideas and the movement of people around the world. Thus, we will also look at how the cultures of immigrant communities in south east Michigan have contributed to the local cultural configuration.

LIBS 191 Returning Adult Learners
1.000 Credits
LIBS 191 is designed to provide returning adult students with the support, skills, and knowledge needed for academic success at the University of Michigan Dearborn. Students will discover productive learning strategies, build a supportive network of peers, and explore campus resources by examining, through selected readings and assignments, the broader social, cultural, and individual context of being a non-traditional student at a university campus.

LIBS 200 Computer Literacy
1.000 TO 3.000 Credits
An introductory course in computing for students who do not intend to become computer programmers or designers. The course explores the nature and origins of computing, and examines its uses and limitations in such applications as teaching/learning, buying/selling and information storage/retrieval. The social implications of the computer revolution will be examined and limited programming will be provided with a small, home computer.

LIBS 290 Topics in Liberal Studies
1.000 TO 3.000 Credits
A lower-level topics course. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

LIBS 300 Co-Op Education Seminar
1.000 Credits
Required co-op seminar is a corequisite or immediate post-requisite of the initial co-op work assignment (LIBS 395). Course seeks to correlate the off-campus work experience with academic learning and career orientation issues through discussion and evaluation of work experiences as they are likely to be encountered by the liberal arts graduate through analysis of job-seeking information and skills. Evaluation of student performance is based upon discussion and the quality of required assignments.

LIBS 320 Library Research Skills
1.000 Credits
Development of library research skills utilizing periodical and newspaper indexes, reference materials, government documents, biographical sources.

LIBS 364 The European Union
3.000 Credits
LIBS 364. Student seeking graduate credit should elect LIBS 564. Co-requisites: COMP 105
This course examines the history and politics of European integration, notably institutional development, decision-making procedures and dynamics, and policy formulation in the European Union. The course will concentrate on the intergovernmental conferences and treaty reform, the relationship between European politics at the subnational, national and supranational levels; the role of national, institutional, and non-state actors; problems of accountability and legitimacy; the economic and monetary union, and enlargement. The course will also address questions of globalization and technology, and the American perception of the EU. (OC).

LIBS 395 Co-op Education Work Assignment
1.000 TO 3.000 Credits
LIBS 395. This course seeks to correlate the off-campus work experience with academic learning and career orientation issues through discussion and evaluation of work experiences as they are likely to be encountered by the liberal arts graduate through analysis of job-seeking information and skills. Evaluation of student performance is based upon discussion and the quality of required assignments.

LIBS 442 Medical Ethics
3.000 Credits
Prerequisites: PHIL 240
An examination of moral issues in medicine. Among the problems to be considered are truth-telling and paternalism in the doctor-patient relationship, psychosurgery and behavior control, death and euthanasia, the allocation of scarce resources, and genetic counseling and control. Specific attention will be given to ethical theories and to philosophical concepts such as rights, autonomy, and justice.

LIBS 464 Literature and Science Studies
3.000 Credits
Must be enrolled in one of the following Classes: Senior
An introduction to the humanistic study of science using works of literature and the techniques of literary, historical, sociological, philosophical, cultural, feminist, and rhetorical analysis. Students cannot receive credit for both LIBS 464 and LIBS 564. Student seeking graduate credit should elect LIBS 564.
LIBS 466 Investigating Academic Literacy
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
Intensive investigation of, and practice with, writing and research skills required for graduate-level work. Through regular assignments, guided reading of a variety of texts, and intensive work with instructor/s and one another, students will explore what it means to produce academic discourse, learn its conventions, and develop skills in written analysis. Students cannot receive credit for both LIBS 466 and LIBS 566. Students seeking graduate credit should elect LIBS 566.

LIBS 467 Self in Philosophy/Literature
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
This course will utilize both philosophical and literary texts to examine the nature of self. We will explore the self’s capacity for self-knowledge and self-deception, its relation to others, its connection to gender, its existence as body, and finally its desire to disown and flee itself. The philosophical texts will provide theoretical structures within which to both experience and discuss the literary texts. Students cannot receive credit for both LIBS 467 and LIBS 567. Students seeking graduate credit should elect LIBS 567.

LIBS 471 Science & Phil of Emotions
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
This course will examine how philosophers, scientists, and psychologists in the past analyzed the emotions in order to set the stage for an examination of more recent work on the emotions currently being produced in philosophy, psychology, and the neurosciences. We will use these analyses to explore the following topics: the mental and physical components of emotions, the relation between reason and emotion, and the understanding of the emotions of others. Students cannot receive credit for both LIBS 471 and LIBS 571. Students seeking graduate credit should elect LIBS 571.

LIBS 480 Gender, Culture, and Identity
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
This is a course about how scholars analyze women, gender, and feminist theories. It introduces students to key questions about gender and the principal methods for studying them. It will serve as a forum for building and testing theories on the totality of women’s experience. Student cannot receive credit for both LIBS 480 and LIBS 580. Students seeking graduate credit should elect LIBS 580.

LIBS 484 Env St:Concepts and Philosophy
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
An extensive and intensive analysis of the roots of environmental studies. Environmental studies becomes meta-disciplinary as it makes connections between the traditional disciplines in the natural sciences, social sciences, humanities, and technological sciences when dealing with current environmental issues. The students will examine and discuss the philosophical, scientific, social, and religious basis of the environmental movements through classical and contemporary readings. Possible topics will include: views of nature, sustainability, carrying capacity, management of commons, the environment of cities, and developing a sense of place. Students cannot receive credit for both LIBS 484 and LIBS 584. Students seeking graduate credit should elect LIBS 584.

LIBS 485 Watershed Analysis
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
An interdisciplinary study of watersheds, the most commonly used bioregional unit. The course will integrate the analysis of many factors which contribute to the character of watersheds, including bedrock and surficial geology, surface and groundwater hydrology, social history, land use history, water quality analysis, biological diversity, laws and regulations, management models, drinking water and wastewater, best management practices, and educational programs. The Rouge River Watershed will serve as the primary case study. Students cannot receive credit for both LIBS 485 and LIBS 585. Student seeking graduate credit should elect LIBS 585.

LIBS 487 Women and Public Spaces
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
Despite old and persistent myths of a woman’s place being in the home, women in America have consistently maintained a presence in public spaces. Their participation, however, was not unfettered. Laws, social mores, familial and religious restraints, etiquette, the threat of violence, lack of funds, and other factors influenced and restricted women’s behavior when in public and structured society’s reactions to their presence. This course will consider the development of these codes of behavior (formal and informal), how women of different ethnicities, races, sexual orientations, and classes experienced their effects, and the ways in which women sought to temper and undermine the system, particularly in the twentieth century. The course will provide an interdisciplinary approach to historic, social, physical, economic, and cultural geographies through which women have traveled. Students cannot receive credit for both LIBS 487 and LIBS 587. Student seeking graduate credit should elect LIBS 587.

Linguistics
(minor only)

MINOR OR AREA OF FOCUS
Students may earn a minor in LING and use Linguistics as an area of focus for the Bachelor of General Studies degree completing 12 hours of upper-division credit in Linguistics.

DEGREE REQUIREMENTS
Students may earn a minor in Linguistics or use Linguistics as an area of focus for the Bachelor of General Studies degree by completing 12 hours of upper-division credit in Linguistics. Basic and upper-level courses are offered, some of which are cross-listed with English (ENGL), African and African American Studies (AAAS), Anthropology (ANTH) or Psychology (PSYC). Secondary education students seeking certification in English are required to take an introductory course in Linguistics as well as Modern English Grammar. Students in the English as a Second Language (ESL) Endorsement Program are required to take 15 credit hours of Linguistics courses, including three required
LINGUISTICS MINOR:

The Linguistics Minor introduces the theory and methods of linguistics. Students pursue upper-level training in sociolinguistics and the linguistic structure, history, and social functions of particular varieties of English. Independent study courses are available for students wishing to research specific topics in greater detail.

ESL ENDORSEMENT CERTIFICATE:

Students in the English as a Second Language (ESL) Endorsement Program are required to take 15 credit hours of linguistics courses, including three required and two electives. LING 480/580 Concepts in Linguistics is the program prerequisite, and LING 476/576 Sociolinguistics and LING/ENGL 474/574 Second Language Acquisition: English are required. LING/ENGL 461/561 Modern English Grammar, LING/ENGL 482/582 History of the English Language, LING/ENGL 484/584 World Englishes, and LING/ANTH 425/525 Language and Society are offered as electives within required linguistics coursework.

LANGUAGE ARTS EDUCATION OR ENGLISH WITH SECONDARY EDUCATION MAJORS:

Students majoring in Language Arts Education and English with Secondary Education are required to take either LING/ENGL 461 Modern English Grammar or LING/ENGL 482 History of the English Language, as well as an additional linguistics elective. LING 280 is the prerequisite for both of these courses and covers material examined in the Michigan State Teacher Certification Examination.

COURSES

(Crosslisted courses show code of cross-listing discipline in parentheses to right of course title)

LING 280 Introduction to Linguistics (prerequisite for all upper levels)
LING 281 Language, Thought, and Culture
LING 285 Psychology of Language (PSYC)
LING 375 American English (ENGL)
LING 383 Language Pathologies
LING 390 Topics in Linguistics
LING 399 Independent Studies in Linguistics
LING 425 Language and Society (ANTH)
LING 461/561 Modern English Grammar (required for Secondary Education Certification in English)
LING 464 Contemporary Rhetorical Theory (COMP)
LING 465 Discourse Analysis
LING 474/574 Second Language Acquisition: English (ENGL, required for ESL Endorsement)
LING 475/575 Arab American English
LING 476/576 Sociolinguistics (required for ESL Endorsement)
LING 477/577 African American English (AAAS/ENGL, fulfills CASL Diversity Requirement)
LING 480/580 Concepts in Linguistics (required for ESL Endorsement)
LING 482/582 History of the English Language (ENGL)

LING 484/584 World Englishes (ENGL)
LING 499 Advanced Independent Studies in Linguistics
LING 599 Graduate Independent Studies in Linguistics

Linguistics (LING) COURSE OFFERINGS

LING 280 Introduction to Linguistics
3.000 Credits
The basic concepts, scope, and methodology of the descriptive and historical study of the English language. (F, W, S).

LING 281 Language, Thought, and Culture
3.000 Credits
A practical application of linguistic principles to many aspects of human behavior. Some of the topics covered will be language and thought, first and second language acquisition, social dialects, and reading. (OC).

LING 375 Psychology of Language
3.000 Credits
Prerequisites: PSYC 171 or PSYC 170 or LING 280
The nature of human language as seen from the perspective of experimental psychology. The course introduces the student to current developments in linguistic theory. (OC).

LING 383 American English
2.000 TO 3.000 Credits
Prerequisites: LING 280 or LING 281
The development of American English and its dialects interpreted in the light of cultural history and processes of language change.

LING 385 Gender Differences in Language
3.000 Credits
Prerequisites: LING 280 or LING 281
Examines theories of differences between male and female speakers of English, focusing on phonological, syntactic, semantic, stylistic, and conversational features, with analyses of differences in speaking strategies and agendas of male and female speakers, as well as split-gender language situations in the workplace, home, and social settings.

LING 388 Language Pathologies
3.000 Credits
Prerequisites: LING 280 or LING 281
A survey of language pathologies, spoken and written; production and reception; primary and secondary (those arising from other medical dysfunctions: stroke, muscular dystrophy, multiple sclerosis, cerebral palsy, cleft, deafness). Attention to pathologies related to psychoses and neurological disorders. (AY).

LING 390 Topics in Linguistics
3.000 Credits
Examination of problems and issues in selected areas of linguistics. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).
LING 391 Independent Study
3.000 Credits

LING 399 Independent Studies in Ling
1.000 to 6.000 Credits
Readings or analytical assignments in linguistics in accordance with the needs and interests of those enrolled and agreed upon by the student and advising instructor. May be repeated for a maximum of 6 credit hours. (F, W).

LING 425 Language and Society
3.000 Credits
Prerequisites: ANTH 101 or LING 280 or LING 281
An examination of the social functions of speech through readings and exercises, emphasizing schools and other applied settings. Topics include ethnic and social class dialects, code switching, and the organization of conversation. Students cannot receive credit for both LING 425 and LING 525. (YR).

LING 461 Modern English Grammar
3.000 Credits
Prerequisites: LING 280 or LING 281
The morphological and syntactic analysis of the structure of present day English considered in the light of modern linguistic science. Students cannot receive credit for both LING 461 and LING 561.

LING 464 Contemporary Rhetorical Theory
3.000 Credits
May not be enrolled in one of the following Classes:
Graduate
Prerequisites: COMM 2015 or COMM 220 or COMM 250 or COMM 260 or COMM 280 or COMM 290 or ENGL 200 or ENGL 223 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 240 or ENGL 248 or ENGL 250
An examination of contemporary rhetorical theories through study of representative practitioners and related developments in linguistics, philosophy, psychology, communication, and composition and rhetoric. Students may not receive credit for both LING 464 and LING 564.

LING 465 Discourse Analysis
3.000 Credits
May not be enrolled in one of the following Classes:
Graduate
Prerequisites: LING 280 or LING 281
An examination of the syntactic and semantic devices and structures underlying communication in written texts and oral interaction. Material to be analyzed will vary from term to term (technical reports, scholarly articles, newspaper stories) but examples will be drawn primarily from the written language. Students cannot receive credit for both LING 465 and LING 565.

LING 474 Second Language Acquisition: Engl
3.000 Credits
Prerequisites: LING 280 or LING 281 or LING 480
A survey of fundamental concepts and major concerns in the study of English as a Second Language (ESL). The course examines a variety of psycholinguistic and sociolinguistic issues related to second language acquisition (SLA), ranging from theoretical to pedagogical. A primary focus is on developmental patterns and cognitive processes of SLA and individual variation in ESL speakers in terms of their social motivations and learning strategies. Implications for practical concerns such as the ESL teaching profession, instructional materials and curriculum development will be addressed where relevant.

LING 475 Arab American English
3.000 Credits
Prerequisites: LING 280 or LING 281 or LING 480
The study of the development, features, functions, and significance of varieties of English in the Arab American community. A range of sociolinguistic approaches are explored and applied to the subject matter. Topics to be addressed include code switching, language shift and maintenance, and the role of language in identity formation. Students cannot receive credit for both LING 475 and LING 575.

LING 476 Sociolinguistics
3.000 Credits
May not be enrolled in one of the following Classes:
Graduate
Prerequisites: LING 280 or LING 480
An examination of sociolinguistic approaches to the issue of variation in language. Areas to be considered include ways of defining and constructing language, different types of language varieties, how variation is structured in language, the role of sociolinguistic variation in linguistic change, and the significance of linguistic acts of identity. (YR)

LING 477 African American English
3.000 Credits
May not be enrolled in one of the following Classes:
Graduate
Prerequisites: LING 280 or LING 281 or LING 480
An examination of the structure, history and use of African-American English. Topics will include the pronunciation, grammar and vocabulary of African-American English, theories of origin, linguistic repertoire and code-switching in African-American communities, the Ebonics controversy, and the role of this variety in education and identity formation. Students cannot receive credit for both LING 477 and LING 577.

LING 480 Concepts in Linguistics
3.000 Credits
May not be enrolled in one of the following Classes:
Graduate
An examination of foundational concepts in linguistic and sociolinguistic theory, which explores the intellectual and philosophical problems raised by these concepts. Issues covered include the metalinguistic nature of language studies, the relation of language to the communication systems of other species, the physiological basis of language, language variation, language function and instrumentality, and innate versus learned behavior. Designed for students pursuing the Endorsement in ESL Teaching. (YR)

LING 482 History of the English Lang
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: LING 280 or LING 480
A thorough grounding in the history and structure of the English language. At issue are the linguistic and ideological origins of the concept of Standard English, and the strengths and limitations of different methods of analyzing the history of the language. The course will emphasize sound change, grammatical change, and their sociolinguistic context. (YR)
Students who wish to use graduate-level courses, numbered 500 or higher, as part of the 24 hours of upper-level coursework required for the concentration, must submit a petition to obtain the approval of the Program Advisor in Mathematics.

Students seeking secondary teacher certification must take MATH 331, MATH 486, EDD 450 and EDD 451. Also, MATH 395 and a course in statistics are recommended for such students. None of the following MATH courses may be used to fulfill any requirements of either a Mathematics concentration or a Mathematics minor: 363, 385, 386, 387, 442, 443, 444, 445, 446, 447, 449 and 486.

Students must also elect six hours of coursework at the 300 level or above in cognate areas such as statistics, computer science, logic, chemistry, physics, and engineering. As examples of cognates, any physics or chemistry course at the 300 level or higher is acceptable, as is any STAT, CIS, ECE or ME course at level 300 or higher. Other courses include IMSE courses at level 300 or higher (except IMSE 334) and PHIL 350 and 485. Finally, cognate credit is given for CHEM 225 and 226, and for CIS 290 if CIS 200 has been completed. The program advisor must approve other courses. CCM 150 or CIS 150 or a 3 credit-hour CIS course that has CIS 150 as a prerequisite is required for the concentration. (Note: The requirement for graduation that no more than 44 hours in one subject area can applied toward the 120 hours needed for graduation does not include credits earned in Pre-calculus and Calculus I and II.)

Any student should repeat immediately a course in mathematics in which the student has received a D or less and which is a prerequisite for other mathematics courses that the student wishes to elect. The grade D commonly signifies some achievement, but not enough on which to build. The same principle should be followed when a mathematics course is a prerequisite for a course in another department.

CREDIT BY EXAMINATION

The department grants credit for Calculus I to those students who have received a score of three, four, or five on the AB Exam or a score of three on the BC Exam of the Advanced Placement Program Tests of the College Entrance Examination Board. Credit is granted for both Calculus I and Calculus II to those students who have received a score of four or five on the BC Exam of the Advanced Placement Program Tests. In each case, the student is then eligible to elect the next calculus course in the calculus sequence.

MINOR OR AREA OF FOCUS

A minor or area of focus consists of 12 hours in mathematics courses approved for upper-level credit in the mathematics concentration program.

Math (MATH) COURSE OFFERINGS

MATH 080 Introductory Algebra
3.000 Credits
Prerequisites: MPLS 080
Topics include operations with signed numbers, translation from words into mathematical language, introduction to operations with polynomials and factoring polynomials, linear equations and inequalities, graphing, radicals, and quadratic equations. This course is offered as a service to students who need extra
preparation in algebra skills as well as students who have never had algebra. The course is graded on an A, B, C, no credit basis. Students intending to elect this course should have taken at least one year of high school mathematics. This course is offered for additive credit. (F, W).

MATH 090  Intermediate Algebra
3. 000 Credits
Prerequisites: MATH 080 or MPLS 090

A continuation of introductory algebra. Emphasis is on extending introductory concepts as well as introducing new concepts. Factoring polynomials, simplifying rational expressions, solving linear and quadratic equations and inequalities, solving systems of equations, rational exponents and radicals, graphing of parabolas and circles, functional notation, and introduction to logarithms. The course is graded on an A, B, C, no credit basis. Students intending to elect this course should have taken at least one year of high school mathematics. This course is offered for additive credit. (F, W, S).

MATH 104  Precalc: Mgt, Life, & Soc Sci
4. 000 Credits
Prerequisites: MATH 090 or MPLS 105

Primary purpose of this course is to prepare students for success in MATH 113. Topics include equations and inequalities; linear, quadratic, polynomial, rational, logarithmic and exponential functions along with their graphs; application of these functions; systems of linear inequalities. This course does not cover trigonometric functions and cannot be used as a prerequisite for MATH 115. Students electing this course should have taken at least two years of High School Algebra and one year of High School Geometry or MATH 090. Students cannot receive credit for both MATH 104 and MATH 105. (F, W, S)

MATH 105  Pre-Calculus
4. 000 Credits
Prerequisites: MATH 090 or MPLS 105

Primary purpose of this course is to prepare students for success in Calculus. Topics include equations and inequalities; linear, quadratic, polynomial, rational, logarithmic, exponential and trigonometric functions along with their graphs; application of these functions. Students electing this course should have taken at least two years of High School Algebra and one year of High School Geometry or MATH 090. Students cannot receive credit for both MATH 104 and MATH 105. (F, W, S)

MATH 113  Calc I: Mgt, Life and Soc Sci
4. 000 Credits
Prerequisites: MATH 105 or MATH 104 or MPLS 115

Primarily a study of the differential and integral calculus of algebraic, logarithmic, and exponential functions of one variable. Topics include limits, continuity, differentiation, integration, graphing, marginal analysis, optimization, related rates, area, and volume. Designed for students in management, social sciences, and some of the biological sciences. (This course does not fulfill the calculus requirements for concentration in chemistry, physics, biochemistry, engineering, or mathematics. Credit cannot be received for both MATH 113 and MATH 115.) (F, W, S).

MATH 114  Calc II: Mgt, Life, and Soc Sci
4. 000 Credits
Prerequisites: MATH 113 or MATH 115 or MPLS 116

Multivariable calculus (including partial differentiation and multiple integrals) and some elementary differential equations. Introduction to probability and statistics (including the normal distribution), and systems of linear equations using matrix methods (including the simplex process). Students cannot receive credit for both MATH 114 and MATH 116. (W).

MATH 115  Calculus I
4. 000 Credits
Prerequisites: MATH 105 or MPLS 115

Functions and their graphs; limits and continuity of functions, differentiation, algebraic and trigonometric functions, applications of derivatives, definite and indefinite integrals, and applications of definite integral. This course includes computer labs. Students cannot receive credit for both MATH 113 and MATH 115. (F, W, S).

MATH 116  Calculus II
4. 000 Credits
Prerequisites: MATH 115 or MPLS 116

Transcendental functions, techniques of integration, improper integral, infinite sequences and series, Taylor's theorem, topics in analytic geometry, polar coordinates, and parametric equations. This course includes computer labs. Students cannot receive credit for both MATH 114 and MATH 116. (F, W, S).

MATH 131  Conceptual Mathematics
4. 000 Credits

In this course, the student is exposed to both the practical and the abstract nature of mathematics. The usefulness of mathematics is seen by considering such topics as problem solving, graph theory, inductive and deductive reasoning, and statistics. The abstract nature of mathematics and its methodology is seen by a study of an algebraic structure such as a group. Another important aspect of this course is the historical development of mathematics. Finally, the student is exposed to specific areas of mathematics in order to develop his/her appreciation of and skill level with mathematical concepts, facts, and processes. Students intending to elect this course should have taken the equivalent of one year of high school algebra and one year of high school geometry. This course is not open to mathematics concentrators. (F, W, S).

MATH 200  Math Proof and Structures
2. 000 Credits
Prerequisites: MATH 116 or MPLS 215

This course is designed for students either considering a concentration in mathematics or intending to take MATH 331, 412, or 451, among others. The course covers basic mathematical concepts needed in upper-level mathematics courses such as set theory, logic, and methods of mathematical proof. Additional topics may include equivalence relations, functions and mappings, and algebraic structures. (F, W).

MATH 205  Calc III for Engin Students
3. 000 Credits
Prerequisites: MATH 116 or MPLS 215

Vectors in the plane and space, topics from multivariable calculus including partial differentiation and multiple integration, with an emphasis on applications, and line integrals and Green's theorem. This course includes computer labs. Students cannot receive credit for both MATH 205 and MATH 215. (F, W, S).
MATH 215  Calculus III  
4.000 Credits  
Prerequisites: MATH 116 or MPLS 215  
Vectors in the plane and space, vector-valued functions and curves, functions of several variables including limits, continuity, partial differentiation and the chain rule, multiple integrals and coordinate transformations, integration in vector fields, and Green's and Stokes' theorems. This course includes computer labs. Students cannot receive credit for both MATH 205 and MATH 215. (F, W).

MATH 216  Intro to Diff Equations  
3.000 Credits  
Prerequisites: MATH 205 or MATH 215  

MATH 217  Intro to Matrix Algebra  
2.000 Credits  
Prerequisites: MATH 116 or MPLS 215  
Systems of equations, matrices, determinants, the n-dimensional real vector spaces, orthonormal basis, linear transformations, and eigen values and eigenvectors. Students cannot receive credit for both MATH 217 and MATH 227. (F, W, S).

MATH 227  Introduction to Linear Algebra  
3.000 Credits  
Prerequisites: MATH 116 or MPLS 215  
An introduction to the theory and methods of linear algebra with matrices. Topics include systems of linear equations, algebra of matrices, matrix factorizations, vector spaces, linear transformations, eigenvalues and eigenvectors, science and engineering applications, and computational methods. Students cannot receive credit for both MATH 227 and MATH 217. (F, W, S).

MATH 276  Discrete Math Meth Comptr Engr  
4.000 Credits  
Prerequisites: MATH 116 or MPLS 215  
An introduction to fundamental concepts of discrete mathematics for computer engineering. Topics will be chosen from: set theory, partially ordered sets, lattices, Boolean algebra, semi-groups, rings, graphical representation of algebraic systems, graphs and directed graphs. Applications in various areas of computer engineering will be discussed. (F, W, S).

MATH 297  The Nature of Mathematics  
3.000 Credits  
Mathematics will be presented in a way so that Honors Program students (including non-science majors) can learn what makes mathematics a fascinating field of study rather than a collection of dry formulas. A few "Great Theorems" will be studied in their historical context, inter-connections between mathematics and science will be studied, and some famous personalities will be presented. Open only to students in the CASL Honors Program.

MATH 315  Applied Combinatorics  
3.000 Credits  
Prerequisites: MATH 200 and (MATH 227 or MATH 217)  
An introduction to methods and applications of enumerative and configurational combinatorics. Students study several elegant and useful techniques for counting and/or generating the elements in large and unwieldy finite sets. Students will also study topics in graph theory that are applicable to real world problems. Topics include basic counting principles, the principle of inclusion-exclusion, generating functions and recurrence relations. Topics from graph theory include graph models, paths, circuits, cycles, connectedness, planarity, coloring, directed graphs, and networks and network flows. (AY, W).

MATH 325  Mathematical Statistics I  
3.000 Credits  
Prerequisites: MATH 114 or MATH 116  
Brief overview of summary and display of data, probability concepts, discrete and continuous random variables and associated probability models, expectation, independent random variables, probability generating functions and moment generating functions, sampling distributions, the central limit theorem, the t-distribution, properties of estimators, and interval estimation. (F).

MATH 331  Survey of Geometry  
3.000 Credits  
Prerequisites: MATH 116 and MATH 200  
A development of Euclidean geometry as a formal axiom system and an introduction to non-Euclidean geometries and to Transformational Geometry. Geometric models and the history of geometry are stressed. Development of students' geometric intuition as well as their ability to work in a formal axiom system are emphasized. (F).

MATH 363  Introduction to Statistics  
3.000 Credits  
Prerequisites: MATH 114 or MATH 116  
Frequency distributions and descriptive measures. Populations, sampling, and statistical inference. Elementary probability and linear regression. Use of statistical computer packages to analyze data. Students can receive credit for only one of MATH 363, STAT 363, SOC 383, and STAT 325. Students intending to elect this course should have taken at least one year of high school algebra. (F, W, S).

MATH 372  Computing with Mathematica  
3.000 Credits  
Prerequisites: MATH 217 or MATH 227  
The course explores a variety of topics from different areas of undergraduate mathematics including calculus, matrix algebra, number theory, geometry, and discrete mathematics. Students learn to design customized Mathematica functions to solve specific problems in these areas using the symbolic, computational, graphics and programming tools provided within Mathematica. (AY, W).

MATH 385  Math for Elemen Teachers I  
3.000 Credits  
Must be enrolled in one of the following Colleges:  
School of Education  
The purpose of this course and the Math 386 and Math 387 courses is to provide future teachers with foundational knowledge of mathematics they will teach. An inquiry approach is emphasized involving problem solving, problem posing, pattern seeking, reasoning, justification, representations, and communications. Topics in Math 385 include numeration, meaning of operations, the reasoning behind procedures, and the rational number system, including fractions and decimals. (F, W).
MATH 386  Math for Elem Teachers II  
3. 000 Credits  
Must be enrolled in one of the following Colleges:  
School of Education  
Prerequisites: MATH 385  
The purpose of this course and the Math 385 and Math 386 courses is to provide future teachers with foundational knowledge of mathematics they will teach. An inquiry approach is emphasized involving problem solving, problem posing, pattern seeking, reasoning, justification, representations, and communications. Topics in Math 386 include number theory, proportional reasoning, the geometry of two-dimensional shape and measurement, integers, and the real number system. (F, W)

MATH 387  Math for Elem Teachers III  
3. 000 Credits  
Must be enrolled in one of the following Colleges:  
School of Education  
Prerequisites: MATH 386  
The purpose of this course and the Math 385 and Math 386 courses is to provide future teachers with foundational knowledge of mathematics they will teach. An inquiry approach is emphasized involving problem solving, problem posing, pattern seeking, reasoning, justification, representations, and communications. Topics in Math 387 include data analysis; probability; the geometry of three-dimensions including shape, spatial visualization, and measurement; geometric concepts of similarity and congruence; coordinate geometry; and transformational geometry. Algebraic reasoning is integrated throughout. (F, W)

MATH 390  Topics in Mathematics  
1. 000 TO 3. 000 Credits  
A course designed to offer selected topics in different areas of mathematics. The specific topic or topics will be announced together with the prerequisites each term. Course may be repeated for credit when specific topics differ.

MATH 391  Topics in Mathematics Education  
1. 000 TO 3. 000 Credits  
A course designed to offer selected topics in mathematics related to K-12 education. The specific topic or topics will be announced together with the prerequisites each term. Course may be repeated for credit when specific topics differ. (OC).

MATH 395  Elementary Number Theory  
3. 000 Credits  
Prerequisites: MATH 205 or MATH 215  
Properties of the integers, the division algorithm, Euclid's algorithm, Fermat's theorems, unique factorization of integers into primes, congruences, arithmetic functions, Diophantine equations, continued fractions, quadratic reciprocity. (W).

MATH 399  Independent Studies in Math  
1. 000 TO 3. 000 Credits  
Independent study in mathematics for topics at the junior level. Topics and objectives chosen by agreement between student and instructor.

MATH 404  Dynamical Systems  
3. 000 Credits  
Prerequisites: MATH 216 and (MATH 217 or MATH 227)  
The aim of this course is to survey the standard types of differential equations. This includes systems of differential equations, and partial differential equations, including for each type, a discussion of the basic theory, examples of applications, and classical techniques of solutions with remarks about their numerical aspects. Also included are autonomous and periodic solutions, phase space, stability, perturbation techniques and Method of Liapunov. Students cannot receive credit for both MATH 404 and MATH 504. (AY).

MATH 405  Integral Equations  
3. 000 Credits  
Prerequisites: MATH 216 and (MATH 217 or MATH 227)  
Origin and classification of integral equations, connections with differential equations, integral equations of convolution type, method of successive approximations, single kernels, elements of Hilbert space, linear operators, resolvents, Fredholm theory and Hilbert-Schmidt theory. Students cannot receive credit for both MATH 405 and MATH 505. (OC).

MATH 412  First Course in Modern Algebra  
3. 000 Credits  
Prerequisites: MATH 200 and (MATH 217 or MATH 227)  
Introduction to groups, subgroups, group homomorphisms, factor groups, simple groups, cyclic groups. Sylow theorems, rings, ideals, integral domains, fields, polynomial rings, Kronecker's theorem, also properties of the integer, rational, real, and complex numbers. Students cannot receive credit for both MATH 412 and MATH 512. (W).

MATH 413  Linear Algebra  
3. 000 Credits  
Prerequisites: MATH 200 and MATH 216 and (MATH 217 or MATH 227)  
Vector spaces, linear transformations and matrices, determinants, inner product spaces, bilinear and quadratic forms, Hamilton-Cayley theorem, eigen values and eigenvectors, and spectral theorem. Students cannot receive credit for both MATH 413 and MATH 513. (F).

MATH 420  Stochastic Processes  
3. 000 Credits  
Prerequisites: MATH 217 or MATH 227  
Review of distribution theory. Introduction to stochastic processes, Markov chains and Markov processes, counting, and Poisson and Gaussian processes. Applications to queuing theory. Students cannot receive credit for both MATH 420 and MATH 520. (AY, W).

MATH 425  Mathematical Statistics II  
3. 000 Credits  
Prerequisites: MATH 325  
Interval estimation and pivotal quantities, maximum likelihood estimation, hypothesis tests, linear models and analysis of variance, bivariate normal distribution, regression and correlation analysis, and nonparametric methods. Students cannot receive credit for both MATH 425 and MATH 525. (AY, S).

MATH 442  Geometry for Teachers  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Rackham  
Graduate  
Must be enrolled in one of the following Colleges:  
School of Education  
Prerequisites: MATH 387  
Properties of two and three-dimensional figures are covered,
including congruence, symmetry, transformation, and measurement. Trigonometry from a geometric perspective and the use of trigonometry in problem solving are included. Topics also include coordinate geometry and visualization as well as the nature of axiomatic reasoning and the role it has played in the development of mathematics. An investigative approach involving problem solving, reasoning and proof, connections, and communication will be emphasized. Calculator and computer technology will support the investigation of these topics. Classroom resources and materials are considered. Different levels of geometric thinking will be explored. No credit for CASL concentration, minor, or area of focus. Open only to certified teachers or elementary education students. Student cannot receive credit for both MATH 442 and MATH 542.

MATH 443  Algebra for Teachers
3. 000 Credits
Must be enrolled in one of the following Levels:
  Rackham
  Graduate
Must be enrolled in one of the following Colleges:
  School of Education
Prerequisites: MATH 386

Algebraic structure is emphasized, especially as it relates to arithmetic. Emphasis is on the development of algebraic reasoning and generalizations with the appropriate pedagogy. Curriculum issues relevant to teaching algebra for conceptual understanding are included. Major topics include algebraic representations of linear, exponential, power and quadratic patterns, systems of equations, and applications. An investigative approach involving problem solving, reasoning and proof, connections and communications will be emphasized. Classroom resources and materials are considered as well as calculators and computer technology as problem-solving tools to aid in algebraic thinking. No credit for CASL concentration, minor or area of focus. Students cannot receive credit for both MATH 443 and MATH 543. (F, W, S).

MATH 444  Data Anlys, Prob&Stat for Tchrs
3. 000 Credits
Must be enrolled in one of the following Colleges:
  School of Education
Must be enrolled in one of the following Classes:
  Senior
  Post-baccalaureate NCFD
  Junior
  Post-baccalaureate Cert only
Prerequisites: MATH 387

Concepts of probability using both experimental and theoretical models are considered with an emphasis on the use of probability models to describe physical phenomena and to make and interpret predictions. Topics in data analysis and statistics include drawing inferences from visual displays of data, applying techniques of inferential statistics, sampling and simulations to generate solutions to problems, and making appropriate inferences using best fit techniques. Evaluating data and arguments to establish validity, interpreting, calculating and solving problems related to correlation, distributions, percentiles and standard scores are also included. An investigative approach involving problem solving, reasoning and proof, connections, and communication will be emphasized. Calculator and computer technology will support the investigation of these topics. No credit for CASL concentration, minor, or area of focus. Open only to certified teachers or elementary education students. Student cannot receive credit for both MATH 444 and MATH 544.

MATH 445  Number & Prop'l Rsng for Tchrs
3. 000 Credits
Must be enrolled in one of the following Classes:
  Senior
  Undergrad Certification only
  Junior
Prerequisites: MATH 442 and MATH 443

This course deepens previous work on rational number ideas and applications, and explores the concepts of ratio and proportion. Content includes a variety of situations involving proportions, for example, real-world problems involving ratios, rates, and percents, geometry involving similarity, algebra involving linearity, probability involving assigning a probability to an event, and trigonometry involving slope. Distinguishing proportional situations from those that are not and reasoning proportionally in appropriate situations are emphasized. The course includes problem solving, reasoning and proof, connections, communication, and multiple representations. No credit for CASL concentration, minor, or area of focus. Open only to certified teachers or elementary education students or by permission of instructor. Students cannot receive credit for both MATH 445 and MATH 545. (AY, S).

MATH 446  Discrete Math/Modeling for Tch
3. 000 Credits
Must be enrolled in one of the following Levels:
  Undergraduate
Must be enrolled in one of the following Colleges:
  School of Education
Must be enrolled in one of the following Classes:
  Senior
  Post-baccalaureate NCFD
  Junior
  Post-baccalaureate Cert only
Prerequisites: MATH 442 and MATH 443

This course interweaves the ideas of discrete mathematics with the approaches and strategies of mathematical modeling. It gives pre- and in service teachers opportunities to deepen their understanding and use of mathematical models based on the concepts of discrete mathematics. Topics include recurrence, induction, permutations, combinations, binomial distributions, circuits, critical paths, minimal spanning trees, adjacency matrices, algorithm design and optimization. Systems thinking and multiple representations are emphasized. No credit for CASL concentration, minor, or area of focus. Open only to certified teachers or elementary education students. Students cannot receive credit for both MATH 446 and 546. (AY, F).

MATH 447  Micro in Math for Teachers
2. 000 Credits
Must be enrolled in one of the following Levels:
  Rackham
  Graduate
Must be enrolled in one of the following Colleges:
  School of Education
Prerequisites: MATH 385

Use of the microcomputer in the mathematics classroom with an emphasis on the LOGO programming language. Problem solving, hands-on activities, and a cooperative learning environment are emphasized. Students cannot receive credit for both MATH 447 and MATH 547. (S).
MATH 449 Concepts of Calc for Teachers
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
Undergrad Certification only
Junior
Prerequisites: MATH 442 and MATH 443

Concepts of Calculus for Teachers focuses on calculus concepts appropriate for middle school mathematics teachers and teacher-candidates. The course provides a deep understanding of the major concepts of calculus: rates of change, accumulation (net change), area, and limits. Students will experience concrete approaches to the various topics using problem solving, manipulatives and technology as appropriate, with the intent being to help the learners discover how the ideas of calculus are useful in a variety of settings. Visual, numeric and commonsense approaches will be used. No credit for CASL concentration, minor, or area of focus. Open only to certified teachers or elementary education students. Students cannot receive credit for both MATH 449 and 549. (W)

MATH 451 Advanced Calculus I
3.000 Credits
Prerequisites: MATH 200 and MATH 216 and (MATH 217 or MATH 227)

Properties of the real number system; point set theory for the real line including the Bolzano-Weierstrass theorem; sequences, functions of one variable: limits and continuity, differentiability, Reimann integrability. Students cannot receive credit for both MATH 451 and MATH 551. (F).

MATH 452 Advanced Calculus II
3.000 Credits
Prerequisites: MATH 451

Includes the rigorous study of functions of two and more variables, partial differentiation and multiple integration. Special topics include: Taylor Series, Implicit Function Theorem, Weierstrass Approximation Theorem, Arzela-Ascoli Theorem. Students cannot receive credit for both MATH 452 and MATH 552. (AY, W).

MATH 454 Fourier and Boundary
3.000 Credits
Prerequisites: MATH 216 and (MATH 217 or MATH 227)

Fourier series and integrals. Their use in solving boundary value problems of mathematical physics by the method of separation of variables. Sturm-Liouville theory and generalized Fourier series, including those involving Bessel functions and Legendre polynomials, with applications. Students cannot receive credit for both MATH 454 and MATH 554. (F).

MATH 455 Func of a Complex Var with App
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: MATH 216 and (MATH 217 or MATH 227)

Complex number system. Functions of a complex variable, their derivatives and integrals. Taylor and Laurent series expansions. Residue theory and applications, elementary functions, conformal mapping, and applications to physical problems. Students cannot receive credit for both MATH 455 and MATH 555. (W).

MATH 458 Introduction to Wavelets
3.000 Credits
May not be enrolled in one of the following Colleges:
No College Designated
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior
Prerequisites: MATH 216 and (MATH 217 or MATH 227)

This course will introduce the students to theory and application of wavelets using linear algebra. Topics will include the discrete Fourier transform, the fast Fourier transform, linear transformations, orthogonal decomposition, discrete wavelet analysis, the filter bank, Haar Wavelet family, Daubechies's Wavelet family, and applications. Students cannot receive credit for both MATH 458 and MATH 558. (OC)

MATH 462 Mathematical Modeling
3.000 Credits
Prerequisites: MATH 216 and (MATH 217 or MATH 227)

The processes of constructing, implementing, and evaluating mathematical models of "real world" phenomena are investigated. Models involving continuous and discrete mathematical constructs are considered. Deterministic and stochastic models are compared. Examples are taken from genetics, epidemiology, queueing theory, and other fields. Students cannot receive credit for both MATH 462 and MATH 562. (F).

MATH 472 Intro to Numerical Analysis
3.000 Credits
Prerequisites: MATH 217 or MATH 227

Solution of linear systems by Gaussian elimination, solution of non-linear equations by iterative methods, numerical solution of ordinary differential equations, data fitting with spline functions, numerical integration, optimization. Students cannot receive credit for both MATH 472 and MATH 572. (F).

MATH 473 Matrix Computation
3.000 Credits
Prerequisites: MATH 217 or MATH 227

A study of the most effective methods for finding the numerical solution of problems which can be expressed in terms of matrices, including simultaneous linear equations, orthogonal projections and least squares, eigen values and eigenvectors, positive definite matrices, and difference and differential equations. Students cannot receive credit for both MATH 473 and MATH 573. (AY, W).

MATH 480 History of Mathematics
3.000 Credits
Prerequisites: MATH 216 and (MATH 217 or MATH 227)

A unified view of the rise of mathematics from ancient times to the present, as seen in its conceptual developments and developers, its major themes and its applications (including computers). Students cannot receive credit for both MATH 480 and MATH 580. (OC).

MATH 486 Sec School Math for Teachers
3.000 Credits
Prerequisites: MATH 217 or MATH 227

Basic concepts, relationships, generalizations, and applications from the secondary school mathematics curriculum are discussed both from an advanced viewpoint and from the standpoint of the learner. Included are the roles of technology, problem solving, and current thinking on the teaching of secondary mathematics topics. Students cannot receive credit for both MATH 486 and MATH 586. (F).
MATH 492  Introduction to Topology
3. 000 Credits
Prerequisites: MATH 451
Metric spaces, topological spaces, continuous maps, connectedness, compactness, separation axioms. Students cannot receive credit for both MATH492 and MATH 592. (AY, W).

MATH 499  Independent Studies in Math
1. 000 TO 3. 000 Credits
Independent study in mathematics for topics at the senior level. Topics and objectives chosen by agreement between student and instructor. (OC).

Medieval and Renaissance Studies
(minor only)

The minor in Medieval and Renaissance Studies is cross-cultural in design and covers the time period from Late Antiquity (ca. 400) to the seventeenth century. Through the interdisciplinary study of history, art, religion, language and literature, students will develop an integrated understanding of medieval and early modern civilization. Its legacy, along with its intellectual and social diversity, enhances our understanding not only of the past but of present society.

The minor in Medieval and Renaissance Studies consists of 15 credit hours from the courses listed below. Students must elect at least one course from Art History, History and English.

Art History
ARTH 331  Early Christian and Byzantine Art
ARTH 332  Early Medieval and Romanesque Art
ARTH 334  The 14th Century
ARTH 341  Art and Architecture in Early Renaissance Florence
ARTH 342  High Renaissance and Mannerism
ARTH 343  Northern Renaissance Art
ARTH 346  The Bible and the Western tradition
ARTH 351  Southern Baroque Art
ARTH 352  Northern Baroque Art

History
HIST 102  Medieval World
HIST 329  Medieval Society
HIST 330  The Renaissance
HIST 331  The Reformation Era: 1500-1648

English
ENGL 311  Survey of English Literature: Beowulf to Milton
ENGL 371  Survey of English Literature from Beginning -1500
ENGL 372  Survey of English Literature: 1500 to 1600
ENGL 400  Major Authors of the Middle Ages
ENGL 401  Literature of Anglo-Saxon England
ENGL 404  Medieval Mystical Writers
ENGL 405  Chaucer
ENGL 406  Studies in Medieval Literature and Culture
ENGL 408  Shakespeare I: Earlier Works
ENGL 409  Shakespeare II: Later Works
ENGL 410  Major English Authors of the Renaissance
ENGL 412  Milton
ENGL 413  English Renaissance Drama, Excluding Shakespeare
ENGL 414  Seventeenth-Century Readings

Microbiology

The field of microbiology encompasses the study of a wide diversity of organisms, including archaea bacteria, fungi and viruses. The program in microbiology is designed to prepare students for laboratory positions in industry, government, and university research. The program also provides a foundation for graduate work in microbiology, virology, molecular biology, medicine and other areas. Certification is possible by special examination upon graduation.

PREREQUISITES TO THE CONCENTRATION

A solid background in mathematics is essential to success in any of the scientific disciplines. Incoming students who intend to choose a concentration in Microbiology should have completed at least three years of high school mathematics. First year students should plan to enroll in MATH 105, 113, or 114 based on the results of their math placement tests. CHEM 134 or 144 and 136 or 146 are prerequisites to many other courses in the Natural Sciences Department; students concentrating in any of the sciences should complete this sequence as soon as possible.

*Note: No more than a total of six credit hours combined in MICR 495, 498, and 499 may be applied toward the 120 credit hours required for graduation. Both MICR 498 and 499 require independent study contracts agreed upon by a faculty member.
One of the following organismal/environmental courses

- MICR 309 Introduction to Mycology .......... 4 hrs
- MICR 405 Applied and Environmental Microbiology .......... 4 hrs
- MICR 390 Topics in Microbiology* .................. 1-6 hrs

*when topic is appropriate – see concentration advisor for approval

Complete an additional 12 credit hours from the following list, of which at least four credit hours must be from microbiology courses.

**Microbiology Courses**

- MICR 309 Mycology ............................................. 4 hrs
- MICR 380 Epidemiology ........................................... 2 hrs
- MICR 390 Topics in Microbiology .................. 1-6 hrs
- MICR 405 Applied and Environmental Microbiology ................ 4 hrs
- MICR 430 Medical Virology ................................. 3 hrs
- MICR 450 Virology ............................................... 4 hrs
- MICR 455 Immunology .......................................... 4 hrs
- MICR 459 Pathogenic Microbiology .................. 4 hrs
- MICR 495 Off-campus Research in Microbiology .............. 1-3 hrs
- MICR 497 Seminar in Microbiology Research .......... 1 hr
- MICR 498 Independent Study in Microbiology .... 1-3 hrs
- MICR 499 Laboratory in Microbiology Research .... 1-3 hrs

* Note: All 400-level microbiology courses have MICRO 385 as a prerequisite.

**Biological Sciences Courses**

- BIOL 301 Cell Biology .......................................... 4 hrs
- BIOL 306 General Genetics ...................................... 3 hrs
- BIOL 310 Histology ............................................... 4 hrs
- BIOL 370 Principles of Biochemistry .................... 3 hrs
- BIOL 390 Topics in Biological Sciences* .................. 1-4 hrs
- BIOL 470 Biochemistry I ...................................... 3 hrs
- BIOL 471 Biochemistry II ..................................... 3 hrs
- BIOL 472 Biochemistry Laboratory I ...................... 1 hr
- BIOL 473 Biochemistry Laboratory II ................. 1 hr
- BIOL 474 Molecular Biology ................................. 4 hrs

*Note: If appropriate.

**Cognates**

A minimum of six credit hours from the following: Chemistry, Biochemistry, Geology, Physics, Environmental Science or Environmental Studies courses numbered 300 or above

Other appropriate courses with approval of program advisor.

**MINOR OR AREA OF FOCUS**

A minor or area of focus consists of 12 hours of upper-division credit in microbiology.

**Microbiology (MICR) COURSE OFFERINGS**

- **MICR 309 Introduction to Mycology**
  4.000 Credits
  Prerequisites: BIOL 130 and BIOL 140

An introduction to the biology of the fungi. Classification, structure, industrial use, gastronomic qualities, and disease-producing ability of macroscopic and microscopic forms are studied. Laboratories include microscopic and macroscopic examinations of fungi, and their growth and field studies on the occurrence and classification of edible and poisonous varieties. Three hours lecture, four hours laboratory. (OC).

- **MICR 380 Epidemiology**
  2.000 Credits
  Prerequisites: BIOL 140

A study of disease occurrence and spread in human populations. The primary concern is with groups of persons, rather than individuals. Emphasizes methods of study that would contribute to understanding disease etiology. Two hours lecture. (OC).

- **MICR 385 Microbiology**
  4.000 Credits
  Prerequisites: BIOL 130 and BIOL 140
  Co-requisites: MICR 385L

The biology of microorganisms is considered through study of the properties of bacteria, fungi, algae, protozoa, and viruses. Microbial structures are discussed and correlated with their function. Aspects of cellular metabolism pertinent to microorganisms are emphasized. The interaction of microorganisms and their environment, animate and inanimate, is discussed with respect to the beneficial or harmful effects of the different microbial groups. Laboratory exercises introduce the student to basic, practical microbiological techniques and illustrate various principles of microbial life. Three hours lecture, four hours laboratory. (F, S).

- **MICR 390 Topics in Microbiology**
  1.000 TO 6.000 Credits
  Prerequisites: BIOL 385 or MICR 385

Current topics in microbiology will be presented through a lecture, discussion and/or laboratory format. Topics will vary, as appropriate, and may cover any area of microbiology including studies on bacteria, algae, fungi, protozoa, viruses, biotechnology, mechanisms of pathogenesis and immunology. (OC).

- **MICR 405 Applied & Environ Microbiology**
  4.000 Credits
  Prerequisites: MICR 385 or BIOL 385
  Co-requisites: MICR 405L

Advanced treatment of the interplay of microorganisms and the environment. Topics will include soil and water microbiology (bacteria, archaea, fungi, algae, protozoans and viruses) and plant-microbe interactions (pathogenic and symbiotic) as well as the role of microorganisms in decomposition, nutrient cycling (carbon, nitrogen, sulfur and metal cycling), wastewater and biosolids treatment, and bioremediation. 3 hr lec, 1-4 hr lab. For graduate credit elect MICR 505.

- **MICR 406 Microbial Genetics**
  3.000 Credits
  Prerequisites: MICR 385 or BIOL 385 or BCHM 470 or CHEM 470 or BIOL 306

A course that emphasizes the genetics and molecular biology of bacteria and their viruses. Topics include DNA structure and replication, recombination, DNA repair, genetic mapping, mechanisms of gene transfer, regulation of gene expression, mutagenesis, and recombinant DNA techniques. Three hours lecture, four hours laboratory per week. (AY, F).
MICR 430  Medical Virology  
3. 000 Credits  
Prerequisites: MICR 385 or BIOL 385  
The course provides a general description of the history and nature of animal virus disease. Emphasis is placed on the pathogenesis and clinical description of specific diseases. Three hours lecture.

MICR 440  Micro Genetics & Physi Lab  
1. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
May not be enrolled in one of the following Classes:  
Freshman  
Prerequisites: BIOL 385* or MICR 385* or BIOL 301* or BIOL 406* or MICR 406* or BIOL 485* or MICR 485*  
This course emphasizes the use of advanced microbiological techniques for understanding the genetics and physiology of microorganisms. Experiments focus on the understanding of general microbial phenomena, such as nutrition, metabolism and biochemistry; protein and nucleic acid synthesis; energy generation, enzyme regulation, membrane transport, motility, differentiation, cellular communication and the behavior of populations.

MICR 450  Virology  
4. 000 Credits  
Prerequisites: (BIOL 385 or MICR 385) and CHEM 226  
The first half of this course deals with bacterial viruses, with emphasis on classical events in this field. The second half surveys the field of animal viruses, with emphasis on recent discoveries, including replication, pathogenesis, and viral association with cancers. Three hours lecture, four hours laboratory. (AY, W).

MICR 455  Immunology  
4. 000 Credits  
Prerequisites: BIOL 385 or MICR 385  
A detailed study of the field of immunology. Among the topics covered are various aspects of the immunological response, such as humoral or cell-mediated immunity, cell-cell interactions, and immunology as related to the cause and prevention of disease. Three hours lecture, four hours laboratory. (AY, F).

MICR 459  Pathogenic Microbiology  
4. 000 Credits  
Prerequisites: BIOL 385 or MICR 385  
An introduction to pathogenic microorganisms and mechanisms of microbial pathogenicity. Disease-causing bacteria, fungi, viruses, and protozoa are studied. Laboratories emphasize clinical approaches to isolation, identification, and treatment. Three hours lecture, four hours laboratory. (AY, F).

MICR 485  Physiology of Microorganisms  
3. 000 Credits  
Prerequisites: (BIOL 385 or MICR 385) and CHEM 225*  
An in-depth examination of the physiology of microorganisms. Areas of emphasis include the growth and nutrition of microorganisms, the development of viruses, the microbial degradation of organic compounds, the regulation of degradation reactions, and the biosynthesis of uniquely microbial compounds and secondary metabolites, such as antibiotics and toxins. Consideration is given to the natural environments of specific microorganisms. Three hours lecture, four hours laboratory. (AY, W).

MICR 495  Off-Campus Research  
1. 000 TO 3. 000 Credits  
Participation in ongoing experimental research at an off-campus laboratory (or in the field). Arrangements made between the research laboratory, (director of field study), the student, and the microbiology concentration advisor. No more than 6 hours combined from MICR 495, 498, and 499 may be credited toward the 120 hours required for a degree. Four to twelve hours laboratory. Permission of concentration advisor. (F, W, S).

MICR 497  Seminar in Microbiology  
1. 000 Credits  
Topics of current interest in microbiology will be presented by guest lecturers, faculty members or students. Topics chosen will vary from term to term. Can be elected up to three times. One hour seminar. Permission of instructor. (W).

MICR 498  Ind Study in Microbiology  
1. 000 TO 3. 000 Credits  
Library research and independent study performed under the guidance of a faculty member. Four to twelve hours readings. (F, W, S).

OMICR 499  Lab in Micro Research  
1. 000 TO 3. 000 Credits  
Directed laboratory research performed under the guidance of a faculty member. Four to twelve hours laboratory. Permission of instructor. (F, W, S).

Modern and Classical Languages  
(Armenian, Greek, Swedish; not a field of concentration)  

Armenian  
(not a field of concentration)  
Course offerings in Armenian are located below under the heading "Modern and Classical Languages (MCL)."

Greek  
(not a field of concentration)  
Course offerings in Greek are located below under the heading "Modern and Classical Languages (MCL)."

Swedish  
(not a field of concentration)  
Course offerings in Swedish are located below under the heading "Modern and Classical Languages (MCL)."  
Students must be in the Swedish exchange program with Jonkoping University in the College of Engineering and Computer Science.
Modern & Classical Language (MCL)  

**COURSE OFFERINGS**

**MCL 103 First-Year Swedish I**  
3.000 Credits  
A beginning course in the Swedish language. Open only to CECS undergraduate students taking part in the College of Engineering and Computer Science’s study abroad program with the Jonkoping School of Engineering in Sweden. The Course meets in Jonkoping, Sweden.

**MCL 104 First-Year Swedish II**  
3.000 Credits  
A second course in the Swedish language. Open only to CECS undergraduate students taking part in the College of Engineering and Computer Science’s study abroad program with the Jonkoping School of Engineering in Sweden. The Course meets in Jonkoping, Sweden.

**MCL 105 Beginning Ancient Greek I**  
4.000 Credits  
Ancient Greek I is designed for students wishing to begin the study of Ancient Greek and will include a study of grammar and vocabulary with readings of simple Attic prose. Attention will also be given to the Greek roots of English words, including scientific and medical terms. No previous foreign language study is required as a prerequisite. (OC).

**MCL 106 Beginning Ancient Greek II**  
4.000 Credits  
Prerequisites: MCL 105  
Ancient Greek II completes the study of Ancient Greek syntax and morphology and puts greater emphasis on reading connected passages in ancient Greek. Passages from selected classical authors, such as Herodotus, Sophocles, Aristophanes, and Plato will be read. MCL 105 is required as a prerequisite. (OC).

**MCL 111 Armenian I**  
4.000 Credits  
Introduction to basic construction and vocabulary of the Armenian language. Lab to be arranged. Completion of this course prepares the student for Armenian II. (OC).

**MCL 112 Armenian II**  
4.000 Credits  
Prerequisites: MCL 111  
Continuation of Armenian I. Introduction to basic construction and vocabulary of the Armenian language.

**MCL 205 Intermediate Ancient Greek**  
4.000 Credits  
Prerequisites: MCL 106  
An intermediate language course in ancient Greek designed to increase the students' ability to read Greek with accuracy and speed and improve their skill in comprehension and translation. A wide range of reading selections of Greek prose and poetry will serve as the basis for translation, class discussion, and written assignments. Although the course includes a partial review of accidence and syntax as well as assigned translations from English to Greek, primary emphasis will be placed upon reading and translating Greek texts, whether prose (e.g., Xenophon, Herodotus, Lysias, Plato) or poetry (e.g., Euripides, Aristophanes). (OC)

**MCL 206 Intermediate Ancient Greek II**  
4.000 Credits  
Prerequisites: MCL 205  
MCL 206 is the second course in intermediate ancient Greek and is designed to provide knowledge and familiarity with the language and style of the Homeric epics, as well as an introduction to related topics. We will learn Homeric Greek and how it differs from Attic, read extensive selections from the Iliad or the Odyssey in Greek, and discuss Homer's works as poetic, literary, and cultural texts. The selections read will serve as the basis for translation, class discussion, and written assignments. Related topics to be presented include: the archaeological excavations of Troy, the scope of ancient epics, the Homeric Question and oral composition, and the nature of the Greek hero. (OC)

**MCL 233 Second-Year Swedish**  
3.000 Credits

**MCL 234 Second-Year Swedish II**  
3.000 Credits

**MCL 299 Independent Studies in MCL**  
1.000 TO 3.000 Credits  
Reading or analytical assignments in Modern and Classical Languages in accordance with the needs and interests of those enrolled and agreed upon by the student, instructor and endorsed by the department chair. Also can be elected when a student is studying language as part of a study-abroad program.

**MCL 353 Italian Culture Civilization**  
3.000 Credits  
This course is an exploration of various facets of Italian culture and civilization. We will examine the major historical, political, social, economic, artistic and literary aspects of Italy, from its beginnings to the 21st century, through the close study of key persons, events and documents which shaped Italy’s culture and civilization, and promoted the many accomplishments and contributions of this country.

**MCL 365 Introduction to the Qur'an**  
3.000 Credits  
This course is an introduction to the Qur'an. This class will cover the historical and the cultural factors in which the Quran appeared. The class will also examine some of the major themes covered in the Qur'an such as gender, science, pluralism, worldview and so forth. Also, it will cover major schools of interpretations and methodologies ranging from the literary to the scientific. The class will be conducted in English and knowledge of Arabic is desired but not required. No prerequisites. The class will consist of lectures, discussions, and movies.

**MCL 381 Postwar European Cinema**  
3.000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Sophomore  
Freshman  
Junior
The course will concentrate on a series of films from various European countries with a focus on the socio-political issues, historical events and cultural preoccupations that have defined and also challenged European societies from WWII to the present. Zeroing in on the construction of European identities, the course will analyze and compare modes of narrating national, class, racial, sexual and social differences in different European nations. Themes such as memories of war and the Holocaust, new conflicts, class, immigration, women's rights, gender, and East-West relations will be addressed. The course will thus privilege a cinema that offers a "récit," a story. Particular attention will be given to discourses on otherness and on the ways in which film culture has reflected, reinforced,reshaped and, in some instances, contested Europe's past and current dominant ideologies, and identities. Readings by cultural historians and analysts will provide the context for an understanding of the films. The course will conclude with a discussion of the possible existence of a specific postwar European Cinema.

**MCL 390  Topics in Arabic in Translatn**  
3.000 Credits

Examination of problems and issues in selected areas of Modern & Classical Languages. Title as listed in the Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ.

**MCL 399  Independ St in Mod & Class Lng**  
1.000 TO 3.000 Credits

Reading or analytical assignments in Modern and Classical Languages, including Arabic, in accordance with the needs and interests of those enrolled and agreed upon by the student, instructor, and endorsed by the department chair.

**MCL 401  Images of Women in Germany**  
3.000 Credits

Must be enrolled in one of the following Classes:
- Sophomore
- Senior
- Junior

This course will focus on the position of women in Germany after WWII and up to and after the unification of East and West Germany. Particular attention will be given to the gendered history of working through the National Socialist past, the division and reconstruction of the two nation-states, and the terrorism in West Germany in the 1970's. Students will examine images of women in films and tie them to the ideologies of gender and status of women in these larger issues of German history. Course readings will be in English. Students wishing to receive German credit for the course must enroll concurrently in GER 380: Praktikum. Students cannot receive credit for both MCL 401 and MCL 501.

**MCL 455  This American Life**  
3.000 Credits

May not be enrolled in one of the following Classes:
- Graduate
- Freshman

The course "This American Life: Immigrant Literature and the American Dream" is a literary and cultural analysis of the literature of immigration. The readings are from works of fiction in a variety of genres, and are written by American and non-American prize-winning authors. Their common denominator is the pursuit of the American Dream and its many multifaceted aspects. The themes explored include: assimilation, acculturation, diversity, language, subculture, intertextuality, nostalgia, belonging, and double identity. Student wishing to take this course for graduate credit should sign up for MCL 555. Students cannot receive credit for both MCL 455 and MCL 555.

**MCL 490  Topics in Modern & Class Lang**  
3.000 TO 6.000 Credits

An examination of various theoretical or practical concerns of the field of foreign language. Title as listed in the Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

**Music**  
(minor only)

**MINOR OR AREA OF FOCUS**

A minor or area of focus consists of 12 hours of upper-division credit in music history, music theory or applied music courses.

**Music, Applied**  
(not a field of concentration, see Applied Music)

**Music History (MHIS)**  
(not a field of concentration)

**COURSE OFFERINGS**

**MHIS 100  Intro to Music**  
3.000 Credits

A study of music and its development from 1600 to the present through examination of representative forms of musical expression.

**MHIS 120  History of Jazz**  
3.000 Credits

The course provides an introduction to jazz styles within their cultural context. Major figures (Louis Armstrong, Duke Ellington, Charlie Parker, and others) and styles (New Orleans, Big Band, Bebop, Cool Jazz, etc.) will be studied through recordings. Ideas about jazz as the expression of African American culture will be studied. (OC).

**MHIS 130  Intro to World Music**  
3.000 Credits

This course is designed as an introductory survey of non-western music traditions within the field called ethnomusicology. The music is studied in terms of sounds, musical instruments, forms and their functions in the society and culture that supports them. Music studied includes that of the Middle East, India, Australia, China, Korea and Japan. (YR).

**MHIS 311  Music Before Bach**  
3.000 Credits

Prerequisites: MHIS 100 or MHIS 120 or MHIS 130 or MHIS 312 or MHIS 331 or MHIS 340 or MHIS 341 or MHIS 342 or MHIS 390 or MTHY 100 or MTHY 101 or MTHY 102 or MTHY 301 or MTHY 302 or MTHY 390

A survey of the early history of music with emphasis on sacred and secular monophonic forms, the rise of part-singing and the opposition to it in the 17th century. (AY).
MHIS 312  Music from Bach to Brahms  
3. 000 Credits  
Prerequisites: MHIS 100 or MHIS 120 or MHIS 130 or MHIS 311 or MHIS 312 or MHIS 331 or MHIS 340 or MHIS 341 or MHIS 342 or MHIS 390 or MTHY 100 or MTHY 101 or MTHY 102 or MTHY 301 or MTHY 302 or MTHY 390

A survey of music in the 18th and 19th centuries with emphasis on the styles and forms of the major composers. (AY).

MHIS 313  Music Since 1900  
3. 000 Credits  
Prerequisites: MHIS 100 or MHIS 120 or MHIS 130 or MHIS 311 or MHIS 312 or MHIS 331 or MHIS 340 or MHIS 341 or MHIS 342 or MHIS 390 or MTHY 100 or MTHY 102 or MTHY 301 or MTHY 302 or MTHY 390 or MTHY 101

A survey of developments in musical styles (especially concert and popular music) and uses of music (film, theater, and recording technologies) in the 20th and 21st centuries.

MHIS 331  Music of America  
3. 000 Credits  
Prerequisites: MHIS 100 or MHIS 120 or MHIS 130 or MHIS 311 or MHIS 312 or MHIS 331 or MHIS 340 or MHIS 341 or MHIS 342 or MHIS 390 or MTHY 100 or MTHY 101 or MTHY 102 or MTHY 301 or MTHY 302 or MTHY 390 or MTHY 101

An historical and cultural study of American music in both the written and unwritten traditions. Content of the course includes not only the various forms of classical music produced in the new world but also primitive, popular, and vernacular genres. (OC).

MHIS 332  Hist of Popular Mus in the USA  
3. 000 Credits  
Prerequisites: MHIS 100

An introduction to popular music in the United States. This course will include music of the westward movement, ragtime and blues, the roots and growth of jazz, folk music, country music, music of Broadway and Tin Pan Alley, the roots of and development of rock music, as well as the historical, political and sociological background of the United States as pertinent to music history. (YR).

MHIS 333  Intro to Gospel Music  
3. 000 Credits

This course explores the history and aesthetics of Black sacred music within cultural context. Major figures (Thomas A. Dorsey, Mahalia Jackson, The Winans Family, Kirk Franklin), periods (slavery, Great Migration, Civil Rights movement), and styles (folk and arranged Negro spirituals, congregational songs, and gospel songs - traditional to contemporary) will be studied through recordings, videos, film, and at least one field experience. Underlying the course is the theory (Mellonée Burnim and Pearl Williams-Jones) that gospel music is an expression of African American culture that fuses both African and European elements into a unique whole. (OC).

MHIS 335  Multimedia and Music  
3. 000 Credits  
Prerequisites: MTHY 100 or MTHY 101 or MTHY 102 or MHIS 100 or MHIS 120 or MHIS 130 or MHIS 150

In this course, students will explore case studies of music created, performed, and distributed in combination with other media from the 1960s to the present. Multimedia is understood as any context in which several media are integrated, but particular focus will be paid to technological and creative innovations (such as video games, computers, and phones). The use of music will be considered in such media as film and television, multimedia performance and installation art, and international developments in multimedia production and distribution.

MHIS 336  Film and Music  
3. 000 Credits  
Prerequisites: MHIS 100 or MHIS 120 or MHIS 130

In this course, students will be introduced to the varieties of music used in film from c. 1900 to the present. Topics covered include a basic introduction to the musical features of Western European dramatic music; the role of music in the early decades of the 20th century; the growth of film and musical sound in the "classic era" of Hollywood film; the use of music in specific genres such as film noir, science-fiction, epic, and musicals; and the use of popular song in film. Prerequisite: previous completion of MHIS 100, 120, 130, or by permission of the instructor.

MHIS 340  The Concerto  
3. 000 Credits

Historical, comparative, and critical study of the development of the concerto, including selected works from major baroque, classical and romantic composers. Emphasis on analytical study of forms used in concertos. (OC).

MHIS 341  Symphony and Symphonic Poem  
3. 000 Credits  
Prerequisites: MHIS 100 or MHIS 120 or MHIS 130 or MHIS 311 or MHIS 312 or MHIS 313 or MHIS 340 or MHIS 342 or MHIS 390 or MTHY 100 or MTHY 102 or MTHY 301 or MTHY 302 or MTHY 390

The symphony and symphonic poem developed from their origins to their more complex later forms. Comparative analysis of similar forms in different periods. (OC).

MHIS 342  The Art Song  
3. 000 Credits  
Prerequisites: MHIS 100 or MHIS 120 or MHIS 130 or MHIS 311 or MHIS 312 or MHIS 313 or MHIS 331 or MHIS 340 or MHIS 341 or MHIS 390 or MTHY 100 or MTHY 101 or MTHY 102 or MTHY 301 or MTHY 302 or MTHY 390

A thorough examination of the art song, a genre combining significant poetry and musical settings, from the late 18th century to the present, with emphasis on the leading composers of Lieder: Schubert, Schumann, and Brahms, and the most important writers of the melodie from Berlioz to Faure. (OC).

MHIS 343  Opera  
3. 000 Credits  
Prerequisites: MHIS 100 or MHIS 120 or MHIS 130 or MHIS 311 or MHIS 312 or MHIS 313 or MHIS 331 or MHIS 340 or MHIS 341 or MHIS 390 or MTHY 100 or MTHY 101 or MTHY 102 or MTHY 301 or MTHY 302 or MTHY 390

A study of selected examples of music theater from the late 16th century to the present, including a comparison of the qualities of sung versus spoken drama, with emphasis on the achievements of such composers as Monteverdi, Mozart, Wagner, and Verdi. (AY).
MHIS 345  Chamber Music
3. 000 Credits
Prerequisites: MHIS 100 or MHIS 120 or MHIS 130 or MHIS 311 or MHIS 312 or MHIS 313 or MHIS 331 or MHIS 340 or MHIS 341 or MHIS 342 or MHIS 390 or MTHY 100 or MTHY 101 or MTHY 102 or MTHY 301 or MTHY 302 or MTHY 390

This is a survey of chamber music of the baroque, classical, romantic, and 20th century. The course involves an in-depth study of composers of chamber music, analysis of problems of composing chamber music, and the stylistic analysis of the music of the various epochs. (OC).

MHIS 390  Topics in Music History
3. 000 Credits

Examination of problems and issues in selected areas of music history. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specified topics differ. (OC).

MHIS 399  Independent Study
1. 000 TO 3. 000 Credits

Advanced readings or analytical assignments in a particular area of music. Not more than three hours of independent study will be accepted toward the concentration. (F, W).

Music Theory(MTHY)
(not a field of concentration)
COURSE OFFERINGS

MTHY 100  Fundamentals of Music
3. 000 Credits

This course presents the fundamentals of Western music theory through practical experience, including music notation, sight-singing, and ear training. Prerequisites: none.

MTHY 101  Music Theory I
3. 000 Credits
Prerequisites: MTHY 100

Writing and analysis of melodic lines, alone and in counterpoint, leading to writing and analysis of harmony. Emphasis on being able to hear the sounds symbolized by notation. (F).

MTHY 102  Music Theory II
3. 000 Credits
Prerequisites: MTHY 101

Continuation of MTHY 101 including harmonic analysis, layer analysis, and beginning formal analysis. (W).

MTHY 390  Topics in Music Theory
3. 000 Credits

Examination of problems and issues in selected areas of music history. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specified topics differ. (OC).

Natural Sciences
(not a field of concentration)

Students without extensive background in science who wish to receive a general introduction to the natural sciences should select NSCI 120 and/or 121. NSCI 120 and 121 count toward distribution requirements.

Natural Sciences (NSCI)
COURSE OFFERINGS

NSCI 120  Matter, Energy, and Life I
4. 000 Credits
Co-requisites: NSCI 120L

A general science course with emphasis on basic principles and their applications. Includes basic life processes, the fundamentals of chemistry and physics, and human systems and genetics. NSCI 120 is complementary to but not a prerequisite for NSCI 121. Students cannot use both NSCI 120 and BIOL 100 to satisfy the natural sciences distribution requirements. Three hours lecture, three hours laboratory. (OC).

NSCI 121  Matter, Energy, and Life II
4. 000 Credits
Co-requisites: NSCI 121L

A general science course with emphasis on basic principles and their applications. Includes ecology and evolution, energy and energy technology, geology and astronomy. NSCI 121 is complementary to, but may be taken independently of, NSCI 120. Three hours lecture, three hours laboratory. (F, S).

NSCI 231  Inquiry: Physical Science
3. 000 Credits
Prerequisites: EXPS 220

This course develops a strong conceptual understanding of physical science. Prospective K-8 teachers will participate in the same kind of inquiry-based experiences that they will use in their own teaching. Topics will include light and color, matter, and motion. (F, W, S)

NSCI 232  Inquiry: Earth/Planet Science
3. 000 Credits
Prerequisites: EXPS 220

This course develops a strong conceptual understanding of earth and planetary science. Prospective K-8 teachers will participate in the same kind of inquiry-based experiences that they will use in their own teaching. Topics will include geology, weather, and astronomy. (F, W, S)

NSCI 233  Inquiry: Life Science
3. 000 Credits
Prerequisites: EXPS 220

This course develops a strong conceptual understanding of Life Science. Prospective K-8 teachers will participate in the same kind of inquiry-based experiences that they will use in their own teaching. Topics will include characteristics of life, plants and animals, and ecology. (F, W, S)
### NSCI 290  Projects in Natural Sciences
1.000 TO 2.000 Credits

An opportunity for non-science and lower-division science students to carry out independent projects in the natural sciences under the supervision of a faculty member. Projects range from laboratory and field observations to the development of materials and apparatus for use in laboratory exercises and classroom demonstration. In general, one credit hour corresponds to four hours of work per week. Permission of instructor. (F, W).

### NSCI 295  Topics in Natural Sciences
1.000 TO 3.000 Credits

An introduction to the themes of the natural sciences reflecting their interactions with one another and society. Topics vary and are announced in the current time schedule. The course may be repeated no more than once under a different topic. One to three hours lecture, seminar, or field study.

### NSCI 325  Gender and Science
3.000 Credits

Explores some of the history of women in science, the current status of women in science, and feminism and science. Topics will include contributions made by women before science moved into the public sphere, cultural influences on decisions to make science a career, and a feminist approach to scientific research. Three hours lecture. (AY).

### NSCI 331  Inquiry: Physical Science II
3.000 Credits

Prerequisites: NSCI 231

An inquiry-based physical science course suitable for prospective or practicing elementary teachers majoring or minoring in science studies. Students will construct meaningful understanding of physics and chemistry concepts through discussion, hands-on experiences and computer simulations. Specific topics will include the application of the atomic model to the behavior of gases, physical changes, and chemical changes. A learning-cycle pedagogy will be employed that consists of elicitation of initial student ideas, development of new or modified ideas, building student consensus on final ideas, and the application of ideas to new situations.

### NSCI 332  Inquiry: Mich Earth Science
3.000 Credits

Prerequisites: NSCI 232

This course develops a strong conceptual understanding of earth science as it applies to the state of Michigan. Prospective K-8 teachers will participate in the same kind of inquiry-based experiences that they will use in their own teaching. Topics will include landforms, water, weather and seasons in Michigan.

### NSCI 333  Inquiry: PBL in Life Science
3.000 Credits

Must be enrolled in one of the following Colleges:

- School of Education
- Coll of Arts, Sciences&Letters

Must be enrolled in one of the following Classes:

- Undergrad Certification only
- Sophomore
- Senior
- Junior
- Post-baccalaureate Cert only

Prerequisites: NSCI 233

A problem-based learning course suitable for prospective or practicing elementary and middle-school teachers who major or minor in integrated science studies. This course builds on and reinforces content learned at the introductory level by applying life science concepts to complex real-world problems presented in class. Students will work in small groups to identify and research concepts and principles they need to know in order to progress through the real-world life science problems. The case studies used will require the understanding and application of concepts in cell structure and function, genetics, animal and plant physiology, and ecology.

### NSCI 390  Topics in Natural Sciences
1.000 TO 3.000 Credits

A course in special topics current to natural sciences. Topic and format (seminar, lecture and laboratory) for the course may vary. See current Schedule of Classes. (OC).

### NSCI 415  Nutrition and Health
3.000 Credits

Prerequisites: ANTH 101

The influence of nutrition on physical and mental development from conception to adulthood. Topics include: 1) definition and function of the essential nutrients for people, 2) basic principles of human growth and development, 3) the causes and consequences of under- and over-nutrition, 4) feeding practices for infants and children and the development of food habits, 5) nutrients and food problems in the local region and in global perspective. Students cannot receive credit for both NSCI 415 and NSCI 515. (VR).

### NSCI 490  Topics in Natural Sciences
1.000 TO 3.000 Credits

A course in special topics current to natural sciences. Topic and format (seminar, lecture and laboratory) may vary. See current Schedule of Classes. (OC).

### NSCI 497  Natural Sciences Colloquium
1.000 Credits

Prerequisites: ANTH 101

A series of colloquia on selected topics representing frontier areas of current research in the natural sciences. Lectures by guest speakers invited by the department constitute a major component of the course. One hour seminar. (F).

### NSCI 498  Independent Study in NSCI
1.000 TO 3.000 Credits

Must be enrolled in one of the following Colleges:

- School of Education
- Coll of Arts, Sciences&Letters

Must be enrolled in one of the following Classes:

- Undergraduate NCFD
- Undergrad Certification only
- Senior
Provides an opportunity for students to pursue independent laboratory-based research under the direction of a faculty member. For students who wish to study an area that is interdisciplinary rather than an area focused on a single science. The student and the faculty member must complete a contract outlining the area to be studied and the product of the research.

**NSCI 499 Laboratory Research in NSCI**

1.000 TO 3.000 Credits
- Must be enrolled in one of the following Colleges: School of Education Coll of Arts, Sciences&Letters
- Must be enrolled in one of the following Classes: Undergraduate NCDF Undergrad Certification only Junior Senior

Provides an opportunity for students to pursue independent laboratory-based research under the direction of a faculty member. For students who wish to study an area that is interdisciplinary rather than an area focused on a specific science. The student and the faculty member must complete a contract outlining the area to be studied and the product of the research.

**Philosophy**

Philosophy explores the fundamental values and assumptions of human activities such as science, the arts, religion, morality, and social and political institutions. It uses the power of human reasoning to address such questions as "What is it to know something?" "What is the best way to live?" and "Is belief in God rationally justifiable?" Ultimately, philosophy has as its goal the development of a coherent view of the world and our place in it.

Philosophical inquiry helps students acquire and sharpen valuable intellectual and practical skills that can be important in their careers. These skills include effective writing, verbal argumentation, and critical thinking.

The primary value of philosophy lies in its contribution to intellectual insight and to a liberal arts education. The study of philosophy can also serve as a basis for a variety of careers, including medicine, business, and government. It is especially effective as the basis for a pre-law program. Recent developments in cognitive science and in medical and environmental ethics have broadened the range of careers and professions for which the study of philosophy can be recommended.

**PREREQUISITES TO THE CONCENTRATION**

| PHIL 100 | Introduction to Philosophy |
| PHIL 233 | Critical Thinking |
| PHIL 234 | Symbolic Logic |
| PHIL 240 | Ethics |
| PHIL 301 | Ancient Philosophy |
| PHIL 302 | Modern Philosophy |

**CONCENTRATION REQUIREMENTS**

A student may choose either a traditional concentration in philosophy (Alternative I) or a program that stresses the relationship of philosophy to other areas of study (Alternative II). With regard to both alternatives, a faculty adviser will work closely with the student to develop a coherent program. Alternative I requires a total of 24 hours in philosophy courses at the 300 or 400 level and six upper-division hours of cognate courses in one or more disciplines outside philosophy. Alternative II requires a total of 18 hours in philosophy courses at the 300 or 400 level and 12 upper-division hours of cognate courses. Satisfactory completion of PHIL 301 Ancient Philosophy and PHIL 302 Modern Philosophy may be counted as part of the 24 hours in philosophy in Alternative I or as part of the 18 hours in philosophy in Alternative II.

**Cognates**

6 hrs

As noted above, cognate requirements depend on the student's choosing between Alternative I and Alternative II. Cognate courses are to be selected only with the assistance and written approval of a faculty adviser in philosophy.

**MINOR OR AREA OF FOCUS**

A minor or area focus consists of 12 hours of upper-division credit in philosophy.

**Note on prerequisites:** Always consult the current Schedule of Classes for updated information on the prerequisites and recommended preparation for a course in a given semester. If a student has not satisfied the prerequisites of a course, the student may be enrolled only by permission of the instructor.

**Philosophy (PHIL) COURSE OFFERINGS**

**PHIL 100 Introduction to Philosophy**

3.000 Credits

An introduction to philosophical thinking through an examination of some timeless human problems such as the existence of God, the problem of freedom, and the attempt to find an ethical foundation for life. (F, W).

**PHIL 120 Philosophy and Religion**

3.000 Credits

An examination of how basic concerns of philosophy impinge on questions of religious beliefs. Using philosophical texts, the course will explore such questions as the following: Does God exist? Does human life have a purpose? How can we know whether religious claims are true?

**PHIL 200 The Human Condition**

3.000 Credits

The human condition as seen in selected works of philosophy and literature. Typical issues: the meaning of life, the existence of God, moral responsibility for human actions, and the role of society in promoting or hindering human excellence. (OC).

**PHIL 233 Critical Thinking**

3.000 Credits

A study of the nature and justification of reasoned arguments, both deductive and inductive, as they occur in natural language. A consideration of topics in language that promote an understanding of ways of reasoning, including definitions and fallacies. (F, W).

**PHIL 234 Symbolic Logic**

3.000 Credits

Prerequisites:

This course will examine the central themes in modern symbolic logic including consistency, truth-functionality, sentential first-order predicate logic, and the logic of identity and possibility. These themes and their relation to the wider philosophical context will be discussed. (F, W).
PHIL 240 Ethics 3.000 Credits
A study of ethical concepts and theories. Typical questions: Is the morality of an action based on its results or on the intent of the person acting? Is ethics purely rational? What makes a good person? Ethical principles may be applied to such issues as abortion, capitalism, war, and capital punishment. (F, W).

PHIL 301 Ancient Philosophy 3.000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 355 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490
An examination of the metaphysical, epistemological, ethical, and political theories of the ancient Greek philosophers with particular attention paid to Plato and Aristotle and to the influence of their ideas on Western culture. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 302 Modern Philosophy 3.000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 355 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490
A study of 17th and 18th century European philosophers including such philosophers as Descartes, Spinoza, Hume, and Kant with emphasis on their metaphysical and epistemological theories and how those theories provided a foundation for science and a bedrock for modern thought. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 303 Kant and the 19th Century 3.000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 355 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490
The development of philosophical thought from Kant through the 19th century. In addition to Kant, figures discussed may include Hegel, Schopenhauer, Marx, Kierkegaard, and Nietzsche. Readings in selected texts. (OC).

PHIL 304 Twentieth-Century Philosophy 3.000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 355 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490
A study of selected topics, movements, and figures in the philosophy of the twentieth century, including such representative subjects as Continental philosophy, contemporary philosophy of mind, and analytic philosophy. Designed to meet the needs of students in literature and the history of ideas as well as philosophy students. Students electing this course must have successfully completed a previous course in philosophy or have permission of the instructor.

PHIL 305 Marxism 3.000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 310 or PHIL 315 or PHIL 335 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490
This course is an introduction to the philosophy of Marxism which emphasizes Marx's theories of human nature, alienation, class struggle, and revolution through readings of classical and contemporary texts. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor. (OC).

PHIL 310 Darwinism and Philosophy 3.000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 315 or PHIL 320 or PHIL 355 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490
Darwinism represents a challenge to the traditional view of human life as radically separate from the rest of the natural world. This course will examine the philosophical implications of this world view. It will address questions such as these: Is Darwinism compatible with traditional religion? Does Darwinism imply that human life and the cosmos are without purpose? Can human life be meaningful if it is the result of evolution and natural selection? Does Darwinism require us to change our view of nature? What are the ethical implications of a Darwinian view of life and the universe?

PHIL 312 Environmental Ethics 3.000 Credits
Prerequisites: PHIL 100 or PHIL 233 or PHIL 240* or ENST 105 or ENST 301
The relationship of human beings to the non-human environment raises pressing moral and political issues. This course will use the theories and concepts of philosophical ethics to explore such questions as human obligations to non-human animals; the preservation of wilderness; balancing economic, aesthetic, and spiritual values; and the problems of pollution, urban sprawl, and ecological justice. Prerequisite or permission of instructor. (YR).

PHIL 315 Ethics of War & Peace 3.000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 310 or PHIL 315 or PHIL 335 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490
The development of philosophical thought from Kant through the 19th century. In addition to Kant, figures discussed may include Hegel, Schopenhauer, Marx, Kierkegaard, and Nietzsche. Readings in selected texts. (OC).
A philosophical exploration of ethical issues underlying war and peace. The course will treat such questions as the following: what wars, if any, are just? Are there moral restrictions on the methods that may be used? What individuals are morally responsible for wartime decisions, and to what degree? Discussion of these issues will be used to elucidate larger problems in ethical theory. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 320 The Problem of Human Freedom
3. 000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 355 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 445 or PHIL 485 or PHIL 490

A critical examination of the idea of freedom: the free will/determinism debate, moral and legal responsibility, punishment, and the relationship between metaphysical and social freedom. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 327 Kierkegaard & Nietzsche
3. 000 Credits
This course will explore the philosophical views of Kierkegaard and Nietzsche, examining the interconnections and differences between these two thinkers as well as each one's contributions to philosophy and psychology. The course will focus on both philosophers' emphasis on the individual and how that emphasis arose as a response to the social, political and economic changes in the 19th century and anticipated and influenced philosophical developments in the 20th century, in particular existentialism.

PHIL 335 Philosophy of Law
3. 000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 355 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 445 or PHIL 485 or PHIL 490

An examination of some of the important philosophical issues relevant to law and legal theory, including legal punishment, legal responsibility, and the relationship between law and morality. Both classical and contemporary writings will be studied. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 340 Analytic Philosophy
3. 000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 355 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 445 or PHIL 485 or PHIL 490

An introduction to philosophy as the analysis and evaluation of fundamental concepts and principles occurring in ordinary life and in the sciences. While analytic philosophy in the twentieth century is emphasized, its antecedents in the history of western philosophy will be examined. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor. (OC).

PHIL 350 Symbolic Logic
3. 000 Credits
This course will examine the central themes in modern symbolic logic including consistency, truth-functionality, sentential first-order predicate logic, and the logic of identity and possibility. These themes and their relation to the wider philosophical context will be discussed. (F, W).

PHIL 360 Philosophy of Technology
3. 000 Credits
A study of both the history of, and current issues in, the philosophy of technology. This course will examine the deeper meaning and implications of our modern technological society. Questions examined include: What is the definition and nature of technology? How did the concept originate in Western thought? What is the relationship between modern industrial technology and the 'mechanistic' worldview? How do Western religious beliefs influence our attitudes about technology? Is technological progress socially determined, or is it culturally independent? In what ways has our technological society been supportive of, or detrimental to, overall human well-being? Students will cover both classic and contemporary readings.

PHIL 365 Philosophy of Religion
3. 000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 340 or PHIL 350 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 445 or PHIL 485 or PHIL 490

A philosophical examination of basic religious problems, such as the nature and grounds of religious belief, the existence and nature of God, human immortality, the relations of religion and science, and the nature of religious language. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 369 Philosophy of Art
3. 000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 355 or PHIL 370 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490

An examination and critique of both traditional and contemporary theories of art as well as an examination of theories of the aesthetic including theories of beauty, taste, and the aesthetic attitude. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor. (OC).
PHIL 370  Philosophy of Mind
3. 000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 335 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490
A study of current philosophical work in the area of consciousness studies examining the nature and function of human consciousness and the problem of reconciling an objective, scientific view of consciousness with our subjective experience of it. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 371  Philosophy in Literature
3. 000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 335 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490
An exploration of philosophical problems as they are encountered in works of literature. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 375  Problems of Human Knowledge
3. 000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 335 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 371 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 590
A study of issues and problems that arise in considering the nature of knowledge: an examination of traditional theories of knowledge and recent critiques of those theories. Readings of classical and contemporary texts. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 380  Theories of Reality
3. 000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 335 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490
A critical examination of philosophical positions that claim to distinguish between what is real and what is apparent; an evaluation of the basic principles of philosophy and of extra-philosophical disciplines. Readings of classical and contemporary texts. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 384  Feminist Philosophy
3. 000 Credits
Prerequisites: PHIL 100 or WST 275 or WGST 275 or WGST 303
Feminists working in philosophy, most notably in the 19th and 20th centuries, have altered the traditional philosophical canon by first, recovering women philosophers who were essentially erased from the history and secondly, by extending and contributing to the standard questions of philosophy. For example, one central question of philosophy; "What can we know with certainty?" has been transformed through a feminist lens and reinterpreted as "What does one's gender, social location, and cultural framework contribute to what one knows?" In this course we will look at the variety of feminist philosophical theories with a focus on epistemology, metaphysics, and ethics.

PHIL 390  Topics in Philosophy
3. 000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 335 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490
Examination of problems and issues in selected areas of philosophy. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. Typical topics: Philosophy of Language, Minds and Machines, Moral Responsibility. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 399  Independent Studies
1. 000 TO 3. 000 Credits
Readings or analytical assignments in philosophy in accordance with the needs and interests of those enrolled and agreed upon by the student and instructor. (F, W).

PHIL 415  Existentialism and Its Sources
3. 000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 335 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490
An exploration of the literary sources of existentialism and a critical study of selected philosophical texts. Particular themes - death, subjectivity, alienation, commitment, and freedom - will be considered in an attempt to formulate an existential conception of the human condition. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 441  Social and Political Phil
3. 000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 335 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 411 or PHIL 441 or PHIL 445 or PHIL 485 or PHIL 490
Feminists working in philosophy, most notably in the 19th and 20th centuries, have altered the traditional philosophical canon by first, recovering women philosophers who were essentially erased from the history and secondly, by extending and contributing to the standard questions of philosophy. For example, one central question of philosophy; "What can we know with certainty?" has been transformed through a feminist lens and reinterpreted as "What does one's gender, social location, and cultural framework contribute to what one knows?" In this course we will look at the variety of feminist philosophical theories with a focus on epistemology, metaphysics, and ethics.
An analysis of some fundamental problems of political and social philosophy, with special attention to the way in which theory may function as a guide to specific policies. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 442 Medical Ethics
3.000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 335 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 445 or PHIL 490

An examination of moral issues in medicine. Among the problems to be considered are truth-telling and paternalism in the doctor-patient relationship, psychosurgery and behavior control, death and euthanasia, the allocation of scarce resources, and genetic counseling and control. Specific attention will be given to ethical theories and to philosophical concepts such as rights, autonomy, and justice. Students cannot receive credit for both PHIL 442 and PHIL 542. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 445 Contemporary Ethical Issues
3.000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 335 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 490

An intensive study of a topic in recent ethical theory. Topics will vary with each offering. Among the topics: ethics and law, utilitarianism, virtue theory, theories of justice, morality and emotion, ethics and partiality. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 485 Philosophy of Science
3.000 Credits
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 335 or PHIL 340 or PHIL 350 or PHIL 365 or PHIL 369 or PHIL 370 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 490

A critical study of the foundations of the sciences, natural and social, with emphasis on the following topics: the nature of scientific method, theories and explanation, probability and determinism, the unity of the sciences. Students electing this course must have successfully completed a previous course in philosophy or have permission of instructor.

PHIL 490 Studies in Philosophy
1.000 TO 4.000 Credits

Intensive study of a figure, movement, or issue in philosophy. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. Typical topics: Plato's dialogues, philosophical foundations of mathematics, minds and machines. (OC).

PHIL 496 Independent Studies
1.000 TO 3.000 Credits
Topics in philosophy not ordinarily included in other courses in philosophy. Selected in accordance with needs and interests of those enrolled.

PHIL 497 Independent Studies
1.000 TO 3.000 Credits
Topics in philosophy not ordinarily included in other courses in philosophy, selected in accordance with the needs and interests of those enrolled.

PHIL 498 Independent Studies
1.000 TO 4.000 Credits
Topics in philosophy not ordinarily included in other courses in philosophy, selected in accordance with the needs and interests of those enrolled. Credit hours will vary. (F, W).

PHIL 499 Independent Studies
1.000 TO 4.000 Credits
Topics in philosophy not ordinarily included in other courses in philosophy, selected in accordance with the needs and interests of those enrolled. Credit hours will vary. (F, W).

Physics

Physics is the study of the most fundamental properties of matter and energy. The physics program has been designed with the recognition that a student might choose to concentrate in physics for a variety of reasons. In addition to meeting the needs of those planning to continue their physics education in graduate school, the program serves those students wanting to pursue technical careers immediately after graduation, those seeking to enter medical, dental or other professional schools, and those interested in earning certification as high school teachers. After completing a core curriculum in physics and mathematics and an introduction to the life and other physical sciences, students have the opportunity to gain first-hand experience in basic and applied physics research by participating in faculty research projects both on and off campus. Similar experiences may be arranged in hospital, industrial, or government research facilities in the Detroit metropolitan area. The physics faculty have concentrated their efforts in atomic physics, statistical and condensed matter physics, biophysics, astrophysics, and the history and philosophy of physics. Physics majors have worked on problems in these specialty areas, and also on projects in the interdisciplinary application of physics in medicine and in the environment. Students wishing to emphasize the applied side of physics may do so by replacing elective courses in physics with courses offered by the College of Engineering and Computer Science.

PREREQUISITES TO THE CONCENTRATION

A solid background in mathematics is essential to success in any scientific discipline. Incoming students who intend a concentration in physics should have completed at least three years of high school mathematics. First-year students should plan to enroll in MATH 105, 115 or 116 based on the results of their math placement tests. PHYS 150 and 151 are prerequisites to all other physics courses. Students intending on majoring in physics should complete these courses as soon as possible.
CHEM 134 General Chemistry I.............................. 4 hrs  
OR  
CHEM 144 General Chemistry I.............................. 4 hrs  

PHYS 150 General Physics I  
PHYS 151 General Physics II.............................. 8 hrs  
MATH 115, 116 and 215  
Calculus .................................................. 12 hrs  
MATH 216 Differential Equations............................ 3 hrs  

MATH 217 Matrix Algebra  
OR  
MATH 227 Linear Algebra ................................... 2-3 hrs  

Two other science courses chosen from 8 hrs  
CHEM 136 OR CHEM 146,  
BIOL 130 OR BIOL 140,  
GEOL 118  

CONCENTRATION REQUIREMENTS............................ 31 hrs  

Required courses.............................................. 22 hrs  
PHYS 305 Contemporary Physics............................. 3 hrs  
PHYS 360 Instrumentation for Scientists.................. 4 hrs  
PHYS 401 Mechanics......................................... 3 hrs  
PHYS 403 Electricity and Magnetism....................... 3 hrs  
PHYS 406 Thermal and Statistical Physics............... 3 hrs  
PHYS 453 Quantum Mechanics.............................. 3 hrs  
PHYS 460 Advanced Physics Laboratory.................... 3 hrs  

Six additional credit hours of lecture courses in physics, chosen from  
PHYS 320 Environmental Physics  
PHYS 370 Introduction to Mathematical Physics  
PHYS 390 Current Topics in Physics  
PHYS 405 Optics  
PHYS 416 Biological Physics  
PHYS 421 Astrophysics  
PHYS 457 Atomic and Nuclear Physics  
PHYS 463 Solid State Physics  

Three additional credit hours of laboratory courses, selected from  
PHYS 460 Advanced Physics Laboratory.................... 3 hrs  
PHYS 495 Off-Campus Research............................ 1-3 hrs  
PHYS 499 Laboratory Studies in Physics............... 1-3 hrs  

Cognates ....................................................... 6 hrs  
Students must complete at least six additional credit hours in upper-level cognate courses selected from mathematics, statistics, natural sciences (other than physics), computer science, engineering, or other subject areas intimately related to physics and approved by the physics concentration advisor. Courses leading to knowledge of computer programming in languages such as Fortran, C++, or JAVA are particularly recommended.  

MINOR OR AREA OF FOCUS  
A minor or area of focus consists of 12 credit hours of upper-division courses in physics. No more than three credit hours of field placements, internships, or co-op courses may be applied toward a minor in physics.  

Physics (PHYS)  
COURSE OFFERINGS  

PHYS 100 Perspectives in Physics  
3.000 Credits  
An introductory look at the concepts and methods of physics as well as the role of physics in society today. Examines some of the problems facing physicists and the ways they go about tackling them. Problem solving includes the use of mathematics in physical situations. The course is designed for non-concentrators interested in physics. Three hours lecture. (S).  

PHYS 125 Introductory Physics I  
4.000 Credits  
Prerequisites: MATH 105* or MPLS 113  
Co-requisites: PHYS 125L  
Part I of a non-calculus, introductory, survey of physics. The concepts of physics are presented with an emphasis on the methods of solving physical problems. Topics are drawn from mechanics, waves, and thermal physics. This course and PHYS 126 are normally taken by students in biological science, pre-professional and computer science programs. Three hours lecture, one hour discussion, three hours laboratory. (F).  

PHYS 126 Introductory Physics II  
4.000 Credits  
Prerequisites: PHYS 125 or PHYS 150  
Co-requisites: PHYS 126L  
A continuation of PHYS 125. Topics are drawn from electricity and magnetism, optics, and modern physics. Three hours lecture, one hour discussion, three hours laboratory. (W).  

PHYS 150 General Physics I  
4.000 Credits  
Prerequisites: MATH 115* or MPLS 116  
Co-requisites: PHYS 150L  
Part I of an integrated, two-semester, calculus-based treatment of physics, with emphasis on the solution of physical problems through the understanding of a few basic concepts. Topics are drawn from mechanics. This course and PHYS 151 are normally taken by concentrators in physics, chemistry, biochemistry, mathematics, and engineering. Three hours lecture, one hour discussion, three hours laboratory. (F, W).  

PHYS 151 General Physics II  
4.000 Credits  
Prerequisites: PHYS 150 and (MATH 116* or MPLS 215)  
Co-requisites: PHYS 151L  
A continuation of PHYS 150. Topics are drawn from electricity and magnetism, and optics. Three hours lecture, one hour discussion, three hours laboratory. (F, W).  

PHYS 305 Contemporary Physics  
3.000 Credits  
Prerequisites: (PHYS 126 or PHYS 151) and (MATH 116 or MPLS 215)  
An introduction to contemporary topics in physics of interest to science, mathematics and engineering students. Topics include relativity, and quantum mechanics and their applications to atoms, molecules, nuclei, solid state phenomena, and cosmology. Three hours lecture. (W).
PHYS 320  Environmental Physics  3.000 Credits  
Prerequisites: PHYS 126 or PHYS 151  
A survey of the applications of physical principles to the environment, and to the conversion, transfer, and use of energy. Problems of transportation, meteorology, and thermal pollution are included. Three hours lecture. (OC).

PHYS 360  Instrumentation for Scientists  4.000 Credits  
Prerequisites: PHYS 126 or PHYS 151  
An introduction to the principles of electronic instrumentation used in scientific research. Methods of converting physical measurements into electronic signals by means of electrical circuits, transistors, digital and analog integrated circuits will be discussed. Digital computers as general purpose laboratory instruments will be explored. Students will complete individual projects. Three hours lecture, four hours laboratory. (F).

PHYS 370  Intro to Mathematical Physics  3.000 Credits  
Prerequisites: (MATH 205 or MATH 215 or MPLS 215) and PHYS 151  
As introduction to those mathematical methods that are widely used in understanding the physical phenomena exhibited by Nature. Topics include vector analysis, linear algebra, complex variables, Fourier analysis, and differential equations. Emphasis is on the application of these techniques to physical problems of interest to students in mathematics, engineering, and the physical sciences. Three hours lecture. (AY).

PHYS 390  Current Topics in Physics  3.000 Credits  
Prerequisites: PHYS 305  
A lecture course in a topic of current interest in physics. Topics vary and are announced in the current Schedule of Classes. Three hours lecture. (OC).

PHYS 401  Mechanics  3.000 Credits  
Prerequisites: (MATH 205 or MATH 215 or MPLS 215) and PHYS 151  
A study of the classical physics of the motions of single particles, systems of particles, and rigid bodies. Topics include central force laws and planetary motion, collisions and scattering, rigid body motion, oscillations, Lagrange's equations, and Hamilton's principle. Three hours lecture. (F).

PHYS 403  Electricity and Magnetism  3.000 Credits  
Prerequisites: (MATH 205 or MATH 215 or MPLS 215) and PHYS 151  
The study of electrostatics, magneto statics and electrodynamics using Maxwell's equations. Of interest to engineers and physical scientists, the course focuses on the logical development of Maxwell's equations from experimental laws and on their application to electromagnetic phenomena. Three hours lecture. (W).

PHYS 405  Optics  3.000 Credits  
Prerequisites: (MATH 205 or MPLS 215 or MATH 215) and PHYS 151  
An introduction to wave and ray optics for students in engineering, mathematics, and the physical sciences. Topics of discussion include reflection and refraction at dielectric surfaces, lenses and mirrors, fiber optics, polarization, interference, and Fraunhofer and Fresnel diffraction. Additional material on coherence, Fourier optics and spatial filtering, and holography is presented as dictated by students' needs and interests, and as time permits. Three hours lecture. (AY).

PHYS 406  Thermal and Statistical Physics  3.000 Credits  
Prerequisites: (MATH 205 or MATH 215 or MPLS 215) and PHYS 151  
A study of thermodynamic phenomena using the methods of statistical mechanics. Designed for engineering students and concentrators in mathematics and the physical sciences; extensive application is made to physical, chemical and biological systems and phenomena, including solids, liquids, gases, paramagnets, thermal radiation, DNA, hemoglobin, semiconductors, heat engines, chemical reactions, and phase transitions. Three hours lecture. (F).

PHYS 416  Biological Physics  3.000 Credits  
Prerequisites: MATH 205 or (MATH 215 and PHYS 151)  
A course based on the methodology of physics with particular emphasis on the applications of theoretical models and experimental methods to biological objects and systems. Topics may include bioelectricity, membranes, polymers, and physical chemistry of macromolecules. Three hours lecture. (OC).

PHYS 421  Astrophysics  3.000 Credits  
Prerequisites: (MATH 205 or MATH 215 or MPLS 215) and PHYS 305  
A calculus-based introduction to several major areas of modern astrophysics for students concentrating in the physical sciences, mathematics, and engineering. Topics to be covered include observable properties of stars and star systems, stellar structure and evolution, binary systems and galactic x-ray sources, galaxies and quasars, and cosmology. Three hours lecture. (AY).

PHYS 453  Quantum Mechanics  3.000 Credits  
Prerequisites: PHYS 305 and MATH 216  
Concepts of quantum mechanics with applications of the Schrodinger wave equation to the simpler atoms, molecules, and nuclei. Topics of current interest to physicists, chemists, and biologists are discussed. Three hours lecture. (F).

PHYS 457  Atomic and Nuclear Physics  3.000 Credits  
Prerequisites: (MATH 205 or MATH 215 or MPLS 215) and PHYS 305  
Topics in modern atomic physics such as optical and radio-frequency spectroscopy and scattering of atoms and electrons are considered. An introduction to nuclear physics, including nuclear interactions and structure, radioactive decay, fission, and fusion. Three hours lecture. (AY).
PHYS 460  Advanced Physics Laboratory  
3. 000 Credits  
Prerequisites: PHYS 305* and PHYS 360  
Experiments in both classical and modern physics using contemporary techniques. Commercial apparatus is used in several experiments. Advanced students are encouraged to initiate and conduct their own experiments. Instruction in the planning of experiments and the presentation of oral and written reports is included. One hour recitation, six hours laboratory. Course may be repeated for credit. (W).

PHYS 463  Solid State Physics  
3. 000 Credits  
Prerequisites: (MATH 205 or MATH 215 or MPLS 215) and PHYS 305  
A study of the structure and properties of the solid state of matter with emphasis on crystalline solids, crystal structures, lattice dynamics, electrons in metals and semiconductors, and dielectric and magnetic properties of solids. Three hours lecture. (AY).

PHYS 490  Topics in Physics  
1. 000 TO 3. 000 Credits  
A lecture course in a topic of current interest in physics. Topics vary and are announced in the current Schedule of Classes. One to three hours lecture. (OC).

PHYS 495  Off-Campus Research  
1. 000 TO 3. 000 Credits  
Participation in ongoing experimental research at an off-campus laboratory. Assignments made by cooperative or internship agreement between the research laboratory, the student, and the physics concentration advisor. Course may be repeated for credit. Four to twelve hours laboratory. Permission of concentration advisor. (F, W, S).

PHYS 497  Seminar in Physics  
1. 000 TO 3. 000 Credits  
Current topics from various areas in pure and applied physics are reported upon by students, faculty, and guest lecturers. Topics presented will vary from year to year. Course may be repeated for credit. One to three hours seminar. (W).

PHYS 498  Directed Studies in Physics  
1. 000 TO 3. 000 Credits  
Special topics in physics chosen by agreement between student and instructor. Course may be repeated for credit. Permission of instructor. (F, W, S).

PHYS 499  Laboratory Studies in Physics  
1. 000 TO 3. 000 Credits  
Experimental studies in physics selected by agreement between student and instructor. Four to twelve hours laboratory. Course may be repeated for credit. Permission of instructor. (F, W, S).

Political Science  
Politics deals with "who gets what," and political science is the study of that process of getting and maintaining power. It is an attempt to define and analyze the processes by which individuals define their interests and interact to promote those interests. At the same time it is the study of the moral ends to which power is used. The six officially-defined areas of specialty within political science are American Politics, Political Theory, Public Policy, Comparative Politics, International Relations, and Research Methodology.

PREREQUISITES TO THE CONCENTRATION  
Students concentrating in political science must take three prerequisites:  
POL 101  Introduction to American Government*  
POL 201  Introduction to Comparative Government  
POL 300  Political Analysis**

*POL 101 is the prerequisite for all upper-division courses.  
Junior or senior standing is a prerequisite for most 400-level courses. Students are advised to complete these prerequisite courses as early as possible. They should complete POL 101 and 201 within their first four terms and POL 300 during their fourth or fifth term.  
** POL 301 does NOT fulfill the POL 300 requirement.

CONCENTRATION REQUIREMENTS  
After completing the prerequisite courses, students must complete 24 hours of upper-division political science courses. Students, except those who declared the concentration before September 1, 1986, are required to complete at least one course at the 300 level or above in each of the six fields listed below. Students are advised to complete required courses as soon as possible to prevent schedule conflicts. Those who ignore this advice may have difficulties completing their concentration requirements as they planned.

Summary of requirements:

Field Requirements: one course from each field* ............ 18 hrs  
American Politics................................................................. 3 hrs  
POL 311, 312, 313, 315, 316, 320, 322, 323, 327, 328, 329, 334, 340, 362, 413, 414, 415, 416, 417, 489  
Political Theory................................................................. 3 hrs  
Public Policy ................................................................. 3 hrs  
POL 325, 333, 360, 364, 365, 4605, 466, 481, 490  
Comparative Politics....................................................... 3 hrs  
POL 341, 350, 355, 370, 385, 386, 387, 450  
International Relations................................................... 3 hrs  
POL 361, 371, 375, 451, 471, 472, 473  
Methodology ................................................................. 3 hrs  
POL 300*, 492  
*Note: POL 300 meets both prerequisite and the methodology field requirement.

Additional electives to reach a total of 24 hrs  
Any political science course at the 300 level or above may be used to complete the required total of 24 hours of upper-division coursework beyond POL 300 and the required field courses. Students should select specific courses in consultation with the program advisor.

At least 15 hours of political science must be taken at UM-Dearborn unless waived by petition. Only six credit hours of internship experience, whether taken as POL 495-497, as internship-related directed studies, or as any other internship experience, may be counted toward a political science concentration.
Cognates ................................................................. 6 hrs
Students must complete six hours of cognate courses at the 300 level or above in anthropology, economics, history, philosophy, psychology or sociology.

MINOR OR AREA OF FOCUS

A minor or area of focus consists of 12 hours of upper-division credit in political science.

EVENING PROGRAM OFFERINGS

The political science faculty have a commitment to a comprehensive evening program. In terms of required courses, the goal of the discipline is to offer POL 101 each semester and POL 201 and POL 300 at least once every year. If POL 201 or POL 300 is not offered during a given two-year period, a full-time evening student is allowed to petition the discipline for permission to substitute other classes. Evening students should watch for infrequently offered prerequisite classes and take them when they are available.

Political Science (POL)

COURSE OFFERINGS

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL 101</td>
<td>Intro to American Government</td>
<td>3.000</td>
<td></td>
</tr>
<tr>
<td></td>
<td>An examination of the structure and dynamics of the American political system. Attention is also given to basic concepts and methods applicable to the study of politics in general. (F, W).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>POL 201</td>
<td>Intro Comparative Government</td>
<td>3.000 TO 4.000</td>
<td></td>
</tr>
<tr>
<td></td>
<td>An introduction to the world's major forms of government: Western democracy, Soviet communism, and the conflict and violence of the underdeveloped countries. (F, W).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>POL 205</td>
<td>Intro to Public Administration</td>
<td>3.000</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Introductory study of the administrative phase of public policy development. Such aspects of administration as personnel and fiscal management are considered and related to issue of accountability, public responsibility, and notions of public interest. (F, W).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>POL 250</td>
<td>Intro to Political Theory</td>
<td>3.000</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course examines the role of political theory as a tool for the critical analysis of political reality. It analyzes several dominant political conceptions such as justice, equality, democracy, civility, and authority. (YR).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>POL 260</td>
<td>The Arms Race and War</td>
<td>3.000</td>
<td></td>
</tr>
<tr>
<td></td>
<td>An examination of the courses and consequences of the contemporary arms race. Special attention is given to nuclear weapons, the risk of war, and the prospect for arms control and disarmament. (YR).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>POL 300</td>
<td>Political Analysis</td>
<td>3.000</td>
<td>POL 101</td>
</tr>
<tr>
<td></td>
<td>Introduction to research design, data collection and analysis, sampling, and statistics for social scientists. (F, W).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>POL 301</td>
<td>Political Analysis</td>
<td>3.000</td>
<td>POL 101</td>
</tr>
<tr>
<td></td>
<td>This is the REACH version of POL 300, offered each semester on audiovisual tape. Political science concentrators may not register for this class unless a petition is approved in advance by the political science discipline. (F, W, S).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>POL 302</td>
<td>The Theory of the Law</td>
<td>3.000</td>
<td></td>
</tr>
<tr>
<td></td>
<td>A comprehensive introduction to the theoretical foundations and the political functions of law, with special emphasis on the different moral justifications of law; the relation between law and justice; the relation between law and freedom; due process and fairness in any legal system. This course is designed to have special relevance for those considering law as a career. (OC).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>POL 303</td>
<td>Justice</td>
<td>3.000</td>
<td></td>
</tr>
<tr>
<td></td>
<td>An exploration of various theories of justice. The moral foundation of justice is considered, as are issues of economic distribution. (AY).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>POL 304</td>
<td>American Political Thought</td>
<td>3.000</td>
<td></td>
</tr>
<tr>
<td></td>
<td>The principal American contributions to political theory. (OC).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>POL 305</td>
<td>Race/Justice/Freedom in Amer</td>
<td>3.000</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course will examine the social and political thought of selected Black political thinkers. Its focus will be to assess the origins, development and implications of their ideas in the context of the changing dynamics of racial politics in America and the world. (AY).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>POL 306</td>
<td>Political Ideologies</td>
<td>3.000</td>
<td></td>
</tr>
<tr>
<td></td>
<td>An examination of significant modern ideologies, especially liberalism, conservatism, and Marxism. (YR).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>POL 307</td>
<td>Marxist Thought</td>
<td>3.000</td>
<td></td>
</tr>
<tr>
<td></td>
<td>The theories of selected communist thinkers and the implications that these ideas have for the contemporary world. (OC).</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
POL 308  Moral and Political Dilemmas
2.000 TO 3.000 Credits
May not be enrolled in one of the following Classes:
  Sophomore
  Freshman
Prerequisites:
The course focuses on the tensions and relations between personal morality and political action by examining the moral aspect of contemporary policy issues such as the right to life, environmental policy, and discrimination. (YR).

POL 309  Ancient Political Theory
3.000 Credits
Prerequisites:
An examination of the arguments for and against justice and for and against democracy in the writing of Plato and Aristotle. (YR).

POL 310  Modern Political Theory
3.000 Credits
Prerequisites:
The course studies the origins of modern political theory and practice, and the development of "modern" democratic liberalism. (YR).

POL 311  Int Group and Pol Process
3.000 Credits
Prerequisites:
An examination of the structure, techniques, and internal politics of interest groups, their role in policy making and relationship with political parties, legislative and executive bodies, and administrative agencies. (AY).

POL 312  Legislative Process
3.000 Credits
Prerequisites:
An analysis of legislative systems with emphasis on the changing realities of congressional and state power and policy making. (YR).

POL 313  American State Government
3.000 Credits
Prerequisites:
A comparative analysis of politics, political processes, and governmental institutions in American state and local governments. (YR).

POL 314  Issues in Amer Pol Thought
3.000 Credits
Must be enrolled in one of the following Levels:
  Undergraduate
Fundamental and recurring issues in American political thought, as they appear in the most influential and representative works on public affairs since the end of the Civil War. Topics may include Social Darwinism and its progressive critics, "revisionist" critiques of the Constitution, political aspects of philosophic pragmatism, the "revolt against formalism" in law, political doctrines of Progressivism and the New Deal, mid-century changes in progressive liberalism, the revival of classical liberalism and its "fusion" with traditional conservatism, political-philosophical aspects of environmentalism, the political thought of the civil rights movement and its critics, feminism and its diversification, and the capacities of American political culture and institutions to conduct a sustained opposition to terrorism. The course concentrates on analyzing extended works of reasoning in books, essays, judicial opinions and other public documents. POL 304, American Political Thought, is recommended as a forerunner to this course.

POL 315  The American Presidency
3.000 Credits
Prerequisites:
The development and functions of the chief executive and an analysis of the sources and nature of executive power in American national and state government. Primary attention is given to the presidency. (YR).

POL 316  The American Judicial Process
3.000 Credits
Prerequisites:

POL 317  Criminal Law
3.000 Credits
Prerequisites:
A survey of landmark Supreme Court decisions in the field of criminal law and related issues of criminal justice. State court decisions when applicable may also be included. (AY).

POL 320  Political Man
3.000 Credits
Prerequisites:
An analysis of the political process in terms of the attitudes, values, and behavior of human beings. (OC).

POL 322  Government of Michigan
3.000 Credits
Prerequisites:
An analysis of Michigan politics with emphasis on political processes and governmental institutions. (YR).

POL 323  Urban Politics
3.000 Credits
Prerequisites:
A survey of the political process in urban areas giving special attention to the changing role of cities in American politics. (YR).

POL 325  Environmental Politics
3.000 Credits
Prerequisites:
An examination of policy making on environmental and energy problems globally, nationally, and locally. (AY).

POL 326  Presidential/Congress Election
3.000 Credits
Prerequisites: POL 101
This course will focus on the most recent and upcoming presidential and congressional elections from the perspective of how they fit into and help illustrate the broad theoretical frameworks and findings on elections and voting behavior in political science. Topics will include nominating and general election campaigns, campaign financing, participation, party coalitions, and news media. (OC).
POL 327  Pol Parties and Elections
3. 000 Credits
Prerequisites:
A basic survey of American political party organization and the American election system. The course sometimes includes an examination of parties and elections in comparative perspective. (YR).

POL 328  Pub Opinion and Press Groups
3. 000 Credits
Prerequisites:
A study of the nature and formation of public opinion, the techniques for its measurement, and its role in the political system. (AY).

POL 329  Politics and the Media
3. 000 Credits
Prerequisites:
This course investigates the new relationships that have evolved in the 20th century between the print and electronic media and our major political institutions; the structure of the modern media; their role in the "political socialization" of the citizenry; their influence on public opinion; their effects on our party and electoral system; their role in defining political reality and agenda setting; and their influence upon our political institutions and the policy-making process. (YR).

POL 333  Citizens and Bureaucrats
3. 000 Credits
Prerequisites:
The focus of this course is citizen participation in administrative behavior. Attention is paid to the perspectives of both citizens and bureaucrats. The course uses broad concepts of political participation and organization behavior. (YR).

POL 334  Organizing and Leadership
3. 000 Credits
Prerequisites: POL 323 or URS 300
The purpose of this course is to introduce students to the theory and practice of local democratic action. The course draws on the history, practices, and lessons of the American community organizing tradition and the civil rights movement and relates those past experiences to current issues. In collaboration with local community partners, students learn about effective methods of civic engagement and leadership, as currently practiced in metropolitan Detroit.

POL 340  Federalism
3. 000 Credits
Prerequisites:
Federalism is considered from both legal and operational perspectives. Students examine traditional views of Federalism as well as empirical and technical studies about intergovernmental relations at national, state, and metropolitan levels. (YR).

POL 341  Canadian Politics
3. 000 Credits
Prerequisites:
A survey of Canadian politics and government. It provides an understanding of the Canadian political tradition and some of the concerns of contemporary Canada; includes a focus on the cultural and socioeconomic bases of the political system, the development of constitutional structures, the scope of public policy and the dynamics of policy process. (OC).

POL 350  Pol of the Developing Areas
3. 000 Credits
Prerequisites:
A comparative study of political cultures, party systems, governmental structures, and development problems in the emerging nations of Asia, Africa and Latin America. (AY).

POL 355  Religion and Politics
3. 000 Credits
Prerequisites:
The primary focus of the course is on political movements or systems, which take a religious form or have a religious base or use a religiously rooted ideology. Possible themes or cases covered include millennialism, the Iranian Islamic revolution, the Catholic Church as a political system, liberation theology in Latin America, Zionism and the Evangelical movement in America. (AY).

POL 360  American Policy Process
3. 000 Credits
An analysis of decision-making processes in the federal government with emphasis on the congressional and executive branches. (YR).

POL 361  American Foreign Policy
3. 000 Credits
Prerequisites:
Survey of American foreign policy in various regions of the world. Instances of policy making, such as the Cuban missile crisis, are explored in detail. (YR).

POL 362  Women, Politics, and the Law
3. 000 Credits
Prerequisites:
An examination of the political behavior of women in American politics. Included is an analysis of the legal and legislative demands of American women. (AY).

POL 363  Cr Just Policy and Admin
3. 000 Credits
Prerequisites:
The structure and processes of criminal justice administration in America, including analysis of current issues in police behavior, courts, and corrections. (AY).

POL 364  Health Pol and Administration
3. 000 Credits
Prerequisites:
Structure and processes of health administration in America, including analysis of current issues in health policy. (AY).

POL 365  Energy Policy
3. 000 Credits
Prerequisites:
The course reviews the important elements in energy policy and a brief history of that development. It also considers what factors have been important in those developments. Finally, there is discussion of the potential for policy developments at all levels of government. (OC).
POL 370 Communist & Post-Communist Sys
3.000 Credits
China and Russia are the focal points of this course. Among questions explored are: How are Russia and China ruled? Are their forms of government and their economic systems "moderating" and becoming more like those of the United States? How successful have these governments been in meeting the needs of the people? (OC).

POL 371 Problems in Intl Politics
3.000 Credits
Prerequisites:
Present-day problems in world politics, with particular emphasis on the great powers and on areas and events of political conflict in the contemporary world. (YR).

POL 375 Great Pwrs Comp and Conflict
3.000 Credits
Prerequisites:
This course focuses on the foreign policies of major international powers, such as Soviet Russia, China, and the Western European democracies. (YR).

POL 385 Middle East Politics
3.000 Credits
Prerequisites:
The course focuses on the Israeli-Palestine conflict in its domestic, regional, and world-wide dimensions. (AY).

POL 387 Southern Africa
3.000 Credits
Prerequisites:
The focus of this course is on the politics of Southern Africa, especially of South Africa but including Zimbabwe, Mozambique, Angola, Zambia, and others. The international dimensions of regional politics are also covered. (AY).

POL 390 Topics in Political Science
3.000 Credits
Examination of problems and issues in selected areas of political science. Title as listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

POL 398 Independent Studies
1.000 TO 3.000 Credits
Readings or analytical assignments in Political Science in accordance with the needs and interests of those enrolled and agreed upon by the student and instructor.

POL 399 Independent Study
1.000 Credits
readings or analytical assignments in political sciences in accordance with the interests and needs of students enrolled and agreed upon by the instructor and student. Written permission of instructor required.

POL 413 American Constitutional Law
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites:
A major theme of this course is the development of the constitution, especially focusing on the themes of judicial review; judicial self-restraint and judicial activism; the expansion of executive and legislative powers; and the rise of "substantive due process of law." (AY).

POL 414 Civil Rights and Liberties
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites:
An analysis of the Bill of Rights and the 14th Amendment, with particular emphasis upon recent landmark or controversial Supreme Court decisions dealing with freedom of speech and religion, rights of criminal defendants; cruel and unusual punishment, right to privacy; civil rights and equal protection clause; and apportionment. (YR).

POL 415 Problems in Constitutional Law
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites:
Selected areas of constitutional law of current interest. Topics to be announced. (AY).

POL 416 Criminal Law
3.000 Credits
A survey of the major judicial, executive, and legislative decisions in the field of criminal law. (AY).

POL 417 Constitution & National Security
3.000 Credits
May not be enrolled in one of the following Classes:
Freshman
This course focuses on the issue of national security and how the federal government has used power to protect its citizens. It analyzes relevant national security issues in order to understand how government action is constrained by the Constitution and social norms. The course examines the historical development of national security in the United States including habeas corpus, wiretapping, military tribunals, state secrets, and extraordinary rendition. Particular close attention is paid to the modern development of national security. The emphasis in reading will be on cases, executive orders, congressional hearings, and statutes.

POL 445 Environmental Law
3.000 Credits
A survey of common law theories and analysis of environmental statutes from a functional perspective. The course also includes environmental law aspects of constitutional law, administrative law and criminal law, as well as the public trust doctrine and public lands. Student cannot receive credit for both ENST 350 and ENST/POL 445.

POL 450 Revolution
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites:
A consideration of violent political change and the conditions which promote it. The course covers both revolutionary theories and empirical research. Specific revolutions are considered. (YR).

**POL 451 Peace and War**  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites:  

An examination of the causes of war and the means of securing peace. (YR).

**POL 4605 Science, Tech & Pub Policy**  
3. 000 Credits  
May not be enrolled in one of the following Classes:  
Graduate  

This course explores the intersection of science, technology, and public policy. Scientific knowledge and technological innovations are exceptionally powerful resources for policymakers and for societies; they also pose great challenges and risks. This course will look at how science and technology affect the pursuit of policy goals in areas such as public health, environmental sustainability, economic growth, and national security. Students will not receive credit for more than one of POL 460, POL 560, and PPOL 560.

**POL 466 Politics&Policies Soc Welfare**  
3. 000 Credits  
May not be enrolled in one of the following Classes:  
Freshman  

The course examines the relationship between politics and public policy as related to the provision of social welfare programs in the United States.

**POL 471 American Foreign Policy I**  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites:  

American foreign policy in Western Europe, Russia, and Latin America. (OC).

**POL 472 American Foreign Policy II**  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites:  

American foreign policy in the non-western world. (OC).

**POL 473 International Security Affairs**  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites:  

International Security is the branch of world politics concerned with the threats, primarily military in nature, to the peace and security of the nation, states, and the international community. (AY).

**POL 481 Terrorism & US Natl Security**  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: POL 101 or CRJ 468  

The United States responded to the events of September 11, 2001 with a series of unprecedented action under the umbrella of homeland security and the ?War on Terror.? This course examines American National security policy by asking a few key questions: What is terrorism and how does it threaten the United States? How has the United States responded to the threat of terrorism over time? What have the consequences of US policy been to date? Finally, how would we balance a desire for security with our desire for civil liberties and ethical action?

**POL 487 Comparative Enviro Policy**  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  

This course explores environmental policy as a result of political processes involving diverse participants and entailing movement through several stages ? from defining an issue as an environmental problem to placing it on political agenda and then receiving a response at domestic governmental or international levels. This course analyzes environmental issues from a cross-cultural and comparative perspective, with a particular attention given to political institutions, political change, levels of development, political culture, public participation, and international commitments that shape the nature and dynamics of environmental politics and policy in different countries.

**POL 489 Seminar in Urban Politics**  
3. 000 Credits  

Selected topics in urban politics.

**POL 490 Sem in Public Administration**  
2. 000 TO 3. 000 Credits  

Selected topics in public administration.

**POL 491 Seminar in Political Science**  
3. 000 Credits  

Selected topics in political science. Title as listed in Schedule of Classes changes according to content. Course may be repeated for credit when topics differ. (AY).

**POL 492 Seminar in Political Analysis**  
3. 000 Credits  

An advanced in-depth look at the problems and techniques of empirical research. Gives special attention to research design, data collections, measurement, and validity. Statistics for social scientists will also be covered. (OC).

**POL 494 Internship Seminar**  
3. 000 Credits  

This is the academic part of the internship. Students meet with other interns once a week to analyze political dynamics within their placements. Students are required to keep journals, prepare papers and reports, and do other written work. Anyone taking POL 495 or 497 is required to take POL 494. It may not be taken by itself. Repeatable if topic differs. Only six hours of internship credit is allowable toward concentration requirement.
POL 495  Public Affairs Internship
3.000 TO 6.000 Credits
Field study placements in national, state, county, local
government or private agencies. Primarily for junior or senior
political science concentrators or other qualified applicants.
Maximum of 20 students selected each term. Students must also
register for POL 494. Only six hours of internship credit is
allowed toward concentration requirement.

POL 496  Canada Internship
3.000 OR 6.000 Credits
Field study placements in Canada at national, provincial, or
local levels, or in private agencies. Course is offered only in
summer semester. Primarily for junior or senior political science
concentrators or other qualified applicants. Students must also
register for POL 494. Only six hours of internship credit is
allowed toward concentration requirement.

POL 497  Washington, D. C. Internship
3.000 TO 6.000 Credits
Field placements in Washington, D.C. Course is offered only in
spring semester. Primarily for junior or senior political science
concentrators or other qualified applicants. Only six hours of
internship credit is allowed toward concentration requirement.

POL 498  Directed Studies
1.000 TO 6.000 Credits
Directed individual study of any subject agreed upon by the
student and the instructor. May not duplicate a formal course
offering. (OC).

POL 499  Directed Studies
1.000 TO 6.000 Credits
Directed individual study of any subjects agreed upon by the
student and the advising instructor, which shall not duplicate a
formal course offering.

Psychology

As the science of human experience and behavior, psychology has
a vast range. At one end, it borders on natural sciences such as
biology and physiology, and at the other, it shares interests with
social science disciplines such as anthropology and sociology. A
student might choose to focus on a particular subfield of
psychology by taking elective courses from within one of these
areas: social, personality, clinical, developmental, environmental,
industrial/ organizational, cognitive, experimental and
physiological. The curriculum is designed to accommodate non-
concentrators who seek personal enrichment, concentrators who
will go on to use psychology in a human services career or in a
related field, and concentrators intending to pursue an advanced
degree in psychology. Honors and internship programs provide
opportunity for students to develop research skills and to gain
practical experience in an applied setting.

PREREQUISITES TO THE CONCENTRATION
Students desiring to concentrate in psychology are required to
take the following or their equivalents.

<table>

CONCENTRATION REQUIREMENTS

Students must complete at least 27 hours in psychology at the
300 level or above. For those transferring from a community
college this requirement will ordinarily mean that the 27 hours
will be completed during the junior and senior years. All
students are required to complete 15 of the 27 hours in
psychology at UM-Dearborn.

Students are required to take one course in each of the following
areas.

Methods
PSYC 415, 425, 435, 4445, or 465

Biological Psychology
PSYC 370, 372, 455, or 4725

Clinical/personality
PSYC 440, 441, 442, or 450

Developmental Psychology
PSYC 300, 302, 315, 407, 412, or 432

Social/Organizational Psychology
PSYC 320, 322, 325, or 4305

Statistics and Experimental Design
PSYC 381

Cognitive
PSYC 363, 375, 463, or 464

Cognates................................................................. 6 hrs
Students must also complete at least six hours in cognate courses
at the 300 level or above, excluding internships or independent
studies, which are to be selected from offerings in anthropology,
biology, economics, education (A & C categories only),
literature, mathematics, philosophy, political science or
sociology. Additional areas include art history, chemistry,
biochemistry, communications, history, applied statistics, music
history, speech, health policy studies, geography, engineering,
computers (CIS or CCM), English, environmental science,
foreign languages, linguistics, microbiology, music theory,
physics, environmental studies and management.

MINOR OR AREA OF FOCUS

A minor or area of focus consists of PSYC 170 or 171 and 12
hours of upper-division credit in psychology.

HONORS PROGRAM IN PSYCHOLOGY

Psychology offers an honors program which provides special
opportunities for outstanding students, including a research
teaching seminar followed by research in collaboration with
faculty members. Students are formally accepted for the honors
program early in their junior year. Prospective students should
plan on completing PSYC 381 and a methods course by the end
of fall term in their junior year. Requirements for entrance are a)
GPA of 3.2 or higher in psychology and overall UM-Dearborn
courses and b) informal evidence of being a superior student,
such as high motivation and ability to work independently.
Requirements for graduation with honors in psychology are the
successful completion of:
• all requirements for psychology concentration
• PSYC 481 Computers in Psychology, normally taken in the fall semester, senior year
• PSYC 498 Honors Seminar normally taken winter term, junior year
• PSYC 499 Honors Research normally completed during senior year
• Research proposal meeting completed early in senior year
• Final Oral Defense completed at least one month prior to graduation

PSYCHOLOGY INTERNSHIP

Juniors and seniors can obtain practical experience working under supervision in a setting relevant to psychology. Internship students will spend approximately 6 or 12 hours per week at their field placement and will attend a weekly seminar on campus. Students may register for PSYC 485 Field Work: Psychology Internship for 3 or 6 credits. Application should be made to the director of the psychology field work program.

COURSE NUMBERING SYSTEM

The courses listed below are grouped into five categories based on the second and third digits in their numbers. The categories and their numbers are: Developmental Psychology (X00-X19), Social/Organizational Psychology (X20-X39), Clinical/Personality Psychology (X40-X59), Natural Science Psychology (X60-X79), and Other (X80-X99). Asterisked (*) courses are considered to be the basic courses in the area. It is recommended that they be taken before other courses in the area.

Psychology (PSYC)

COURSE OFFERINGS

PSYC 170  Intro to Psych as a Nat Sci  
3.000 Credits
A treatment of the principles of sensation, perception, maturation, learning, motivation, memory, thought, language, and physiological bases of behavior. (F, W, S).

PSYC 171  Intro to Psych as a Soc Sci  
3.000 Credits
A treatment of the principles of human development, intelligence, motivation, personality theory, social and abnormal psychology, and psychotherapy. (F, W, S).

PSYC 300  Life-Span Developmental Psych  
3.000 Credits
Prerequisites: PSYC 170 or 171
Theoretical issues of psychological development from birth through late adulthood are emphasized, along with issues regarding research methods. Topics include cognitive, intellectual, personality, and social development through the life-span. (YR).

PSYC 301  Psych of Infant Development  
3.000 Credits
Prerequisites: PSYC 171 or PSYC 170
An examination of current theories and findings concerning physical, social, emotional, and intellectual development of the infant. Topics include genetic and experiential factors affecting prenatal and infant development, language, cognition, and environmental influences on development. Theory will be related to infant care practices in families.

PSYC 302  Psych of Child Development  
3.000 Credits
Prerequisites: PSYC 170 or 171
An examination of current theories and findings concerning physical, social, emotional, and intellectual development from conception to late childhood. Topics include genetic and experiential factors affecting child development.

PSYC 303  Intro to Women's & Gender Stud  
3.000 Credits
May not be enrolled in one of the following Classes: Freshman
This course provides an interdisciplinary overview of the key theories and topics in Women's and Gender Studies. Special attention is given to how gender intersects with class, race, nationality, religion and sexuality to structure women's and men's lives. Students are also introduced to methods of gender analysis and will begin to apply these methods to topics such as women and health, gender roles in the family, violence against women, and gendered images in the mass media.

PSYC 315  Personality Development  
3.000 Credits
Prerequisites: PSYC 170 or 171
An investigation of the factors involved in the formation of personality and the changes in personality across the life-span. The influence of family, peers, and society will be emphasized. (YR).

PSYC 320  Social Psychology  
3.000 Credits
Prerequisites: PSYC 171 or PSYC 170 or SOC 200 or SOC 201
An introductory study of the inter-relationships of the functioning of social systems and the behavior and attitudes of individuals. (YR).

PSYC 321  Attitude and Social Behavior  
3.000 Credits
Prerequisites: PSYC 171 or PSYC 170
An analysis of social attitudes as they relate to personality and to membership in collective structures; the conditions of their formation and modification. (YR).

PSYC 322  Psychology of Prejudice  
3.000 Credits
Prerequisites: PSYC 170 or 171
A consideration of ethnic (including racial), sexual, and religious prejudice from the psychological point of view, focusing on the mind of both the oppressor and the oppressed. (YR).
PSYC 325  Psyc of Interpersonal Relation  
3. 000 Credits  
Prerequisites: PSYC 170 or 171

This course presents an overview of theory and research conducted by social psychologists that has been aimed at understanding interactions between individuals. Topics include an exploration of the research process that is used to investigate interpersonal relationships, the processes underlying social perception, friendship, liking, love, close relationships, aggression and violence in interpersonal relationships. (YR).

PSYC 363  Cognitive Psychology  
3. 000 Credits  
Prerequisites: PSYC 170 or 171

Analysis of human perceptual and cognitive functioning from an information-processing point of view. Emphasis will be placed on attention, pattern-recognition, memory, problem solving and other cognitive processes. (YR).

PSYC 370  Physiological Psychology  
3. 000 Credits  
Prerequisites: PSYC 170 or 171

Integration of physiological concepts with behavioral phenomena. (YR).

PSYC 372  Animal Behavior  
3. 000 Credits  
Prerequisites: PSYC 170 or PSYC 171 or BIOL 100

Comparative psychology. Descriptive analysis of human and animal behavior. (YR).

PSYC 375  Psychology of Language  
3. 000 Credits  
Prerequisites: PSYC 170 or PSYC 171 or LING 280

The nature of human language as seen from the perspective of experimental psychology. The course will also introduce the student to current developments in linguistic theory. (AY).

PSYC 381  Prin of Stat and Exper Design  
3. 000 Credits  
Prerequisites: PSYC 170 or 171

An introduction to basic principles of experimental design and statistical analysis as employed in psychological research. Topics covered include data-gathering, descriptive statistics, hypothesis-testing and one- and two-sample experiments, correlational designs, and one- and two-way analysis of variance. (YR).

PSYC 390  Topics in Psychology  
3. 000 Credits  
Prerequisites: PSYC 170 or PSYC 171

Examination of problems and issues in selected areas of psychology. Title listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

PSYC 391  Topics in Psychology  
3. 000 Credits

Examination of problems and issues in selected areas of psychology. Title listed in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

PSYC 394  Psychology and Theater  
3. 000 Credits  
Prerequisites: PSYC 170 or 171

The linkages between psychology and theater are analyzed from the perspective of the actor, the audience, and the analyst (both psychotherapeutic and literary). This includes ties between plays and theories of human behavior, psychodrama, and self-insight through performance. Class involves a significant experiential component.

PSYC 3955  Diversity and the Workplace  
3. 000 Credits  
Prerequisites: PSYC 170 or PSYC 171 or WST 275 or OB 354 or HRM 405 or WGST 275 or WGST 303 or PSYC 275 or ANTH 275 or SOC 275 or HUM 275 or PSYC 303 or SOC 303 or ANTH 303 or HUM 303

This course will: 1) discuss gender, race, ethnicity, disability, age, sexual orientation, and appearance as aspects of diversity; 2) examine social values and practices, and organizational policies and procedures that affect or have affected the employment opportunities of underrepresented groups; 3) examine individual (e.g., prejudice, stereotypes), group(e.g., in-groups and out-groups), and organizational (e.g., culture) processes that affect work place diversity and; 4) discuss "best practices" for promoting an organizational culture that values diversity, along with a diverse workforce.

PSYC 398  Independent Studies in Psych  
1.000 TO 3. 000 Credits

Readings or analytical research in psychology selected in accordance with the interests and needs of students enrolled and agreed upon by the instructor and student. Permission of instructor. (F, W, S).

PSYC 404  Parent-Child Relations  
3. 000 Credits  
Prerequisites: PSYC 170 or 171

This course examines parental effects on children and children's effects on parents. Emphasis is placed on how the psychologist can collect additional information on the interactions of such people as parents and their children. (YR).

PSYC 405  Gender Roles  
3. 000 Credits  
Prerequisites: PSYC 170 or 171

May not be enrolled in one of the following Classes: Graduate  
Prerequisites: PSYC 171 or PSYC 170 or SOC 200 or SOC 201

This course will investigate the development of gender roles in childhood and adolescence due to either innate physiological differences or sociological patterning, the effect of gender roles upon male-female relationships within our society, and the possibility of transcending sociological gender roles in alternate modes of living. Students cannot receive credit for both PSYC 405 and PSYC 505. (YR).
PSYC 407  Psychology of Adolescence  
3.000 Credits  
Prerequisites: PSYC 170 or 171

Considers adolescence as an interaction of rapid biological and social change. Students lacking the prerequisite may elect course with permission of instructor. Examines the theoretical and empirical literature in some detail. Students cannot receive credit both PSYC 407 and PSYC 507. (YR).

PSYC 412  Psychology of Aging  
3.000 Credits  
Prerequisites: PSYC 170 or 171

This course examines development of the individual from middle adulthood through old age. Special emphasis is given to the understanding of developmental theories and issues in adulthood. Topics include biological basis, socialization, family relationships, personality, and intellectual development in the aging individual. (YR).

PSYC 415  Lab in Developmental Psych  
3.000 Credits  
Prerequisites: PSYC 300 or PSYC 302 or PSYC 315 or PSYC 407 or PSYC 418

An examination of research design and methodology as related to developmental psychology. Special emphasis will be given to training students in data collection techniques used in developmental research and in providing practical experience in designing and conducting research. Students cannot receive credit for both PSYC 415 and PSYC 515. (YR).

PSYC 418  Cognitive Development  
3.000 Credits  
Must be enrolled in one of the following Levels: Undergraduate  
Prerequisites: PSYC 170 or 171

This course explores theories and methods in cognitive development focusing on Piaget's theory and more recent significant conceptualizations. Topics include stages of cognitive development, types of inferential processes, and the acquisition of world knowledge. Discussions leading to the formation of new research ideas are emphasized. Students cannot receive credit for both PSYC 418 and PSYC 518. (YR).

PSYC 421  Group Processes  
3.000 Credits  
Prerequisites: PSYC 170 or PSYC 171 or SOC 200

Topics treated include group cohesiveness, "group think," the social structure of groups, emotional factors in group life, leadership, and the development of groups. (YR).

PSYC 422  Psychology of Leadership  
3.000 Credits  
Prerequisites: PSYC 171 or PSYC 170

Analysis of theories and research findings in the field of leadership. Class will participate in and observe leadership-group interactions. Students cannot receive credit for both PSYC 422 and PSYC 522. (YR).

PSYC 425  Lab in Social Psychology  
4.000 Credits  
Prerequisites: PSYC 381

A broad introduction to research methods in basic and applied social psychology. Students will receive training in construction, implementation, and interpretation of scientific procedures used in the study of social psychology. Topics include: questionnaire construction, experimental design, and various multivariate analytic techniques. (YR).

PSYC 4305  Psychology in the Workplace  
3.000 Credits  
Prerequisites: PSYC 171 or PSYC 170 or OB 354 or HRM 405

This course introduces students to some of the core content areas of Industrial/Organizational (I/O) psychology. These content areas include: selection, training, performance appraisal, work teams, job design, motivation, leadership, union-management relations, and stress and health in the workplace. Students cannot receive credit for both PSYC 4305 and PSYC 530. (YR).

PSYC 431  Organizational Entry  
3.000 Credits  
Must be enrolled in one of the following Levels: Undergraduate  
May not be enrolled in one of the following Classes: Graduate  
Prerequisites: PSYC 170 or PSYC 171 or HRM 405 or OB 354

An in-depth consideration of the psychological aspects of the organizational entry process. Topics to be covered include recruitment, selection, orientation, socialization, and training. (OC).

PSYC 432  Socialization of the Child  
3.000 Credits  
Must be enrolled in one of the following Classes: Senior Junior  
Prerequisites: PSYC 170 or 171

An in-depth consideration of some major social systems that affect the development of the child. Students lacking the prerequisite may elect course with permission of instructor. Students cannot receive credit for both PSYC 432 and PSYC 532. (YR).

PSYC 440  Abnormal Psychology  
3.000 Credits  
Prerequisites: PSYC 170 or 171

An introduction to the field of psychopathology, the study of mental disorders. Includes exposure to a number of historical and theoretical perspectives, each with their own theories, methodologies, and treatment approaches. Disorders covered will include: anxiety and mood disorders, personality disorders, schizophrenia, sexual disorders, and psychosomatic disorders. Students cannot receive credit for both PSYC 440 and PSYC 540. (YR).

PSYC 441  Intro to Clinical Psychology  
3.000 Credits  
Prerequisites: PSYC 170 or 171

Introduction to the logic, problems, and limitations of clinical observations and inference. Issues in diagnosis and treatment are examined, with an attempt to understand parallels between clinical interpretation and problems in other disciplines. (YR).
PSYC 442  Child Psychopathology
3. 000 Credits
Prerequisites: PSYC 170 or 171
A review of the major psychological disorders of children from birth to adolescence. These disorders are considered from a clinical and theoretical point of view. In addition to an examination of causes, approaches to treatment and behavior modification are considered. Students cannot receive credit for both PSYC 442 and PSYC 542. (YR).

PSYC 4445  Personality Assessment Lab
4. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: PSYC 170 or 171
This is a course in methods of assessing personality. The theory and methods of observation, interviewing, questionnaires, IQ tests, and projective tests are discussed and employed in brief individually-designed studies. In addition to the course prerequisite, students should have at least three upper-level psychology credits and junior or senior standing or permission of the instructor. Students cannot receive credit for both PSYC 4445 and PSYC 544. (YR).

PSYC 446  Human Sexual Behavior
3. 000 Credits
Prerequisites: PSYC 170 or 171
A comprehensive review of facts about human sexuality. The emphasis is on psychological aspects of sex, but there is also a consideration of genetic, physiological, and anatomical aspects of sex, and contemporary issues. Students cannot receive credit for both PSYC 446 and PSYC 546. (YR).

PSYC 450  Personality Theory
3. 000 Credits
Prerequisites: PSYC 170 or 171
A comparative review and examination of leading theories of personality; their basic concepts, similarities and differences, applications in clinical psychology, in education, in social planning, and in research. Students cannot receive credit for both PSYC 450 and PSYC 550. (YR).

PSYC 451  Prin of Counseling and Psych
3. 000 Credits
Prerequisites: PSYC 170 or 171
An introduction to traditional and innovative methods of psychological counseling and psychotherapy with an emphasis upon the theoretical foundations of personality and behavior change. Differences and similarities among the various schools of counseling and psychotherapy will be examined among with the values and limitations common to them all. (YR).

PSYC 455  Health Psychology
3. 000 Credits
Prerequisites: PSYC 170 or 171
A discussion of the research on health promotion, psychological factors in the development of illness, cognitive representations of health and illness, stress and coping, social support, nutrition and exercise. Focus will be on the factors related to the development and maintenance of optimal health. Students cannot receive credit for both PSYC 455 and PSYC 555. (YR).

PSYC 456  Sport Psychology
3. 000 Credits
Prerequisites: PSYC 170 or 171
A consideration of research and theory aimed at two objectives: (a) understanding how psychological variables affect physical performance and (b) understanding how participation in sports influences psychological development. (YR).

PSYC 461  Learning and Memory
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
Prerequisites: PSYC 170 or PSYC 171
A consideration of major theories and research results related to learning and memory in humans and animals. Students cannot receive credit for both PSYC 461 and PSYC 561. (YR).

PSYC 463  Sensation and Perception
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
Prerequisites: PSYC 170 or 171
Analysis of basic sensory and perceptual phenomena with a review of relevant behavioral and physiological literature. Students cannot receive credit for both PSYC 463 and PSYC 563. (YR).

PSYC 464  Human Factors Psychology
3. 000 Credits
Prerequisites: PSYC 170 or 171
This course will provide an overview of the field of human factors, including two major components: (1) a background in specific content areas of psychology that have direct relevance to the field, and (2) a survey of direct applications of these areas to real-world problems. The content areas include research methods, sensory and perceptual processes, learning and memory, human information processing, decision making, problem solving, and language and communications. Direct applications include accident avoidance, design of displays and instrument panels, automation, human-computer interaction, control devices, and transportation. (YR).

PSYC 465  Experimental Psychology
3. 000 Credits
Prerequisites: (PSYC 170 or PSYC 171) and PSYC 381
Laboratory course in Experimental Psychology, including sensation, perception, learning, memory, language, and problem solving. Students will perform standard experiments, design one or two new modified experiments, collect data, analyze results, and present them in the form of laboratory reports. (YR).

PSYC 470  Advanced Physiological Psych
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
Prerequisites: PSYC 370
Further study of the subject matter of PSYC 370. Advanced study of topics in the area of psychobiology. Students cannot receive credit for both PSYC 470 and PSYC 570. (YR).
**PSYC 471  Reproductive Phys and Beh**
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: PSYC 170 or PSYC 171

An in-depth examination of reproduction from a physiological and psychological viewpoint. Physiological topics include anatomy, hormones, and neural mechanisms. Psychological topics include behavior development and descriptions. Students cannot receive credit for both PSYC 471 and PSYC 571. (YR).

**PSYC 4725  Motivation and Behavior**
3.000 Credits
Prerequisites: PSYC 170 or 171

Study of the psychobiological aspects of motivated behavior. Topics include hunger, addiction, aggression, sleep, and achievement. Students cannot receive credit for both PSYC 4725 and PSYC 572. Prerequisites or permission of instructor. (YR).

**PSYC 473  Clinical Neuropsychology**
3.000 Credits
Prerequisites: PSYC 370

This course is an in-depth examination of the field of clinical neuropsychology including a review of brain anatomy and physiology, theories of neural organization, and disorders of the nervous system. In addition, students will learn techniques utilized in neuropsychological assessment. (Prerequisite may be waived for students with Natural Science background.) (YR).

**PSYC 480  History of Psychology**
3.000 Credits
Prerequisites: PSYC 170 or PSYC 171

An overview of the development of modern psychology from the 17th century to the present, with particular emphasis on the beginning of psychology in America. The philosophical assumptions of various schools of psychology will be examined. (YR).

**PSYC 481  Computers in Psychological Res**
3.000 Credits
Prerequisites: PSYC 381

An introduction to the use of computers in data analysis and psychological research. Students will receive training in computer programming using SPSSPC and other software packages. Topics will include: correlation, regression, analysis of variance, and several multivariate techniques. (YR).

**PSYC 485  Psychology Internship**
3.000 OR 6.000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: PSYC 170 or 171

The psychology internship offers experience in a wide variety of placements dealing with human services. These include programs related to child abuse, crisis intervention, geriatrics, human resources/staff development, cognitive impairment, criminal probation, teenage runaways, substance abuse, and women's issues. The program is designed for juniors and seniors with a concentration in psychology or behavioral sciences and involves training in listening and helping skills.

**PSYC 490  Advanced Topics in Psychology**
3.000 Credits
Examination of problems and issues in selected areas of psychology. Title in Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

**PSYC 492  Individual Research**
1.000 TO 3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate

No more than 6 hours may be counted for concentration. Arrangements will be made for adequately prepared students to undertake individual research under the direction of a staff member. The students, in electing, should indicate the staff member with whom the work has been arranged. Students cannot receive credit for both PSYC 492 and PSYC 592. (YR).

**PSYC 497  Seminar in Psychology**
3.000 Credits
Small seminar examination of problems and issues in selected areas of psychology. Title in Schedule of Classes will change according to content. Course may be repeated for credit when specified topics differ. Written permission of instructor required.

**PSYC 498  Psychology Honors Seminar**
3.000 Credits
Preparation for Honors research project. Involves discussion of and writing on: choosing a topic, reviewing the literature, selecting a research method and design, and developing a research proposal. (YR).

**PSYC 499  Psychology Honors Research**
3.000 Credits
Prerequisites: PSYC 498

Participation with two faculty members in work leading to the honors thesis. This work involves active participation in research and will culminate in an independent research report, the honors thesis. Open only to psychology honors candidates. (F, W).

**Religious Studies**
(minor only)

It is impossible to understand any cultural context, including Western, without knowledge of the traditions, influence and rationale of its religious underpinnings. In light of this fact, a Religious Studies minor has been established to provide a focus for discussions of the ethical standards and the cultural orientations that have been fostered by various religions. It is also the objective of this program to provide a background in the religious beliefs, practices, and aesthetics of other cultures in order to give students insight into the basis of social and political actions that otherwise are subject to misunderstanding.

Religious Studies is an interdisciplinary course of study which has required one prerequisite course of three hours (RELS 120 Philosophy and Religion; or RELS 201 Religions of the World) and 15 upper-division credit hours selected from courses listed below. The student’s selections will be made with approval of the director of the minor.
Emerged from the Roman catacombs to monumental expression, symbolism from other mystery cults, the art of early Christianity borrowed its formal language from late antiquity and its deities, myths, rituals and sanctuaries of the ancient Roman culture and society. This course examines the main religious practices shaped Greek and Polytheistic, multicultural religious practices shaped Greek and Roman culture and society. This course examines the main deities, myths, rituals and sanctuaries of the ancient Mediterranean through the study of art, architecture, texts and archaeology. Freestanding sculptures, relief sculptures, vase paintings, wall paintings, mosaics, coinage, altars and temples will be analyzed.

Religious Studies (RELS)

COURSE OFFERINGS

RELS 120 Philosophy and Religion
3.000 Credits

An examination of how basic concerns of philosophy impinge on questions of religious beliefs. Using philosophical texts, the course will explore such questions as: Does God exist? Does human life have a purpose? How can we know whether religious claims are true?

RELS 201 Religions of the World
3.000 Credits

A study of religion in essence, in manifestation, and in relationship with the other dimensions of culture. Surveys major world religions.

RELS 327 Myth & Ritual in Classical Art
3.000 Credits

Polytheistic, multicultural religious practices shaped Greek and Roman culture and society. This course examines the main deities, myths, rituals and sanctuaries of the ancient Mediterranean through the study of art, architecture, texts and archaeology. Freestanding sculptures, relief sculptures, vase paintings, wall paintings, mosaics, coinage, altars and temples will be analyzed.

RELS 331 Early Christian Byzant Art
3.000 Credits

Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106

Borrowing its formal language from late antiquity and its symbolism from other mystery cults, the art of early Christianity emerged from the Roman catacombs to monumental expression under emperors Constantine and Justinian. Special attention will be devoted to the invention of a new symbolic language in art and to the development of church architecture.

RELS 332 The Reformation Era: 1500-1648
3.000 Credits

A study of the nature, course, and impact of the Protestant Reformation in Europe, Humanism, the Counter-Reformation, and the cultural and social implications of Protestantism also receive attention. (YR).

RELS 333 Intro to Gospel Music
3.000 Credits

This course explores the history and aesthetics of Black sacred music within cultural context. Major figures (Thomas A. Dorsey, Mahalia Jackson, The Winans Family, Kirk Franklin), periods (slavery, Great Migration, Civil Rights movement), and styles (folk and arranged Negro spirituals, congregational songs, and gospel songs - traditional to contemporary) will be studied through recording, videos, film, and at least one field experience. Underlying the course is the theory (Mellonee Burnim and Pearl Williams-Jones) that gospel music is an expression of African American culture that fuses both African and European elements into a unique whole. (OC).

RELS 335 Women in Medieval Art
3.000 Credits

Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106 or WGST 275 or WGST 303

Women have often been regarded as the second sex of the middle ages due to the misogynistic attitudes of that era. Recent scholarship, however, has unearthed a significantly more complex picture. Through a study of visual representations of women in medieval art, this course will examine women's roles in the creation and patronage of art and literature, economic and family issues, and women's participation in new and innovative forms of religious piety.

RELS 337 Islamic Movemnts Mid East Hist
3.000 Credits

Will compare several Islamic movements in Middle Eastern history, starting with the rise of Islam in Mecca and Medina. Later impulses toward Islamic revival all looked back to the first movement, and hoped to capture both its spirit and its success. With this as background, the course will move to address two questions: How did later Islamic movements understand the history of the rise of Islam? How have later Islamic movements had to adapt their methods and their ideology to different historical circumstances? (AY).

RELS 341 Religion and Literature
3.000 Credits

Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)

An investigation of the ways in which religious ideas and practices have informed works of literature, and vice versa. Surveying a variety of genres and themes, the course will focus mainly on British and/or American literature and its engagement with Judeo-Christian religion, though some attention may be devoted to other literary and religious traditions (e. g., ancient and medieval texts, European and world literature, Islam and Eastern religions).
RELS 342 Myth and Motif  
3. 000 Credits  
Prerequisites: ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200  
A study of archetypal figures and thematic motifs. Their recurrent appearance in different literary periods and genres and their lineage will be examined in order to increase understanding of the works themselves and of the ages which produced them. A selection will be made from classical mythology, Biblical narrative, and historical sources. Thus the figures may vary from Oedipus and Cain to Faust and Don Juan. Motifs or story patterns may include such devices as the spiritual quest, the journey into Hell, or the patricide prophecy.

RELS 346 Bible and Western Tradition  
3. 000 Credits  
A detailed study of major episodes from the Bible, first as a literary work, and second as it is reflected in both poetry and the visual arts during the Renaissance and Baroque periods. Included are selected works by such masters as John Donne, George Herbert, and John Milton in poetry and Michelangelo, Raphael, and Leonardo da Vinci in painting and sculpture.

RELS 349 Bible In/As Literature  
3. 000 Credits  
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL236 or ENGL 237 or ENGL 239 or ENGL 200)  
This course will study selected readings from the Bible, first in regard to their own literary, historical, and cultural contents, and then in regard to their reception, interpretation, and reapplication by later literary tradition. Biblical selections will cover both the Old and New Testaments as well as Apocryphal traditions, while reading from later non-biblical texts will be drawn from various literary periods.

RELS 355 Religion and Politics  
3. 000 Credits  
The primary focus of the course is on political movements or systems, which take a religious form or have a religious base or use a religiously rooted ideology. Possible themes or cases covered include fundamentalism, the Iranian Islamic revolution, the Catholic Church as a political system, liberation theology in Latin America, Zionism and the Evangelical movement in America. (AY).

RELS 360 Myth, Magic, and Mind  
3. 000 Credits  
A broadly based introduction to the range of human mythical and magical traditions. Sophomore standing; ANTH 101 highly recommended. (YR).

RELS 363 Rel in Amer Hist:1607-1865  
3. 000 Credits  
A survey of the religious movements and trends in America from the 17th century to the Civil War, with emphasis on Puritanism, 18th-century revivalism, and 19th-century denominationalism and social reform. (AY).

RELS 364 Rel in Am Hist II:1865-Present  
3. 000 Credits  
A survey of American religion from the Civil War to the present, with emphasis on ethnicity and religion and post-World War II revivals of religion. (AY).

RELS 365 Introduction to the Qur'an  
3. 000 Credits  
This course is an introduction to the Qur'an. This class will cover the historical and the cultural factors in which the Qur'an appeared. The class will also examine some of the major themes covered in the Qur'an such as gender, science, pluralism, worldview and so forth. Also, will cover major schools of interpretations and methodologies ranging from the literary to the scientific. The class will be conducted in English and knowledge of Arabic is desired but not required. No prerequisites. The class will consist of lectures, discussions, and movies.

RELS 373 Bible in History  
3. 000 Credits  
In this course we will try to examine the historical circumstances and contexts surrounding the writing of The Hebrew Bible. Roughly speaking, we will begin by exploring three aspects of the subject: Historical context of the writing of the Bible-i. e. during the organizing and communicating of each segment. History of the canonization: the ideas and rationale behind including some books but not others. History in the Bible. In more specific terms, this will entail examining who wrote the Bible, when and why. The narrative incorporates the movement from an oral tradition to a written one and will demand some focus on certain pivotal moments, e. g. , Ezra's reading (cf. Ezra-Nehemiah), or the historical events in Kings and Chronicles, or the defeat of the northern kingdom of Israel in722 B. C. E. (BC) and of the southern kingdom of Judah in 589 B. C. E.

RELS 385 Philosophy of Religion  
3. 000 Credits  
Prerequisites: PHIL 100 or PHIL 120 or PHIL 233 or PHIL 234 or PHIL 240 or PHIL 301 or PHIL 302 or PHIL 303 or PHIL 304 or PHIL 305 or PHIL 310 or PHIL 315 or PHIL 320 or PHIL 365 or PHIL 340 or PHIL 355 or PHIL 350 or PHIL 369 or PHIL 371 or PHIL 375 or PHIL 380 or PHIL 390 or PHIL 441 or PHIL 442 or PHIL 445 or PHIL 485 or PHIL 490 or RELS 120 or RELS 201 or RELS 331 or RELS 332 or RELS 333 or RELS 337 or RELS 341 or RELS 342 or RELS 346 or RELS 349 or RELS 355 or RELS 360 or RELS 363 or RELS 364 or RELS 365 or RELS 373 or RELS 390 or RELS 401 or RELS 404 or RELS 440 or RELS 455  
A philosophical examination of basic religious problems, such as the nature and grounds of religious belief, the existence and nature of God, human immortality, the relations of religion and science, and the nature or religious language. Students electing this course must have successfully completed a previous course in philosophy or have permission of the instructor.

RELS 390 Topics in Religious Studies  
3. 000 Credits  
Must be enrolled in one of the following Levels: Undergraduate  
May not be enrolled in one of the following Classes: Sophomore Freshman  
Examination of problems and issues in selected areas of religious studies. Title in Schedule of Classes will change
according to content. Course may be repeated for credit when specific topics differ. Junior standing required.

**RELS 401**: Religion in Contemp US Culture  
3. 000 Credits  
The purpose of this course is to provide people in contemporary multi-religious America foundational information about beliefs and practices of several of the world's religions sufficient to engage in inter-religious dialogue. Special emphasis will be given to changes the American religious landscape after 1965 with the passage of new immigration laws. The course will combine lectures and visits to a variety of Metropolitan Detroit religious centers including Hindu, Buddhist, Jain, Sikh, Jewish, Christian, Muslim, and Native American. (S).

**RELS 404**: Medieval Mystical Writers  
3. 000 Credits  
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL235 or ENGL 230 or ENGL 237 or ENGL 239)

A study of the genre of mystical writing as it was developed and practiced throughout the Middle Ages and in 14th century England particularly. Attention will be given to the historical, religious, and cultural contexts that enabled and were created by mystical texts. In addition, the course will explore how traditional and contemporary trends in the fields of religious and literary studies can be brought to bear on the genre of mystical writing. (OC)

**RELS 440**: Religion and Culture  
3. 000 Credits  
An introduction to the comparative study of religious systems. Explores religious beliefs and practices in non-Western cultures; surveys theoretical approaches to the study of religion; and discusses how religions grow, develop, and change. ANTH 101 recommended. (YR).

**RELS 455**: Sociology of Religion  
3. 000 Credits  
Prerequisites: SOC 200 or 201  
Religion as a social institution; its purposes, methods, structure, and beliefs, and its relation to other institutions.

**RELS 498**: Independent Study  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
- Senior  
- Junior  
Prerequisites: HUM 201 or PHIL 120  
This course provides an opportunity for qualified students interested in Religious Studies to pursue independent research under the direction of a qualified faculty member. The project must be defined in advance, in writing, and must be a topic not currently offered in the regular curriculum.

### Science and Technology Studies  
(minor only)

In a democratic society increasingly reliant on science and technology, it is crucial for citizens to understand the social, political, ethical, economic, and environmental issues at stake in the development, distribution, consumption, and control of the products of science and technology. Science and Technology Studies (STS) is an interdisciplinary program in which the methods and perspectives of various disciplines in the humanities, social sciences, and behavioral sciences are used to examine the social contexts from which science and technology emerge, the intertwined organizations of people and things used to implement scientific and technological systems, the social consequences of these systems, and the cultural reactions to them.

In keeping with UM-Dearborn’s location and its historic and continuing connections to the automobile industry, the STS Program gives special attention to the impact of the automobile and the automobile industry on American society. The program’s introductory course, for example, analyzes the social as well as the technical reasons for the emergence of the internal combustion engine, the reorganization of factories and reconceptualization of labor fueled by mass production and lean production, the impact of the automobile on the design of cities and the development of suburbs, and the iconic status of the car in American culture. A website on “The Automobile in American Life and Society” (autolife.umd.umich.edu) has been developed by the STS Program and is used in the introductory course.

Most of the courses in STS are cross listed with other disciplines, and the STS faculty hold appointments in such fields as Anthropology, Art History, Biological Sciences, Communications, Economics, English, Environmental Studies, History, Mathematics, Mechanical Engineering, Philosophy, Psychology and Sociology.

A minor in STS is particularly relevant for students who live and work in southeast Michigan and makes an appropriate complement to any field of study in the arts and sciences, engineering, education, or management.

Students who wish to minor in STS must complete STS 300 Introduction to Science and Technology Studies and four courses from the list below, with at least one course from each of the three areas. Contact the STS Director for updated information about course offerings.

*An asterisk indicates a course that contains some attention to the automobile.

Science and Technology Studies (STS)

COURSE OFFERINGS

STS 300 Intro to Sci & Technol Studies
An examination of the social contexts and consequences of science and technology, with special attention to the impacts of the automobile and automobile industry on American society. Topics include the automobile's role in the history of manufacturing; the impact of various production techniques on work and workers; the effects of the automobile on the natural environment, the design of cities and development of suburbs, and ways of life; the iconic status of the car in American culture and the relationship between automobile design and aesthetics. (YR).

STS 301 Concepts of Environmentalism
Designed to identify the underlying concepts of any environmental issue. The course will demonstrate the interdisciplinary nature of environmental problem-solving through current readings, classical monographs, and films. Students will conduct a systems analysis of a household and a local community. A major research paper on an environmental topic will be required. The course will not be open to students who take ENST 105. (YR).

STS 305 Social Issues in Auto Design
An examination of the impact of four contemporary social issues - vehicle safety, energy consumption, environmental impact, and a changing workforce - on the design and engineering of automobiles in the context of globalization and rapid technological change. Using a series of case studies, the course will focus on the ways social concerns, government regulation, and professional ethics, as well as industry standards and technical considerations, affect the decision-making processes of automobile designers and engineers. (OC).

STS 308 Urban Geography
The geography of human settlement and urbanization. Particular emphasis is placed on human transformation of the physical environment, and resource use throughout history from ancient civilizations to modern megalopolises. Universal urban challenges, such as sprawl, pollution, congestion, crime, poverty, etc., are addressed. (F, W).

STS 309 Economic Geography
Spatial aspects of the ways people make their living. Discussion of the spatial distribution of resources and wealth at various scales. Introduction of site selection and location analysis. (F).

STS 310 Computers and Society
A sociological discussion of computers and other information technology starting with the larger concept of technology and social change, an exploration of various forms of information technology, their history and development, their relationship to the changing social structure of a post-industrial society like 20th/21st-century USA. Case studies could include "Computers and the Workplace," "Computers in Medicine," "Computers and Education," and "Computers in Popular Culture." Course concludes with a discussion of new social problems and possible futures. (OC).

STS 311 Environment Ethics
The relationship of human beings to the non-human environment raises pressing moral and political issues. This course will use the theories and concepts of philosophical ethics to explore such questions as human obligations to non-human animals; the preservation of wilderness; balancing economic, aesthetic, and spiritual values; and the problems of pollution, urban sprawl, and ecological justice. (OC).

STS 312 Labor in the American Economy
An analysis of the nature and underlying causes of the problems facing the worker in modern economic society. Includes an examination of wages, unemployment, economic insecurity, the trade union movement, collective bargaining, and labor legislation. (F).

STS 313 Environmental Politics
An examination of policy making on environmental and energy problems globally, nationally, and locally. (F).

STS 314 Gender and Science
This course will explore some of the history of women in science, the current status of women in science and feminism and science. Topics will include contributions made by women before science moved into the public sphere, cultural influences on decisions to make science a career, and a feminist approach to scientific research. (OC).
STS 340 Race and Evolution
3.000 Credits
An evolutionary survey of the biological differences among human populations in response to such factors as climate, culture, disease, nutrition, and urbanization. The meaning of racial variation is discussed in terms of adaptation to environmental stress. "Race" is rejected; racism is discussed. (AY).

STS 345 Cultural Ecology & Evolution
3.000 Credits
An introduction to the study of human ecology. This course employs the case-study method to develop an evolutionary and biocultural perspective on the relationship between human beings and their environments. (OC).

STS 349 Thomas Edison and His Era
3.000 Credits
This course will introduce students to the life and work of Thomas Edison. Breaking with the stereotype of the lone inventor/genius, we will examine how Edison helped shape and was in turn shaped by the context of the Gilded Age America when the United States emerged as an urban, industrial nation. Lectures and discussions will be supplemented by slides, films, and visits to the Edison-related sites at the Henry Ford. Throughout the course the following themes will be explored: invention and the labor process, the significance of manufacturing and marketing, the origins of modern consumer culture. (OC).

STS 360 Philosophy of Technology
3.000 Credits
A study of both the history of, and current issues in, the philosophy of technology. This course will examine the deeper meaning and implications of our modern technological society. Questions examined include: What is the definition and nature of technology? How did the concept originate in Western thought? What is the relationship between modern industrial technology and the 'mechanistic' worldview? How do Western religious beliefs influence our attitudes about technology? Is technological progress socially determined, or is it culturally independent? In what ways has our technological society been supportive of, or detrimental to, overall human well-being? Students will cover both classic and contemporary readings.

STS 365 Environmental Psychology
3.000 Credits
Prerequisites: PSYC 170 or PSYC 171
A survey of the contributions of the behavioral sciences to the understanding and solution of environmental problems that threaten our survival. Insights derived from psychology, anthropology, and computer science are discussed. Major topics include overpopulation, overconsumption of resources and energy, future shock, cognitive limitations in our understanding of ecological-political systems, and the use of behavioral control. (OC).

STS 3666 Henry Ford and His Place
3.000 Credits
Using the biography of Henry Ford as a touchstone, the course will examine the trajectories of historical change and regional development between 1870 and 1950. Of fundamental concern will be southeastern Michigan's transformation from a 19th century outpost on the Great Lakes to the nation's "engine of change" in the 20th century. Henry Ford was the major player in that revolutionary transformation. This course examines his role in history and mythology as well as the causes and implications of that transformation. (OC).

STS 3695 The American City
3.000 Credits
This course examines the development of urban America from the European-style port cities of the colonial period through the edge cities of today. The bulk of the course will focus on the late 19th and 20th century urban environment with an eye towards understanding the diverse residents, cultures, economies, and geographies that have shaped the American cities. We will cover everything from developments in transportation, architecture, business, and technology to immigration, politics, and urban culture. Broad concerns and constituencies have shaped the urban public sphere, the physical development of cities and the experiences of living as an urbanite and, consequently, they will receive much of our attention. American patterns of development will then be placed in context with those of other nations and cultures.

STS 374 Hist of Industrial Technology
3.000 Credits
Focusing on western Europe and the United States since the Industrial Revolution, this course will examine the history of manufacturing technologies and will include the following topics: mechanization and the rise of the factory; mass production; the process of innovation; design and diffusion of new technologies; technologies; technology and the changing nature of work; discussions, and examination of artifacts (actual tools and machines), students will consider the central role played by technology in the making of modern society. (YR).

STS 383 Labor in America
3.000 Credits
A survey of urban workers from colonial times to the present. Among the topics covered are changing standards of living, the experiences of industrial work, labor organizations, and working-class politics. (OC).

STS 386 Comparative Hist of Technology
3.000 Credits
This course will examine the history of technology from a comparative perspective; studying the development and impact of technology in different societies during various historical eras. Topics include: irrigation control and the rise of ancient empires; technology's role in the industrial revolution; technological innovation and the pace of social change. Current issues and various analytical perspectives in the history of technology will also be examined. (OC).

STS 390 Topics in STS
3.000 Credits
Examination of problems and issues in selected areas of Science and Technology Studies. Title as listed in the Schedule of Classes will change according to content. Course may be repeated for credit when specific topics differ. (OC).

STS 403 Issues in Cyberspace
3.000 Credits
Prerequisites: COMM 280
This course will explore some of the social, political, legal, and technological issues associated with the use of new media technology to move ideas and information in a democratic society. Examples of areas to be explored include the Internet and World Wide Web, privacy, the future of the mass audience, and the meaning of the First Amendment in the 21st Century. (AY).
STS 409  Human Body, Growth & Health  
3. 000 Credits

This course provides and advanced undergraduate introduction to the topic of human growth and shows how human growth can be a reliable measure of the psychological, social, economic and moral conditions of a society. A major theme will be the interplay of biology and culture in shaping the patterns of human growth and, consequently, the health of populations and individuals. (OC).

STS 410  Darwinism and Philosophy  
3. 000 Credits  
Prerequisites: PHIL 100 or PHIL 210 or PHIL 200 or PHIL 233 or PHIL 240

Darwinism represents a challenge to the traditional view of human life as radically separate from the rest of the natural world. This course will examine the philosophical implications of this world view. It will address questions such as these: Is Darwinism compatible with traditional religion? Does Darwinism imply that human life and the cosmos are without purpose? Can human life be meaningful if it is the result of evolution and natural selection? Does Darwinism require us to change our view of nature? What are the ethical implications of a Darwinian view of life and the universe? (OC).

STS 421  Economics of the Labor Sector  
3. 000 Credits  
Prerequisites: ECON 302

Theoretical analysis and empirical studies of the nature and operation of labor markets. Includes theories of wage determination and income distribution, the nature of unemployment, the impact of collective bargaining on the economy, the extent and economic effects of discrimination, and the nature of effects of government wage and employment policies. ECON 321, Labor in the American Economy, is valuable background to this course, although it is not a prerequisite. (OC).

STS 430  Medical Anthropology  
3. 000 Credits

A comprehensive examination of how culture mediates processes of illnesses and healing. Comparative materials examined, which provide a context for an anthropological analysis of modern biomedicine. (YR).

STS 441  Sociology of the Auto Industry  
3. 000 Credits  
Prerequisites: SOC 200 or 201

The American auto industry is examined in its relationship to the economic and political structures of 20th-century U. S. This includes a focus on the social history of the industry as well as a discussion of the nature of auto work. Proposals for changing social relations at work are also examined. The course concludes with an examination of the impact of the industry on a local community (Detroit). (F, W).

STS 442  Sociology of Work  
3. 000 Credits  
Prerequisites: SOC 200 or 201

The study of work roles in modern society. The impact of industrialization, professionalization, and unionization on the conditions of work, worker motivation, and job satisfaction. Career choice processes and career patterns, occupational status and prestige, and occupations associations are among the topics to be considered. (YR).
PREREQUISITES TO THE CONCENTRATION

A student desiring to concentrate in sociology is required to have completed an introductory course in sociology, or to complete SOC 200 or SOC 201 at UM-Dearborn. The introductory course (or its equivalent) is the prerequisite for all other sociology courses.

CONCENTRATION REQUIREMENTS

Students must complete 28 hours in sociology in course numbered 300 or above. All students are required to complete 18 of these 28 hours in sociology at the UM-Dearborn campus. All concentrators must complete the following courses:

Required courses
SOC 308 Development of Sociological Theory .... 3 hrs
SOC 410 Quantitative Research ........................... 4 hrs
SOC 413 Qualitative Research ............................. 3 hrs

Macro Sociology................................................................... 3 hrs
One of the following
SOC 422 Structure of American Society
SOC 423 American Social Classes
SOC 450 Political Sociology
SOC 453 Sociology of Law
SOC 455 Sociology of Religion
SOC 457 Family, Aging and the Law
SOC 458 Sociology of Education
SOC 460 America in a Global Society

Public Issues ................................................................. 3 hrs
One of the following
SOC 350 Poverty and Inequality
SOC 402 Genocide
SOC 403 Minority Groups
SOC 446 Marriage and Family Problems
SOC 447 Family Violence
SOC 465 Deviant Behavior/Social Disorganization
SOC 468 Criminology
SOC 469 Juvenile Delinquency

Organizations.................................................................... 3 hrs
One of the following
SOC 439 Sociology of Professions
SOC 440 Medical Sociology
SOC 442 Sociology of Work
SOC 456 Health Care and the Law
SOC 461 Corrections Officers and Inmates
SOC 477 Social Welfare
SOC 483 Complex Organizations

The Individual and Society ................................................... 3 hrs
One of the following
SOC 382 Social Psychology
SOC 426 Society and Aging
SOC 443 Gender Roles
SOC 445 The Family
SOV 449 Black Family in Contemp Amer

Senior Seminar ................................................................. 3 hrs
SOC 497 Senior Research Seminar

*Cognates................................................................. 6 hrs
Students must also complete six hours in cognate courses from two of the following six disciplines: anthropology, economics, history, political science, computer science, or statistics courses in mathematics. Internships in these disciplines can not be used to satisfy the cognate requirement.

MINOR OR AREA OF FOCUS

A minor or area of focus consists of 12 hours of upper-division credit in sociology.

SOCIAL WORK/CRIMINAL JUSTICE INTERNSHIP

Provides field experience in social welfare or criminal justice agencies, e.g., for children/adolescents, in residential programs, in abuse remediation, in probation, for chemical dependencies, in victim advocacy, for elderly, in prisons, for special needs populations, in court services, and for families and communities. Instructor and student will, work together to determine appropriate intern placement.

Sociology (SOC)

COURSE OFFERINGS

SOC 200 Understanding Society
3.000 Credits
An introduction to the study of human groups with special attention devoted to an analysis of contemporary American society. (F, W).

SOC 201 Contemporary Social Problems
3.000 Credits
The study of major social problems with particular reference to American society. Problems such as crime, mental disorders, addiction, drug abuse, suicide, racial conflict, urban decay, pollution, population, and family disorganization are studied both from a descriptive and theoretical point of view and analyzed collectively as a manifestation of a complex, industrial society. (YR).

SOC 263 Western Culture III
3.000 Credits
Prerequisites: (HUM 262 or HIST 262) and (HUM 261 or HIST 261)
The third of four courses on Western Culture required of all honors students. Covers the period from 17th to 19th centuries. Focus in on thee emergence of scientific thought, Enlightenment political theory, Romantic individualism, and the great 19th century intellectual revolutions of Darwinism, Marxism, and feminism. Materials will be drawn from literature, philosophy, political, and scientific writings of the period. (YR).

SOC 264 West Cult IV: The Modern Era
3.000 Credits
Prerequisites: HIST 365
Fourth of four courses in Western Culture required of all Honors students. Course covers period from 19th century to present. Focus will be on selected major issues of Western Civilization in the modern era: science and human values, bureaucratic and totalitarian societies, psychoanalytical thought, feminism, nihilism, existentialism. (YR).
SOC 303  Intro to Women's & Gender Stud
3. 000 Credits
May not be enrolled in one of the following Classes:
Freshman

This course provides an interdisciplinary overview of the key
theories and topics in Women's and Gender Studies. Special
attention is given to how gender intersects with class, race,
nationality, religion and sexuality to structure women's and
men's lives. Students are also introduced to methods of gender
analysis and will begin to apply these methods to topics such as
women and health, gender roles in the family, violence against
women, and gendered images in the mass media.

SOC 304  Studies in Detroit Culture
3. 000 Credits

This course is an attempt to define a modern cultural history of
Detroit. Taught by two faculty members, the emphasis of the
course will vary but the following aspects of the city's cultural
history will be covered in some detail: its literature, arts, music
and architecture; its social conditions and broadened American
cultural context. Not open to students who have completed SOC
305 or ENGL 305 or HUM 305 or ARTH 305 or HIST 305.

SOC 305  Detroit Culture
3. 000 Credits

This course is an attempt to define a modern cultural history of
Detroit. A team of three or four faculty members will explore
the relationship between society and the arts in Detroit from
several aspects: Detroit's literature, arts, music, and architecture;
its social conditions and broader American cultural context. Field trips into the city are also included. Course not open to
students who have completed ARTH 304, ENGL 304, HIST
304, HUM 304 or SOC 304. (AY).

SOC 306  Comparat. American Identities
3. 000 Credits

Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: COMP 106 or CPAS 40 or COMP 220 or
COMP 270 or COMP 280

This course will confront and complicate the following key
questions: what does it mean to be an American? What is
American culture? Participants in this course will respond to the
questions central to the American Studies field by reading and
discussing historical, sociological, literary, artistic, material
culture, political, economic, and other sources. Students will use
this interdisciplinary study to examine the multiple identities of
Americans - as determined by factors such as gender, race, class,
ethnicity, and religion. While emphasizing the diversity of
American culture, participants will consider some core values
and ideas uniting America both in historical and contemporary
society. Students will be invited to seek out and share fresh
narratives of the American experience.

SOC 308  Sociological Theory
3. 000 Credits
Prerequisites: SOC 200 or 201

A historical survey of the major theorists and their works from
the beginnings of sociological positivism to contemporary
theories. (YR).

SOC 310  Computers and Society
3. 000 Credits
Prerequisites: SOC 200 or SOC 201

A sociological discussion of computers and other information
technology. Starting with the larger context of technology and
social change, and exploration of various forms of information
technology, their history and development, their relationship to
the changing social structure of a post-industrial society like
20th/21st century USA. Case studies could include "Computers
and the Workplace, " "Computers in Medicine, " "Computers
and Education, " and "Computers in Popular Culture. " Course
concludes with a discussion of new social problems and possible
futures. (YR).

SOC 350  Poverty and Inequality
3. 000 Credits
Prerequisites: SOC 200 or 201

In a middle class-oriented culture, the poor experience many
problems and are also considered deviant which tend to make
poverty self-perpetuating. This stratum will be explored with
respect to life styles, life changes, contributing factors,
characteristics, individual and social consequences, and
evaluation of attempted solutions. (YR).

SOC 382  Social Psychology
3. 000 Credits
Prerequisites: SOC 200 or PSYC 170 or PSYC 171 or SOC
201

An introductory study of the interrelationships of the functioning
of social systems and the behavior and attitudes of individuals.
(YR).

SOC 383  Introduction to Statistics
3. 000 Credits

Frequency distributions and descriptive measures. Populations,
sampling, and statistical inference. Elementary probability and
linear regression. Use of statistical computer packages to
analyze data. Students electing this course should have completed a minimum of one year of high school algebra.
Students can receive credit for only one of MATH 363, STAT
363, SOC 383, and STAT 325. (F, W, S).

SOC 390  Topics in Sociology
3. 000 Credits

Examination of problems and issues in selected areas of
sociology. Title in Schedule of Classes will change according to
course content. Course may be repeated for credit when specific
topics differ. (F, W).

SOC 398  Directed Readings
1. 000 TO 3. 000 Credits
Prerequisites: SOC 200 or SOC 201

Reading assignments in sociology. No more than a total of six
credit hours of SOC 398 and SOC 498 may be applied toward
concentration. Permission of instructor required. (F, W, S).

SOC 402  Genocide
3. 000 Credits
Prerequisites: SOC 200 or SOC 201

Applies concepts and theories dealing with rumor, prejudice,
group contagion, and mass movements to the Jewish, Armenian,
and American-Indian genocides. In addition, psychological,
philosophical, and political issues related to genocide are
addressed. (YR).
SOC 403 Minority Groups
3.000 Credits
Prerequisites: SOC 200 or 201

The status of racial and ethnic minorities in the United States with particular reference to the social dynamics involved with regard to majority-minority relations. Topics of study include inequality, segregation, pluralism, the nature and causes of prejudice and discrimination and the impact that such patterns have upon American life. Students cannot receive credit for both SOC 403 and SOC 503. (F, W).

SOC 4045 Dissed: Differ, Power, Discrim
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Classes:
Senior
Sophomore
Freshman
Junior

Have you ever been dissed? Why are some people targets of disrespect? This class examines the unequal distribution of power - social, economic, and political - in the United States and other countries that result in favor for privileged groups. We will examine a variety of institutional practices and individual beliefs that contribute to disrespect. We’ll look at ways that beliefs and practices, like viewing inequality as consequence of a ‘natural order’, obscure the processes that create and sustain social discrimination. We will engage in the intellectual examination of systems, behaviors, and ideologies that maintain discrimination and the unequal distribution of power and resources. Students will not receive credit for both SOC 404 and SOC 504.

SOC 4075 Sexual Praxis and Theory
3.000 Credits
Prerequisites: WST 275 or WGST 275 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or SOC 443 or PSYC 405 or ANTH 406 or ANTH 101 or WGST 303 or PSYC 303 or SOC 303 or ANTH 303 or HUM 303

This course will offer an overview of sexual differences including: the socio-cultural construction of gender, sexual behavior, and orientation; sex and sexualities in language and literature; and diversity by race, class, and cultural heritage. These topics will enable students to understand human sexuality within and across a continuum removing notions of duality, or polarity, in sexual behaviors and orientations. Examples both from within Western society and from non-Western societies may be used to further this position. Theoretical perspectives may encompass sociological and anthropological work, literary theory and criticism, queer theory, and multi-disciplinary discussions/discourse. Texts may include: Sex and the Machine: Readings in Culture, Gender and Technology, The Anatomy of Love, The Lesbian and Gay Studies Reader, Second Skins: The Body Narratives of Transsexuality, and Lesbian and Gay Marriage.

SOC 409 Feminist Theories
3.000 Credits
Prerequisites: WGST 275 or WST 275 or SOC 200 or SOC 201 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or WGST 303 or PSYC 303 or SOC 303 or ANTH303 or HUM 303

This course examines the different perspectives that feminist theorists have offered to analyze the unequal conditions of women’s and men’s lives. Students taking this course will develop an understanding of how theory functions as a way to know, understand and change the world. They will also be provided with a lens for comparing the assumptions and implications of alternative theoretical perspectives. A particular emphasis of this course is on theorizing the interrelationships among gender, race, class, sexuality and nationality. Course material includes applications of feminist theory to issues such as gender identity formation; sexuality; gender, law and citizenship; women and work; and the history and politics of social movements. Student will not receive credit of both SOC 409 and SOC 509. (AY)

SOC 410 Quantitative Research
4.000 Credits
Prerequisites: SOC 200 or 201

An introduction to methods of data collection and analysis. Elementary statistics data are analyzed using computerized statistics programs. A discussion of research design and the philosophy of social science is also included. Students cannot receive credit for both SOC 410 and SOC 510. (YR).

SOC 411 Program Evaluation
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
May not be enrolled in one of the following Classes:
Sophomore
Freshman
Prerequisites: SOC 200 or PSYC 170 or PSYC 171 or POL 101 or SOC 201

The application of social research procedures in assessing whether a human service program is needed, likely to be used, conducted as planned, and actually helps people in need. The course will cover research design and measurement as well as issues of how to get research findings utilized. Students cannot receive credit for both SOC 411 and SOC 511. (YR).

SOC 412 Men and Masculinities
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
May not be enrolled in one of the following Classes:
Sophomore
Freshman
Prerequisites: SOC 200 or SOC 201 or ANTH 101 or WST 275 or WGST 275 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or WGST 303 or PSYC 303 or SOC303 or ANTH 303 or HUM 303

This course addresses the question, "What is a man?", in various historical, cross-cultural, and contemporary contexts. A major focus on the social and cultural factors that underlie and shape conceptions of manhood and masculinity in America as well as in a variety of societies around the globe. (AY).

SOC 413 Qualitative Research
3.000 Credits
Prerequisites: SOC 308

Qualitative research methods involve the observation and study of people in their everyday lives, in their taken-for-granted worlds. Qualitative research seeks to combine close empirical observation with analytic techniques that demand (and teach) personal and social self-consciousness as necessary to an understanding of the social worlds of others. This course in qualitative methods is designed to acquaint students with field research theories and techniques. Students will gain hands on experience in participant observation, interviewing and the use of sociological scholarship. Qualitative Research Methods will prepare students to gather data, focus the data in a social scientific manner, analyze the data, and then organize it in reportable form.
**SOC 422  Structure of American Society**  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: SOC 200 or SOC 201

An analysis of the institutional structure of American society, with a view of determining the degree of its integration. Students cannot receive credit for both SOC 442 and SOC 522. (YR).

**SOC 423  American Social Classes**  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: SOC 200 or 201

Stratification of American communities and society; a review of the findings of major studies and an introduction to methodology. Students cannot receive credit for both SOC 426 and SOC 526. (YR).

**SOC 426  Society and Aging**  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: SOC 200 or SOC 201

Personal, interpersonal, and institutional significance of aging and age categories. Sociological dimension of aging based on social, psychological, and demographic factors. Attention to social networks and institutionalization. Students cannot receive credit for both SOC 426 and SOC 526. (YR).

**SOC 430  Population Problems**  
3. 000 Credits  
Prerequisites: SOC 200 or SOC 201

Social causes and consequences of population structure and change. How variations in fertility, mortality, and migration arise and how they affect society. Illustrations from the United States and a variety of developed and underdeveloped countries. (YR).

**SOC 435  Urban Sociology**  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: SOC 200 or 201

A descriptive study of the form and development of the urban community with respect to demographic structure, spatial and temporal patterns, and functional organization. The relationship of city and hinterland. Social planning and its problems in the urban community. Students cannot receive credit for both SOC 435 and SOC 535. (YR).

**SOC 436  Personality and Society**  
3. 000 Credits  
Prerequisites: SOC 200 or SOC 201

Deals with the forms and modes of change of personality, social structure, and culture; examines their interactions with body/population, niche/environment, and technology. (YR).

**SOC 439  Sociology of Professions**  
3. 000 Credits  
Prerequisites: SOC 200 or SOC 201

Course begins with a review of the sociological literature on the professions. It will then focus on the medical, legal, and business/managerial professions as case studies of the development of professions in post-industrial society. Intrinsic to the definition of profession is "autonomy." The course will explore what is happening to professions and professional autonomy in highly bureaucratized and corporatized societies, where we speak of deprofessionalization and proletarianization of professions. (YR).

**SOC 440  Medical Sociology**  
3. 000 Credits  
Prerequisites: SOC 200 or 201

An analysis of health and illness behavior from the point of view of the consumer, as well as of medical professionals, the structure, strengths, and weaknesses of the medical care delivery system in the U. S.; the impact of culture and personality on illness behavior; and a study of the institution of medicine and activities of health care professionals. Students cannot receive credit for both SOC 440 and SOC 540. (F, W, S)

**SOC 441  Sociology of the Auto Industry**  
3. 000 Credits  
Prerequisites: SOC 200 or 201

The American auto industry is examined in its relationship to the economic and political structures of 20th-century United States. This includes a focus on the social history of the industry as well as a discussion of the nature of auto work. Proposals for changing social relations at work are also examined. Concludes with an examination of the impact of the industry on a local community (Detroit). Students cannot receive credit for both SOC 441 and SOC 541. (F, W)

**SOC 442  Sociology of Work**  
3. 000 Credits  
Prerequisites: SOC 200 or 201

Study of work roles in modern society. The impact of industrialization, professionalization, and unionization on the conditions of work, worker motivation, and job satisfaction. Career choice processes and career patterns, occupational status and prestige, and occupational associations are among the topics considered. Students cannot receive credit for both SOC 442 and SOC 542. (YR)

**SOC 443  Gender Roles**  
3. 000 Credits  
Prerequisites: SOC 200 or PSYC 170 or PSYC 171 or SOC 201

This course will investigate the development of gender roles in childhood and adolescence due to either innate physiological differences or sociological patterning, the effect of gender roles upon male-female relationships within our society, and the possibility of transcending sociological gender roles in alternate modes of living. Students cannot receive credit for both SOC 443 and SOC 543. (F, W, S).

**SOC 444  The Medical Profession**  
3. 000 Credits  
May not be enrolled in one of the following Classes:  
Freshman  
Prerequisites: SOC 200 or POL 201

Professions are the hallmark of modern society, and the medical profession is a prototype of what is meant by a profession. This course will examine the nature and history of the American medical profession, how it developed and changed since the early 1800's. What is the nature of the profession today? What social forces have shaped it? What does the future hold? These are some of the questions the course will address. (W).
SOC 445  The Family  
3.000 Credits  
Prerequisites: SOC 200 or 201  
The family as an institution shaped by other aspects of society, as a social system with its own dynamics, and as a primary group affecting the lives of its members. Historical and contemporary materials from the United States and other cultures. Students cannot receive credit for both SOC 445 and SOC 545. (F, W, S).

SOC 446  Marriage and Family Problems  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: SOC 200 or 201  
Sociological analysis of problems encountered within the institution of marriage with particular reference to such issues as choosing a marriage partner, sexual adjustment, occupational involvement, conflict resolution, child rearing, divorce and readjustment. Students cannot receive credit for both SOC 446 and SOC 546. (YR)

SOC 447  Family Violence  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: SOC 200 or SOC 301 or SOC 443 or PSYC 405 or WST 405 or SOC 201  
Sociological analyses of various forms of family violence which occur disproportionately in the lives of girls and women. Topics such as incest, sexual abuse, date rape, wife battering, and elder abuse will be situated within the social and cultural context of contemporary gender relationships. Social and political responses to the phenomena will be examined. Students cannot receive credit for both SOC 447 and SOC 547. (YR)

SOC 448  Comparative Health Care Sys  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: SOC 200 or SOC 201  
An introduction and overview of the English, Swedish and People's Republic of China health care systems. Focus on cultural context and other organizational characteristics, unique features, approaches and ability to solve problems. Emphasis on how the three systems help us understand the American health care system. Students cannot receive credit for both SOC 448 and SOC 548. (YR)

SOC 449  Black Family in Contemp Amer  
3.000 Credits  
Prerequisites: SOC 200 or 201  
The African-American family is examined in relationship to the historical and contemporary forces that have shaped its characteristic patterns of family life. These forces include the influence of slavery, urbanization, racial discrimination and urban poverty. The patterns of family life include parental roles, family structure, kinship relations, and gender roles. (YR).

SOC 450  Political Sociology  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: SOC 200 or SOC 201  
Examines how society effects the distribution and exercise of power through analyzing linkages between power, participation, and perspectives. Studies of political participation and social organization, ideology and social conflict, as well as political socialization, represent some of the major parameters. Students cannot receive credit for both SOC 450 and SOC 550. (YR)

SOC 452  Marxism  
3.000 Credits  
Prerequisites: SOC 200 or POL 101 or ECON 201 or ECON 202 or SOC 201  
The survey of Marxist and neo-Marxist thought discusses philosophy, economic history, and socialism. Topics include Marx's view of the nature of man, class conflict, the dialectic in history, the labor theory of value, monopoly capital and imperialism. Problems of socialist societies such as economic development and rule of elites will also be discussed. (AY).

SOC 453  Sociology of Law  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: SOC 200 or 201  
Various aspects of the relationship between law and society are explored. After a look at processes of law making, attention is turned to the administration of law. This involves a study of the activities of legislatures, courts, police, and correctional agents. Students cannot receive credit for both SOC 453 and SOC 553.

SOC 454  Mental Health and the Law  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: SOC 200 or SOC 201  
Courts and legislatures now control much of the work of mental health professionals such as social workers, counselors, therapists, and psychologists. This course looks at problems encountered in putting the laws and policies into effect. These implementation problems are much the same in other areas of government action, such as poverty programs and pollution control. Students cannot receive credit for both SOC 454 and SOC 554. (YR)

SOC 455  Sociology of Religion  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: SOC 200 or 201  
Religion as a social institution; its purposes, methods, structure, and beliefs, and its relation to other institutions. Students cannot receive credit for both SOC 455 and SOC 555. (YR)

SOC 456  Health Care and the Law  
3.000 Credits  
Must be enrolled in one of the following Classes:  
Junior  
Senior  
Graduate  
Prerequisites: SOC 200 or SOC 201 or POL 364  
A sociological study of legal issues in health care, including regulation of hospitals, consent for treatment, confidentiality, experimentation, family planning, children's rights, access to health care. The emphasis will be on the organizational and personal consequences of legal requirements. Junior/Senior standing is a requirement. Students cannot receive credit for both SOC 456 and SOC 556. (AY).
SOC 457  Family, Aging and the Law  
3. 000 Credits  
Prerequisites: SOC 200 or SOC 201  
The law exerts a powerful impact on the family and the elderly. This course interprets the effects of laws concerning guardianship, competence, nursing home regulation, marriage, divorce, custody, adoption, abortion, and child sexual abuse.

SOC 458  Sociology of Education  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: SOC 200 or SOC 201  
Education as a social institution; its purposes, methods, structure, and philosophy, and its relation to other institutions, particularly in the urban setting. Students cannot receive credit for both SOC 458 and SOC 558. (YR)

SOC 460  America in a Global Society  
3. 000 Credits  
Prerequisites: SOC 200 or 201  
Social changes in America are studied from an internal and an external perspective. The internal dynamics of social change emphasize the role of social movement, e.g., the impact of the civil rights movement on American culture and politics. The external perspective sees America as part of a changing global society. The development of the capitalist world system from its origin in Western Europe to its present global reach is examined. Contemporary American social problems are examined in relation to America's position in a rapidly changing world. Students cannot receive credit for both SOC 460 and SOC 560. (AY)

SOC 461  Cops & Cons: Women in Prison  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: SOC 200 or SOC 201  
Course uses contemporary theories of gendered organizations to frame analyses of prison policies and practices in employment and incarceration as they reflect and reproduce gender inequalities. Analyses will be framed within a restorative justice model, that is, a critique of the current criminal justice system of retributive justice and a paradigm of what a alternative system could be.

SOC 465  Deviant Behavior/Soc Disorganz  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: SOC 200 or 201  
A general analysis of the concept of social deviance and social disorganization: factors producing each condition, the effects of social control measures on the course of deviance and disorganization consequences for the social system, and the relationship between the two. Students cannot receive credit for both SOC 465 and SOC 565. (YR)

SOC 466  Drugs, Alcohol, and Society  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: SOC 200 or 201  
Analyses of the sociology of substance use and abuse. Provides a sociological framework for understanding issues and evaluating our nation's responses to the phenomenon of drug use. Drawing on sociocultural and social psychological perspectives, this course systematically examines the social structure, social problems, and social policy aspects of drugs in American society. Prerequisite or permission of instructor. (YR).

SOC 467  Drugs, Crime, and Justice  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: SOC 200 or 201  
Provides a comprehensive analysis of the current state of research on interactions between crime and drug use. Examines drug distribution, organization of drug systems, and mechanisms of social control of drug systems. Analyzes the social problems associated with drugs and crime. The course also focuses on drug-law enforcement and public policy strategies for dealing with drugs and crime. Prerequisite or permission of instructor. (YR).

SOC 469  Juvenile Delinquency  
3. 000 Credits  
Prerequisites: SOC 200 or 201  

SOC 473  Race, Crime and Justice  
3. 000 Credits  
Prerequisites: SOC 200 or 201  
This course is an analysis of race and its relation to crime in the criminal justice system. Students will analyze and interpret the perceived connection between race and crime, while exploring the dynamics of race, crime, and justice in the United States. This course is designed to familiarize students with current research and theories of racial discrimination within America's criminal justice system.

SOC 476  Inside Out Prison Exchange  
4. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: SOC 200 or 201  
This community-based course, taught in a local correctional facility, brings university students and incarcerated students together to study as peers. Together students explore issues of crime and justice, drawing on one another to create a deeper understanding of how these issues affect our lives as individuals and as a society. The course creates a dynamic partnership between UMD and a correctional facility to allow students to question approaches to issues of crime and justice in order to build a safer and more just society for all. The course encourages outside (UMD) students to contextualize and to think deeply about what they have learned about crime and criminals and to help them pursue the work of creating a restorative criminal justice system; it challenges inside students to place their life experiences into larger social contexts and to rekindle their intellectual self-confidence and interest in further education.
SOC 477 Social Welfare
3.000 Credits
Prerequisites: SOC 200 or 201
The practice of social work is examined within the context of the development of the social service professions and welfare institutions in American society. Social welfare is a concept that encompasses the provision of material resources, as well as regulation and protection of clients. Changes in welfare policy are analyzed in relationship to other institutional changes in American society. (YR).

SOC 478 Social Work Internship
3.000 TO 6.000 Credits
Prerequisites: SOC 200 or 201
Provides field experience in social welfare or criminal justice agencies, e.g., for children/adolescents, in residential programs, in abuse remediation, in probation, for chemical dependencies, in victim advocacy, for elderly, in prisons, for special needs populations, in court services, and for families and communities. Supervision by approved field instructors. An internship of 80 hours is required for three (3) credits. Instructor and student will work together to determine appropriate intern placement. Approval of instructor is required. (F, W).

SOC 479 Comparative Health Systems:Trip
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: SOC 200 or SOC 201
A unique combination of lectures, field trips, visits with general practitioners, specialists, hospital observations, talks with health policy planners, researchers, and many others. Personal experience in two health care systems. Permission of instructor. Junior/Senior standing required. Students cannot receive credit for both SOC 479 and SOC 579. (AY).

SOC 481 Gender and Globalization
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
Coll of Arts, Sciences&Letters
May not be enrolled in one of the following Classes:
Sophomore
Freshman
Mass media, politics, and academia are full of references to globalization, and a future "world without borders." This interdisciplinary course considers the implication of globalization for women's lives, gender relations, and feminism. Topics covered include the global factory, cross-cultural consumption, human rights, global communications, economic restructuring, nationalism, and environmental challenges. Rather than survey international women's movements, this course explores how globalization reformulates identities and locations and the political possibilities they create. (AY).

SOC 482 Methods of Social Work Pract
3.000 Credits
Prerequisites: SOC 200 or 201
Examination of social work practice methods and approaches to social problems, contexts of practice and targets of change. Focus is on knowledge and skills each practice method requires to effect personal and social change. (YR).

SOC 483 Images of Organizations
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: SOC 200 or SOC 201
Formal bureaucratic organizations such as government agencies, hospitals, and colleges are a distinctive feature of modern industrialized societies. Analysis of types of formal organizations, their goals, structure, and consequences for intra- and inter-organizational behavior helps to understand how to deal with a complex world. Students cannot receive credit for both SOC 483 and SOC 583. (YR).

SOC 490 Advanced Topics in Sociology
3.000 Credits
Examination of problems and issues in selected areas of sociology. Title as listed in the Schedule of Classes will change according to content. Course may be repeated for credit when specific topic differs.

SOC 497 Senior Research Seminar
3.000 Credits
Prerequisites: SOC 410
This course is intended as the culmination of a student's prior work in sociology. Each student will conduct an applied research project that draws upon sociological concepts and issues. The product of this research will be an essential component of the student's concentration portfolio.

SOC 498 Independent Study
1.000 TO 3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: SOC 200 or 201
Analytical assignments in sociology. No more than a total of six credit hours of SOC 398 and SOC 498 may be applied toward concentration. Permission of instructor required. (F, W, S).

Spanish
(see Hispanic Studies)

Speech (SPEE)
(not a field of concentration; see Communications)

COURSE OFFERINGS

SPEE 101 Principles of Speech Comm
3.000 Credits
Consideration of the basic elements of effective interpersonal, small group, and public communication. Designed to give the student increased self-confidence through practical experience in presenting speeches, with emphasis on delivery skills and training in the skills of analysis, organization, development, and adaptation of ideas. (F, W).
SPEE 310  Interpersonal Communication
3. 000 Credits
Prerequisites: SPEE 101
Course adopts a discussion and activities-centered approach to understanding and applying principles and methods associated with successful interpersonal communication. Students will study and refine the communication of relationship in dyadic settings as it is influenced by cultural and gender differences. Non-verbal variables, listening, and assertive communication are just a few of the areas of discourse that will be studied in relationship to expanding cultural and gender awareness.

SPEE 320  Public Argument and Advocacy
3. 000 Credits
Prerequisites: SPEE 101
Students gain perspectives and experience as both critical consumers and informed producers of public discourse. Students will become familiar with basic theories of rhetorical action, engage in critical analysis of varied public arguments and rhetorical events, and prepare speeches of advocacy intended for both real and imagined audiences. (YR).

SPEE 330  Argumentation and Debate
3. 000 Credits
Prerequisites: SPEE 101
This course covers the logical and legal foundations of the argumentation process. Offers practical and theoretical experience in analysis, reasoning, case-building, evaluation of evidence, refutation, and cross-examination. (AY).

SPEE 340  Theories of Persuasion
3. 000 Credits
Prerequisites: SPEE 101
A study of the theories of persuasion. Consideration will be given to the psychological appeals and logical reasoning skills that secure the acceptance of ideas, attitudes, values, and beliefs. This course provides practical experience in persuasive speaking as well as theoretical analysis of representative persuasive speaking. (AY).

SPEE 399  Independent Studies in Speech
1. 000 TO 3. 000 Credits
Readings or analytical assignments in speech in accordance with the needs and interests of those enrolled and agreed upon by the student and advising instructor. (F, W).

SPEE 400  Speech Skills for Professional
3. 000 Credits
May not be enrolled in one of the following Classes:
Graduate
Prerequisites: SPEE 101
Course concentrates on aspects of organizational communication theory and specific speech skills useful for professionals in education, government, business and industry. Representative topics include formal and informal presentations, interviewing, dealing with media and public, audience analysis, use of graphics, negotiation and conflict resolution, non-verbal skills, listening, instructional techniques. Students cannot receive credit for both SPEE 400 and SPEE 500. (OC).

SPEE 430  Small Group Communication
3. 000 Credits
May not be enrolled in one of the following Classes:
Graduate
Prerequisites: SPEE 101
A survey of small group behavior from the perspectives of theory, research, and practice. Activities and discussion will emphasize skills in leadership, problem solving, policy making, and the development of consensus. Students cannot receive credit for both SPEE 430 and SPEE 530. (AY).

SPEE 442  20th Century Public Argument
3. 000 Credits
Prerequisites: SPEE 101
This class is a survey of American public address in the 20th century. Students will examine and critically analyze several of the most significant speeches and rhetorical movements of the last one hundred years. Through lectures, discussions, and analysis of speeches and other artifacts, we will focus on the relationship between rhetoric and history, and how theories of rhetorical action help us appreciate the role of discourse in the effective functioning of a democratic system. Students will learn to utilize several critical perspectives as a means of understanding both historical and contemporary political discourse. (W).

(not a field of concentration, see Modern and Classical Languages)

Urban and Regional Studies

Urban and Regional Studies (URST) encompasses the environmental, aesthetic, social, economic, geographic, historical, political, and cultural aspects of cities, suburbs and regions. It advances in-depth study of some of the major challenges facing individuals and groups living and working in major metropolitan regions, such as the Detroit area. These challenges include:

- Economic development
- Urban poverty and income inequality
- Preservation and promotion of culture, architecture and art
- Land use conflicts
- Provision of adequate and sustainable transportation and housing services.

Career Opportunities

Urban and Regional Studies provides students with the knowledge, techniques and critical analytical skills that will enable them to effectively participate in changing cities and regions.

Pursuing a degree in Urban and Regional Studies at UM-Dearborn offers you the opportunity to combine real-world practice and theory. Students can specialize in areas such as urban and regional policy, community development, urban design and the environment.

Graduates of this program may consider careers in urban/regional planning, community organizing, non-profit management, public policy/administration, social services, and arts and culture management. They may also consider pursuing graduation education and research in areas such as geography, urban planning, sociology, anthropology, environmental studies, public policy and public administration.
The Major

(Requirements are subject to change. Degree-seeking students will be subject to the requirements in effect at the time that they are admitted or re-admitted.)

The program is interdisciplinary in design, meaning that courses draw upon a variety of traditional academic disciplines – e.g. history, English, geography, economics, sociology and anthropology. Students are encouraged to rigorously and creatively integrate the theory and methods learned in these courses. In addition, a unique feature of the program is that students gain hands-on experience by working in the community through an internship, academic service learning and/or community-based research.

Requirements

- URS 300 – Urban and Regional Studies: Theory and Practice (3 credit hours)
- 12 credit hours in one of the three tracks
- 12 credit hours from the other two tracks
- 6 credit hours of academic-based community research satisfied through any combination of the following:
  - Internship (students may elect to participate in any CASL Internship program with approval from their faculty advisor and the Internship Program Director)
  - Independent Study (3 credits of which can also be used to satisfy the credit requirements in a single track, with the approval of the program faculty director)
  - Or other approved form of academic-service learning
- URS 450 – Senior Capstone in Community Research (3 credit hours)

COGNATES

Six credit hours of upper-division (300-400 level) coursework in a single discipline, in addition to any courses already elected in that discipline used to satisfy urban and regional studies requirements. Cognate courses will provide supporting skills or contexts for the study of urban issues. Internships in these disciplines will not be used to satisfy the cognate requirement.

MINOR/AREA OF FOCUS

URST is also available as a minor, or as an area of focus in General Studies or Liberal Studies. The minor/area of focus requires 15 credit hours of upper level coursework including URS 300 and at least one course from each of the three tracks.

Urban and Regional Studies (URS)

</tbody>
</table>

3.000 Credits

In this course we will explore the field of urban and regional studies. The scope of readings is inter-disciplinary, spanning the environmental, aesthetic, social, economic, geographic, historical, political and cultural aspects of cities, suburbs and regions. The interrelationship between the spatial organization of a city, patterns of social and economic inequality, delivery of services, the relationship between culture and public space, as well as the processes of urban and regional change will all be considered. Problems such as race and class inequality will also be examined. Special attention will be given to issues of relevance in the Detroit metropolitan region (e.g. spatial, economic, cultural, political and social impacts of the loss of manufacturing jobs). Students will be introduced to methods of social scientific analysis and will begin to apply those methods to researching urban and regional community groups, enterprises and social movements.
URS 390  Topics Urban&Regional Studies
3. 000 Credits

Problems and issues in selected areas of urban and regional studies. Title as listed in Schedule of Classes changes according to content. Course may be repeated for credit when specific topic differs.

URS 450 Sr Capstone in Community Rsrch
3. 000 Credits

The capstone course is designed to assist students in integrating the concepts, theories, and methods of inquiry or urban studies into research for or in the surrounding metropolitan area. Open to students in urban and regional studies who have completed their community-based learning requirement for the concentration.

URS 499 Independent Study
3. 000 Credits

Readings, community-based research and analytical assignments in accordance with the needs and interests of the student and approval of the instructor. Students must submit a written proposal of study for approval. In addition, students electing to take this course in partial fulfillment of their community-based research must get approval from the Director of the Urban and Regional Studies program. (F, W, S)

Women's and Gender Studies

Women's and Gender Studies (WGST) is an interdisciplinary program that provides a challenging course of study for students who wish to:

- explore the voices of women and men whose experiences have often been overlooked in the traditional curriculum;
- examine the ways that gender, class, race, religion, sexuality and culture intersect in people’s lives;
- increase their analytical skills by learning how to read and write critically;
- become more knowledgeable and active members of their communities.

WGST provides you with all of the benefits of any liberal arts degree, and can be applied to a multitude of careers. Recent graduates from the UMD WGST program have gone on to successful careers in law, social work, history, medicine, teaching, counseling, business, politics, and policy-making. Many WGST students say that the course of study gives them the confidence to apply their skills in non-traditional careers.

REQUIREMENTS

A concentration requires 30 credit hours in Women’s and Gender Studies:

- WGST 303 Introduction to Women’s and Gender Studies (3 credit hours)
- Either WGST 384 Feminist Philosophies or WGST 409 Feminist Theories
- 6 credit hours in Gender, Culture and Representation courses
- 6 credit hours in Gender and Social Institutions courses
- 9 credit hours of coursework in 300/400 level WGST courses
- 3 credit hours of a capstone experience satisfied through any combination of the following:
  - Internship (students may elect to participate in any CASL Internship program with approval from the director of WGST and the Internship Program Director)
  - WGST 498 Women’s and Gender Studies thesis
  - Or other approved form of capstone learning experience.

Gender, Culture, and Representation Courses:

- WGST 315 Body Image and Culture
- WGST 335 Women in Medieval Art
- WGST 385 Gender Differences in Language
- WGST 386 Gender Issues in Literature
- WGST 387 Film and Feminisms
- WGST 401 Images of Women in Germany
- WGST 406 Culture and Sexuality
- WGST425 Women in Classical Antiquity
- WGST 433 Writing Women in Renaissance
- WGST 445 20c/21c Women Authors
- WGST 455 Gender and Media Studies
- WGST 4555 Immigrant Cultures and Gender
- WGST 470 Voices of Black Women in Film, Music, Literature
- WGST 473 Arab American Women Writers
- WGST 486 Queer Theory and Literature
- WGST 487 Monsters, Women and Gothic

Gender and Social Institutions Courses:

- WGST 325 Gender and Science
- WGST 326 Economics of Poverty and Discrimination
- WGST 338 Women and Islam in Middle East History
- WGST 362 Women, Politics, and the Law
- WGST 3651 Women, Leadership and Social Change
- WGST 370 Women in America: Historical Perspective
- WGST 3955 Diversity in the Workplace
- WGST 404 Dissed: Difference, Power and Discrimination
- WGST 407 Sexual Theory and Praxis
- WGST 408 Gender, Power and International Development
- WGST 412 Men and Masculinities
- WGST 420 Kinship and Marriage
- WGST 446 Marriage and Family Problems
- WGST 447 Family Violence
- WGST 461 Cops and Cons: Women in Prison
- WGST 476 Inside/Out Prison Exchange
- WGST 481 Gender and Globalization

COGNATES

Six credit hours of upper-division (300-400 level) coursework in a single discipline. Not in Women’s and Gender Studies or cross-listed with Women’s and Gender Studies. Cognate courses will provide supporting skills for the study of women and gender. Internships will not be used to satisfy the cognate requirement.

MINOR/AREA OF FOCUS/CERTIFICATE IN WOMEN’S AND GENDER STUDIES

WGST is also available as a minor or as an area of focus in Gender Studies or Liberal Studies. The minor/area of focus requires 15 credit hours of upper level coursework including WGST 303, Introduction to Women’s and Gender Studies.

Students who have completed this requirement, along with post-baccalaureate students who complete the 15 credits for the minor, will obtain a certificate in WGST. The certificate provides students with a credential that is widely recognized in the field. For more information about the post-baccalaureate certificate, contact the Director, Office of Women’s and Gender Studies, 2040 CB, (313) 593-1391 or on the web at: casl.umd.umich.edu/ws/.
Women’s and Gender Studies
(WGST)
COURSE OFFERINGS

WGST 303 Intro to Women's & Gender Stud
3. 000 Credits
May not be enrolled in one of the following Classes:
Freshman
This course provides an interdisciplinary overview of the key theories and topics in Women's and Gender Studies. Special attention is given to how gender intersects with class, race, nationality, religion and sexuality to structure women's and men's lives. Students are also introduced to methods of gender analysis and will begin to apply these methods to topics such as women and health, gender roles in the family, violence against women, and gendered images in the mass media.

WGST 315 Body Image and Culture
3. 000 Credits
Prerequisites: ANTH 101 or WST 275 or WGST 275 or WGST 303 or PSYC 275 or ANTH 275 or HUM 275 or PSYC 303 or ANTH 303 or SOC 303 or HUM 303 or SOC275
This course examines the biological and sociocultural construction of body image in both men and women. We explore such cultural and social practices as nudity, tattooing, piercing, scarification, dietary habits, physical activity and sports performance and their associated myths and realities. We explore how the human body is a terrain of contested meaning within society. The course provides an examination of the causes and consequences of women's poor body image, contemporary and historically. Course materials include case studies from North America, Europe, Africa, Asia and the Pacific.

WGST 325 Gender and Science
3. 000 Credits
Prerequisites: NSCI 101 or NSCI 120 or NSCI 121
Explores some of the history of women in science, the current status of women in science and feminism and science. Topics will include contributions made by women before science moved into the public sphere, cultural influences on decisions to make science a career and a feminist approach to scientific research. Discussion, lecture.

WGST 326 Poverty and Discrimination
3. 000 Credits
Prerequisites: ECON 201 and ECON 202
An analysis of the economic aspects of poverty and discrimination. Emphasis on the theoretical economic causes of poverty and the economic bases for discriminatory behavior, the impact of poverty and discrimination on individuals and society and the effect of reform policies on the two problems.

WGST 335 Women in Medieval Art
3. 000 Credits
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103 or ARTH 104 or ARTH 106 or WGST 275 or WGST 303
Women have often been regarded as the second sex of the middle ages due to the misogynistic attitudes of that era. Recent scholarship, however, has unearthed a significantly more complex picture. Through a study of visual representations of women in medieval art, this course will examine women's roles in the creation and patronage of art and literature, economic and family issues, and women's participation in new and innovative forms of religious piety.

WGST 338 Women & Islam in Mid East Hist
3. 000 Credits
This course will introduce students to Islam's normative stance toward women, to complication in that normative stance, to theories about gender and history and finally to a consideration of the changing and varied attitudes about women and gender in the modern Middle East.

WGST 362 Women, Politics, and the Law
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
Coll of Arts, Sciences&Letters
An examination of the political behavior of women in American politics. Included is an analysis of the legal and legislative demands of American women.

WGST 3651 Women/Leadership/Social Change
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
May not be enrolled in one of the following Classes:
Freshman
Prerequisites: HIST 112 or WST 275 or WGST 275 or WGST 303
The purpose of this seminar is to examine women's leadership in movements for social change. We will approach this topic through the study of historical examples, drawn primarily from the twentieth-century United States, and including movements for economic justice, race relations, sexual identity, peace, gender equality, public health and social welfare.

WGST 370 Women in America-Hist Perspect
3. 000 Credits
A survey of American women's history from the colonial period to the present. Among the topics included are family roles, women's economic status, women's education and women in American political life.

WGST 384 Feminist Philosophy
3. 000 Credits
Prerequisites: PHIL 100 or WGST 275 or WGST 303
Feminists working in philosophy, most notably in the 19th and 20th centuries, have altered the traditional philosophical canon by first, recovering women philosophers who were essentially erased from the history and secondly, by extending and contributing to the standard questions of philosophy. For example, one central question of philosophy, “What can we know with certainty?” has been transformed through a feminist lens and reinterpreted as "What does one's gender, social location and cultural framework contribute to what one knows?" In this course we will look at the variety of feminist philosophical theories with a focus on epistemology, metaphysics and ethics.
WGST 385  Gender Differences in Language  
3. 000 Credits  
Prerequisites: LING 280 or LING 281  
Examines theories of differences between male and female speakers of English, focusing on phonological, syntactic, semantic, stylistic and conversational features, with analyses of differences in speaking strategies and agendas of male and female speakers, as well as split-language situations in the workplace, home and social settings.

WGST 386  Gender Issues in Literature  
3. 000 Credits  
Prerequisites: ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200  
A study of gender issues in English and American Literature. The exact topic will vary from semester to semester, but the course may feature such topics as gay and lesbian literature, feminist criticism, images of masculinity, the representation of sexual ideologies, etc. Course may be repeated for credit when specific topics differs.

WGST 387  Film and Feminisms  
3. 000 Credits  
Prerequisites: ENGL 240 or HUM 240 or FILM 240 or ENGL 248 or FILM 248 or HUM 248  
This course will establish the role of mainstream cinema in the construction of female gender roles in contemporary Western society. The course will engage with debates in feminist film theory and the role of avant-garde and non-Western cinema in challenging the gender ideology of mainstream cinema.

WGST 390  Topics in Women's Studies  
3. 000 Credits  
Prerequisites: WST 275 or WGST 275 or WGST 303 or WGST 303  
Examination of problems and issues in selected areas in Women's and Gender Studies. Title in Schedule of Classes will change according to content. Course may be repeated for credit when specific topic differs. (YR)

WGST 3955  Diversity and the Workplace  
3. 000 Credits  
Prerequisites: PSYC 4305 or PSYC 431 or WST 275 or WGST 275 or OB 354 or HRM 405 or WGST 303 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or PSYC303 or SOC 303 or ANTH 303 or HUM 303  
This course will: 1) discuss gender, race, ethnicity, disability, age, sexual orientation, and appearance as aspects of diversity; 2) examine social values and practices, and organizational policies and procedures that affect or have affected the employment opportunities of underrepresented groups; 3) examine individual (e. g., prejudice, stereotypes), group(e. g., in-groups and out-groups), and organizational (e. g., climate and culture) processes that affect work place diversity and; 4) discuss "best practices" for promoting an organizational culture that values diversity, along with a diverse work force.

WGST 401  Images of Women in Germany  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Sophomore  
Senior  
Junior  
This course will focus on the position of women in Germany after WWII and up to and after the unification of East and West Germany. Particular attention will be given to the gendered history of working through the National Socialist past, the division and reconstruction of the two nation-states, and the terrorism in West Germany in the 1970's. Students will examine images of women in films and tie them to the ideologies of gender and status of women in these larger issues of German history. Course readings will be in English. Students wishing to receive German credit for the course must enroll concurrently in GER 380: Praktikum. Students cannot receive credit for both WGST 401 and WGST 501.

WGST 404  Dissed: Differ, Power, Discrim  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Have you ever been dissed? Why are some people targets of disrespect? This class examines the unequal distribution of power - social, economic and political in the United States and other countries that results in favor for privileged groups. We will examine a variety of institutional practices and individual beliefs that contribute to disrespect. We'll look at ways that beliefs and practices, like viewing inequality as consequence of a "natural order," obscure the processes that create and sustain social discrimination. We will engage in the intellectual examination of systems, behaviors and ideologies that maintain discrimination and the unequal distribution of power and resources. Student will not receive credit for both WGST 404 and WGST 504.

WGST 405  Gender Roles  
3. 000 Credits  
Prerequisites: PSYC 171 or SOC 200 or SOC 201 or PSYC 170  
This course will investigate the development of sex roles in childhood and adolescence due to either innate physiological differences or sociological patterning, the effect of sex roles upon male-female relationships within our society and the possibility of transcending sociological sex roles in alternate modes of living. Students cannot receive credit for both WGST 405 and WGST 505.

WGST 406  Culture and Sexuality  
3. 000 Credits  
Prerequisites: ANTH 101 or WGST 275 or WST 275 or WGST 303 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or PSYC 303 or SOC 303 or ANTH 303 or HUM 303  
The study of women, men, children, socialization practices and the genesis of sex roles cross-culturally. Students cannot receive credit for both WGST 405 and WGST 406.

WGST 407  Sexual Praxis and Theory  
3. 000 Credits  
Prerequisites: WST 275 or WGST 275 or HUM 275 or PSYC 275 or ANTH 275 or SOC 443 or PSYC 405 or ANTH 406 or ANTH 101 or WGST 303 or ANTH 303 or PSYC 303 or SOC 303 or HUM 303  
This course will offer an overview of sexual differences including: the socio-cultural construction of gender, sexual behavior and orientation; sex and sexualities in language and literature; and diversity by race, class and cultural heritage. These topics will enable students to understand human sexuality within and across a continuum removing notions of duality or polarity, in sexual behaviors and orientations. Examples both from within Western society and from non-Western societies may be used to further this position. Theoretical perspectives may encompass sociological and anthropological work, literary theory and
criticism, queer theory, and multi-disciplinary discussions/discourse. Texts may include: Sex and the Machine; Readings in Culture; Gender and Technology; The Anatomy of Love; The Lesbian and Gay Studies Reader, Second Skins: The Body Narratives of Transsexuality, and Lesbian and Gay Marriage.

WGST 408 Gender, Pwr & Intl Development 3.000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: WGST 275 or WST 275 or ANTH 275 or HUM 275 or PSYC 275 or SOC 275
This course provides an overview of gender issues in development in the global South, including the differential effects of development policies on women and men, and the role of social movements in transforming development policy frameworks. Students may not receive credit for both WGST 408 and 508. For graduate credit, students should elect WGST 508.

WGST 409 Feminist Theories 3.000 Credits
Prerequisites: WGST 275 or WST 275 or SOC 200 or SOC 201 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or WGST 303 or PSYC 303 or SOC 303 or ANTH 303 or HUM 303
This course examines the different perspectives that feminist theorists have offered to analyze the unequal conditions of women's and men's lives. Students taking this course will develop an understanding of how theory functions as a way to know, understand and change the world. They will also be provided with a lens for comparing the assumptions and implications of alternative theoretical perspectives. A particular emphasis of this course is on theorizing the interrelationships among gender, race, class, sexuality and nationality. Course material includes applications of feminist theory to issues such as gender identity formation; sexuality; gender, law and citizenship; women and work; and the history and politics of social movements. Students will not receive credit for both WGST 409 and WGST 509. (AY)

WGST 412 Men and Masculinity 3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
May not be enrolled in one of the following Classes:
Sophomore
Freshman
Prerequisites: SOC 200 or SOC 201 or ANTH 101 or WST 275 or WGST 275 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or WGST 303 or PSYC 303 or SOC 303 or ANTH 303 or HUM 303
This course addresses the question, "What is a man?" in various historical, cross-cultural and contemporary contexts. A major focus is on the social and cultural factors that underlie and shape conceptions of manhood and masculinity in America as well as in a variety of societies around the globe.

WGST 416 Earl Mod Jpn Paint&Wood Prnts 3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: ARTH 101 or ARTH 102 or ARTH 103
Painting and woodblock prints of the Edo/Tokugawa (1600-1868) and Mei II (1868-1912) periods are considered in light of competing developments that on the one hand looked to Japan's classical tradition and on the other to the influence of art and artists from China and from the West. Special attention is given to female artists and images of women. Students cannot receive credit for both WGST 416 and WGST 545.

WGST 420 Kinship and Marriage 3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: ANTH 101
A study of the diversity of kinship and marriage systems, and of the history of kinship theory which has played a seminal role in the development of general anthropological history. Students cannot receive credit for both WGST 420 and WGST 520.

WGST 425 Women in Classical Antiquity 3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: ARTH 101
This course examines the evidence for the lives of women in Greek, Etruscan and Roman Antiquity, from the Bronze Age through the Imperial Period. Special emphasis will be placed on the archaeological evidence, especially works of art which illustrate women's lives and their relationships with men. Documents such as dedicatory and funerary inscriptions, the poetry of Sappho and Sulpicia, and selections from the writings of Homer, Hesiod, Aristotle, Pliny, Juvenal, and other ancient authors, will also be examined critically, particularly in relationship to the works of art.

WGST 433 Writing Women In Renaissance 3.000 Credits
May not be enrolled in one of the following Classes:
Graduate
This course will be taught in English, and will focus on the influence of Italian literary models for the construction of female literary types as well as female voices in France and Italy from 1300 to about 1600. Italian authors studied include three very influential Florentines, Dante, Petrarch and Boccaccio, as well as Castiglione and Asio. We will read women poets, patrons, prostitutes and queens from Italy and France such as Veronica Gambara, Isabella di Morra, Vittoria Colonna, Christine de Pizan, Louise Labe and Marguerite de Navarre. At issue will be women's roles and women's images in court culture during the early modern period and the interaction of their writings with the literary canons of Italy and France.

WGST 445 20C/21C Women Authors 3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or ENGL 200)
An analysis of images and problems of women as defined by significant British and American women writers of the 20th and 21st centuries. Style and narrative technique will also be closely examined. Students cannot receive credit for both WGST 445 and WGST 545.
WGST 446  Marriage and Family Problems  
3. 000 Credits  
Prerequisites: SOC 200 or SOC 201 or WGST 275 or WST 275 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or WGST 303 or PSYC 303 or SOC 303 or ANTH 303 or HUM 303

Sociological analysis of problems encountered within the institution of marriage with particular reference to such issues as choosing a marriage partner, sexual adjustment, occupational involvement, conflict resolution, child rearing, divorce and readjustment. Students cannot receive credit for both WGST 446 and WGST 546.

WGST 447  Family Violence  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: SOC 200 or SOC 201 or SOC 301 or SOC 443 or PSYC 405 or WST 405

Sociological analyses of various forms of family violence which occur disproportionately in the lives of girls and women. Topics such as incest, sexual abuse, date rape, wife battering and elder abuse will be situated within the social and cultural context of contemporary gender relationships. Social and political responses to the phenomena will be examined. Students cannot receive credit for both WGST 447 and WGST 547.

WGST 455  Gender and Media Studies  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate

The course will focus on several feminist approaches used in understanding the media and attempting to create social change through the media. The role of media in the definition and reproduction of gender-based hierarchies and in the renegotiation of gender boundaries will both be explored. To this end, both mainstream and women's media will be examined. The course will take a multicultural and international perspective, incorporating concerns of class, race, ethnicity and nation as these intersect with the study of gender and media. Mainstream and alternative media will be analyzed through readings, films, case studies, in-class collaborative exercises and longer-term projects. News, entertainment and advertising genres will be examined in a variety of media, such as the printed press, television, video, film and the Internet.

WGST 4555  Immigrant Cultures and Gender  
3. 000 Credits  
Prerequisites: ANTH 101 or WGST 275 or WST 275 or PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or WGST 330 or PSYC 303 or SOC 303 or ANTH 303 or HUM 303

The history and culture of immigration since 1850, including: (1) formation and perseverance of immigrant communities and interethic boundaries; (2) relations between the homeland and the immigrant; and (3) impact of migration on family life and gender roles. Prerequisite and junior or senior standing. Students may not receive credit for both WGST 4555 and WGST 5555. For graduate credit take WGST 5555.

WGST 461  Cops & Cons: Women in Prison  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: PSYC 275 or SOC 275 or ANTH 275 or HUM 275 or WGST 303 or PSYC 303 or SOC 303 or ANTH 303 or HUM 303 or SOC 200 or SOC 201 or CRJ 240 or CRJ 300

Course uses contemporary theories of gendered organizations to frame analyses of prison policies and practices in employment and incarceration as they reflect and reproduce gender inequalities. Analyses will be framed within a restorative justice model, that is, a critique of the current criminal justice system of retributive justice and a paradigm of what a alternative system could be.

WGST 470  Black Women / Lit, Film, Music  
3. 000 Credits  
Must be enrolled in one of the following Programs:  
AB-Women's and Gender Studies  
Prerequisites: FILM 240 or FILM 248 or FILM 385 or AAS 239 or AAAS 275 or WST 275 or WST 370 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 237 or ENGL 239 or ENGL 248 or HUM 221 or HUM 222 or HUM 223 or WGST 275 or WGST 370 or ENGL 200

This course will examine works produced by Black women authors, activists, filmmakers and musical performers in order to determine the methods they have incorporated in order to challenge and eradicate the prevailing stereotypes about Black women while advancing their own personal and racial agendas. It will also focus on the extent to which race, gender and class have shaped the creative work of Black women. Students will be required to read, analyze and write their own responses to the works of such firebrands as author Zora Neale Hurston, activist Ida B. Wells, filmmaker Julie Dash and singer Billie Holiday.

WGST 473  Arab American Women Writers  
3. 000 Credits  
May not be enrolled in one of the following Classes:  
Freshman

This course examines the literary and cultural contributions of Arab and Arab American women novelists, poets, filmmakers and artists to the development and consolidation of cultures of understanding and coexistence; explores the relations between, among others, citizenship and belonging, race and national security, gender and geographical mobility, and ethnic minorities and mainstream consciousness; stresses how literary and artistic productions of Arab and Arab American women writers and artists fosters alternative visions of socio-cultural coexistence, dialogue, and hospitality by means of technical and stylistic experimental and renovation.

WGST 476  Inside Out Prison exchange  
4. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior

This community-based course, taught in a local correctional facility, brings university students and incarcerated students together to study as peers. Together students explore issues of crime and justice, drawing on one another to create a deeper
understanding of how these issues affect our lives as individuals and as a society. The course creates a dynamic partnership between UMD and a correctional facility to allow students to question approaches to issues of crime and justice in order to build a safer and more just society for all. The course encourages outside (UMD) students to contextualize and to think deeply about what they have learned about crime and criminals and to help them pursue the work of creating a restorative criminal justice system; it challenges inside students to place their life experiences into larger social contexts and to rekindle their intellectual self-confidence and interest in further education.

**WGST 478 Women and Gender Studies Intern**
3.000 Credits
Prerequisites: ANTH 275 or SOC 275 or WST 275 or PSYC 275 or HUM 275 or WGST 275 or WGST 303 or PSYC 303 or SOC 303 or ANTH 303 or HUM 303

Provides field experience in social welfare or criminal justice agencies e.g., for children/adolescents in residential programs, in abuse remediation, in probation, for chemical dependencies, in victim advocacy, for the elderly, in prisons, for special needs populations, in services, in medical/public health, in police services, and for families and communities. Supervision by approved field instructors. An internship of 80 hours is required for three (3) credits. Instructor and student will work together to determine appropriate intern placement. Approval of instructor and the Women's Studies Director is required.

**WGST 481 Gender and Globalization**
3.000 Credits
Must be enrolled in one of the following Levels: Undergraduate

Mass media, politics and academia are full of references to globalization, and a future "world without borders." This interdisciplinary course considers the implication of globalization for women's lives, gender relations and feminism. Topics covered include the global factory, cross-cultural consumption, human rights, global communications, economic restructuring, nationalism and environmental challenges. Rather than survey international women's movements, this course explores how globalization reframes identities and locations and the political possibilities they create.

**WGST 486 Queer Theory and Literature**
3.000 Credits
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239 or AAAS 239)

This course analyzes issues of sexuality using the lens of queer theory to understand the ways writers have imagined printed text to reflect and govern desire. This course also explores how queer theory has moved beyond a hetero-homosexual binary by offering alternative solutions to issues in literature that seem to be at political, economic and national impasses. Writers may include contemporary theorists (Sedgwick, Foucault, Butler) as well as novelists (Gaskell and Stoker), playwrights (Kushner and Wycherley) and poets (Behn and Rossetti). 

**WGST 487 Monsters, Women & the Gothic**
3.000 Credits
Prerequisites: (COMP 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40) and (ENGL 200 or ENGL 230 or ENGL 231 or ENGL 232 or ENGL 233 or ENGL 235 or ENGL 236 or ENGL 237 or ENGL 239)

This course questions our inheritance of the "the gothic" as a district literary style that continues to discipline readers' notions of gender and sexual identity. The course argues that by tracing the gothic’s literary history, we may simultaneously witness a history of gender formation. Readings may include English novelists who originated a gothic style in English (Walpole, Radcliffe, Lewis) as well as English and American poets and novelists who have debated as well as resisted the effects of the gothic on readers? (particularly women’s) psychology (Christina Rossetti, Austen, King, Stoker).

**WGST 490 Topics in Women's Studies**
3.000 Credits
Must be enrolled in one of the following Levels: Undergraduate
Prerequisites: WST 275 or WGST 275 or LIBS 580 or WGST 303

Examination of problems and issues related to Women's Studies. Title as listed in Schedule of Classes will change according to specific content. Course may be repeated for credit when specific topics differ.

**WGST 498 Women's Gender St Thesis**
1.000 TO 6.000 Credits
Must be enrolled in one of the following Levels: Undergraduate

A thesis project that is the culmination of the minor in Women's Studies. Students meet with the instructor to reflect on past studies and plan current projects, to conduct research that addresses a gender issue in the larger community, and to write a thesis under the direction of the faculty member. Research involving participant-observer in social agencies is encouraged where appropriate.

**WGST 499 Independent Studies**
1.000 TO 6.000 Credits
Must be enrolled in one of the following Levels: Undergraduate

Provides opportunity for qualified Women's Studies students to pursue independent research under the direction of a qualified faculty member. Project must be defined in advance, in writing and must be in a subject not currently offered in the regular curriculum.

General Information

Mission

The College of Business provides high quality, practice-oriented business programs to well-qualified students on a regional campus of the University of Michigan. While the College primarily maintains a regional student focus, it provides a quality educational experience preparing them for national placement. Our primary mission is to meet the business-related educational needs of our undergraduate and graduate students, supported by new technologies and a variety of teaching methodologies. By providing regional organizations with professionally competent interns and graduates, we strive to meet both the community's human resource needs and our students' employment and education needs. The mission is enhanced by the College's location in a major metropolitan and industrial area.
Our undergraduate and graduate programs are designed to supply students with professional and technical skills essential to being successful in an evolving business environment. Each program is characterized by limited class size. We also offer students outstanding professional internship opportunities.

Our primary mission is complemented by our faculty's commitment to making intellectual contributions. The main focus of this intellectual process is refereed publications in nationally recognized journals that lead to contributions beneficial to academic and business professionals.

The College of Business’s tradition of exemplifying high standards for both faculty and students is acknowledged by AACSB International, The Association to Advance Collegiate Schools of Business, which has awarded fully accredited status for both the undergraduate and graduate programs.

**Bachelor of Business Administration Program**

The Bachelor of Business Administration (BBA) program is a professionally oriented program that builds upon a strong liberal arts foundation and develops the diversified competencies called for in the management of a modern business enterprise. The program also is designed to impart knowledge of the fundamental administrative skills demanded of the leaders in modern public and private organizations. It also can provide a rigorous preparation for graduate study in management science, business administration, law, and related areas.

Approximately one-half of the course requirements of the degree program are in non-business disciplines and provide the foundation for the professional offerings. These requirements are designed to give the student a more profound understanding of the student's own heritage, and of the physical and social universes within which the student lives. They develop the principles and standards of analysis, expression, and conduct.

**BBA Learning Outcomes**

The following Learning Outcomes have been developed by the faculty in the College of Business. These outcomes describe what we want all of our students to know and be able to accomplish upon graduation.

1. Students will be knowledgeable about the business disciplines.
2. Students will be effective communicators.
3. Students will be effective team members.
4. Students will be competent in the application of technology.
5. Students will be knowledgeable about global business practices and diverse cultures.
6. Students will be knowledgeable about ethical principles and their application.
7. Students will apply critical thinking skills to business situations.

---

**BBA Program Planning for UM-Dearborn Pre-business Students**

Programs of undergraduate study in business administration leading to a bachelor's degree involve approximately four years of college study, the first two years of which can be considered pre-professional preparation in foundation courses covering fundamental subject matter. The third and fourth years constitute the more specialized professional phase of the degree program. It is in the offering of this professional phase that the faculty of the College of Business has principal responsibility.

Students seeking the BBA degree who are admitted to UM-Dearborn as freshmen or sophomores enter the pre-business program of the College of Business. The pre-business program is designed to provide students with a strong liberal arts foundation. Pre-business students declare their major in the BBA program during the term in which they complete their sophomore year and the specific course requirements. Students not enrolled in the BBA program cannot elect more than 30 credit hours in courses offered by the College of Business.

**ADMISSION**

Admission to the BBA program is competitive and requires that the student has high promise as evidenced by the record compiled in the first two years of study. A student must have completed at least 55 credit hours to be considered for admission to the B.B.A. program. These credit hours must include necessary prerequisites for admission to the B.B.A. program (COMP 105, 280; ECON 201, 202; MATH 113 or 115; BA 100; ACC 298, 299.) Courses required for admission to the B.B.A. program, including those courses that are prerequisite to the required courses, in which a grade of C- or below has been received, must be repeated during the student’s next academic term. Prerequisite courses are COMP 105 and 280, ECON 201 and 202, MATH 113 or 115, BA 100, and ACC 298 and 299.

Appropriate and timely sequencing of the required math courses is critical for the successful admission to the B.B.A. program. Students are required to have completed math through calculus (MATH 113 or 115) by their junior year. Pre-business students are required to take the math placement exam and/or begin their math courses in their first term of enrollment. Freshmen are strongly encouraged to take the exam prior to orientation and register for the recommended math course their first term as a pre-business student. Students who have not taken the exam prior to their first term of enrollment will be required to complete the exam their first semester and register for math the following term.

**BBA Program Planning for Transfer Students**

Programs of undergraduate study in business administration leading to a bachelor's degree involve approximately four years of college study, the first two years of which can be considered pre-professional preparation in foundation courses covering fundamental subject matter. The third and fourth years constitute the more specialized professional phase of the degree program. It is in the offering of this professional phase that the faculty of the College of Business has principal responsibility.

Students are admitted to the business administration program as junior transfer students from other colleges.
ADMISSION

A transfer student seeking the BBA degree may be granted regular admission to the BBA program if the student has completed at least 55 semester credit hours at an accredited university or college and if the student has satisfactorily completed prerequisites for the program. Required prerequisites include the equivalent courses to UM-D's ACC 298 and 299; MATH 113 or 115; COMP 105 and 280; ECON 201 and 202; and BA 100. The UM-Dearborn Undergraduate Admissions Office provides local community colleges with equivalency tables. These tables should be consulted when planning course scheduling. A student who is otherwise admissible but has not satisfied these conditions, may be considered for admission to the pre-business program until the conditions are met. Courses required for admission to the BBA program, including those courses that are prerequisite to the required courses, in which a grade of C- or below has been received, must be repeated during the student’s next academic term. Prerequisite courses are COMP 105 and 280, ECON 201 and 202, MATH 113 or 115, BA 100, and ACC 298 and 299. Admission is based on the quality and content of both the high school and the college academic records, and standards of evaluation are designed to ensure that each student who is admitted has the intellectual capacity and the preparation to pursue advanced undergraduate work successfully. Admission criteria are applied to all students without regard to race, color, sex, creed or national origin.

Students who plan to transfer to the BBA program at UM-Dearborn after completing two academic years of course work should plan to complete most of the distribution requirements prior to transfer. It is especially important to have completed the requirements in English composition, natural/biological science, principles of economics, principles of accounting, mathematics, and introduction to business.

Appropriate and timely sequencing of the required math courses is critical for the successful admission to the BBA program. Students are required to have completed math through calculus (MATH 113 or 115) by their junior year. Pre-business students are required to take the math placement exam and/or begin their math courses in their first term of enrollment. Freshmen are strongly encouraged to take the exam prior to orientation and register for the recommended math course their first term as a pre-business student. Students who have not taken the exam prior to their first term of enrollment will be required to complete the exam their first semester and register for math the following term.

TRANSFER OF CREDIT

Full credit will be given for all acceptable courses in which a student has earned at least a C grade at an accredited college. A maximum of 62 credits from a community college and a maximum of 75 credits from a non-UM university or college are accepted for transfer; the total maximum number of non-UM credits not to exceed 75. A maximum of 90 credits from another UM unit are accepted for transfer. The minimum number of hours at UM and in the College of Business as stated in the section on BBA Degree Requirements must also be earned.

BBA Degree Requirements

The BBA degree will be granted to those students who meet the following requirements:

Satisfactory completion of at least 123 hours of college-level work distributed as follows:

- Elective requirements: 8-14 hrs
- Concentration requirements: 15-21 hrs
- Concentration requirements: 15-21 hrs
- Elective requirements: 8-14 hrs

Satisfactory completion of 48-61 hours at UM-Dearborn, the final 33 hours of which are taken while in the BBA program. A minimum of 21 credits of the 33 hours must be in courses taught in the College of Business.

Achievement of a minimum concentration grade point average of 2.0, as well as at least a 2.0 grade point average in all UM-Dearborn coursework and in all courses offered by the College of Business.

BBA Program Prerequisites

COMP 105  Writing and Rhetoric I
COMP 280  Business Writing and Rhetoric
ECON 201  Principles of Macroeconomics
ECON 202  Principles of Microeconomics
MATH 113  Calculus I: Management, Life and Social Science

OR

MATH 115  Calculus I

BA 100  Perspectives of Business in a Changing World
ACC 298  Financial Accounting
ACC 299  Managerial Accounting

Note: Each incoming student will take the UM-Dearborn Composition Placement Examination. Freshmen must take the exam and enroll in the appropriate level of English Composition in their first term of enrollment. This exam must be taken by the sixth week of the first semester in the College of Business for students transferring Composition 105 and 106 or 280 from off-campus. Excellent performance on the examination may result in the requirement for Composition 105 and/or 106/280 being waived. Note that demonstrating proficiency does not grant credit for courses not taken. Students exempt from the English Composition requirement must fulfill the 3-6 credit hours in electives.

Liberal Arts Distribution

Requirements: 31 hrs

A student seeking a degree from the College of Business must fulfill the coursework specified below. All of these courses, except as noted, are at the 100 and 200 level. These courses should generally be completed in the first two years.

Humanities: 6 hrs

Arts: 3 hrs
ARTH 101, 102, 103, 104, 106
MHIS 100, 120, 130; JASS 240, 248
MHIS/RELS/HUM 333
HUM 3335

Letters: 3 hrs
ENGL 200, 230, 231, 232, 233, 235, 236, 237, 238, 239
HUM 171, 201
PHIL 100, 120, 200, 240
Behavioral and Social Sciences..............................................9 hrs

A student must elect at least one course from Group A.

Group A
ANTH 101, 202
PSYC 170, 171
SOC 200, 201

Group B
POL 101, 201

History .................................................................3 hrs
Any history course excluding HIST 398, 399, 485, 497, 498 and 499.

Biological and Physical Sciences......................................7 hrs

One course must be a laboratory course.
BIOL 100 or 100 & 101
BIOL 103, 105, 130, 140
CHEM 100, 134, 136, 144, 146
ESCI 275, ENST 203
GEOL 118, 218
NSCI 120, 121
PHYS 100, 125, 126, 130 or 130 & 131, 150, 151

Natural Science 120 and Biology 100 or 100 & 101 may not be used together to meet the requirement.

Critical Thinking..........................................................3 hrs
PHIL 233 Critical Thinking

Diversity Requirement.................................................3 hrs
A list of approved courses are available in the College of Business, Student Services Office.

Business Administration Core
Requirements 38 hrs

BA 300 Career Planning
BA 320 Project Management
BA 330 Managerial Communications
BA 400 Corporate Responsibility
BE 401 Managerial Economics
BPS 451 Strategic Management
DS 300 Quantitative Modeling and Analysis I
FIN 401 Corporate Finance I
LE 452 The Legal Environment of Business

ITM 310/311 Information Systems in Management
OR
ACC 380/381* Accounting Information Systems
MKT 352 Marketing Principles and Policies
OB 354 Behavior in Organizations
OM 300 Introduction to Operations Management

*Note: ACC 380/381 is a requirement for students pursuing an Accounting concentration.

Concentration Requirements.................................15-21 hrs

All BBA students must declare and fulfill the requirements for a concentration in Accounting; Finance; General Business; Information Technology Management; Management; Marketing; Supply Chain Management; or Human Resource Management.

Accounting Concentration............................................21 hrs

Required
ACC 355 Cost Accounting and Analysis
ACC 356 Asset Accounting
ACC 357 Equity Accounting
ACC 360 Federal Income Taxation I
ACC 457 Auditing

Plus two courses from the following
ACC 403 Controllership
ACC 416 Advanced Accounting
ACC 438 Federal Income Tax II
ACC 439 Not for Profit Accounting
FIN 402 Corporate Finance II
ITM 382 Advanced Computer Applications
ITM 383 Information Technology Security
LE 453 Commercial Transactions

The Accounting concentration provides the student with a foundation to pursue a career in accounting. Students considering taking the Certified Public Accounting (CPA) exam will be required to elect ACC 439, Not for Profit Accounting, in addition to the required Accounting coursework.

Finance Concentration.............................................18 hrs

Required
ACC 358 Financial Reporting
FIN 402 Corporate Finance II
FIN 407 Investment Fundamentals
FIN 447 Derivatives
IB 441 International Financial Management

Plus one course from the following
ACC 355 Cost Accounting and Analysis
BE 403 Business Conditions Analysis
FIN 443 Commercial Banking
FIN 445 Corporate Finance Models and Applications
FIN 456 Fixed Income Securities
FIN 484 Seminar: Financial Management
FIN 494 Research: Financial Management
IB 486 Seminar: International Business
ITM 382 Advanced Computer Applications

The Finance concentration offers flexibility for developing careers in investments, financial institutions and corporate finance. The program offers analytical rigor, theoretical knowledge and teaching methods that stress hands-on applications. Finance internships historically have proven to be among the most numerous and challenging available. The Finance Club interacts with the finance community and offers student membership in the national Financial Management Association.

General Business Concentration .........................15 hrs

The concentration in general business has been designed for students seeking a broad business background rather than a specialization in any one functional area of business. Coursework to complete the General Business concentration must be upper division business credits beyond the BBA core (excluding business internship). General Business students will not be permitted to combine this concentration with any other College of Business concentration.
General Business Concentration
with track in Pre-law.........................................................18 hrs

Required

LE 453  Commercial Transactions; Adv. Topics

Plus three courses from 300-400 level COB courses beyond the core. Each must be a different subject.

Plus two courses from the following
CRJ/PHIL 445  Contemporary Ethical Issues
CRJ/POL 302  The Theory of the Law
CRJ/POL 303  Justice
CRJ/POL 316  The American Judicial Process
CRJ/POL 413  American Constitutional Law
CRJ/POL 414  Civil Rights and Liberties
CRJ/POL/PHIL 335  Philosophy of Law
CRJ/POL/WGST 362  Women, Politics, and the Law
CRJ/PSYC/SOC 382  Social Psychology
CRJ/SOC 453  Sociology of Law
ECON 333  Anti-Trust and Regulation
ENST 350  Environmental Law
HPS 456  Health Care and the Law
PHIL/STS 312  Environmental Ethics
POL 415  Problems in Constitutional Law

Management Concentration.............................................18 hrs

Required

HRM 305  Human Resource Policy and Administration
MKT 402  Marketing Management
OB 401  Management Skills Development
OM 460  Supply Chain Management

Plus one course from the following
ACC 358  Financial Reporting
FIN 402  Corporate Finance II
IB 441  International Financial Management

And one course from the following
ITM 321  Database Systems I
ITM 382  Advanced Computer Applications

These required courses are designed to provide each student with the fundamentals necessary to enter and develop a career in administration. A student may supplement these foundation courses with elective courses from several disciplines or extend and deepen career preparation with more advanced work in a particular area of administration or analysis.

Information Technology Management Concentration ....21 hrs

Required

ITM 301  Business Application Programming
ITM 321  Database Systems I
ITM 331  Information Systems Development
ITM 351  Networking and Collaborative Computing
ITM 431  Database Systems II

Plus two courses from the following
ITM 302  Object-Oriented Programming
ITM 371  Managing Electronic Commerce Systems
ITM 382  Advanced Computer Applications
ITM 383  Information Technology Security

The Information Technology Management concentration is designed to prepare students for positions in system development, system analysis, database administration, networking, and as ITM specialists in user departments such as finance, human resource management, marketing and operations management. The concentration is also designed to prepare students to assume increasing levels of managerial responsibility as their career progresses.

Marketing Concentration.................................................21 hrs

Required

MKT 402  Marketing Management
MKT 454  Marketing Research

Plus five courses from the following, at least two must be MKT courses.

MKT 360  Marketing and Society
MKT 382  Understanding Customers
MKT 434  Sales Management & Personal Selling
MKT 436  Business to Business Marketing
MKT 455  E-tailing and Retailing
MKT 456  Advertising and Sales Promotion
MKT 457  Global Marketing
MKT 488  Marketing Seminar
MKT 498  Marketing Independent Research
ENT 400  Introduction to Entrepreneurship
OM 460  Supply Chain Management
ITM 371  Managing Electronic Commerce Systems
ITM 382  Advanced Computer Applications

Marketing covers the creation of new products and services, the distribution of products from suppliers and manufacturers down to the final consumers, the pricing of products, as well as advertising, sales, and other promotional initiatives. The marketing concentration provides students an opportunity to develop skills for careers in marketing management, advertising, sales, marketing research, new product development, retailing, international business, purchasing, management of nonprofit organizations, and general business management. Their functional visibility enables high-achieving marketing persons to be aptly recognized, promoted, and compensated. Marketing is also an excellent concentration for students who are considering starting their own business.

Supply Chain Management Concentration..........................21 hrs

Required

OM 460  Supply Chain Management
OM 465  Strategic Sourcing
OM 470  Analysis and Design of Supply Chains
OM 475  Supply Chain Logistics Management
OM 480  Enterprise Resource Planning

Plus two courses from the following
HRM 305  Human Resource Policy and Administration
MKT 436  Business to Business Marketing
OM 493  Operations Management Research

The concentration in Supply Chain Management (SCM) provides students with opportunities for careers in e-business, startups, manufacturing, high tech, service and consulting companies. Supply Chain Management encompasses a set of approaches utilized to efficiently integrate suppliers, manufacturers, warehouses and stores so that merchandise is produced and distributed at the right quantities, to the right locations, and at the right time, in order to minimize system-wide costs while satisfying service level requirements. SCM is an interdisciplinary field that emphasizes cross-functional links and seeks to manage those links to enhance a company’s competitive advantage.
Human Resource Management Concentration ............. 18 hrs

Required

HRM 305  Human Resource Policy and Administration

Plus three courses from the following

HRM 406  Staffing, Training & Development
HRM 407  Compensation & Performance Management
HRM 408  Management-Union Relations
OB 402  Organizational Change & Development

And two courses from the following

ECON 321  Labor in the American Economy
ECON 421  Economics of the Labor Sector
HRM 406  Staffing, Training & Development
HRM 407  Compensation & Performance Management
HRM 408  Management-Union Relations
HRM 485  Seminar: Human Resource Management
HRM 495  Research: Human Resource Management
OB 401  Management Skills Development
OB 402  Organizational Change & Development
OB 485  Seminar: Organizational Behavior
OB 495  Research: Organizational Behavior
PSYC 4305  Industrial/Organizational Psychology
PSYC 431  Organizational Entry
SOC 442  Sociology of Work

The Human Resources Management concentration courses are designed as fundamental preparation for positions in human resource management, industrial relations, or general management. A Human Resources Management concentration would also be valuable to students who are not contemplating a career in human resources, as these courses provide knowledge and skills for selecting, developing, motivating, retaining, evaluating, and directing employees - skills needed by managers in any technical or business domain.

Elective Courses

College-level courses in any discipline which bear UM-Dearborn or transferable academic credit. Additive credit courses do not carry college-level credit toward program. Courses below the 100 level and most EDF courses are additive credit. Non-business co-ops and their related seminars do not carry credit toward a BBA degree. College of Business business internships (BI 350 and 450) will satisfy elective credit.

Students must complete a minimum of 123 credits to earn the BBA degree.

Business Minors

Students pursuing any degree may wish to complement their academic program with a minor from the College of Business. As additional minors become available they will be posted on the Undergraduate website at cob.umd.umich.edu.

Accounting Minor ................................................................. 16 hrs

Prerequisites: MATH 104 or 105 and ACC 298 and ACC 299

ACC 355  Cost Accounting and Analysis
ACC 356  Asset Accounting
or ACC 358  Financial Reporting
ACC 360  Federal Income Taxation I

Plus two courses from the following

ACC 357  Equity Accounting
ACC 380/381  Accounting Information Systems
ACC 403  Controllershers
ACC 439  Not-for-Profit Accounting
ACC 457  Auditing

Finance Minor 15 hrs

Prerequisites: ACC 298, ECON 201 and 202, MATH 113 or 115, and DS 300

FIN 401  Corporate Finance I
FIN 402  Corporate Finance II
FIN 407  Investment Fundamentals

Plus two courses from the following

ACC 358  Financial Reporting
FIN 443  Commercial Banking: Function and Operations
FIN 445  Corporate Finance Models and Applications
FIN 447  Derivative Markets
FIN 484  Seminar: Financial Management
IB 441  International Financial Management

Information Technology Management Minor ............. 16 hrs

ITM 310/311  Information Systems in Management
ITM 321  Database Systems I
ITM 351  Networking & Collaborative Computing

Plus two courses from the following

ITM 301  Business Applications Programming
ITM 302  Object-Oriented Programming
ITM 331  Information Systems Development
ITM 371  Managing Electronic Commerce Systems
ITM 382  Advanced Computer Applications
ITM 383  Information Technology Security
ITM 431  Database Systems II

Management Minor ............................................................... 19 hrs

Not available to College of Business students

Prerequisites: ITM 310/311; and MATH 104 or 105 or 113 or 115

ACC 298  Financial Accounting
MKT 352  Marketing Principles and Policies
OB 354  Behavior in Organization

Plus three courses from at least two disciplines from ACC 299 and/or any 300-400 level courses offered in the College of Business.

Marketing Minor ............................................................... 15 hrs

MKT 352  Marketing Principles and Policies

Plus four courses from the following

MKT 360  Marketing and Society
or MKT 382  Understanding Customers
MKT 402  Marketing Management
MKT 434  Sales Management and Personal Selling
MKT 436  Business to Business Marketing
MKT 455  E-tailing and Retailing
MKT 456  Advertising and Sales Promotion
MKT 457  Global Marketing
ENT 400  Introduction to Entrepreneurship

Prerequisites for all courses must be met. Students not enrolled in the College of Business BBA program cannot elect more than 30 credit hours in courses offered by the College of Business. BBA students must complete 12 credits outside their major to earn a minor.
**Internship Certificate Program**

The College of Business Internship Program provides unparalleled opportunities for University of Michigan-Dearborn, College of Business students of all disciplines to enhance their academic experience by applying their education in actual business environments. Through an internship, students apply the skills and knowledge they have developed in the classroom, build a strong track record and enhance their relationship skills with business leaders in the community.

Students who participate in the program get the opportunity to:
- Apply classroom theory to actual work situations
- Test out their interests and better develop their long-range career plans
- Earn elective course credits toward their degree requirements
- Enhance their marketability after graduation
- Earn money
- Develop experience and maturity by strengthening their resourcefulness, problem-solving skills, self-confidence, self-discipline, and their sense of responsibility
- Potentially gain faster promotions once they are hired, than their non-internship experienced co-workers
- Develop human relations and communication skills through interaction in career settings

For the internships listed below, the following applies:
- Student must sign and comply with an Internship Contract.
- Successful completion of BA 300 is required before students can participate in the program.
- A minimum cumulative GPA of 2.7 is required to participate.
- During the internship, the student will be required to submit periodic updates via Blackboard and submit a final paper summarizing their internship experience.
- A grade of Satisfactory or E will be recorded on your transcript.
- Internship work commitments can be for one or multiple semesters and is negotiated between student and the employer.
- Internship Certificates will be awarded to students completing six hours of COB internship credit.

Students enrolled in BI 350, BI 450, or BI 470 are considered to be full-time by the College of Business. Students must get permission from the Internship office to elect up to two courses while on internship.

Students enrolled in BI 355, BI 455, or BI 475 are considered to be part-time by the College and are expected to manage their overall course load in a manner that is consistent with the employer’s needs and the needs of the student.

For the BBA degree, up to six internship credit hours can be applied to Elective Courses. Additional information regarding the Internship Program, please visit their website at: cob.umd.umich.edu/internship.

**Additional Academic Information**

**OFFICE OF STUDENT SERVICES**

The Office of Student Services helps students make informed decisions about their course of study. To provide this help, the Office offers students current and accurate information on College of Business academic policies and procedures, coordinates academic advising, provides necessary College forms and materials, and reviews students’ academic progress and performance at specified intervals.

The Office offers a systematic program of guidance and advising that attempts to guide and involve students from registration through graduation. Advising occurs in many forms and at various levels. All newly admitted students are required to attend an orientation advising session prior to their registration in the College. Pre-business students with 60 credits will be required to meet with their advisor each subsequent term until they have declared their major in the BBA degree program. In addition, BBA students, upon reaching senior class standing (85 credit hours), are required to schedule a senior audit advising appointment.

**CHANGES IN COURSE ELECTIONS: ADD, DROP, WITHDRAWAL**

**Add**

A student may add courses during the first two weeks of a full term or the first week of a half term or mini-term. Refer to the narrative of the Schedule of Classes for procedures and dates. Any exceptions for adding courses must be approved by the Academic Standards Committee of the unit in which the student is enrolled.

**Drop**

A student may drop courses during the first two weeks of a full term or the first week of a half term or mini-term. Courses may be dropped during the third through the ninth week of a full term, and through the fourth week of a half term. Refer to the narrative of the Schedule of Classes for procedures and dates. Students enrolled in a business internship (BI) course are not allowed to drop or withdraw from the course without approval from the Internship Director. Approval to drop courses under circumstances other than stated above will require the approval of the Academic Standards Committee of the College of Business. Petitions to drop a class after the ninth week of a full term or the fourth week of a half term will be considered only under extreme circumstances beyond a student's control, such as illness under the care of a physician which precludes class attendance for periods in excess of a week. Documentation will be required. Failure to receive approval will result in a grade(s) of E for the course or courses.

**Withdrawal**

Refer to this topic under Campus Policies and Procedures in the General Information section of this Catalog.

**COURSE PREREQUISITES**

The faculty has determined the appropriate prerequisites for each course. These prerequisites exist to make sure the student has the specific background necessary not only to minimally complete the course, but also to assure a broad enough background so the student fully benefits from the course. Students must observe all prerequisites in course planning.
GRADING SYSTEM
Refer to this topic under Campus Policies and Procedures in the General Information section of this Catalog.

PASS/FAIL GRADING OPTION
Students enrolled in the College of Business may elect courses with the pass/fail grading option subject to the following conditions:

This option may not be elected by students on academic probation.

Courses to be taken under this option must be specified at the time of registration or within the regular period for adding courses.

No course specifically required in the degree program of a student may be elected under this option. For example, the following courses cannot be elected on a pass/fail basis: Composition requirements, Calculus I, Economics 201 and 202; and all College of Business courses. Otherwise, any course which is offered by a unit of UM-Dearborn and which permits enrollment on a pass/fail basis may be elected under this option.

In a course offered exclusively on a pass/fail basis, a passing grade will be recorded as S (and not used in computing a student's grade point average), and a failing grade will be recorded as F (and used in computing grade point average). In a course offered with a pass/fail option, a reported grade of C- or above will be recorded as P, and a reported grade of below C- will be recorded as F. (Whether a P or F is recorded, the grade is not used in computing a student's grade point average.) A student may elect at most two courses on a pass/fail basis, whether at the student's option or not (excluding internship courses). Courses which are elected on a pass/fail basis in a manner that does not conform to these guidelines will not accrue toward the degree requirements of the student.

Changing from the pass/fail option to a letter grade or vice versa is not permitted after the first two weeks of a full term or after the first week of a half term.

ABSENCE FROM FINAL EXAMINATIONS
Refer to this topic under Campus Policies and Procedures in the General Information section of this Catalog.

INCOMPLETE COURSEWORK
It is the College of Business students’ responsibility to obtain a contract for any incomplete coursework request, regardless of which academic unit the courses is in. Refer to this topic under Campus Policies and Procedures in the General Information section of this Catalog.

ACADEMIC STANDING
Refer to this topic under Campus Policies and Procedures in the General Information section of this Catalog.

Good Scholastic Standing
To be in good scholastic standing, a student must have a 2.0 cumulative grade point average in all UM-Dearborn coursework, a 2.0 grade point average in their concentration, and in all courses offered by the College of Business.

Unsatisfactory Performance
The records of students enrolled in the College of Business are reviewed at the end of each term by the Academic Standards Committee. Two degrees of scholastic deficiency will be used by the committee to identify a student's unsatisfactory performance resulting from D and E grades:

probation withdrawal

Probationary status will be assigned to students who are not in good scholastic standing (cumulative, College of Business, and/or concentration grade point average below 2.0) but whose records indicate a possibility for removal of deficiencies by continued enrollment. Students are informed of their academic status and required to schedule an advising appointment.

Students whose academic records are so poor as to indicate little possibility of successful completion of their program will be required to withdraw from the College of Business. If the student is enrolled in coursework at the time the withdrawal decision is made, the withdrawal is effective immediately. The student will be informed, in writing, and that term's tuition assessment will be adjusted to zero.

D Grades
While any D grade (D-, D+, D-) is passing, it is not considered satisfactory performance. Any deficiency of grade points (below 2.0 overall average) resulting from one or more D grades must be made up before the student is restored to good standing. If the student receives a D grade in a course that is an important prerequisite for other courses, it is recommended that the course be repeated.

Credit is not transferable for courses in which D grades were earned in another college or university.

E Grades
Neither credit nor honor points are granted for a course in which a student receives a grade of E.

COURSEWORK AT OTHER INSTITUTIONS
After a student first enrolls in a degree program at UM-Dearborn, he or she may not ordinarily transfer credits from a course taken at another college or university to apply to the requirements of the UM-Dearborn degree. Exceptions to this policy require written permission from the College of Business Student Services Office prior to registration for the course(s).

REPEATING COURSES
Students may repeat a course up to two times for a total of three attempts. Regardless of whether it is higher or lower than the previous grade(s), the last grade assigned in a course will be used in computing the student’s cumulative grade point average and credits earned toward degree. Please refer to this topic under Campus Policies and Procedures in the General Information section of this Catalog.

STATEMENT ON ACADEMIC INTEGRITY
The College of Business holds in high value integrity in all relationships and activities. As the College develops students for professional business careers, it must demand not only academic excellence, but academic honesty as well. Students engaged in academic misconduct hurt themselves, their fellow students, the reputation of the College and society as a whole. As such, a culture of zero tolerance for academic misconduct has evolved. Certainly, building a classroom environment that discourages academic misconduct before it surfaces is the ideal. While this can eliminate
much of the opportunity for academic misconduct, it is not always sufficient. Consequently, policies that address academic misconduct must be developed. The College’s policy is as follows:

- All cases of academic misconduct in which a faculty member deems is serious enough to penalize must be reported in writing to the Associate Dean. The report should include the student’s name, course, date, brief description of the offense, and the grade sanction. As has historically been the case, the faculty member has the right to decide what the appropriate grade sanction is.
- The faculty member must inform the student of the decision, and provide him/her with a signed copy of the report.
- The student has the right to appeal the decision through existing College and University channels. The Associate Dean will retain all reports of academic misconduct that have been upheld. Decisions are upheld in two ways: when they are not challenged by the student or when the faculty case has been supported through an appeals process.
- All cases are strictly confidential. With the exception noted below, COB faculty, staff and/or the Hearing Board will not have access to this information.
- The Associate Dean will remand any case of repeat academic misconduct by a College of Business student to the School’s Academic Standards Committee for formal action. Except in the rarest of circumstances, two violations will result in expulsion from the College of Business.

PETITIONS FOR ACADEMIC ACTION

Each request to the faculty of the College of Business for special academic action relative to credits, requirements, standing, etc., should be entered on the appropriate petition form (available in the Student Services Office) and forwarded, with appropriate documentation, to the office for review by the Academic Standards Committee.

STUDENT ACADEMIC CONDUCT

A student in the College of Business or any student enrolled in a College of Business course will not engage in academic misconduct, including, but not limited to, plagiarism, cheating, fabrication, aiding and abetting dishonesty or falsification of records and official documents as defined in the Statement of Student Rights and Code of Student Conduct. Definitions of prohibited conduct, sanctions, procedures for applying sanctions, and appellate procedures are specifically set out in the Statement.

STUDENT PERSONAL CONDUCT

Any conduct which can be the grounds for civil or criminal lawsuit shall be subject to sanctions by the College of Business.

RIGHT OF APPEAL

Refer to this topic in the General Information section of this Catalog.

CHANGE OF DEGREE PROGRAM BETWEEN SCHOOLS

See Admission under Program Planning for UM-Dearborn Students. Information is available at the College Office.

CLASS STANDING

Refer to this topic under Campus Policies and Procedures in the General Information section of this Catalog.

GRADE REPORTS

Refer to this topic under Reporting of Grades in the General Information section of this Catalog.

REQUESTS FOR TRANSCRIPTS

Refer to this topic under Transcripts in the General Information section of this Catalog.

SECOND BACCALAUREATE DEGREE FROM THE COLLEGE OF BUSINESS

A second baccalaureate degree will be granted to those students who meet the following minimum requirements:

Satisfactory completion of the liberal arts distribution coursework required, the professional core coursework, and the concentration coursework required for the degree sought.

Satisfactory completion of at least 33 semester hours of coursework while enrolled in the College of Business as a post-baccalaureate student; at least 21 hours of this course-work must be in courses offered by the College of Business.

Achievement of at least a 2.0 grade point average in all post-baccalaureate coursework and in courses offered by the College of Business.

INACTIVE STUDENT STATUS

A student may be inactive for a maximum of two consecutive terms and maintain eligibility to register. A student who is declared inactive as a result of not being enrolled for any coursework during a 12-month period must apply for readmission to the College. A decision on readmission will be based upon the past performance of the student and enrollment space available in the College at that time. Upon readmission, a student who has been inactive will be required to satisfy any program requirements that have been added in his/her absence.

ACADEMIC HONORS

Dean's List

A student is honored by inclusion in the Dean's List if he or she meets two conditions:

1. has completed at least 12 credit hours toward a degree during the term, and
2. has achieved a 3.50 or better term GPA. The Dean's List is compiled after the fall, winter, and summer terms.

BBA Honors Program

The College of Business BBA Honors Program is designed to provide intellectual and academic challenges to students who have distinguished themselves from their peers. Enrollment in this Program is offered to those BBA students with a grade point average of 3.70 or higher. BBA students with a grade point average of 3.40 or higher may apply and be considered for the BBA Honors Program.

Beta Gamma Sigma

Beta Gamma Sigma is the national honor society for business schools accredited by AACSB-The International Association for Management Education. Membership in Beta Gamma Sigma is one of the highest scholastic honors that a student in the BBA program can achieve. It is based on outstanding scholastic achievement as measured by overall grade point average. Invitation for membership to Beta Gamma Sigma is extended to seniors in the top 10 percent of their class and juniors in the top seven percent of their class.
Honor Scholars

Every year, one honor scholar from each concentration is selected and recognized at the Annual Honors Convocation. Selection is made by the College of Business’s Scholarship Committee based on the students’ GPA and achievement of 90 credit hours or more toward degree.

Chancellor’s Medallion

The Chancellor's Medallion is awarded at each Commencement Exercise to UM-Dearborn graduates including one from the College of Business. The student is selected by the Scholarship Committee based on his/her quality of character, vitality, intellect, integrity and academic record. The December awardee is selected from students who were graduated in August and those who are to be graduated in December. The April/May awardee is selected from students who are to be graduated in April/May.

Graduation with Distinction

Students who are degree candidates in Business and have obtained a cumulative GPA of at least 3.20 but less than 3.60 are recommended for graduation "With Distinction." Such distinctions are noted on transcripts and diplomas.

Graduation with High Distinction

Students who are degree candidates in Business and have obtained a cumulative GPA of at least 3.60 are recommended for graduation "With High Distinction." Such distinctions are noted on transcripts and diplomas.

Course Offerings

Prerequisite courses indicated with an asterisk* may be taken concurrently.

Students not enrolled in the BBA degree program of the College of Business cannot elect more than 30 credit hours in courses offered by the College of Business.

Accounting (ACC)

COURSE OFFERINGS

ACC 298 Financial Accounting
3.000 Credits
Must be enrolled in one of the following Classes:

Senior
Sophomore
Graduate
Junior
Prerequisites: (MATH 104* or MATH 105* or MPLS 115 or MATH 113* or MATH 115* or MPLS 116)

The first course of a two-course sequence, to introduce accounting concepts, principles, financial statement preparation, and the uses of accounting information. Topics include fundamental concepts and procedures of financial accounting including income measurement, asset valuation, financial statement preparation and analysis, and uses of accounting information for decision making.

ACC 299 Managerial Accounting
3.000 Credits
Prerequisites: ACC 298
To introduce managerial accounting concepts and applications. Specific topics include: cost terminology, cost behavior, product costing systems, budgeting, standard costing systems and variance analysis, and cost allocation methods. To connect the materials in this course to concepts covered in the prerequisite course, ACC 299 begins with financial statement analysis. Discussion of ethics and globalization issues will be interwoven into the presentation of course materials.

ACC 304 Auditing & Forensic Examinations
3.000 Credits
Must be enrolled in one of the following Colleges:

Coll of Engineering & Comp Sci
College of Business
Coll of Arts, Sciences & Letters

Must be enrolled in one of the following Classes:

Senior
Junior
Prerequisites: ACC 298
To study forensic examination and investigation techniques including typical embezzlement and financial statement fraud scenarios, fraud risk factors, sources and uses of evidence, and interrogation and surveillance techniques. Specifically, the course presents an introduction to forensic accounting and fraud examination by studying the nature of fraud, how it is committed, and the motivations of those who defraud an organization, owners, and capital markets. Fraud detection includes the recognition of fraud symptoms and approaches to act on those symptoms. Fraud investigation includes the examination of a fraud act, methods used to conceal the act, and other methods specific to detect various types of fraud. Other course topics may include expanding assurance services, advanced internal control testing, and risk based investigations. Special attention will be given to the changing role and services offered by internal auditors and fraud examiners, and responsibility to the public.

ACC 355 Cost Accounting and Analysis
3.000 Credits
Prerequisites: ACC 299
To study the development, analysis and interpretation of accounting information for planning and controlling costs and revenues. Topics include: cost concepts, cost behavior, product costing systems, cost allocation systems, budgeting, standard costs and variance analysis and performance evaluation techniques.

ACC 356 Asset Accounting
3.000 Credits
Prerequisites: ACC 299
To study accounting theory and financial statement presentation underlying assets and income determination. Topics include: cash, marketable securities, receivables, inventories, plant assets, natural resources, intangibles and long-term investments.

ACC 357 Equity Accounting
3.000 Credits
Prerequisites: ACC 356
To study accounting theory and financial statement presentation underlying equities and income determination. Topics include: non-current liabilities, bonds, stockholders' equity, revenue recognition, accounting changes, dilutive securities and earnings per share, income tax allocation, pensions, leases and the statement of cash flows.
ACC 358  Financial Reporting
3. 000 Credits
Prerequisites: ACC 298 or (ACC 296 and ACC 297)

This course provides an intermediate level analysis of financial accounting focusing on recognition, measurement, and reporting issues associated with assets, liabilities and owner equity in conjunction with related income determination questions. The course is designed for financial statement information users who need a level of sophistication beyond an introductory level, yet not the complete technical expertise of a financial accountant. (YR)

ACC 360  Federal Income Taxation
3. 000 Credits
Prerequisites: ACC 299

To acquaint the student with the federal income tax, tax research, tax planning, and application of tax laws to taxable entities. The course will introduce the student to a broad range of tax concepts within a framework of financial accounting principles. Emphasis will be placed on the taxation of business entities, individual taxpayers, and the differences between financial and tax accounting. The use of technology to research problem assignments will be used to develop students' business communication and problem solving skills.

ACC 380  Accounting Information Systems
3. 000 Credits
Prerequisites: ACC 299 and ACC 381*

To study the concepts, theory, organization and application of accounting information systems and the flow of accounting data through transaction cycles. Topics include: the principles of accounting systems design, internal control analysis and development and the overall evaluation of networked computer-based accounting systems. Emphasis is placed on transaction processing systems, internal control systems, and computer-assisted decision making for unstructured problems by employing accounting databases.

ACC 381  Accounting Info Sys Lab
1. 000 Credits
Must be enrolled in one of the following Colleges:
College of Business
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior
Prerequisites: ACC 299 and ACC 380*

ACC 381 is a lab component of ACC 380. Students will complete weekly laboratory assignments to reinforce the concepts of ACC 380 to use information technology to solve business problems. In addition, the use of several common applications (e.g., Word, Excel, Access, and PowerPoint) will also be covered at the beginning to advanced levels.

ACC 403  Controllership
3. 000 Credits
Prerequisites: ACC 355 and (ACC 356 or ACC 358)

Controllership is intended to equip students with both theoretical and practical tools to manage all significant facets of production process costs, revenue streams, budgeting, and the related reporting system. The course focuses on topics such as managing "upstream" cost, cost structures, control tools, establishing standards, reporting processes, analysis to improve per unit profitability, and budgeting. The above topics will be used to develop resource plans to achieve management's objectives. (YR)

ACC 416  Advanced Accounting
3. 000 Credits
Prerequisites: ACC 357

To study selected advanced accounting topics which may include partnerships, business combinations, consolidated financial statements, multinational accounting and reporting, accounting for financial distress situations and regulation of accounting by the SEC. Students will not receive credit for both ACC 416 and ACC 516.

ACC 438  Advanced Federal Income Tax
3. 000 Credits
Prerequisites: ACC 360

To study the basic Federal income tax provisions relating partnerships, estates and trusts and corporations. Topics include: formation of the partnership, partnership distributions, tax-free incorporations, corporate distributions, redemptions, liquidations, reorganizations, accumulated earnings tax, net operating losses and S corporations.

ACC 439  Not-for-Profit Accounting
3. 000 Credits
Prerequisites: ACC 356

To study the principles and procedures of accounting for not-for-profit entities. Topics may include: state and local government financial accounting, financial accounting for selected other entities, managerial concepts and current issues. Students will not receive credit for both ACC 439 and ACC 539.

ACC 457  Auditing
3. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Graduate
Prerequisites: ACC 380 and (ACC 356 or ACC 358)

To study generally accepted auditing standards, internal control, principal audit objectives, the structure of audit programs, audit procedures, professional legal liability, ethical standards, statistical sampling techniques, the audit of EDP systems, auditor's report and management letters. Senior standing and 12 hours of Accounting coursework, exclusive of taxation, which includes at least 6 hours beyond ACC 299 taken in the School of Management.

ACC 480  Information Tech Eval & Control
3. 000 Credits
Prerequisites: (ACC 380 or MIS 310) and ACC 457*

The course emphasizes the control and evaluation of information systems to ensure accounting and management financial reporting and information processing objectives are accomplished. The course covers the theory of control evaluation, design of internal control, and the evaluation of internal controls in traditional and emerging information technology environments. Emphasis will be placed on current technologies in use by business organizations, emerging technologies, and the application of current profession guidance to evaluate existing and proposed information systems. (YR)
opportunities in business areas. Students will learn about emerging issues and career works. The course emphasizes hands-on, interactive learning. This interdisciplinary course introduces students to how business works. The course emphasizes hands-on, interactive learning. Students will learn about emerging issues and career opportunities in business areas.

Aviation Management (AVM) COURSE OFFERINGS

AVM 400 Aviation Grd Op/Qual Assurance
3.000 Credits
May not be enrolled in one of the following Degrees: Bachelor of Business Admin
This course will study the processing and management of passengers, cargo, aircraft, equipment, and facilities at airports; and the current and future trends for using a quality management system such as ISO 9000 in the aviation industry. Credit cannot be applied to College of Business degree programs. (F, W)

AVM 410 Aviation Bus, Fin & Law
3.000 Credits
May not be enrolled in one of the following Degrees: Bachelor of Business Admin
This course will discuss and examine airports as a business, the source of capital funds, revenues, legal requirements and issues that impact airports and airlines. Credit cannot be applied to School of Management degree programs. (W, S)

Business Administration (BA) COURSE OFFERINGS

BA 100 Business in a Changing World
3.000 Credits
May not be enrolled in one of the following Major fields of study:
Accounting
Management
This interdisciplinary course introduces students to how business works. The course emphasizes hands-on, interactive learning. Students will learn about emerging issues and career opportunities in business areas.

BA 300 Career Planning & Develop
1.000 Credits
Must be enrolled in one of the following Levels: Undergraduate
Must be enrolled in one of the following Colleges: College of Business
May not be enrolled in one of the following Major fields of study: Prebusiness
This course focuses on providing students with the necessary skills to achieve their career goals. Topics include: laying the groundwork to selecting a career, developing job search correspondence, developing job search techniques, developing a networking strategy, developing interviewing skills, asking for references and recommendations, and evaluating and negotiating job offers. Students will be required to develop a job skills portfolio which will include documentation evidencing the application of these skills.

BA 320 Proj Mgmt & Leadership Skills
3.000 Credits
Must be enrolled in one of the following Classes: Senior Junior
This course is intended to be a writing intensive problem based interdisciplinary course in project management skills. Topics covered will include benefits of project management, definition of a project, development of a project plan, execution of a plan, and management of change. Leadership skills will be emphasized as they relate to conflict resolution, motivating and coaching team members and listening to team members. Students will complete and present a project plan using the appropriate project management and presentation software.

BA 330 Managerial Communication
3.000 Credits
Must be enrolled in one of the following Classes: Senior Junior
Prerequisites: COMP 106 or COMP 220 or COMP 270 or CPAS 40
This course is designed to improve the student's ability to communicate effectively within an organizational setting. Communication theory, strategies, techniques and skills that are essential for success in the business environment will be examined. Specific objectives during the semester will be to examine and improve managerial writing ability and to enhance interpersonal communication skills.

BA 400 Corporate Responsibility
3.000 Credits
Must be enrolled in one of the following Levels: Graduate
May not be enrolled in one of the following Classes: Junior Sophomore Freshman
Prerequisites: COMP 280 or COMP 106 or COMP 220 or COMP 270 or CPAS 40
The focus of this writing intensive interdisciplinary course will be on examining the responsibility, if any, that business should have as part of the solution to the challenges of globalization. As part of this examination, the course will focus on corporate responsible behavior and its relationship to corporate governance and maximizing shareholder value. The ethical, business, and legal cases
as they relate to corporate responsible behavior in the areas of human rights, labor, environment, and corruption will be examined.

BA 480  Seminar: Bus Administration
1. 000 TO 3. 000 Credits
Must be enrolled in one of the following Classes:
Senior

To provide students with an opportunity for intensive study in current selected areas related to the research activities and/or professional activities of faculty members.

BA 490  Research: Bus Administration
1. 000 TO 3. 000 Credits
College of Business

To provide the advanced student with the opportunity to undertake a research project under the supervision of a faculty member. At least two weeks prior to registration in the term when such a course is to be elected, an interested student must submit to the dean of the school a written request for permission to elect a research course, on a form available in the school office. The request will include a description of the proposed research project. The dean will review the proposal with faculty members to ascertain availability of relevant faculty supervision and to establish appropriate credit.

Business Economics (BE)

COURSE OFFERINGS

BE 401  Managerial Economics
3. 000 Credits
Must be enrolled in one of the following Levels: Undergraduate
Must be enrolled in one of the following Classes: Senior
Undergraduate NCFD
Junior
Prerequisites: ECON 202 and ECON 201 and (MATH 104* or MATH 105*)

This intermediate level course presents price theory with business applications. Topics include consumption utility theory, production and cost theory, market structures and pricing strategies. Statistical estimation techniques of economic models are presented as well as modern elaborations of price theory. (YR)

BE 403  Business Conditions Analysis
3. 000 Credits
Prerequisites: ECON 201 and ECON 202

To study the basics and recent developments in aggregate economic theories and their applications from business perspectives. Topics include various sectors of aggregate demand and supply and related variables affecting economic performance and conditions.

BE 487  Seminar: Business Economics
1. 000 TO 3. 000 Credits
Must be enrolled in one of the following Colleges: College of Business
Must be enrolled in one of the following Classes: Senior

To provide students with an opportunity for intensive study in current selected areas related to the research activities and/or professional activities of faculty members. Permission of the College of Business

BE 497  Research: Business Economics
1. 000 TO 3. 000 Credits
Must be enrolled in one of the following Colleges: College of Business
Must be enrolled in one of the following Classes: Senior

To provide the advanced student with the opportunity to undertake a research project under the supervision of a faculty member. At least two weeks prior to registration in the term when such a course is to be elected, an interested student must submit to the dean of the school a written request for permission to elect a research course, on a form available in the school office. The request will include a description of the proposed research project. The dean will review the proposal with faculty members to ascertain availability of relevant faculty supervision and to establish appropriate credit. Permission of College of Business.

Business Internship (BI)

COURSE OFFERINGS

BI 350  Business Internship
3. 000 Credits
Must be enrolled in one of the following Colleges: College of Business
Prerequisites:

The internship provides full-time, paid business experience for students in a formal, monitored program. Participating employers hire students within parameters set by the internship program. Students are required to submit a report and other paperwork at the end of each work assignment and participate in an evaluative session with the internship staff.

BI 355  Part-Time Business Internship
1. 000 Credits
Must be enrolled in one of the following Degrees: Bachelor of Business Admin
Must be enrolled in one of the following Colleges: College of Business
Must be enrolled in one of the following Classes: Senior
Junior

The internship provides part-time, paid and unpaid business experience for students in a formal, monitored program. Participating employers hire students within parameters set by the internship program. Students are required to submit a report and other paperwork at the end of each work assignment and participate in an evaluative session within the internship staff. (A maximum of 6 credit hours of internship course work may be applied toward elective graduation requirements.)

BI 450  Business Internship II
3. 000 Credits
Prerequisites: BI 350

The internship provides full-time, paid business experience for students in a formal, monitored program. Participating employers hire students within parameters set by the internship program. Students are required to submit a report and other paperwork at the end of each work assignment and participate in an evaluative session with the internship staff.
BI 455  Part-Time Bus Internship II  
1.000 Credits  
Must be enrolled in one of the following Degrees:  
Bachelor of Business Admin  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: BI 355  

The internship provides part-time, paid and unpaid business experience for students in a formal, monitored program. Participating employers hire students within parameters set by the internship program. Students are required to submit a report and other paperwork at the end of each work assignment and participate in an evaluative session within the internship staff. (A maximum of 6 credit hours of internship course work may be applied toward elective graduation requirements.)

BI 460  International Business Intern  
1.000 TO 3.000 Credits  
Must be enrolled in one of the following Colleges:  
College of Business  
May not be enrolled in one of the following Major fields of study:  
Prebusiness  
Must be enrolled in one of the following Classes:  
Senior  
Junior  

The internship allows flexibility to engage in applied practical work experience outside of the United States, through paid or unpaid and full or part time work experiences. Participating organizations hire students within parameters set by the Internship Office throughout their experience. Students are required to submit reports, evaluation documents and participate in an assessment session with the internship staff. Students are responsible for their own legal, housing and transportation issues. This course will satisfy general elective credit.

BI 470  Business Internship III  
3.000 Credits  
Must be enrolled in one of the following Colleges:  
College of Business  
May not be enrolled in one of the following Major fields of study:  
Prebusiness  
Prerequisites: BI 450  

The internship provides full-time paid business experience for students in a formal, monitored program. Participating employers hire students within parameters set by the internship program. Students will have an increasing level of responsibility and application of academic knowledge, or students will be involved with application of new academic knowledge. Students are required to submit a report and other paperwork at the end of the work assignment and participate in an evaluative session with the internship staff.

BI 475  Part-Time Bus Internship III  
1.000 Credits  
Must be enrolled in one of the following Degrees:  
Bachelor of Business Admin  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: BI 455  

The internship provides part-time paid and unpaid business experience for students in a formal, monitored program. Participating employers hire students within parameters set by the internship program. Students will have an increasing level of responsibility and application of academic knowledge, or students will be involved with application of new academic knowledge. Students are required to submit a report and other paperwork at the end of each work assignment and participate in an evaluative session within the internship staff. (A maximum of 6 credit hours of internship course work may be applied toward elective graduation requirements.)

Business Policy and Strategy  

(BPS)  

COURSE OFFERINGS  

BPS 451  Strategic Management  
3.000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Prerequisites: FIN 401 and (MIS 310 or ITM 310 or ACC 380) and OB 354 and MKT 352 and OM 400  

This course is intended to be a comprehensive and integrative capstone course for the undergraduate business student. The central focus of this course is strategic management as opposed to the functional orientation that the student has experienced in most of his/her previous courses. Emphasis is on strategy formulation and implementation. Topics covered include the analysis of a company's external and internal environment; the development of a strategic vision and organizational objectives; the design of strategy at the functional, business, corporate, and international levels; and the creation of the organizational structure, operational policies and procedures, and reward systems.

Decision Sciences (DS)  

COURSE OFFERINGS  

DS 300  Quantitative Model and Analy I  
3.000 Credits  
Must be enrolled in one of the following Classes:  
Sophomore  
Senior  
Junior  
Prerequisites: (MATH 113 or MPLS 116 or MATH 115)  

To introduce fundamental concepts and methods in data analysis, probability, estimation, and statistical inference for application in management and management science. Topics include: basic probability theory, discrete and continuous random variables and distributions, sampling and data analysis, sampling distributions, estimation, confidence intervals and hypothesis testing, introductory regression analysis and utilization of statistical software packages.

DS 350  Quantitative Model and Analy II  
3.000 Credits  
Prerequisites: DS 300  

To continue from DS 300, during the first half of the course, the study of the concepts and methods in data analysis and statistical inference, as well as to introduce, in the second half of the course, basic linear optimization methods and models applied in the formulation, quantification, analysis, and solution of management decision problems. Topics include: simple and multiple linear regression, analysis of variance, sampling, correlation, formulation and solution of linear programming problems, transportation and transshipment models, utilization of software packages for statistical analysis and optimization.
DS 425 Optimization Modeling and Analysis
3.000 Credits
Prerequisites: DS 350

To continue, from DS 350, the study of optimization methods and models applied in the formulation, quantification, analysis and solution of management decision problems. Topics include: network analysis (including PERT-CPM), goal and multi-objective linear programming, integer programming, dynamic programming, Markovian decision processes, nonlinear programming.

DS 426 Introduction to Simulation
3.000 Credits
Prerequisites: DS 350

To introduce the concepts and methods of discrete-event simulation for the modeling and analysis of complex systems. Topics include: basic simulation modeling, modeling complex systems, simulation languages, selection of input probability distributions, random-number generators, generating random variable values, output data analysis for a single system, statistical techniques for comparing alternative systems, validation of simulation models, variance-reduction techniques, experimental design and optimization.

DS 489 Seminar: Decision Sciences
1.000 TO 3.000 Credits
College of Business
Must be enrolled in one of the following Classes:
Senior

To provide students with an opportunity for intensive study in areas related to the research activities and/or professional activities of faculty members. Permission of the College of Business

DS 499 Research: Decision Sciences
1.000 TO 3.000 Credits
Must be enrolled in one of the following Classes:
Senior

To provide the advanced student with the opportunity to undertake a research project under the supervision of a faculty member. At least two weeks prior to registration in the term when such a course is to be elected, an interested student must submit to the dean of the school a written request for permission to elect a research course, on a form available from the school office. The dean will review the proposal with faculty members to ascertain availability of relevant faculty supervision and to establish appropriate credit.

Entrepreneurship (ENT)

COURSE OFFERINGS

ENT 400 Intro to Entrepreneurship
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
Graduate

This course describes the entrepreneurial process and explores issues, concepts, and procedures involved in conceiving of, planning for, and creating a new business. It emphasizes the need for careful identification of products or services to be offered, specification of the target market(s), and the benefits the enterprise will provide to prospective customers, determining resource requirements, locating resource providers, and developing essential operating and administrative systems.

Students will identify an actual business venture they are considering, develop a business plan, and present that plan at the end of the term. (YR)

Finance (FIN)

COURSE OFFERINGS

FIN 200 Personal Finance
3.000 Credits
College of Business
May not be enrolled in one of the following Classes:
Junior
Senior
Graduate

To survey financial planning for the individual. Topics include: bank relations, credit, borrowing money, savings, budgeting, investments, stocks and bonds, mutual funds, insurance, real estate, annuities, social security, income taxes, wills, trusts and estate planning.

FIN 401 Corporate Finance
3.000 Credits
Prerequisites: (ACC 297 or ACC 298) and DS 300 and ECON 201 and ECON202

Introduces the financial goals of a corporation with particular attention to the creation of value. The time value of money and the valuation of financial and real assets receive particular attention. Additional topics include risk and return, market efficiency, short-term financial management, and the domestic and international economic environments.

FIN 402 Advanced Corporate Finance
3.000 Credits
Prerequisites: FIN 401

To provide the study of advanced topics, with particular attention to capital structure and dividend policy. Additional topics such as hedging, option pricing, agency theory, methods of financing, and corporate control will be presented. Global aspects of these topics will be addressed where appropriate. (YR)

FIN 407 Investment Fundamentals
3.000 Credits
Prerequisites: FIN 401

To study the current investment scene and analyze the characteristics of securities and the role in investment strategies. Topics include: securities markets, bonds, stocks, options, investment strategies, portfolio theories and management.

FIN 443 Com Bank: Functn and Operatns
3.000 Credits
Prerequisites: FIN 401

The topics to be included in the course are: commercial bank management, loan portfolio management and international banking. Specific aspects of the commercial banking environment, such as legislation and regulation, are also covered.

FIN 445 Corporate Fin Models and Apps
3.000 Credits
Prerequisites: FIN 402

This course focuses on the analysis of financial decisions by applying theories and models to practical problems and cases. The subject coverage includes capital budgeting and financing (cost of capital, capital structure, dividend policy, etc.), working
To provide students with an opportunity for intensive study in
currents elected areas related to the research activities and/or
professional activities of faculty members. Permission of the
College of Business

FIN 494  Research: Financial Mgt
1.000 TO 3.000 Credits
Must be enrolled in one of the following Colleges:
College of Business
Must be enrolled in one of the following Classes:
Senior
Prerequisites: FIN 401

To provide the advanced student with the opportunity to
undertake a research project under the supervision of a faculty
member. At least two weeks prior to the term when such a
course is to be elected, an interested student must submit to the
dean of the school a written request for permission to elect a
research course, on a form available in the school office. The
request will include a description of the proposed research
project. The dean will review the proposal with faculty members
to ascertain availability of relevant faculty supervision and to
establish appropriate credit. Permission of the College of
Business.

Human Resource Management
(HRM)

COURSE OFFERINGS

HRM 305  Human Resource Policy/Admin
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
May not be enrolled in one of the following Classes:
Sophomore
Freshman

To examine personnel policy making and administration relative
to the achievement of the objectives of the firm through the eyes
of general management. Topics include: recruitment and
selection, wage and salary administration training, evaluation,
discipline and industrial relation activities. Cases are analyzed.

HRM 406  Staffing, Training & Develop
3.000 Credits
Prerequisites: HRM 405

The course examines how to design, administer, and evaluate
employee staffing, selection, training, and development
activities that support organizational strategies. The course is
gearred both toward those who are or will be (a) HR managers
who will develop and administer staffing and training programs
and (b) managers in other functional areas who want to improve
their personal effectiveness in selecting and developing
employees. Key topics to be covered include: staffing strategy
and planning; job design and analysis; external and internal
recruiting; employee testing and assessment methods;
interviewing; measurement, validation, and decision-making
issues in selection; instructional design and delivery; methods
for developing employees and managers; career management;
laws and regulations affecting staffing and training; evaluation
methods for staffing and training activities; and issues in staffing
and training for an international workforce. (YR)
HRM 407  Compensation & Performance Mgt
3. 000 Credits
Prerequisites: HRM 405

The course examines how to design, administer and evaluate compensation and performance appraisal programs that support organizational strategies. The course is geared both toward those who are or will be (a) HR managers who will develop and administer pay and appraisal programs and (b) managers in other functional areas who want to improve their personal effectiveness in administering pay performance appraisals. Key topics to be covered include: merit and incentive pay, methods for internally valuing jobs, external labor markets and job pricing, design and administration of pay structures, employee benefits, compensating executives and expatriates, purposes and measurement methods for performance appraisals, performance criteria, rater processes and biases, performance reviews, and team-based pay and performance. (YR)

HRM 408  Management-Union Relations
3. 000 Credits
Prerequisites: HRM 405 and OB 354

To provide interpretation, insight, and understanding of the impact of management and union institutions on employee relations. Topics include labor union structure, aims, and operations, management objectives and functions, collective bargaining agreements, wage bargaining, industrial conflict and dispute settlements, labor relations legislation, and public intervention in management-union activities. A major portion of the course is devoted to a bargaining simulation exercise.

HRM 485  Seminar: Human Resource Mgmt
1. 000 TO 3. 000 Credits
Must be enrolled in one of the following Colleges:
College of Business
Must be enrolled in one of the following Classes:
Senior

To provide students with an opportunity for intensive study in current selected areas related to the research activities and/or professional activities of faculty members. Permission of the College of Business.

HRM 495  Research: Human Rsrch Mgmt
1. 000 TO 3. 000 Credits
Must be enrolled in one of the following Colleges:
College of Business
Must be enrolled in one of the following Classes:
Senior

To provide the advanced student with the opportunity to undertake a research project under the supervision of a faculty member. At least two weeks prior to registration in the term when such a course is to be elected, an interested student must submit to the dean of the school a written request for permission to elect a research course, on a form available in the school office. The request will include a description of the proposed research project. The dean will review the proposal with faculty members to ascertain availability of relevant faculty supervision and to establish appropriate credit.

Information Technology Management (ITM)

COURSE OFFERINGS

ITM 120  Fundamentals of Info Systems
3. 000 Credits
This course introduces the fundamental concepts of computer and information systems, and provides exposure to basic microcomputer application software. Topics include the function and architecture of computer hardware and software technologies, business application of computer and information technologies, and their organizational implications. Microcomputer applications include basics of operating systems, spreadsheet packages, graphics packages, and database management systems. Credit cannot be given for ITM 120 and any of MIS 120, CIS 121, 122, 123. (F, W, S)

ITM 301  Bus Application Programming
3. 000 Credits
This course is an introduction to basic concepts in computer programming with an emphasis on business applications. In the course, students will develop an understanding of fundamental programming logic and learn to use basic programming structures to solve business problems. Students are introduced to program development cycle and programming principles. The course covers principles of program design, programming structures, data types and structures, program testing, and debugging. Emphasis is placed on the implementation of programs with procedural structures, along with graphical user interfaces and event driven code. Upon completion, students should be able to design, code, test, and debug programs based on business requirement using a selected programming language. Credit cannot be given for both ITM 301 and MIS 301.

ITM 302  Object-Oriented Programming
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: ITM 301 or MIS 301
This course introduces the basic concepts of object-oriented programming with an emphasis on business applications. Students will develop an understanding of object-oriented modeling and learn to use object-oriented analysis and design techniques to solve simple business problems. Students are introduced to OO application development methodology and environment. The course covers principles of object-oriented programming, objects and classes, abstract data types, implementation of inheritance and polymorphism, database access, and graphic user interfaces. Upon completion, students should be able to design, code, test, and debug programs based on business requirements using a selected object-oriented programming language. Credit cannot be given for both ITM 302 and MIS 302.

ITM 310  Info Systems in Management
3. 000 Credits
Must be enrolled in one of the following Classes:
Sophomore
Junior
Senior
Co-requisites: ITM 311
This course provides an overview of information systems in the business world. It presents an organizational view of how to use information technology to create competitive firms, manage
global organizations, and provide useful products and services to customers. Topics include hardware, software, databases, telecommunications systems, the strategic use of information systems, the development of information systems, and social and ethical issues involved with information systems. Credit cannot be given for both ITM 310 and MIS 310.

**ITM 311 Mgmt Information Sys Lab**  
1.000 Credits  
Must be enrolled in one of the following Colleges: College of Business  
Must be enrolled in one of the following Classes: Sophomore  
Senior  
Junior  
Prerequisites: ITM 310*  
Co-requisites: ITM 310

ITM 311 is a lab component of ITM 310. Students will complete weekly laboratory assignments to reinforce the concepts of ITM 310 to use information technology to solve business problems. In addition, the use of several common applications (e.g., Word, Excel, Access, and PowerPoint) will also be covered at beginning to advanced levels.

**ITM 321 Database Systems I**  
3.000 Credits  
Prerequisites: ITM 310 or MIS 310 or ACC 380

This course examines the uses of and tools used to design and implement database systems in business. The goal of this course is to provide adequate technical detail while emphasizing the organizational and implementation issues relevant to the management of computerized data in an organizational environment. A class project involving the design and implementation of a database using a microcomputer database management system is performed. Topics include concepts of database systems, conceptual database design, logical database design, physical database design, database implementation, and data retrieval. Credit cannot be given for ITM 321, MIS 321 and CIS 421.

**ITM 331 Info Systems Development**  
3.000 Credits  
Must be enrolled in one of the following Levels: Undergraduate  
Prerequisites: (ITM 310 or MIS 310 or ACC 380) and (ITM 321* or MIS321)

This course provides a foundation in systems analysis and design concepts, methodologies, techniques, and tools. Students will learn to analyze organizational problems, define user requirements, design an information system, and plan an implementation. Methodologies covered will include the traditional life cycle approach as well as newer methodologies such as object-oriented approach, joint applications development (JAD), and prototyping. A semester-long project gives students the opportunity to apply these techniques to a business problem. This project will use technologies such as a computer-aided software engineering (CASE) tool, a database management system (DBMS), or a fourth-generation language. Credit cannot be given for both ITM 331 and MIS 331. (F, W, S)

**ITM 351 Networking and Collab Comp**  
3.000 Credits  
Prerequisites: ITM 310 or MIS 310 or ACC 380

This course provides an introduction to data communication, networks, distributed processing and collaborative computing. The course will study the technical and management aspects of computing networks and distributed systems supporting a wide range of organizational functions from organizational process to managerial strategic decision making, from personal to group to organizational computing. The applications of telecommunications in the work settings and management issues of telecommunications will be addressed. The social and organizational implications of the telecommunications technology are also examined. Credit cannot be given for both ITM 351 and MIS 351.

**ITM 371 Managing Elec Commerce Syst**  
3.000 Credits  
Prerequisites: ITM 310 or MIS 310 or ACC 380

This course focuses on technical and managerial issues that must be addressed for the successful deployment of information systems that use the infrastructure of the Internet to support electronic commerce. The course assumes an understanding of databases, computer networks and data transmission, and some experience in some programming language. Topics include business models for electronic commerce; standards, protocols and technical architecture of the Internet; wireless Internet; Internet security and cryptography; online payment systems; intelligent agents; legal, ethical, social and political issues in electronic commerce; globalization and electronic commerce; and electronic commerce applications. A class project involving the creation and management of an electronic commerce initiative is performed. (YR)

**ITM 381 Info Systems Project Mgmt**  
3.000 Credits  
Prerequisites: ITM 310 or MIS 310 or ACC 380

This course examines the management of information system projects in business organizations as well as human and organizational reactions to the changes brought about by new information systems. Topic include project planning, project controls, project reporting, information system projects and organizational change, factors affecting project success and failure, and project management software.

**ITM 382 Advanced Computer Applications**  
3.000 Credits  
Must be enrolled in one of the following Levels: Undergraduate  
Prerequisites: ITM 120 or MIS 120 or ITM 310 or MIS 310

The is an advanced course in computer applications, decision modeling, and business problem-solving. Topics will include Visual Basic for Applications (VBA), pivot tables, user interfaces, and application manipulation techniques for both spreadsheet and database applications. Complex formulae will be introduced to enable students to create sophisticated models for solving complex business problems. Credit cannot be given for both ITM 382 and MIS 382.

**ITM 383 Info Technology Security**  
3.000 Credits  
Prerequisites: ITM 310 or MIS 310 or ACC 380

This course provides a foundation of IT security, methodologies, techniques, and tools. The course will cover both the managerial and technical sides of IT security. Topics include: security costs and benefits, information assets, security threats, network attacks, security planning, incident response, disaster recovery, and training. Hands-on lab sessions, interactive lectures, discussions, and guest speakers will be used throughout the course.
ITM 431 Database Systems II 3.000 Credits
Prerequisites: ITM 321 or MIS 321

This capstone course will provide an opportunity for students to work as a member of a project team on a complex, real-world information systems project. The course examines the processes and tools used to develop, implement and administer database systems in business. A class project involving the development of a database using a client/server database management system is performed. Project management methodologies and tools used to manage complex information systems projects are also applied in the course.

ITM 491 Seminar: Manag Info Systems 3.000 Credits
Must be enrolled in one of the following Classes: Senior

To provide students with an opportunity for intensive study in current elected areas related to the research activities and/or professional activities of faculty members. Permission of the College of Business

ITM 492 Research: Manag Info Systems 3.000 Credits
Must be enrolled in one of the following Classes: Senior

To provide the advanced student with the opportunity to undertake a research project under the supervision of a faculty member. At least two weeks prior to registration in the term when such a course is to be elected, an interested student must submit to the dean of the school a written request for permission to elect a research course, on a form available in the school office. The request will include a description of the proposed research project. The dean will review the proposal with faculty members to ascertain availability of relevant faculty supervision and to establish appropriate credit. Permission of the College of Business.

International Business (IB) COURSE OFFERINGS

IB 441 International Financial Mgmt 3.000 Credits
Prerequisites: FIN 401

The objective of this course is to orient students to the increasingly internationalized financial environment in which business operates. As such, it attempts to broadly survey topics that frequently confront decision makers in financial management. These topics include the balance of payment mechanism, international capital flow, international monetary system and financial institutions, the mechanics of foreign exchange markets, international credit and capital markets, and financial problems of multinational business.

IB 446 International Business 3.000 Credits
Must be enrolled in one of the following Colleges: College of Business
Must be enrolled in one of the following Classes: Senior

Designed as a survey course, International Business attempts to broadly cover the essential elements of international business. Topics will include: business in an international environment, theories of international trade and investment, international finance, corporate policy and strategy, functional management and operations, and international business relations.

IB 486 Seminar: International Bus 1.000 TO 3.000 Credits
Must be enrolled in one of the following Colleges: College of Business
Must be enrolled in one of the following Classes: Senior

This course explores issues of major importance to international banking. Topics discussed include the global banking environment, the operations of international commercial and investment banks, regulatory issues affecting the global banking industry, and international money and foreign exchange markets. The role, successes and weaknesses of multinational institutions for economic development are discussed along with the recently proposed reform measure. Students taking this course should expect to learn about the various categories of international lending and loan syndication, asset-related and project financing, international retail and private banking. They will gain skills in the various lending techniques practiced in global banking, and will obtain a better grasp of the problems facing international banking institutions today as a result of the continuous globalization of financial markets and the ever increasing consolidation of the industry.

IB 496 Research: Int Business 1.000 TO 3.000 Credits
College of Business
Must be enrolled in one of the following Classes: Senior

To provide the advanced student with the opportunity to undertake a research project under the supervision of a faculty member. At least two weeks prior to registration in the term when such a course is to be elected, an interested student must submit to the dean of the school a written request for permission to elect a research course, on a form available in the school office. The request will include a description of the proposed research project. The dean will review the proposal with faculty members to ascertain availability of relevant faculty supervision and to establish appropriate credit. Permission of the College of Business.

Law and Environment (LE) COURSE OFFERINGS

LE 252 Personal Business Law 3.000 Credits
Must be enrolled in one of the following Classes: Senior
Sophomore
Graduate
Junior

This course is designed for the non-business student and includes business law topics of direct interest in the management of personal business affairs. Topics covered are: product safety regulation, contracts, personal property, real estate, mortgages, landlord-tenant, wills and estates, insurance, employer-employee relations, unfair business practices, and an introduction to the lawmaking and enforcement processes.
LE 452 The Legal Environment of Bus  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: COMP 106  
To introduce the management student to the functioning of legal systems and the effect of regulation on the business environment. Topics covered include an exploration of legal and ethical forces that impact the policy and practice of business in dealing with customers, employers, owners, and competitors.

LE 453 Commercial Trans: Adv Topics  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Junior  
Prerequisites: LE 452  
To study additional topics and complete the survey of basic business law. Topics covered are the sales, commercial paper, and secured transactions sections of the Uniform Commercial Code, and the study of property, estate planning, insurance, and liability of professionals.

Marketing (MKT)  
COURSE OFFERINGS

MKT 352 Mktr Principles and Policies  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites:  
An introductory course in the marketing activities associated with the free market system. The various components and functions of the marketing activities will be discussed in an integrated framework to provide insight into the role and scope of marketing in the business environment. The components and functions include: product development, pricing, promotion, distribution, consumer behavior and target market analysis.

MKT 360 Marketing and Society  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites:  
This course explores the social scientific theories on consumption and consumer culture as well as ethical/public policy issues related to consumption and marketing. Topics will include: economic and sociological perspectives on consumer culture; the origins of consumer tastes, trends, and fashions; the psychology of happiness and how personal well-being is influenced by wealth, consumption, and materialism; and public policy concerns related to marketing and advertising. (YR)

MKT 382 Understanding Customers  
3. 000 Credits  
Prerequisites: MKT 352  
Students in this course will improve their ability to understand what customers want right now, what they are going to want in the future, and how to adjust the marketing mix to build lasting relationships with consumers. To do this, students will learn more advanced models of market segmentation, targeting, and product positioning. This course utilizes concepts developed in the behavioral sciences (economics, marketing, psychology, sociology, and anthropology) and qualitative research techniques to understand and predict consumer behavior, and enhance students' ability to communicate effectively with target market segments.

MKT 392 Marketing Management  
3. 000 Credits  
Prerequisites: MKT 352 and ECON 201 and ECON 202  
A case-oriented course in which the understanding and insights of the various components and functions of marketing learned in MKT 352 are applied to practical situations. Marketing decisions will be evaluated and decided for a series of real-life cases in a number of areas including: general marketing, pricing, promotion, distribution and market research.

MKT 434 Sales Mgmt & Personal Selling  
3. 000 Credits  
Prerequisites: MKT 352  
The purpose of this course is to provide a general understanding of the practice of sales management. The course is designed to provide a basic framework of what sales managers actually do and how they solve problems they may encounter. Team presentations, case analyses and class discussion are used throughout the course to describe and explain the skills required of sales managers to achieve their objectives.

MKT 436 Business to Business Mktg  
3. 000 Credits  
Prerequisites: MKT 352  
To develop an understanding of that area of marketing that addresses the needs of the organizational customer in industry, government and institutions. The special challenges of the industrial market that confront the marketing manager and sales personnel are discussed in the course. Topics include: assessing industrial marketing opportunities, the organizational buying process, formulating industrial marketing strategy and evaluating industrial marketing strategy and performance.

MKT 446 Marketing Research  
3. 000 Credits  
Prerequisites: DS 300 and MKT 352  
To introduce marketing research concepts and techniques for collection, analysis and interpretation of data for marketing decisions. Topics include: problem definition, research design, questionnaire construction, sampling, attitude scaling, statistical analysis, presentation and evaluation of research findings. A field research project may be included.

MKT 455 E-tailing and Retailing  
3. 000 Credits  
Prerequisites: MKT 352  
This course introduces students to significant issues and analysis frameworks of 21st century retailing strategy and management, including retailing over the Internet, or "E-tailing." E-tailing and retailers are challenged to enhance customer experience, customer service and customer satisfaction. The students will learn the complexities and nuances of shopper behavior, shopper demographics, and how shopper decisions are influenced by store design, store environment, store atmosphere and merchandising, in brick-and-mortar and Internet stores. The course will elevate and enhance students' readiness and advancement in retail, brand management and marketing careers.
MKT 456  Advg and Sales Promotion  
3. 000 Credits  
Prerequisites: MKT 352  
A survey of the principles of advertising and sales promotion, which examines problems related to advertising management. Topics include: the scope of the advertising business, determination of objectives, strategy formulation, creating effective advertising programs, media planning with emphasis on integrating new media into the mix, the role of dealers in promotion, establishing the advertising budget, advertising research and the social and legal aspects of advertising in society.

MKT 457  Global Marketing  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Sophomore  
Senior  
Junior  
Prerequisites: MKT 352 and ECON 201 and ECON 202  
To provide students with an understanding of the components of marketing in the international environment. A working knowledge of the environment and the complex inter-relationship between different components of marketing will be developed. The focus is on evolving a logical and integrated framework for international marketing decisions.

MKT 488  Seminar: Marketing  
1. 000 TO 3. 000 Credits  
College of Business  
Must be enrolled in one of the following Classes:  
Senior  
To provide students with an opportunity for intensive study in current selected areas related to the research activities and/or professional activities of faculty members. Permission of the College of Business.

OM 300  Intro to Operations Management  
3. 000 Credits  
May not be enrolled in one of the following Classes:  
Freshman  
Prerequisites: MATH 104 or MATH 105 or MPLS 113  
Concerned with the strategic, tactical and short-term managerial issues relating to the efficient production of services and products. Examples of such issues are: manufacturing technology selection, facility location, strategic, tactical and operational planning and control and quality. (F. W. S)

OM 460  Supply Chain Management  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: OM 400  
This course explores the basic concepts of managing flow of materials in a typical enterprise supply chain. Students will examine a complete overview of material flow, for internal and external suppliers, to and from the enterprise.

OM 465  Strategic Sourcing  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Sophomore  
Freshman  
Junior  
Prerequisites: OM 300  
This course provides an in-depth analysis of the procurement process and supplier management with strong analysis placed on managing a supplier base for both products and services. Both theoretical and quantitative perspectives will be offered. In addition, topics will be addressed from strategic, financial and global perspectives.

OM 470  Analys & Desgn of Supply Chain  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: OM 400  
The purpose of this course is to equip the student with the ability and the tools necessary to recognize, analyze, and resolve significant problems in the operation of a supply chain system through the application of quantitative techniques. This course focuses on the strategic role of the supply chain, key strategic drivers of supply chain performance, and the tools and techniques for supply chain analysis.

OM 475  Supply Chain Logistics Mgmt  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Prerequisites: OM 400  
The overarching course objective is to develop an in-depth understanding of integrative managerial issues and challenges related to developing and implementing a firm's logistics strategy. Attention is directed to the logistical mission confronted by varied types of business organizations. Logistics is positioned as a value-adding process that achieves time and place synchronization of demand stimulation and operations fulfillment. Emphasis will be placed on challenges related to providing logistical support for procurement, manufacturing and market-distribution.

OM 480  ERP in SCM  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Sophomore  
Freshman  
Junior  
Prerequisites: OM 300 and ITM 310  

This course provides in-depth coverage of the role and impact of enterprise resource planning (ERP) concepts in managing a supply chain. The design of a supply chain information system (SCIS) and its various components is explored utilizing ERP concepts in matching supply and demand through the implementation of an integrated enterprise. Both theory and applications are emphasized in the course. Hands-on experience in the development of some components of SCIS utilizing ERP systems is provided.

OM 483 Seminar: Operations Management
1.000 TO 3.000 Credits
College of Business
Must be enrolled in one of the following Classes:
Senior
To provide students with an opportunity for intensive study in current selected areas related to the research activities and/or professional activities of faculty members. Permission of the College of Business.

OM 493 Research: Operations Management
1.000 TO 3.000 Credits
College of Business
Must be enrolled in one of the following Classes:
Senior
To provide the advanced student with the opportunity to undertake a research project under the supervision of a faculty member. At least two weeks prior to registration in the term when such a course is to be elected, an interested student must submit to the dean of the school a written request for permission to elect a research course, on a form available in the school office. The request will include a description of the proposed research project. The dean will review the proposal with faculty members to ascertain availability of relevant faculty supervision and to establish appropriate credit. Permission of the College of Business.

Organization Behavior (OB) COURSE OFFERINGS

OB 354 Behavior in Organization
3.000 Credit
Must be enrolled in one of the following Classes:
Senior
Junior
To study the nature and dynamics of behavior within organizations from an open system theory viewpoint, emphasizing determinants and consequences of individual, interpersonal, small group and intergroup behavior. Group discussions and role-playing techniques will be used to develop leadership skills and methods and to foster understanding of applied problems in organizational behavior.

OB 401 Management Skills Development
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: OB 354
This course provides an opportunity to study the concepts, problems and techniques of managing the human resources of an organization with emphasis on application and skill building.

OB 402 Organizational Change & Devlp
3.000 Credits
Prerequisites: OB 354
The purpose of this course is to introduce the theories, methods and practice of organizational change and development and to provide a conceptual framework for examples of planned change. Topics will include: processes of organizational change, intervention methods, sequencing and integration of change processes, change roles and role relations, change objectives and criteria for change.

OB 485 Seminar: Organizational Behavr
1.000 TO 3.000 Credits
College of Business
Must be enrolled in one of the following Classes:
Senior
To provide students with an opportunity for intensive study in current selected areas related to the research activities and/or professional activities of faculty members. Permission of the College of Business.

OB 495 Research: Organizational Behvr
1.000 TO 3.000 Credits
College of Business
Must be enrolled in one of the following Classes:
Senior
To provide the advanced student with the opportunity to undertake a research project under the supervision of a faculty member. At least two weeks prior to registration in the term when such a course is to be elected, an interested student must submit to the dean of the school a written request for permission to elect a research course, on a form available in the school office. The request will include a description of the proposed research project. The dean will review the proposal with faculty members to ascertain availability of relevant faculty supervision and to establish appropriate credit. Permission of the College of Business.
College of Engineering and Computer Science

Administration

Subrata Sengupta, PhD, Dean, College of Engineering and Computer Science
Keshav S. Varde, PhD, Associate Dean, College of Engineering and Computer Science
William I. Grosky, PhD, Chair, Department of Computer and Information Science
Ben Q. Li, PhD, Chair, Department of Mechanical Engineering
Pankaj K. Mallick, PhD, Director, Interdisciplinary Programs
Yu Lu Murphy, PhD, Chair, Department of Electrical and Computer Engineering
Armen Zakarian, PhD, Chair, Department of Industrial and Manufacturing Systems Engineering
Laura Beer, Student Advisor
Anthony DeLaRosa, Internship Coordinator
Jennifer Makas, Student Advisor
Reinaldo Pérez, Director of Academic Services
Sandra L. Scott, Administrative Assistant

Professors Emeriti

Awad, Selim Saad, PhD, Polytechnic Institute of Grenoble, Professor of Electrical and Computer Engineering
Chang, Chia-hao, PhD, Oregon State University, Professor of Industrial and Manufacturing Systems Engineering
Chen, Yubao, PhD, University of Wisconsin-Madison, Professor of Industrial and Manufacturing Systems Engineering
Cheng, John G., PhD, University of Tennessee, Professor of Mechanical Engineering
Chow, Chi L., PhD, DSc, University of London, Professor of Mechanical Engineering
El Kateeb, Ali, PhD, Concordia University, Associate Professor of Electrical and Computer Engineering
Grosky, William I., PhD, Concordia University, Associate Professor of Electrical and Computer Engineering
Guo, Jinhua, PhD, Yale University, Professor of Computer and Information Science
Kachhal, Swatantra K., PhD, University of Minnesota, Professor of Industrial and Manufacturing Systems Engineering
Kampfner, Roberto, PhD, University of Michigan, Associate Professor of Computer and Information Science
Kang, Hong Tae, PhD, University of Alabama, Assistant Professor of Mechanical Engineering
Kaufman, Herbert, PhD, University of Windsor, Lecturer of Electrical and Computer Engineering
Kim, Sang-Hwan, PhD, North Carolina University, Assistant Professor of Industrial and Manufacturing Systems Engineering
Kim, Taehung, PhD, Texas A & M, Assistant Professor of Electrical and Computer Engineering
Klungle, Roger G., DSc, George Washington University, Lecturer of Industrial and Manufacturing Systems Engineering
Knight, James W., PhD, Ohio State University, Associate Professor of Industrial and Manufacturing Systems Engineering
Kridli, Ghassan, PhD, University of Missouri-Columbia, Associate Professor of Industrial and Manufacturing Systems Engineering
Lakshmanan, Sridhar, PhD, University of Massachusetts, Amherst, Associate Professor of Electrical and Computer Engineering
Lee, Cheol, PhD, Purdue University, Associate Professor of Industrial and Manufacturing Systems Engineering
Lenox, Harry, MS, University of Michigan, Clinical Professor of Engineering
Li, Ben Q., PhD, University of California, Berkeley, Professor of Mechanical Engineering
Li, Xiangyang, PhD, Arizona State University, Associate Professor of Industrial and Manufacturing Systems Engineering
Little, Robert E., PhD, University of Michigan, Professor of Mechanical Engineering
Liu, Yung-Wen, PhD, University of Washington, Assistant Professor of Industrial and Manufacturing Systems Engineering
Ma, Di, PhD, University of California, Davis, Assistant Professor of Computer and Information Science

Faculty

Akingbemhin, Kiumi, PhD, Wayne State University, Professor of Computer and Information Science
Argento, Alan, PhD, University of Michigan, Professor of Mechanical Engineering
Malik, Hafiz, PhD, University of Illinois At Chicago, Assistant Professor of Electrical and Computer Engineering
Mallick, Pankaj K., PhD, Illinois Institute of Technology, Professor of Mechanical Engineering
Maxim, Bruce, PhD, University of Michigan, Associate Professor of Computer and Information Science
Medjahed, Brahim, PhD Virginia Tech, Assistant Professor of Computer and Information Science
Mei, Carole, PhD, University of Auckland, Associate Professor of Mechanical Engineering
Meitzler, Allen H., PhD, Lehigh University, Lecturer of Electrical and Computer Engineering
Mi, Chunting Chris, PhD, University of Toronto, Assistant Professor of Electrical and Computer Engineering
Miller, John, PhD, University of Toledo, Associate Professor of Electrical and Computer Engineering
Mohanty, Pravansu, PhD, McGill University, Associate Professor of Mechanical Engineering
Murphey, Yi Lu, PhD, University of Michigan, Professor of Electrical and Computer Engineering
Natarajan, Narasimhamurthi, PhD, University of California, Berkeley, Associate Professor of Electrical and Computer Engineering
Orady, Elsayed A., PhD, McMaster University, Professor of Industrial and Manufacturing Systems Engineering
Ostrom, Terry, PhD, University of Michigan, Lecturer of Mechanical Engineering
Ratts, Eric, PhD, Massachusetts Institute of Technology, Associate Professor of Mechanical Engineering
Reyes-Villanueva, German, PhD, University of Liverpool, Assistant Professor of Mechanical Engineering
Richardson, Paul C., PhD, Oakland University, Associate Professor of Electrical and Computer Engineering
Rodrick, David., PhD, University of Louisville, Assistant Professor of Industrial and Manufacturing Systems Engineering
Selviya, Naecm, PhD, Florida Atlantic University, Assistant Professor of Computer and Information Science
Sengupta, Subrata, PhD, Case Western Reserve University, Professor of Mechanical Engineering
Shamim, Tariq, PhD, University of Michigan, Associate Professor of Mechanical Engineering
Shaout, Adnan, PhD, Syracuse University, Professor of Electrical and Computer Engineering
Shen, Jie, PhD, University of Saskatchewan, Assistant Professor of Computer and Information Science
Shim, Taehyun, PhD, University of California-Davis, Associate Professor of Mechanical Engineering
Shridhar, Malayappan, PhD, University of Aston, Professor of Electrical and Computer Engineering
Song, Yuqing, PhD, SUNY Buffalo, Assistant Professor of Computer and Information Science
Soto, Ciro, PhD, Michigan State University, Lecturer of Electrical and Computer Engineering
Stevenson, Randy, PhD, University of Michigan, Lecturer of Electrical and Computer Engineering
Steffka, Mark, MS, Indiana Wesleyan University, Lecturer of Electrical and Computer Engineering
Talty, Timothy J., PhD, University of Toledo, Lecturer of Electrical and Computer Engineering
Tolkacz, Joseph, MS, University of Michigan, Lecturer of Electrical and Computer Engineering
Tsui, Louis, PhD, University of Michigan, Associate Professor of Computer and Information Science
Ulgen, Onur, PhD, Texas Technological University, Professor of Industrial and Manufacturing Systems Engineering
Varde, Keshav S., PhD, University of Rochester, Professor of Mechanical Engineering
Wang, Shengquan, PhD, Texas A & M University, Assistant Professor of Computer and Information Science
Watta, Paul, PhD, Wayne State University, Associate Professor of Electrical and Computer Engineering
Xiang, Weidong, PhD, Tsinghua University, Assistant Professor of Electrical and Computer Engineering
Xu, Zhiwei, PhD, Florida Atlantic University, Assistant Professor of Computer and Information Science
Yoon, David, PhD, Wayne State University, Associate Professor of Computer and Information Science
Zakarian, Armen, PhD, University of Iowa, Professor of Industrial and Manufacturing Systems Engineering
Zhang, Yi, PhD, University of Illinois at Chicago, Professor of Mechanical Engineering
Zhao, Dongming, PhD, Rutgers University, Associate Professor of Electrical and Computer Engineering
Zhu, Qiang, PhD, University of Waterloo, Associate Professor of Computer and Information Science
Zikanov, Oleg, PhD, Moscow State University, Associate Professor of Mechanical Engineering

**Engineering: The Profession**

Engineers are the link between scientific knowledge and practical applications. Engineers combine various roles and functions in their job. What are engineers?

- Engineers are science-knowledgeable men and women who use mathematics, chemistry, and physics for an applied purpose.
- Engineers invent, design, or improve products that people want to buy or use.
- Engineers are business people who design, manufacture, or sell a technical product or service to customers, taking into consideration safety, cost, quality, reliability, societal impact, and ease of use.
- Engineers are planners and integrators who bring together skills and knowledge from many disciplines and fields for some technical purpose or application.
- Engineers are creative problem-solvers and doers: they make decisions and get things done in a combined science/technical/business/applied profession.
- Engineers analyze problems, develop design solutions, and pay close attention to detail.
- Engineers interact with a variety of people, including clients, scientists, other engineers, technicians, managers, and government officials.
- Engineers are interested in how and why things work and like practical challenges.
- Successful engineers are known for their analytical, imaginative, and creative skills, for using common sense, for being team players, for being able to pick up new knowledge and skills quickly, and for their commitment to continue to improve and learn.

Computer Science: The Profession

Computer and information scientists offer expertise in the effective and efficient use of computers for tackling a broad spectrum of practical challenges, usually in a team environment. Computer and information science includes the following subspecialties: operating systems, compilers, computer graphics, computer game design, computer networks and network administration, security, enterprise computing technologies, information and database systems and database administration, information retrieval, artificial intelligence and machine learning, robotics, theoretical computer science, programming languages, software engineering and web technologies. Software engineering is the area within computer science that is concerned with the theoretical and practical aspects of the detailed design, building, testing, modification, optimization, and maintenance of large, high quality, software systems for a wide range of applications across society. Software engineers analyze users’ needs and work as part of a core team to design, create, and implement high quality and cost effective new software, computer applications, and utility programs. A core team may be composed of software engineering, manufacturing, design, management, and marketing people who work together until the software product is released and implemented.

The College of Engineering and Computer Science offers undergraduate degrees in two computer science fields: Computer and Information Science and Software Engineering.

Career Choice

What can help students to decide to pursue a career in engineering or computer science? Some of the clues are an interest in and successful completion of science, mathematics, and computer science courses; a desire and ability to investigate the “why” as well as the “how” of things; and an interest in the creative development of devices or systems that meet specific needs. Not all of these signs or interests will fit everyone, but they can be used as a guide.

The College of Engineering and Computer Science’s Student Records and Advising Office has online information about careers in engineering and computer science and a number of links to very informative external web sites at: engin.umd.umich.edu/SRA/links.php

Individuals with interests in using science and mathematics to benefit others will find that engineering and computer science professions offer a wide variety of career and employment choices and opportunities.

Admissions counselors at UM-Dearborn and academic advisors of the College of Engineering and Computer Science are glad to talk with students about career choices or choosing the school that best suits their interest and abilities. Prospective students are welcome to contact the College of Engineering and Computer Science by phone or personal visit and to read the information on the College’s Web page: engin.umd.umich.edu.

Educational Goals and Programs

The mission of the College of Engineering and Computer Science is to be the leader in providing quality undergraduate and graduate programs in an environment integrated with engineering practice, research, and continuing professional education, in close partnership with the industrial community.

The College of Engineering and Computer Science’s (CECS) educational objective is to prepare its students to take positions of leadership commensurate with their interests and abilities in a world where science, engineering, and human relations are of basic importance.

Programs of study integrate fundamental mathematical and scientific theory with experiments, advanced analysis, and design practice to produce the coherent educational preparation required of professional engineers and computer scientists.

Both the CECS academic curriculum and co-operative placements are planned to prepare students to become practicing engineers or computer scientists, administrators, or investigators. The knowledge, skills, and discipline gained from the CECS degree programs are broad and fundamental and also constitute excellent preparation for other careers, such as law and medicine.

Undergraduate Requirements

The College of Engineering and Computer Science (CECS) offers undergraduate programs leading to the Bachelor of Science in Engineering (BSE) degree in the following fields: bioengineering, computer engineering, electrical engineering, industrial and systems engineering, manufacturing engineering, and mechanical engineering. (Students in these BSE programs may also choose to earn a concurrent second degree in engineering mathematics.) The College also offers an undergraduate degree program leading to a Bachelor of Science (BS) in Software Engineering and a Bachelor of Science in Computer and Information Science (CIS). The CIS program has two concentrations: computer science and information systems. (Students in these BS programs may also choose to earn a concurrent second degree in CIS mathematics.)

The minimum credit-hour requirement for the degree programs in engineering is 125 to 128 semester credits, depending on the specific major. Participation in the engineering and computer science Cooperative Education Program requires an additional minimum of six hours of co-op courses. The BS in Software Engineering or in Computer and Information Science requires a minimum of 120 semester credits of course work.

The first two years can be considered pre-professional study covering foundation subjects, and the last two years are the specialized, professional phase of the degree program.

The scholastic requirements for graduation are given under “Requirements for Graduation” section of this Catalog. For the detailed requirements specified by the College of Engineering and Computer Science for each of its undergraduate programs, see the sections for each program below.

Students have the option of earning a minor in addition to their major. CECS offers a minor in Computer and Information Science. The College of Arts, Sciences, and Letters and the College of Business offer various minors of interest to CECS students. See the relevant sections of this Catalog.

The CECS Student Records and Advising (SRA) Office, 2000 Heinz Frechter Engineering Complex (HPEC), (313) 593-5510, uginfo@engin.umd.umich.edu is the primary contact for undergraduate students for academic advising and for information about all undergraduate degree programs of the College of Engineering and Computer Science.

More information about CECS and its programs is available through the College’s home page: engin.umd.umich.edu.
Admission to the College of Engineering and Computer Science

Admission requirements for entering as a freshman or a transfer student are described under the Admission Requirements, General Information section of this Catalog.

Admission to the College of Engineering and Computer Science (CECS) follows the traditional selective admission standards of the University of Michigan-Dearborn. Students are admitted from high schools directly to the CECS as freshmen or as transfer students from other colleges or universities.

A student admitted to the University of Michigan-Dearborn is expected to elect all courses at the UM-Dearborn. Only under exceptional circumstances is approval granted to elect a course outside the UM-Dearborn. See the On-Campus Courses rule, under Important Academic Policies.

Admission as a Transfer Student

The University of Michigan-Dearborn admits students as transfers who have completed course work at a community college or at another four-year school.

Transfer students can enter at or before the sophomore/junior level, and their preparatory work should have included foundation subjects in the areas of mathematics, science, and pre-engineering or computer science in order to begin their professional course work. Generally, the mathematics, science, or pre-engineering/pre-computer science programs of other engineering schools, of community colleges, and of liberal arts programs provide an appropriate preparation for admission to the College of Engineering and Computer Science.

Transfer guides for students interested in transferring into CECS from nearby colleges are available online: engin.umd.umich.edu/SRA/prospective.php

Advisors at UM-Dearborn are available to assist prospective students by recommending a specific program of courses at a two-year institution to be taken prior to transfer.

Transfer of Credits

An appraisal of the previous record of a student transferring to the University of Michigan-Dearborn is made at the time of admission to determine the number of credits that apply toward the degree program specified by the applicant. In general, credit will be given for courses taken at accredited institutions in which the student earned at least a C grade and provided that the courses can appropriately be applied as meeting requirements of the student’s chosen degree program. Credit is not transferable for courses in which grades less than C or equivalent was earned in another institution. Irrespective of the number of credits the student has previously earned, a student must complete at least 30 credits of upper-level course work in their major at the University of Michigan-Dearborn in order to qualify for a University of Michigan-Dearborn degree.

CECS Student Records and Advising (SRA) Office

The College of Engineering and Computer Science (CECS) Student Records and Advising (SRA) Office is the primary contact for undergraduate students for academic advising and for information about all undergraduate CECS programs. The SRA Office provides the following services to CECS undergraduate students:

- academic orientation of freshmen and transfer students
- academic advising of new and continuing students
- evaluation of transfer credits, admission of cross-campus transfer applicants
- coordination of registration, drops, adds, and total withdrawals
- handling of petitions and individual requests
- degree audits of students’ credits toward graduation
- placement and release of academic holds
- handling of academic (probationary) actions and petitions
- readmission of previously enrolled students
- final certification of degree completion.

The SRA Office is located in room 2000 of the Heinz Prechter Engineering Complex (HPEC) Building (phone: (313) 593-5510, FAX: (313) 593-9967). The Undergraduate Student Handbook, issued by SRA, is available on-line at engin.umd.umich.edu/SRA/pdf/Student_Handbook.pdf

Important Academic Policies

The front section of this UM-Dearborn Undergraduate Catalog and the campus’ Registration and Records web page, umd.umich.edu/policies_umd/ provide information about university policies.

Listed below are some important policies affecting College of Engineering and Computer Science students. The CECS Undergraduate Student Handbook also has important information: engin.umd.umich.edu/SRA/pdf/Student_Handbook.pdf

The English Composition Placement Exam is required of all students upon entering UM-Dearborn. More information at umd.umich.edu/colhum/writing/placement.html

The Mathematics Placement Exam is required of all freshmen before they register for a mathematics course. All transfer students expecting to take pre-calculus or calculus I are also required to take the mathematics placement exam.

CECS students must take and pass the mathematics course into which they place. CECS students who register for a mathematics course other than the course into which they placed will be disenrolled from that course.

The Admission and Orientation Office (313) 593-5100 schedules placement exams.

Prerequisite courses and co-requisite courses: A student needs to have the proper prerequisites to enroll in a course and cannot enroll in a course when one or more of its prerequisites need to be repeated because of probation. This is monitored by the College.

Grades: All courses required for CECS students must be taken for a grade. Grades count as part of a CECS student’s grade point average (GPA), except for the grades in ‘additive credit’ courses (EDF courses, or courses numbered 001 to 099).

Pass/Fail courses: CECS students cannot take required courses on an audit or Pass/Fail basis. Any course audited or taken Pass/Fail will not count towards the degree, even as a general elective. Pass/Fail or non-credit courses may be taken only for non-degree credit.
Non-Credit Courses: Students cannot use non-credit courses towards their degree. A list of non-credit courses is found in the CECS Undergraduate Student Handbook given to students during academic orientation and also available online: engin.umd.umich.edu/SRA/pdf/Student_Handbook.pdf.

The D- Repeat Rule: Any course in which a CECS student earns the grade of D- does not carry degree credit. Any course in which a CECS student receives a D- must be repeated and must be passed with a higher grade in order for the course to count toward a CECS degree. This rule applies to all CECS students.

The On-Probation Repeat Rule: It is a CECS requirement that if a student’s overall cumulative GPA, CECS cumulative GPA, or both, drops below 2.0, any required courses with grades of C- or below taken during that semester must be repeated.

A student on academic probation who earns a grade of C- or below in a course that is a prerequisite course for another course, cannot elect the course without first repeating the prerequisite course. A student who elects a course without the proper prerequisites, or who needs to repeat the prerequisite course because of probation, will be disenrolled from the course.

On-Campus Courses Rule: The CECS degree programs are designed to prepare professional engineers and computer scientists, to meet accreditation criteria, and to uphold the University’s exacting educational standards. To ensure the integrity of its programs, the University has determined that once a student is admitted to UM-Dearborn, permission to take courses at another institution will very rarely be granted.

Course Registration

CHANGES IN COURSE ELECTIONS: ADD, DROP, WITHDRAWAL

Please refer to the General Information section of this Catalog and the CECS Undergraduate Student Handbook available at engin.umd.umich.edu/SRA/pdf/Student_Handbook.pdf for further information on changes in course elections.

CECS has a policy of required advising for undergraduate students. CECS students meet with their assigned advisor each term prior to registering for classes for the following semester. Upon completion of 44 credit hours, students are assigned a faculty member as their advisor.

ADDING COURSES

Courses that extend over the full term must be elected during the two-week period beginning on the opening day of classes for the term. For seven-week half terms, or other scheduled terms shorter than a normal full term, course elections must be made during the first week of classes.

Revising a course election from for-credit to audit (or vice versa), election of the Pass/Fail Option, or changes from Pass/Fail to graded, must occur within the time periods stated for “Adding New Courses.”

DROPPING COURSES

Students may drop courses that extend over the full term without academic penalty during the nine-week period beginning on the first day of classes of the term. For seven-week terms, or other scheduled terms shorter than a normal full term, this period will be four weeks. A final grade of E will be recorded for an unofficially dropped course.

In the event of extraordinary circumstances realized subsequent to the stated four- or nine-week periods, a student may petition to drop a course after the regular drop deadline. Late drop petitions, like other petitions, are handled by the CECS Student Records and Advising Office (2000 HPEC). A late drop petition will be considered only for important medical or other compelling reasons and not merely because a student is doing poorly in a course.

Students must contact an SRA advisor in person to discuss a late drop petition since supporting documentation is always required. Students continue to be registered for a course, and should continue to attend it and do all the assignments, unless and until their late drop petition is approved by the CECS Student Records and Advising Office.

TOTA LLY WITHDRAWING FROM THE TERM

Total Withdrawal: Students may withdraw from all their courses for a given semester up to the last day of classes (NOT the last day of exams). CECS students who are totally withdrawing (from all classes) always need the signature of a CECS SRA advisor (Room 2000 HPEC).

Incomplete Coursework (I) or Absence from Final Examinations (X)

A CECS student whose term course work (other than the final examination) is incomplete in a minor way may, upon timely completion and approval of the I Contract Form, be granted the privilege of completing the course work within a five-week period, beginning on the first day of classes of the immediately following term. If granted this privilege, a mark of I will be recorded on the transcript.

A student who is unavoidably absent from a final examination may, by approval from the course instructor, be granted the privilege of making up the examination within a five-week period, beginning on the first day of classes of the immediately following term. If granted this privilege, a mark of X will be recorded on the transcript.

Failure to complete the required work, or to make up the final examination, within the specified time, or the denial of this privilege for an I or an X by the instructor, will result in a grade of F for the final grade.

The I Contract form is obtainable from the CECS Records and Advising Office, 2000 HPEC. The I or X will remain on the transcript even after the official final letter grade is assigned.

In extenuating circumstances an extension beyond the stated period may be requested by means of a petition submitted to the CECS Records and Advising Office (2000 HPEC), which must also be approved by the instructor. However, such arrangements for completing the work must be made within the above mentioned five-week period.
Failure to complete the required work or examination within the specified time will result in a mark of I or X being automatically converted to a permanent E or XE in the transcript, which will count as an E in the student’s grade point average.

## Grading System

The following (4.0) grading system is used by the CECS:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Honor Points</th>
<th>Letter Grade</th>
<th>Honor Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.0</td>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>A</td>
<td>4.0</td>
<td>C-</td>
<td>1.7</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
<td>D+</td>
<td>1.4</td>
</tr>
<tr>
<td>B+</td>
<td>3.4</td>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
<td>D-</td>
<td>0.7</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
<td>E</td>
<td>0.0</td>
</tr>
<tr>
<td>C+</td>
<td>2.4</td>
<td>UE</td>
<td>0.0</td>
</tr>
</tbody>
</table>

The honor points earned in a course are calculated by multiplying the honor points assigned for the grade by the credit hours for the course; e.g., an A grade in a three credit hour course yields 12 honor points. The semester grade point average is calculated by dividing the total honor points earned in a semester by the credit hours elected in that semester. The overall cumulative grade point average is obtained in the same manner with all courses elected at UM-Dearborn included in the calculation.

If any courses were repeated in the Fall 2005 or subsequent semesters, the most recent grade will be used in computing the grade point average, and a maximum of two previous grades in the same course will be excluded from calculation of the grade point average. A given course may be taken a maximum of three times.

Courses in which a mark of S, P, Y, F, or NC is received are not included in grade point average calculations.

A CECS student with a class rank of junior or senior and who is in good scholastic standing may, with the approval of the College, elect a non-CECS course that is not a part of the degree requirements, nor a prerequisite to any required course using the Pass/Fail Option.

Selected courses may be offered by the CECS on a grading basis of awarding S for satisfactory work, E for failing work, and NC for no credit. Any course assigned an S mark or an NC mark will not count towards degree requirements, nor will an S or an NC mark enter into the computation of a student’s grade point average. Only CIS co-op courses with an assigned S mark may count toward degree requirements. A grade of E will be treated as a conventional E on all records.

## Class Standing

The number of credit hours accumulated at the close of a given term determines a student’s class standing.

<table>
<thead>
<tr>
<th>Underclassmen</th>
<th>Upperclassmen</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>0 to 24</td>
</tr>
<tr>
<td>Sophomore</td>
<td>25 to 54</td>
</tr>
<tr>
<td>Junior</td>
<td>55 to 84</td>
</tr>
<tr>
<td>Senior</td>
<td>85 or more</td>
</tr>
</tbody>
</table>

## Scholastic Standing

In order to attain a BSE or BS degree, a student must achieve a final overall average of 2.0 or higher for all University of Michigan – Dearborn courses taken while enrolled in the CECS. In addition, the student must obtain a grade point average of 2.0 or more for all elected CECS courses.

### GOOD SCHOLASTIC STANDING

To be in good scholastic standing at the end of any term, a student must have an overall average of 2.0 or higher for all UM-Dearborn courses elected. Additionally, a student must have a 2.0 or above grade point average for all CECS courses elected.

### GRADES LESS THAN C (2.0)

While a grade of C-, D+, or D is passing, it is not considered satisfactory scholastic performance. Any deficiency of grade points (below 2.0) in either the overall grade point average (GPA) or the CECS cumulative grade point average (CECS GPA) resulting from one or more C-, D+, D, or D- grades must be made up while enrolled in this College. C-, D+, D, or D- grades are used in computing the student’s GPA or CECS GPA or both.

A student must repeat, as early as possible, any required courses in which a C-, D+, D, or D- grade is received in a given term if either the overall GPA or CECS GPA falls below 2.0 at the end of that term. Moreover, if a student on academic probation earns a C-, D+, D, or D- grade in a prerequisite for another course, such a course cannot be elected without first repeating the prerequisite course. A waiver of this requirement may be obtained only by means of a petition approved by the CECS.

Any course in which a student received D- must be repeated, even if the course was taken when the student’s overall cumulative GPA, and/or GPA in CECS courses, was above 2.0.

Neither credit nor grade points are allowed for a course in which a student received an E grade. Any deficiency of grade points (below 2.0 average) resulting from one or more E grades must be made up while enrolled in this College before the student is restored to good standing. A required course in which a grade of E has been assigned must be repeated on this campus during the student’s next academic term.

### CONTINUED ENROLLMENT IN THE COOPERATIVE EDUCATION PROGRAM

Although students on probation are normally allowed to continue their academic enrollment, they should consult immediately with the cooperative education program coordinator to review their status in the cooperative education phase of their program. Students will certainly jeopardize their ability to participate in this program if, during any term, their grade point average falls below 2.0. In the event that a student is placed on probation, the CECS reserves the right to require that the student spend another term in class and not participate in a work assignment for that term.

### UNSATISFACTORY PERFORMANCE

The records of CECS students are reviewed at the end of each term by the Academic Standing Committee. Three degrees of scholastic deficiency are used by the Committee to identify a student’s unsatisfactory performance resulting from C-, D+, D, D-, and E grades: warning, on probation, or required to withdraw.
In cases where the grade average for one term falls below 2.0 while the overall average remains above 2.0, the student normally will receive a warning letter from the Committee.

Probationary status (academic probation) is normally assigned to students who are not in good scholastic standing but whose records indicate a possibility for removal of deficiencies by continued enrollment. CECS students on academic probation are restricted to registering for no more than 13 credits per semester.

Students whose academic record is poor for two or three successive semesters are subject to being required to withdraw from the College. Students who have been required to withdraw may submit a formal written appeal to be readmitted at a later time, but must, in all cases, have had at least one semester of non-enrollment in CECS for their appeal to be accepted for consideration.

ACADEMIC STANDING APPEAL PROCEDURE

Students who wish to appeal a decision by the Academic Standing Committee requiring them to withdraw may do so by addressing a petition to the Executive Committee (the chief policy body) of the CECS. In all cases, the Executive Committee requires a one-term non-enrollment period, to allow students who have been required to withdraw time to reflect upon their situation, to consider alternatives, and to make plans. If a negative decision is rendered at this high level, the student may, under unusual circumstances, appeal the case to the Appeals Board of the UM-Dearborn.

Requirements for Graduation

In order to secure a degree of BSE or BS from the College of Engineering and Computer Science, UM-Dearborn, a student must meet the following requirements:

1. Must have been admitted to a degree program in the CECS.
2. Must satisfactorily complete the specified number of elective and required courses of the specific degree program.
3. Must attain a grade point average of C (2.0) or better for all courses completed at UM-Dearborn.
4. Must achieve a minimum grade average of C (2.0) for all CECS courses completed at UM-Dearborn.
5. Must have completed at least 30 credit hours of upper-level CECS course work at UM-Dearborn of the degree program in which enrolled.
6. Must be enrolled for credit in the CECS during the term in which the requirements for the degree are completed.
7. Must have taken the English Composition Placement Exam and passed the appropriate composition course, as indicated by the results.
8. Must have repeated all courses that needed to be repeated, in accordance with the policies stated above.
9. Must have submitted a diploma application to the CECS Records and Advising Office (2000 HPEC) by the third week of the beginning of the term in which the student expects to graduate.

In order to obtain a BSE in an engineering major and a concurrent BSE degree in Engineering Mathematics, or a BS degree in CIS or in software engineering and a concurrent degree in CIS Mathematics, the student must complete the specified minimum credit hours of additional and separate courses in advanced mathematics from the choices listed in the Engineering Mathematics degree program or the CIS Mathematics degree program, respectively.

College of Engineering and Computer Science Academic Code of Conduct

The Academic Code of Conduct (ACC) of the College of Engineering and Computer Science is based on the premise that all students in the College will perform honestly and ethically in all graded tests, projects, and assignments. The Code of Conduct prohibits students from tampering with grades, submitting false grades, and changing academic records, as well as cheating, plagiarism, and other forms of academic dishonesty.

Sanctions for violation of the Academic Code of Conduct may include one or more of the following: a letter of reprimand, reduction in course grade, failure in the course(s), entry of action on the student’s transcript, suspension, expulsion, and recession of a degree.

CECS students are subject to the provisions of the code in all courses. Students from other academic units are also bound by the CECS Academic Code of Conduct in any engineering or CIS courses they may elect.

Students who have questions about how the Code applies in a particular CECS course should contact the course instructor. For any general questions or concerns about Academic Code of Conduct, students should contact a member of the CECS Academic Disciplinary Committee (ADC).

Familiarization with the code is the responsibility of every student enrolled in courses offered by the CECS. The Academic Code of Conduct Booklet is available from the CECS Student Records and Advising Office, 2000 HPEC, and is also online: engin.umd.umich.edu/cur_students/codeofconduct.php

PHILOSOPHY OF THE CODE

The Academic Code of Conduct is a philosophy of life based on the cardinal principle that it is dishonorable to receive credit for work that is not the result of the individual’s efforts. This is a principle of the engineering and computer science professions and is a continuing tradition of the engineering students at the University of Michigan. To be trusted as a person and to have one’s word of honor associated with each professional undertaking will increase self-respect. A student’s diploma will then not only be a certificate of tasks accomplished, it will also stand as evidence of achievement of character.

See also under Student Rights and Responsibilities in the General Information section of this Catalog.

Distribution Requirements

BACHELOR OF SCIENCE IN ENGINEERING DEGREE PROGRAMS

Basic Requirements for Students Enrolled in the CECS

Courses required of Bachelor of Science in Engineering (BSE) students entering UM-Dearborn as of Fall 2009:

English Composition............................................................ 6 hrs
COMP 105* and 270
Humanities, and Behavioral Science
or Social Sciences .................................................. 12 credits
Two courses in the humanities area and two courses in
the behavioral or social sciences area, from the choices given.
Two of the courses (6 of the 12 credits) must be taken in the
same academic discipline within either the humanities area or
the behavioral/social sciences area and at least one of these
two courses must be an upper-level (300- or 400-level) course.
For specific requirements, see below.

Humanities Area* ......................................................... 6 hrs
Two 100- to 400-level courses from AAAS (239,275, 385,
389, 469, 470), ARTH, COML, COMM (220, 250, 300 or
400 level), ENGL, FILM, Foreign Language, MHIS, PHIL,
STS (300, 307, 312, 403, 410, 485, 488), WGST (303, 385,
386, 387, 416, 425, 445, 487)

Behavioral or Social Sciences Area* ..................... 6 hrs
Two 100- to 400-level courses from AAAS (106, 275, 320,
322, 325, 349, 369, 403), ANTH, ECON (201, 202, 300-level
only), GEOG (201, 205, 300-level only), HIIST, POL, PSYC,
SOC, STS (300, 308, 309, 321, 325, 340, 345, 349, 365, 374,
383, 386, 409, 421, 430, 441, 442, 464), WGST (303, 325,
326, 338, 362, 370, 405, 406, 407, 420, 446, 455, 3955)

Two Courses in the Same Academic Discipline, at Least One
of Which Must Be an Upper-Level Course *
Two of the courses (6 of the 12 credits) must be taken in the same academic discipline
within either the humanities area or the behavioral/social sciences area above and at least one of these two courses must be an upper-level (300- or 400-level) course.

Restricted Elective* ...................................................... 3 hrs
One course in the humanities area or the behavioral/social sciences area, from the choices listed OR a 300- or 400-level engineering course in the student’s specific major.

* Non-Credit Courses: students cannot use non-credit courses towards their degree. A list of non-credit courses is found in the CECS Undergraduate Student Handbook given to students during academic orientation. The CECS Handbook is also available online: engin.umd.umich.edu/SRA/pdf/Student_Handbook.pdf

Mathematics (MATH 115, 116, 205, 216, 217 [or 227]) 16 credits
Chemistry ................................................................. 4-8 credits
CHEM 144 (EE, CE, ISE, MFGE, and ME majors)
CHEM 146 (ISE, MFGE, and ME majors only)
Bioengineering majors take CHEM 134 and 136 (8 credits)
Economics (ECON 201 or 202) ....................................... 3 credits
Physics (PHYS 150 and PHYS 151) ..................................... 8 credits

COOPERATIVE EDUCATION

The Engineering Cooperative Education Program is a coordinated integration of classroom work and practical experience in business, industry, and government. The student alternates terms of attendance (co-op program does provide some flexibility, if needed) in class with four-month periods of employment with a cooperating organization, at the employer’s location, while supervised by representatives of both the University and the employer. The work experience is considered an integral part of the educational process, and both the College and the participating employer share responsibility for this integration.

The Computer Information Science Cooperative Education program, like that of Engineering, is an optional program for students who desire practical work experience related to a student’s academic background or individual career interest. Co-op students may be hired under any of three options: 1) alternating full-time, 2) parallel part-time, 3) summer only. Students are encouraged to complete a minimum of two work semesters with a participating employer.

OBJECTIVES, ADVANTAGES, AND REMUNERATION

Emphasis is placed on the educational and training value of work assignments. The student’s earnings, though substantial, must be considered only as an attractive by-product of the cooperative educational processes. As a result, convenience of location or transportation and personal preferences of the student must yield to educational advantages if these advantages cannot be otherwise achieved.

Numerous firms located in Michigan and out-of-state afford a wide range of experiences in all major areas in which students may have career aspirations. Cooperative education experience in professional assignments permits a practical test of vocational interest, the application of classroom knowledge to practical problems, a first-hand exposure to labor-management relationships, the development of responsible work habits, and the prospects of full-time employment upon graduation.

Work assignments, salaries, and employee benefits provide students with the prospect of substantial self-support during their enrollment as UM-Dearborn students.

STUDENT COUNSELING AND PLACEMENT

The cooperative education coordinator of the College counsels each co-op student with respect to career interests and aptitudes, and arranges interviews with appropriate cooperating employers. These interviews furnish the opportunity for a professional work assignment that is agreeable to the student and to the employer.

EVALUATION AND RECOGNITION OF ACHIEVEMENT

Each student is formally evaluated by the employer, and also must prepare and submit a detailed, well-written work report to the director at the end of each work assignment period. At the conclusion of each work assignment period, a grade determined mainly from the employer’s evaluation and the student’s report will be assigned by the director and recorded on the student’s transcript. The grade assigned and recorded for each work assignment period will be either $ for satisfactory or NC (no credit) for unsatisfactory.

Computer Information Science students are awarded academic credit by faculty on the basis of learning achievement and requirements met. CIS students may earn a maximum of nine credits toward their degree programs by completing the equivalent of three full-time (40 hr/wk) work terms for three credits each.
The cooperative education degree option requires a minimum of two work assignments and the possibility of an optional third term of professional employment in the program during the junior and senior years. Successful participation in the required professional work assignment periods is recognized by satisfactory cooperative education performance concurrent with the baccalaureate degree (Not applicable to CIS students). Additionally, the awarding of this certificate is recorded on the student's academic transcript upon graduation. Eligibility for receiving the satisfactory cooperative education performance certificate will be determined by the engineering cooperative education director based upon the reports submitted on and by the student over the several periods of work assignments.

PARTICIPATION IN THE COOPERATIVE EDUCATION PROGRAM

Students in the cooperative education option offered by the College of Engineering and Computer Science shall participate in four-month work periods alternating with their classroom terms. Students admitted to the CIS co-op program must fulfill the study-term requirements of the alternate, parallel, or summer only plans. Details on the study-term requirements are available through the co-op office. These alternating work periods may not be waived except as follows: 1) where academic achievement in any term is so poor as to minimize the possibility of the student successfully pursuing the academic program to the end; in such cases, the student will immediately be required to repeat a regular classroom term or be caused to withdraw from the College of Engineering and Computer Science; 2) where such illness or disability exists that, in the opinion of the employer or suitable medical counselor, industrial assignment would not be in the best interests of the employer and/or the student during a particular term.

Both the cooperating employers and the University expect that students participating in the cooperative education program will be able to demonstrate a considerable increase in academic knowledge after each term of classroom study. Therefore, participants in the CECS Cooperative Education Program must be full-time students during their alternated class terms; that is, must satisfactorily complete at least 12 credit hours of their degree program course work during each scheduled class term.

ADMISSION TO THE COOPERATIVE EDUCATION PROGRAM

The first and most important step toward admission to the CECS Cooperative Education Program is current enrollment as an undergraduate student in good academic standing in a CECS degree program. Since the first co-op work period is always scheduled within the junior academic year, sophomores enrolled in the CECS will be accepted into the CECS Cooperative Education Program for participation in career counseling and placement interviewing activities during the second term of their sophomore year. Transfer students admitted to the CECS at the junior year level may be accepted into the Cooperative Education Program after completing one semester as a full-time student (12 credits). In all but the most unusual circumstances, all students must apply for admission to the internship program not later than during the registration week of the class term preceding their intended first work assignment period or as advertised by the CECS Cooperative Education Director.

An application for acceptance into the CECS Cooperative Education Program may be submitted later than the first term of the junior year but will not be approved when the class level of the student is such that there will not be sufficient time prior to graduation to participate in the program for at least two-co-op periods alternated with the usual terms of class.

The basic entrance-level requirement of the CECS Cooperative Education Program, applying to all students, is satisfactory completion of the sophomore year, with a recommended GPA of at least 2.30. Student admitted to the CIS program must have completed 30 semester hours (sophomore status) and have a minimum cumulative GPA of 2.25. Transfer students must have completed 12 UM-Dearborn credit hours. The courses of this basic requirement include the calculus sequence, differential equations, linear algebra, college chemistry, the engineering physics sequence, and introductory courses in engineering that include computer-aided tools for design and analysis.

In addition to the basic entrance-level requirement there also are specific courses that must be satisfactorily completed before beginning the first co-op work period. These specific courses, which differ according to the degree programs, are all courses normally scheduled in the sophomore year under CECS’s basic freshman-sophomore curriculum (the equivalent course at another college may be acceptable for a transfer student).

For the mechanical engineering co-op student, the specific required courses that must be satisfactorily completed are computer methods in mechanical engineering and thermodynamics or applied mechanics.

The specific courses required for the industrial and manufacturing systems engineering co-op student are computer programming for engineers and manufacturing processes. Thermodynamics and applied mechanics are optional courses.

For the electrical engineering co-op student, the specific required courses for those enrolled at UM-Dearborn during their sophomore year are digital systems in electrical engineering and the first courses in circuits.

The purpose of these course requirements is to prepare the co-op student academically for professional work assignments where there will be continual association with practicing engineers in their daily work. Through fulfillment of these requirements the co-op student will have sufficient competence to function as a member of an engineering group.

REGISTRATION IN THE COOPERATIVE EDUCATION PROGRAM

Each co-op work assignment extends for one term (four months) and occupies the student full time. From a group of co-op courses available, the co-op student elects a two or three-credit hour course whose content is appropriate to the particular field of engineering and to the level of practice being undertaken that term. Three such registrations are recommended (two are required) for a total of seven credit hours, for satisfactory completion of the Cooperative Education Program. All credit hours earned via co-op courses are added to the academic (classroom) credit hours required in the undergraduate program of studies pursued by the student. Since the co-op work assignment occupies the student full time, registration in courses other than the co-op course is strongly discouraged. A student on a co-op assignment cannot elect more than one other course besides the co-op course (two courses maximum including the co-op course) during the semester. CIS students can earn up to seven co-op credits toward graduation. CIS students register from a group of co-op courses (CIS 299, 399, 499). The student elects a three-credit hour course whose content is appropriate to the level of practice being undertaken that term. Three such registrations are recommended for satisfactory completion of the Cooperative Education Program.
In some instances students may be involved in a cooperative-type educational program prior to their eligibility for and/or acceptance into the Engineering Cooperative Education Program. Such cooperative-type programming might occur either while enrolled at UM-Dearborn or at another educational institution. However, no regular employment completed prior to formal enrollment in the CECS Cooperative Education Program will be considered as satisfying the requirements of the CECS Cooperative Education Program.

**International Study**

**Student Exchange Program with the Jönköping School of Engineering in Jönköping, Sweden**

The College of Engineering and Computer Science has a formal student exchange program with the Jönköping School of Engineering in Jönköping, Sweden. CECS undergraduates in good standing in any major are eligible to apply.

Students choose the classes they will take during the student exchange semester in consultation with the CECS director of academic services and with their faculty advisor. They register for their exchange classes at UM-Dearborn and pay regular UM-Dearborn tuition. The student exchange classes are listed as UM-Dearborn classes on the UM-Dearborn transcript. Students register for a full load during their student exchange semester, consisting of three technical courses in engineering or computer science taught in English and a fourth Swedish language course.

**Prechter International Travel Fellowship**

CECS students may be eligible for a travel fellowship to help defray some of the cost of travel associated with approved international studies. The travel fellowships are made possible by a gift from Ms. Waltraud Prechter to the CECS Institute for Advanced Vehicle Systems.

CECS students should make an appointment with the CECS Director of Academic Services (2000 HPEC) for information about the Jönköping program and the travel fellowship.

**Undergraduate Programs**

**Computer and Information Science**

[SEE CIS, UNDER THE COLLEGE OF ENGINEERING AND COMPUTER SCIENCE, ON THE UNIVERSITY HOMEPAGE ON THE INTERNET FOR ANY CHANGES AND UPDATES – engin.umdumd.edu]

Computing professionals offer expertise in the effective and efficient use of computers for solving human problems, whether that be as a member of a project development team, as a builder of powerful and easy-to-use tools, as an individual researcher, or as an educator.

Required courses in the CIS major stress theory and application, as well as the role of other fields such as mathematics, statistics, electrical and computer engineering, business, and software engineering, among others. The curriculum is modeled on the recommendations of the two main professional computing societies, the Association of Computing Machinery (ACM) and the Institute for Electrical and Electronic Engineering (IEEE). Written and oral communications skills are emphasized throughout the program. The use of teamwork on projects is practiced in many courses. Professionalism and ethics are also stressed for future computing professionals. The CIS courses include software engineering, algorithm analysis, networking, security, programming languages, game design, computer architecture, data structures, operating systems, artificial intelligence, database management systems, graphics, information systems, robotics, web development and capstone design courses.

The CIS curricula prepare students to begin careers as computing professionals or to pursue graduate study in the field. The BS in Computer and Information Science program is accredited by the Computing Accreditation Commission of ABET (the Accreditation Board in Engineering and Technology), 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 – telephone (410) 347-7700. A candidate for the degree of BS in CIS is required to select one of two concentrations: Computer Science or Information Systems. A BS in Software Engineering is also offered. Both programs encourage innovation on the part of students, prepare students for graduate education, train students to communicate effectively, and provide students with the tools needed to become leaders in their profession.

The Computer Science concentration emphasizes understanding how computer systems work, as well as their uses as critical components in other disciplines, and prepares its graduates for positions in systems programming, scientific programming, networks, game programming, web technology, graphics and visualization, and enterprise computing among others.

The Information Systems concentration is oriented toward the design and development of computer information systems. It includes more business-related courses than the computer science concentration, and prepares graduates for positions in applications programming, database management, information systems design, and information engineering, among others.

The Software Engineering degree program stresses the range of technical, systematic and managerial aspects of the software development process, but places primary emphasis on the technical facets of designing, building, and modifying large and complex software systems. The BS in Software Engineering program is accredited by the Engineering Accreditation Commission of ABET (the Accreditation Board for Engineering and Technology), 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 – telephone: (410) 347-7700.

The BS in Software Engineering (SE) prepares students to demonstrate expertise in the effective and efficient use of computers to solve problems relating to the disciplined development, instrumentation and maintenance of quality software, whether as members or leaders of product development teams. Software engineers work as project managers, game designers, applications programmers, quality assurance specialists, test engineers, and user interface designers.

**CAREER OPPORTUNITIES**

A wide variety of employment opportunities is available to computer and information science graduates, as mentioned above. The University’s Career Services Office assists students and graduates in planning careers in computer and information science and offers many job listings in the computer industry.
COOPERATIVE EDUCATION/INTERNSHIP PROGRAM
Work experience opportunities are available for qualified computer and information science students through the CECS Cooperative Education Office. These programs allow students to earn a salary and up to nine credit hours which can be applied toward graduation while working full-time during alternate semesters or part-time during regular semester for participating firms or governmental agencies (Acromag, APPLE, Chrysler, DENSO, DTE Energy, Ford, General Electric, Harmon Becker, NASA, Nokia, TACOM, U.S. Steel, Xilinx, etc.).

CIS STUDENT ADVISORY BOARD (CISSAB)
The Department has in place a mechanism for ensuring continuous high-quality input from students at all levels, through a faculty-nominated board of students and alumni.

CIS PROFESSIONAL ADVISORY BOARD (CISPAB)
The Department continually seeks outside interactions with business, industries, and government through its Professional Advisory Board. The PAB is composed of senior computing technologists who provide input on curriculum, potential employment for students, research opportunities for faculty, and a perspective on future challenges requiring collaboration.

COMPUTING FACILITIES
Student software development is done in various campus computing laboratories, having IBM-compatible PC’s, UNIX machines, a CRAY supercomputer, and Macintosh computers as well as specialized department computing laboratories. The software available includes state-of-the-art tools for database, video conferencing, software engineering, expert systems, as well as specialized department computing laboratories. The software available includes state-of-the-art tools for database, video conferencing, software engineering, expert systems, a large number of operating systems (e.g., LINUX, Windows, Macintosh, etc.), programming languages and solid modeling tools. These labs are all staffed by student assistants under the direction of a laboratory manager.

UPSILON PI EPSILON (UPE)
UPE is the national computer science honor society. Membership is available to upper-division students maintaining a 3.0 GPA for all course work. UPE sponsors a variety of educational and social events on campus.

ASSOCIATION FOR COMPUTING MACHINERY (ACM)
The student chapter of the Association for Computing Machinery (ACM) sponsors “chalk talks” to help familiarize students with new computing technologies, guest speakers on computer-related topics, and a variety of social events.

BS in Computer and Information Science (CIS)
The BS degree in Computer and Information Science is accredited by the Computing Accreditation Commission of ABET (the Accreditation Board in Engineering and Technology), 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 – telephone (410) 347-7700.

Program Objectives
1. Our graduates will be successfully employed in computer science–related fields or other career paths, including industrial, academic, governmental, and non-governmental organizations, or will be successful graduate students in a program preparing them for such employment.
2. Our graduates will lead and participate in culturally diverse teams, becoming global collaborators.
3. Our graduates will continue their professional development by obtaining continuing education credits, professional registration or certifications, or post-graduate study credits or degrees.

Computer Science Program Outcomes
a. An ability to apply knowledge of computing and mathematics appropriate to the discipline;
b. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution;
c. An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs;
d. An ability to function effectively on teams to accomplish a common goal;
e. An understanding of professional, ethical, legal, security, and social issues and responsibilities;
f. An ability to communicate effectively with a range of audiences;
g. An ability to analyze the local and global impact of computing on individuals, organizations, and society;
h. A recognition of the need for, and an ability to engage in, continuing professional development;
i. An ability to use current techniques, skills, and tools necessary for computing practices;
j. An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the tradeoffs involved in design choices;
k. An ability to apply design and development principles in the construction of software systems of varying complexity.

General Requirements
Selections must be from courses numbered 100-200 unless otherwise stated. Campus distribution requirements are included within these general requirements.

Composition ................................................................. 6 hrs
COMP 105 and COMP 270

Economics .............................................................. 3 hrs
ECON 201 Principles of Macroeconomics

Humanities ................................................................. 6 hrs
Two 100- to 400-level courses from AAAS (239, 275, 385, 389, 469, 470), ARTH, COML, COMM (220, 250, 300 or 400 level), ENGL, FILM, Foreign Language, MHIS, PHIL, STS (300, 307, 312, 403, 410, 485, 488), WGST 303, 325, 326, 338, 362, 370, 405, 406, 407, 420, 446, 455, 3955

Behavioral or Social Sciences ........................................... 6 hrs
Two 100- to 400-level courses from AAAS (106, 275, 320, 322, 325, 349, 369, 403), ANTH, ECON (201, 202, 300-level only), GEOG (201 or 205; 300-level only), HIIST, POL, PSYC, SOC, STS (300, 308, 309, 321, 325, 340, 345, 349, 365, 374, 383, 386, 409, 421, 430, 441, 442, 464), WGST (303, 325, 326, 338, 362, 370, 405, 406, 407, 420)

Upper-Level Course ..................................................... 3 hrs
One upper-level course, 300- or 400-level, in same discipline as a course already taken in Humanities or Behavioral/Social Sciences.
Mathematics and Statistics ........................................... 18 hrs
  MATH 115, 116
  MATH 217 (Not to be taken by Information Systems
  Concentrators) or MATH 227
  CIS 275, IMSE 317 or MATH 425

Laboratory Science Sequence* ...................................... 8 hrs
  BIOL 130 and BIOL 140 OR
  CHEM 134 and CHEM 136 OR
  CHEM 144 and CHEM 146 OR
  GEOL 118 and GEOL 218 OR
  PHYS 125 and PHYS 126 OR
  PHYS 150 and PHYS 151

CONCENTRATION REQUIREMENTS
for Computer Science Concentrators

Natural Science .......................................................... 4 hrs
  Four additional science credits from BIOL 130, BIOL 140,
  CHEM 134, CHEM 136, CHEM 144, CHEM 146, CHEM
  225, CHEM 226, CHEM 227, GEOL 118, GEOL 218, PHYS
  125, PHYS 126, PHYS 130/131, PHYS 150, PHYS 151

Game Design Track MUST TAKE PHYS 125 or PHYS 150 as
4 of the 12 credits of required lab science, OR as the 3rd science
course

Mathematics................................................................. 4 hrs
  CIS 306

Business Course .......................................................... 3 hrs
  ENGR 400 Applied Business Techniques for Engineers

CIS Core ....................................................................... 28 hrs
  Seven computer and information science courses are required of
  Computer Science concentrators:
  CIS 150  Computer Science I
  CIS 200  Computer Science II
  CIS 310  Computer Organization and
          Assembly Language
  CIS 350  Data Structures and Algorithm Analysis
  CIS 375  Introduction to Software Engineering
  CIS 427  Computer Networking and
          Distributed Processing
  CIS 450  Operating Systems

CISC required .............................................................. 4 hrs
  CIS 4951  Design Seminar I
  CIS 4952  Design Seminar II

CHOOSE ONE TRACK
The track courses, CISC Electives, and General Electives must
add up to 28 credits. See further on for specific requirements:
  A) ENGINEERING SYSTEMS
  B) GAME DESIGN
  C) NETWORKING
  D) SYSTEMS FOUNDATIONS
  E) INDIVIDUALIZED COMPUTER SCIENCE

Technical CISC Electives
Zero to 12 credits (depending upon Specialization chosen) from:
  CIS 285  Software Engineering Tools ......................... 3 hrs
  CIS 294 (3), CIS 296 (3), or CIS 297 (3)
  CIS 376  Software Engineering ............................... 4 hrs
  CIS 381  Robotics .................................................. 3 hrs
  CIS 387  Digital Forensics I ................................. 4 hrs
  CIS 400  Programming Languages ......................... 4 hrs
  CIS 405  Algorithm Analysis and Design ................. 4 hrs
  CIS 421  Database Management Systems ............... 4 hrs
  CIS 423  Decision Support & Expert Systems .......... 4 hrs
  CIS 425  Information Systems ............................ 4 hrs
  CIS 435  Web Technology ................................. 3 hrs
  CIS 437  Advanced Networking ........................... 3 hrs
  CIS 447  Computer and Network Security ............... 3 hrs
  CIS 451  Computer Graphics ............................... 3 hrs
  CIS 452  Computer Animation ............................. 3 hrs
  CIS 467  Digital Forensics II ............................. 4 hrs
  CIS 474  Compiler Design ................................. 3 hrs
  CIS 476  Software Architecture and
          Design Patterns .................................... 3 hrs
  CIS 479  Artificial Intelligence ......................... 3 hrs
  CIS 487  Computer Game Design and
          Implementation I .................................. 3 hrs
  CIS 488  Computer Game Design and
          Implementation II .................................. 3 hrs
  CCM 404  Dynamical Systems ............................ 3 hrs
  CCM 472  Numerical Analysis ............................ 3 hrs
  CCM 473  Math Modeling .................................. 3 hrs
  ECE 372  Introduction to Microprocessors .......... 3 hrs
  ECE 473  Embedded Systems ............................ 4 hrs

General Electives ..................................................... 7-10 hrs
  Any for-credit courses; that is, courses not on the No Credit list,
  which is found at the end of the CECS Student Handbook,
  engin.umd.umich.edu/Publications/student_handbook.php, and is
  also posted outside 2000 HPEC. No Credit courses do not count
toward the degree. No Credit courses include ECON 305, PSYC
  381, SOC 383, and many other courses.

Note: At least six of the 12 credits must be taken outside
computer science, mathematics, natural science and
engineering courses.

REQUIREMENTS FOR THE CISC TRACKS
CHOOSE ONLY ONE TRACK (The track courses and
appropriate electives must add up to 28 credits)
  A) Engineering Systems, B) Game Design, C) Networking,
  D) Systems Foundations, E) Individualized (Computer Science)

A) CISC–ENGINEERING SYSTEMS (Engineering
Applications) Track (28 credits)
One of the following three courses:
  CIS 294 (3) Visual Basic, OR CIS 296 (3) Java Programming,
  OR CIS 297 (3) C# Programming
  CIS 381 (3) Industrial Robotics
  CIS 400 (4) Programming Languages
  CIS 435 (3) Web Technology
  ECE 472 (4) Microprocessors
  ECE 473 (4) Embedded Systems
  Seven (7) credits of General Electives [At least 6 credits must be
  outside CIS, mathematics, natural science, and
  engineering]**

B) CISC – GAME DESIGN Track (28 credits)
  CIS 297 (3) C# Programming
  CIS 451 (3) Computer Graphics
  CIS 452 (3) Computer Animation
  CIS 479 (3) Artificial Intelligence
  CIS 487 (3) Computer Game Design and Implementation I
  CIS 488 (3) Computer Game Design and Implementation II
Ten (10) credits of General Electives [At least 6 credits must be outside CIS, mathematics, natural science, and engineering]**

Note that as part of the 24 credits of required distribution, Game Design students must take the following 15 credits:
Three courses (9 credits) from: JASS 240, 248, 315, 345, 350, 370, 403, 410
Two courses (6 credits) in the Behavioral or Social Sciences, from the choices listed on the previous page

Note that as part of the 12 credits of required science courses, Game Design students must take the following 4 credits:
Either PHYS 125 (4) OR PHYS 150 (4), as part of the 2-course lab science sequence or as the 3rd laboratory science course

C) CISC – NETWORKING Track (28 credits)

One of the following three courses:
CIS 294 (3) Visual Basic, OR CIS 296 (3) Java Programming, OR CIS 297 (3) C# Programming
CIS 400 (3) Programming Languages
CIS 421 (4) Database Systems
CIS 437 (3) Web Technology
CIS 447 (3) Computer and Network Security
Eight (8) credits of General Electives [At least 6 credits must be outside CIS, mathematics, natural science, and engineering]**

D) CISC–SYSTEMS FOUNDATIONS (Computer Science Foundations) Track (28 credits)

One of the following three courses:
CIS 294 (3) Visual Basic, OR CIS 296 (3) Java Programming, OR CIS 297 (3) C# Programming
CIS 400 (4) Programming Languages
CIS 405 (3) Algorithm Analysis and Design
CIS 421 (4) Database Systems
CIS 474 (3) Compiler Design
CIS 479 (3) Artificial Intelligence
Eight (8) credits of General Electives [At least 6 credits must be outside CIS, mathematics, natural science, and engineering]**

E) CISC – INDIVIDUALIZED (Computer Science) Track (28 credits)

One of the following three courses:
CIS 294 (3) Visual Basic, OR CIS 296 (3) Java Programming, OR CIS 297 (3) C# Programming
CIS 400 (4) Programming Languages
CIS 405 (3) Algorithm Analysis and Design
CIS 421 (4) Database Systems
CIS 474 (3) Compiler Design
CIS 479 (3) Artificial Intelligence
Twelve (12) credits of CISC Electives from courses listed under CISC Electives on the previous page
Nine (9) credits of General Electives [At least 6 credits must be outside CIS, mathematics, natural science, and engineering]**

CONCENTRATION REQUIREMENTS for Information Systems Concentrators

ADDITIONAL PROGRAM REQUIREMENTS
Business and Operations Research 13 hrs
The following four courses
ACC 298 Financial Accounting
OB 354 Behavior in Organization
IMSE 3005 Introduction to Operations Research
ENGR 400 Applied Business Techniques for Engineers

CIS Core................................................................. 28 hrs
Eight computer and information science courses are required of Information Science concentrators:
CIS 150 Computer Science I
CIS 200 Computer Science II
CIS 310 Computer Organization
and Assembly Language
CIS 350 Data Structures and Algorithm Analysis
CIS 375 Introduction to Software Engineering
CIS 427 Computer Networks and Distributed Process
CIS 450 Operating Systems

CIS Information Systems Required.................................. 18 hrs
Five computer and information science courses are required of Information Systems Concentrators
CIS 294 Visual Basic
OR
CIS 296 Java Programming
CIS 421 Database Systems
CIS 425 Information Systems
CIS 476 Software Architecture and Design Patterns
CIS 4951 Design Seminar I
CIS 4952 Design Seminar II

Technical CIS Information Systems Electives............ 7 hrs
CIS 285 Software Engineering Tools .................. 3 hrs
CIS 297 C# Programming ..................................... 3 hrs
CIS 306 Discrete Structures II ......................... 4 hrs
CIS 376 Software Engineering II .......................... 4 hrs
CIS 381 Robotics .................................................... 3 hrs
CIS 387 Digital Forensics I .................................... 4 hrs
CIS 400 Programming Languages .................... 4 hrs
CIS 405 Algorithm Analysis and Design ............... 3 hrs
CIS 423 Decision Support & Expert Systems .......... 3 hrs
CIS 435 Web Technology .................................... 3 hrs
CIS 437 Advanced Networking ........................... 3 hrs
CIS 447 Computer and Network Security .............. 3 hrs
CIS 451 Computer Graphics ................................ 3 hrs
CIS 452 Computer Animation .............................. 3 hrs
CIS 467 Digital Forensics II ............................... 4 hrs
CIS 474 Compiler Design .................................... 3 hrs
CIS 479 Artificial Intelligence .............................. 3 hrs
CIS 487 Computer Game Design and Implementation I ........................................ 3 hrs
CIS 488 Computer Game Design and Implementation II ........................................ 3 hrs
CCM 404 Dynamical Systems .............................. 3 hrs
CCM 472 Numerical Analysis ............................. 3 hrs
CCM 473 Math Modeling ..................................... 3 hrs
ECE 372 Introduction to Microprocessors ............. 3 hrs
ECE 473 Embedded Systems ............................... 4 hrs

General Electives.............................................. 7 hrs
Any for-credit courses; that is, courses not on the No-Credit list, which is found at the end of the CECS Student Handbook, engin.umd.edu/Publications/student_handbook.php and is also posted outside 2000 HPEC. No Credit courses do not count toward the degree. No Credit courses include PSYC 381, SOC 383, and many other courses.

MINOR IN COMPUTER AND INFORMATION SCIENCE

The minor in CIS requires a minimum of 24 credit hours, which must include CIS 150, CIS 175, CIS 200, CIS 350 and eight additional credit hours at the 300 or 400 level approved by the student’s faculty advisor in CIS. An introduction to calculus (MATH 115) is required and does not count toward the 24 hours. Completion of MATH 116 is strongly recommended.
BS in Software Engineering

Software Engineering is the computer discipline that is concerned with the theoretical and practical aspects of building high quality software systems, on time, and within budget. Software engineers are tasked with the detailed analysis, design, implementation, testing, maintenance and management of software product development projects for a broad range of computing applications across society.

The increasing pressure to deliver high-quality, reliable software products in less time is rapidly fueling the demand for computer professionals with specific preparation in software engineering and experience in working on teams. These pressures stem from such widespread development as

- The use of software for demanding and safety-critical applications that make it imperative to avoid the serious, indeed sometimes fatal, consequences of poorly understood design.
- The need to create consumer and entertainment applications like computer games, in the face of a highly competitive global market place.
- The increasing need to develop useful, easy-to-use software tools that reliably meet customer needs and whose features and documentation can be used and understood by their intended user with a high degree of consistency and confidence.
- The need to re-engineer or replace aging legacy software systems to take advantage of modern computer hardware capabilities.

Recent advances in the practice and technology of software engineering have made it possible to offer undergraduate and graduate degree programs in software engineering itself. Notable among these advances are:

- The availability of proven computer tools (such as CASE tools) and processes (such as the Personal Software Process) to standardize and automate software development.
- The increasing importance of formal methods and software quality measurement techniques to ensure more thorough testing of software.
- The success of the agile and object-oriented software engineering methods, as well as the move toward technical and managerial practices that cover the full software development cycle.

Software engineers must know the subset of computer science that is relevant to software development. They must also have knowledge of the principles of effective and reliable design, of mathematics and other sciences that are traditionally known by engineers, and of the skills and applications of project management.

Software engineering includes:

- Software design and development; that is, building commercial, industrial-strength software by the application of validated knowledge and experience that have been codified into formal methods of best practices.
- Software process and quality assurance; that is, the systematic discipline of consciously improving the quality, cost and timeliness of the process itself by which large software systems are designed and developed.
- Software development project management; that is, how to manage large software design projects and bring development to a timely and efficient completion.

The software engineering degree program offered by the Department of Computer and Information Science stresses the range of technical, systematic, and managerial aspects of the software engineering process but places primary emphasis on the technical facets of designing, building, and modifying large and complex software systems. This program concentrates on all software development lifecycle phases, including: program management, requirements engineering, software architecture design, software implementation, software configuration management, software quality assurance, and software process maturity measurements and improvements. It balances both theoretical and practical aspects by covering fundamentals in the classroom and evaluating student knowledge by implementing team-based work projects. Students complete a minimum of 120 credits and receive a BS degree in Software Engineering. The degree prepares graduates for immediate employment in the software engineering field and for graduate study.

The BS degree in Software Engineering is accredited by the Engineering Accreditation Commission of ABET (the Accreditation Board for Engineering and Technology), 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 – telephone: (410) 347-7700.

Program Objectives

1. Our graduates will be successfully employed in software engineering–related fields or other career paths, including industrial, academic, governmental, and non-governmental organizations, or will be successful graduate students in a program preparing them for such employment.
2. Our graduates will lead and participate in culturally diverse teams, becoming global collaborators.
3. Our graduates will continue professional development by obtaining continuing education credits, professional registration or certifications, or post-graduate study credits or degrees.

Program Outcomes

a. An ability to apply knowledge of mathematics, science, and engineering;
b. An ability to design and conduct experiments, as well as to analyze and interpret data;
c. An ability to design a system, component, or process to meet desired needs within realistic constraints, such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
d. An ability to function on multidisciplinary teams;
e. An ability to identify, formulate, and solve engineering problems;
f. An understanding of professional and ethical responsibility;
g. An ability to communicate effectively;
h. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
i. A recognition of the need for, and an ability to engage in, life-long learning;
j. A knowledge of contemporary issues;
k. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.
l. An ability to program.
CONCENTRATION REQUIREMENTS

General Requirements ........................................ 60 hrs

English Composition ........................................ 6 hrs
COMP 105 Composition I
COMP 270 Technical Writing for Engineers

Economics
ECON 201 Principles of Macroeconomics .......... 3 hrs

Humanities ................................................... 6 hrs
Two 100- to 400-level courses from AAAS (239 or 275; 385, 389, 469, 470); ARTH, COML, COMM (220 to 250; 300 or 400 level), ENGL, FILM, Foreign Language, HUM, MHIS, PHIL, STS (300, 307, 312, 403, 410, 485, 488), WGST

Behavioral/Social Science ................................ 6 hrs
Two 100- to 400-level courses from AAAS (106 or 275; 320, 322, 325, 349, 369, 403), ANTH, ECON (202; 300-level only), GEOG (201 or 205; 300-level only), HIST, POL, PSYC, SOC, STS (300; 308, 319, 321, 325, 340, 345, 349, 365, 374, 383, 385, 409, 421, 430, 441, 442, 464), WGST (303; 325, 326, 338, 362, 370, 405, 406, 407, 420)

Business courses ............................................. 6 hrs
ENGR 400 Applied Business Techniques for Engineers
OB 354 Behavior in Organization

Mathematics ................................................... 21 hrs
MATH 115 Calculus I ......................................... 4 hrs
MATH 116 Calculus II ......................................... 4 hrs
CIS 275 Discrete Structures I ................................ 4 hrs
CIS 306 Discrete Structures II ............................. 4 hrs

MATH 217 Matrix Algebra .................................... 2 hrs
OR
MATH 227 Linear Algebra .................................... 2 hrs
IMSE 317 Probability and Statistics ..................... 3 hrs
OR
MATH 425 Mathematical Statistics II ..................... 3 hrs

Laboratory Science Sequence ............................... 8 hrs
Two courses, 8 credits, in one sequence from:
BIOL 130 and BIOL 140
OR
CHEM 134 and CHEM 136
OR
CHEM 144 and CHEM 146
OR
GEOL 118 and GEOL 218
OR
PHYS 125 and PHYS 126
OR
PHYS 150 and PHYS 151

Natural Science .............................................. 4 hrs
Four credits from:
BIOL 130, BIOL 140, CHEM 134, CHEM 136, CHEM 144, CHEM 146, CHEM 225, CHEM 226, CHEM 227, GEOL 118, GEOL 218, PHYS 125, PHYS 126, PHYS 130/131, PHYS 150, PHYS 151

CIS Core ..................................................... 28 hrs
Seven computer and information science courses are required of Computer Science concentrators

CIS 150 Computer Science I ............................... 4 hrs
CIS 200 Computer Science II .............................. 4 hrs
CIS 310 Computer Organization and Assembly Language ..................................... 4 hrs
CIS 3501 Data Structures and Algorithm Analysis for Software Engineers .................. 4 hrs
CIS 375 Software Engineering I .......................... 4 hrs
CIS 427 Computer Networks and Distributed Process .......................................... 4 hrs
CIS 450 Operating Systems .................................. 4 hrs

Software Engineering Requirements ...................... 17 hrs
CIS 285 Software Engineering Tools ...................... 2 or 3 hrs
CIS 376 Software Engineering II .......................... 4 hrs
CIS 421 Database Systems ................................... 4 hrs
CIS 476 Software Architecture and Design Patterns ............................................. 3 hrs
CIS 4961 Design Seminar for Software Engineers I ........................................... 2 hrs
CIS 4962 Design Seminar for Software Engineers II .......................................... 2 hrs

One Application Sequence ................................ 7 to 9 hrs
(The Application Area and Technical Electives must total 14 hrs)

Information Systems Sequence
CIS 425 Information Systems ................................ 4 hrs
CIS 447 Introduction to Computer and Network Security ........................................ 3 hrs

Computer Game Design Sequence
CIS 297 Introduction to C# ................................... 3 hrs
CIS 487 Computer Game Design and Implementation I ........................................... 3 hrs
CIS 488 Computer Game Design and Implementation II ......................................... 3 hrs

Web Engineering Sequence
CIS 421 Database Systems ................................... 4 hrs
CIS 435 Web Technology ..................................... 3 hrs

Technical Electives ........................................... 5 to 7 hrs
(The Application Area and Technical Electives must total 14 hrs)
Five to seven additional credits from the following:
Only one of the following 3 courses may be used towards the 120 credits of the degree:
CIS 294 (3), CIS 296 (3), or CIS 297 (3)
CIS 381 Industrial Robots ..................................... 3 hrs
CIS 387 Digital Forensics I .................................... 4 hrs
CIS 400 Programming Languages .......................... 4 hrs
CIS 405 Algorithm Analysis and Design ............................................. 3 hrs
CIS 421 Database Systems ................................. 4 hrs
CIS 423 Decision Support & Expert Systems ........... 3 hrs
CIS 425 Information Systems ............................... 4 hrs
CIS 435 Web Technology ..................................... 3 hrs
CIS 437 Advanced Networking ............................... 3 hrs
CIS 447 Computer and Network Security ............... 3 hrs
CIS 451 Computer Graphics ................................... 3 hrs
CIS 452 Computer Animation ................................ 3 hrs
CIS 467 Digital Forensics II .................................. 4 hrs
CIS 474 Compiler Design ...................................... 3 hrs
CIS 479 Artificial Intelligence ............................... 3 hrs
CIS 487 Computer Game Design and Implementation I ........................................... 3 hrs
CIS 488 Computer Game Design II ........................ 3 hrs
ECE 372 Introduction to Microprocessors ............... 3 hrs
ECE 473 Embedded System Design ........................ 4 hrs
Note: Application Area Sequence + Technical Electives must total 14 hrs.

General Electives ................................................................. 4 hrs
These credits must be taken outside computer science, mathematics, natural science and engineering courses.

Any for-credit courses; that is, courses not on the No Credit list, which is found at the end of the CECS Student Handbook, engin.umd.umich.edu/Publications/student_handbook.php, and is also posted outside 2000 HPEC. No Credit courses do not count toward the degree. No Credit courses include PSYC 381, SOC 383 and many other courses.

Computer Engineering

Computers and digital technology have dramatically altered many facets of life including entertainment, manufacturing, transportation, public safety and power production. Computer Engineers have many career opportunities in these areas that will only become more important and prevalent in the future. Most of the modern electronic devices and appliances available today contain advanced computer technology. Video game consoles, for example, utilize very powerful special-purpose computers that receive user input (from the joystick or controller), perform computations to control the game and display high-resolution graphics and sound in real time. Such devices require specialized digital circuits that can process massive amounts of data very efficiently. Computer engineers use their specialized knowledge to design a variety of systems that integrate how the hardware (electronic circuits and processors) interacts with the software such as C++ or Java to control the system and process inputs from the user. This type of close interaction between hardware and software is essential for many important applications, such as automotive systems, web and GPS-enabled devices, wireless communication, military applications, and medical imaging.

The Computer Engineering program at UM-Dearborn was developed to meet the increasing demand for engineers with knowledge of both hardware design and software development. The program offers a 125-hour curriculum consisting of core courses and technical electives. In addition to in-depth courses in engineering fundamentals, theory, and design principles, students get hands-on experience with the latest hardware and software, such as microprocessor and DSP-based development boards, system-on-a-chip technology, computer networks, and reconfigurable computing. In the junior year, students learn how to design and implement an instruction set and logic functions for a computer. In the senior year, students work on projects in which they design a complete real-world system, from initial specifications to final design, testing, and documentation. Students with an interest in pursuing graduate studies or wish to pursue a research and development career are encouraged to undertake directed research projects under the supervision of faculty advisors for more advanced design experiences.

A unique feature of the Computer Engineering program is the opportunity for students to work concurrently to earn a second degree in Electrical Engineering by taking an additional 16 credit hours of courses. In this case, a student can earn two Bachelor’s Degrees in just 141 credit hours. Since some job listings require a computer engineering background while others require specialization in electrical engineering, a student who pursues the dual degree option is qualified for a much wider variety of engineering positions.

The Computer Engineering Program at the University of Michigan-Dearborn is accredited by the Engineering Accreditation Commission of ABET (the Accreditation Board for Engineering and Technology), 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 – telephone: (410) 347-7700.

Professional Educational Objectives

The objective of the BSE EE and BSE CE degree programs is to prepare graduates who will be successful in their chosen career paths. Specifically, graduates of these programs will be capable of achieving

1. **Successful Careers:** have successful technical or professional careers and contribute to the well-being of the community.
2. **Lifelong Learning:** continue to learn and to adapt in a world of constantly evolving technology.
3. **Meeting Regional Needs:** Contribute to the needs of the region, including automotive, information technologies, electronics, life sciences, renewable energy, power and defense related industries, consistent with the institution’s mission

Program Outcomes

The Computer Engineering program is designed to demonstrate that graduates of the program have:

- an ability to apply knowledge of mathematics, science, and engineering
- an ability to design and conduct experiments, as well as to analyze and interpret data
- an ability to design a system, component, or process to meet desired needs
- an ability to work cooperatively on multi-disciplinary projects
- an ability to identify, formulate, and solve engineering problems
- an understanding of professional and ethical responsibility
- proficiency in oral and written communications
- the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
- a clear understanding that lifelong learning is essential for sustained professional development
- a knowledge of contemporary issues and its impact on the engineering profession
- an ability to use the techniques, skills and modern engineering tools necessary for engineering practice

Electrical Engineering

Electrical Engineering is the field that deals with the study and application of electricity, electronics and electromagnetism. An early application of the technology was energy conversion using motors and generators to convert one form of energy to another. As the technology advanced, devices that could amplify and process signals were developed which provided the foundation for modern electronics. Modern electronic devices can perform high-speed computations and process information in a wide variety of formats. Electronic devices have radically changed many aspects of daily life including high-definition television, video game consoles, digital cameras, satellite transmissions, GPS navigation, automotive entertainment systems, surround sound, mp3 players and advanced medical imaging systems. These technological advancements require high-speed electronic circuits that can receive, transmit and process electrical signals using circuits and devices developed by electrical engineers. They have the specialized knowledge required to design circuits and systems to perform a variety of functions, such as store electrical energy (batteries and power electronics), control of electric vehicles, transmit signals and information through wires (cable TV) or free space (TV, AM and FM radio, satellite, dish networks), provide automatic control of mechanical systems (cruise control, braking, target tracking and factory automation), enable communication between devices (internet, web, cell phones), process digital signals (microprocessors, digital signal processing algorithms and hardware), and ensure safety and performance of complex systems (electromagnetic compatibility).

A unique feature of the Electrical Engineering program is the opportunity for students to work concurrently to earn a second degree in Computer Engineering by taking an additional 16 credit hours of courses. In this case, a student can earn two Bachelor’s Degrees in just 141 credit hours. Some employment listings require a computer engineering background while others call for specialization in electrical engineering. A student who pursues the dual degree option is qualified for both types of positions and therefore has a distinct advantage in securing employment.

The Electrical Engineering Program at the University of Michigan-Dearborn is accredited by the Engineering Accreditation Commission of ABET (the Accreditation Board for Engineering and Technology), 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 – telephone: (410) 347-7700.

Professional Educational Objectives

The objective of the BSE EE and BSE CE degree programs is to prepare graduates who will be successful in their chosen career paths. Specifically, graduates of these programs will be capable of achieving

1. Successful Careers: have successful technical or professional careers and contribute to the well-being of the community.
2. Lifelong Learning: continue to learn and to adapt in a world of constantly evolving technology.
3. Meeting Regional Needs: Contribute to the needs of the region, including automotive, information technologies, electronics, life sciences, renewable energy, power and defense related industries, consistent with the institution’s mission

Program Outcomes

The Electrical Engineering program is designed to demonstrate that graduates of the program have:

a. an ability to apply knowledge of mathematics, science, and engineering
b. an ability to design and conduct experiments, as well as to analyze and interpret data
c. an ability to design a system, component, or process to meet desired needs
d. an ability to work cooperatively on multi-disciplinary projects
e. an ability to identify, formulate, and solve engineering problems
f. an understanding of professional and ethical responsibility
g. proficiency in oral and written communications
h. the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
i. a clear understanding that lifelong learning is essential for sustained professional development
j. a knowledge of contemporary issues and its impact on the engineering profession
k. an ability to use the techniques, skills and modern engineering tools necessary for engineering practice

CONCENTRATION REQUIREMENTS for Electrical Engineering Programs

ELECTRICAL ENGINEERING PROGRAM FOR STUDENTS ADMITTED AS FRESHMEN (125 HOURS MINIMUM)

Humanities and Behavioral Sciences ........................................ 24 hrs

Basic Preparation for Engineering ........................................ 36 hrs
Chemistry I .............................................................................. 4 hrs
Calculus I, II, III ........................................................................ 11 hrs
Historically, this field developed in the manufacturing industries and their interaction with the surrounding environment. Industrial and systems engineering is concerned with the study and design of integrated systems of people, materials, equipment and their interaction with the surrounding environment. Historically, this field developed in the manufacturing industries where industrial engineers applied their engineering knowledge and management techniques to design and efficiently operate industrial and business systems. But the advent of the modern information technology enabled industrial engineers to apply their quantitative methods and organizational skills to a multitude of large-scale systems in addition to industrial systems. Today, industrial and systems engineers are being called upon, with increasing frequency, to design and improve the performance of systems in a wide spectrum of fields such as the service, energy, transportation, finance, and health care. Thus, their scope is not limited to tackling industrial problems alone, but extends to finding solutions for the endless variety of problems of modern industrial society.

The field of study bridges engineering knowledge, management principles, physical and social sciences, and the life sciences. Simply put, it stresses the scientific and technological approach to the design, development, and the optimal operation of both large-scale and small-scale systems. The industrial and systems engineer is a versatile expert whose talents are vigorously sought, and will be for a long time to come, by various sectors of society.

Undergraduate Degree Program

The undergraduate program in industrial and systems engineering provides first a strong basis in the foundations of engineering: natural and physical sciences, mathematics, socioeconomic-cultural background, the behavioral sciences and the basic engineering sciences which begin the emphasis on problem solving. Then, the program develops the intermediate bases on which industrial systems and other systems engineering work is founded. This includes studies in computer organization and data handling systems, production and manufacturing systems, system modeling and optimization, organization and decision theory, and human factors engineering. Contemporary operations research methods are progressively developed and applied through systems-design case studies ending with a capstone design experience.

The undergraduate degree program in Industrial and Systems Engineering is accredited by the Engineering Accreditation Commission of ABET (the Accreditation Board for Engineering and Technology), 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 – telephone: (410) 347-7700.

An unusual opportunity is available to obtain considerable practical expertise in the student’s specialty for those who elect the internship option.

Students who do well in their undergraduate program are encouraged to consider graduate work and may take some of their electives in preparation for graduate study. Information and assistance regarding fellowships and assistantships for graduate study may be obtained from the Dean, College of Engineering and Computer Science, or from the department chairperson.

Educational Objectives of the BSE (Industrial and Systems Engineering) Program

Consistent with providing a strong academic foundation in the field of Industrial and Systems Engineering, the program educational objectives for our graduates are:

- To remain gainfully employed in Industrial and Systems Engineering related fields,
- To continue develop professionally, and
- To serve in leadership roles.

Program Outcomes

To achieve the educational objectives, the graduates of the program will have:
a. an ability to apply knowledge of mathematics, sciences and engineering
b. an ability to design and conduct experiments, as well as to analyze and interpret data
c. an ability to design a system, component or process to meet desired needs
d. an ability to function on multidisciplinary teams
e. an ability to identify, formulate and solve engineering problems
f. an understanding of professional and ethical responsibility
g. an ability to communicate effectively
h. the broad education necessary to understand the impact of engineering solutions in a global and society context
i. a recognition of the need for, and an ability to, engage in lifelong learning and graduate studies
j. a knowledge of contemporary issues
k. an ability to use the techniques, skills and modern engineering tools necessary for engineering practice
l. an ability to develop innovative solutions to engineering problems
m. an ability to lead a team to achieve desired results

CONCENTRATION REQUIREMENTS

A candidate for the degree Bachelor of Science in Engineering (Industrial and Systems Engineering) is required to pursue scholastic quality and to complete satisfactorily the following program of study:

Industrial and Systems Engineering Program for Students Admitted as Freshmen (128 hours minimum)*

*Information for students planning to transfer to UM-Dearborn from community, colleges or from four-year colleges and universities is given under Admission Information in the General Information section and under Undergraduate Requirements in the Engineering section of this Catalog.

Dual Degree in Manufacturing Engineering

Students must take at least 15 credits beyond the 128 credits needed for the Manufacturing Engineering degree, including ME 230, IMSE 4815, IMSE 4825, and IMSE 4835 from the courses listed in the Manufacturing Engineering curriculum.

Manufacturing Engineering

Manufacturing Engineering is concerned with designing, building, planning, operating, and managing economical production systems for discrete manufacturing. Manufacturing engineers need to have a thorough knowledge of materials and manufacturing processes. They should also be able to design, operate and manage integrated systems that include people, materials, machine tools, material handling equipment, robots, quality measuring equipment, controls and computers.
Traditionally, there has been a strong division between manufacturing engineering and design engineering. Today, however, the boundary between these two functions is narrowing. Both groups work together in teams to assure soundness of design and manufacturability of the product. Manufacturing engineers must understand engineering materials and design besides having expertise in manufacturing tooling and processes, systems and technology. They design and evaluate the capabilities of manufacturing tools and processes, and interact with design engineers during the development of product specifications and tolerances.

Today’s manufacturing equipment is becoming increasingly computer-based. Manufacturing engineers must have a working knowledge of programmable equipment, as well as its interfaces with control hardware. They must understand the multi-layered control architecture of the integrated factory, and the computer-based technologies that enable it.

UNDERGRADUATE DEGREE PROGRAM

The undergraduate program in manufacturing engineering provides first a strong foundation in all of the basic ingredients of engineering: the natural and physical sciences, mathematics, socioeconomic-cultural background, the behavioral sciences and finally the basic engineering sciences that begin the development of problem-solving skills. Then, the program develops intermediate bases on which manufacturing engineering and systems are founded. This includes studies in engineering materials, manufacturing processes, probability and statistics, electronics, computers, human factors/ergonomics and operations research. The program then provides for the detailed study of several advanced topics related to process, assembly, and product engineering; manufacturing productivity and quality; and manufacturing integration methods and system design. Excellent laboratory facilities are available for students to conduct experiments and measure process variables.

Finally, students are required to complete a project dealing with the design of a production system to manufacture a product. The student has to address issues related to technological cost, aesthetics, feasibility, reliability, safety and ethics wherever applicable.

The degree program is accredited by the Engineering Accreditation Commission of ABET (the Accreditation Board for Engineering and Technology), 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 – telephone: (410) 347-7700.

An unusual opportunity is available to obtain considerable practical experience in manufacturing industries for those who elect the internship option.

Students who do well in their undergraduate program are encouraged to consider graduate work. Information and assistance regarding fellowships and assistantships for graduate studies may be obtained from the Dean, College of Engineering and Computer Science, or from the department chairperson.

Educational Objectives of the BSE (Manufacturing Engineering) Program

Consistent with providing a strong academic foundation in the field of Manufacturing Engineering, the program educational objectives for our graduates are:

- To remain gainfully employed in Manufacturing Engineering related fields,
- To continue develop professionally, and
- To serve in leadership roles.

PROGRAM OUTCOMES

To achieve the educational objectives, the graduates of the program will have:

a. an ability to apply knowledge of mathematics, sciences and engineering
b. an ability to design and conduct experiments, as well as to analyze and interpret data
c. an ability to design a system, component, or process to meet desired needs
d. an ability to function on multidisciplinary teams

### Mechanical Engineering and Bioengineering

The mechanical engineering field is one of the oldest of the several engineering fields. It is also one of the broadest in scope, for it is not identified with nor restricted to any particular technology (like nuclear engineering), nor to any particular vehicle (like land-based automobiles), nor to any particular device or particular system. It is, in fact, concerned with so many areas of modern technology that the tasks and challenges of the mechanical engineer are most interesting and varied.

The field is logically associated with mechanical things, but this can lead to a restrictive image. For example, one often associates mechanical engineers with automobiles and, thus, with engines. To the non-engineer this is an acceptable association that implies a knowledge of pistons and carburetors. As engineers know, this picture is very shallow; the breadth of understanding implied when one thinks of designing an engine challenges the imagination. Automobile engines are just one of many devices that convert energy into useful work. To understand this conversion process is also to understand the basic principles of energy conversion applicable to solar engines, jet engines, gas turbines, fuel cells, ship-propulsion systems, rocket engines, hydro-electric power plants, and new kinds of converters not yet developed. The mechanical engineer possesses this universally applicable background in thermodynamics, heat transfer, fluid mechanics, aerodynamics, and combustion theory that is basic to all such systems. The mechanical engineer also has a similar understanding of materials from steels to textiles to biological materials to the latest plastics and the most exotic high temperature composites. The point is that everything that is built is achieved by applying these same principles and using these same materials.

To understand the dynamic nature of most mechanical devices and systems requires a thorough mastery of forces and stresses, of vibrations and acoustics, of shock and impact, of deformation and fracture. Yet, these are basic to virtually every product devised by people or found in nature. Automobiles are just one small example of where they are important.

Thus, the mechanical engineer is a designer who creates physical things of all sorts because the mechanical engineer’s breadth of background is everywhere applicable. The mechanical engineer produces machines to build other machines, and thus is in the forefront of new manufacturing technology. In this role the engineer is faced with the task of building new things created by all kinds of engineers. This exposes the engineer to other technologies, and the mechanical engineer must be able to grasp their essence easily. For example, as the builder of energy devices to tap the oceans’ resources, the mechanical engineer is simultaneously one of the oceanographers, one of the chemists, and one of the environmentalists, as well as the master designer.

The mechanical engineer is comfortable working with people as well as with machines. For example, the role in vehicle design is that of making technical advances in performance, efficiency, and cost while simultaneously meeting the life and comfort requirements of operators and passengers. Logically, then, the mechanical engineer is active in the new fields of biomechanics, biomaterials, biomedical fluid mechanics and heat transfer, air and water pollution, water desalination, sensory aids, and prostheses.

### UNDERGRADUATE DEGREE PROGRAMS

The undergraduate programs in mechanical engineering and bioengineering provide first a strong foundation in all of the basic ingredients of engineering: the natural and physical sciences, mathematics, a comprehensive socio-economic-cultural background, the behavioral sciences, and finally the basic engineering sciences that begin the development of problem-solving skills.

The program provides for the detailed study of several advanced topics, including fluid machinery, heat transfer, manufacturing processes, vibration theory, stress analysis, metallurgy, electrical science, and control systems.
The greatest strength of the undergraduate program is the project-oriented design work that requires the student to organize thinking of the multitude of factors on which every design is based - performance, efficiency, esthetics, cost, reliability, safety, reparability, etc. - and to reach sound conclusions that the student must be prepared to defend and implement. This is the art of engineering, and its study permeates the courses and laboratories of the upper-level instruction in this field.

For those who choose the cooperative education option, it is possible to develop a more thorough understanding of how design factors are considered and how decisions are implemented in industrial organizations.

The undergraduate degree program in Mechanical Engineering is accredited by the Engineering Accreditation Commission of ABET (the Accreditation Board for Engineering and Technology), 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 – telephone: (410) 347-7700.

Students who do well in their undergraduate program are encouraged to consider graduate work and may take some of their electives in preparation for graduate study. Information and assistance regarding fellowships and assistantships for graduate study may be obtained from the Dean, College of Engineering and Computer Science, or from the department chairperson.

**PROGRAM EDUCATIONAL OBJECTIVES**

The broad objective of the program is to provide an educational curriculum whose graduates will be technically skilled and socially responsible mechanical engineers. Necessary to this broad objective is that the graduates possess strong skills in analysis, computation, and experimentation, particularly as these skills impact mechanical engineering systems, design, and application. Complementary to these skills are respect for engineering ethical behavior and understanding of the natural interaction of the profession with society. The graduates must also be adept communicators and team members and be prepared for work in the field or for graduate studies. Program objectives are noted as follows. To achieve the educational objectives, the graduates of the program will have:

a. an ability to apply knowledge of mathematics, sciences and engineering.

b. an ability to design and conduct experiments, as well as to analyze and interpret data.

c. an ability to specify, model, and design a system, component or process to meet desired needs.

d. an ability to function on multidisciplinary teams.

e. an ability to identify, formulate and solve engineering problems.

f. an understanding of professional and ethical responsibility.

g. an ability to communicate effectively.

h. the broad education necessary to understand the impact of engineering solutions in a global and societal context, including environmental and economical impacts.

i. a recognition of the need for, and an ability to, engage in life-long learning.

j. a knowledge of contemporary issues.

k. an ability to use the techniques, skills and modern engineering tools, such as information technology, which are necessary for engineering practice.

**CONCENTRATION REQUIREMENTS**

**Bioengineering Program for Students Admitted as Freshmen (128 hours)**

*Information for students planning to transfer to UM-Dearborn from community colleges or from four-year colleges and universities is given under Admission Information in the General Information section and under Undergraduate Requirements in the Engineering section of this Catalog.

A candidate for the degree BSE degree in Bioengineering is required to pursue scholastic quality and to complete satisfactorily the following program of study.

**Humanities and Behavioral and Social Sciences**

PRE-MEDICAL TRACK..............................(21 credits)

ONE DESIGN COURSE (3 or 4) - list above
UPPER-LEVEL TECH ELECTIVES (6-7)
2 Design or Technical courses from lists above

PRE-MED COURSES (11 credits)
The following four courses (11 credits):
CHEM 225 (3) Organic Chemistry I
CHEM 226 (3) Organic Chemistry II
CHEM 227 (2) Organic Chemistry Lab
BCHM 370 (3) Principles of Biochemistry

ADDITIONAL COURSES ARE RECOMMENDED FOR PRE-MEDICAL STUDENTS PREPARING FOR MEDICAL SCHOOL
ADMISSION – CONSULT THE PRE-MED ADVISOR

Total.................................................................................. 128 hrs

Mechanical Engineering Program for Students Admitted as Freshmen (128 hours)*

*Information for students planning to transfer to UM-Dearborn from community colleges or from four-year colleges and universities is given under Admission Information in the General Information section and under Undergraduate Requirements in the Engineering section of this Catalog.

A candidate for the degree BSE degree in Mechanical Engineering is required to pursue scholastic quality and to complete satisfactorily the following program of study.

Humanities and Behavioral and Social Sciences
Courses that satisfy the UM-Dearborn Campus Distribution and ABET requirements for Engineering students, additional electives in the humanities, behavioral sciences, and social sciences, including composition*................................. 24 hrs

*Specific information can be obtained from the program advisor.

Basic Preparation for Engineering........................................... 49 hrs
Chemistry 144, 146 .......................................................... 8 hrs
Calculus I, II, III ............................................................ 11 hrs
Differential Equations...................................................... 3 hrs
Linear Algebra & Matrices................................................ 2 hrs
General Physics I, II ......................................................... 8 hrs
ENGR 100 Introduction to Engineering ............................ 2 hrs
ENGR 126 Engineering Computer Graphics ..................... 2 hrs
ENGR 216 Computer Methods for Engineers ................. 2 hrs
ENGR 250 Principles of Engineering Material .................. 3 hrs
ME 230 Thermodynamics................................................ 4 hrs
ME 260 Design Stress Analysis........................................ 4 hrs

Professional Subjects and Program Electives......................... 37 hrs
ME 325 Thermal Fluid Sciences I .................................. 4 hrs
ME 345 Engineering Dynamics....................................... 4 hrs
ME 349 Instrumentation Measurement Systems ................ 3 hrs
ME 3601 Design and Analysis of Machine Elements ....... 4 hrs

ME 364 Probability, Statistics and Reliability in Machine Design .... 3 hrs
ME 375 Thermal Fluid Sciences II .................................. 4 hrs
ME 379 Thermal Fluid Laboratory ................................... 3 hrs
ME 381 Manufacturing Processes I .................................. 4 hrs
ME 442 Control Systems Analysis and Design .............. 4 hrs
ECE 305 Introduction Electrical Engineering .................... 4 hrs

Senior Design Project ...................................................... 8 hrs
ME 4671 Senior Design Project ....................................... 4 hrs
ME Design Electives ..................................................... 4 hrs
Upper-Level Tech Electives ............................................ 6 hrs

Total .................................................................................. 128 hrs

Engineering Mathematics
(Concurrent Degree)

The program in engineering mathematics at UM-Dearborn provides the student with an opportunity to extend his/her knowledge of the language of the scientist and to become more proficient in the application of mathematical reasoning to the formulation and solution of scientific problems in engineering. This program recognizes the ever-increasing demand that the changing physical and economic world imposes on the engineering profession. This program seeks to make available to the students the knowledge with which they will be better able to understand and to create the complex mathematical models that represent the world.

A current CECS undergraduate student majoring in Computer Engineering, Electrical Engineering, Industrial and Systems Engineering, Manufacturing Engineering, or Mechanical Engineering may pursue a concurrent Bachelor of Science in Engineering (BSE) degree in Engineering Mathematics. This makes it possible for an engineering student to earn two degrees at the same time: a BSE degree in Engineering Mathematics and a BSE degree in their principal engineering major. Both degrees must be earned at the same time.

The Engineering Mathematics degree requires a minimum of 14 credit hours of course work in advanced mathematics beyond the 16 credits of mathematics already required in the degree program of the student’s principal engineering major. Approved courses for the BSE in Engineering Mathematics concurrent degree include:

MATH 404 Dynamical Systems ........................................ 3 hrs
MATH 405 Integral Equations ......................................... 3 hrs
MATH 412 First Course in Modern Algebra ....................... 3 hrs
MATH 413 Linear Algebra* ............................................ 3 hrs
MATH 420 Stochastic Processes** ................................... 3 hrs
MATH 425 Mathematical Statistics II ............................. 3 hrs
MATH 451 Advanced Calculus I ..................................... 3 hrs
MATH 452 Advanced Calculus II ..................................... 3 hrs
MATH 454 Fourier Series and Boundary Value Problems .... 3 hrs
MATH 462 Mathematical Modeling .................................. 3 hrs
MATH 472 Introduction to Numerical Analysis ................. 3 hrs
MATH 473 Matrix Computation ....................................... 3 hrs
MATH 513 Linear Algebra with Applications ..................... 3 hrs
MATH 555 Functions of a Complex Variable with Applications ................................................................. 3 hrs
The following CECS graduate courses may also be used towards the Engineering Mathematics degree: ECE 555, 560, 567, 580; IMSE 505, 506, 510, 511; ME 518, 519, provided that,

- a minimum of 9 hours is taken from the Mathematics department (MATH) courses listed above, and
- permission to take a graduate course is granted.

### CIS Mathematics

(Concurrent Degree)

Current CECS undergraduate students majoring in Computer and Information Science (CIS) or in Software Engineering (SE) may pursue a concurrent Bachelor of Science (BS) degree in CIS Mathematics. This makes it possible for CECS students to earn two degrees at the same time: a principal BS degree in CIS or in SE and a separate BS degree in CIS Mathematics. Both degrees must be earned at the same time. The courses for the concurrent BS degree in CIS cannot be used as elective credits for the principal degree, but must be taken in addition to the 120 credits required for the BS degree in CIS or the BS degree in SE.

The BS in CIS Mathematics degree requires a minimum of thirty credits in mathematics courses, as follows:

Fourteen credits of mathematics courses required for the BS degree in CIS or in SE:

- MATH 115 Calculus I.............................................. 4 hrs
- MATH 116 Calculus II............................................ 4 hrs
- MATH 217 Introduction to Matrix Algebra................. 2 hrs

**OR**

- MATH 227 Introduction to Linear Algebra.................. 3 hrs
- AND
  - CIS 275 Discrete Structures................................ 4 hrs

*Note: Students may elect MATH 227 instead of MATH 217 but only 14 credits from the courses above will count toward the degree.

Six credits from the following two courses*:

- MATH 205 Calculus III for Engineering Students........... 3 hrs
- OR
- MATH 215 Calculus III*....................................... 4 hrs
- MATH 216 Differential Equations............................ 3 hrs

*Note: Students may elect MATH 215 instead of MATH 205 but only 6 credits from the courses above will count toward the degree.

**Note: Calculus III is required for the SE degree and for the CIS-CS option degree; it must also be taken by CIS-IS option students as part of the requirements for the concurrent BS degree in CIS Mathematics.

A minimum of ten credits from the following courses:

- MATH 315 Applied Combinatorics............................. 3 hrs
- MATH 372 Computing with Mathematica....................... 3 hrs
- MATH 390 Topics in Mathematics*............................. 1-3 hrs
- MATH 395 Elementary Number Theory.......................... 3 hrs
- MATH 404 Dynamical Systems.................................. 3 hrs
- MATH 405 Integral Equations.................................. 3 hrs
- MATH 412 First Course in Modern Algebra............... 3 hrs
- MATH 413 Linear Algebra***.................................. 3 hrs
- MATH 420 Stochastic Processes***............................ 3 hrs
- MATH 425 Mathematical Statistics II.......................... 3 hrs
- MATH 451 Advanced Calculus I................................. 3 hrs

MATH 452 Advanced Calculus II................................. 3 hrs
MATH 454 Fourier Series and Boundary Value Problems........... 3 hrs
MATH 455 Functions of a Complex Variable with Applications****.......................... 3 hrs
MATH 462 Mathematical Modeling................................. 3 hrs
MATH 472 Introduction to Numerical Analysis................ 3 hrs
MATH 473 Matrix Computation................................ 3 hrs

*Prior approval needed

**Credit for only one course from MATH 413, MATH 513, MATH 523

***Credit for only one course from MATH 420, IMSE 506.

****Credit for only one course from MATH 455, MATH 555.

The following CECS graduate courses may also be used towards the CIS Mathematics degree: CIS 451, 532, 551, 552; ECE 555, 560, 567, 580; IMSE 505, 506, 510, 511; ME 518, 519, provided that:

- a minimum of nine hours is taken from the Mathematics department (MATH) courses in list C above, and
- permission to take a graduate course is granted.

### Other Programs

#### Graduate Programs

A Master of Science in Engineering (MSE) degree is offered in automotive systems, computer engineering, electrical engineering, engineering management, industrial and systems, manufacturing systems, and mechanical engineering. A Master of Science (MS) degree is offered in computer and information science, and software engineering. Also, a MSE/MBA offered jointly with Industrial and Manufacturing Systems and the College of Business. See the UM-Dearborn Graduate Catalog for admission requirements and complete program and course descriptions. A graduate course listing is included in this publication.

#### Changes in Policies and Rules

The College of Engineering and Computer Science reserves the right to effect changes in curricula, policies, and rules. Students should consult with the CECS Records and Advising Office (2000 Heinz Prechter Engineering Complex) for the applicable rules at the time of admission.

#### Course Offerings

A brief description of each course offered by the College of Engineering and Computer Science may be found in the following list. Other courses are described in the College of Arts, Sciences, and Letters and College of Business sections of this Catalog.

### Computer and Information Science (CIS)

#### COURSE OFFERINGS

CIS 125 Survey of Computer Science
3.000 Credits

A survey of computer science topics, including history of computing, office productivity software, the internet, HTML, JavaScript, web design, algorithms, assemblers and compilers, gates and logic design, models of computation, artificial intelligence and expert systems, computing ethics, privacy issues, intellectual property. No credit for CIS majors. (F, W, S).
CIS 150  Computer Science I  
4.000 Credits  
Prerequisites: MATH 115* or MATH 113* or MPLS 116  
Co-requisites: CIS 150L  
This course provides a foundation for further studies in computer and information science. It emphasizes a structured approach to problem solving and algorithm development. Topics include principles of program design, coding, debugging, testing and documentation. Students are introduced to the Unified Modeling Language for requirements analysis using use-cases and activity diagrams, an object-oriented programming language (C++), and the fundamentals of computer hardware, system software and components. The course will consist of three lecture hours and one two-hour laboratory. (F, W, S)

CIS 200  Computer Science II  
4.000 Credits  
Prerequisites: (MATH 115 or MPLS 116) and (CIS 150 or IMSE 150 or CCM150) and CIS 275*  
Co-requisites: CIS 200L CIS 275  
This course presents techniques for the design, writing, testing and debugging of medium-sized programs, and an introduction to data structures(stacks, queues, linked lists) using the C++ programming language. C++ topics covered include pointers, templates and inheritance. The principles of UML modeling are also introduced. This course will consist of three lecture hours and one two-hour laboratory. (F, W, S)

CIS 205  C Programming  
3.000 Credits  
Prerequisites: ENGR 100 or (MATH 105 or MPLS 113)  
A study of the C programming language. Students write several programs illustrating the use of C in science, engineering, and business. No credit for CIS Majors.

CIS 275  Discrete Structures I  
4.000 Credits  
Prerequisites: (MATH 115 or MPLS 116) and MATH 115  
Co-requisites: CIS 200  
This course introduces students to various topics in discrete mathematics, such as set theory, mathematical logic, trees, and graph theory. Applications to relational databases, modeling reactive systems and program verification are also discussed. (F, W, S)

CIS 285  Software Engineering Tools  
3.000 Credits  
Prerequisites: CIS 200 and CIS 275  
This course will cover various CASE tools, such as UML modeling and code generation tools, configuration management tools, defect management tools, an integrated development environment for coding and debugging, unit and testing tools, and build tools. Students will learn these tools in a laboratory environment. This course will be comprised of one lecture hour and one two-hour laboratory. (F, W)

CIS 290  Topic in Programming Languages  
2.000 Credits  
Prerequisites: CIS 200  
One significant programming language is covered in depth. The particular language changes from term to term. The language chosen might be Ada, C, MODULA 2, USP, PROLOG, or SMALLTALK.

CIS 294  Programming with Visual Basic  
3.000 Credits  
Prerequisites: CIS 200 or IMSE 200  
An introduction to create professional-looking applications using the graphical user interface of Windows. Students learn how to create graphical objects and controls, write event driven code that responds to clicking on buttons, work with multiple forms and executable files. (F, S).

CIS 296  Java Programming  
3.000 Credits  
Prerequisites: CIS 200 or IMSE 200  
Course covers Java Programming language, focusing on GUI development, distributed computing and network applications.

CIS 297  Intro to C#  
3.000 Credits  
Prerequisites: CIS 200  
This course provides an introduction to the C# programming language and the .NET Framework for the development of Windows game applications. Some discussion of DirectX programming is also included. (W)

CIS 299  Internship  
1.000 TO 3.000 Credits  
Student works with an industrial sponsor in the area of CIS. Approval of Internship Coordinator required. (F, W, S).

CIS 306  Discrete Structures II  
4.000 Credits  
Prerequisites: CIS 275  
This course introduces students to further topics in discrete mathematics, including theory of computation, more complexity theory, coding theory, and game theory.

CIS 310  Computer Org and Assembly Lang  
4.000 Credits  
Prerequisites: (MATH 115 or MPLS 116) and (CIS 200 or IMSE 200) and CIS 275  
The architecture of computer systems and associated software. Topics include digital logic circuits, computer interfacing, interrupt systems, input/output systems, memory systems, assemblers and assembly language programming, and computer networks. (F, W, S).

CIS 350  Data Struct and Algorithm Anlys  
4.000 Credits  
Prerequisites: (MATH 115 or MPLS 116) and (CIS 200 or IMSE 200) and CIS 275  
This course focuses on data design and algorithm design. Data design topics include object-oriented discussions of hashing, advanced tree structures, graphs, and sets. Algorithm design topics include the greedy, divide-and-conquer, dynamic programming, backtracking and branch-and-bound techniques. A significant discussion of algorithm complexity theory, including time and space trade-offs and elementary computability theory, is included. (F, W, S)
This course focuses on data design and algorithm design for software engineers. Data design topics include object-oriented discussions of hashing, advanced tree structures, graphs and sets. Algorithm design topics include the greedy, divide-and-conquer, dynamic programming, backtracking and branch-and-bound techniques. A significant discussion of algorithm complexity theory, including time and space trade-offs and elementary computability theory, is included. (F, W, S)

This course presents an in-depth treatment of the following software engineering topics: software engineering paradigms, requirements, specification, functional design, object-oriented design, user interface design, software verification and validation, and the maintenance and management of software engineering artifacts, as well as an introductory discussion of software reliability. Various phases of the software engineering process will be modeled using UML. (F, W)

This course continues the formal development of the software engineering material begun in CIS 375. Topics covered include personal software process, team software process, formal methods, security, software architecture, software quality assurance, software fault tolerance, the evaluation of the effectiveness of human computer interaction and software reliability. (W, S)

The course introduces students in engineering, management and computer science to modern robot technology and the application of this technology to improve productivity in manufacturing and assembly operations. The emphasis will be on applications of robot technology to production problems rather than on the extensive theory of robotics. (F, W, S)

This course takes a detailed, hands-on approach to study the procedures and techniques used to identify, extract, validate, document and preserve electronic evidence. Students completing this course will be familiar with the core computer science theory and practical skills necessary to perform basic computer forensic investigations, understand the role of technology in investigating computer-based crime, and be prepared to deal with investigative bodies at a basic level.

This course designed to offer selected topics in an area of computer science. The specific topics will be announced (together with special prerequisites) each time offered. Students must elect different topics to take both CIS 390 and CIS 391. (OC).

This course designed to offer selected topics in an area of computer science. The specific topics will be announced (together with special prerequisites) each time offered. Students must elect different topics to take both CIS 390 and CIS 391. (OC).

This course takes a detailed, hands-on approach to study the procedures and techniques used to identify, extract, validate, document and preserve electronic evidence. Students completing this course will be familiar with the core computer science theory and practical skills necessary to perform basic computer forensic investigations, understand the role of technology in investigating computer-based crime, and be prepared to deal with investigative bodies at a basic level.

This course designed to offer selected topics in an area of computer science. The specific topics will be announced (together with special prerequisites) each time offered. Students must elect different topics to take both CIS 390 and CIS 391. (OC).

This course designed to offer selected topics in an area of computer science. The specific topics will be announced (together with special prerequisites) each time offered. Students must elect different topics to take both CIS 390 and CIS 391. (OC).

This course investigates how to design efficient algorithms. Topics include asymptotic analysis, amortized analysis, divide-and-conquer, dynamic programming, greedy algorithms, branch and bound, backtracking, lower bounds, NP-completeness and approximation algorithms.

An introduction to database systems, concepts, and techniques. Topics covered include: database environments, ER modeling, relational data model, object-oriented databases, database design theory and methodology, database languages, query processing and optimization, concurrency control, database recovery, and database security.

The application of artificial intelligence to building decision support and expert systems for management and other applications. Topics include fundamentals of artificial intelligence, knowledge representation and knowledge processing, tools for building expert systems (logic programming, expert shells), decision support system design (modeling and simulation), expert system design (knowledge engineering, learning). (F).
CIS 4261  Inf Sys Analysis & Design I  
4. 000 Credits  
Prerequisites: CIS 375 and CIS 421*  

An introduction to the principles of information systems analysis and design and their role in business organizations. Topics include information systems strategy and planning, ethical issues in information systems, system modeling, clean-room system engineering, domain ontologies, UML, Enterprise Unified Process, e-business, and supply-chain management, deployment and support. Participation in a major design project is a requirement for this course. (F).

CIS 4262  Inf Sys Analysis & Design II  
4. 000 Credits  
Prerequisites: CIS 4261  

This course is a continuation of CIS 4261 and provides students with breadth and depth in the information systems area. Topics include web-based information systems, e-commerce, computer-supported collaborative work, workflow systems, data mining, and data warehousing. Participation in a major design project is a requirement of this course. (W).

CIS 427  Comp Networks and Dis Process  
4. 000 Credits  
Prerequisites: (CIS 350 or CIS 3501 or IMSE 351) or (ECE 370 and MATH276) or (ECE 370 and ECE 276) and IMSE 317  

Study of the management aspects of computing networks and distributed systems. Topics include network architectures (ISO/OSI, TCP/IP, ATM), communication hardware (transmission media, network adaptors, switches), encoding, framing, error detection and correction, reliable transmission, data link control and LAN technology, internetworking, routing/congestion control, network design/management.

CIS 428  High Speed Network Admin  
3. 000 Credits  
Prerequisites: CIS 427  

The course requires students to setup and manage their own computer network in the lab. Topics include: overview of file servers, LAN configurations and protocols, server hardware (CPU, hard drives, memory), server clients, server installation, domains, user accounts, groups, rights, directories, permissions, applications, printers, other OS, monitoring, maintenance, high speed switching, ATM, video, routers, fire walls. (YR).

CIS 435  Web Technology  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: CIS 375* or CIS 553* or CIS 553  

This course deals with the study of technologies used to design and implement multimedia web sites. Topics include web servers, HTML, CGI, scripting languages, Java applets, back-end database connectivity, web security, multimedia, XML. (F, W).

CIS 437  Advanced Networking  
3. 000 Credits  
College of Business  
Prerequisites: CIS 427  

Topics include an overview of the internet, congestion control, quality of service, internet multicasting, multimedia networking, mobile and wireless networks, vehicular networks, overlay networks, peer-to-peer networks, internet management (SNMP), and internet applications (web-HTTP and email-SMTP).

CIS 447  Intro Computr & Ntwrk Security  
3. 000 Credits  
College of Business  
Prerequisites: CIS 450*  

This course will provide a broad-spectrum introduction to the fundamental principles of computer and network security. Topics will include security policies, models and mechanisms for confidentiality, integrity and availability, access control, authorization, cryptography and applications, threats and vulnerabilities in computer networks, key management, firewalls and security services in computer networks.

CIS 450  Operating Systems  
3. 000 OR 4. 000 Credits  
Prerequisites: CIS 310 and (CIS 350 or CIS 3501 or IMSE 350) or (ECE370 and MATH 276) or (ECE 370 and ECE 276) and IMSE 317*  

Introduction to computer operating systems. Process control, threads, concurrency, memory management, virtual memory, uniprocessor, multiprocessor, and real-time scheduling, I/O management, disk scheduling, file management, distributed processing, client/server, clusters, distributed process management, security. (F, W).

CIS 451  Computer Graphics  
3. 000 Credits  
Prerequisites: (MATH 217 or MATH 227) and CIS 350 or CIS 3501 or IMSE350 or (ECE 370 and MATH 276) or (ECE 370 and ECE 276)  

Basic geometrical concepts: graphics output primitives, two-dimensional transformations, windowing and clipping, three-dimensional viewing, visible surface detection methods, and graphical user interfaces. (F).

CIS 452  Inf Vis & Multimedia Gaming  
3. 000 Credits  
College of Business  
Must be enrolled in one of the following Classes:  
Senior  
Prerequisites: CIS 451  

This course introduces basic techniques for digital animation, computer and video games, and web multimedia. Topics include the process of creating animated video clips from start to finish, including story creation, storyboarding, modeling, animation, and post-production; several key techniques for video editing and motion generation, including key frame, motion capture editing, collision detection, particle systems, physical simulation, and real-time rendering; techniques for web animation and multimedia; and internet gaming.

CIS 456  Windows Programming  
3. 000 Credits  
Prerequisites: CIS 350  

This course covers the core tenets of the Microsoft Foundation Class (MFC) or similar package and Windows programming. The emphasis will be on the relationship between Windows Operating System and MFC. Windows OS has three major components: user, graphics device interface (GDI), and kernel. User is a module that controls input devices, GDI is a module that services output devices, and kernel controls internal resources. These three components are called the API and communicate with MFC. Projects will be assigned to simulate the major components of API using MFC. (YR)
CIS 467 Digital Forensics II
4.000 Credits
May not be enrolled in one of the following Colleges:
School of Education
College of Business
May not be enrolled in one of the following Classes:
Freshman
Prerequisites: (CIS 427* or ECE 471*) and (CIS 387 or ECE 387)

This course is a continuation of Digital Forensics I and will focus on Internet Forensics. Students will examine in-depth concepts in Internet evidence collection and preservation, as well as applications of contemporary commercial forensic investigative software.

CIS 474 Compiler Design
3.000 Credits
Prerequisites: CIS 350 or CIS 3501 or IMSE 350 or (ECE 370 and MATH 276)

Principles of language compilation. Introduction to formal languages. Lexical analysis, top-down and bottom-up parsing, code generation and optimization. Error handling and symbol table management. Run-time storage management. Programming language design. Introduction to compiler-writing tools such as LEX and YACC. (F, W).

CIS 475 Software Engineering Seminar
3.000 Credits
Prerequisites: CIS 376

The focus of this course is on management issues related to modern software engineering practice. Students read and discuss papers written by master software engineering professionals. Seminar topics discussed include: management of software engineering processes, software measurement, software engineering ethics, and legal issues related to professional practice. (W, S).

CIS 476 Soft Arch & Design Patterns
3.000 Credits
Must be enrolled in one of the following Colleges:
Coll of Engineering & Comp Sci
Prerequisites: CIS 375

This course focuses on design patterns in object-oriented programming. This course begins with an overview of UML and a review of object-oriented programming and then moves on to various structural, behavioral and creational patterns, including: facades, adapters, bridges, factories and the template method. Analysis of case studies will also be discussed. Using various modern software tools, students will apply various design patterns to real-world software design problems to gain complete practical understanding. (F, W)

CIS 479 Artificial Intelligence
3.000 Credits
Prerequisites: CIS 350 or CIS 3501 or IMSE 350 or (ECE 370 and MATH 276) or (ECE 370 and ECE 276)

This course introduces students to basic concepts and methods of artificial intelligence from a computer science perspective. Emphasis of the course will be on the selection of data representations and algorithms useful in the design and implementation of intelligent systems. The course will contain an overview of one AI language and some discussion of important applications of artificial intelligence methodology. (S).

CIS 487 Computer Game Design & Implement
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
Coll of Engineering & Comp Sci
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: CIS 375*

This course deals with the study of the technology, science and art in the creation of computer games. The focus of the course will be hands-on development of computer games. Students will study a variety of software technologies relevant to computer game design, including programming languages, scripting languages, operating systems, files systems, networks, simulation engines and multi-media design systems. Lecture topics will be taken from several areas of computer science: simulation and modeling, computer graphics, artificial intelligence, real-time processing, game theory, software engineering, human computer interaction, graphic design and game aesthetics. (F).

CIS 488 Computer Game Design II
3.000 Credits
Must be enrolled in one of the following Colleges:
Coll of Engineering & Comp Sci
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: CIS 487

This course is a continuation of the material studied in CIS 487. The focus of the course will be hands-on development of computer game development tools (e.g. game engines). Students will study a variety of software technologies relevant to computer game design, including: 3D graphics, computer animation, data-driven game design, multiplayer game programming, and game AI. Lecture topics will be taken from several areas of computer science: simulation and modeling, computer graphics, artificial intelligence, game theory, software engineering, human computer interaction and game content development. (W)

CIS 490 Advanced Topics
1.000 TO 3.000 Credits
Prerequisites: CIS 350 or CIS 3501 or IMSE 350 or (ECE 270 and CISE 276) or (ECE 370 and MATH 276)

This course is intended for seniors and graduate-level students in CIS. For specific topic, consult current semester's Schedule of Classes. (OC).

CIS 491 Research Project I
1.000 TO 3.000 Credits
Must be enrolled in one of the following Major fields of study:
CIS/Information Systems
Must be enrolled in one of the following Classes:
Senior

Provides the advanced student with the opportunity to undertake a research project under the supervision of a faculty member. At least two weeks prior to registration in the semester when such a course is to be elected, an interested student must submit to the CIS chair and one CIS faculty member a written request for permission to elect a research course on the appropriate form available in the CIS Office. The request will include a
description of the proposed research project. The CIS chair will review the proposal with faculty members to ascertain availability of relevant faculty supervision and to establish appropriate credit. Grades will be granted on a Pass/Fail (S/E) basis exclusively. (F, W, S).

**CIS 492 Research Project II**
1.000 TO 3.000 Credits
Must be enrolled in one of the following Major fields of study:
  - CIS/Information Systems
Must be enrolled in one of the following Classes:
  - Senior

This course is a second registration for a research project in CIS. (F, W, S).

**CIS 493 Independent Study I**
1.000 TO 3.000 Credits

Readings or analytical assignments in accordance with the needs and interests of those enrolled and agreed upon by the student and an instructor, which shall not duplicate a formal course offering. Permission of instructor required. (F, W, S).

**CIS 494 Independent Study II**
1.000 TO 3.000 Credits

This course is a second registration for an independent study in CIS. Permission of instructor required. (F, W, S).

**CIS 495 Design Seminar**
4.000 Credits
  - College of Business
Must be enrolled in one of the following Classes:
  - Senior
Prerequisites: CIS 375

Students participate in the design and implementation of a major software project. Seminar topics discussed include: computing ethics and professional practice in computer science. (F, W, S).

**CIS 4951 Design Seminar I**
2.000 Credits
Must be enrolled in one of the following Colleges:
  - Coll of Engineering & Comp Sci
Prerequisites: CIS 375

Students participate in the design and implementation of a major software project. Seminar topics discussed include: computing ethics and professional practice. (F, W, S).

**CIS 4952 Design Seminar II**
2.000 Credits
Must be enrolled in one of the following Colleges:
  - Coll of Engineering & Comp Sci
Prerequisites: CIS 4951

Students continue to participate in the design and implementation of a major software project. Seminar topics discussed include: computing ethics and professional practice. (F, W, S)

**CIS 496 Design Seminar for SE**
4.000 Credits
Prerequisites: CIS 376 and CIS 476

Software engineering students participate in the design and implementation of a major software project. Seminar topics discussed include: computing ethics and professional practice in software engineering.

**CIS 4961 Design Seminar for SE I**
2.000 Credits
Must be enrolled in one of the following Colleges:
  - Coll of Engineering & Comp Sci
Prerequisites: CIS 376

Software engineering students participate in the design and implementation of a major software project. Seminar topics discussed include: computing ethics and professional practice in software engineering. (F, W, S)

**CIS 4962 Design Seminar for SE II**
2.000 Credits
Must be enrolled in one of the following Colleges:
  - Coll of Engineering & Comp Sci
Prerequisites: CIS 4961 and CIS 476*

Software engineering students continue to participate in the design and implementation of a major software project. Seminar topics discussed include: computing ethics and professional practice in software engineering.

**CIS 499 Internship**
1.000 TO 3.000 Credits

Student works with industrial sponsor in area of CIS. Approval of Internship Coordinator required. (F, W, S).

**Engineering (ENGR) COURSE OFFERINGS**

**ENGR 100 Intro to Eng and Computers**
2.000 Credits
Must be enrolled in one of the following Colleges:
  - Coll of Engineering & Comp Sci
Co-requisites: ENGR 100L

This course gives students a general introduction to the engineering profession and covers some of the elementary skills that students need in order to be successful in their engineering studies. The course covers topics and problems pertaining to mechanical, industrial/manufacturing, and electrical/computer engineering. Aspects of engineering analysis and design are highlighted. Computer skills and communication skills (both oral and written) are emphasized throughout the semester. Two-hour lecture/two-hour laboratory.

**ENGR 126 Engineering Computer Graphics**
2.000 Credits
Must be enrolled in one of the following Colleges:
  - Coll of Engineering & Comp Sci
May not be enrolled in one of the following Classes:
  - Senior
  - Graduate
Co-requisites: ENGR 126L

ENGR 216  Computer Meth for Engineers
2. 000 Credits
Must be enrolled in one of the following Levels:
   Undergraduate
Must be enrolled in one of the following Colleges:
   Coll of Engineering & Comp Sci
Must be enrolled in one of the following Classes:
   Junior
   Sophomore
   Freshman
Prerequisites: ENGR 100 and ENGR 126* and MATH 216* and (MATH 217* or MATH 227*)
Computer programming in C (or one of its derivatives) and application to basic numerical techniques. Numerical integration, solution of systems of linear equations, root finding, curve fitting, error properties, numerical precision. (F, W, S).

ENGR 250  Principles of Eng Materials
3. 000 Credits
Must be enrolled in one of the following Colleges:
   Coll of Engineering & Comp Sci
May not be enrolled in one of the following Classes:
   Senior
Prerequisites: (CHEM 124 or CHEM 144) and CHEM 146* and MATH 115*
Co-requisites: ENGR 250R
An introductory course in engineering materials. Particular emphasis is given to the correlation of material properties and internal structures; structure of materials; stress- strain curves; temperature effects; phase diagrams; ferrous and non-ferrous alloys; ceramics; polymers; composites; electrical, magnetic, and optical properties; corrosion and failure. Two-hour lectures and two one-hour recitations.

ENGR 290  Study Abroad Technical Subj
1. 000 TO 4. 000 Credits
Must be enrolled in one of the following Colleges:
   Coll of Engineering & Comp Sci
Must be enrolled in one of the following Classes:
   Senior
   Sophomore
   Freshman
   Junior
200-level study abroad course in technical subjects.

ENGR 300  Creative Problem Solving
1. 000 Credits
Principles of creative thinking, innovation, and group dynamics will be examined. The steps of creative problem solving will be presented and used in a practice problem: 1) problem definition, 2) verbal brainstorming and other idea-generating methods, 3) creative idea evaluation, 4) idea judgment and decision making, and 5) implementation. Finally, the two phases of the Pugh method (creative design evaluation) will be studied in a practical application.

ENGR 332  Speech for Professionals
3. 000 Credits
Professionals must effectively communicate in the technical and business environment of a company organization. The course pays particular attention to verbal communications within and between organizations, focusing on multiple audiences and their varying needs for information. Stressing audience awareness, organization, clarity and efficiency in speaking, it will improve speaking skills necessary for confident verbal presentations such as professional briefings and conferences.

ENGR 350  Nanoscience and Nanotechnology
4. 000 Credits
Must be enrolled in one of the following Levels:
   Undergraduate
Must be enrolled in one of the following Colleges:
   Coll of Engineering & Comp Sci
   Coll of Arts, Sciences&Letters
Must be enrolled in one of the following Major fields of study:
   Biochemistry
   Biological Sciences
   CIS/Computer Science
   CIS/Information Systems
   Chemistry (ACS Certified)
   Chemistry (Instructional)
   Computer Engineering
   Electrical Engineering
   Engineering
   Environmental Science
   Environmental Studies
   Industrial & Systems Engin
   Manufacturing Engineering
   Mechanical Engineering
   Microbiology
   Physics
   Software Engineering
Must be enrolled in one of the following Classes:
   Senior
   Junior
Prerequisites: PHYS 151 and CHEM 124
The terms "nanoscience" and "nanotechnology" have come to mean many different scientific and technical disciplines. The course will introduce students to the fundamentals of nanoscience and nanotechnology. Interesting phenomena about individual nanometer scale objects will be discussed. The difference in properties of objects of nanometer scale, containing hundreds or thousands of atoms and those exhibited by individual atoms or molecules or the properties of materials at the macro scale with which we are most familiar will be covered. The analytical techniques that are used to characterize these objects will be discussed. The manufacturing techniques used to make these objects along with their applications will be covered. Cost benefit analysis of nanotechnology and its future will be discussed. (YR)

ENGR 390  Study Abroad Technical Subj
1. 000 TO 4. 000 Credits
Must be enrolled in one of the following Colleges:
   Coll of Engineering & Comp Sci
Must be enrolled in one of the following Classes:
   Senior
   Sophomore
   Freshman
   Junior
300-Level study abroad topics in technical subjects.

ENGR 400  Appl Business Tech for Engr
3. 000 Credits
Must be enrolled in one of the following Levels:
   Undergraduate Professional Development
Must be enrolled in one of the following Classes:
   Senior
   Post-baccalaureate NCFD
This course will introduce the students those business skills/tools that will be needed in their jobs soon after graduation and will make them better and well-rounded engineers. They will be able to function better within today's global business environment. The major topics of the course are management finance including cost accounting, organizational behavior, program and project management and business related system thinking. Three hours of lecture per week.

ENGR 490  Study Abroad Technical Subj
1.000 TO 4.000 Credits
Must be enrolled in one of the following Colleges:
Coll of Engineering & Comp Sci
Must be enrolled in one of the following Classes:
Senior
Sophomore
Freshman
Junior

400-level study abroad course in technical subjects.

Electrical and Computer Engineering (ECE)

COURSE OFFERINGS

ECE 210  Circuits
4.000 Credits
Prerequisites: (MATH 116 or MPLS 215) and PHYS 151*
Co-requisites: ECE 210L

Fundamental laws, electrical elements and sources, energy and power. DC analysis of linear circuits. Node and mesh analysis. Operational amplifiers and op-amp circuits, Thévenin and Norton theorems. Sinusoidal steady-state response and the phasor concept. Introductory concepts on complex frequency, average power in AC circuits. Transient responses. Three lecture hours per week and one three-hour laboratory per week.

ECE 270  Computer Methods in ECE I
4.000 Credits
Prerequisites: ENGR 100

Covers structured and object-oriented computer programming concepts in the context of the C/C++ programming language and engineering applications. Four lecture hours per week with programming assignments.

ECE 273  Digital Systems
4.000 Credits
Prerequisites: ENGR 100
Co-requisites: ECE 273L

Introduction to digital logic. Topics include numbers and coding systems; Boolean algebra with applications to logic systems; Karnaugh and Quine-McCluskey minimization; combinatorial logic design; flip-flops; sequential network design; and design of digital logic circuits. Three lecture hours per week and one three-hour laboratory per week.

ECE 276  Discrete Math in Computer Engr
4.000 Credits
Prerequisites: (MATH 116 or MPLS 215) and ECE 273*

An introduction to fundamental concepts of discrete mathematics for computer engineering. Topics will be chosen from set theory, partially ordered sets, lattices, Boolean algebra, semi-groups, rings, graphical representation of algebraic systems, graphs, and directed graphs. Applications in various areas of computer engineering will be discussed. (YR).

ECE 299  Internship
3.000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior

This is a Cooperative Education course. Students wishing to experience a work experience before graduation may elect to participate in the Cooperative Education Program (minimum of two terms). (F, W, S).

ECE 300  Signals and Systems
4.000 Credits
Prerequisites: ECE 210 and (MATH 217* or MATH 227*) and MATH 216

Signals and systems representation and classification. Impulse response and convolution integral. Fourier analysis of continuous time signals and systems. Laplace transforms with applications to linear system analysis. Introduction to computer software for solving problems involving signals and systems. Three lecture hours and three recitation hours per week.

ECE 305  Intro to Electrical Eng
4.000 Credits
May not be enrolled in one of the following Major fields of study:
Electrical Engineering
Prerequisites: PHYS 151 and MATH 205 and (MATH 217* or MATH 227*)
Co-requisites: ECE 305L

Introduction to electrical and electronic circuits, machinery, and instrumentation. Topics include Kirchoff's Laws, Thévenin and Norton theorems, sinusoidal and transient circuit analysis, numerical methods, solid state electronics, motors and generators, measuring instruments. Three lecture hours and one three-hour laboratory analysis. Not open to ECE students.

ECE 311  Electronic Circuits I
4.000 Credits
Prerequisites: ECE 210 and CHEM 144 and (COMP 270* or COMP 106* or COMP 220* or COMP 280* or CPAS 40)
Co-requisites: ECE 311L

Terminal characteristics and biasing of semiconductor diodes, bipolar and field-effect transistors, operational amplifiers. Rectifiers, amplifiers, and logic. Design projects. Three lecture hours and one three hour laboratory per week.

ECE 314  Filter Design
3.000 Credits
Prerequisites: ECE 311 and ECE 317

Review of filter descriptions, transfer functions, and frequency response characteristics; first and second order passive and active filters; biquad circuits; filter transformations. Butterworth, Chebyshev, and Elliptic filters; OPAMP realization of active filters; sensitivity analysis of active circuits. Three lecture hours per week.
ECE 316  Computer Electronics
0.00 TO 3.000 Credits
Prerequisites: ECE 210 and ECE 273 and (COMP 270* or COMP 106* or CPAS40 or COMP 220*)

Design of selected electronic circuits such as signal conditioning amplifiers. Switching and digital logic circuits, using FET and BJT devices, A/D and D/A converters. Two-hour lecture and one three-hour lab per week. (YR).

ECE 317  Electronic Signals and Systems
4.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: MATH 216 and (MATH 217* or MATH 227*) and ECE 311*

ECE 319  Electromagnetic Compatibility
4.000 Credits
Prerequisites: ECE 311

Introduction, cabling, grounding, balancing and filtering, passive components, shielding, digital circuit noise and PCB layout, radiation, ESD, regulations, demos, experiments, lab projects and guest lectures. Three Lecture hours and one three-hour laboratory per week.

ECE 321  Electromagnetic Fields/Waves
3.000 Credits
Prerequisites: ECE 311*

Vector analysis; static electric field; steady electric currents; static magnetic fields; time-varying fields and Maxwell's equations; plane electromagnetic waves. Three lecture hours per week.

ECE 365  Control Syst Analysis & Design
4.000 Credits
May not be enrolled in one of the following Major fields of study:
Electrical Engineering
Prerequisites: ECE 305 or ME 345
Co-requisites: ECE 365L

System and signal representation, elementary modeling of physical systems. Laplace transform, transfer functions and block diagrams representation. State variable representation. Concept of feedback, and transient and frequency response methods. System stability criteria. Control system design. Three lecture hours and one three-hour laboratory per week. (Not open to ECE students.)

ECE 370  Adv Soft Techn in Comp Engr
4.000 Credits
Prerequisites: ECE 270 and ECE 273*

Advanced concepts and techniques of modular object oriented and structured programming; representative real-world computer engineering applications including data structures, search and sorting. A term project is required. Four lecture hours per week. (F, W, S).

ECE 371  Information Structures
3.000 Credits
Prerequisites: ECE 370 or ECE 274

Fundamentals of computer data structures. Introduction to abstract data types. Characteristics and implementation of structured data types including arrays, stacks, queues, linked lists, generalized lists, trees, and graphs. Algorithms and applications of data structures in sorting and searching. Considerations of algorithm efficiency and complexity. Engineering applications and design. Three lecture hours per week.

ECE 372  Intro to Microprocessors
0.00 OR 4.000 Credits
Prerequisites: (ECE 270 and ECE 273) or CIS 310 and (COMP 270 or COMP106 or COMP 220 or CPAS 40)

Introduction to operation, interfacing, and applications of microcomputers and microprocessor-based systems. Assembly language programming, interrupts and interfacing. Three lecture hours and one three-hour laboratory per week.

ECE 375  Intro to Comp Architecture
4.000 Credits
Prerequisites: ECE 270 and ECE 273 and (ECE 276* or MATH 276*) and ECE 372*

Introduction to architecture of mini- and mainframe computers. CPU, memory, and I/O characteristics. Introduction to parallel architectures and hardware design languages. Case studies of popular computer systems and design considerations. A design project is required. Three lecture hours and one laboratory hour per week.

ECE 3801 Intro to Signals and Systems
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
May not be enrolled in one of the following Major fields of study:
Electrical Engineering
May not be enrolled in one of the following Classes:
Freshman
Prerequisites: ECE 210 and MATH 216

ECE 385  Elec Materials and Devices
3.000 Credits
Prerequisites: ECE 311* and CHEM 144

Introduction to properties of conductors, semi-conductors, and insulators. Definitions of stress and strain. Description of the mechanical behavior of solids. Characterization of selected materials; circuit models for resistors, capacitors, inductors, junction and field-effect transistors, etc. Three lecture hours per week.
ECE 387  Digital Forensics I
4. 000 Credits
May not be enrolled in one of the following Levels:
Rackham
Graduate
May not be enrolled in one of the following Colleges:
School of Education
College of Business
May not be enrolled in one of the following Classes:
Freshman
Prerequisites: (ECE 270 or CIS 200) and (ECE 370* or ECE 372* or CIS310*)
This course takes a detailed, hands-on approach to study the procedures and techniques used to identify, extract, validate, document and preserve electronic evidence. Students completing this course will be familiar with the core computer science theory and practical skills necessary to perform basic computer forensic investigations, understand the role of technology in investigating computer-based crime, and be prepared to deal with investigative bodies at a basic level.

ECE 390  Selected Topics in ECE
1. 000 TO 3. 000 Credits
Special topics in ECE according to student's interest and availability of instructors and equipment.

ECE 399  Internship/Co-op
2. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior
A four-month professional work experience period of the Engineering Internship Program, integrated and alternated with the classroom terms.

ECE 411  Electronics II
4. 000 Credits
Prerequisites: ECE 301 and ECE 311
Review of solid state devices and their physical properties, introduction to the state of art devices, design of operational amplifiers, oscillators, switching and digital circuits. A project will be required. Three lecture hours per week and one three-hour laboratory per week.

ECE 413  Intro to VLSI Design
3. 000 Credits
Prerequisites: ECE 273 and ECE 311
Introduction to digital systems and VLSI, CMOS fabrication, layout and CMOS integrated circuits, basic principles of MOSFET theory, CMOS logic circuits, subsystem design, Architecture design and HDL, CLSI chip design, advanced topics, laboratory consist of a series of design projects. Three lecture hours per week.

ECE 414  Electronic Systems Design
4. 000 Credits
Prerequisites: ECE 311 and ECE 317*
Review of solid state device characteristics and circuit analysis. Design of selected electronic circuits such as operational amplifiers, power amplifiers, power supplies, oscillators, switching and digital circuits to further illustrate analysis and design of representative electronic circuits using classical and computer-aided design techniques. Four lecture/laboratory per week.

ECE 415  Power Electronics
4. 000 Credits
Prerequisites: ECE 317 and ECE 385
Introduction to power electronic circuit analysis and design. Power electronic circuits, power converters, power semiconductors. Time domain analysis emphasized. A design project is required. Four lecture/laboratory hours per week.

ECE 420  EMC Measurement and Testing
3. 000 Credits
Prerequisites: ECE 319
Introduction to EMC measurements, RF measurement fundamentals, EM waves, radiation mechanisms, measurement and measurement systems, screened rooms, open field test sites, practical measurements, conducted emission measurements, radiated emission measurements, radiated immunity, conducted immunity and electrostatic discharge. Projects will be assigned. (YR).

ECE 431  Electrical Eng Design
6. 000 Credits
Prerequisites: ECE 311 and ECE 373 and ECE 493*
The course is conducted as a guided project design course with the class divided into teams and assigned a specific design project. Periodic progress reports are submitted during the term. A final written report and an oral presentation including demonstration are required at the end of the term. Cost analysis, evaluation of design alternatives and application of engineering principles are emphasized. Two scheduled contact hours and six hours open laboratories per week.

ECE 432  Electrical Eng Design
6. 000 Credits
Prerequisites: ECE 311 and ECE 372 and ECE 493*
The course is conducted as a guided project design course over a two-semester period with the class divided into teams and assigned a specific design project. Periodic progress reports are submitted during the term. A final written report and an oral presentation including demonstration are required at the end of the term. Cost analysis, evaluation of design alternatives and application of engineering principles are emphasized. Two scheduled contact hours and six hours open laboratories per week.

ECE 433  Intr to Multimedia Technolgies
4. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Senior
Junior
Prerequisites: ECE 311 or ECE 370
This course will introduce students to basic terminology and methods of multimedia. Basic concepts of digital audio will be reviewed, including frequency, sampling, and popular compression schemes. Concepts of digital images will be introduced, such as resolution, color theory, and compression formats. Basic concepts of digital video and animation will be introduced. Relevant web technologies will be reviewed. Four lecture hours per week.
ECE 434  Machine Learning in Engin
4. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: ECE 370
Introduce fundamental theories and basic techniques in machine learning with an emphasis on engineering applications. Topics include learning concepts, search algorithms, neural networks, fuzzy learning, paradigms for problem solving using machine learning. (F, W).

ECE 435  Intro to Mobil/Smrt Dev & Tech
4. 000 Credits
Must be enrolled in one of the following Major fields of study:
Computer Engineering
Electrical Engineering
Software Engineering
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: ECE 372
This class will introduce students to the technology used in mobile/smart devices and mobile communication networks. Various hardware and software aspects will be introduced, with particular emphasis on the constraints intrinsic to such systems. Students will get an overview of various mobile operating systems and how to develop software for mobile devices. Four lecture hours per week.

ECE 436  Elec Machines & Hybrid Drives
4. 000 Credits
Must be enrolled in one of the following Major fields of study:
Computer Engineering
Electrical Engineering
Software Engineering
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: ECE 311
This is an introductory course on electric machines and drive systems and their application in EV, HEV, PHEV and FCV powertrains. The objectives are to familiarize the students with the basic concepts of electromechanical energy conversion and electric drive systems. Students are expected to be able to analyze and design electric drive systems for automotive powertrain applications. The topics covered in this course include DC machines, induction machines, permanent magnet synchronous machines, and switched reluctance motors and drives. Case studies in automotive applications such as electric and hybrid drive trains will be discussed. Four lecture hours per week.

ECE 438  Web Engr: Prin & Tech
4. 000 Credits
Must be enrolled in one of the following Major fields of study:
Computer Engineering Electrical Engineering Software Engineering
Must be enrolled in one of the following Classes:
Senior
Prerequisites: ECE 311 or ECE 370
Advanced concepts and techniques of web technology, focusing on interactive applications; real-world web engineering applications including data persistence, web security, hardware/software issues and asynchronous client/server communication. A term project is required. Four lectures per week.

ECE 443  Intr to Electric Power Systems
3. 000 Credits
Prerequisites: ECE 317
This course will introduce students to basic methods of electric power systems. Topics include AC circuits, phasors, complex power and complex impedance, transformers, per unit system, transmission lines, power flow, economic dispatch, real and reactive power control, symmetrical and unsymmetrical faults, transient stability, relaying and protection. Three lecture hours per week.

ECE 4431  Vehicular Pwr Sys & Loads
4. 000 Credits
Prerequisites: ECE 317
This is an introductory course on power systems and load analysis with focus on automotive applications. The objectives are to familiarize the students with the basic principles and concepts of vehicular power systems and loads. Students are expected to be able to analyze and design basic vehicular power systems. The topics covered in this course include an overview of power systems, vehicular power system architecture, DC and AC power grid in vehicular systems, power system stability, reliability, reactive power control, load flow analysis, short circuit analysis, and vehicular power system protection. Four lecture hours per week.

ECE 446  Electromechanical Energy Conv
4. 000 Credits
Prerequisites: ECE 311 and ECE 317*
Introduces fundamental concepts and specifications of electromechanical energy conversion: AC and DC machines drive, electric and magnetic storage and transfer, transformer, and performance analysis of AC and DC machines. The topics include principles of energy conversion, permanent magnet synchronous machines, induction machines, and DC machines. The lab projects for the course will focus on modeling, evaluation, and practice of AC and DC machine drives based on computer simulation and DSP based experiments; transient and dynamic analysis; linearization and small signal analysis of machines. Four lecture/laboratory hours per week.

ECE 450  Analog and Digital Comm Sys
4. 000 Credits
Prerequisites: ECE 317 and IMSE 317
Topics include introduction to communication systems, baseband communications, sampling theorem, amplitude and frequency modulation system design, statistical analysis of error and performance, digital modulation of analog signals, digital communication and digital modulation schemes, random processes and applications in digital communications, and noise analysis, optimal receiver. Four lecture hours per week.
ECE 451  Signal Detection
3. 000 Credits
Prerequisites: ECE 450

Introduction to signal detection, parameter estimation and information extraction theory and its application to communication systems. Subject areas covered within the context of a digital environment are decision theory, detection and estimation of known and random signals in noise, adaptive recursive digital filtering, optimal linear filtering and pattern recognition. Three lecture hours.

ECE 452  Probabilistic Meth/Signal Aly
3. 000 Credits
Prerequisites: ECE 300

Introduction to probability, random processes, correlation functions, and spectral density. Response of linear systems to random inputs. Applications in the field of communications.

ECE 454  Intr to Modern Wireless Comm
3. 000 Credits
Must be enrolled in one of the following Levels:
- Undergraduate
- Must be enrolled in one of the following Colleges:
  - Coll of Engineering & Comp Sci
- May not be enrolled in one of the following Classes:
  - Sophomore
  - Freshman
Prerequisites: ECE 450 and ECE 471

This course provides an introduction to the fundamentals of modern wireless communication. The focus of this course will be on the (i) basic signal propagation issues and channel impairments, (ii) modulation schemes and bandwidth/power trade-offs, and (iii) overcoming channel impairment using equalizers, diversity and channel coding. Additionally case studies will examine current wireless LANs and cellular system.

ECE 455  Intro to Electro-optics
3. 000 Credits
Prerequisites: ECE 311 and ECE 321

Laser sources, detectors, imaging systems, optical signal processing, illumination and image acquisition, triangulation, and fiber optics. Three one-hour lecture periods.

ECE 456  Automatic Control Systems
4. 000 Credits
Prerequisites: ECE 450

Co-requisites: ECE 460L

Modeling and response of dynamic systems. Transfer functions, poles and zeros and their significance to transient and steady state response of feedback systems. Analysis of stability of closed-loop systems. Steady state errors and transient performance of closed-loop systems. Design of feedback control systems by root locus techniques and by frequency domain methods. Laboratory projects include modeling, controller design, controller realization, system performance evaluation, and simulation studies. Three lecture hours and one three hour laboratory per week.

ECE 460  Embedded System Design
4. 000 Credits
Prerequisites: ECE 372

This course studies the issues dealing with real-time embedded system design. Topics include: microprocessor architecture, assembly language, real-time programming, space and time limitations, relations between ANSI C Compiler output and assembly language, compiler linkers and using a system development package for C programming. (F, W, S).
ECE 474  Compiler Design
3. 000 Credits
Prerequisites: ECE 370

Principles of language compilation. Introduction to formal languages. Lexical analysis, top-down and bottom-up parsing, code generation and optimization. Error handling and symbol table management. Run-time storage management. Programming language design. Introduction to compiler-writing tools. A software design project is required. Three lecture hours per week.

ECE 475  Comp Hardware Org/Design
4. 000 Credits
Prerequisites: ECE 375

Design methodology, performance analysis using probability and statistic methods, hardwired and microprogramming in CPU design, hardware design languages and memory design. Advanced concepts in computer architecture. A design project is required. Three lecture hours per week and one three-hour laboratory per week.

ECE 476  Intro to Parallel Processing
3. 000 Credits
Prerequisites: ECE 375

Advances in computer architecture, parallel structures, performance evaluation, memory bandwidth considerations, processing bandwidth, communication and synchronization. A design project is required. Three lecture hours per week.

ECE 478  Operating Systems
4. 000 Credits
Prerequisites: ECE 370 and IMSE 317

Introduction to computer operating systems. Process management, threads, CPU scheduling, memory management, process synchronization, file systems and I/O devices. Selected advanced topics, e. g., distributed systems, deadlock, I/O, job scheduling, and performance analysis using queuing models, will be introduced. Case studies of modern operating systems. A design project is required. Four lecture hours per week.

ECE 479  Artificial Intelligence
3. 000 Credits
Prerequisites: ECE 370

Basic concepts and methodology of artificial intelligence from a computer engineering perspective. Emphasis is placed on the knowledge representations, reasoning and algorithms for the design and implementation of intelligent systems. Introduction to an AI language and representative intelligence systems. A design project is required. Three lecture hours per week.

ECE 480  Intro to Dig Signal Processing
4. 000 Credits
Must be enrolled in one of the following Colleges:
Coll of Engineering & Comp Sci
Prerequisites: ECE 317 and (MATH 217 or MATH 227)

ECE 488  Introduction to Machine Vision
4. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Prerequisites: ECE 270

Applications to machine vision. Representative topics are: optics and lighting, sensor characteristics, image acquisition, image analysis, segmentation, connectivity, shape description, hardware for vision applications, software considerations, applications including automatic inspection and metrology. Open lab and project will be required.

ECE 4881  Introduction to Robot Vision
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Major fields of study:
Bioengineering
Computer & Information Science
Computer Engineering
Electrical Engineering
Industrial & Systems Engin
Mechanical Engineering
Software Engineering
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: ECE 270

This course introduces the theories and modern technologies in robot vision. Topics include sensors, image analysis, region and segmentation, object recognition, stereo vision, optical flow, color image, object tracking and applications. Three lecture hours per week.

ECE 490  Selected Topics in Elec Engin
1. 000 TO 3. 000 Credits

Advanced or applied topics in electrical engineering offered according to student's interest and availability of instructors and equipment. Lecture hours, laboratory, and/or computation period to be arranged.

ECE 491  Directed Studies
1. 000 TO 4. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Graduate

Student in consultation with a faculty advisor will prepare a proposal in sufficient detail describing a subject topic to be studied. The proposal will be subject to approval by the department. A formal written and oral evaluation of the work performed are required for successful completion. Lecture hours, laboratory, and/or computation periods to be arranged.

ECE 492  Directed Research
1. 000 TO 4. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Graduate

Student, in consultation with a faculty advisor will prepare a proposal in sufficient detail describing a research problem to be studied. The proposal will be subject to approval by the department. A formal written and oral evaluation of the research performed are required for successful completion. Lecture hours, laboratory, and/or computation period to be arranged.
ECE 493  Design Factors in Eng  
2. 000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Graduate  
This course is comprised of a series of lectures on the subject of design. It will promote awareness of such factors as literature review, performance specifications, design considerations, product liability, standards and ethics, professional registration codes, patents and copyrights, packaging, documentation and report preparation. Two lecture hours.

ECE 495  Micro Systems Design  
4. 000 Credits  
Prerequisites: ECE 373 and (ECE 311 or ECE 316)  
Course content includes discussion and laboratory experience on a number of interfacing topics (timing, serial and parallel communication, ADC/DAC, control loop) and the preparation of a major report on a design topic approved by the course instructor. Team design projects may involve either software or hardware, or both. Two lecture hours and two three-hour laboratories per week.

ECE 4951  Sys Design and Microcontrollers  
3. 000 Credits  
Prerequisites: ECE 311 and ECE 372  
Techniques for interfacing actuators and sensors to computers with emphasis on the use of a variety of microprocessors and a broad range of sensors. Topics include introduction to small microprocessors such as PIC16, PIC18, small systems such as oopic, basicx as well as using a PC as a controller. Control of motors and other actuators using opto-isolators and discrete electronics, use of H-bridges. Interfacing sensors that provide different encoding data, such as analog signals, digital communication using I2C protocol, handshake I/O, pulse width encoding. Interfacing to wireless communication using RF or IR. Includes laboratory experiments, individual midterm project and a final team project. Three lecture hours per week. (F, W)

ECE 498  Senior Engineering Design  
3. 000 Credits  
Prerequisites: (ECE 311 or ECE 316) and ECE 373  
This course is conducted as a guided project design course over a two-semester period, with the class divided into teams, each assigned a specific design project. Periodic progress reports, a final written report, an oral presentation and project demonstration are required. Cost analysis, societal impact, safety issues, evaluation of design alternatives and application of engineering principles will be emphasized. A series of lectures on design issues will be presented in the first semester.

ECE 4981  Electrical Engineering Des I  
2. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Colleges:  
Coll of Engineering & Comp Sci  
Must be enrolled in one of the following Classes:  
Senior  
Prerequisites: (COMP 270 or COMP 220 or CPAS 40 or COMP 106 or ECE317 and ECE 372 and ECE 375 and (ECE 414 or ECE 415 or ECE 450 or ECE 460 or ECE 480 or ECE 4951)  
This course is conducted as a guided project design course over a two-semester period, with the class divided into teams, each assigned a specific design project. Periodic progress reports, a final written report, an oral presentation and project demonstration are required. Cost analysis, societal impact, safety issues, evaluation of design alternatives and application of engineering principles will be emphasized. A series of lectures on design issues will be presented in the first semester.

ECE 4982  Computer Engineering Des I  
2. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Colleges:  
Coll of Engineering & Comp Sci  
Must be enrolled in one of the following Classes:  
Senior  
Prerequisites: (COMP 270 or COMP 220 or COMP 106 or CPAS 40) and ECE317 and ECE 372 and ECE 375 and (ECE 471 or ECE 473 or ECE 478 or ECE475)  
This course is conducted as a guided project design course over a two-semester period, with the class divided into teams, each assigned a specific design project. Periodic progress reports, a final written report, an oral presentation and project demonstration are required. Cost analysis, societal impact, safety issues, evaluation of design alternatives and application of engineering principles will be emphasized. A series of lectures on design issues will be presented in the first semester.

ECE 4983  Electrical Engin Design II  
2. 000 Credits  
Must be enrolled in one of the following Colleges:  
Coll of Engineering & Comp Sci  
May not be enrolled in one of the following Classes:  
Junior  
Senior  
Freshman  
Prerequisites: ECE 4981  
Second Semester Electrical Engineering Design This course is conducted as a guided project design course over a two semester period, with the class divided into teams, each assigned a specific design project. Periodic progress reports, a final written report, an oral presentation and project demonstration are required. Cost analysis, societal impact, safety issues, evaluation of design alternatives and application of engineering principles will be emphasized.

ECE 4984  Computer Engin Design II  
2. 000 Credits  
Must be enrolled in one of the following Colleges:  
Coll of Engineering & Comp Sci  
May not be enrolled in one of the following Classes:  
Junior  
Senior  
Freshman  
Prerequisites: ECE 4982  
Second Semester Computer Engineering Design This course is conducted as a guided project design course over a two semester period, with the class divided into teams, each assigned a specific design project. Periodic progress reports, a final written report, an oral presentation and project demonstration are required. Cost analysis, societal impact, safety issues, evaluation of design alternatives and application of engineering principles will be emphasized.
ECE 4985  Electrical Engineering Design
3. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Prerequisites: (COMP 270 or COMP 106 or COMP 220 or CPAS 40) and ECE317 and ECE 372 and (ECE 414 or ECE 415 or ECE 450 or ECE 460 or ECE 480 or ECE 4951)

This course is conducted as a guided project design course over a two-semester period, with the class divided into teams, each assigned a specific design project. Periodic progress reports, a final written report, an oral presentation and project demonstration are required. Cost analysis, societal impact, safety issues, evaluation of design alternatives, and application of engineering principles will be emphasized. A series of lectures on design issues will be presented in the first semester.

ECE 4986  Computer Engineering Design
3. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Prerequisites: (COMP 270 or CPAS 40 or COMP 106 or COMP 220) and ECE317 and ECE 372 and ECE 375 and (ECE 471 or ECE 473 or ECE 478 or ECE475)

This course is conducted as a guided project design course over a two-semester period, with the class divided into teams, each assigned a specific design project. Periodic progress reports, a final written report, an oral presentation, and application of demonstration are required. Cost analysis, societal impact, safety issues, evaluation of design alternatives, and application of engineering principles will be emphasized. A series of lectures on design issues will be presented in the first semester.

ECE 499  Internship/Co-op
2. 000 Credits
Must be enrolled in one of the following Classes:
Senior
A four-month professional work experience period of the Engineering Internship Program, integrated and alternated with the classroom terms.

Industrial and Manufacturing Systems Engineering (IMSE) COURSE OFFERINGS

IMSE 150  Computer Science I
3. 000 OR 4. 000 Credits
Prerequisites: MATH 115*
Co-requisites: IMSE 150L

This course provides a foundation for further studies in computer and information science. It emphasizes a structured approach to problem solving and algorithm development. Students learn principles of program design, coding, debugging, testing, and documentation. Student are introduced to the Unified Modeling Language for requirements analysis using use-cases and activity diagrams, an object-oriented programming language (C++), and the fundamentals of computer hardware, system software, and components.

IMSE 200  Computer Science II
3. 000 OR 4. 000 Credits
Prerequisites: MATH 115 and (CIS 150 or IMSE 150 or CCM 150)
Co-requisites: CIS 275 IMSE 200L

This course presents techniques for the design, writing, testing, and debugging of medium-sized programs, and an introduction to data structures (stacks, queues, linked lists) using the C++ programming language. C++ topics covered include pointers, templates, and inheritance. The principles of UML modeling are also introduced. This course will consist of three lecture hours and one two-hour laboratory.

IMSE 255  Computer Programming for Eng
3. 000 Credits
Prerequisites: ENGR 100 or MATH 105 or MPLS 113

Intermediate topics in computer programming: arrays, files, structured data types, pointers, functions. Overview of digital computer hardware and system software components: machine architecture, operating systems, computer networks, data security, and performance evaluation.

IMSE 299  Internship (Co-op)
3. 000 Credits
Must be enrolled in one of the following Classes:
Junior
Senior
Graduate

This is a Cooperative Education course. Students wishing to experience a work experience before graduation may elect to participate in the Cooperative Education Program (minimum of two terms). (F, W, S).

IMSE 300  Intro to Operations Research
3. 000 Credits
Prerequisites: (MATH 217 or MATH 227) and IMSE 317*

This course introduces some basic techniques of operations research used in decision making and system performance evaluation in both deterministic and probabilistic environments. Topics in linear programming, especially the simplex method with duality theory and sensitivity analysis, will be included. Other topics include deterministic dynamic programming, queuing theory, and applications.

IMSE 3005  Intro to Operations Research
4. 000 Credits
Prerequisites: (MATH 217 or MATH 227) and IMSE 317*

This course introduces some basic techniques or operations research used in decision making and system performance evaluation in both deterministic and probabilistic environments. Topics in linear programming, especially the simplex method with duality theory and sensitivity analysis is included. Other topics include integer programming, deterministic dynamic programming, network problems, PERT-CPM, discrete-time and continuous-time Markov chain models of random processes, queuing theory and applications. (YR)

IMSE 317  Eng Probability and Statistics
3. 000 Credits
Prerequisites: MATH 116 or MPLS 215 or MATH 114

Set theory, combinatorial analysis, probability and axioms, random variables, continuous and discrete distribution functions, expectations, Chebyshev's inequality, weak law of large numbers, central limit theorem, sampling statistics and distributions, point and interval estimation and linear regression. Three hours lecture.
IMSE 320  Fundamentals of Computer Sys
3. 000 Credits

This course provides an introduction to computer systems with a balanced coverage of both hardware and software concepts. Topics include data representation, data manipulation and storage technologies, data communications technology, operating systems, mass storage access and management, and advanced topics in computer systems.

IMSE 334  Org of Hospital Systems
3. 000 Credits

Must be enrolled in one of the following Classes:
Junior
Senior
Graduate

The fundamental concepts of organizational behavior are explored. The interrelationships among personnel in an organization, and the functions and responsibilities of individuals are discussed. Topics studied include decision-making theory, organizational authority and adjunct responsibility, leadership and supervision. Particular emphasis is placed upon hospitals and the health care industry. Lectures are supplemented with actual case studies from the health care industry in which the student has the opportunity to apply problem-solving techniques to true-to-life situations. Three hours lecture.

IMSE 350  Data Structures
4. 000 Credits

Prerequisites: MATH 115 and (CIS 200 or IMSE 200) and CIS 275 and CIS275

This course focuses on data design and algorithm designs. Data design topics include object-oriented discussions of hashing, advanced tree structures, graphs and sets. Algorithm design topics include the greedy, divide-and-conquer, dynamic programming, backtracking, and branch-and-bound techniques. A significant discussion of algorithm complexity theory, including time and space trade-off and elementary computability theory is included.

IMSE 351  Data Struc & Algorithm Anlysis
3. 000 Credits

Prerequisites: IMSE 255 or CIS 150 or IMSE 150 or CCM 150

Object-oriented design, programming, and analysis techniques review; structured programming concepts; data structures; algorithm design and analysis; lists, stacks, and queues; heaps, sorting, trees, graphs, and algorithm development utilizing modern languages, such as C++, Java.

IMSE 352  Intro to File Processing
3. 000 Credits

Prerequisites: IMSE 200 and CIS 175

File processing environment, storage media, sequential, random and indexed sequential files, inverted lists, multilists, tree structures, file control systems. Three hours lecture.

IMSE 356  Real Time Computing
3. 000 Credits

Prerequisites: IMSE 150 or IMSE 255

Introduction to real time computing concepts applicable to discrete systems. Fundamentals of real time hardware, operating systems and C programming language. Selected coverage of instrumentation, input/output modes, data conversion, single task and multitask programming. Two hours of lecture and three hours of laboratory per week.

IMSE 381  Industrial Robots
3. 000 Credits

Must be enrolled in one of the following Classes:
Junior
Senior
Graduate
Prerequisites: MATH 115

The course introduces students in engineering, management, and computer science to modern robot technology and the application of this technology to improve productivity in manufacturing and assembly operations. The emphasis will be on applications of robot technology to production problems rather than on the extensive theory of robotics.

IMSE 382  Manufacturing Processes
4. 000 Credits

Prerequisites: ENGR 250 and (ME 265 or ME 260)

This course introduces the students to the fundamentals and principles of manufacturing processes for engineering materials. It seeks to transfer an understanding of the application of principles of engineering materials and their influence on manufacturing processes. Topics covered include structure and manufacturing properties of metals, casting, heat treatments, bulk deformation processes, sheet metal working processes, processing of polymers and composites, surfaces and coating, powder metallurgy, machining and joining. Case studies of design for manufacturing and measurement of product quality; economical aspects and cost considerations in manufacturing systems will be studied. Three lecture hours and three laboratory hours.

IMSE 383  Instru and Measure System
2. 000 Credits

Prerequisites: ME 265 and ECE 305

This course introduces students in engineering to the fundamentals and applications of modern instrumentation systems, transducers, and elementary signal processing techniques. Topics such as system specifications and calibration, interfacing techniques, computer-based data acquisition are addressed. Laboratory and hands-on experiments are included. One lecture hour and three laboratory hours.

IMSE 390  Selected Topics I
3. 000 Credits

Study of topics selected from any of the areas of Industrial and Systems Engineering. May include design or laboratory research.

IMSE 391  Selected Topics II
3. 000 Credits

Study of Advanced topics selected from any of the areas of Industrial and Systems Engineering. May include design or laboratory research.
IMSE 398 Independent Study in IMSE
1. 000 TO 3. 000 Credits
Must be enrolled in one of the following Colleges:
Coll of Engineering & Comp Sci
May not be enrolled in one of the following Classes:
Graduate
Sophomore
Freshman

Individual study design or laboratory in an area of interest to the student. Contents may be chosen from any of the areas of Industrial and Manufacturing Engineering. The student will submit a report on his or her project at the end of the term. Written permission of the instructor required. (F, W, S).

IMSE 399 Internship
IMSE 2. 000 Credits
Must be enrolled in one of the following Classes:
Junior
Senior
Graduate

A four-month professional work experience period of the Engineering Internship Program, integrated and alternated with the classroom terms.

IMSE 400 Programming Languages
4. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: IMSE 350 or CIS 350 or CCM 350

Systematic study of programming languages with regard to their implementation, structures, and use. Languages are compared with regard to their various data types, data structures, operations, control structures, programming environments, and ease of use in solving various programming problems.

IMSE 421 Eng Economy and Dec Anlys
3. 000 Credits
Must be enrolled in one of the following Classes:
Junior
Senior
Graduate

Study of the concepts involved in the analysis of engineering management decisions, both short and long term. Time valued investments and the effects of depreciation and taxes in comparing alternatives are discussed. Specific attention is devoted to deterministic and probabilistic replacement policies for single and chain replacements of equipment. Basic elements of utility theory are introduced. Applications of decisions under risk, uncertainty, and of game theory to capital investment, bidding, and to competitive decisions are included.

IMSE 437 Health Care Management
3. 000 Credits
Must be enrolled in one of the following Classes:
Junior
Senior
Graduate

This course is intended for those who have to deal with the administrative aspects of health care systems and not only the technical. The goal of the course is to provide the hospital staff member with an understanding of operations of the total hospital system. Topics covered include functions, problems, and organization of the medical agencies and their effect upon hospitals; methods of nursing staff organization; techniques of determining nursing staff levels; development of staff schedules; financial reimbursement and governmental regulations.

IMSE 442 Human Factors and Ergonomics
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: IMSE 317*

The analysis and prediction of human performance in industrial and other man-machine systems using work sampling, time-motion analysis, synthetic and standard time study, and learning curves, in the design of such systems. Also the design of individual workstations and tasks addressing biomechanics and work physiology, hand tool design, noise, lighting, occupational health, and information processing. Lectures and laboratory.

IMSE 4425 Human Factors and Ergonomics
4. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: IMSE 317

The course integrates the elements of traditional methods of engineering and time-motion studies with ergonomics and human factors concepts. Methods improvement, work measurement, and work design, applied to manufacturing and service industries, so as to increase productivity and improve worker health and safety. The topics covered include: problem solving tools; operation analysis; time-motion analysis; work sampling; manual and cognitive work design; workplace, equipment, tool and work environment design; allowances; and lean manufacturing. Lectures and laboratory. (YR)

IMSE 450 Operating Systems
4. 000 Credits
Prerequisites: (CIS 350 or CIS 3501 or IMSE 350) or (ECE 370 and MATH276) or (ECE 276 and ECE 370) and IMSE 317

Introduction to computer operating systems. Process management, CPU scheduling, memory management, file systems and I/O devices. Advanced topics, e.g., multiprogramming and multitasking, virtual memory, deadlock, I/O, job scheduling, and performance analysis using queuing models, will be introduced. Case studies of modern operating systems. A design project is required.

IMSE 451 Computer Graphics
3. 000 Credits
Prerequisites: IMSE 351 or CIS 351 or CIS 350 or IMSE 350 or CCM 350

The mathematics, algorithms and data structures of computer graphics programming in 2 or 3 dimensions. Applications of computer graphics in Engineering Science and Data Processing.

IMSE 453 Data Comm/Distributed Process
4. 000 Credits
Prerequisites: CIS 350 or CIS 3501 or IMSE 351 or (ECE 370 and MATH 276) or (ECE 370 and ECE 276) and IMSE 317

Study of the technical and management aspects of computing networks and distributed systems. Topics include network architectures (ISO/OSI, TCP/IP, ATM), communication hardware (transmission media, network adapters, switches), encoding, framing, error detection and correction, reliable transmission, data link control and LAN technology, internetworking, routing/congestion control, network design/management.
IMSE 454 Information Systems Design
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: IMSE 255

Role of information systems in organizations. Economic factors and social impact of information systems. Phases to design an information system: systems objectives and criteria establishment, fact investigation and analysis, feasibility study, output-input design, processing design, file and database design, safety and reliability considerations, detailed systems description, programming specifications, testing, performance measurement, and evaluation. Projects will integrate the systems analysis and design skills will be assigned. Two lecture hours and one three-hour laboratory.

IMSE 4545 Information Systems Design
4.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: IMSE 255 or CIS 205

Role of information systems in organizations. Economic factors and social impact of information systems. Phases to design an information system: systems objectives and criteria establishment, fact investigation and analysis, feasibility study, output-input design, processing design, file and database design, safety and reliability considerations, detailed systems description, programming specifications, testing analysis and design skills will be assigned. A series of cases will be used in developing an information system. SQL will be used to develop data tables and access information. Three lecture hours and one three-hour laboratory. (W)

IMSE 456 Intro to Data Base Systems
4.000 Credits
Prerequisites: CIS 350 or CIS 350A or IMSE 351 or (ECE 370 and MATH 276)

An introduction to database system concepts and techniques. Topics covered include database environments, ER modeling, relational data model, object-oriented database, object-relational database, database design theory and methodologies, database languages, query processing and optimization, concurrency control, database recovery, and database security.

IMSE 457 Compiler Design
3.000 Credits
Prerequisites: IMSE 350 or CIS 350 or CCM 350

The design and construction of compilers and programming systems. Lexical scan; parsing techniques; code generation and optimization. Run-time organization; storage allocation. Applications of formal language theory in compiler design. Translator writing systems; XPL. Three one-hour lectures.

IMSE 458 Simulation in Systems Design
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: IMSE 300 and IMSE 317

This course introduces digital simulation as a design and modeling tool. The fundamental techniques of constructing a simulation model and evaluating the results are studied. Primarily, the ARENA/SIMAN/CINEMA language is used and several other computer simulation methods are examined. Statistical techniques are used to evaluate system output. Students are asked to select problems of interest and present final project reports. Three lectures and three-hour laboratory.

IMSE 4585 Simulation in Systems Design
4.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: (IMSE 300 or IMSE 3005) and IMSE 317

This course introduces digital simulation as a design and modeling tool. The fundamental techniques of constructing a simulation model and evaluating the results are studied. A computer simulation software is used (such as ARENA, ProModel, Witness, Simul8). Topics include random number and random variate generation, input and output data analysis, design of experiments and optimization of simulated systems, verification and validation, discrete and continuous simulation models, comparison of simulation modeling software, and applications of simulation in different industries. Students are asked to select problems of interest and present final project reports. Four lecture hours. (YR)

IMSE 467 Stat Meth for Process Improve
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: IMSE 317

Hypothesis testing, analysis of variance, and statistical design of experiments. Introduction to Deming's principles and the seven QC tools. Applications of these techniques for process improvement and quality assurance. Three lecture hours.

IMSE 4675 Six Sigma & Stat Proc Improv
4.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: IMSE 317

Review of graphical methods, probability theory and statistics (stem-and-leaf plots, histograms, scatter diagrams, counting methods, axioms of probability, common discrete and continuous probability models, expectation, linear combinations, estimation, sampling distributions, confidence intervals, hypothesis testing, and A vs. B type of experimentation for both unpaired and paired data); introduce quality terminology in manufacturing and service industry contexts, study the theory, design and application of common statistical process control models for variables and attributes; study process capability and gauge and measurement capability methods; study the design and analysis, both graphical and analytic, of statistically designed experiments (one-way completely randomized designs, and randomized, complete block designs); study the application and analysis of two-level, factorial and fractional factorial designs. Learn to apply and interpret analysis of variance to above situations. Extensive analytic homework and applications used throughout course to motivate material. Each student completes an individual project of his/her own design, subject to instructor approval, entailing a modeling application or controlled experiment where the student collects the data. Four hours lecture. (YR)
IMSE 474  Facilities Design
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: COMP 270 and IMSE 300 and IMSE 317 and IMSE 421
Analysis, planning and design of physical facilities utilizing operations research, engineering and economic principles. Synthesis of physical plant equipment and man into an integrated system for either service or manufacturing activities. Design of material handling systems. Students are required to select problems of interest and present design project reports.

IMSE 4745 Facilities Design
4.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: (COMP 270 or COMP 106 or COMP 220 or CPAS 40) and (IMSE300 or IMSE 3005) and IMSE 317 and IMSE 421
Analysis, planning and design of physical facilities utilizing research, engineering and economic principles. Synthesis of physical equipment and workers into an integrated system for either service or manufacturing activities. Design of material handling and storage systems. Layout of lean manufacturing facilities. Design of atmospheric, electrical, lighting, and life safety systems for a facility. Students are required to select problems of interest and present design project reports. (F)

IMSE 479 Prod and Inventory Sys Design
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: (COMP 270 or COMP 106 or COMP 220 or CPAS 40) and IMSE300 and IMSE 317
Study of concepts involved in forecasting demand, planning, scheduling and controlling production. The application of mathematical programming techniques, stochastic processes, quality assurance and line balancing to the analysis and design of the production systems. Use of the computer programs in the design of production and inventory control systems. Students are asked to select problems of interest and present final project reports. (F)

IMSE 4795 Prod, Inven Control & Lean Mfg
4.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: (COMP 270 or COMP 106 or COMP 220 or CPAS 40) and (IMSE300 or IMSE 3005)
Study of concepts involved in forecasting demand, inventory control, MRP, JIT production, lean manufacturing, aggregate scheduling, and project management. The application of mathematical programming techniques, bottleneck analysis, and lean techniques such as value stream mapping, error proofing, cellular manufacturing, etc. are used in design and analysis of production systems. Use of the computer programs in the design and analysis of such systems. Students are asked to select problems of interest and present final project reports. (OC)

IMSE 481 Manufacturing Processes II
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: (COMP 270 or COMP 106 or COMP 220 or CPAS 40) and IMSE467 and (IMSE 382 or ME 381)
This course introduces the students to machining processes, molding and forming of plastics and the fundamentals of metrology and its application to assess produce quality. Metal cutting theory is emphasized including the mechanics of metal cutting, cutting tools, measure of tool life, selection of cutting conditions, and chip control; theory and applications of non-traditional manufacturing processes. Basic principles of plastics molding and forming processes of plastics, ceramics, and composites. Fundamentals of metrology include linear and angular measurements, standards, gauges, machine tool accuracy, and automation of inspection processes. Laboratory exercises, experiments and projects are required. Two lecture hours and three laboratory hours.

IMSE 4815 Manufacturing Process II
4.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Prerequisites: (COMP 270 or COMP 220 or COMP 106 or CPAS 40) and IMSE382
Co-requisites: IMSE 4675
This course introduces the students to machining processes, metal forming processes and molding and forming of plastics. Metal cutting theory is emphasized including the mechanics of metal cutting, cutting tools, measurement of tool life, selection of cutting conditions, and chip control; theory and applications of non-traditional manufacturing processes. Metal forming theory is emphasized including formability of metals; analysis of bulk and sheet metal forming processes as applied to practical cases such as automobile manufacturing. Basic principles of plastic molding and forming processes of plastics, ceramics and composites. (W)

IMSE 482 Industrial Controls
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
Coll of Engineering & Comp Sci
Prerequisites: ECE 305
This course introduces the principle aspects of computers and their applications in systems control, principal of automation, with emphasis on manufacturing industries. Discussion on the hardware and software associated with this task and other topics such as integrated systems modeling, sensor technologies, digital and analog signal processing and control, and information communication are also included. Laboratory exercises and projects are required.

IMSE 4825 Industrial Controls
4.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
Coll of Engineering & Comp Sci
Prerequisites: ME 265 and ECE 305
This course introduces the basics of calibration, error analysis, and dynamic response characteristics of instrumentation. Fundamentals of metrology include linear and angular measurements, standards, gauges, machine tool accuracy, and automation of inspection processes. The course also introduces the principle aspects of computers and their applications in system control, as well as principles of automation with emphasis on manufacturing industries. Discussion of the hardware and software associated with this task and other topics such as integrated systems modeling, sensor technologies,
digital and analog signal processing and control, and information communication are also included. Laboratory exercises and projects are required. (F)

**IMSE 483 Comp-Integrated Manufacturing**

3.000 Credits

Must be enrolled in one of the following Levels:
- Undergraduate
- Coll of Engineering & Comp Sci

Must be enrolled in one of the following Colleges:
- Senior

Prerequisites: IMSE 382

This course provides basic knowledge of elements in Computer-Integrated Manufacturing Systems, with particular emphasis on Computer-Aided Design (CAD), Computer-Aided Manufacturing (CAM), Computer-Aided Process Planning (CAPP), materials handling, and information flow in manufacturing systems. Hands-on experiments and course projects are required. Two lecture hours and three laboratory hours.

**IMSE 4835 Comp.-Aided Precs Design & Mfg**

4.000 Credits

Must be enrolled in one of the following Levels:
- Undergraduate
- Senior

Prerequisites: IMSE 382

This course focuses on the fundamentals of component and system designs through the use of Computer-Aided Design (CAD) tools. Issues related to the manufacture of molds, jigs and fixtures are also introduced and Computer-Aided Manufacturing (CAM) tools are used as means for the production of these machine components. The principles of design for manufacture and assembly as applied to tool and machine design are also discussed. Computer-Aided Process Planning (CAPP) tools, flexible manufacturing systems, and information flow in manufacturing systems are also presented. Hands-on experiments and course projects are required. (W)

**IMSE 484 CA Machine and Tool Design**

3.000 Credits

Must be enrolled in one of the following Levels:
- Undergraduate
- Prerequisites: IMSE 382 or ME 381

Study of the fundamentals of machine tool design, cutting tools, metal forming dies, and jig fixtures for practical applications in machining and assembly. Principles of design for manufacture and assembly as applied to tool and machine design. Laboratory exercises and projects are required using computer-aided design software. Two lecture hours and three laboratory hours.

**IMSE 486 Design for Assembly & Mfg**

3.000 Credits

Must be enrolled in one of the following Levels:
- Undergraduate
- Prerequisites: IMSE 382

This course will cover topics in manufacturing with emphasis on the parallel product design and selection of specifications for processes. Topics included are the principles of concurrent engineering, geometric dimensioning and tolerancing (GD&T), process engineering, process planning, cost estimating, and design for manufacturing. Projects using computer tools are required on a team-oriented basis.

**IMSE 488 Metal Forming Processes**

3.000 Credits

Must be enrolled in one of the following Levels:
- Undergraduate

Prerequisites: IMSE 382

This course focuses on fundamentals of metal forming processes; mechanics of metal forming; formability of materials; tool and die design; design for manufacture; and economic aspects of the process. Emphasis is placed on analysis of bulk and sheet metal forming processes as applied to practical cases such as automobile manufacturing. Laboratory and course project are required.

**IMSE 489 Robotics Systems Simulation**

3.000 Credits

Must be enrolled in one of the following Classes:
- Senior

Prerequisites: IMSE 382

Graduate

The course emphasizes the fundamentals of the design of robotics systems with the aid of robot simulation technology; structure and basic components of robots and robotics manufacturing work cells; control, kinematics, and dynamics of robots and manufacturing devices; robot accuracy and calibration of robot motion; applications of robots in manufacturing such as spot welding, arc welding, machining, assembly and CMM; robot simulation software such as ROBCAD or IGRIP. Course project is required. Available for graduate credit. (YR)

**IMSE 490 Selected Topics**

3.000 Credits

Individual or group study, design or laboratory research in a field of interest to the student. Topics may be chosen from any of the areas of industrial and systems engineering including management, work measurement, methods, organization, industrial sciences, industrial mathematics, systems and procedures. If preliminary arrangements are made, the work internship periods can be used to formulate the problem and gather data. Completion of the analysis and submission of a report shall be done during the academic periods under the supervision of a faculty member or members. The student should prepare for both a written and oral presentation of the report. This course is highly recommended as a technical elective. Permission of department.

**IMSE 491 Directed Studies in IMSE**

1.000 TO 3.000 Credits

Group study of contemporary topics in industrial and systems engineering and general systems design. Course may be elected for credit more than once under different instructors. Permission of department.

**IMSE 495 Design Project**

3.000 Credits

Prerequisites: IMSE 382* and IMSE 454* and IMSE 458* and IMSE 474* and IMSE 479*

Design of a system to produce a product or service including the design of its information, inventory control, and handling systems, using the knowledge gained in previous courses in the program. The project assignment will be dependent upon the concentration selected by the student. Two three-hour lecture/lab/computer periods.
IMSE 4951  Design Project I  
2.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Colleges:  
Coll of Engineering & Comp Sci  
Must be enrolled in one of the following Major fields of study:  
Industrial & Systems Engin  
Manufacturing Engin  
Must be enrolled in one of the following Classes:  
Senior  
Prerequisites: ENGR 400*  
Design of a system to produce or service using knowledge gained in previous courses in the program. Two two-hour lecture/lab periods. (F, W, S)  

IMSE 4952  Design Project II  
2.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Colleges:  
Coll of Engineering & Comp Sci  
Must be enrolled in one of the following Major fields of study:  
Industrial & Systems Engin  
Manufacturing Engin  
Must be enrolled in one of the following Classes:  
Senior  
Prerequisites: IMSE 4951  
Design of a system to produce or service using the knowledge gained in previous courses in the program. It is the continuation of the project started in Design Project I course. (F, W, S)  

IMSE 496  Design Project in Manufacturing  
3.000 Credits  
Must be enrolled in one of the following Colleges:  
Coll of Engineering & Comp Sci  
Must be enrolled in one of the following Classes:  
Senior  
Graduate  
Each student is required to complete a project dealing with the design of a manufacturing system to manufacture a product. The student has to address issues related to cost, ethics, feasibility and safety, wherever applicable. A formal written report and oral presentation is required. The course commonly extends over two semesters.  

IMSE 498  Guided Study in IMSE  
1.000 TO 3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Colleges:  
Coll of Engineering & Comp Sci  
May not be enrolled in one of the following Classes:  
Sophomore  
Freshman  
Individual study, design, or laboratory research in a field of interest to the student. Content may be chosen from any of the areas on industrial and manufacturing engineering. The student will submit a report on his or her project at the close of the term. Permission of department. (F, W, S).  

IMSE 499  Internship  
2.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Classes:  
Senior  
A four-month professional work experience period of the Engineering Internship Program, integrated and alternated with classroom terms.  

Mechanical Engineering (ME)  
COURSE OFFERINGS  

ME 230  Thermodynamics  
4.000 Credits  
Prerequisites: PHYS 150 and (MATH 116 or MPLS 215) and (CHEM 114 or CHEM 124 or CHEM 134)  
The course is a general introduction to thermodynamics with emphasis on engineering applications. Properties of pure substances. Work and heat. The first and second laws of thermodynamics. Entropy and efficiency. Applications to systems and control volumes. Mixtures of gases and vapors, air conditioning. Introduction to cycles. This course will become the first in a two-course series for mechanical engineering students, and will also be elected as a terminal course by IMSE students.  

ME 260  Design Stress Analyses  
4.000 Credits  
Must be enrolled in one of the following Colleges:  
Coll of Engineering & Comp Sci  
Prerequisites: PHYS 150 and (ENGR 250* or ECE 385*) and (MATH 205* or MPLS 215 or MATH 215*)  
An introduction to statics and stress analyses with emphasis on both mechanics fundamentals and design applications. (F, W, S).  

ME 265  Applied Mechanics  
4.000 Credits  
Prerequisites: PHYS 150 and (MATH 205* or MPLS 215 or MATH 215*)  
A comprehensive introduction to the science of applied mechanics, encompassing a study of forces and the stresses, deflections, and motions which they produce. Topics include the concept of equilibrium and static force analysis; the mechanics of deformable bodies (internal stresses, constitutive relationships, strains, deflections, flow, failure); statics of indeterminate systems; kinematics; kinetics of particles, systems of particles, and rigid bodies. Four hours lecture. (F, W, S).  

ME 290  Spec Topics in Mech Engin  
1.000 TO 3.000 Credits  
Special topics in mechanical engineering selected according to students’ interest and availability of instructors and equipment.  

ME 299  Internship (Co-op)  
3.000 Credits  
Must be enrolled in one of the following Classes:  
Junior  
Senior  
Graduate  
This is a Cooperative Education course. Students wishing to experience a work experience before graduation may elect to participate in the Cooperative Education Program (minimum of two terms). (F, W, S).
ME 325  Thermal Fluid Sciences I
4.000 Credits
Must be enrolled in one of the following Colleges:
Coll of Engineering & Comp Sci
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior
Prerequisites: (ENGR 216 or ME 215) and ME 230 and ME 260

ME 3251  Applied Thermodynamics
2.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Major fields of study:
Mechanical Engineering
Prerequisites: ME 230 and ENGR 216

Power and refrigeration cycles. Thermodynamic relations. Ideal gas mixtures and psychrometrics. Reacting ideal gas mixtures. (F, W, S)

ME 3252  Fluid Mechanics
2.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Major fields of study:
Mechanical Engineering
Prerequisites: ME 230 and ENGR 216

Fluid properties. Fluid statics. Fluid flow kinematics. Integral fluid flow analyses; the conservation laws - mass, energy, momentum. Introduction to differential analysis of fluid flow. Diversional analysis. (F, W, S)

ME 345  Engineering Dynamics
4.000 Credits
Prerequisites: (ME 215 or ENGR 216) and ME 260

A comprehensive treatment of statics and the kinematics and kinetics of particles, systems of particles, and rigid bodies from a Newtonian viewpoint utilizing rigorous vector techniques. The time-dependent description of kinematical quantities and of dynamic forces and moments. Matrix methods and digital computer techniques.

ME 349  Instrument & Measurement Systems
3.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
Coll of Engineering & Comp Sci
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior
Prerequisites: (ME 265 or ME 345) and ECE 305
Co-requisites: ME 349L

Modern instrumentation systems are considered beginning with generic issues such as calibration, error analysis, and dynamic response characteristics of instrumentation. Specific transducer systems (temperature, force and pressure, etc.) are presented, as well as interfacing techniques and elementary signal processing. Microprocessors are introduced for use in measurement and control applications. (F, W, S).

ME 3601  Des and Analy of Mach Elem
4.000 Credits
Must be enrolled in one of the following Major fields of study:
Mechanical Engineering
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior
Prerequisites: (ENGR 216 or ME 215) and ME 260

Application of fundamental mechanics to analysis and design of elementary mechanical components and systems. Topics include: stress and strain analysis; experimental measurement; stress concentration; failure theories; safety factor; fatigue; fracture; combined loading; impact; buckling; energy methods. Components considered: fasteners; springs; bearings; gears; beams; shafts and other power transmission components. Numerical techniques. (F, W, S).

ME 364  Prob, Stats, and Rel in Mach D
3.000 Credits
Prerequisites: (MATH 217 or MATH 227) and ME 260 and ENGR 216 and ENGR216

Introduction to planned experiments in machine design and mechanical metallurgy with emphasis on orthogonal test programs with small blocks. Classical statistical analyses (e.g., analysis of variance for randomized complete block and split-plot designs) as well as computer intensive analyses (e.g., permutation and randomization tests). Maximum likelihood analysis for censored and uncensored life data and for strength (quantal response) data. Systems reliability in machine design.

ME 371  Heat Transfer
3.000 Credits
Prerequisites: ME 320 and ECE 305*

ME 375  Thermal Fluid Sciences II
4.000 Credits
Must be enrolled in one of the following Colleges:
Coll of Engineering & Comp Sci
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior
Prerequisites: (ME 325 or ME 320) and ECE 305*

ME 379  Thermal-Fluids Laboratory
3.000 Credits
Prerequisites: (ME 3251 or ME 3252 or ME 325 or ME 320) and (ME 349 or ME 348) and (ME 371* or ME 375*) and (COMP 270 or COMP 106 or CPAS40 or COMP 220)

An experimental investigation of thermodynamic, fluid mechanic, and heat transfer principles. Students will learn about thermal-fluids instrumentation and conduct experiments. In addition, they will design their own experiments to demonstrate their understanding of the principles. (F, W, S).

ME 381  Manufacturing Processes I
4.000 Credits
Prerequisites: ENGR 250 and (ME 260 or ME 265)

This course introduces the students to the fundamentals and principles of manufacturing processes for engineering materials. It seeks to transfer an understanding of the application of principles of engineering materials and their influence on manufacturing processes. Topics covered include structure and manufacturing properties of metals, casting, heat treatments, bulk deformation processes, sheet metal working processes, processing of polymers and composites, surfaces and coating, powder metallurgy, machining and joining. Case studies of design for manufacturing and measurement of product quality; economical aspects and cost considerations in manufacturing systems will be studied. Three lecture hours and three laboratory hours.

ME 399  Internship (Co-op)
2.000 Credits
Must be enrolled in one of the following Classes:
  - Junior
  - Senior
  - Graduate

A four-month professional work experience period of the Engineering Internship Program, integrated and alternated with the classroom terms.

ME 410  Finite Element Method wth Appl
3.000 Credits
Prerequisites: ME 345 and (ME 360 or ME 3601) and ME 375*

A presentation of the basic concepts and fundamentals of the Finite Element Method of Analysis in general, followed by applications to both continuum and field problems. Selected areas of application: dynamics and vibration including wave propagation; acoustics; fluid mechanics including film lubrication and ground water flow; heat transfer; elasticity and stress/strain analysis including structures; electrical field problems including electrostatics and electromagnetics. Two lectures and a comp/rec. period. (F, W, S).

ME 4191  Structural Mech & Design
4.000 Credits
Must be enrolled in one of the following Levels:
  - Undergraduate
Must be enrolled in one of the following Colleges:
  - Coll of Engineering & Comp Sci
Must be enrolled in one of the following Classes:
  - Senior
  - Junior
Prerequisites: ME 345 and (ME 3601 or ME 360)

A presentation of the methods of plane elasticity to solve a variety of problems arising in the analysis and design of structures. Review of the concepts of plane stress and strain, basic equations of plane elasticity and problems, energy methods approximate/numerical techniques, elastic-plastic bending and torsion, instability of columns and frames. (F, W, S).

ME 4201  Design of Turbomachinery
4.000 Credits
Must be enrolled in one of the following Levels:
  - Undergraduate
Must be enrolled in one of the following Colleges:
  - Coll of Engineering & Comp Sci
Must be enrolled in one of the following Classes:
  - Senior
  - Junior
Prerequisites: ME 325 or ME 320

Principles of turbo machinery design and practices. Euler's equation for energy transfer calculations. Two- and three-dimensional velocity diagrams. Characteristic curves of axial and radial flow compressors. Design procedures of fans and blowers. Basic design and selection of pumps. Student is required to conduct a turbo machinery design project by applying the theory learned from the course. (W).

ME 4202  Design Turbo. and Wind Gen.
4.000 Credits
Must be enrolled in one of the following Colleges:
  - Coll of Engineering & Comp Sci
May not be enrolled in one of the following Classes:
  - Freshman
Prerequisites: ME 375

Principles of turbo machinery design and practices with emphasis on wind power generation. Euler's equation for energy transfer calculations. Two and three-dimensional velocity diagrams. Aerodynamics of wind turbines. Wind turbine design and control. Power generation of wind turbines, wind energy system economics and environmental impacts. Design procedures and characteristics of compressors, fans and blowers. Basic design calculations and selection of pumps. A turbo machinery design project by using the theory learned from the course may be required.

ME 4301  Computational Thermo-Fluids
3.000 Credits
Must be enrolled in one of the following Colleges:
  - Coll of Engineering & Comp Sci
Must be enrolled in one of the following Classes:
  - Senior
Prerequisites: ME 325 and ME 375*

ME 4361  Design of HVAC Systems  
4.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Colleges:  
Coll of Engineering & Comp Sci  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: (ME 325 or ME 320 or ME 3251 or ME 3252) and (ME 378* or ME 379*)

A comprehensive treatment of the design principles and practices in the heating, ventilating, and air conditioning. Psychrometrics, design loads, distribution systems, equipment selection.

ME 442  Control Syst Anly and Design  
4.000 Credits  
Prerequisites: ECE 305 and ME 345  
Co-requisites: ME 442L  

ME 4461  Mech Vibration & Noise Control  
4.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Colleges:  
Coll of Engineering & Comp Sci  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: ME 345 and (ME 349* or ME 348*)

Fundamentals of mechanical vibration and principles of noise control. Use of transducers and instruments to conduct sound and vibration measurements. Free and forced vibration in single and multiple degrees-of-freedom systems, damping, eigen values, eigenvectors, frequency response function, modal analysis, description of sound fields, acoustical materials and material testing, acoustics of rooms and enclosures, sound quality, and principles of noise control. Students will be required to conduct either a vibration or a noise control project. Two one-and-one-half hour lectures and one three-hour laboratory. (F).

ME 4471  Solar Energy Sys Analy&Design  
4.000 Credits  
Must be enrolled in one of the following Major fields of study:  
Mechanical Engineering  
Must be enrolled in one of the following Classes:  
Senior  
Prerequisites: ME 325 and ME 375*

The course introduces students to the fundamentals of solar energy conversion and solar energy systems. Principles in thermodynamics and heat transfer required to understand the solar energy use is reviewed. Design of different types of solar energy systems are explored and assessed. Issues relating to the practical implementation of solar energy will also be considered.

ME 452  Sustainable Energy & Environ  
4.000 Credits  
Must be enrolled in one of the following Colleges:  
Coll of Engineering & Comp Sci  
Must be enrolled in one of the following Classes:  
Senior  
Prerequisites: ME 325 and ME 375*

This course introduces students to the fundamentals of energy sources and their environmental impacts. It covers a wide range of conventional and alternative energy sources, which includes renewable and presents the tools for assessing their sustainability and environmental impacts. It also reviews issues related to energy storage, transportation and distribution, and challenges and future opportunities.

ME 460  Design for Manufacturing  
3.000 Credits  
Prerequisites: (ME 360 or ME 3601) and ME 381  

Design decisions based on manufacturability and process-property relationships. Design for assembly. Manufacturing tolerances and quality control methods including NDT. Design methodology used for product development.

ME 467  Senior Design I  
3.000 Credits  
Prerequisites: ME 330 and ME 345 and ME 360 and ME 371  

A guided design project course with emphasis on decision-making process associated with establishing alternatives and evaluation procedures to synthesize designs. Students will propose design projects and work in teams. Written and oral presentations will be required at the close of the term.

ME 4671  Senior Design I  
4.000 Credits  
Must be enrolled in one of the following Major fields of study:  
Mechanical Engineering  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: ME 345 and (ME 360 or ME 3601) and (ME 375 or ME 371)and (ME 378* or ME 379*)

A guided design project with emphasis on the decision-making process associated with establishing alternatives and evaluation procedures to synthesize designs. Students propose design projects and work in teams to produce analytical designs, conduct evaluative experiments, and construct a physical design prototype. Engineering ethics and responsibility. Written and oral presentations are required at the close of the term. (F, W, S).

ME 469  Senior Design II  
1.000 TO 4.000 Credits  
Prerequisites: ME 467  

Student teams develop mechanical or interdisciplinary design projects, or continue projects begun in ME 4671. Work includes mechanical engineering design, and could possibly include fabrication and testing. Projects can involve efforts by interdisciplinary teams. Written and oral presentations are required.
ME 481  Manufacturing Processes II
3.000 Credits
Prerequisites: ME 381

A study of casting, welding, plastic forming, and machining of materials; analysis of forces, energy requirements, and temperature effects; design specifications economically obtainable in terms of dimensional accuracy, surface finish, and material properties, functional characteristics of equipment. Two lectures and a laboratory.

ME 483  Dsn Cons in Poly and Comp Mat
3.000 Credits
Prerequisites: ME 360 or ME 3601

Physical and mechanical behavior of unreinforced and reinforced (composite) polymeric materials in relation to their applications in modern technology. Emphasis is given to the design considerations with these materials in contrast to those with metallic materials. Time-dependent properties, such as creep and stress relaxation, are considered. Manufacturing methods are covered. Three lectures/recitation.

ME 484  Manufacturing Poly Comp Matl
3.000 Credits
Prerequisites: ME 381 or IMSE 382

This course will consider the manufacturing processes for production of plastics and composite parts. The emphasis will be on manufacturing principles that are based on rheology, polymer flow and transport phenomena. Design considerations and quality control techniques for manufacturing plastic and composite parts will also be covered.

ME 490  Directed Design Project
1.000 TO 3.000 Credits
Must be enrolled in one of the following Classes:
Senior
Graduate
Prerequisites: ME 360 or ME 381 or ME 425 or ME 464

Design project involving not only design but also analysis, fabrication and/or testing. Topics may be chosen from any of the areas of mechanical engineering. Students who have taken ME 425 and ME 464 will be encouraged to take this course. The student will submit a report on his or her project and give an oral presentation at the close of the term. (F, W, S).

ME 491  Directed Research Problems
1.000 TO 3.000 Credits
Must be enrolled in one of the following Classes:
Senior
Graduate

Special problems selected for laboratory or library investigation with intent of developing initiative and resourcefulness. (F, W, S).

ME 492  Guided Study in Mech Eng
1.000 TO 3.000 Credits
Must be enrolled in one of the following Classes:
Senior
Graduate

Individual study, design or laboratory research in a field of interest to the student. Topics may be chosen from any of the areas of mechanical engineering. The student will submit a report on his or her project at the close of the term. (F, W, S).

ME 493  Advanced Vehicle Energy Sys
3.000 Credits
Must be enrolled in one of the following Colleges:
Coll of Engineering & Comp Sci
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: ME 325* and ECE 305*

This course will introduce the advanced energy conversion systems in automotive vehicles and cover the fundamentals, characteristics, and design consideration of the energy systems. The topic includes using alternative fuels in internal combustion engines, advanced power train systems in hybrid, electric, and fuel cell vehicle, and exhaust energy recovery systems.

ME 496  Internal Combustion Engines I
2.000 TO 3.000 Credits
Prerequisites: ME 320 and (ME 330 or ME 325)

Comparison of characteristics and performance of several forms of internal combustion engines including the Otto and diesel types of piston engines and the several types of gas turbines; thermodynamics of cycles, combustion, ignition, fuel metering and injection, pollution from engines and modeling techniques. Lectures, theory demonstrations, and experiments.

ME 4981  Automotive Engineering
4.000 Credits
Must be enrolled in one of the following Major fields of study:
Mechanical Engineering
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: ME 345 and (ME 360 or ME 3601)

Analysis of vehicle performance in terms of acceleration, gradability, speed, fuel economy, ride comfort, stability and safety. Engine-transmission compatibility and matching. Fundamental vehicle dynamics. Computer modeling and simulation of vehicle systems by numerical techniques. Transmission ratio and torque analysis. Design of vehicle systems such as brakes, suspensions, drive line components, steering mechanisms and other subsystems. Four hours lecture. (F, W).

ME 499  Internship
2.000 Credits
Must be enrolled in one of the following Classes:
Senior
Graduate

A four-month professional work experience period of the Engineering Internship Program, integrated and alternated with the classroom terms.

EDUCATION AT UM-DEARBORN

Education is not one career; it is many. Individuals specializing in education are qualified to pursue a wide variety of attractive and rewarding professions including teaching, corporate training, recreation, social service, and childcare. Wherever there is a need for people specifically prepared to teach others, there is a need for individuals with a background in education.

Still, most college graduates seeking a career in education elect to become classroom teachers. Teaching offers a wide choice of opportunities to work with persons of different age levels in a variety of specialized fields. It is a satisfying career for those who like to inspire growth in others and continue their own development.

Students admitted to any of the education programs offered at UM-Dearborn are provided with an academic and professional background suited to the challenges of education in a multicultural society. For further information, please visit the School of Education website at www.soe.umd.umich.edu.

Education Our Mission

The mission of the School of Education is to prepare and sustain exemplary teachers, trainers, and administrators through emphasis on scholarship, diverse clinical experiences, and practice in effective service delivery.

To achieve its mission, the School of Education draws upon a broad assortment of institutional resources, including staff and programs in other schools and colleges of the University. Additionally, the facilities of local school districts, other public agencies, and private corporations are regularly utilized to provide students with a rich spectrum of laboratory experiences.

Students participate in the affairs of the School in a variety of ways. There are programmatic advisory committees as well as the student groups, such as the Student Michigan Education Association (SMEA) and the honor society, Phi Lambda Theta. Students also evaluate courses and participate in exit interviews at the end of their graduate degree programs.

History of the School

Shortly after UM-Dearborn opened in 1959, a small teacher certification program was added to the liberal arts division. By 1969, under the leadership of its first faculty chairman, Paul D. Carter, the teacher certification program had grown into one of the largest academic departments on the campus. With the academic reorganization of the campus in the spring of 1973, the department became the Division of Urban Education with its own regentally appointed associate dean, Richard W. Morshead. By 1987, the Division of Urban Education had become the School of Education, led by Dean Morshead. The School was granted authority to offer graduate programs. These programs now include an MA in Education, an MA in Teaching, an MS in Science Education, an MA in Educational Leadership, and an MEd in Special Education: Learning Disabilities/Emotional Impairments.; an Education Specialist; and a Doctor of Education.

Accreditation

The School of Education is a fully accredited professional unit of UM-Dearborn. Along with the rest of UM-Dearborn, it carries the approval of The Higher Learning Commission and is a member of the North Central Association of Colleges and Secondary Schools. As a teacher preparation institution, it is a member of the American Association of Colleges for Teacher Education, the Michigan Association of Colleges for Teacher Education, and the Teacher Education Council of State Colleges and Universities. In 2001 its certification programs were approved through the periodic review of the Michigan Department of Education.

Special Facilities and Services

In addition to campus-wide facilities and services described elsewhere in the Catalog, the following special facilities and services are of particular interest to education students.

EARLY CHILDHOOD EDUCATION CENTER

The Early Childhood Education Center (ECEC), an auxiliary unit of the School of Education, serves as an education and care site for university student, faculty, staff, and community children. The ECEC enrolls over 200 children, ages one through six, per term. Located in a shared facility with Oakwood Hospitals’s Center for Exceptional Families (CEF) at 18501 Rotunda Dr. in Dearborn, the two centers collaborate to provide services and programs for children with and without disabilities and their families. The ECEC facility also includes a full day kindergarten and summer programs. The ECEC serves as a teacher preparation facility for students enrolled in a variety of courses offered by the School of Education. The ECEC Advisory Board makes recommendations to the administration regarding policies and decisions related to the center. The center is staffed with teachers having special training in early childhood education and is under the overall direction of the faculty Director.

EDUCATION LABORATORIES

Curriculum Laboratories are available to offer educational support to students in the areas of English/Language Arts (258 FCS), Science Education (270A FCS), Social Studies (268 FCS), and materials preparation (267 FCS). There is also a Mathematics Education Laboratory located in 2083 CB. These laboratories are designed to meet the needs of students and faculty in the School of Education. These laboratories house an array of textbooks for elementary and secondary students, resource materials, and audiovisual equipment. Computers and other materials helpful in developing lessons with hands-on exploration of the subject matter are also available.

Students are encouraged to use the materials, equipment, and services the facilities provide when preparing for class preparations, practicum assignments, and student teaching. Students who have paid a laboratory fee for a specific course may use the laboratory without any additional charge. Students who have not paid a course fee must pay for the materials they use. Current prices are posted in the Materials Preparation Center. All fees are solely for the support of the Education Laboratories. Two microcomputer labs with the latest educational software are located in Rooms 190 and 194, FCS.

DEAN’S OFFICE

Edward Silver is Dean of the School of Education. Paul Fossum and Mesut Duran are Associate Deans. The Office of the Dean and Associate Deans is located in 253 Fairlane Center South Building (FCS), telephone (313) 593-5435.

STUDENT SERVICES OFFICE

The Student Services Office for The School of Education is located in 262 FCS. All matters relating to School of Education student records and teacher certification are handled in this office. Certification applications and advising appointments can be secured here, telephone (313) 593-5090.

FIELD PLACEMENT OFFICE

All matters related to pre-student teaching practica as well as student teaching are handled by the Field Placement Office (261 FCS), telephone (313) 593-5094.

Academic and Professional Standards

All matters in the School of Education having to do with maintaining academic and professional standards are handled by the Professional Standards Committee or by the School’s Executive Committee. The Executive Committee is responsible for acting in the place of the Governing Faculty on matters related to any of the School’s instructional programs.

The Professional Standards Committee is responsible for acting on student petitions and other similar academic requests. Students may initiate petitions to the committee by securing appropriate forms in the Student Services Office. Such petitions must be signed by the student’s education advisor before submission to the Professional Standards Committee. Both committees meet regularly throughout the academic year.

Policy Changes

School of Education policies change periodically. This occurs when teacher certification and/or graduation requirements are changed by the Michigan Department of Education, by the wider campus community, or by the School of Education itself. The primary responsibility for being aware of program requirements and for meeting appropriate standards rests with the student. Students are encouraged to review current policies, graduation, and certification requirements with their advisors through required annual advising. For information regarding academic advising see the General Information section of this Undergraduate Catalog.

Statement of Student Rights and Code of Student Conduct

The School of Education adheres to the University policies regarding the Student Academic and Non-Academic Code of Conduct that were approved by the Senior Officers on May 11, 1994. Refer to this topic in the General Information section of this Undergraduate Catalog for further information.

In addition the School of Education at the University of Michigan-Dearborn holds high value and expectations in all academic undertakings. As the School of Education trains students to educate and serve as role models for future generations, it demands academic excellence and honesty. The values of an academic community are grounded in the honesty of one’s efforts and respect for the efforts of others. Students who engage in academic misconduct have a pernicious effect upon themselves, their fellow classmates, the reputation of the School and the University, society, and the future generations that are taught by these individuals. Academic integrity is expected in all aspects of coursework, relationships with fellow students, and the use of all University resources. Procedures describing the judicial process and jurisdiction of the SOE Academic Hearing Board are described on the SOE Student Resources web page.
Bachelor's Degree Programs

The School of Education provides undergraduate students with a number of different program options through bachelor's degrees. These degrees are intended for those wishing to acquire a teaching certificate at the elementary and secondary school levels or for those planning on working with children and families.

Individuals who successfully complete undergraduate degree programs in Elementary Education, Early Childhood Education, Elementary Cognitive Disabilities, Elementary Learning Disabilities and Children and Families will receive their bachelor's degree directly through the School of Education. Students completing Secondary Education programs receive a recommendation for their teacher's certificate through the School of Education. Their degrees will be recommended by the College of Arts, Sciences, and Letters.

Undergraduate Degree Program Requirements

The School of Education offers three different baccalaureate degrees: the Bachelor of Arts degree, the Bachelor of Science degree, and the Bachelor of General Studies degree. Where appropriate, these degrees have been combined with programs leading to the Michigan Provisional Teacher's Certificate.

BACHELOR OF ARTS (AB)

Ordinarily, this degree is available through the School of Education only to those individuals seeking a teaching certificate. To be recommended for the degree by the Education faculty, students must satisfy all appropriate residence requirements, distribution requirements, and program requirements.

BACHELOR OF SCIENCE (BS)

This degree is available through the School of Education only to those individuals seeking a teaching certificate with a major in one of the natural sciences or mathematics. It will be granted to those students who earn 60 or more credit hours in mathematics, the natural sciences, computer science, or any combination of these, with at least 20 of these hours in upper division (junior-senior level) courses.

BACHELOR OF GENERAL STUDIES (BGS)

This degree is only available through the School of Education to those individuals wishing to pursue the Children and Families program. To be recommended for a BGS degree, a student must satisfy campus distribution requirements as well.

BGS: TWO PLUS TWO OPTION

Students who have completed an associate's degree in an approved area at a community college are eligible to apply for admission to the Bachelor of General Studies degree. Admission, however, is not automatic. Individuals are expected to meet the specific admission requirements for the particular BGS Two Plus Two programs into which they are seeking entry. Further professional and general education studies will be added at UM-Dearborn to those studies already completed by students at the community college level. To be recommended for the BGS degree under this option, students must satisfactorily complete all degree requirements called for by their particular School of Education program.

Details regarding any of the programs cited above can be found in later sections of this Undergraduate Catalog.

Admission to the School of Education

APPLICATION PROCEDURE

Individuals seeking both a bachelor’s degree and a teaching certificate should apply through the UM-Dearborn Office of Admissions located in the University Center.

Individuals holding a bachelor’s degree from an accredited institution and seeking certification should apply through the School of Education Student Services Office, 262 FCS.

ADMISSION OF FRESHMEN

Individuals who have qualified for admission as freshmen to UM-Dearborn and wish to specialize in an elementary school teaching major, early childhood education, learning disabilities, cognitive impairments or children and families will be admitted to the School of Education. Those who intend to earn a specific secondary school teaching major are to be admitted for their degree to the College of Arts, Sciences, and Letters.

ADMISSION OF TRANSFER STUDENTS

Many individuals enter the School of Education after completing a portion of college work at other two- or four-year institutions. These persons are considered transfer students. Like other students admitted to degree programs at UM-Dearborn, transfer students entering the School of Education will be expected to fulfill all degree/certification requirements. Admission to the School of Education does not necessarily ensure admission to the teacher certification program.

STUDENT READMISSION

1. Any student absent from the University for a period of one calendar year (counted from the last day of the term in which the student was last enrolled) must meet the teacher education requirements in effect at the time of readmission.
2. Any student applying for readmission with coursework five years or older must have acceptance of this work approved by the School of Education at UM-Dearborn. Consult the School Student Services Office for procedures and readmission form.

Residency Requirements for Transfer Students

All individuals entering the School of Education as transfer students must complete a major part of their total college work in residence at UM-Dearborn. This limits the number of semester hours that are transferable to UM-Dearborn from other institutions. The maximum amount of transfer credit allowed in any such program will depend on the type of institution at which the credit originally was earned. Typically, more credit can be transferred from a four-year institution and used toward a degree program than from a community college. The admission criteria are applied to all students without regard to race, color, sex, national origin, or creed. The table below details the School's transfer credit policy.

In the table below, institutions attended by students prior to their enrollment in a degree program at UM-Dearborn are grouped into three categories. Category A includes all two-year institutions; category B includes all four-year institutions other than the schools and colleges of the University of Michigan.
(UM); category C is composed of those schools and colleges of the UM which are not located on the Dearborn campus. Maximum transferable credits and minimum residence requirements (both in semester hours) are given.

<table>

<td>38</td>
</tr>
</tbody>
</table>

Courses successfully completed prior to transfer may not correspond exactly to those offered by UM-Dearborn or the UM. Therefore, a broad policy has been established to evaluate them. If, after such evaluation, the student believes that proper weight has not been given to the courses completed prior to transfer, the student should contact the School of Education Student Services Office for re-evaluation. No course in which a student received less than a grade of C, or has been graded on a pass/fail or satisfactory/unsatisfactory scale, will be transferred. No courses elected in the professional component (education courses) during the freshman and sophomore years are admissible to the program, except as general elective credit. Transfer students must meet all residence requirements. The exceptions to this ruling are those persons who complete the Pre-Elementary Associate Degree or the Pre-Secondary Associate Degree at Henry Ford Community College.

Courses at Other Institutions

Once admitted to UM-Dearborn and to the certification program, students are expected to complete their programs of study at UM-Dearborn. When documentable, extenuating circumstances occur, students must request permission to take off-campus courses using the established petition process in the School of Education. Forms and information regarding deadlines are available in the School of Education Student Services Office.

Class Standing and Course Elections

The number of credit hours earned toward graduation at the end of any given term determines a student's class standing. In the case of transfer hours, only the credit accepted toward a degree can be used in deriving the class standing of a student. Freshmen and sophomores are classified as lower-division students while junior and seniors are considered upper-division students.

CLASS STANDING

First two years of pre-professional study: Lower-division students
Freshman 0 to 24 credit hours
Sophomore 25 to 54 credit hours

Last two years of undergraduate study: Upper-division students
Junior 55 to 84 credit hours
Senior 85 to 128+ credit hours

Authorization to elect education courses in the professional sequence of courses at the University of Michigan is limited to upper-division students in good academic standing. Students must have at least junior class standing (55 semester hours), a cumulative GPA of 2.75, have taken the Campus Composition Placement Test, and passed the MTTC Basic Skills Test.

Academic Advising

Upon admission to a specific program in the School of Education, each student is assigned a faculty advisor. This practice is aimed at helping the student plan a course of study that will fulfill the curriculum requirements in the most efficient manner.

Although all education students are responsible for fully understanding the requirements of the programs they elect, they also are expected to meet regularly with their advisor. Undergraduates and others seeking provisional teaching certificates are required to meet with their School of Education advisor at least once a year. This procedure ensures that all students are kept abreast of periodic modifications in the curriculum and in certification regulations. Teacher certification students enrolled in other academic units at UM-Dearborn such as secondary certification candidates with a concentration in the College of Arts, Sciences, and Letters are also expected to comply with this policy. Students may request an advisor assignment, or a change in advisor, by contacting the School of Education Student Services Office.

Academic Standards

SCHOLASTIC STANDING

Students should consult the General Information section of this Undergraduate Catalog on campus-wide policies governing scholastic standing. The School of Education reviews the records of all its degree students at the end of each term. If a certification student's grade point average for one term drops below 2.75, the student is placed on academic probation and may not register for education methods courses in the professional sequence. If the overall average remains below 2.75, the student is placed on academic probation and may not register as a student in a teacher certification program. Other undergraduate students (those not seeking a teaching certificate) must maintain a grade point average of at least 2.5.

MAXIMUM CREDIT HOUR LOADS

Students electing more than 18 credit hours in a full term (Fall, Winter, Summer) must have written permission from the School's Dean. If the student's GPA is below 3.0, this practice is strongly discouraged. Students enrolled in the student teaching term must petition to elect any courses other than student teaching and its accompanying seminar.
GRADD OF INCOMPLETE AND ABSENCE FROM FINAL EXAMS

A student must request permission to have an "Incomplete" mark (I) or an "Absent from Final Exam" mark (X) appear on his/her transcript by obtaining a Request/Contract form from the School of Education Student Services Office. This form must be taken to the instructor for approval and signature. These marks are not automatically assigned. The instructor will determine the time limit if it is to be less or more than the four-month campus deadline for "Incompletes" and less than five weeks for the final examination. If the deadline date stated in the contract is not met, these marks will automatically convert to an E.

PASS/FAIL GRADING OPTIONS

The School of Education allows students enrolled in any program to use the pass/fail grading system. However, it is limited to elective credit only. Please note the following conditions for enrolling in pass/fail courses:

1. The student cannot be on probation.
2. The student may elect a total of two courses on an optional pass/fail basis toward the academic program.
3. Only one pass/fail course may be elected during a term.
4. Education courses, when used in a student's professional education sequence, may not be elected on an optional pass/fail basis.
5. Distribution requirements may not be elected on an optional pass/fail basis.
6. Courses offered only on a nongraded basis are not regulated by this policy.
7. Courses in a student's teaching major and/or minor may not be elected for optional pass/fail credit.
8. The optional pass/fail grade will count for residency, certification and degree requirements but will not enter into the computation of a student's grade point average.
9. Courses taken for optional pass/fail credit must be specified on the registration form or otherwise identified within the usual time permitted for adding classes. After the add/drop period has elapsed, the student is not permitted to change from a pass/fail to a letter grade or vice-versa. Students may drop an optional pass/fail class within the usual add/drop period. Petitions requesting a change of pass/fail to a letter grade or vice-versa will not be accepted after the first two weeks of the term.

For further information, refer to other sections in this Undergraduate Catalog.

HONORS

GRADUATING WITH DISTINCTION

At the time of graduation, the School of Education honors its academically outstanding undergraduate degree candidates by recommending that they graduate with either distinction or high distinction. Those graduating seniors who have achieved an overall grade point average of at least 3.2 will be recommended for a degree with distinction. Those who have achieved an overall grade point average of at least 3.6 will be recommended for a degree with high distinction.

DEAN'S LIST

At the beginning of each term, those students enrolled in a School of Education undergraduate degree program who have established a noteworthy academic record during the previous term are publicly recognized. In conjunction with the Office of Academic Affairs, the Dean of the School publishes the names of those degree students who have earned a grade point average of 3.5 or better while carrying a minimum course load of 12 earned GPA credit hours during the immediately preceding term. Only credit earned at UM-Dearborn is used in determining whether or not a student meets the requirements for this honor.

Other Awards

In addition to the Dean's List, the School of Education also recommends candidates for other awards. See the General information section of this Catalog for additional awards.

Teacher Certification Programs

In recommending students for teacher's certificates, the School of Education functions, indirectly, as an arm of the Michigan Department of Education. All such certificates awarded to students at the UM are issued at the request of an appropriate faculty body by the Michigan Department of Education in Lansing irrespective of the particular campus attended (Ann Arbor, Dearborn, Flint).

Elementary Provisional Certificate

The initial teaching certificate awarded the beginning elementary school teacher is the Michigan Elementary Provisional Teacher's Certificate. This certificate is valid for teaching all subjects in kindergarten through fifth grade and in subject areas (majors and minors) if an endorsement on the certificate has been obtained in grades six through eight. One is also qualified to teach all subjects in self-contained classrooms through grade eight. The Provisional Teacher’s Certificate is valid for six years and may be renewed twice (for three years each time) provided that renewal conditions are met. Legislative or other state action may change these specifications. Therefore, students are advised to contact the School of Education's Student Services Office, located in the Fairlane Center South (FCS), to learn of the most recent policies.

Secondary Provisional Certificate

The teaching certificate awarded to the beginning secondary school teacher is the Michigan Secondary Provisional Teacher's Certificate. This certificate is valid for teaching in grades six through twelve in those areas where the applicant has completed a major or minor, and passed the appropriate state mandated tests. It is valid for six years and may be renewed twice (for three years each time) provided that renewal conditions are met. Legislative or other state action may change these specifications. Therefore, students are advised to contact the School of Education's Student Services Office, located in the Fairlane Center South (FCS), to learn of the most recent policies.
General Requirements for a Teacher's Certificate

In order to be awarded an elementary or secondary provisional teacher's certificate, students at UM-Dearborn must be recommended for the certificate by the Governing Faculty of the School of Education. The general procedure to be followed in obtaining such a recommendation is outlined below. It should be noted, however, that progression from one step to another is not automatic; students are expected to be individually responsible for understanding and meeting the requirements and provisions of the programs they pursue.

QUALIFYING FOR A PROVISIONAL TEACHER'S CERTIFICATE

To qualify for certificate recommendation, an individual must fulfill the following requirements:

1. Earn a bachelor's degree from UM-Dearborn or another accredited institution with an overall GPA of 2.75; a minimum GPA of 2.75 in the major; a minimum GPA of 2.75 in the minor; and a minimum GPA of 2.75 in the Professional Sequence. Irrespective of where the degree is earned, each candidate shall satisfactorily complete directed teaching and all required methods courses and practica at UM-Dearborn.
2. If acquiring both the bachelor's degree and a teacher's certificate from UM-Dearborn, the individual shall complete the degree with the appropriate number of semester hours depending on the program selected.
3. Comply with the four-phase program described below.
4. Meet all Michigan Department of Education Teacher Certificate requirements including state mandated tests.
5. Satisfy the School faculty that the applicant possesses attributes that are necessary and desirable for successful teaching.

School of Education Four-Phase Program

The School of Education at UM-Dearborn is committed to the ideal of quality in the field of teacher education. It recognizes that not everyone who wishes to be a teacher is capable of meeting program requirements that relate to teacher competency. Therefore, the School of Education is selective in admitting students into its teacher preparation programs and in making recommendations for teacher certification.

A four-phase screening procedure is employed to help identify those people most likely to perform at the level of excellence defined by the School. Further, this procedure is useful in assisting students with career decisions. The screening procedure is divided into four successive phases, each with its own set of academic and professional admission standards. Students are expected to have successfully met all of the requirements at one phase before entering the next. Each student is responsible for knowing and meeting all program requirements as listed in this Undergraduate Catalog. The "School of Education Four-Phase Checklist" is as follows:

PHASE 1 – Admission to School of Education

Three types of students are considered for admission to the School of Education at this entry level phase:

1. First time in any college (FTIAC) students
   Campus admission standards for SAT, ACT, and high school Grade Point Average (GPA) are used in determining admission.
2. Transfer students
   Campus admission standards are used for students transferring 54 or fewer semester hours. School of Education admission standards (a minimum cumulative GPA of 2.75/4.0 scale) are used for students transferring 55 or more semester hours.
3. Degreed persons seeking certification only
   School of Education admission standards are used for individuals with a bachelor's degree earned at a regionally accredited institution. The individual must have a cumulative GPA of 2.75 or higher in their major, minor, and overall to be admitted to the School of Education and Teacher Certification Program.

Important: Fingerprinting and criminal background checks are required for work in school settings. Such work is required of all certification students. All background checks must be completed in the first semester of admission to the School of Education and on file in the Field Placement Office (Room 261 FCS).

Note: Admission to a Teacher Certification program--see Phase 2--is a separate procedure from admission to the School of Education itself.

PHASE 2 – Admission to Teacher Certification Program

Admission to a School of Education Teacher Certification program (elementary/secondary) requires all of the following:

1. meeting minimum score requirements on the Michigan Test for Teacher Certification (MTTC) Basic Skills Test (Reading, Mathematics, Writing),
2. a minimum of 55 semester credit hours or an earned degree with a cumulative GPA of 2.75/4.0 scale. Grades earned at all institutions are used in this calculation for students transferring into the School of Education with the exception of degreed persons seeking certification only (see Phase 1, number 3),
3. submission to School of Education of results from the Campus Composition Placement Test (telephone 593-5100 to arrange for the exam), This test must be taken within the first semester that a student is enrolled in classes.
4. completion of COMP 105 and 106 (and COMP 227 when required).
5. Major(s) and/or minor(s) must be formally declared on a Change of Degree/Concentration Petition.
6. submission of completed Application for Admission Teacher Certification Program form (available in School of Education Student Services Office, 262 FCS). This form includes a statement of intent regarding allowing or not allowing MTTC score reporting to faculty advisors in the School of Education and College of Arts, Sciences & Letters.
7. valid Internet Criminal History Access Tool (ICHAT). A criminal background check will be conducted using ICHAT before placement in any field experience. If any offense is found, you must make an appointment with the Associate Dean.

Note: When all Phase 2 requirements have been met, students receive a formal letter of admission to the Teacher Certification Program.
PHASE 3 – Eligibility for Student Teaching

Eligibility for directed (student) teaching (elementary or secondary) requires all of the following:

1. passing scores from pertinent MTTC Subject Area Tests. Effective Fall 2010 elementary certification students will need to pass the "elementary education test" and their major or minor (depending on program selection) for student teaching eligibility. Secondary certification students must pass the tests in their major and their minor,
2. senior student status (minimum of 85 semester hours earned),
3. completion of at least one full term (12 semester hours) of study at UM-Dearborn,
4. a minimum cumulative GPA of 2.75/4.0 scale as well as a minimum GPA of 2.75 in the major(s), minor(s), and the professional sequence,
5. completion of professional sequence courses,
6. submission of a signed "Evaluation of Oral Expression" form to the Field Placement Office, (261 FCS),
7. attendance at a Student Teaching Application and Placement meeting and submission of all forms distributed,
8. valid TB clearance, criminal background check, CPR certification, and evidence of training for dealing with infectious diseases/blood borne pathogens on file,
9. EDF 450 is required of all Elementary Certification students, and
10. Valid Internet Criminal History Access Tool (ICHAT). A criminal background check will be conducted using ICHAT before placement in any field experience. If any offense is found, you must make an appointment with the Associate Dean.

PHASE 4 – Eligibility for Degree and Recommendation for Certification

Recommendation for a degree and/or a Michigan Teaching Certificate (elementary/secondary) requires all of the following:

1. submission of completed Degree/Diploma Application form to the Enrollment Services Office (the form and applicable deadlines are available online at www.umd.umich.edu/rr_apply-graduate/). Note: Secondary Certification students must submit their Degree/Diploma Application form as a student in the College of Arts, Sciences and Letters and fill out a Program Completer Form to be submitted to the School of Education certification officer
2. acceptable scores from all relevant Michigan Tests for Teacher Certification (MTTC),
   a) Elementary Certification students: Elementary Education Test and major or minor.
   b) to be recommended for any additional major(s), minor(s), endorsement(s), all relevant tests must be taken and passed. Results must be in by the time recommendations are prepared for the state by the UM-Dearborn certification officer.
   c) Secondary Certification students: Subject area tests for which student wishes to be recommended. (At least one major and one minor are required)
3. successful completion of the chosen program, major(s), minor(s), professional sequence, and supplementary requirements,
4. a minimum cumulative GPA of 2.75/4.0 scale as well as a minimum GPA of 2.75 in the major(s), minor(s) and professional sequence.

Based on this record of achievement, a decision to recommend or not to recommend for degree and/or certification will be made.

Professional Semester/Directed Teaching (Student Teaching)

Each student enrolled in a teacher certification program at UM-Dearborn, whether pursuing an elementary or a secondary provisional certificate, is expected to spend one full academic term exclusively in professional work. This period of time is called the "professional semester." Directed Teaching (student teaching) and its related seminar serve as the core for this particular term. This entails a full day's teaching load and all school-related activities at a University-negotiated site. Most students elect their professional semester courses during the second half of the senior year. The professional semester for elementary and secondary certification students is as follows:

Elementary Professional Semester
EDD 435 Directed Teaching ..................................... 12 hrs
EDD 437 Seminar .................................................. 1 hr

Secondary Professional Semester
EDD 421 Directed Teaching ..................................... 12 hrs
EDD 424 Seminar .................................................. 1 hr

Opportunities for directed teaching are available only in the University's fall and winter terms. Students wishing to elect directed teaching in the fall term are required to attend an application meeting the preceding January and those desiring to elect it during the winter term are required to attend an application meeting the preceding March. Meeting dates, times, and locations will be posted on the Field Placement Office website and in the Fairlane Center South. Requirements for acceptance into the professional semester are outlined in the Four-Phase program.

INCOMPLETES, UNSATISFACTORY GRADES, AND WITHDRAWALS

No student will be assigned to, or registered for, directed teaching with incomplete work in the Professional Sequence of courses. Moreover, once a student has been assigned to a directed teaching contact and then has had registration denied because of incomplete work, the student will be prohibited from receiving any future directed teaching assignment for that semester.

Any student, who has withdrawn from or received an unsatisfactory grade in directed teaching, whether through the action of a school district, the University, or by personal choice, will have a request for future placement carefully reviewed by the School's Executive Committee. Reassignment to directed teaching is not guaranteed, nor is it an automatic process.

Students must file petitions for reassignment consideration.
General Field Placement Policy

Students in the teacher preparation program are assigned field placements, either as practicum students or as student teachers, in public or private schools. Field placement shall be made in accordance with the policies and procedures set forth by the School of Education and to be in compliance with accreditation standards.

The student is expected to maintain a professional attitude in order to conform to the expectations of the placement school and the University. Appropriate academic preparation is required as outlined in the elementary and secondary programs of the School. Professional responsibilities during the Directed Teaching term are detailed in the "UM-Dearborn Directed Teaching Handbook." which is located on the SOE Field Placement website.

The public and private schools exercise the right to screen the University's students. Acceptance or rejection of students is not controlled by the University. A placement school may reject a University student for several reasons, including a lack of placement positions in the school or a determination that the University student's presence in the school or classroom may disrupt or interfere in some way with the educational process.

Currently there is no way in which the University can require the placement school to state specific reasons for rejection.

If a University student is repeatedly denied placement by the field schools, the School of Education will recommend career counseling and terminate matriculation in the teacher certification program.

Elementary School Certification Program

This program has been specifically developed for students intending to teach in either the elementary school or the middle school. It permits them to meet the requirements for both a bachelor's degree and the Michigan Elementary Provisional Certificate. The curriculum consists of two parts, the first involving academic study, and the second consisting of professional preparation.

ACADEMIC PROGRAM REQUIREMENTS (MAJORS AND MINORS)

Students entering this program are required to complete all core courses pre-professional and all requirements for a selected major(s) or two minors. Academic majors and/or minors can be selected from the following fields: English as a Second Language (ESL)-minor only, Language Arts, Mathematics, Integrated Science, Reading and Social Studies – major only. Students desiring to pursue an Early Childhood major with elementary certification should follow the program outlined under "Early Childhood Education," students desiring to pursue the Learning Disabilities major with elementary certification should follow the program outlined under “Elementary Education Learning Disabilities Program,” students desiring to pursue the Cognitive Impairments major with elementary certification should follow the program outlined under “Cognitive Impairments” Education courses and courses in the major and/or minor may not be elected on a pass/fail basis. Courses that apply to the majors and minors are listed below under "Areas of Study for Majors and Minors."

CORE COURSES REQUIREMENTS

Core courses are generally completed in the freshman and sophomore year.

Selections must be from courses numbered 100-200 unless otherwise stated.

- COMP 105  Composition I.................................3 hrs
- COMP 106  Composition II...............................3 hrs
- ENGL 327  Advanced Exposition.......................3 hrs
- LIBR 465  Literature for Children........................3 hrs
- EXPS 282  History and Civics in Elementary School...3 hrs
- EXPS 283  Geography and Econ in Elementary School 3 hrs
- EXPS 220  Elementary School Science..................3 hrs
- NSCI 231  Learning by Inquiry: Physical Science*.......3 hrs
- NSCI 232  Learning by Inquiry: Earth/Planetary Science*........................................3 hrs
- NSCI 233  Learning by Inquiry: Life Science*............3 hrs
- EXPS 420  Science Capstone...............................3 hrs
- MATH 385  Math for Elementary Teachers I.............3 hrs
- MATH 386  Math for Elementary Teachers II.............3 hrs
- MATH 387  Math for Elementary Teachers III...........3 hrs

*Note: Two of the three NSCI distribution courses may be transferred to UM-Dearborn. Great Experiments 240, 242, or 340, 342 and NSCI 120, 121 may not be used to satisfy Science distribution requirements. NSCI 233 and BIOL 100/101 may not both be elected for credit in the School of Education.

PRE-PROFESSIONAL REQUIREMENTS

Pre-professional courses are generally completed in the freshman and sophomore year.

- EDA 205  Introduction to Education......................3 hrs
- EDC 240  Psychology of Child Development..............3 hrs
- EDC 241  Practicum in Child Development..............1 hr
- EDF 450  Health, Nutr & PE Cslrm Tchr................2 hrs
- EDT 210  Technology for Elementary Grades...............3 hrs
- EXPS 250  Visual & Perf/Arts Elem Cslrm................3 hrs

OTHER REQUIREMENTS

1. The Campus Composition Placement Exam (CCPT) is required of all students, i.e., UM-Dearborn undergraduates and transfer students. Transfer students who have been given credit for COMP 105 and 106 but receive a prescription from the CCPT for COMP 099 must enroll in an additional composition course (COMP 227).
2. Application to the School of Education Teacher Certification Program is required of all students. The timing of this application is detailed on the four-phase checklist.
3. The Michigan Basic Skills Test must be taken and scores must be at the state-approved level for admission.
4. A cumulative grade point average (GPA) of 2.75 on a 4.0 scale is required overall, in the major, in the minor(s), and in the professional sequence courses.
5. All requirements as identified in the School's four-phase screening program must be met for a teacher certification. (See four-phase checklist.)
6. Minimum number of hours to graduate is 128 semester hours.
AREAS OF STUDY FOR MAJORS AND MINORS

INTEGRATED SCIENCE

MAJOR
A minimum of 36 semester hours from the following:

Required courses*
EXPS 220 Elementary School Science.........................3 hrs
NSCI 231 Learning by Inquiry: Physical Science ........3 hrs
   (see Note #3 below)
NSCI 232 Learning by Inquiry: Earth/Planetary Science. 3 hrs
   (see Note #3 below)
NSCI 233 Learning by Inquiry: Life Science ................3 hrs
   (see Note #3 below)
EXPS 420 Science Capstone....................................3 hrs
NSCI 331 Physical Science ......................................3 hrs
NSCI 332 Earth/Planetary ......................................3 hrs
NSCI 333 Life Science ...........................................3 hrs
Physical Science ......................................................3-4 hrs
Earth/Planetary Science ........................................3-4 hrs
Life Science .............................................................3-4 hrs

*Great Experiments 240, 242, or 340, 342 and NSCI 120, 121 cannot be used for this major.

Notes
1. An overall GPA of 2.75 or better is required for a major or a minor.
2. For a major, 6 or more semester hours must be in courses above 300 level, in addition to EXPS 420.
3. Equivalents for transfer students (NSCI 231, 232, 233): two of the three NSCI distribution courses may be transferred to UM-Dearborn.
4. Astronomy can satisfy Earth/Planetary Science requirement.
5. At least 15 semester hours in UM-Dearborn courses required for a major.

LANGUAGE ARTS

MAJOR
A minimum of 36 semester hours from the following:

Required courses 18 hrs
COMP 105 Composition I.........................................3 hrs
COMP 106 Composition II ........................................3 hrs
ENGL 323 Advanced Creative Writing ......................3 hrs
ENGL 327 Advanced Exposition ..............................3 hrs
LIBR 465 Literature for Children .............................3 hrs
ENGL 3xx Literature course.................................3 hrs
ENGL 4xx Literature course.................................3 hrs
OR
LING 461 Modern English Grammar .......................3 hrs
LING 482 History of English Language .....................3 hrs

Select one of the following........................................3 hrs
LING 280 Introduction to Linguistics .......................3 hrs

Complete by electing English, Linguistics, Speech, Modern Foreign Language, or Communications 310, 330 or 340. Note: Ling 280, Eng 223 and any 200 level literature courses are prerequisites.........................15 hrs

*Note: No more than three courses in any one area for a major except English Literature.

MINOR
A minimum of 24 semester hours from the following:

Required courses 21 hrs
COMP 105 Composition I........................................3 hrs
COMP 106 Composition II ........................................3 hrs
LIBR 465 Literature for Children .............................3 hrs
ENGL 233 Introduction to Creative Writing ................3 hrs
ENGL 327 Advanced Exposition ..............................3 hrs
ENGL 2 or 3 or 4 Literature course .........................3 hrs
LING 280 Introduction to Linguistics .......................3 hrs

Complete by electing one course from English, Linguistics, Speech, modern Foreign Language, COMM 310, 330 or 340.*........................................3 hrs

*Note: No more than 2 courses in any one area for a minor except English Literature.

Notes
1. An overall GPA of 2.75 or better is required for a major or a minor.
2. For the major, at least 15 semester hours must be in courses 300 or above; 9 semester hours at 300 or above for a minor.
3. At least 15 semester hours in UM-Dearborn courses required for a major.

MATHEMATICS

MAJOR
A minimum of 30 semester hours from the following:

Required courses
Select one of the following
MATH 104 Pre-calculus (Management, Life and Social Science).................................4 hrs
OR
MATH 105 Pre-calculus ...........................................4 hrs
MATH 113 Calculus I: Management, Life and Social Science.................................4 hrs
OR
MATH 115 Calculus I...............................................4 hrs
MATH 385 Math for Elementary Teachers I ................3 hrs
MATH 386 Math for Elementary Teachers II ............3 hrs
MATH 387 Math for Elementary Teachers III ...........3 hrs
MATH 442 Geometry for Teachers .........................3 hrs
MATH 443 Algebra for Teachers .........................3 hrs
MATH 444 Probability and Statistics for Teachers ....3 hrs
EDD 419 Early Literacy/Lang Development…….…3 hrs
EDD 447 Second Language Teaching Elementary…3 hrs
EDD 448 Practicum Second Language Teaching …1 hr
EDD 467 Practicum Reading Instruction……………1 hr
EDD 468 Tchng Rdg/Lng Arts Elem Grds………….3 hrs
EDD 471 Rdg Instr: Models and Methods…………2 hrs
EDD 476 Literacy Assessment for Instr……………4 hrs
EDD 498 Wrtg Meth: Formal and Informal………..3 hrs

Notes
1. An overall GPA of 2.75 or better is required for a major or a minor.

ENGLISH AS A SECOND LANGUAGE

MINOR ONLY

Students must demonstrate experience in learning a modern second language or coursework in a modern second language or permission of Program Coordinator or take one semester course in a modern language.

A minimum of 21 semester hours from the following:
Required courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDD 447</td>
<td>Teaching English as a Second Language</td>

</tbody>
</table>

Select two of the following: Language and Society, Modern English Grammar, History of the English Language, World Englishes. 3 hours

Notes:
1. EDD 447/448 is a prerequisite for EDC 455/555
2. LING 480 is a prerequisite for LING/ENGL 461/561, LING/ENGL 482/582, LING/ENGL 484/584, LING 474/574, and LING 476/576.

PROFESSIONAL REQUIREMENTS

The professional sequence of education courses consists of a minimum of 44 semester hours of credit. This concentration of study represents the core of your professional preparation. At least two practicums are required prior to student teaching. The semester hours are distributed as follows:

Foundations
- EDA 340 The Foundations of American Education 3 hrs

Multicultural education
- EXPS 410 Multiculturalism in School and Society 3 hrs

Psychology
- EDC 300 Educational Psychology 3 hrs
- EDC 460 Educating the Exceptional Child 3 hrs
- EDC 417 Management of Classroom Behavior 3 hrs
- EDC 412 Social Development of Guidance Techniques 3 hrs

Methodologies (See Note #1 below)
- EDD 452 Methods of Teaching Math in K-8 3 hrs
- EDD 468 Teaching Reading and Language Arts in Elementary Grades 3 hrs
- EDD 467 Practicum in Reading Instruction* 1 hr
- EDD 471 Reading Instruction: Models & Methods* 2 hrs
- EDD 485 Teaching Science in Elementary Grades 3 hrs
- EDD 491 Social Studies in Elementary Grades 1 hr
- EDD 495 Teaching Social Studies in Elem. Grades 3 hrs

*Note: EDD 467 and 471 are to be taken concurrently. Both require EDD 468 as a prerequisite.

Professional Semester (See Notes #3 & #5 below)
- EDD 435 Directed Teaching in the Elementary School 12 hrs
- EDD 437 Seminar: Teaching in the Elementary Grades 1 hr

Notes

1. Enrollment in all the required EDD courses is open only to those who are officially enrolled and in good academic standing in a certification program at UM-Dearborn (junior standing required) with a cumulative GPA of 2.75 or higher.
2. A UM-Dearborn cumulative GPA of 2.75 or better is required overall for the Professional Sequence.
3. Passing the MTTC Basic Skills Test is required.
4. Eligibility for directed teaching requires passing scores from the MTTC (Michigan Tests for Teacher Certification) subject area test: Elementary certification (elementary education and major or minor depending on program selection), Secondary certification (major and minor tests).
5. Recommendations for other certification endorsements require passing scores from relevant MTTC subject area tests.

ELEMENTARY CERTIFICATION REQUIREMENTS

The program as outlined above meets the state's teacher certification requirements at the time of this writing. However, changes by the University or the State may affect some program requirements. Therefore, the student is strongly advised to inquire about possible changes by checking with their advisor in the School of Education.

Learning Disabilities and Cognitive Impairments
Education/Elementary Certification

LEARNING DISABILITIES

DISTRIBUTION REQUIREMENTS

Required courses 60 hrs
- COMP 105 Composition I 3 hrs
- COMP 106 Composition II 3 hrs
- ENGL 327 Advanced Exposition 3 hrs
- LIBR 465 Literature for Children 3 hrs
- EXPS 282 History & Civics in Elem Sch 3 hrs
- EXPS 283 Geography & Econ in Elem Sch 3 hrs
- EXPS 220 Elementary School Science 3 hrs

*Note: EDD 467 and 471 are to be taken concurrently. Both require EDD 468 as a prerequisite.

Professional Semester (See Notes #3 & #5 below)
EDD 435 Directed Teaching in the Elementary School ............ 12 hrs
EDD 437 Seminar: Teaching in the Elementary Grds .. 1 hr

Notes
1. Enrollment in all the required EDD courses is open only to those who are officially enrolled and in good academic standing required) with a cumulative GPA of 2.75 or higher.
2. A UM-Dearborn cumulative GPA of 2.75 or better is required overall for the Professional Sequence.
3. Passing the MTTC Basic Skills Test is required.
4. Eligibility for directed teaching requires passing scores from the MTTC (Michigan Tests for Teacher Certification) subject area test: Elementary certification (elementary education) and major or minor depending on program selection , Secondary certification (major and minor tests).
5. Recommendations for other certification endorsements require passing scores from relevant MTTC subject area tests.
Early Childhood Education/Elementary Certification

The Early Childhood Education Program is designed for those intending to work with children, birth through eight years of age. Within the basic elementary education degree curriculum, it enables students to meet State requirements for a Michigan Provisional Elementary Teacher's Certificate and the Early Childhood Endorsement (ZA) as well as to gain special competencies in the area of early childhood. It prepares individuals for careers in childcare centers, working with young children and their families, birth through kindergarten, as well as in the elementary grades 1-5. The program includes a concentrated study of the young child in infant/toddler, preschool, and early school contexts with extensive opportunities for field experiences in a variety of settings.

The requirements of the Early Childhood Education Program for undergraduates are as follows:

**DISTRIBUTION REQUIREMENTS**

**Early Childhood and Elementary Certification**

Required courses 57hrs
- COMP 105 Composition I ........................................3 hrs
- COMP 106 Composition II ......................................3 hrs
- ENGL 327 Advanced Exposition ................................3 hrs
- LIBR 465 Literature for Children .............................3 hrs
- EXPS 282 History & Civics in Elem Sch.......................3 hrs
- EXPS 283 Geography & Econ in Elem Sch........................3 hrs
- EXPS 220 Elementary School Science............................3 hrs
- NSCI 231 Learning by Inquiry: Physical Science ..............3 hrs
- NSCI 232 Learning by Inquiry: Earth/Planetary Science ........3 hrs
- NSCI 233 Learning by Inquiry: Life Science ...................3 hrs
- MATH 385 Math for Elementary Teachers I .......................3 hrs
- MATH 386 Math for Elementary Teachers II .................3 hrs

Supplementary Content Requirements
- EDD 419 Early Literacy/ Language Development .............3 hrs
- EDF 450 Health, Nutr & P.E. Clsrm Teachers .................2 hrs
- EXPS 250 Visual & Perf Arts Elem Clsrm .......................3 hrs
- EXPS 407 Inquiry Primary Grades: Math & Science ........3 hrs

Pre-Professional Studies
- EDA 205 Intro to Education .......................................3 hrs
- EDC 240 Psych of Child Development ..........................3 hrs
- EDC 241 Psych of Child Dev Practicum .......................1 hr
- EDT 210 Technology for Elementary Education ..............3 hrs

**OTHER REQUIREMENTS**

1. The Campus Composition Placement Test (CCPT) is required of all students, i.e., UM-Dearborn undergraduates and transfer students. Transfer students who have been given credit for COMP 105 and 106 but receive a prescription from the CCPE for COMP 099 must enroll in an additional composition course (COMP 227). This test must be taken within the first semester that a student is enrolled in class.

2. Application to the School of Education Certification Program is required of all students. The timing of this application is detailed on the four-phase checklist.

3. The MTTC (Michigan Tests for Teacher Certification) Basic Skills Test must be taken and scores must be at the state-approved level for admission.

4. A cumulative GPA of 2.75 on a 4.0 scale is required overall, in the major, in the minor(s), and in the professional sequence courses.

5. All requirements as identified in the School's four-phase screening program must be met for a teaching certificate recommendation. (See four-phase checklist.)

6. Minimum number of hours to graduate is 128 credit hours.

**EARLY CHILDHOOD MAJOR REQUIREMENTS**

**MAJOR**

A minimum of 34 semester hours from the following:

**Required courses**
- EDB 422 Leadership, Advocacy & Admin in EC Prog ........3 hrs
- EDC 414 Early Childhood Ed. For Young Child with Special Needs ...........................................3 hrs
- EDC 442 Early Childhood: Family, School, Community .................3 hrs
- EDC 445 Developmental Assessment of the Young Child ..................3 hrs
- EDD 406 Strategies in Early Childhood Education ....................3 hrs
- EDD 410 Practicum in Early Childhood Education ...........1 hr
- EDD 411 Directed Teaching: Early Childhood ...................4 hrs
- EDD 412 Seminar: Early Childhood .............................2 hrs
- EDC 431 Constructivist Education ................................3 hrs
- EDC 440 Child: Birth to Three .....................................3 hrs
- EDD 446 Family Center Intervention Strategies EC ........3 hrs
- EDC 446 Cognitive and Memory Development ........3 hrs
- OR
- EDD 416 Creative Tchg in Early Childhood .................3 hrs

**Notes**

1. With the approval of the Early Childhood Program Coordinator, a maximum of six credit hours of freshman and sophomore level transfer courses in early childhood will be considered for general credit toward the early childhood major.

2. An overall GPA of 2.75 or better is required for the major.

3. At least 15 semester hours in UM-Dearborn courses required for a major.

4. A grade of S is required in EDD 411.

**EARLY CHILDHOOD AND ELEMENTARY CERTIFICATION-PROFESSIONAL SEQUENCE**

The professional sequence of early childhood elementary education courses consists of:

**Foundations**
- EDA 340 The Foundations of American Education ........3 hrs

**Psychology**
- EDC 300 Educational Psychology ................................3 hrs
- EDC 412 Soc Dev & Positive Guidance Tech .................3 hrs

**Methodologies** (See Note #1 below)
- EDD 452 Methods of Teach. Math. in K-8 .......................3 hrs
- EDD 468 Teaching Reading/Language Arts ..................3 hrs
- EDF 450 Math for Elementary Teachers I .......................3 hrs
- EDD 467 Practicum in Reading Instruction* ...............1 hr
- EDD 471 Reading Instruction: Models and Methods* ........2 hrs
Endorsement (ZA) on the student's Elementary Teaching Certificate that the student is qualified to receive an Early Childhood sequence and a passing score on the MTTC Early Childhood test.

5. Recommendations for all other certification endorsements including major(s)/minor(s) require acceptable scores from relevant MTTC subject area tests.

**Notes**

1. Enrollment in all the required EDD courses is open only to those who are officially enrolled and in good academic standing in a certification program at UM-Dearborn.

2. A GPA of 2.75 or better is required overall for the Professional Sequence.

3. A grade of S is required in EDD 411. Also required is one full term of study at UM-Dearborn (12 semester hours). Election of EDF 450 is required prior to directed teaching.

4. Eligibility for directed teaching requires acceptable scores from the MTTC Subject Area Test, “Elementary Education,” major or minor depending on program selection and one full term of study at UM-Dearborn (12 semester hours).

5. Recommendations for all other certification endorsements including major(s)/minor(s) require acceptable scores from relevant MTTC subject area tests.

**Post-Degree Programs in Early Childhood**

Post-degree students wishing to obtain Michigan Elementary Teaching Certification and persons with provisional certificates wishing to maintain certification validity and to qualify for the Michigan (Early Childhood Endorsement (ZA) are also eligible for admission to the Early Childhood Education Program. All relevant Michigan Tests for Teacher Certification (MTTC) are required. Course requirements for these students will vary according to the individual undergraduate coursework of the student. Students working toward the M.A. degree and/or the Professional Education Certificate can qualify for the Michigan Early Childhood Endorsement (ZA) by pursuing appropriate coursework. Upon the student's successful completion of a prescribed Early Childhood sequence and a passing score on the MTTC Early Childhood test, the School of Education will recommend to the State of Michigan that the student is qualified to receive an Early Childhood Endorsement (ZA) on the student's Elementary Teaching Certificate.

Inquiries for additional information and program guides can be directed to the School of Education Graduate Student Services Office, (313) 593-5091.

**Secondary School Certification Program**

UM-Dearborn students may earn a bachelor's degree while securing a recommendation for a Secondary Provisional Teacher's Certificate. Programs are intended for those who wish to teach in either a junior or senior high school. Students in this program will have two advisors, one in the College of Arts, Sciences, and Letters (CASL) to help plan the degree program and another, in the School of Education, to assist in planning the certification program.

Note: Education courses, or courses in the major or minor, may not be elected for pass/fail credit.

**Campus Degree/Certification Program**

Students, upon the successful completion of certification requirements, will receive their certification recommendation through the School of Education and their degree recommendation from CASL. Therefore, they should be properly enrolled in the School of Education and CASL. Students are responsible for meeting all of the appropriate degree requirements legislated by the particular unit that is to recommend their degree. The School of Education and its faculty, therefore, can accept no responsibility for seeing that students are properly acquainted with their various degree requirements. Instead, students are to seek such information from the advisors available in their own particular degree recommending unit.

**Certification Advising**

All secondary certification students must have an advisor in the School of Education. Usually the education advisor will be assigned at the time the student first enrolls in the certification program. It is the policy of the School of Education that all undergraduates and others seeking provisional teaching certificates are to meet with their certification advisors once a year, during either the fall or winter terms. By means of this practice, the individual secondary certification student can be kept abreast of periodic modifications in the curriculum and in certification regulations.

**Certification Requirements**

A person desiring to earn a secondary teacher's certificate must meet all of the conditions listed below.

1. The satisfactory completion of a degree program with an overall GPA of 2.75 or higher.

2. The satisfactory completion of a teaching major and a teaching minor, each with a GPA of 2.75 or higher.

3. The successful completion of the courses below is required of everyone desiring to qualify for a secondary certification recommendation:

4. EDA 205 Introduction to Education EDT 211 Technology in Secondary EducationAll requirements as identified in the School's four-phase program listed below must be met for a teaching certificate recommendation.

**School of Education Four-Phase Program**

The School of Education at the UM-Dearborn is committed to the ideal of quality in the field of teacher education. It recognizes that not everyone who wishes to be a teacher is capable of meeting program requirements that relate to teacher competency. Therefore, the School of Education is selective in admitting students into its teacher preparation programs and in making recommendations for teacher certification.

A four-phase screening procedure is employed to help identify those people most likely to perform at the level of excellence defined by the School. Further, this procedure is useful in assisting students with career decisions. The screening procedure is divided into four successive phases, each with its own set of academic and professional admission standards. Students are expected to have successfully met all of the requirements at one phase before entering the next. Each student is responsible for knowing and meeting all program requirements as listed in this Undergraduate Catalog. The "School of Education Four-Phase Checklist" is as follows:
PHASE 1 Admissions to The School of Education

Three types of students are considered for admission to the School of Education at this entry level phase:

1. **First time in any college (FTIAC) students**
   Campus admission standards for SAT, ACT, and high school Grade Point Average (GPA) are used in determining admission.

2. **Transfer students**
   Campus admission standards are used for students transferring 54 or fewer semester hours. School of Education admission standards (a minimum cumulative GPA of 2.75/4.0 scale) are used for students transferring 55 or more semester hours.

3. **Degreed persons seeking certification only**
   School of Education admission standards are used for individuals with a bachelor's degree earned at a regionally accredited institution. The individual must have a cumulative GPA of 2.75 or higher in their major, minor, and overall to be admitted to the School of Education and Teacher Certification Program.

   **Important: Fingerprinting and criminal background** checks are required for work in school settings. Such work is required of all certification students. All background checks must be completed in the first semester of admission to the School of Education. Live Scan fingerprinting is being offered by Integrated Biometric Technology (IBT) by appointment only. Instruction/application forms are available at the School of Education Field Placement Office (Room 261 FCS). To make an appointment for your Live Scan fingerprinting, contact IBT at www.miibtfingerprint.com or call 1-866-2952.

   **NOTE:** Admission to a Teacher Certification program—see Phase 2—is a separate procedure from admission to the School of Education itself.

PHASE 2 Admission to the School of Education Teacher Certification Program

Admission to a School of Education Teacher Certification program (elementary/secondary) requires all of the following:

1. meeting minimum score requirements on the Michigan Test for Teacher Certification (MTTC) Basic Skills Test (Reading, Mathematics, Writing),
2. a minimum of 55 semester credit hours or an earned degree with a cumulative GPA of 2.75/4.0. Grades earned at all institutions are used in this calculation for students transferring into the School of Education with the exception of degreed persons seeking certification only (see Phase 1, number 3),
3. submission to School of Education of results from the Campus Composition Placement Test (telephone 593-5100 to arrange for the exam). This test must be taken within the first semester that a student is enrolled classes.
4. completion of COMP 105 and 106 (and COMP 227 when required),
5. Major(s) and/or minor(s) must be formally declared on a Change of Degree/Concentration Petition,
6. submission of completed Application for Admission Teacher Certification Program form (available in School of Education Student Services Office, 262 FCS). This form includes a statement of intent regarding allowing or not allowing MTTC score reporting to faculty advisors in the School of Education and College of Arts, Sciences & Letters.

7. valid Internet Criminal History Access Tool (ICHAT). A criminal background check will be conducted using ICHAT before placement in any field experience. If any offense is found, you must make an appointment with the Associate Dean.

   **Note:** When all Phase 2 requirements have been met, students receive a formal letter of admission to the Teacher Certification Program.

PHASE 3 Eligibility for Student Teaching

Eligibility for directed (student) teaching (elementary or secondary) requires all of the following:

1. passing scores from pertinent MTTC Subject Area Tests. Effective Fall 2010 elementary certification students will need to pass the “elementary education test” and their major or minor (depending on program selection) for student teaching eligibility. Secondary certification students must pass the tests in their major and their minor,
2. senior student status (minimum of 85 semester hours earned),
3. completion of at least one full term (12 semester hours) of study at UM-Dearborn,
4. a minimum cumulative GPA of 2.75/4.0 scale as well as a minimum GPA of 2.75 in the major(s), minor(s), and the professional sequence,
5. completion of professional sequence courses,
6. submission of a signed “Evaluation of Oral Expression” form to the Field Placement Office, (261 FCS),
7. attendance at a Student Teaching Application and Placement meeting and submission of all forms distributed,
8. valid TB clearance, criminal background check, CPR certification, and evidence of training for dealing with infectious diseases/blood borne pathogens on file,
9. EDF 450 is required of all Elementary Certification students, and
10. Valid Internet Criminal History Access Tool (ICHAT). A criminal background check will be conducted using ICHAT before placement in any field experience. If any offense is found, you must make an appointment with the Associate Dean.

PHASE 4 Eligibility for a Recommendation for a Degree and/or a Michigan Teaching Certificate

Recommendation for a degree and/or a Michigan Teaching Certificate (elementary/secondary) requires all of the following:

1. submission of completed Degree/Diploma Application form to the Enrollment Services Office (the form and applicable deadlines are available online at www.umd.umich.edu/rr_apply-graduate/). Note: Secondary Certification students must submit their Degree/Diploma Application form as a student in the College of Arts, Sciences and Letters and fill out a Program Completer Form to be submitted to the School of Education certification officer
2. acceptable scores from all relevant Michigan Tests for Teacher Certification (MTTC),
   a) Elementary Certification students: Elementary Education Test and major or minor
   b) to be recommended for any additional major(s), minor(s), endorsement(s), all relevant tests must be taken and passed. Results must be in by the time recommendations are prepared for the state by the UM-Dearborn certification officer.
secondary certification students: Subject area tests for which student wishes to be recommended. (At least one major and one minor are required.)

3. Successful completion of the chosen program, major(s), minor(s), professional sequence, and supplementary requirements,

4. A minimum cumulative GPA of 2.75/4.0 scale as well as a minimum GPA of 2.75 in the major(s), minor(s) and professional sequence.

Based on this record of achievement, a decision to recommend or not to recommend and/or certification will be made.

Secondary Teaching Major and Minor Requirements

Secondary education students pursuing a bachelor's degree in the College of Arts, Sciences, and Letters should not confuse the requirements for their teaching major with those for their academic concentration in CASL. The courses required to complete a teaching major are determined by the School of Education in compliance with the state certification code. The courses required for a degree concentration are prescribed by the CASL and are a part of the student's degree program. Often the two sets of requirements overlap so that by fulfilling concentration requirements, the student also, in most cases, completes most of the requirements for a teaching major. Occasionally, however, students must exercise caution when electing individual courses so that one set of requirements is not ignored while fulfilling the other. The student's faculty advisor in the School of Education will be able to assist in planning an overall certification program that simultaneously meets both sets of requirements in an expeditious manner.

Areas of Study for Majors and Minors

The teaching majors and minors currently available for secondary certification students are listed below:

Biology
Chemistry
Cognitive Impairments (major only)
Computer Science (minor only)
Earth Science
Economics
English
English as a Second Language (minor only)
French
German (minor only)
History
Integrated Science (major only)
Learning Disabilities (major only)
Mathematics
Physics
Political Science
Psychology (minor only)
Social Studies (major only)
Sociology (minor only)
Spanish
Speech (minor only)

Major
A minimum of 32 semester hours is required.

Cell and Molecular Biology

Select at least one course from major list

Organismal Biology

Select at least one course from major list

Population and Environmental Biology

Select at least one course from major list
Notes
1. An overall GPA of 2.75 or better is required for a major or a minor.
2. For the major, 16 semester hours must be in courses numbered 300 or above; for the minor, 7 semester hours in courses numbered 300 or above.
3. At least 15 semester hours in UM-Dearborn courses required for a major.

CHEMISTRY

MAJOR
A minimum of 32 semester hours is required.

Required courses
CHEM 134 General Chemistry IA ......................... 4 hrs
OR
CHEM 144 General Chemistry IB ......................... 4 hrs
CHEM 136 General Chemistry IIA ....................... 4 hrs
OR
CHEM 146 General Chemistry III ....................... 4 hrs
CHEM 225 Organic Chemistry I ......................... 3 hrs
CHEM 226 Organic Chemistry II ......................... 3 hrs
CHEM 227 Organic Lab ................................... 2 hrs
CHEM 303 Inorganic Chemistry I ....................... 3 hrs
CHEM 344 Quantitative Analysis ......................... 4 hrs
CHEM 368 Physical Chemistry I ......................... 3 hrs

Advanced chemistry course ......................... 3-4 hrs
Select at least one from the following:
CHEM 348 Environmental Chemistry .................. 3 hrs
CHEM 403 Inorganic Chemistry II ..................... 3 hrs
CHEM 447 Instrumental Methods of Analysis ........ 4 hrs
CHEM 469 Physical Chemistry II ....................... 3 hrs
CHEM 470 Biochemistry I ................................ 3 hrs

Additional Chemistry Lab courses .................. 1-2 hrs
Select one from the following:
CHEM 450 Advanced Organic Synthesis and
Characterization Laboratory ............................ 1 hr
CHEM 452 Advanced Inorganic Synthesis and
Characterization Laboratory ............................ 1 hr
CHEM 481 Physicochemical Measurements .......... 2 hrs

MINOR
A minimum of 20 semester hours is required.

Required courses
CHEM 134 General Chemistry IA ......................... 4 hrs
OR
CHEM 144 General Chemistry IB ......................... 4 hrs
CHEM 136 General Chemistry IIA ....................... 4 hrs
OR
CHEM 146 General Chemistry III ....................... 4 hrs
CHEM 225 Organic Chemistry I ......................... 3 hrs
CHEM 226 Organic Chemistry II ......................... 3 hrs
CHEM 303 Inorganic Chemistry I ....................... 3 hrs
CHEM 344 Quantitative Analysis ......................... 4 hrs

Notes
1. An overall GPA of 2.75 or better is required for a major or a minor.
2. For the major, 16 semester hours must be in courses numbered 300 or above; for the minor, 7 semester hours in courses numbered 300 or above.
3. At least 15 semester hours in UM-Dearborn courses required for the major.

CHEMISTRY/Instructional Track

The Chemistry/Instructional Track concentration is an interdisciplinary program leading to a BS degree in Chemistry, and to a Michigan Provisional Secondary Teaching Certificate. It is a collaboration between the Department of Natural Sciences and the School of Education. For further information, contact Angela Allen, advisor, at the Dept. of Nat. Sciences, (313) 593-5627.

COMPUTER SCIENCE

MINOR ONLY
A minimum of 20 semester hours is required.

Prerequisites: One year of calculus, either MATH 115 and MATH 116 or MATH 113 and MATH 114. (Not included in the 20 hrs.)

Required courses
Computer and Information Sciences .................. 12 hrs
CIS 150 Computer Science I ......................... 4 hrs
CIS 200 Computer Science II ......................... 4 hrs
CIS 275 Discrete Structures ......................... 4 hrs

Computer Literacy and Basic Programming ............... 6 hrs
CIS 350 Data Structures & Algorithm Analysis ........ 4 hrs
OR
CIS 381 Industrial Robots ....................... 3 hrs

EDT 211 Technology for Secondary Education ........ 3 hrs

Recommended Electives .................................. 6 hrs
CIS 400 Programming Languages .................... 4 hrs
MATH 447 Microcomputers in Math for Teachers ...... 2 hrs
CIS 29 (A programming language) .................. 2 hrs

Additional Electives
MATH 462 Math Modeling ....................... 3 hrs
MATH 472 Introduction to Numerical Analysis ...... 3 hrs
STAT 325 Applied Statistics I ....................... 3 hrs

(or other electives approved by academic advisor)

The State Certification requirements for Computer Science require three (3) programming languages. The Above program requires C++. Students must select two additional languages to meet the three language requirement. One recommended language is LOGO (MATH 447). Students with significant background in a language may petition for a waiver of the course teaching that language.

Notes
1. An overall GPA of 2.75 or better is required for a minor.
2. For the minor, 9 semester hours at 300 or above are required.

EARTH SCIENCE

MAJOR
A minimum of 32 semester hours is required.

Required courses
GEOG 118 Physical Geology ....................... 4 hrs
GEOG 203 Weather & Climate .................... 3 hrs
GEOG 218 Historical Geology .................... 4 hrs
GEOG 340 Remote Sensing ..................... 3 hrs
GEOG 342 Physical Oceanography ............ 3 hrs
GEOG 377 Field Methods ...................... 1 hr

ENGL 482  History of the English Language ........................ 3 hrs
ENGL 484  World Englishes .............................................. 3 hrs
LING 476  Sociolinguistics ................................................. 3 hrs

The balance of courses is to be selected with the approval of the degree and certification advisors in accordance with the English concentration requirements. Among the electives, COMM 310, 330 and 335 are allowed.......................................................... 21 hrs

Supplementary requirement (not included in the 20 hrs):

LIBR 470  Literature for Young People................................. 3 hrs

Note: COMP 105 and 106 are required but do not count toward the English minor.

Notes
1. An overall GPA of 2.75 or better is required for a major or a minor.
2. For the major, 18 semester hours must be in courses 300 or above; 9 semester hours at 300 or above for a minor.
3. At least 15 semester hours in UM-Dearborn courses required for a major.

ENGLISH AS A SECOND LANGUAGE

MINOR ONLY
Students must demonstrate experience in learning a modern second language or coursework in a modern second language or permission of Program Coordinator, or take one course in a modern language.

A minimum of 21 semester hours from the following:

Required courses
EDD 447  Teaching English as a Second Language....... 3 hrs
EDD 448  Practicum Teaching English as a Second Language ............................................... 1 hr
EDC 455  Assessment in Second Language Learning (K-12) .............................................. 2 hrs
ENGL 474  Second Language Acquisition ...................... 3 hrs
ENG 482  History of English Language ............................ 3 hrs
LING 480  Concepts of Linguistics ................................. 3 hrs
LING 476  Sociolinguistics ................................................. 3 hrs

Select two of the following ........................................... 6 hrs
ENGL 461  Modern English Grammar ............................. 3 hrs
ENGL 482  History of the English Language ....................... 3 hrs
ANTH/LING 425 Language and Society ............................ 3 hrs
LING/ENGL 484 World Englishes ................................. 3 hrs
OR
LING 484  World Englishes ................................................. 3 hrs

Notes:
1. EDD 447/448 is a pre-requisite for EDC 455.
2. LING 480 is a pre-requisite for LING/ENGL 461, LING/ENGL 482, LING/ENGL 484, LING 474 and LING 476.

FRENCH

MAJOR
A minimum of 30 semester hours in coursework beyond second-year proficiency is required.

Prerequisite: French 202 or equivalent French language proficiency (not counted toward major).

Required courses
FREN 301  Advanced Conversation and Composition. ................................................................. 3 hrs
FREN 302  Advanced Conversation and Composition ................................................................. 3 hrs

One specialized language course from the following........... 3 hrs
FREN 305  Language of Business
FREN 306  A Cultural Introduction to French Business
FREN 408  Writing and Translating

Two civilization/culture courses from the following............. 6 hrs
FREN 336  French Civilization of the Past
FREN 337  France in the Twentieth Century
FREN 338  France of Today
FREN 339  Francophone Literature and Civilization

One film course from the following ................................. 3 hrs
FREN 332  French Cinema
FREN 333  From Novel to Screen

One literature course from the following ......................... 3 hrs
FREN 330  French Literature: Middle Ages - 18th Century
FREN 331  French Literature: 19th and 20th Century
FREN 333  From Novel to Screen
FREN 334  Workshop in French Theater
FREN 339  Francophone Literature and Civilization
FREN 433  Contemporary French Theater

Additional credit hours from other French area offerings ....... 9 hrs

MINOR
A minimum of 20 semester hours of coursework beyond second year proficiency is required.

Prerequisite
French 202 or equivalent French language proficiency (not counted toward minor).

Required courses
FREN 301  Advanced Conversation and Composition.  ................................................................. 3 hrs
FREN 302  Advanced Conversation and Composition ................................................................. 3 hrs

One specialized language course from the following ........... 3 hrs
FREN 305  Language of Business ................................. 3 hrs
FREN 306  A Cultural Introduction to French Business ................................................................. 3 hrs
FREN 408  Writing and Translating ................................................................. 3 hrs

Two civilization/culture courses from the following .......... 6 hrs
FREN 336  French Civilization of the Past ................. 3 hrs
FREN 337  France in the Twentieth Century ................. 3 hrs
FREN 338  France of Today .................................................. 3 hrs
FREN 339  Francophone Literature and Civilization .... 3 hrs

One film course from the following ................................. 3 hrs
FREN 332  French Cinema .................................................. 3 hrs
FREN 333  From Novel to Screen ......................... 3 hrs

One literature course from the following ......................... 3 hrs
FREN 330  French Literature: Middle Ages - 18th Century ................................................................. 3 hrs
FREN 331  French Literature: 19th and 20th Century ................. 3 hrs
FREN 333  From Novel to Screen ................................. 3 hrs
FREN 334  Workshop in French Theater ......................... 3 hrs
FREN 339  Francophone Literature and Civilization .... 3 hrs
FREN 433  Contemporary French Theater ................................. 3 hrs

Additional credit hours from other French area offerings ....... 9 hrs
MINOR
A minimum of 20 semester hours of coursework beyond second-year proficiency is required.

**Prerequisite**
French 202 or equivalent French language proficiency (not counted toward minor).

**Required courses**
- FREN 301 Advanced Conversation and Composition. ........................................ 3 hrs
- FREN 302 Advanced Conversation and Composition ........................................ 3 hrs
- One specialized language course from the following................................. 3 hrs
  - FREN 305 Language of Business .................................................. 3 hrs
  - FREN 306 A Cultural Introduction to French ........................................ 3 hrs
  - Business ................................................................................. 3 hrs
  - FREN 408 Writing and Translating .................................................. 3 hrs
- Two civilization/culture courses from the following............................... 6 hrs
  - FREN 336 French Civilization of the Past........................................... 3 hrs
  - FREN 337 France in the Twentieth Century ....................................... 3 hrs
  - FREN 338 France of Today ............................................................ 3 hrs
  - FREN 339 Francophone Literature and Civilization .................................. 3 hrs
- One film course from the following....................................................... 3 hrs
  - FREN 332 French Cinema ................................................................ 3 hrs
  - FREN 333 From Novel to Screen ..................................................... 3 hrs
- One literature course from the following............................................... 3 hrs
  - FREN 330 French Literature: Middle Ages - 18th Century.......................... 3 hrs
  - FREN 331 French Literature: 19th and 20th Century ............................... 3 hrs
  - FREN 333 From Novel to Screen ..................................................... 3 hrs
  - FREN 334 Workshop in French Theater .............................................. 3 hrs
  - FREN 339 Francophone Literature and Civilization .................................. 3 hrs
  - FREN 433 Contemporary French Theater ........................................... 3 hrs

**Notes**
1. FREN 333 and 339 are listed under two headings. Students may count them under one or the other of the headings as they wish, but not under both.
2. Concentrators are encouraged to strengthen their knowledge of French language and culture by participating in any of the approved study-abroad programs.
3. For the major, 30 credit hours of upper-level courses (courses numbered 300 or higher) are required; 20 credit hours of upper-level courses are required for the minor.
4. An overall GPA of 2.75 or better is required for a major or a minor.
5. At least 15 semester hours in UM-Dearborn courses required for a major.
6. Acceptable scores from the MTTC Subject Area Test in French are required for Teacher Certification.

GERMAN

**MINOR ONLY**
A minimum of 20 semester hours of coursework beyond second-year proficiency is required.

**Prerequisite:** GER 202 or equivalent German language proficiency (not counted toward minor).

**Required courses**
- GER 301 Advanced Conversation and Composition ........................................ 3 hrs
- GER 302 Advanced Conversation and Composition ........................................ 3 hrs
- GER 305 Language of Business ................................................................ 3 hrs
- One culture course from the following.................................................. 3 hrs
  - GER 376 Contemporary German Cultures ............................................. 3 hrs
- One literature course from the following.............................................. 3 hrs
  - GER 371 German Literature: Classic and Romantic .................................. 3 hrs
  - GER 372 Introduction to German Literature ......................................... 3 hrs
- One additional course from the following.............................................. 3 hrs
  - GER 371 German Literature: Classic and Romantic .................................. 3 hrs
  - GER 372 Introduction to German Literature ......................................... 3 hrs
  - GER 376 Contemporary German Culture ............................................. 3 hrs
  - GER 390 Topics in German .............................................................. 3 hrs
- Two additional credit hours from other upper-level German area offerings including one-hour reading courses........................................ 2 hrs

**Notes**
1. Students minoring in German are encouraged to strengthen their knowledge of German language and culture by participating in any of the approved study-abroad programs or a total immersion summer program.
2. For the minor, 20 credit hours of upper-level courses (courses numbered 300 or higher) are required.
3. An overall GPA of 2.75 or better is required for a minor.
4. Acceptable scores from the MTTC Subject Area Test in German are required for Teacher Certification.

HISTORY

**MAJOR**
A minimum of 30 semester hours is required.

**Required courses**
- HIST 101 Ancient World ................................................................. 3 hrs
- HIST 103 Modern World ................................................................. 3 hrs
- HIST 111 American Past I ............................................................... 3 hrs
- HIST 112 American Past II .............................................................. 3 hrs
- HIST 3601 Michigan History ............................................................ 3 hrs

Balance of courses to be selected from three different global areas:
Asia, Europe, Africa, the Americas, Russia or the Middle East........... 15 hrs

**MINOR**
A minimum of 21 semester hours is required.

**Required courses**
- HIST 103 Modern World History ...................................................... 3 hrs
- HIST 3601 Michigan History ............................................................ 3 hrs

Select one of the following:
- HIST 111 American Past I ............................................................... 3 hrs
- HIST 112 American Past II .............................................................. 3 hrs

Balance of courses to be selected from at least two different global areas:
Asia, Europe, Africa, the Americas, Russia or the Middle East........... 6 hrs

Balance of courses to be selected with the approval of the degree and certification advisors in accordance with the history concentration and certification requirements....................................................... 6 hrs

**Notes**
1. An overall GPA of 2.75 or better is required for a major or a minor.
2. For the major, 15 semester hours must be in courses 300 or above; 9 semester hours at 300 or above for a minor.
3. 15 semester hours in UM-Dearborn courses required for a major. 9 semester hours in UM-Dearborn courses required for a minor.
INTEGRATED SCIENCE

MAJOR
A minimum of 36 semester hours is required spread over three of the four subject areas for Integrated Science. The remaining subject area will constitute your minor. You must minor in one of these four disciplines.

Biology ................................................................. 12 hrs
Required courses 8 hrs
BIOL 130  Introduction to Organismal and Environmental Biology
BIOL 140  Introduction to Molecular and Cellular Biology
Select one course from the following ......................... 4 hrs
BIOL 301  Cell Biology .............................................. 4 hrs
BIOL 304  Ecology .................................................... 4 hrs
BIOL 306  General Genetics ......................................... 3 hrs
BIOL 320  Field Biology ............................................. 4 hrs
BIOL 360  Population Genetics and Evolution ................ 3 hrs
BIOL 385  Microbiology ............................................ 4 hrs

Chemistry .................................................................. 12 hrs
Required courses
CHEM 124/124L General Chemistry IA ......................... 4 hrs
OR
CHEM 136  General Chemistry IIA ............................... 4 hrs
OR
CHEM 146  General Chemistry III ............................... 4 hrs
CHEM 225  Organic Chemistry I ................................... 3 hrs
Select one course from the following ......................... 3 hrs
CHEM 226  Organic Chemistry II ................................ 3 hrs
CHEM 227  Organic Chemistry Laboratory ..................... 2 hrs
CHEM 303  Inorganic Chemistry .................................. 3 hrs
CHEM 344  Quantitative Analysis .................................. 4 hrs

Earth Science ........................................................... 12 hrs
Required courses
GEOL 118  Physical Geology ....................................... 4 hrs
GEOL 203  Weather and Climate .................................. 3 hrs
PHYS 130  Introduction to Astronomy ........................... 3 hrs
PHYS 131  Introduction to Astronomy Lab ...................... 1 hr
Select one course from the following ......................... 1-4 hrs
GEOL 218  Historical Geology ..................................... 4 hrs
GEOL 332  Hazardous Waste Management ..................... 3 hrs
GEOL 340  Remote Sensing ......................................... 3 hrs
GEOL 342  Oceanography ........................................... 3 hrs
GEOL 370  Environmental Geology ............................... 3 hrs
GEOL 377  Field Methods ........................................... 1 hr

Physics ................................................................. 12 hrs
Required courses 8 hrs
PHYS 125  Introductory Physics I ................................ 4 hrs
OR
PHYS 150  General Physics I ....................................... 4 hrs
AND
PHYS 126  Introductory Physics II ................................ 4 hrs
OR
PHYS 151  General Physics II ....................................... 4 hrs
Select one course from the following ......................... 4 hrs

PHYS 305  Contemporary Physics ................................ 3 hrs
PHYS 360  Instrumentation for Scientists ..................... 4 hrs
PHYS 401  Mechanics ................................................ 3 hrs
PHYS 403  Electricity and Magnetism ......................... 3 hrs
PHYS 405  Optics ...................................................... 3 hrs
PHYS 406  Thermal and Statistical Physics .................... 4 hrs

MINOR
A minimum of 20 additional hours is required in one of the subject areas above. See information above under Major.

Additional Notes:
1. An overall GPA of 2.75 or better is required for a major.
2. At least 15 hours of UM-Dearborn courses are required for a major.

MATHEMATICS

MAJOR
A minimum of 30 semester hours from courses numbered above MATH 105 is required.

Required courses
MATH 115  Calculus I ................................................ 4 hrs
MATH 116  Calculus II ............................................... 4 hrs
MATH 215  Calculus III .............................................. 4 hrs
MATH 200  Mathematical Proof and Structures ............... 2 hrs
MATH 216  Introduction to Differential Equations .......... 3 hrs
MATH 227  Intro to Linear Algebra ................................ 3 hrs
MATH 331  Survey of Geometry .................................... 3 hrs
MATH 412  First Course in Modern Algebra ................. 3 hrs
MATH 486  Secondary School Mathematics for Teachers .... 3 hrs

Recommended electives ............................................. 3 hrs
MATH 276  Discrete Mathematics ................................ 3 hrs
MATH 315  Applied Combinatorics ............................... 3 hrs
MATH 372  Computing with Mathematica ....................... 3 hrs
MATH 395  Elementary Number Theory ....................... 3 hrs
MATH 413  Linear Algebra .......................................... 3 hrs
MATH 455  Complex Variables .................................... 3 hrs
MATH 462  Mathematical Modeling .............................. 3 hrs
MATH 480  History of Mathematics .............................. 3 hrs

Supplementary requirements (not included in the 30 hours) .... 3 hrs
CIS 125  Survey of Computer Science ......................... 3 hrs
STAT 325  Applied Statistics I .................................... 3 hrs

MINOR
A minimum of 20 semester hours from courses numbered above MATH 105 is required.

Required courses
MATH 115  Calculus I ................................................ 4 hrs
MATH 116  Calculus II ............................................... 4 hrs
MATH 200  Math. Proof and Structures ......................... 2 hrs
MATH 227  Intro to Linear Algebra ................................ 3 hrs
MATH 331  Survey of Geometry .................................... 3 hrs
MATH 486  Secondary School Mathematics for Teachers .... 3 hrs

Recommended electives ............................................. 3 hrs
MATH 276  Discrete Mathematics ................................ 3 hrs
MATH 315  Applied Combinatorics ............................... 3 hrs
MATH 372  Computing with Mathematica ....................... 3 hrs
MATH 395  Elementary Number Theory ....................... 3 hrs
MATH 413  Linear Algebra .......................................... 3 hrs
MATH 455  Complex Variables .................................... 3 hrs
PHYS 462 Mathematical Modeling ......................... 3 hrs
PHYS 480 History of Mathematics ....................... 3 hrs

STAT 325 Applied Statistics I .............................. 3 hrs
OR
a course in data analysis and probability

Supplementary requirement (not included in the 20 hours) ... 3 hrs
CIS 125 Survey of Computer Science ..................... 3 hrs
OR
a programming course ................................. 3 hrs

Notes
1. An overall GPA of 2.75 or better is required for a major or a minor.
2. For the major, 12 semester hours must be in courses 300 or above; 6 semester hours at 300 or above for a minor.
3. At least 15 semester hours in UM-Dearborn courses required for a major.

PHYSICS

MAJOR
A minimum of 32 semester hours is required.

Required courses

PHYS 150 General Physics I............................. 4 hrs
PHYS 151 General Physics II ............................ 4 hrs
PHYS 305 Contemporary Physics ..................... 3 hrs
PHYS 401 Mechanics .................................... 3 hrs
PHYS 403 Electricity and Magnetism ................. 3 hrs

Electives

PHYS 320 Environmental Physics ................... 3 hrs
PHYS 360 Instrumentation for Scientists ........... 4 hrs
PHYS 405 Optics ...................................... 3 hrs
PHYS 406 Thermal and Statistical Physics ........... 3 hrs
PHYS 453 Quantum Mechanics ....................... 3 hrs
PHYS 457 Atomic and Nuclear Physics .............. 3 hrs
PHYS 460 Advanced Physics Laboratory II ......... 3 hrs
PHYS 463 Solid State Physics ......................... 3 hrs

MINOR
A minimum of 20 semester hours is required.

Required courses

PHYS 125 Introductory Physics I ....................... 4 hrs
PHYS 150 General Physics I ......................... 4 hrs

AND

PHYS 126 Introductory Physics II ....................... 4 hrs
PHYS 151 General Physics II ......................... 4 hrs
PHYS 305 Contemporary Physics ..................... 3 hrs

Additional hours selected from the following ............ 9 hrs
PHYS 320 Environmental Physics ................... 3 hrs
PHYS 360 Instrumentation for Scientists ........... 4 hrs
PHYS 401 Mechanics .................................... 3 hrs
PHYS 403 Electricity and Magnetism ................. 3 hrs
PHYS 405 Optics ...................................... 3 hrs
PHYS 453 Quantum Mechanics ....................... 3 hrs
PHYS 457 Atomic and Nuclear Physics .............. 3 hrs
PHYS 460 Advanced Physics Laboratory II ......... 3 hrs
PHYS 463 Solid State Physics ......................... 3 hrs

Notes
1. An overall GPA of 2.75 or better is required for a major or a minor.
2. For the major, 15 semester hours must be in courses 300 or above; 9 semester hours in courses 300 or above for a minor.
3. At least 15 semester hours in UM-Dearborn courses required for a major.

POLITICAL SCIENCE

MAJOR
A minimum of 30 semester hours is required.

Required courses

POL 101 Introduction to American Government ...... 3 hrs
POL 201 Introduction to Comparative Government ... 3 hrs
POL 313 American State Government .................. 3 hrs
POL 316 American Judicial Process ................... 3 hrs
POL 325 Environmental Politics ....................... 3 hrs
POL 371 International Relations ....................... 3 hrs
HIST 103 Modern World History ....................... 3 hrs

The balance of courses to be selected with the approval of the academic advisor in accordance with the Political Science concentration and certification requirements .......................... 9 hrs

MINOR
A minimum of 21 semester hours is required.

Required courses

POL 101 Introduction to American Government ...... 3 hrs
POL 201 Introduction to Comparative Government ... 3 hrs
POL 371 International Relations ....................... 3 hrs

Select two of the following: ........................................

POL 304 American Political Thought ................ 3 hrs
POL 306 Political Ideologies .......................... 3 hrs
POL 313 American State Government .................. 3 hrs
POL 322 Government of Michigan ...................... 3 hrs
POL 340 Federalism ..................................... 3 hrs
POL 385 Middle East Politics ......................... 3 hrs
POL 413 American Constitutional Law ................. 3 hrs

The balance of courses to be selected with the approval of the academic advisor in accordance with the Political Science concentration and certification requirements .......................... 6 hrs

Notes
1. An overall GPA of 2.75 or better is required for a major or a minor.
2. For the major, 15 semester hours must be in courses 300 or above; 9 semester hours in courses 300 or above for a minor.
3. At least 15 semester hours in UM-Dearborn courses required for a major.

PSYCHOLOGY

MINOR ONLY
A minimum of 21 semester hours is required.

Required courses 12 hrs

PSYC 170 Psychology as a Natural Science ........... 3 hrs
PSYC 171 Psychology as a Social Science ............ 3 hrs
PSYC 300 Life-Span Developmental Psychology ...... 3 hrs
PSYC 320 Social Psychology ........................... 3 hrs

Select one of the following: ........................................

PSYC 315 Personality Development .................... 3 hrs
PSYC 445 Personality Assessment ..................... 3 hrs
PSYC 450 Personality Theory ........................... 3 hrs
Select two of the following .......................................... 6 hrs
PSYC 321 Attitudes and Social Behavior .................... 3 hrs
PSYC 322 Psychology of Prejudice ............................... 3 hrs
PSYC 363 Cognitive Psychology ...................................... 3 hrs
PSYC 365 Environmental Psychology ........................... 3 hrs
PSYC 418 Cognitive Development ................................. 3 hrs
PSYC 421 Group Processes .............................................. 3 hrs
PSYC 461 Learning & Memory ....................................... 3 hrs

Notes
1. An overall GPA of 2.75 or better is required for a major or a minor.
2. Eighteen (18) semester hours must be in courses 300 or above for a minor.
3. PSYC 401 satisfies the EDC 302 (Adolescent Development) requirement for secondary certification students if taken prior to Fall 1996.

SOCIAL STUDIES

MAJOR ONLY
A minimum of 36 semester hours is required.

Required courses
History ............................................................................ 18 hrs
HIST 101 Ancient World History ...................................... 3 hrs
HIST 103 Modern World History ...................................... 3 hrs
HIST 111 American Past I ............................................. 3 hrs
HIST 112 American Past II ............................................. 3 hrs
HIST 3601 Michigan History ......................................... 3 hrs
HIST 3602 Michigan History ......................................... 3 hrs
Political Science .......................................................... 6 hrs
POL 101 Introduction to American Government ............ 3 hrs
POL 371 Problems in International Politics .................. 3 hrs
Geography ........................................................................... 6 hrs
GEOG 206 World Regional Geography ....................... 3 hrs
GEOG 302 Mapping Our World ................................ 3 hrs
Economics ................................................................. 6 hrs
ECON 201 Principles of Macroeconomics ....................... 3 hrs
ECON 202 Principles of Microeconomics ....................... 3 hrs

Notes
1. An overall GPA of 2.75 or better is required for a major.
2. For the major, at least 12 semester hours of the 36 must be in courses 300 or above.
3. 15 semester hours in UM-Dearborn courses required for a major.

SOCIOLOGY

MINOR ONLY
A minimum of 21 semester hours is required.

Required courses 9 hrs
SOC 200 Principles of Sociology .................................. 3 hrs
SOC 201 Contemporary Social Problems ....................... 3 hrs
SOC 382 Social Psychology ............................................. 3 hrs
Select one of the following ............................................ 3 hrs
SOC 422 Structure of American Society ........................... 3 hrs
SOC 423 American Social Classes ................................... 3 hrs
SOC 449 The Black Family in Contemporary America ........ 3 hrs
Select one of the following ............................................ 3 hrs
SOC 445 The Family ....................................................... 3 hrs
SOC 446 Marriage and Family Problems ....................... 3 hrs
SOC 447 Family Violence .............................................. 3 hrs
Select two of the following ............................................ 6 hrs
SOC 403 Minority Groups .............................................. 3 hrs
SOC 430 Population Problems ....................................... 3 hrs
SOC 443 Development of Sex Roles .............................. 3 hrs
SOC 455 Sociology of Religion ....................................... 3 hrs
SOC 458 Sociology of Education ..................................... 3 hrs
SOC 460 America in a Global Society ........................... 3 hrs
SOC 465 Deviant Behavior/Social Disorganization ........... 3 hrs
SOC 469 Juvenile Delinquency ...................................... 3 hrs

Notes
1. An overall GPA of 2.75 or better is required for a major or a minor.
2. Fifteen semester hours must be in courses 300 or above for a minor.

SPANISH

MAJOR
A minimum of 30 semester hours of coursework beyond second-year proficiency is required.

Prerequisite: SPAN 202 or equivalent Spanish language proficiency (hours do not count toward major).

Required courses 9 hrs
SPAN 301 Advanced Conversation and Composition I ............... 3 hrs
SPAN 302 Advanced Conversation and Composition II .............. 3 hrs
SPAN 305 Language of Business ..................................... 3 hrs
Two civilization/culture courses from the following ............. 6 hrs
SPAN 356 Spanish Civilization and Culture ....................... 3 hrs
SPAN 357 Latin American Civilization and Culture ............... 3 hrs
SPAN 358 Spain in the Twentieth Century .......................... 3 hrs
One literature course from the following ............................... 3 hrs
SPAN 350 Masterpieces of Latin American Literature .......... 3 hrs
SPAN 351 Masterpieces of Spanish Literature ...................... 3 hrs
Two 400-level language courses from the following ........... 4-5 hrs
SPAN 406 Advanced Written Expression .......................... 2 hrs
SPAN 409 Oral Expression ............................................. 2 hrs
SPAN 420 Introduction to Translation ............................. 3 hrs
Additional credit hours from other Spanish area offering .... 7-8 hrs

MINOR
A minimum of 20 semester hours of coursework beyond second-year proficiency is required.

Prerequisite: SPAN 202 or equivalent Spanish language proficiency (hours do not count toward minor).

Required courses .......................................................... 9 hrs
SPAN 301 Advanced Conversation and Composition I .......... 3 hrs
SPAN 302 Advanced Conversation and Composition II ........ 3 hrs
SPAN 305 Language of Business ..................................... 3 hrs
Two civilization/culture courses from the following .......... 6 hrs
SPAN 356 Spanish Civilization and Culture ........................ 3 hrs
SPAN 357 Latin American Civilization and Culture ............... 3 hrs
SPAN 358 Spain in the Twentieth Century .......................... 3 hrs
One literature course from the following ............................... 3 hrs
SPAN 350 Masterpieces of Latin American Literature .......... 3 hrs
SPAN 351 Masterpieces of Spanish Literature ...................... 3 hrs
One 400-level language course from the following........... 2-3 hrs
SPAN 406 Advanced Written Expression ................. 2 hrs
SPAN 409 Oral Expression ................................... 2 hrs
SPAN 420 Introduction to Translation ................... 3 hrs

Notes
1. Concentrators must take at least one course that deals specifically with Spanish (peninsular) topics such as SPAN 351, 356, or 358 and at least one course that deals with the Latin American topics such as SPAN 350 or 357.
2. Concentrators are encouraged to strengthen their knowledge of Spanish language and Hispanic culture by participating in any of the approved study-abroad programs.
3. For the major, 30 credit hours of upper-level courses (courses numbered 300 or higher) are required; 20 credit hours of upper-level courses are required for the minor.
4. An overall GPA of 2.75 or better is required for a major or a minor.
5. At least 15 semester hours in UM-Dearborn courses are required for a major.
6. Acceptable scores from the MTTC Subject Area Test in Spanish are required for teacher certification.

SPREE 430 Small Group Communication ......................... 3 hrs
SPREE 400 Speech Skills for Professionals ...................... 3 hrs
SPREE 330 Argumentation and Debate .......................... 3 hrs
SPREE 320 Public Argument and Advocacy ...................... 3 hrs
SPREE 310 Interpersonal Communications ....................... 3 hrs

PROFESSIONAL REQUIREMENTS
Preparation for a teaching credential consists of required courses in education. At least two practicums and methods courses in the academic major and minor are required prior to directed teaching.

Professional Sequence
A minimum of 34 semester hours of coursework is required.

Foundations
EDA 340 The Foundations of American Education............. 3 hrs

Multicultural education
EXPS 410 Multiculturalism in School and Society.............. 3 hrs

Psychology
EDC 300 Educational Psychology.............................. 3 hrs
EDC 302 Adolescent Dev & Clsrn Mgmt......................... 3 hrs
EDC 304 Practicum Adolescent Dev & Clsrn Mgmt,1 hr
EDC 460 Educating the Exceptional Child..................... 3 hrs

EDD 469 Reading in the Content Areas........................ 3 hrs
Methods Course in Selected Major/Minor and practicum ... 4 hrs
EDD 440 Teaching English in Second Grades ................. 3 hrs
EDD 441 Practicum: English in Second Grades ............... 1 hr
EDD 450 Teaching Mathematics in Secondary Grades ......... 3 hrs
EDD 451 Practicum: Mathematics in Secondary School ....... 3 hrs
EDD 480 Teaching of Science in the Secondary School ....... 3 hrs
EDD 481 Practicum in Science: Secondary Grades .......... 3 hrs
EDD 490 Teaching of Social Studies in Secondary Schools .... 1 hr
EDD 489 Practicum in Social Studies: Secondary Schools .... 3 hrs
EDD 496 Second Language Teaching: Secondary Level .......... 1 hr
EDD 497 Practicum in Second Language Teaching: Secondary Level .................. 3 hrs

Methods course in minor if different than major
OR
Education elective .................................................. 2-3 hrs

Note: See SOE advisor for Schedule of Classes offerings.

Professional Semester (See Notes #3, #4, & #5 below)
EDD 421 Directed Teaching in Secondary Schools ............. 12 hrs
EDD 424 Seminar: Teaching in the Secondary Grades .......... 1 hr

Notes
1. Enrollment in all the required EDD courses is open only to those who are officially enrolled and in good academic standing in a certification program at UM-Dearborn (junior standing required), with a cumulative GPA of 2.75 or higher.
2. A GPA of 2.75 or better is required overall for the Professional Sequence.
3. Taking and passing the MTTC Basic Skills Test.
4. Eligibility for directed teaching requires acceptable scores from the MTTC (Michigan Tests for Teacher Certification) subject area tests: major and minor, and one full term of study at UM-Dearborn (12 semester hours).
5. Eligibility for other endorsements requires acceptable scores from the relevant MTTC subject area tests.

Methods courses are open only to students officially admitted into: the School's certification programs (Elementary, Secondary) or the Children and Families program. Therefore, credit for successfully completing such courses will be awarded by the School only to those students who, at the time of enrolling in such courses, are officially admitted and are in good academic standing. These courses are: EDD 421, EDD 424, EDD 440/441, EDD 450/451, EDD 469, EDD 480/481, EDD 490/489, and EDD 496/497.
The program as outlined above meets the Michigan Department of Education teacher certification requirements at the time of this writing. However, changes by the University or the Michigan Department of Education may affect some program requirements. Therefore, the student is strongly advised to find out about possible changes by checking with the Office of Student Records in the School of Education and/or with an Education advisor.

Other Bachelor's Degree Programs

The School of Education awards the Bachelor of General Studies degree (BGS) in the following program.

Children and Families BGS

The Children and Families Program is a Bachelor of General Studies degree. This program is a four-year degree program without elementary teaching certification, designed for students who wish to pursue careers in child care centers, teaching and administration, social service agencies or in other work with children and families. The 2+2 Children and Families BGS Program is designed to combine selected two-year community college associate degree programs with two years of coursework at the UM-Dearborn. The associate degrees eligible for this program must be covered by articulation agreements between the community college and the UM-Dearborn, School of Education, or are accepted with permission of the Children and Families Program Advisor.

The UM-Dearborn students may be admitted to the Children and Families Program with a minimum grade point average of 2.5.

COURSEWORK AT COMMUNITY COLLEGE

Credits earned to complete designated community college associate degrees will be accepted for the UM-Dearborn BGS degree as lower-division credit (up to a maximum of 62 hours). Courses not applied toward meeting BGS distribution requirements or program prerequisites will be utilized as elective courses or general credit toward the Children and Families BGS degree. (Examples of the variety of community college associate degrees that could be acceptable for this 2+2 program are: Early Childhood Education and Care, and Family Support Services.) Currently, articulation agreements exist with Schoolcraft College and Macomb Community College, Washtenaw Community College as well as a transfer agreement with Oakland Community College.

COURSES TO BE TAKEN AT UM-DEARBORN

Students must complete Composition 220 (COMP 220) at UM-Dearborn.

Students must complete at least 48 hours in courses numbered 300 or above, of which at least 21 hours must be in the School of Education. Courses must be distributed such that three areas of focus are developed, including: 1) Child Studies (Area I); 2) Behavioral Studies (Area II); and 3) an Elective area (Area III) to be chosen by the student with advisor approval. A minimum of 12 upper-level hours must be in Child Studies (Area I) and 9 upper-level hours in Behavioral Studies (Area II) must be earned at UM-Dearborn.

The remaining coursework at UM-Dearborn (to total the required 58-60) will be elected from either lower- or upper-division courses. These can be used to complete distribution requirements, to meet specific prerequisites, or to meet requirements and strengthen background in the Child Studies area.

To complete the program, students must have a 2.5 grade point average overall, 2.5 in Child Studies (Area I) and 2.5 in Behavioral Studies (Area II), and at least a 2.0 in the Elective area (Area III). A total of 120 credit hours is necessary to graduate.

AREAS OF STUDY

The student will elect courses in three areas of study, as follows:

<table>
<thead>
<tr>
<th>Area</th>
<th>Child Studies</th>
<th>Behavioral Science</th>
<th>Elective Area</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>31-40 hrs</td>
<td>15+ hrs</td>
<td>12+ hrs</td>
</tr>
</tbody>
</table>

*Elective Area selected with advisor approval from:

Anthropology
Business
Communication
Comp. Info. Science
**Education (highly recommended)
Sociology
Spanish
Women’s Studies

* The student may select an alternative third area of study (i.e., one which is not listed above) if approved by the Children and Families Program Advisor.

** If Education is selected as the Elective Area, the following courses may not be elected: EDD 452, EDD 467, EDD 468, EDD 471, EDD 485 and EDD 495.

ADDITIONAL DISTRIBUTION REQUIREMENTS FOR CHILDREN AND FAMILIES BGS

The following categories must be represented as part of the 58+ hours required to be taken at the UM-Dearborn. (Note that these will also satisfy requirements of one of the three BGS degree areas of study.)

Human Development to be chosen from*: ........................................ 2-3 hrs
EDC 302 Adolescent Development........................................... 3 hrs
ANTH 415 Nutrition and Human Development.................. 3 hrs
PSYC 300 Life-Span Development Psychology............... 3 hrs
PSYC 315 Personality Development.......................... 3 hrs
PSYC 404 Parent-Child Relations.......................... 3 hrs
PSYC 405 Gender Roles ........................................ 3 hrs
PSYC 442 Psychopathology of Childhood.................. 3 hrs
PSYC 450 Personality Theory........................................ 3 hrs

Cultural Diversity to be chosen from: ........................................ 3 hrs
EXPS 410 Multiculturalism in School and Society .... 3 hrs
ANTH 409 Human Growth and Culture.......................... 3 hrs
ANTH 421 Education and Culture.............................. 3 hrs
ANTH 425 Language and Society............................ 3 hrs
ANTH 482 Psychological Anthropology.................. 3 hrs
PSYC 321 Attitudes and Social Behavior.................. 3 hrs
PSYC 322 Psychology of Prejudice.......................... 3 hrs
PSYC 432 Socialization of the Child...................... 3 hrs
SOC 350 Sociology of Poverty........................... 3 hrs
SOC 320 Social Psychology.................................... 3 hrs
SOC 403 Minority Groups........................................ 3 hrs
SOC 423 American Social Classes............................ 3 hrs

Child Child Welfare to be chosen from*: ........................................ 2-3 hrs
EDB 421 Current Issues in Early Ed............................ 2 hrs
SOC 477 Introduction to Social Welfare.................. 3 hrs
SOC 478 Sociology/Social Work Internship.............. 3 hrs
SOC 482 Methods: Social Work Practice.................. 3 hrs

*Other courses may be substituted with written permission of Children and Families Program Advisor.
CHILD STUDIES (Area I) ........................................ 31-40 hrs

**NOTE:** Course numbers and offerings may have changed; please consult your faculty advisor regarding updated course numbers.

**Other Programs**

**Substitute Teacher Program**

The Substitute Teacher Program is designed for students who wish to pursue work as a substitute classroom teacher in K-12 school settings. The program is designed to combine 60 credit hours from community college programs with 30 credit hours of coursework at the UM-Dearborn. UM-Dearborn students may also be admitted to the Substitute Teacher Program upon completion of 60 credit hours with a minimum grade point average of 2.75.

**ADMISSION AND APPLICATION PROCEDURE**

Individuals seeking entry into the Substitute Teacher Program and transferring credit from another institution should apply through the School of Education Student Services Office (262 FCS).

Many individuals enter the School of Education after completing a portion of college work at other two- and four-year institutions. These persons are considered transfer students. Admission to the School of Education Substitute Teacher Program does not constitute admission to a teacher certification program. Like other students admitted to programs at UM-Dearborn, transfer students entering the School of Education will be expected to fulfill all program requirements.

Potential candidates must observe established procedures in having their credentials evaluated for the Substitute Teacher Program. Request forms are available in the Student Services Office (262 FCS). Credentials are evaluated for acceptable courses required by the program. A maximum of 60 credit hours coursework will be accepted for the UM-Dearborn Substitute Teacher Program. An
PROGRAM REQUIREMENTS

Required for completion: 90 credit hours
Required from UM-Dearborn: 30 credit hours

Program in Elementary Education

In the event that any of the above-listed courses have been completed at a community college and are accepted by UM-Dearborn, the following electives are available:

Secondary Electives
Electives are chosen as needed based on subject area content.

Applications forms for any post-degree program can be obtained from the School of Education Student Services Office (262 FCS), or online at www.soe.umd.umich.edu/690/

Certification Only Program
(Elementary - COE, Secondary - COS)

Candidates with a degree from an accredited institution and wishing to earn a Michigan Elementary or Secondary Provisional Certificate, must meet the following requirements for these programs:

1. A bachelor’s degree from an accredited institution is required for admission along with acceptable scores on the MTTC Basic Skills Test for the post-degree certification only program. Students must have a 2.75 GPA overall and in their major and minor to be admitted to the School of Education teacher certification program. Once admitted to the teacher certification program, students must continue to maintain a 2.75 GPA.

2. To be eligible for directed teaching (student teaching), students must take and pass the relevant MTTC subject area test, i.e., “Elementary” test for seekers of elementary certification; the major and minor tests for seekers of secondary certification.

3. When the desired major/minor is incomplete and the GPA for the major and/or minor is between 2.50 and 2.74, a minimum of 12 semester hours for the major and nine (9) semester hours for a minor must be completed with UM-Dearborn courses and the cumulative GPA must be 2.75 or better.

4. Potential candidates must observe established procedures in having their credentials evaluated for the certification program. Request forms are available in the Student Services Office of the School of Education. Credentials are evaluated for acceptable majors, minors, and those supplementary courses, required by the program.

5. At least two practica at UM-Dearborn shall be required of all COE/COS students prior to student teaching.
6. A maximum of six semester hours (non-UM-Dearborn courses) will be accepted, if applicable, toward the professional sequence, not including directed teaching or seminar. The cumulative GPA in the professional sequence must be 2.75 or better. No community college courses can be used for credit in the professional sequence of required courses. Grades earned in professional sequence courses must observe the criteria established for directed teaching eligibility.  

7. When there is evidence to warrant an adjustment in requirements for an admitted COE/COS student, the Professional Standards Committee will act accordingly. Students desiring re-evaluations may use the established petition process.  

8. To be eligible for certification, students must have acceptable scores from the Michigan Tests for Teacher Certification Subject Area Tests for every major, minor and endorsement.  

9. No credit toward program is allowable for ROTC and/or physical education.  

10. Foreign transcripts must be evaluated by:  

   Educational Credential Evaluators, Inc.  
   PO Box 514070  
   Milwaukee, WI 53203-3470  
   Telephone: (414) 289-3400 or  
   World Evaluation Services  
   Bowling Green Station  
   PO Box 5087  
   New York NY 10274-5087  
   Telephone: (212) 966-6311  

11. An English language proficiency test may be required for non-native English speakers.  

12. For all practicums and student teaching, the following are required:  
   a. TB clearance,  
   b. Criminal background clearance  
   c. Evidence of training for dealing with infectious diseases and blood-borne pathogens and,  
   d. CPR certification  

Individuals entering this program are required to meet the basic certification requirements at the time they are admitted, and which are appropriate for the particular certificate desired. To enroll, it is necessary to apply for admission to the UM-Dearborn as a "Certification Only Student," through the School of Education. Forms are available in the Office of the School of Education.  

**Professional Education Certificate Program (PEC)**  

The Professional Education Certificate Program is for persons with a Michigan Provisional Teaching Certificate wishing to earn a Professional Education Certificate. Upon the expiration of the Michigan Provisional Teaching Certificate, teachers are required by state law to secure a Professional Education Certificate in order to retain a valid teaching credential. In recommending individuals for this certificate, the University forwards requests to the Michigan Department of Education that, in turn, issues the certificate. Application forms for this program are available in the School of Education Student Services Office (262 FCS) or online at www.soe.umd.umich.edu/690/.  

**CURRICULUM**  

Individuals already holding a valid Michigan provisional certificate can qualify for a Michigan Professional Education Certificate by completing the 18 semester hour post-degree program offered at UM-Dearborn through the School of Education. This program is ideal for the working teacher who wants to maintain a valid teaching credential but is not interested in pursuing a graduate degree.  

The Professional Education certificate program is tailor-made to fit the particular professional needs and goals of the individual student. To meet residency requirements, students must satisfactorily complete at least 12 semester hours of advisor-approved courses in a planned 18-hour program. Occasionally, some post-degree credit earned at other accredited institutions may also be applied toward the student's program. Such credit, however, is allowed only when written permission is obtained prior to enrollment in any such course or credit-granting workshop. The entire course of study, however, can be completed at UM-Dearborn by attending classes during late afternoons, early evenings, and summers. Correspondence courses are not accepted.  

**ADMISSION**  

1. Admission to this post-degree program (PEC) requires formal application to the program, a Michigan Provisional Teaching Certificate, and an approved bachelor's degree. Official copies of transcripts and a copy of the teaching certificate are required.  

2. The plan of study is agreed upon with an advisor who will meet regularly with the student to advise and monitor progress of the 18 semester hour plan of work. It is the student’s responsibility to make annual appointments with the advisor.  

3. When the renewal of a provisional certificate is desired, nine semester hours of approved credit will permit the student to file an application for renewal of the existing provisional certificate. Forms are available in the Student Services Office, 262 FCS. Of the nine hours required, six must be from UM-Dearborn. A minimum 2.75 GPA is required. Neither teaching experience nor the state reading requirement needs to be satisfied when seeking a renewal.  

4. When applying for the Professional Education Certificate, the student must account for 18 semester hours of approved courses of which 12 must be UM-Dearborn courses; three years of teaching experience (or the equivalent in substitute teaching) at the appropriate certificate level; and the required semester hours in state-approved reading courses. Application forms are available in the Student Services Office of the School of Education.  

5. To be recommended for a Professional Education Certificate, a total of 18 semester hours in approved courses is required with a minimum 2.75 GPA.  

6. Correspondence courses may not be used in this program for either renewal or continuing certification.  

7. Workshops, online courses, and conferences offering graduate credit must be approved by the Professional Standards Committee prior to enrollment.  

8. When the Professional Education Certification Program is being used to earn an additional major or minor, all required coursework for the major or minor must be completed prior to recommendation. Such coursework may require more than the minimum of 18 hours. Also, the Michigan Tests for Teacher Certification (MTTC) Subject Area Tests must be taken and acceptable scores earned prior to recommendation.
Enhancement Program (EP)

This program (EP) is for persons with a Michigan Permanent, Continuing, or Professional Education Certificate who wish to enhance their certificate with an additional major, minor, or endorsement. Individuals entering this program are required to meet all requirements leading to the desired additional endorsement on their teaching certificate. Additionally, the MTTC Subject Area Test must be taken and acceptable scores achieved before a recommendation can be made to the state. Application forms for this program are available in the School of Education Student Services Office, (262 FCS) or online at www.soe.umd.umich.edu/690/.

Endorsement Programs Early Childhood (ZA) English as a Second Language (NS) and Middle Level (ZL)

These endorsements are available to certified teachers who wish to enhance their certificates with either an early childhood (ZA), English as a second language (NS), or a middle level (ZL) endorsement. This is a planned program where the selection of courses will vary depending on evaluation of the student's prior coursework. Those interested in an endorsement can enroll in one of two post-degree programs: Professional Education Certificate (PEC), or Enhancement Program (EP), as described above, or may complete these endorsement programs under a master's degree plan (some undergraduate courses may be applied toward these endorsements, but will not apply toward a master’s degree).

Graduate Degree Programs

The School of Education also offers several master’s degree programs including a MA in Education, a MA in Teaching, a MEd in Special Education, a Master of Arts in Educational Leadership and a MS in Science Education. Interested students should consult the Graduate Catalog for details of admission requirements and programs or online at soe.umd.umich.edu/soe_grad.

Advanced Degree Programs

The School of Education also offers the Education Specialist (EdS) and Doctor of Education (EdD) degree programs. Interested students should consult the Graduate Catalog for details of admission requirements and programs or online at www.soe.umd.umich.edu/soe_grad.

Education Courses For Non-Education Students

At UM-Dearborn, students need not be enrolled in a teacher certification program to elect certain education courses. Many courses offered by the School of Education are open to non-education students. Degree candidates enrolled in any academic unit of the campus, as long as they have earned at least 55 semester hours of credit, generally are free to elect any course in education except for specialized methods courses (those required for directed teaching), directed teaching, and the directed teaching seminar. It is expected that when making such elections, all prerequisites and other stipulations associated with specific courses will be carefully observed and followed.

Any student planning on a career in which the student might be expected as a matter of course to instruct others or to help others learn could find some study of education to be a valuable experience. This is particularly true for those intending to pursue careers in fields involving human relations and social interaction. Certainly, there can be no better preparation for assuming some of the responsibilities of parenthood than a background in education. (See the "Children and Families" degree program that appears earlier in the Catalog.)

Education courses are ideally suited, in many instances, to serve as electives as well as cognate studies. Students may elect them either to augment their general college work or to enrich their own cultural growth. It is always important that the student consult with the student's own academic advisor before electing any college course. Faculty in the School of Education, however, are available to help individuals identify education courses which might be of the most benefit to them. For further information, non-education students are invited to visit the School offices or contact the School at (313) 593-5090 or the following website: www.soe.umd.umich.edu/.

Course Offerings

Courses offered by the School of Education are numbered following the general course numbering system. Courses numbered 300-499 are undergraduate upper-division courses. Courses numbered 500 and above are graduate courses.

Each education course also carries an alphabetical letter designation. This designation reflects the course's location in the subject-matter classification system used by the School of Education.

<table>
<thead>
<tr>
<th>Letter Designation</th>

In designating courses on election forms, etc., students should use the word "Education" followed by the course letters, then the number of the particular course (i.e., Education, or EDA 340.)

Students must have junior standing (completion of at least 55 semester hours of credit) before they may elect courses for education credit. This regulation does not pertain to the following courses: EDA 340, EDC 340, EDC 341, LIBR 465, LIBR 470, and EXPS 410.

This course is designed to introduce students to the field of education. In this course students will gain a working knowledge of teacher certification and professionalism, state standards, and high-stakes testing. Additionally, students will be introduced to basic forms of lesson planning, classroom assessment, and instructional techniques. As a part of the course, all students will begin to use the School of Education E-Portfolio system.

A general survey of education's theoretical and structural foundations. This course introduces students to the history and philosophy of education as well as to the organization and financing of schools in America. Particular attention will be given to the role of education in a democratic society and to the notion of teaching as a profession.

The course provides an extensive background on bilingual education (programs where two languages are used as media of instruction) in the United States, and the events that led to the inception of such programs on the Federal as well as the State levels. The course provides a background on the concept itself, its rationale and implementation.

Consideration of research findings relevant to the learner in the classroom with emphasis on factors that influence learning. Topics include: the teacher trainer's role in motivation; formulation of generalizations pertaining to the physical, mental, social, and emotional development of learners; analysis of selected aspects of the teaching-learning situation including the dynamics of interaction, classroom control, guidance, and appraisal of growth.
EDC 301  Practicum in Ed Psychology
1. 000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Undergrad Certification only
Senior
Junior
Post-baccalaureate Cert only
A supervised field experience related to the study of educational psychology involving a minimum of 45 clock hours of participation/observation and work spread over a semester in a school setting. TB clearance and criminal background check are required.

EDC 302  Adol Devl & Classroom Mgmt
3. 000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Undergrad Certification only
Senior
Junior
Post-baccalaureate Cert only
Prerequisites:
An examination of the current theories and research findings concerning the physical, social, emotional, and cognitive development during the early and late adolescent years. Theory will be related to educational and parenting practices. Significant material will be included addressing classroom management of the middle school and high school classroom using simulation, case studies and videos of actual classrooms.

EDC 304  Pract Adol Devl & Clsrm Mgmt
1. 000 Credits
May not be enrolled in one of the following Classes:
Undergraduate NCFD
Undergrad Certification only
Senior
Junior
Post-baccalaureate Cert only
Co-requisites: EDC 302
This one credit practicum consists of 45 clock hours of observation over the course of the semester in a secondary classroom. Reflective journals and guided assignments will focus the observations on an understanding of developmental concepts and classroom management policies. Active participation with secondary students will ensure the application and critique of these concepts in an educational setting.

EDC 390  Observe and Particip in Ed Set
1. 000 TO 3. 000 Credits
Must be enrolled in one of the following Classes:
Undergrad Certification only
Senior
Junior
Post-baccalaureate Cert only
An opportunity for supervised observations of, and participation with, children and adolescents in educational settings. For students who need additional laboratory experience prior to student teaching.

EDC 401  Introduction to LD
3. 000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Senior
Post-baccalaureate NCFD
Junior
Post-baccalaureate Cert only
Introduction to LD is designed to provide students with an overview of the field of learning disabilities. Discussions will include physical, social, emotional, and cognitive comparisons of developmental differences and similarities between persons of all ages with and without LD, historical and theoretical perspectives, current trends and issues, assessment, and collaboration among educators.

EDC 410  Dev Peer/Social Relationships
2. 000 Credits
Prerequisites: EDC 340 or EDC 240
Students will examine the processes of peer relations and socio-emotional development from birth to adolescence. Topics to be covered in this course include attachment, peer popularity and intimacy. As well, students will discuss the importance of the family on social development. Classroom environment and peers as educators will also be covered.

EDC 412  Social Devl/Pos Guidnce Techn
3. 000 Credits
*Teacher Certificate
Bachelor of Arts
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Major fields of study:
Early Childhood Elementary Certification
Must be enrolled in one of the following Classes:
Post-baccalaureate Cert only
Senior
Junior
This course will examine the process of social and emotional development in childhood through adolescence. Positive strategies to promote and guide this development in the classroom will be explored using behaviorist and constructivist frameworks. Topics will include character education, discipline models, conflict resolution and family collaboration. Guiding the development of emotional regulation, perspective taking and peer relationships in children including children with special needs will be investigated.

EDC 414  Early Child Ed Special Needs
3. 000 Credits
Prerequisites: EDC 540 or EDC 340 or EDC 240
This course will examine the psychological and educational needs of the young child with special needs. Discusses identification techniques and educational strategies for teaching in a regular early childhood classroom with young children having special needs. Special emphasis will be placed on behavioral, linguistic, and intellectual areas. Suitable for classroom teachers, childcare directors, and teachers in training.
EDC 417  Mgmt of Classroom Behavior
3. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Junior

Provides intervention and management techniques for teachers
and teacher candidates using principles of behavior
modification. Includes examination of theoretical foundations,
research and field reports, participation in self-management
projects, and consideration of various applications in regular and
special classrooms. Field experience is optional. Course will
focus on classroom management in early childhood and
elementary environments, allowing a more focused examination
of topics and case studies geared to those grade levels. (OC)

EDC 420  Hum Sexuality:Psyce-Ed Concepts
2. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Classes:
Senior
Junior

The course is intended to acquaint elementary and secondary
teachers with the elements that comprise sexuality as it relates to
their lives and those of their students. Although a basic core of
information is to be covered, the content of each class will
provide for the needs and interests of the teachers. Teachers will
be directly involved in identifying problems and the
development and collection of strategies for problem resolution.

EDC 431  Constructivist Education
3. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Undergrad Certification only
Junior
Prerequisites: (EDC 340 or EDC 240) and (EDC 341 or
EDC 241)

An examination of constructivist theory and its application to
educational practices. The nature and stages from birth through
adolescence of cognitive and social development from the
constructivist viewpoints of Piaget, Vygotsky, and others will be
discussed. The major focus will be the application of
constructivist theory to educational goals, teaching strategies
and curriculum. (OC)

EDC 442  EC: Fam/Sch/Comm Collaboration
3. 000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: (EDC 340 or EDC 240) and (EDC 341 or
EDC 241)

Focuses on factors that influence the building of partnerships
among early childhood professionals, families and communities.
Includes understanding and working with culturally and
linguistically diverse families. Various communication and
problem-solving strategies that promote family involvement and
community outreach are practiced through discussion and role
play.

EDC 443  Family/School/Community Collab
2. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Undergrad Certification only
Junior
Post-baccalaureate Cert only

Characteristics, roles, and functions of contemporary families
are described. Various communication and training strategies
designed to promote collaboration and teamwork within and
between the school staff, the families, and community are
described and practiced through discussion, problem-solving
activities, and role playing. Family effectiveness assessment
instruments and strategies are also described and practiced.

EDC 445  Develop Assess of Young Child
3. 000 Credits
Must be enrolled in one of the following Classes:
Senior
Undergrad Certification only
Junior
Post-baccalaureate Cert only
Prerequisites: EDC 340

Survey and demonstrations of formal and informal measures to
assess young children's physical, social, intellectual, and
emotional development. Instruction in some techniques
appropriate for use by classroom teachers, childcare directors,
health care professionals, and others who are interested in
assessing the development of children aged birth to nine years.
For graduate credit elect EDC 545. (AY)

EDC 446  Cog/Memory Dev in Children
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Classes:
Senior
Junior
Prerequisites: EDC 240 or EDC 340

Examines the theories and recent research on the development of
cognition and memory. Selected topics include: perception,
language, representation, social cognition and problem solving.
Educational implications and strategies for developing children's
thinking and memory are explored.
EDC 454  Formal & Informal Testing & Eval
2.000 TO 3.000 Credits
Must be enrolled in one of the following Classes:
  Senior 
  Junior 
In this course students will develop their knowledge and skills in traditional and non-traditional methods for evaluating classroom learning, performance technology and training. Students will learn how to construct evaluations, tests, analyze evaluation results, conduct program evaluation and educational assessment in relation to performance technology, training, and teaching and learning. (OC)

EDC 455  Assmt: Sec Lang Learning K-12
2.000 Credits
Must be enrolled in one of the following Classes:
  Senior 
  Junior 
Prerequisites: EDD 447 and EDD 448 
In this course students will learn to identify, assess, and place second language learners for appropriate instruction and instructional programs. Students will review, evaluate, and implement a variety of assessments and strategies intended for use with limited English proficient students, K-12. Students will also examine the impact and issues regarding high-stakes assessments on English language learners. Official admission to and good standing in the teacher certification program are required. (W).

EDC 460  Educating the Exceptional Child
3.000 Credits
Must be enrolled in one of the following Colleges:
  School of Education
Must be enrolled in one of the following Classes:
  Undergrad Certification only 
  Senior 
  Junior 
  Post-baccalaureate Cert only 
Characteristics, identification, assessment, and instruction of students with exceptionalities are addressed. Includes students with learning disabilities, behavior disorders, emotional impairment, mild mental retardation, communicative disorders, visual and hearing impairments, orthopedic impairments, giftedness, and chronic medical conditions. Service delivery models, general assessment procedures, and curricular and instructional adaptations that help integrate students with exceptionalities into the general education classroom will also be addressed.

EDC 476  Literacy Assessmt for Instr
4.000 Credits
Must be enrolled in one of the following Colleges:
  School of Education
Must be enrolled in one of the following Classes:
  Undergrad Certification only 
  Senior 
  Junior 
  Post-baccalaureate Cert only 
Prerequisites: EDD 468 and EDD 419 and EDD 471 and EDD 467 
Topics include various diagnostic tools for reading, writing, speaking, and listening. Students will learn to implement a variety of diagnostic techniques for assessing literacy for instructional purposes and communication with parents, other professionals, and paraprofessionals about student progress.

EDD 301  Directed Teach in Second Schls
6.000 TO 12.000 Credits
Must be enrolled in one of the following Classes:
  Senior 
  Undergrad Certification only 
  Post-baccalaureate Cert only 
Prerequisites: EDC 300 and EDC 301 and EDC 302 and EDA 340 and EDC 460 and EDD 469 
Co-requisites: EDD 304 
Directed teaching consists of a teaching internship in a selected classroom for a full term under the direction of an experienced teacher. Includes a brief period of observation followed by several weeks of responsible teaching including the writing, implementing, and evaluation of lesson plans using University-approved practices. Official admission and good standing in the certification program are required. Methods courses in the major and minor and valid TB clearance required.

EDD 304  Seminar: Teach Secondary Grds
1.000 TO 2.000 Credits
Must be enrolled in one of the following Classes:
  Undergrad Certification only 
  Post-baccalaureate Cert only 
Co-requisites: EDD 301 
Draws upon the resources found in the directed teaching environment. Considers problems and issues in four broad areas: students in the school, the teacher's professional responsibilities, curriculum understandings, and administrative/organizational problems. Open only to students enrolled in EDD 301.

EDD 305  Direct Teach in Elem School
6.000 TO 12.000 Credits
Must be enrolled in one of the following Colleges:
  School of Education
Must be enrolled in one of the following Classes:
  Undergrad Certification only 
  Senior 
  Graduate 
  Post-baccalaureate Cert only 
Prerequisites: EDC 300 and EDC 301 and (EDC 340 or EDC 240 and EDC 460 and EDD 452 and EDD 467 and EDD 468 and EDD 471 and EDD 485 and EDD 495 and EDF 450 
Co-requisites: EDD 307 
Directed teaching consists of a teaching internship in a selected classroom for a full term under the direction of an experienced teacher. Includes a period of brief observation followed by several weeks of responsible teaching including the writing, implementing, and evaluation of lesson plans using University-approved practices. Official admission to and good standing in certification program as well as valid TB clearance are required.

EDD 307  Seminar: Teaching Elem Grades
1.000 TO 2.000 Credits
Must be enrolled in one of the following Colleges:
  School of Education
Must be enrolled in one of the following Classes:
  Undergrad Certification only 
  Post-baccalaureate Cert only 
Co-requisites: EDD 305 
Draws upon experience in elementary directed teaching. Considers pupils in the school, classroom environment, teaching competencies, professional responsibilities, school curriculum and policies, and administrative/organizational problems. Open only to students enrolled in EDD 305.
EDD 404  Inquiry Based Curr Prim Grades
3. 000 Credits
Must be enrolled in one of the following Classes:
   Senior
   Junior
Prerequisites: EDC 340 and EDC 341 and PIII 1 and MGPA 2. 75 and MIBR P and MIBM P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)
Co-requisites: EDD 410

This course examines how teachers can apply inquiry method to all curriculum areas in the primary grades. Major focus will be designing curriculum to meet state and professional guidelines within a developmentally appropriate context.

EDD 406  Teach Strategies Early Child
2. 000 TO 3. 000 Credits
Must be enrolled in one of the following Classes:
   Undergrad Certification only
   Senior
   Junior
   Post-baccalaureate Cert only
Prerequisites: (EDC 240 or EDC 340) and (EDC 341 or EDC 241) and PIII 1 and MGPA 2. 75 and MIBR P and MIBM P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)
Co-requisites: EDD 410

Focuses on the developmentally appropriate educational practices for children from infancy through the primary grades. Introduces various procedures and strategies to stimulate inquiry in the early childhood classroom. Observation skills, planning, and implementing of lessons in the field will be emphasized. Class seminar designed to correlate theory with observation and field work.

EDD 407  Workshop: Global Ed Soc Stds
1. 000 TO 3. 000 Credits
Must be enrolled in one of the following Classes:
   Junior
   Graduate
Prerequisites: PIII 1 and MGPA 2. 75 and MIBR P and MIBM P and (CPAS 40 or COMP 110 or COMP 280 or COMP 270)

A course designed to help elementary and secondary teachers develop strategies that will help them to teach about an interdependent and changing world. Concepts such as change, the culture, and interdependence will be introduced and examined in terms of implementation within the framework of the existing social studies curricula.

EDD 410  Practicum in Early Child Ed
1. 000 Credits
Must be enrolled in one of the following Classes:
   Undergrad Certification only
   Senior
   Junior
   Post-baccalaureate Cert only
Prerequisites: (PIII 1 and MGPA 2. 75 and MIBR P and MIBM P and MIBW P and CPAS 40 or COMP 220 or COMP 280 or COMP 270)
Co-requisites: EDD 406

A supervised field experience related to the study of early childhood education involving a minimum of 45 clock hours of observation and work spread over a semester in an early childhood school setting. TB clearance, FIA clearance, criminal background check, and physician's statement of good health are required.

EDD 411  Directed Tchg: Early Childhood
4. 000 Credits
Must be enrolled in one of the following Classes:
   Undergrad Certification only
   Senior
   Junior
   Post-baccalaureate Cert only
Prerequisites: PIII 1 and MGPA 2. 75 and MIBR P and MIBM P and (COMP 106 or COMP 220 or CPAS 40 or COMP 280 or COMP 270) and EDD 406 and EDD 410
Co-requisites: EDD 412

Supervised observation and teaching in early childhood programs under the joint direction of university and school personnel. Open only to students in the Early Childhood Education program or Children and Families Program who have been approved by the program director. Must be elected concurrently with EDD 412. TB clearance, FIA clearance, criminal background check, and physician's statement of good health are required.

EDD 412  Seminar in Early Childhood Ed
2. 000 Credits
Must be enrolled in one of the following Classes:
   Undergrad Certification only
   Post-baccalaureate Cert only
   Senior
   Graduate
   Junior
Prerequisites: PIII 1 and MGPA 2. 75 and MIBR P and MIBM P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270) and EDD 406 and EDD 410

Focuses on developmentally appropriate educational practices for children in early childhood programs. With an emphasis on writing developmentally appropriate lesson plans, the Reggio Emilia Inspired Approach, assessment of young children, classroom and staff management, multiculturalism, family centered approaches, children with special needs and professional development. The seminar provides a theoretical foundation for the field placement (D411, D418 and D494). Open only to students in Early Childhood or Children and Families program who have been approved by the program director. TB clearance and physician's statement of good health required. EDD 406 and 410 are required for undergraduates.

EDD 413  LD Elem Directed Teaching
2. 000 Credits
Must be enrolled in one of the following Levels:
   Undergraduate
   Must be enrolled in one of the following Colleges:
   School of Education
   Must be enrolled in one of the following Major fields of study:
   Special Education
   Must be enrolled in one of the following Classes:
   Senior
   Prerequisites: EDC 401 and EDN 401 and EDN 403 and EDN 404 and EDN 402
   Co-requisites: EDD 420 EDN 408

Field experience with elementary students with learning disabilities in general and special education classrooms. Experiences include delivery of direct instruction through observation, tutoring, small and large group instruction, curriculum development and adaptations, participation in the
IEP and ITP process, collaboration and co-teaching with regular classroom teachers in various academic content areas, and other activities under the on-site supervision of a certified teacher of LD and LD certified University field supervisor. Pre-requisite: Grade of "B" or better in C401, N401, N403, N404, and N402 General Ed. Directed Teaching: EDN 408 and EDD 420.

EDD 416 Workshops: Creative Teaching Early Childhood
3.000 Credits
Must be enrolled in one of the following Classes:
  - Senior
  - Graduate
Prerequisites: EDC 340 and PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)

This course intends to study the processes and products of creativity for both adults and young children. Strategies for promoting the emerging creative disposition of the young child, birth to eight years, will be explored. Areas of focus will include art, music, movement, dramatic play, improvisation, storytelling, and problem-solving. The importance of understanding and encouraging the young child's capacity for representation skills will be emphasized.

EDD 417 Workshop: Bilingual/Bicultural Pupils
1.000 TO 4.000 Credits
Must be enrolled in one of the following Classes:
  - Junior
  - Graduate
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)

The course will focus on developing a) an understanding of bilingual and bicultural pupils by examining their ethnic and racial backgrounds in terms of their values and institutions and how these affect their adjustment in the school and community environments, and b) effective learning strategies, techniques, and materials to use in various content areas.

EDD 418 Children and Families Intern
4.000 Credits
Must be enrolled in one of the following Classes:
  - Undergrad Certification only
  - Senior
  - Junior
Post-baccalaureate Cert only
Prerequisites: EDD 406 and EDD 410
Co-requisites: EDD 412

Supervised observation and teaching in an Early Childhood classroom setting, or parent education program in a Family Service Agency under the joint direction of University and school or Agency personnel. Open only to students in the Children and Families program who have been approved for the course by the program director. Must be elected concurrently with EDD 412. TB clearance, FIA clearance, criminal background check, and physician's statement of good health required.

EDD 419 Early Literacy/Language Development
3.000 Credits
Must be enrolled in one of the following Programs: AB-
  - Early Childhood
Must be enrolled in one of the following Colleges:
  - School of Education
  - Junior
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270) and EDA 340

This course examines early language development, the factors that contribute to its growth and the role that it plays in the development of literacy. Diagnostic techniques for assessing language and literacy and teaching strategies and materials to facilitate language and literacy growth in children birth through third grade will be discussed. (YR)

EDD 420 LD Secondary Teacher Internship
2.000 Credits
Must be enrolled in one of the following Colleges:
  - School of Education
  - Special Education
Prerequisites: EDC 401 and EDN 401 and EDN 403 and EDN 404 and EDN 402 and EDD 413 and EDD 415
Co-requisites: EDD 408 EDN 413

Field experience with elementary students with learning disabilities in general and special education classrooms. Experiences include delivery of direct instruction through observation, tutoring, small and large group instruction, curriculum development and adaptations, participation in the IEP and ITP process, collaboration and co-teaching with regular classroom teachers in various academic content areas, and other activities under the on-site supervision of a certified teacher of LD and LD certified University field supervisor. Pre-requisite: Grade of "B" or better in C401, N401, N403, N404, and N402 General Ed. Directed Teaching Co-requisite: EDN 408.

EDD 427 Workshop: Art in Elementary School
2.000 Credits
Must be enrolled in one of the following Classes:
  - Junior
  - Graduate
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)

A course which presents the rationale, trends, and principles of art education for elementary teachers. Teachers will have ample opportunities to experiment with various art media such as printmaking, puppetry, paints, and clay. Different strategies that focus on the creative growth of children will be developed.

EDD 429 Teaching Issues at Elementary and Secondary Levels
2.000 TO 3.000 Credits
Must be enrolled in one of the following Levels:
  - Undergraduate
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)

This course is designed to provide the classroom teacher with the rationale, various approaches, and strategies and techniques to use in teaching controversial issues at the elementary and secondary levels.
EDD 440  Teach English in Second Grds  
2.000 TO 3.000 Credits  
Must be enrolled in one of the following Classes:  
Undergrad Certification only  
Senior  
Junior  
Post-baccalaureate Cert only  
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)  
Co-requisites: EDD 441  
Investigates the general and specific goals and objectives of English education. Trends, materials, and strategies are presented. A study of outstanding problems in the teaching of English composition, literature, grammar, and language are discussed. Official admission to and good standing in teacher certification program are required. EDD 441 required concurrently for undergraduate only.

EDD 441  Practicum: English Second Grd  
1.000 Credits  
Must be enrolled in one of the following Classes:  
Undergrad Certification only  
Post-baccalaureate Cert only  
Senior  
Graduate  
Junior  
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)  
Co-requisites: EDD 440  
A supervised field experience related to the study of English in the secondary grades involving a minimum of 45 clock hours of observation and work spread over a semester in a school setting. Official admission to and good standing in teacher certification are required. For graduate credit elect EDD 502.

EDD 442  Differentiating Inst K-12 Clrm  
2.000 TO 3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Colleges:  
School of Education  
May not be enrolled in one of the following Classes:  
Undergrad Certification only  
Senior  
Junior  
Post-baccalaureate Cert only  
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)  
Co-requisites: EDD 440  
Individualized instruction combined with the latest information on the brain and our understanding of multiple intelligences leads us to a new method of meeting the needs of students called differentiating instruction. This course will look at the concept of differentiating instruction in-depth. (OC).

EDD 443  Tchg Writ at the Secondary Lvl  
2.000 TO 3.000 Credits  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Senior  
Undergrad Certification only  
Junior  
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)  
This course is designed to help the classroom teacher promote functional and creative writing among students at the secondary school level. Attention will be given to both theory and research with emphasis on the development of instructional strategies, teaching materials and practical resources. (OC)

EDD 445  New Mthds, Strat/Mat Soc Stud  
2.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)  
Examines new developments in methodology in relation to learning theory. Investigates systems for evaluating curricular materials. Explores experimental programs, new courses of study, multimedia approaches and current research in the social studies. (OC).

EDD 446  Intervention Strat EC Spec Ed  
3.000 Credits  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Senior  
Undergrad Certification only  
Post-baccalaureate Cert only  
Prerequisites: EDC 414 and (EDC 340 or EDC 240) and PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)  
Strategies and methods which early educators can use when planning and implementing interventions for infants, toddlers and young children with disabilities and their families. Emphasis will be on addressing family identified priorities and the goals and objectives stated on the Individual Family Service Plan (IFSP) or Individual Educational Plan (IEP) using activity-based intervention, adapting materials, modifying environments and using assistive technology. (W, YR).

EDD 447  Tchg English as Second Lang  
3.000 Credits  
Must be enrolled in one of the following Classes:  
Senior  
Undergrad Certification only  
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)  
This course examines current methodologies and theories for English as a second language learning and instruction. Emphasis will be placed on a standards-based curriculum for English language learners. The use of communicative activities and strategies for developing English language skills in the elementary grades will be emphasized. Official admission to and good standing in a teacher certification program are required.
EDD 448 Pract: Tchg Engl Secnd Lang
1. 000 Credits
Must be enrolled in one of the following Classes:
   Senior
   Undergrad Certification only
   Junior
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and
   MIBR P and MIBW P and (CPAS 40 or COMP 106 or
   COMP 220 or COMP 280 or COMP 270)
Co-requisites: EDD 447

This course examines current methodologies and theories for
   English as a second language learning and instruction. Emphasis
   will be placed on a standards-based curriculum for English
   language learners. The use of communicative activities and
   strategies for developing English language skills in the
   elementary grades will be emphasized. Official admission to and
   good standing in teacher certification program are required. TB
   clearance, physician's statement of good health, criminal
   background clearance, and blood borne pathogens/infectious
   diseases training are required. (F).

EDD 450 Teach Math in Second Grades
3. 000 Credits
Must be enrolled in one of the following Classes:
   Senior
   Undergrad Certification only
   Junior
   Post-baccalaureate Cert only
Prerequisites: MATH 331 and PIII 1 and MGPA 2.75 and
   MIBM P and MIBR P and (CPAS 40 or COMP 106 or
   COMP 220 or COMP 280 or COMP 270)
Co-requisites: EDD 451

This course discusses: 1) the more important parts of recent
   pedagogical literature, 2) new instructional materials, methods,
   and curricular trends, and 3) procedures useful in the
   construction of new units and in the improvement of curricular
   units. Official admission to and good standing in a teacher
   certification program are required. EDD 451 required
   concurrently for undergraduates only. For graduate credit elect
   EDD 565.

EDD 451 Practicum: Math Second School
1. 000 Credits
Must be enrolled in one of the following Classes:
   Senior
   Undergrad Certification only
   Post-baccalaureate Cert only
   Junior
     Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and
     MIBR P and MIBW P and (CPAS 40 or COMP 106 or
     COMP 220 or COMP 280 or COMP 270)
     Co-requisites: EDD 450

A required supervised field experience related to the teaching of
   mathematics in grades 7-12. Involves 45 clock hours of work
   and observation in a classroom setting. The practicum includes
   the construction of classroom activities and lesson plans
   designed to strengthen students' skills in communication,
   problem solving, making connections, and in the use of
   technology. Official admission to and good standing in teacher
   certification program are required. TB clearance and physician's
   statement of good health required. For graduate credit, elect
   EDD 566.

EDD 452 Methods of Teaching Math K-8
3. 000 Credits
Must be enrolled in one of the following Classes:
   Undergrad Certification only
   Senior
   Junior
   Post-baccalaureate Cert only
Prerequisites: MATH 387 and PIII 1 and MGPA 2.75 and
   MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or
   COMP 220 or COMP 280 or COMP 270)

The course relates to the teaching of the mathematics curriculum
   in the elementary and middle school. The emphasis is on the
   development of teaching techniques that promote problem
   solving, reasoning, connections, communication, and concept
   and algorithmic development. Cooperative groups,
   manipulatives, technology, and alternative assessment will be
   explored as tools for meeting the special needs of every child in
   grades K-8. Required of all preservice elementary teachers.
   Official admission to and good standing in teacher certification
   program required. The course includes a field experience in an
   assigned school setting.

EDD 454 Wrkshp: Newspaper in Education
2. 000 Credits
Must be enrolled in one of the following Classes:
   Senior
   Junior
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and
   MIBR P and MIBW P and (CPAS 40 or COMP 106 or
   COMP 220 or COMP 280 or COMP 270)

A course designed to familiarize elementary and secondary
   teachers with the use of newspapers as a classroom resource.
   Workshop participants will use the daily newspaper and other
   resource materials to develop activities appropriate for meeting
   their own professional needs. Emphasis will be on the
   enhancement of academic skills, practical life skills and creative
   expression. (OC)

EDD 463 Tchg Giftd Stdnt Reglr Clssr
2. 000 Credits
Must be enrolled in one of the following Levels:
   Undergraduate
   Senior
   Junior
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and
   MIBR P and MIBW P and (CPAS 40 or COMP 106 or
   COMP 220 or COMP 280 or COMP 270)

This course introduces classroom teachers to the education of
   gifted and talented students in the regular classroom. It is
   designed to help teachers understand the social, emotional, and
   intellectual needs of gifted students and to show then ways of
   effectively addressing these needs along with those of the other
   students present. It will offer specific proposals for structuring
   the learning environment as well as for selecting appropriate
   levels and types of subject matter. (OC).

EDD 466 Tchg Coll Scl: Cllsrn Dynmcs
3. 000 Credits
Prerequisites: (NSCL 390 or EDD 390) and PIII 1 and
   MGPA 2.75 and MIBM P and MIBR P and MIBW P and
   (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or
   COMP 270)
A seminar analyzing current methods of college science teaching. Students will be paired with a senior faculty mentor and participate in the planning and teaching of introductory courses. Recommended for advanced undergraduates planning to attend graduate school and/or those interested in teaching. Written permission of instructor required. (OC).

**EDD 467 Practicum in Reading Instruct**
1.000 Credits
Must be enrolled in one of the following Classes:
- Undergrad Certification only
- Senior
- Junior
- Post-baccalaureate Cert only
Prerequisites: EDD 468 and PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)

A required supervised field experience related to the teaching of reading in the elementary and/or K-8. Involves a minimum of 45 clock hours of work and observation in a supervised classroom setting. Techniques learned in EDD 468 and EDD 471 will be applied to reading and language arts instruction. Official admission to and good standing in teacher certification program required. TB clearance, criminal background check, and physician's statement of good health required.

**EDD 468 Teach Read/Lang Arts- Elem Grd**
3.000 Credits
Must be enrolled in one of the following Classes:
- Undergrad Certification only
- Senior
- Junior
- Post-baccalaureate Cert only
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)

Acquaints the student with theory, methods, materials, and research related to the teaching of reading and other communications skills in the elementary and/or K-8. Includes classroom activities designed to strengthen skills in reading comprehension, word recognition, word attack, and the related language arts. Official admission to and good standing in the School of Education certification program are required.

**EDD 469 Reading in the Content Areas**
3.000 Credits
Must be enrolled in one of the following Classes:
- Undergrad Certification only
- Senior
- Junior
- Post-baccalaureate Cert only
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)

Emphasis on developmental and remedial reading activities at the middle grades and the secondary level: diagnosis, testing, and materials; reading in the content subjects; study habits; independent reading activity; exemplary programs. Some attention will be given to related problems in the teaching of written composition. Official admission to and good standing in the School of Education certification program are required. For graduate credit, elect EDD 569.

**EDD 471 Reading Instr: Models and Meth**
2.000 Credits
Must be enrolled in one of the following Classes:
- Undergrad Certification only
- Senior
- Junior
- Post-baccalaureate Cert only
Prerequisites: EDD 468 and PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)
Co-requisites: EDD 467

Various approaches to reading instruction are required. The teaching of reading/study skills in content areas and an introduction to different forms of testing will be addressed. Students will be required to complete a reading tutorial in meeting the needs of an elementary student. No open to students who have taken EDD 472, EDD 532, or EDD 570. Official admission to and good standing in SOE certification program are required.

**EDD 474 Environmental Education**
2.000 TO 3.000 Credits
Must be enrolled in one of the following Classes:
- Graduate
- Junior
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)

An analysis of environmental education at both the elementary and secondary school level particularly stressing the environment as a teaching resource. Community resources as they relate to environmental education also are investigated.

**EDD 480 Teach of Sci in the Second Grd**
2.000 TO 3.000 Credits
Must be enrolled in one of the following Classes:
- Graduate
- Junior
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)
Co-requisites: EDD 481

A survey of the place of science in the secondary school curriculum, an analysis and evaluation of objectives, and a consideration of modern practices in teaching science. Official admission to and good standing in teacher certification program are required.

**EDD 481 Practicum in Science: Secnd Grd**
1.000 Credits
Must be enrolled in one of the following Classes:
- Graduate
- Junior
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)
Co-requisites: EDD 480

A supervised field experience related to the study of science in the secondary grades involving a minimum of 45 clock hours of observation and work spread over a semester in a school setting. Official admission to and good standing in teacher certification program are required.
EDD 482  Teach of Sci in Second Grd II
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
School of Education
Coll of Arts, Sciences&Letters
Must be enrolled in one of the following Classes:
Undergrad Certification only
Senior
Junior
Post-baccalaureate Cert only
Prerequisites: EDD 480 and EDD 481

This course builds upon the concepts and skills developed in EDD 480 as students learn to become effective, reflective science teachers. Students will learn multiple strategies for effective lesson planning, teaching, and assessment in science. Science, technology, engineering, and mathematics (STEM) and integration of reading/writing strategies will be emphasized throughout the course. Students cannot receive credit for both EDD 482 and EDD 582. Students seeking graduate credit should enroll in EDD582.

EDD 483  Wkshp: Sci Teach Elem/Midd Schl
1. 000 TO 3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Classes:
Senior
Junior

Deals with existing and innovative science materials. Offered at various times emphasizing one or more areas from elementary and middle level science. Centers on a laboratory approach. May be elected twice for a total of six credits. (OC).

EDD 485  Teach Science in the Elem Grd
2. 000 TO 3. 000 Credits
Must be enrolled in one of the following Classes:
Undergrad Certification only
Senior
Junior
Post-baccalaureate Cert only
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and(MGBP 106 or COMP 220 or COMP 280 or COMP 270)

Explores the objectives, methods, and instructional emphasis of elementary school science. Stresses concept development in several areas of elementary science. Provides opportunity for preparation of materials for classroom use. Official admission to and good standing in teacher certification program are required. For graduate credit, elect EDD 585.

EDD 486  Environmental Interpretation
2. 000 TO 3. 000 Credits
Must be enrolled in one of the following Classes:
Junior
Graduate

Course deals with the interpretation of the environment, its characteristics, and its presentation to school groups as well as to the general public. Intended to acquaint students with a variety of skills and techniques necessary for interpreting the environment to others. Extensive use is made of the UM-D Environmental Study Area.

EDD 489  Practicum in Soc Stud: Sec Sch
1. 000 Credits
Must be enrolled in one of the following Classes:
Junior
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and(CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)
Co-requisites: EDD 490

A supervised field experience in a selected middle or high school social studies classroom. The course requires a minimum of 45 hours of observation of an experienced teacher as well as the writing, implementation, and assessment of one or more lessons. Official admissions to and good standing in the teacher certification program in required.

EDD 490  Tch of the Soc Stud in Sec Sch
2. 000 TO 3. 000 Credits
Must be enrolled in one of the following Classes:
Junior
Graduate
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and(CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)
Co-requisites: EDD 489

This course examines theoretical and practical approaches to teaching social studies at the secondary level. Students explore, develop, and evaluate instructional methods. In light of professional standards, they consider diverse strategies for teaching and assessing middle and high school students.

EDD 491  Soc Std Elem Grades Practicum
1. 000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Post-baccalaureate NCFD
Senior
Junior
Prerequisites: EXPS 282 and EXPS 283 and PIII 1 and MGPA 2.75 and MIBM Pand MIBW P and(CPAS 106 or COMP 220 or COMP 270 or COMP 280 or CPAS 40)
Co-requisites: EDD 495

A supervised field experience related to the methods and strategies associated with the teaching of social studies in grades K-5. This experience requires 45 clock hours of observation and participation spread over one semester.

EDD 493  Simulation and Gaming
1. 000 TO 3. 000 Credits
Must be enrolled in one of the following Classes:
Undergrad Certification only
Senior
Junior
Post-baccalaureate Cert only
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and(CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)

This course focuses on simulation and gaming as approaches to learning which are fundamentally different from methods traditionally used in education, industry, business, and psychology. Students will have the opportunity to examine many different types of simulations and games and to participate in selected ones. They will also be able to design one for use in their own area of interest.
EDD 495  Social Studies in the Elem Grd  
2.000 TO 3.000 Credits  
Must be enrolled in one of the following Classes:  
   Undergrad Certification only  
   Senior  
   Junior  
   Post-baccalaureate Cert only  
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)  
Examination and analysis of various programs and materials currently available for teaching social studies at the elementary level. Critical investigation of new developments and trends. Opportunity is provided to experiment with various techniques and to evaluate their effectiveness. Official admission to and good standing in teacher certification program are required.

EDD 496  Second Lang Tchg: Sec Level  
3.000 Credits  
Must be enrolled in one of the following Classes:  
   Junior  
Prerequisites: (FREN 301 or GER 301 or SPAN 301) and PIII 1 and MGPA2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)  
Co-requisites: EDD 497  
An examination of current methodologies and techniques for instruction in foreign languages in grades 7-12. Emphasis will be placed on a standards-based curriculum with special attention given to the creation of learning scenarios. The use of communicative activities and the assessment of language skill areas will also be emphasized. Official admission to and good standing in teacher certification program are required.

EDD 497  Second Lang Tchg: Sec Level  
1.000 Credits  
Must be enrolled in one of the following Classes:  
   Junior  
   Graduate  
Prerequisites: (FREN 301 or GER 301 or SPAN 301) and PIII 1 and MGPA2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)  
Co-requisites: EDD 496  
A required supervised field experience related to the teaching of a foreign language in grades 7-12. Involves a minimum of 45 clock hours of work and observation spread over one semester in a supervised classroom setting. Methods and techniques learned in EDD 496 will be used to increase the second language proficiency of learners in grades 7-12. Official admission to and good standing in teacher certification program are required. TB clearance, physician's statement of good health, criminal background clearance, and blood borne pathogens/infectious diseases training are required.

EDD 498  Writing Meth: Formal&Informal  
3.000 Credits  
Must be enrolled in one of the following Classes:  
   Junior  
   Graduate  
Prerequisites: PIII 1 and MGPA 2.75 and MIBM P and MIBR P and MIBW P and (CPAS 40 or COMP 106 or COMP 220 or COMP 280 or COMP 270)  
This course is designed for those wishing to establish or improve creative writing programs in their elementary school classrooms. Theoretical models will be discussed. Strategies and materials that facilitate the writing of prose and poetry will be emphasized.

EDF 121  Volleyball I  
1.000 Credits  
Instruction and participation in beginning volleyball skills.

EDF 125  Ice Skating I  
1.000 Credits  
Instruction and participation in beginning ice skating skills.

EDF 126  Phys Fitness and Conditioning  
1.000 Credits  
Instruction and participation in a variety of training techniques to enhance fitness. Included are circuit training, interval training, weight training, calisthenics, running, and other activities which improve the cardio respiratory system. Individual programs are developed.

EDF 127  Slimnastics  
1.000 Credits  
Instruction and participation in calisthenics and floor exercises designed to develop muscle tone and flexibility.

EDF 130  Fencing I  
1.000 Credits  
Instruction and participation in beginning fencing skills.

EDF 131  Fencing II  
1.000 Credits  
Instruction and participation in intermediate and advanced fencing skills.

EDF 133  Dance Exercise I  
1.000 Credits  
Instruction and participation in cardio respiratory conditioning through the use of movement and dance routines. Aerobics.

EDF 134  Weight Reduction  
1.000 Credits  
Instruction and guidance in sensible, safe methods of weight loss and maintenance through lectures, exercise sessions and behavior modification.

EDF 135  Racquet Sports  
1.000 Credits  
Instruction and participation in badminton, paddleball, racquetball and table tennis.

EDF 140  Swimming I  
1.000 Credits  
Instruction and participation in beginning swimming skills including front and back crawl, side stroke, floating and drownproofing.

EDF 160  Team Sports  
1.000 Credits  
Instruction and participation in touch football, floor hockey, indoor soccer and basketball.
EDF 214  Tennis I  
1.000 Credits 
Instruction and participation in beginning tennis skills including serve, backhand and forehand strokes and beginning game strategies.

EDF 221  Volleyball II  
1.000 Credits 
Prerequisites: EDF 121 
Instruction and participation in intermediate and advanced volleyball skills.

EDF 222  Volleyball III  
1.000 Credits 
Prerequisites: 
Instruction and participation in advanced volleyball skills and strategies including coaching techniques and officiating skills.

EDF 224  Tennis II  
1.000 Credits 
Prerequisites: 
Instruction and participation in intermediate tennis skills.

EDF 225  Ice Skating II  
1.000 Credits 
Prerequisites: 
Instruction and participation in intermediate ice skating skills.

EDF 226  Weight Training  
1.000 Credits 
Instruction and participation in weight training techniques to develop muscle strength and endurance through use of plate-loaded and selectorized equipment, and free weights. Individual programs developed.

EDF 227  Tai Chi I  
1.000 Credits 
Instruction and participation in the use of set movement patterns for relaxation and stress management.

EDF 228  Tai Chi II  
1.000 Credits 
Prerequisites: 
Instruction and participation in the use of deliberate movement patterns for relaxation and stress management. Tai Chi I or permission of instructor.

EDF 229  Tae Kwon Do I  
1.000 Credits 
Instruction and participation in beginning skills of Tae Kwon Do.

EDF 230  Tae Kwon Do II  
1.000 Credits 
Prerequisites: 
Instruction and participation in intermediate/advanced skills of Tae Kwon Do.

EDF 233  Dance Exercise II  
1.000 Credits 
Instruction and participation in advanced cardio respiratory conditioning through use of movement and dance routines. Advanced aerobics.

EDF 234  Tennis III  
1.000 Credits 
Prerequisites: 
Instruction and participation in advanced tennis skills with emphasis on game strategies.

EDF 235  Ice Skating III  
1.000 Credits 
Prerequisites: 
Instruction and participation in advanced ice skating skills.

EDF 240  Swimming II  
1.000 Credits 
Prerequisites: EDF 140 
Instruction and participation in intermediate swimming skills including breast stroke, crawl, sidestroke and conditioning.

EDF 241  Aquatic Fitness  
1.000 Credits 
Instruction and participation in aerobics and calisthenics using water as resistance. Basic swimming skills desired.

EDF 245  Basketball  
1.000 Credits 
Instruction and participation in beginning and intermediate basketball skills. Basic styles of team play will be practiced.

EDF 247  Social Dance  
1.000 Credits 
Instruction and participation in social dance skills including ballroom and contemporary dances.

EDF 249  Lifetime Sports  
1.000 Credits 
Instruction and participation in a variety of recreational activities such as cycling, hiking, orienteering, golf and other outdoor games.

EDF 251  Folk Dance  
1.000 Credits 
Instruction and participation in folk, social and square dances.

EDF 252  Modern Dance I  
1.000 Credits 
Instruction and participation in principles of movement and basic skills which are the fundamentals of dance composition.

EDF 255  Techniques: Officiating Sports  
2.000 Credits 
Instruction and participation in officiating basketball, volleyball, baseball and softball. Certification available.
EDF 261  Jazz Dance I
1.000 Credits
Instruction and participation in the basic elements of jazz dance to enhance creative expression.

EDF 262  Modern Dance II
1.000 Credits
Instruction and participation in the elements of choreography and dance skills to enhance creativity.

EDF 263  Jazz Dance II
1.000 Credits
Instruction and participation in isolations and polyrhythms performed to music.

EDF 265  Country/Western Line Dance
1.000 Credits
Beginning instruction and participation in popular country and western dancing including line and two-step.

EDF 270  Physical Activity and Health
2.000 TO 3.000 Credits
Discussion of topics related to attaining a healthy lifestyle including nutrition, stress management techniques, physical training programs, cardiovascular disease, risk factors and other health-related topics.

EDF 302  Yoga
1.000 Credits
Instruction and participation in techniques of Yoga.

EDF 303  Self-Defense
1.000 Credits
Instruction and participation in the art of self-defense with emphasis on prevention and awareness.

EDF 316  Standard First Aid and CPR
2.000 Credits
First aid and safety education in relation to home, school and community. American Red Cross certification available.

EDF 326  Weight Training II
1.000 Credits
Instruction and participation in intermediate and advanced weight training techniques including specificity of training and the physiological adaptations to training.

EDF 336  Stress Management
2.000 Credits
Instruction and participation in the scientific foundations of stress management. Attention given to relaxation techniques, behavior modification and physiological interventions.

EDF 340  Lifesaving
1.000 Credits
Instruction and participation in senior life saving skills. American Red Cross certification available. CPR required.

EDF 390  Adventure Education
1.000 Credits
Theory and practice in the development of problem solving and leadership skills.

EDF 401  Rock Climbing
1.000 Credits
Instruction in the use of the wall and associated safety requirements, which are necessary prior to recreational use.

EDF 450  Hlth, Nutr, & PE/Clsrm Tchrs
2.000 Credits
Must be enrolled in one of the following Classes:
Undergrad Certification only
Sophomore
Senior
Junior
Post-baccalaureate Cert only
Instruction and participation in health, nutrition and physical education concepts and principles as they relate to elementary school curriculum. The six-dimensional model of wellness will be applied to meet legislative goals and objectives for the various grade levels. Required for elementary education majors.

EDF 455  Principles of Coaching
2.000 Credits
Must be enrolled in one of the following Classes:
Undergrad Certification only
Senior
Junior
Post-baccalaureate Cert only
Instruction in the basic principles and psychology of coaching all age groups, skill levels and genders. Emphasis will be placed on many factors which relate to success in athletic/sports, the qualities and qualifications of coaches, and the administration of programs and organized practices. For graduate credit, elect EDF 555. (OC).

EDF 460  Creative Dance
1.000 Credits
This course is designed to provide the classroom teacher with the rationale, teaching strategies and skills essential to incorporate creative dance in the school curriculum.

EDK 380  Undergraduate Reading Research
1.000 TO 2.000 Credits
Permits qualified students to pursue a program of reading under the direction of a staff member selected by the student. The faculty member must agree to serve prior to the course election. May be elected twice for total of two hours credit.

EDK 480  Independent Action Research
1.000 TO 4.000 Credits
Requires the student to initiate and pursue to completion an informal field-based research study under faculty supervision. The faculty member must agree to supervise prior to course election. May be elected twice for a total of two hours credit.
EDK 490 Education Internship  
2.000 TO 10.000 Credits
This internship provides the student with opportunity for supervised, non-classroom experience in a school, college, or other educational setting. Between eight and forty clock hours of unpaid work per week, in conjunction with an arranged seminar, are required. The course may be elected twice for a total of four to ten semester credit hours.

EDM 405 ESL Strategies for the Classroom  
2.000 Credits  
Must be enrolled in one of the following Classes:  
Junior

This course examines a variety of instructional approaches to teaching English as a Second Language (ESL) which are being used throughout the United States. These approaches will be discussed in light of underlying language learning theories. Instructional materials representing various approaches to teaching ESL will be examined. Students will also have the opportunity to construct instructional material for use in teaching ESL.

EDMA 411 Lrng & Tchg Middle Grade Math  
3.000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate Professional Development  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: EDD 452* or MATH 486

This course addresses issues central to teaching and learning mathematics in middle grades; building learning communities, how students learn mathematics, worthwhile mathematical tasks, instructional modes, technology options, assessment to inform instruction, and professional perspectives. For graduate credit, elect EDMA 511. (YR).

EDN 227 Inclusion: Multisen/Direct Inst  
2.000 TO 3.000 Credits  
Must be enrolled in one of the following Classes:  
Undergraduate NCFD  
Sophomore  
Senior  
Freshman  
Junior

Course addresses developing, implementing, and evaluating teaching strategies and materials that incorporate principles of direct instruction and multi-sensory activities that promote inclusion of students with special needs in general education settings, increase all students’ academic achievement, and improve social interaction among students from a wide variety of social, economic, and cultural backgrounds. (F, W, S).

EDN 401 Strategies for LD  
3.000 Credits  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Senior  
Post-baccalaureate NCFD  
Junior  
Post-baccalaureate Cert only  
Prerequisites: EDC 401

Content includes strategies for teaching K-12 students with learning disabilities in special and regular education classes. Course addresses diagnostic-prescriptive teaching, direct instruction, and specific strategies and materials addressing each academic area. The Individualized Education Program (IEP), development of goals and objectives, linking assessment with instruction, inclusion, and generality of behavior change will also be included.

EDN 402 Socio-vocational Transitions  
3.000 Credits  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Senior  
Post-baccalaureate NCFD  
Junior  
Post-baccalaureate Cert only

This course includes strategies that teach age-appropriate social skills to students with disabilities in a variety of social settings found in the school, home and community. This course will also focus on issues relevant to vocational and community transitions for students with disabilities. As opposed to rote learning of material the course intends to provide students with a conceptual understanding of issues related to social and vocational transitions.

EDN 403 Assessment of the Learner  
3.000 Credits  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Senior  
Post-baccalaureate NCFD  
Junior  
Post-baccalaureate Cert only  
Prerequisites: EDC 401  
Co-requisites: EDN 404

Formal and informal assessment strategies used in the identification and service of students with handicaps are described. Technical and operational aspects of standardized testing, curriculum based assessment, and informal strategies are described.

EDN 404 Assessment Practicum  
1.000 Credits  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Senior  
Post-baccalaureate NCFD  
Junior  
Post-baccalaureate Cert only  
Prerequisites: EDC 401  
Co-requisites: EDN 403

Clinical experiences with formal and informal assessment strategies currently used by special educators to identify and program for students with handicaps. Activities include administration, scoring and interpretation of norm- and criterion-referenced tests, Curriculum Based Assessments and informal assessment strategies. Deriving goals, objectives, activities and strategies from assessment data are also included. Must be taken with EDN 403 for the LD endorsement.
EDN 406  Collaboration in the Classroom  
3. 000 Credits  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Senior  
Post-baccalaureate NCFD  
Junior  
Post-baccalaureate Cert only  

Techniques for enhancing collaboration between special and regular classroom teachers of mainstreamed exceptional and low-achieving learners at all levels. Included are essential skills for managing and monitoring the learning process and maintaining collaborative partnerships. As opposed to rote learning of material, the course will provide students with a conceptual and practical understanding of issues relevant to collaboration.

EDN 408  LD Directed Teaching Seminar  
1. 000 Credits  
Must be enrolled in one of the following Major fields of study:  
Special Education  
Must be enrolled in one of the following Classes:  
Senior  
Prerequisites: EDC 401 and EDN 401 and EDN 403 and EDN 404 and EDN 402  
Co-requisites: EDD 413 EDD 415  

Seminar will focus on the discussion, development, and evaluation of Individualized Educational Programs, Individualized Transition Plans, and Behavior Intervention Plans for students with learning disabilities at a variety of directed teaching sites. Topics will include academic and behavior assessment and strategies, curriculum, child study teaming, service delivery options and inclusion strategies. Co-requisite: EDD 415 and EDD 413. Pre-requisite: Grade of “B” or better in a C401, N401, N403, N404, and N402 General Ed. Directed Teaching.

EDN 410  Intro to Cognitive Impair I  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Undergrad Certification only  
Senior  
Junior  
Post-baccalaureate Cert only  
Prerequisites: EDC 460  
Co-requisites: EDN 411  

Historical perspectives, definition, terminology, and assessment of the full spectrum of cognitive impairments are addressed. Identification of the behavioral, social, intellectual, communicative, vocational, adaptive, psychological, and educational/instructional needs of individuals with mild cognitive impairments across the lifespan.

EDN 411  Cognitive Impair Pract I  
1. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Undergrad Certification only  
Senior  
Junior  
Post-baccalaureate Cert only  
Prerequisites: EDC 460  
Co-requisites: EDN 410  

Experience in an educational setting with students with mild cognitive impairments for no less than 45 clock hours. Activities include working with the cooperating teacher on tasks such as individual instruction, data collection, informal assessment and program implementation and evaluation of IEP goals and objectives.

EDN 412  Intro to Cognitive Impair II  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Undergrad Certification only  
Senior  
Junior  
Post-baccalaureate Cert only  
Prerequisites: EDC 460 and EDN 401 and EDN 411  
Co-requisites: EDN 413  

This course is an extension of introduction to Cognitive Impairments I. Identification of the behavioral, social, intellectual, communicative, vocational, adaptive, psychological and educational/instructional needs of individuals with moderate and severe cognitive impairments across the lifespan.

EDN 413  Cognitive Impair Pract II  
1. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Undergrad Certification only  
Senior  
Junior  
Post-baccalaureate Cert only  
Prerequisites: EDC 460 and EDN 410 and EDN 411  
Co-requisites: EDN 412  

Experience in an educational setting with students with moderate and severe cognitive impairments for no less than 45 clock hours. Activities include working with the cooperating teacher on tasks such as individual instruction, data collection, informal assessment and program implementation and evaluation of IEP goals and objectives.
EDN 414  Assessment Cognitive Impair
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Undergrad Certification only
Senior
Junior
Post-baccalaureate Cert only
Prerequisites: EDC 460 and EDN 410 and EDN 411 or EDN 412 and EDN 413
Co-requisites: EDN 415

Course discusses different theories of intelligence and intellectual development. Students learn to identify and describe different instruments used to assess the intellectual, adaptive behavior, academic, language/communication, vocational and social needs of students with mild, moderate and severe cognitive impairments.

EDN 415  Assessment Pract Cogn Impair
1. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Undergrad Certification only
Senior
Junior
Post-baccalaureate Cert only
Prerequisites: EDC 460 and EDN 410 and EDN 411 and EDN 412 and EDN 413
Co-requisites: EDN 414

Clinical experience with formal and informal assessment strategies currently used by special educators to identify needs and develop programming for students with mild, moderate and severe cognitive impairments. Activities include practicing observational techniques, completing, analyzing and interpreting various formal and informal assessments, including norm referenced and criterion referenced tests, achievement tests, rating scales and checklists.

EDN 416  Strategies Cognitive Impair I
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Undergrad Certification only
Senior
Junior
Post-baccalaureate Cert only
Prerequisites: EDC 460 and EDN 410 and EDN 411 and EDN 414 and EDN 415

Course content includes strategies for teaching students with mild cognitive impairments. Strategies for effective teaching and the development of instructional materials and learning environments for students with mild cognitive impairments is addressed. Functional academics, positive behavior supports, community based instructional support, self-determination, the use of instructional technology and supports, communication skills, adaptive behavior skills are covered within the context of the IEP, development of goals and objectives linking assessment with instruction, designing effective learning environments, and integrating students with mild cognitive impairments into the least restrictive environment.

EDN 417  Strategies Cognitive Impair II
3. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Undergrad Certification only
Senior
Junior
Post-baccalaureate Cert only
Prerequisites: EDC 460 and EDN 412 and EDN 413 and EDN 414 and EDN 415

Course content includes strategies for teaching students with moderate and severe cognitive impairments. Strategies for effective teaching and the development of instructional materials and learning environments for students with moderate and severe cognitive impairments are included. Functional academics, positive behavior supports, community based instructional support, self-determination, the use of instructional technology and supports, communication skills, adaptive behavior skills are covered within the context of the IEP, development of goals and objectives linking assessment with instruction, designing effective learning environments and integrating students with moderate and severe cognitive impairments into the least restrictive environment.

EDN 418  Dir Teach I: Mild CI
2. 000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Undergrad Certification only
Senior
Post-baccalaureate Cert only
Prerequisites: EDC 460 and EDN 410 and EDN 411 and EDN 414 and EDN 415 and EDN 416

Field experience with students with mild cognitive impairments in classroom settings. Experiences include the delivery of direct instruction in functional academic, community based skills, functional living skills, and communication skills. Academic and behavioral assessments leading to the development and implementation of IEPs and BIPs are included. Students will also engage in observations, small and large group instruction, curriculum development, program development and implementation and participation in the EIP process. Collaboration with other classroom teachers in general and special education settings, and other activities under the on-site supervision of a certified CI teacher and university field supervisor. Directed teaching also includes weekly seminar.
EDN 419  Dir teach II: Mod/Sev CI
2.000 Credits
Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Senior
Undergrad Certification only
Post-baccalaureate Cert only
Prerequisites: EDC 460 and EDN 410 and EDN 411 and
EDN 414 and EDN 415 and EDN 417

Field experience with students with moderate and severe cognitive impairments in classroom settings. Experiences include the delivery of direct instruction in functional academic, community based skills, functional living skills, and communication skills. Academic and behavioral assessments leading to the development and implementation of IEPs and BIPs are included. Students will also engage in observations, small and large group instruction, curriculum development, program development and implementation and participation in the EIP process. Collaboration with other classroom teachers in general and special education settings, and other activities under the on-site supervision of a certified CI teacher and university field supervisor. Directed teaching also includes weekly seminar.

EDN 420  Intro to Emotional Impairments
3.000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Senior
Post-baccalaureate NCFD
Junior
Post-baccalaureate Cert only
Co-requisites: EDN 421

Identification of the behavioral characteristics and instructional needs of children with emotional impairments/behavior disorders. Causes of emotional impairments and environmental influences as well as strategies for identification, assessment and interpreting such instruments will be addressed. Finally, instructional strategies for students with emotional impairments will be described and practiced through classroom activities.

EDN 421  Practicum at Psych Facility
1.000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Senior
Post-baccalaureate NCFD
Junior
Post-baccalaureate Cert only
Co-requisites: EDN 420

Experience in a clinical setting with emotionally impaired individuals, for no less than 45 clock hours. Activities include working with cooperating teacher on tasks such as individual tutoring, data collection, informal assessment, interpretation of psychological data, and program implementation and evaluation. Also included will be the development of individualized instructional strategies, classroom activities, the use of adaptive technology, interdisciplinary approaches and the development of relevant goals and objectives for emotionally impaired students.

EDN 423  Strat: Emotional Impairments
3.000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Senior
Post-baccalaureate NCFD
Junior
Post-baccalaureate Cert only
Prerequisites: EDN 320

Course content includes strategies for teaching students with emotional impairments, including instruction on reading and mathematics. Course also includes strategies to deal with hyperactive behavior, aggressive behavior, socially withdrawn behavior, and delinquency. Strategies for effective teaching and the development of instructional materials and learning environments for students with emotional impairments are included. The Individualized Education Program (IEP), development of goals and objectives, linking assessment with instruction, and integrating students with emotional impairments into the regular classroom will also be covered.

EDN 425  Eco-Behavioral Assessment
3.000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Senior
Post-baccalaureate NCFD
Junior
Post-baccalaureate Cert only
Prerequisites: EDN 320
Co-requisites: EDN 426

Formal and informal assessment strategies used in identifying and serving students with emotional impairments are described. Assessment strategies include eco-behavioral assessment, functional analyses, naturalistic observation techniques, norm-referenced and criterion-referenced tests, interviewing, achievement test, and curriculum based assessment. Technical aspects of assessment, interpretation of data, and diagnostic strategies are also addressed, as well as using adaptive technology and assessment instruments to facilitate more effective individualized instruction for students with emotional impairments. Finally, integrating assessment results from other disciplines will also be addressed.

EDN 426  Eco-Behav Assessment Pract
1.000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Senior
Post-baccalaureate NCFD
Junior
Post-baccalaureate Cert only
Prerequisites: EDN 320
Co-requisites: EDN 425
Clinical experiences with formal and informal assessment strategies currently used by special educators to identify and program for students with emotional impairments. Activities include practicing observation techniques, and completing and analyzing eco-behavioral assessments and functional analyses. Also included are administration, scoring, and interpretation of norm-referenced and criterion-referenced tests, curriculum based assessments, achievement tests, rating scales and checklists, and informal assessment strategies. Practicum activities will also focus on using assessment results in curriculum design and instructional strategies to meet the individualized instructional needs of EI students.

EDT 210  Tech in Elementary Education
3. 000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Undergrad Certification only
Sophomore
Senior
Junior
Post-baccalaureate Cert only

Introduces students to the application of technology in elementary education. Students experience and become familiar with advanced learning technology tools; learn to use telecommunication tools for emailing, participating in educational listserve and online discussion groups, and accessing electronic resources on the WWW; learn to use productivity tools for word processing, drawing, painting and digital editing, spreadsheet application, database management, and multimedia presentation; learn to use educational multimedia for visual thinking, creativity, and multimedia authoring, learning to practice ethical and legal use of technology resources, and explore the use of such technology tools in the elementary classroom.

EDT 211  Tech in Secondary Education
3. 000 Credits

Introduces students to the application of technology in secondary education. Students experience and become familiar with advanced learning technology tools; learn to use telecommunication tools for emailing, participating in educational listserve and online discussion groups, and accessing electronic resources on the WWW; learn to use productivity tools for word processing, drawing, painting and digital editing, spreadsheet applications, database management, and multimedia presentation; learn to use educational multimedia for visual thinking, creativity, and multimedia authoring, learning to practice ethical and legal use of technology resources; and explore the use of such technology tools in the secondary classroom.

EDT 410  Teaching with Technology
2. 000 Credits
Prerequisites: EDT 210 or EDT 211

Provides student teachers/interns with improved knowledge, skills, and confidence integrating advanced technology tools into the teaching and learning process in meaningful ways. Student teachers/interns design and teach multi-week units of instruction where student learning is enhanced with advanced technology tools. Student teachers/interns create electronic portfolios to present their achievement in teaching with technology demonstrating a superior level of achievement on the Proposed Standard with Related Indicators for the Achievement of Entry-Level Skills in Information Technology for all Michigan Teachers. (F, W, S).

Exploratory Studies (EXPS)

COURSE OFFERINGS

EXPS 102  Career Planning
1. 000 Credits

A ten-week seminar exploring strengths, values and motivations in the context of developing career planning and decision-making skills. Career interest assessment and individualized assistance is incorporated in the course. This is especially helpful to students who are deciding on their major.

EXPS 218  Topics in Exploratory Studies
1. 000 TO 3. 000 Credits

An examination, at the freshman and sophomore level, in the selected areas of general study. The title as listed in the Schedule of Classes may change according to content. Course may be repeated for credit when specific topics differ.

EXPS 220  Science in the Elem School
2. 000 TO 3. 000 Credits

This course is designed for people intending to become elementary school teachers and who have had little or no previous experience in science. The course utilizes a laboratory approach to the study of the concepts, processes, and value of elementary and middle school science.

EXPS 250  Elem Ed Vis & Perf Arts
3. 000 Credits

Must be enrolled in one of the following Levels:
Undergraduate
Must be enrolled in one of the following Colleges:
School of Education

This course will teach the elementary education student how to incorporate the various visual and performing arts into everyday elementary education curricula. The course will cover the fundamental and formal elements, the major periods, styles and philosophies, as well as the functions and processes of the visual and performing arts, and how to effectively employ those creative processes through collaboration, communication, cooperation and interaction in the elementary classroom.

EXPS 280  History & Civics Elem Schools
3. 000 Credits

Must be enrolled in one of the following Levels:
Undergraduate

A survey of Michigan and United States history and government through Reconstruction. U. S. historical and political topics taught in grades K-8 are explored. Students also examine families, schools, and local communities.

EXPS 282  History & Civics Elem Schools
3. 000 Credits

Must be enrolled in one of the following Levels:
Undergraduate

A survey of Michigan and United States history and government through Reconstruction. U. S. historical and political topics taught in grades K-8 are explored. Students also examine families, schools, and local communities.

EXPS 283  Geography & Econ Elem Schools
3. 000 Credits

Must be enrolled in one of the following Levels:
Undergraduate

A survey of the geography and economics taught in grades K-6. Particular attention will be paid to the geography of Michigan and the Great Lakes region. Market and other types of economics will be examined in the light of core economic principles. (F, W, S)
EXPS 407  Inquiry-based Math and Science  
3. 000 Credits  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Fields of Study:  
Early Childhood General Studies  
Must be enrolled in one of the following Classes:  
Senior  
Junior  
Prerequisites: EXPS 220 and MATH 385  
This inquiry-based laboratory course intends to support the learning of early childhood educators (birth to grade 2) in foundations of science and mathematics. The course integrates concepts and processes that arise in both disciplines, such as classification; units and measurements; shapes and structures and their properties; patterns; problem solving; representation; cause and effect; use of evidence (three credits). Required for Early Childhood Comprehensive Major. Elective for Elementary Education Certification Students. Elective for Children and Families Students. Students cannot receive credit for both EXPS 407 and 507. The required lab fee is to cover course materials.

EXPS 410  Multicult in School and Soc  
3. 000 Credits  
Examines ways to address the needs of diverse student populations. Issues of race, ethnicity, class, gender, and language are explored. Historic and ongoing issues of equity, particularly in school settings, are considered. The focus is on providing an education of high quality to all students.

EXPS 420  Science Capstone  
3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Undergrad Certification only  
Senior  
Junior  
Post-baccalaureate Cert only  
Prerequisites: NSCI 231 and NSCI 232 and NSCI 233 and EDD 485*  
A capstone course for pre-service elementary teachers with a laboratory component designed to assist students in achieving deep understanding of a broad scientific concept and a discussion component designed to introduce and provide practice in classroom research. Students will use the classroom research to prove misconceptions about the scientific concept explored in the laboratory.

EXPS 443  Family/School/Community Collab  
2. 000 Credits  
Must be enrolled in one of the following Classes:  
Undergrad Certification only  
Senior  
Junior  
Post-baccalaureate Cert only  
Characteristics, roles, and functions of contemporary families are described. Various communication and training strategies designed to promote collaboration and teamwork within and between the school staff, the families, and community are described and practiced through discussion, problem-solving activities, and role playing. Family effectiveness assessment instruments and strategies are also described and practiced.

EXPS 460  Capstone: Trnds & Iss Literacy  
3. 000 Credits  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Undergrad Certification only  
Senior  
Junior  
Post-baccalaureate Cert only  
Prerequisites: EDD 468 and EDD 419 and EDD 471 and EDD 467 and EDD 447and EDD 448  
This course is for pre-service teachers in the elementary certification program majoring in reading. In this course students will explore topical issues relevant to the teaching of literacy in preparation for becoming participating members in the professional community of literacy teachers.

EXPS 493  Simulation and Gaming  
1. 000 TO 3. 000 Credits  
Must be enrolled in one of the following Classes:  
Undergrad Certification only  
Senior  
Junior  
Post-baccalaureate Cert only  
This course focuses on simulation and gaming as approaches to learning which are fundamentally different from methods traditionally used in education, industry, business, and psychology. Students will have the opportunity to examine many different types of simulations and games and to participate in selected ones. They will also be able to design one to use in their own area of interest.

EXPS 499  Individ Res in Lit in Educ  
1. 000 TO 3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Classes:  
Undergrad Certification only  
Senior  
Junior  
Requires the student to initiate and carry to completion a literature in education-based research project under the supervision of a faculty member. May be elected more than once for a total of not more than 3 credits as approved by advisor. Written permission of instructor. (F, W, S).

Library Science (LIBR)  
COURSE OFFERINGS  
LIBR 465  Literature for Children  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Undergrad Certification only  
Sophomore  
Senior  
Junior  
Post-baccalaureate Cert only  
The evaluation of books for children aged three to twelve. Fiction, folklore, poetry, illustration, and informational books are considered with emphasis on the development of standards
for selecting materials with reference to the interests, needs, and abilities of children and the enrichment of the school curriculum. Designed for librarians, supervisors, and teachers in the elementary school.

**LIBR 470**  Literature for Young People  
3. 000 Credits  
Must be enrolled in one of the following Classes:  
Undergrad Certification only  
Sophomore  
Senior  
Junior  
Post-baccalaureate Cert only

Surveys and develops criteria for appropriate literature for young people in junior high school. Fiction, non-fiction, folklore, poetry and fantasy are considered with reference to the interests, needs and abilities of adolescents. Designed for librarians, supervisors, and teachers in the secondary school.

**LIBR 475**  Issues Lit Child/Yng People  
2. 000 TO 3. 000 Credits  
Must be enrolled in one of the following Levels:  
Undergraduate  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Senior  
Junior

This course is designed to heighten the awareness and sensitivity of teachers to the treatment of issues in modern and traditional literature for elementary and middle school children. Among these issues will be justice, ethics, abuse, conformity, aging, death, sibling problems, alienation, friendship, prejudice, gender, and other areas of concern. Techniques and activities for fostering discourse and open inquiry in the classroom, relative to the literature, will be explored and presented. (OC).

**Military Science (MILS)**  
**COURSE OFFERINGS**

**MILS 101**  Foundations of Officership  
1. 000 Credits

An overview of the United States Army and its organization, customs and traditions, ranking structure, and the roles of the officer and noncommissioned officer. Students will conduct hands-on training in land navigation, rappelling, marksmanship, drill and ceremony, and small unit tactics.

**MILS 102**  Basic Leadership  
1. 000 Credits

This course expands upon the fundamentals introduced in the previous term by focusing on communications, leadership and problem solving. It is designed to build on the experience of the first term and further broaden the introduction to the Army as well as to the leadership skills and "life skills" needed by an Army officer. Learning objectives focus on the following: introduction to communication principles of military briefings and effective writing; the Army Problem Solving Process; goal setting; and communication skills as they relate to listening, speaking and the counseling process; as well as several lessons that provide an overview of Army life.

**MILS 201**  MILS: Leadership & Teamwork  
1. 000 Credits

This course takes the unique approach of placing students in a wide variety of group exercises designed to emphasize various professional leadership competencies and insights. These events are held both inside the classroom and in outdoor settings. The instructor acts as a facilitator, helps guide student processing, or after action reviews of the events to derive the leadership group dynamics, and problem solving lessons that the exercise offers. In addition to military skills, practical 'life skills' are emphasized. The lessons are designed to maximize student participation, inspire intellectual curiosity, stimulate self-study and encourage cadets to interact.

**MILS 202**  Leadership and Teamwork  
1. 000 Credits

This course places students in an experiential learning environment which provides participants the opportunity to "experience" their learning, rather than simply being told what they are to learn. Students participate in a wide variety of group exercises designed to emphasize various professional leadership competencies and insights. These events, which range from physically challenging to mentally stimulating, are held both inside the classroom and in outdoor settings. The instructor acts as a facilitator, helps guide student processing through after action reviews of the events to facilitate student understanding of leadership principles, group dynamics, and problem solving methods. In addition to military skills, practical 'life skills' are emphasized. Lessons are designed to maximize student participation, inspire intellectual curiosity and introspection, as well as group interaction.

**Professional Education (PDED)**  
**COURSE OFFERINGS**

**PDED 318**  Topics in Education  
1. 000 TO 3. 000 Credits  
Must be enrolled in one of the following Classes:  
Junior  
Graduate

An examination, at the undergraduate level, of selected problems, practices or issues in education. The title as listed in the Schedule of Classes may change according to content. Course may be repeated for credit when specific topics differ.

**PDED 405**  Sp Ed Legisltn and Litigation  
3. 000 Credits  
Must be enrolled in one of the following Colleges:  
School of Education  
Must be enrolled in one of the following Classes:  
Senior  
Post-baccalaureate NCFD  
Junior  
Post-baccalaureate Cert only

Content traces the historical development of special education through landmark legislation and litigation, parent advocacy, and national economic and social needs. The provisions of federal and state special education mandates, judicial interpretations, and Michigan state guidelines regulating the delivery of educational and vocational services to persons with handicaps will also be addressed.
PDED 415  Museum Resources for Teaching
3.000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Senior
Undergrad Certification only
Junior

Explores the use of museums as educational resources by elementary and secondary teachers. Various museums in the greater Detroit metropolitan area will be visited and studied. Students will review how to plan educational trips and how to use museum resources in meeting their own particular individual needs. (OC)

PDED 416  Internship in Museum Education
2.000 OR 3.000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Coll of Arts, Sciences&Letters
Must be enrolled in one of the following Classes:
Sophomore
Senior
Junior

The museum education internship will prepare students with the knowledge and skills they need to plan, implement, and evaluate educational and interpretive programs in the context of museums. The educational functions of museums will be explored. The students will apply their knowledge and experiences to K-12 instruction in the core content areas.

PDED 418  Topics in education
1.000 TO 3.000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Coll of Arts, Sciences&Letters
Must be enrolled in one of the following Classes:
Post-baccalaureate Cert only
Undergraduate NCFD
Senior
Undergrad Certification only
Junior
Post-baccalaureate NCFD

This course is intended to introduce students to the characteristics and assessment of persons with ASD, as well as the best practices related to educating students with Autism Spectrum Disorders (ASD). Specifically, students will learn evidence based practices for: assessing students with ASD, creating an appropriate educational environment for students with ASD, and providing academic instruction and behavioral interventions to students with ASD in special education and general education settings. Instruction will emphasize specific assessment and teaching tools and behavior management principles and practices associated with educating K-12 student with ASD.

PDED 425  Educator and the Law
1.000 TO 2.000 Credits
Must be enrolled in one of the following Colleges:
School of Education
Must be enrolled in one of the following Classes:
Senior
Undergrad Certification only
Junior

Designed to familiarize classroom teachers with school law and its implications for educators, pupils, and parents. Consideration will be given to the legal aspects of such matters as physical threats, teacher liability, codes of conduct, discipline, and student rights. (OC)
