EDUC C-PSYCHOLOGICAL FOUNDATNS (EDC)

EDC 500  The Human Learner  2 Credit Hours
The growth and development of the human learner is studied, with stress upon teaching and learning from preschool through adulthood. Consideration will be given to theories of learning, development, and motivation, with the goal of identifying the implications of theory for educational practice.
Restriction(s):
Can enroll if Class is Post-baccalaureate Cert only or Graduate
Can enroll if College is Education, Health, and Human Services

EDC 501  Intro to Learning Disabilities  3 Credit Hours
Overview of characteristics, identification, service delivery models, and issues pertaining to persons from preschool to adulthood with learning disabilities. Required course for Special Education-Learning Disabilities Certification.
Restriction(s):
Can enroll if Class is Post-baccalaureate Cert only or Graduate
Can enroll if College is Education, Health, and Human Services

EDC 502  Adol Devl & Classroom Mgmt  3 Credit Hours
An examination of the current theories and research findings concerning the physical, social, emotional and cognitive development during the early and late adolescent years. Theory will be related to educational and parenting practices. Course includes significant material addressing classroom management of the middle school and high school classroom using simulations, case studies and videos of actual classrooms.
Restriction(s):
Can enroll if Class is Post-baccalaureate Cert only or Graduate
Can enroll if College is Education, Health, and Human Services

EDC 503  LD Practicum K-12  1 Credit Hour
The K-12 LD Practica will provide beginning students with initial exposure to the practical aspects of teaching LD students in a variety of general and special education settings. Students will be required to observe and actively participate in instructional planning, teaching, managing, and monitoring LD students in K-12 settings. Students will also observe a variety of service delivery models including the resource room, inclusive settings, and tutorial situations. Graduate standing or permission of the instructor; concurrent enrollment in C501.
Corequisite(s): EDC 501

EDC 504  Pract Adol Devl&Clsrm Mgmt  1 Credit Hour
A supervised field experience related to adolescent development and classroom management in grades 6-12. Requires a minimum of 45 clock hours of observation and work spread over a semester in a school setting. Must be taken with EDC 502. For undergraduate credit elect EDC 304.
Restriction(s):
Can enroll if Class is Post-baccalaureate Cert only or Graduate

EDC 505  Adult Lrning:Theory & Practice  3 Credit Hours
This course introduces students to current theory and practice for understanding and working with adult learners in today's society.
Restriction(s):
Can enroll if Class is Post-baccalaureate Cert only or Graduate

EDC 506  Applied Behavior Analysis I  3 Credit Hours
This is the first in a two course sequence in applied behavior analysis (ABA) that focuses on the fundamental principles, processes, and concepts of the field. These principles, processes, and concepts serve as the foundation of practice. Topics include: the definition and characteristics of ABA, basic elements in a scientific analysis of behavior, principles and tactics for analyzing and changing behavior, and fundamental elements and key terms that are essential to understanding the relationship between behavior and its environment. (YR)

EDC 507  Applied Behavior Analysis II  3 Credit Hours
This is the second in a two course sequence in applied behavior analysis (ABA) that focuses on the fundamental principles, processes, and concepts of the field that were covered in Applied Behavior Analysis I. Through discussion, demonstration, and analysis, students will learn about specific behavior change procedures based upon the principles of ABA and the process for selecting and implementing those procedures. (YR)
Prerequisite(s): EDC 506

EDC 508  Intro to Dvlpmntl Disabilities  3 Credit Hours
Full Title: Introduction to Developmental Disabilities This course will provide an overview of the issues related to individuals with developmental disabilities. Topics include the history, public policy issues, familial issues within the context of socio-cultural issues, and the role of families in the provision of services across the lifespan. Students will be exposed to the range of assessment practices for developmental disabilities and criteria for diagnosis. Other topics include educational and behavioral interventions, person centered planning/family centered support, post-school and adult issues, physical and mental health issues, services and supports to improve quality of life, controversial therapies, and ethical issues. (YR)

EDC 511  Dev Peer/Social Relationships  2 Credit Hours
Students will examine the processes of peer relations and socio-emotional development from birth to adolescence. Topics to be covered in this course include attachment, peer popularity and intimacy. As well, students will discuss the importance of the family on social development. Classroom environment and peers as educators will also be covered. (OC)
Prerequisite(s): EDC 340*
Restriction(s):
Can enroll if Class is Graduate

EDC 512  Soc Devl & Pos Guidnce Techn  3 Credit Hours
This course will examine the process of social and emotional development in childhood through adolescence. Positive strategies to promote and guide this development in the classroom will be explored using behaviorist and constructivist frameworks. Topics will include character education, discipline models, conflict resolution and family collaboration. Guiding the development of emotional regulation, perspective taking and peer relationships in children including children with special needs will be investigated.
Restriction(s):
Can enroll if Class is Post-baccalaureate Cert only or Post-baccalaureate NCFD or Graduate
Can enroll if College is Education, Health, and Human Services
EDC 514  Early Child Ed Special Needs  3 Credit Hours
Focuses on the psychological and educational needs of the young child with special needs. Discusses identification techniques and educational strategies for teaching in a regular early childhood classroom with young children having special needs. Special emphasis will be placed on behavioral, linguistic, and intellectual needs. Suitable for classroom teachers, child care directors, and teachers in training.
Prerequisite(s): EDC 540 or (EDC 340 or EDC 240 and (EDC 341 or EDC 241))
Restriction(s):
Can enroll if Class is Graduate

EDC 516  Research Methods Beh Analysis  3 Credit Hours
Full Title: Research Methods in Behavioral Analysis The purpose of this course is to introduce the fundamentals of behavior-analytic research methods. The course will review single-case time series methodologies to assess various dimensions of behavior and evaluate the effects of interventions on behavior. Single-case research has played an important role in developing and evaluating interventions designed to modify some aspect of human behavior. This course will encompass a broad range of research areas that utilize single-case designs within both the behavior analytic literature and other disciplines including school psychology, medicine, and business. (YR)
Prerequisite(s): EDC 506*

EDC 517  Mgmt of Classroom Behavior  3 Credit Hours
Provides intervention and management techniques for teachers and teacher candidates using principles of behavior modification. Includes examination of theoretical foundations, research and field reports, participation in self-management projects, and consideration of various applications in regular and special classrooms. Field experience is optional. Will focus on classroom management in early childhood and elementary environments, allowing a more focused examination of topics and case studies geared to those grade levels.
Prerequisite(s): EDC 300
Restriction(s):
Can enroll if Class is Post-baccalaureate Cert only or Graduate

EDC 520  Hum Sexuality:Psych-Ed Concepts  2 Credit Hours
The course is intended to acquaint elementary and secondary teachers with the elements that comprise sexuality as it relates to their lives and those of their students. Although a basic core of information is to be covered, the content of each class will provide for the needs and interests of the teachers. Teachers will be directly involved in identifying problems and the development and collection of strategies for problem resolution. Teachers who complete this program will meet the state requirements for certification in sex education/reproductive health.
Restriction(s):
Can enroll if Class is Graduate

EDC 525  Treat Plan/Eth Prof Cond ABA  3 Credit Hours
Full Title: Treatment Planning/Ethical and Professional Conduct in Applied Behavior Analysis. This course provides a comprehensive approach to treatment planning in Applied Behavior Analysis. The course addresses application of the principles of Applied Behavior Analysis to intervention, assessment, implementation, evaluation, program continuation/maintenance, and data-based clinical decision making. Central to treatment are the ethical responsibilities for Applied Behavior Analysts. The Professional and Ethical Compliance Code for Behavior Analysts, as put forth by the Behavior Analyst Certification Board is addressed. Throughout the course, the behavior analytic literature is used as the basis for all coursework, discussion, and evaluation. (YR)
Prerequisite(s): EDC 506

EDC 530  Mgmt of Classroom Behavior  3 Credit Hours
Full Title: Research Methods in Behavioral Analysis The purpose of this course is to introduce the fundamentals of behavior-analytic research methods. The course will review single-case time series methodologies to assess various dimensions of behavior and evaluate the effects of interventions on behavior. Single-case research has played an important role in developing and evaluating interventions designed to modify some aspect of human behavior. This course will encompass a broad range of research areas that utilize single-case designs within both the behavior analytic literature and other disciplines including school psychology, medicine, and business. (YR)
Prerequisite(s): EDC 506*

EDC 531  Constructivist Education  3 Credit Hours
An examination of constructivist theory and its application to educational practices. The nature and stages from birth through adolescence of cognitive and social development from the constructivist viewpoints of Piaget, Vygotsky, and others will be discussed. A major focus will be the application of constructivist theory to educational goals, teaching strategies and curriculum.
Prerequisite(s): (EDC 340 or EDC 240) and (EDC 341 or EDC 241)
Restriction(s):
Can enroll if Class is Graduate

EDC 539  Child Maltreatment and Trauma  3 Credit Hours
This course will examine adverse childhood experiences, including the impact of physical abuse, neglect, sexual abuse, and other forms of psychological trauma. Particular emphasis will be placed on the role of trauma informed professionals to identify, assess, and support the needs of children, youth, and families impacted by trauma and child maltreatment. This course will explore various levels of prevention, intervention, and collaborative response to suspected cases of child maltreatment by multi-disciplinary teams, including investigation and treatment. (YR)
Restriction(s):
Can enroll if Level is Graduate or Doctorate or Rackham or

EDC 540  Advanced Child Development  3 Credit Hours
An advanced study of the development of the child from conception through adolescence. Research on physical, cognitive, and psychosocial development will be explored and analyzed. Current applications of knowledge in this field will be examined as well as new innovations in both research and practice.
Restriction(s):
Can enroll if Class is Post-baccalaureate Cert only or Graduate

EDC 541  The Child: Birth to Three  2 to 3 Credit Hours
An examination of current theories and findings concerning the physical, social, emotional and intellectual development of the young child from prenatal to three years of age. Topics include fetus maturation, capabilities of the newborn, language, cognition, and environmental influences on development. Theory will be related to infant care practices in the home and in early childhood centers.

EDC 542  EC:Fam/Sch/Com Collab Mult Soc  3 Credit Hours
FULL COURSE TITLE: Early Childhood: Family School Community Collaboration in a Multicultural Society. Focuses on factors which influence the building of partnerships among early childhood professionals, families and communities. Includes understanding and working with culturally and linguistically diverse families. Various communication and problem-solving strategies which promote family involvement and community outreach are practiced through discussion and role play.
Prerequisite(s): (EDC 340 or EDC 240) and (EDC 341 or EDC 241)
Restriction(s):
Can enroll if Class is Graduate
Can enroll if College is Education, Health, and Human Services

EDC 543  Family/School/Community Collab  2 Credit Hours
Characteristics, roles, and functions of contemporary families are described. Various communication and training strategies designed to promote collaboration and teamwork within and between the school staff, the families, and community are described and practiced through discussion, problem-solving activities, and role playing. Family effectiveness assessment instruments and strategies are also described and practiced.
Restriction(s):
Can enroll if Class is Graduate
EDC 545  Develop Assess of Young Child  3 Credit Hours
Survey and demonstrations of formal and informal measures to assess
young children's physical, social, intellectual, and emotional development.
Instruction in some techniques appropriate for use by classroom
teachers, childcare directors, health care professionals, and others who
are interested in assessing the development of children aged birth to nine
years. Students cannot receive credit for both EDC 545 and EDC 445.
Prerequisite(s): EDC 340 or EDC 240
Restriction(s):
Can enroll if Class is Graduate

EDC 546  Cog/Memory Dev in Children  3 Credit Hours
Examines the theories and recent research on the development of
cognition and memory. Selected topics include: perception, language,
representation, social cognition and problem solving. Educational
implications and strategies for developing children's thinking and
memory are explored.
Prerequisite(s): EDC 340 or EDC 540
Restriction(s):
Can enroll if Class is Graduate

EDC 554  Formal & Informal Testing&Eval  2 to 3 Credit Hours
In this course students will develop their knowledge and skills in
traditional and non-traditional methods for evaluating classroom
learning, performance technology and training. Students will learn how to
construct evaluations, tests, analyze evaluation results, conduct program
evaluation and educational assessment in relation to performance
technology, training and teaching and learning.
Restriction(s):
Can enroll if Class is Graduate

EDC 555  Assmt: Sec Lang Learning K-12  2 Credit Hours
In this course, students will learn to identify, assess, and place second
language learners for appropriate instruction and instructional programs.
Students will review, evaluate, and implement a variety of assessment
instruments and strategies intended for use with limited English
proficient students, K-12. Students will also examine the impact and
issues regarding high-stakes assessments on English language learners.
Official admission to and good standing in the teacher certification
program are required. (W).
Restriction(s):
Can enroll if Class is Graduate
Can enroll if College is Education, Health, and Human Services

EDC 556  Learning & Classrm Assessment  3 Credit Hours
In this course students will examine the relationship between curriculum,
instruction and assessment. Students will review different forms of
assessment and evaluate the strengths and weaknesses of each format.
Students gain experience in 1) selection of assessment formats based
on curricular focus and student developmental levels; 2) development
of assessments; and 3) decision-making based on the results of the
assessments.
Restriction(s):
Can enroll if Class is Post-baccalaureate Cert only or Post-baccalaureate
NCFD or Graduate
Can enroll if College is Arts, Sciences, and Letters or Education, Health,
and Human Services

EDC 560  Rdg:Diag/Assessment Tech K-12  3 Credit Hours
Overview of K-12 reading diagnostic and assessment techniques.
Review of state-mandated tests. Use of criterion referenced tests, norm-
referenced tests, and informal inventories to develop individual reading
profile. Results of diagnostic instruments will be interpreted to suggest
appropriate instructional strategies. (YR).
Restriction(s):
Can enroll if Class is Graduate

EDC 561  Educating the Exceptional Child  3 Credit Hours
Characteristics, identification, assessment and instruction of students
with exceptionalities are addressed. Includes students with learning
disabilities, behavior disorders, emotional impairment, mild mental
retardation, communicative disorders, visual and hearing impairments,
orthopedic impairments, giftedness, and chronic medical conditions.
Service delivery models, general assessment procedures, and curricular
and instructional adaptations that help integrate students with
exceptionalities into the general education classroom will also be
addressed.
Restriction(s):
Can enroll if Class is Graduate

EDC 580  Behavioral Assessment  3 Credit Hours
This course will focus on Functional Behavior Assessment, a process
used in the field of Applied Behavior Analysis (ABA) that uses a variety of
techniques and strategies to gather information that allow practitioners
to identify the function, or purpose, of behavior. Essential elements of
the Functional Behavior Assessment/Functional Analysis process will be
addressed with emphasis on the interrelationship between assessment
results and the development of interventions based upon the principles of
ABA. (YR)
Prerequisite(s): EDC 506 and EDC 507

EDC 590  Litrcy Instr & Assess for Els  3 Credit Hours
Full Title: Literacy Instruction and Assessment for English Language
Learners. The course covers current and research-based pedagogy
for literacy instruction and assessment for teaching English language
learners. This course provides the knowledge and skills to effectively
teach literacy to non-native speakers of English. (YR)
Restriction(s):
Can enroll if Level is Rackham or Graduate

EDC 603  Mntl Hlth in Med, Hu Srv, Lrn  3 Credit Hours
Full Title: Mental Health Issues in Medical, Human Services, & Learning
Environments. This course surveys mental health across the lifespan and
the manifestation of mental health issues in medical, human services,
and educational environments. Included are developmental factors,
diagnostic issues, theoretical formulations, etiology, commonly used
evidence-based treatments, and research findings related to the range of
mental health issues. Issues related to classification systems, diagnosis,
and institutional responses to mental health issues within the context of
medical, human services, and learning environments are also addressed.
Medical, legal, educational, and social-emotional issues related to mental
health and the treatment of people living with mental health issues are
addressed. Other issues such as comorbidity, cultural influences on the
expression of mental health, and psychological factors related to physical
conditions will also be considered. (OC)
EDC 604  Adverse Childhood Experiences  3 Credit Hours
Full Course Title: Adverse Childhood Experiences Adverse Childhood Experiences (ACEs) are stressful, traumatic events, e.g., physical, sexual, or emotional abuse, neglect, multiple foster care placements, exposure to community violence, or significant family dysfunction (e.g., exposure to domestic violence, inconsistent caregiving due to mental illness or substance abuse), that have cognitive, affective, behavioral, and physiological impact across the lifespan. This course will examine the ACEs, their impact on one's overall functioning, and the implications for one's physical health, academic performance, and social-emotional functioning. Strategies and tools for interacting and communicating with individuals with ACEs are addressed, along with treatment modalities, ACE prevention strategies, and educational, clinical, and community resources. (OC)

EDC 616  Needs Assessment  3 Credit Hours
Full Title: Needs Assessment Evaluation Capstone This course is designed to provide students with the theoretical and practical knowledge to design, complete and report a needs assessment evaluation for an organization. A culminating assignment requires the students to integrate the knowledge and skills they have developed over the course of their graduate studies in a capstone project. (YR)

EDC 620  Survey Research and Design  3 Credit Hours
This course provides an advanced focus on the theories, methods, and procedures for conducting survey research in education. Topics explored include advanced design of survey instruments, interview and focus group protocols, planning and budgeting survey research, and survey data analysis techniques. Sampling and mixed method design will be addressed.
Prerequisite(s): EDK 500 and EDC 556
Restriction(s):
Can enroll if Class is Graduate
Can enroll if Level is Rackham or Graduate or or Doctorate

EDC 622  Science and Human Behavior  3 Credit Hours
The philosophy of the science of behavior is the foundation of applied behavior analysis (ABA), learning that philosophy is key to the application of the fundamental principles, processes, and concepts of the field. This course will address seminal publications in the science of behavior and examine their application. (YR)

EDC 623  Ethics in ABA  3 Credit Hours
This course provides students pursuing the BCBA certification with a comprehensive examination of the Professional and Ethical Compliance Code for Behavior Analysts. Through reading and discussion of the code students will learn to recognize Code violations and avoid unethical behavior and Code violations in all aspects of practice. Throughout the course, case studies will be used as a basis for demonstrating Code violations. (YR)
Prerequisite(s): EDC 506

EDC 624  Prog Develop, Super & Mgmt  3 Credit Hours
Full Title: Program Development, Supervision & Management This course seeks to address the selection, development, and implementation of behavior change procedures within the framework of strategies for personnel training, supervision, and management. Through the use of case studies, students will develop behavioral programming, consider the personnel issues to consider for effective programming, and examine strategies that allow for more effective personnel training, monitoring, and supervision. (YR)
Prerequisite(s): EDC 506 and EDC 507

EDC 630  Portfolio and Performance  3 Credit Hours
This course in an introduction to the theory and practice of performance and portfolio assessment. It examines the theory behind both forms of assessment including issues of validity, scoring, and the relationship to standards-based objectives. Topics include portfolio types, structures, contents and uses, as well as visual, written, oral, electronic and performance assessment. Students will create both a performance and a portfolio task, associated rubrics, and gain an understanding of how these types of assessments can impact teaching and learning.
Prerequisite(s): EDC 500 and EDC 556
Restriction(s):
Can enroll if Class is Graduate
Can enroll if Level is Rackham or Graduate or or Doctorate
Can enroll if College is Education, Health, and Human Services

EDC 645  Transdisc Appr: Assess/Collab  3 Credit Hours
Culturally sensitive and family-centered approaches to assessing infants, toddlers, and young children with a variety of disabilities as well as determining family resources, needs and priorities will be the focus. Selecting and using assessment instruments and procedures in order to guide decision-making about determining eligibility for services, planning intervention goals and objectives, monitoring progress, and evaluating program effectiveness will be included. (YR).
Prerequisite(s): EDC 414 or EDC 514
Restriction(s):
Can enroll if Class is Graduate

EDC 701  Intro to Learning Disabilities  3 Credit Hours
Overview of characteristics, identification, service delivery models, and issues pertaining to persons from preschool to adulthood with learning disabilities. Required course for Special Education-Learning Disabilities Certification.
Restriction(s):
Can enroll if Class is Specialist or Doctorate

EDC 714  Early Child Ed Special Needs  3 Credit Hours
Focuses on the psychological and educational needs of the young child with special needs. Discusses identification techniques and educational strategies for teaching in a regular early childhood classroom with young children having special needs. Special emphasis will be placed on behavioral, linguistic, and intellectual needs. Suitable for classroom teachers, child care directors, and teachers in training.
Restriction(s):
Can enroll if Class is Specialist or Doctorate

EDC 731  Constructivist Education  3 Credit Hours
An examination of constructivist theory and its application to educational practices. The nature and stages from birth through adolescence of cognitive and social development from the constructivist viewpoints of Piaget, Vygotsky, and others will be discussed. A major focus will be the application of constructivist theory to educational goals, teaching strategies and curriculum. Additional course work differentiates this course from the master's level course.
Restriction(s):
Can enroll if Level is Specialist or Doctorate or

EDC 740  Seminar in Ed Psych/Spec Educ  3 Credit Hours
This course will focus on contemporary topics related to the development of knowledge of current theories in the areas of cognitive development, language, motor, and social development, in particular as they relate to issues in special education.
Restriction(s):
Cannot enroll if Class is
Can enroll if Degree is Education Specialist, Doctor of Education
Can enroll if College is Education, Health, and Human Services
EDC 756  Learning & Classrm Assessment  3 Credit Hours
In this course students will examine the relationship between curriculum, instruction and assessment. Students will review different forms of assessment and evaluate the strengths and weaknesses of each format. Students gain experience in 1) selection of assessment formats based on curricular focus and student developmental levels; 2) development of assessments; and 3) decision-making based on the results of the assessments.

Restriction(s):
Can enroll if Class is Specialist or Doctorate

EDC 845  Transdisc Appr: Assess/Collab  3 Credit Hours
Culturally sensitive and family-centered approaches to assessing infants, toddlers, and young children with a variety of disabilities as well as determining family resources, needs and priorities will be the focus. Selecting and using assessment instruments and procedures in order to guide decision-making about determining eligibility for services, planning intervention goals and objectives, monitoring progress, and evaluating program effectiveness will be included. (YR).

Prerequisite(s): EDC 545

Restriction(s):
Can enroll if Class is Specialist or Doctorate
