

# DUAL ENROLLMENT PROGRAMS

## High School Dual Enrollment

Dual enrollment provides an opportunity for high school students with demonstrated academic potential to enroll in selected UM-Dearborn courses while completing their high school graduation requirements.

The purpose of the program is to supplement and enrich the educational experience by allowing students to pursue course work which otherwise would not be available. Admission as a dual enrolled student is a non-degree status. Students are expected to complete all graduation requirements mandated by his/her high school. Dual Enrollment students are granted full privileges of UM-Dearborn students, including use of the library and recreational facilities and the opportunity to purchase student tickets to cultural and athletic events at the University of Michigan. Dual enrollment students may enroll for a maximum of eight credit hours per semester unless additional hours are approved by the Director of Admissions.

Students seeking admission to a degree program after high school graduation must apply and meet all minimum admission criteria. Students will benefit from already having college credits achieved to apply toward their degree.

**Note:** Students must receive a grade of C or higher in dual enrollment course(s) at UM-Dearborn to be eligible to register for the next semester.
