

BEHAVIORAL AND BIOLOGICAL SCIENCES

The study of Behavioral and Biological Sciences investigates the intersections between biochemistry, psychology, genetics, neurobiology, behavior, immunology and anthropology. Students choosing the Bachelor of Arts, or Bachelor of Science, in Behavioral and Biological Sciences will learn the foundations of both biological and psychological sciences as they apply to the study of human and animal behavior, as well as ethical considerations and implications of research. The student experience will include a selection of lectures and laboratory courses to develop foundational understanding, hands-on experimental understanding and critical thinking skills. Students trained in these areas will be prepared for business and research positions, for pursuing advanced degrees in medical school, pharmacy or graduate programs and will contribute in the following areas:

- Health and wellness, making a direct and significant impact in areas in which citizens have received “poor marks.”
- Health and the environment, indirectly, by working in research and within industry to change manufacturing processes and improve products.
- Leadership in business, industry and politics.
- K-12 education through service learning and outreach.

Please visit the Behavioral and Biological Sciences (<https://umdearborn.edu/casl/undergraduate-programs/areas-study/behavioral-biological-sciences/>) webpage for more information.

In addition to the major requirements, students must complete all CASL Degree Requirements (<http://catalog.umd.umich.edu/undergraduate/college-arts-sciences-letters/>).

Prerequisites to the Major

Not counted in the minimum 36 credit hours required for the major.

Code	Title	Credit Hours
PSYC 101	Introduction to Psychology	3
BIOL 130	Intro Org and Environ Biology	4
BIOL 140	Intro Molec & Cellular Biology	4
CHEM 134	General Chemistry IA	4
CHEM 136	General Chemistry IIA	4
CHEM 225	Organic Chemistry I	3
CHEM 226	Organic Chemistry II	3
Total Credit Hours		25

Major Requirements

Minimum 36 credits hours required depending on selection of courses.

Code	Title	Credit Hours
BIOCHEMISTRY		3
		or
		6
Select one of the following:		
BCHM 370	Principles of Biochemistry	

BCHM 470 & BCHM 471	Biochemistry I and Biochemistry II	
GENETICS/CELL BIOLOGY		3-4
Select one of the following:		
BIOL 301	Cell Biology	
BIOL 306	General Genetics	
BIOL 474	Molecular Biology	
NEUROSCIENCE		4
BIOL 350	Introduction to Neurobiology	
BIOLOGY, EVOLUTION AND ANIMAL BEHAVIOR		3
Select one of the following:		
ANTH 331	Biological Anthropology and Human Evolution	
ANTH 336	Introduction to Primates	
ANTH 340	Beyond Race: Understanding Human Variation	
ANTH 409	Human Body, Growth & Health	
ANTH 430	Medical Anthropology	
BIOL 353	Ornithology	
BIOL 360	Population Genetics & Evolutn	
BIOL 419	Behavior and Evolution	
BIOL 456	Behavioral Ecology	
PSYC 372	Animal Behavior	
PSYC 474	Animal Learning and Cognition	
PSYC 488	Primateology Field Course	
PHYSIOLOGICAL PSYCHOLOGY		3
Select one of the following:		
BIOL 357	Human Physiology	
PSYC 370	Physiological Psychology	
COGNITION		6
Select two of the following:		
PSYC 363	Cognitive Psychology	
PSYC 375	Psychology of Language	
PSYC 400	Cognitive Neuroscience	
PSYC 461	Learning and Memory	
PSYC 463	Sensation and Perception	
PSYC 464	Applied Cognitive Psychology	
EPIDEMIOLOGY/HEALTH PSYCHOLOGY		3
Select one of the following:		
ANTH 415	Nutrition and Health	
BIOL 380	Epidemiology	
HHS 412	Principles of Epidemiology	
PSYC 455	Health Psychology	
ETHICS IN RESEARCH		1 or 3
Select one of the following:		
BBS 451	Ethics in Research	
HHS/PHIL 442	Medical Ethics	
STATISTICS		3
Select one of the following:		
PSYC 381	Prin of Stat and Exper Design	
STAT 301	Biostatistics I	
EXPERIMENTAL PSYCHOLOGY		4
PSYC 465	Experimental Psychology	

CAPSTONE	3-4
BBS 490 Bio and Beh Science Capstone	
BIOL/BBS 402 Physiology of Excitable Cells	
Total Credit Hours	36-43

NOTE: At least 18 of the 36 credit hours for the major must be elected at UM-Dearborn.

Recommended Electives:

ANTH 415 Nutrition and Health , BIOL 304 Ecology , BIOL 410 Diversity Issues Health Care , HHS 435 Obesity and the Lifecourse , PSYC 300 Life-Span Developmental Psych , PSYC 320 Social Psychology , PSYC 440 Abnormal Psychology , PSYC 442 Child Psychopathology , PSYC 446 Human Sexual Behavior , PSYC 470 Advanced Physiological Psych , PSYC 473 Clinical Neuropsychology , PSYC 474 Animal Learning and Cognition

Honors Designation in Behavioral and Biological Sciences

In order to be considered for Honors designation, a student must complete and submit an honors application (attached) to the BBS Program committee Director via his/her/their advisor no later than the end of the term prior to graduation.

Honors in BBS will be earned by meeting all of the following criteria:

- cumulative GPA of 3.5 or higher in BBS major courses
- cumulative GPA of 3.3 or higher in all university courses
- completion of a minimum of 6 six credit hours of Independent/ Directed Research (BBS 498,499), spread over 2 or more years, under the supervision of one principal investigator, who will serve as thesis advisor. This research must have a BBS program (broadly defined) focus.
- Completion of a thesis-like document that thoroughly describes the background, experimental design, methodology and discussion of data generated in the context of the scientific literature.
- Presentation of the research thesis before a committee of three faculty: the thesis advisor, two full time Faculty from the BBS program committee or one BBS faculty member and one external member of the student's choosing. The defense should be held a minimum of 2 weeks prior to the final-exams week of the semester in which the student is graduating. The committee must be provided with a draft of the thesis one week prior to the defense **OR** Presentation of the research in a public forum (e.g. scientific meeting, College of Arts, Sciences, and Letters (CASL) Research Day, Department of Natural Sciences Poster Day).
