

HEALTH POLICY STUDIES

Students will explore the economics and politics of health care delivery, sociological perspectives on health, cross-cultural comparisons of health care systems, ethical considerations, and practical work in aspects of the American health care and health policy systems. The minor is intended for students interested in health services administration, health policy and planning, and such medical professions as medicine, dentistry and nursing.

Minor Requirements

Students interested in completing the health policy studies minor must complete a total of 15 credits from the following:
