COMMUNITY HEALTH EDUCATION (CHE)

CHE 101  Intro to Health Education  3 Credit Hours
This course is designed to introduce students to the field of community health education. Students will explore the theoretical and practical issues of health education and will identify and apply health education principles to health challenges facing individuals, groups and communities.

CHE 201  Medical Terminology  3 Credit Hours
This course will focus on an in-depth presentation of medical language to serve as a solid foundation for students interested in health care, medicine, nursing, pharmacy, physical therapy, or related careers. Medical terminology for both health and disease is presented in relation to human structure and function. Understanding of the course content builds a framework by introducing the key terms as they are applied to specific body systems.

CHE 402  Internship CHE  3 to 6 Credit Hours
CHE 402 Internship in Community Health Education is designed to provide opportunities for students to develop, enhance, and assess health education skills and competencies in the direct application of community health education. Students will observe an academically prepared health educator within a health service agency/organization and be directly involved in the delivery of health education and will reflect on learning experiences and discuss health education issues within the seminar sessions.

Prerequisite(s): CHE 101
Restriction(s):
Can enroll if College is Education, Health, and Human Services
